The term “nitrate-mixture” means any preparation, other than gunpowder ordinarily so called, formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance.

The nitrate-mixture class comprises such explosives as—

Pyrolithe,
Pudrolithe,
Poudre saxifragine,

and any preparation coming within the above definition.

CLASS 3.—*Nitro-compound Class.*

The term "nitro-compound" means any chemical compound possessed of explosive properties, or capable of combining with metals to form an explosive compound, which is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid) or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

The nitro-compound class has two divisions.

Division 1 comprises such explosives as—

Nitro-glycerine,	Dualine,
Dynamite,	Glyoxiline,
Lithofracteur,	Methylic nitrate,

and any chemical compound or mechanically mixed preparation which consists, either wholly or partly, of nitro-glycerine or some other liquid nitro-compound.

Division 2 comprises such explosives as—

Gun-cotton ordinarily so called,	Cotton gunpowder,
Gun-paper,	Schultz's powder,
Xylidine,	Nitro-mannite,
Gun sawdust,	Picrates,
Nitrated gun-cotton,	Picric powder,

Tonite (or cotton powder),

and any nitro compound as before defined which is not comprised in the first division.

CLASS 4.—*Chlorate-mixture Class.*

The term "chlorate-mixture" means any explosive containing a chlorate.

The chlorate-mixture class has two divisions.

Division 1 comprises such explosives as—

Horsley's blasting powder,
Brain's blasting powder,

and any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound.

Division 2 comprises such explosives as—

Horsley's original blasting powder,	Hochstadter's blasting charges,
Erhardt's powder,	Reichen's blasting charges,
Reverley's powder,	Teutonite.

Chlorated gun-cotton,

and any chlorate-mixture as before defined which is not comprised in the first division.

CLASS 5.—*Fulminate Class.*

The term "fulminate" means any chemical compound or mechanical mixture, whether included in the foregoing classes or not, which, from its great susceptibility to detonation, is suitable for employment in percussion-caps or any other appliances for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

The fulminate class has two divisions.

Division 1 comprises such compounds as the fulminates of silver and of mercury and preparations of these substances, such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of phosphorus compounds, with or without the

addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with a sulphurate, with or without carbonaceous matter.

Division 2 comprises such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

CLASS 6.—*Ammunition Class.*

The term "ammunition" means an explosive of any of the foregoing classes when enclosed in any case or contrivance, or otherwise adapted or prepared so as to form a cartridge or charge for small-arms, cannon, or any other weapon, or for blasting, or to form any safety or other fuze for blasting or for shells, or to form any tube for firing explosives, or to form a percussion-cap, a detonator, a fog signal, a shell, a torpedo, a war-rocket, or other contrivance other than a firework.

The term "percussion-cap" does not include a detonator.

The term "detonator" means a capsule or case which is of such strength and construction, and contains an explosive of the fulminate-explosive class in such quantity that the explosion of one capsule or case will communicate the explosion to other like capsules or cases.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges. *The term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles, or with machine-guns which have special chambers.*

The maximum gauge at which a small-arm cartridge can be accepted as "safety" is one inch. The following are the gauges of the machine-gun cartridges which may be accepted as "safety"—

.303-inch cordite.

Martini-Henry rifle, solid case.

.45-inch Gardner, Gatling and Nordenfeldt, except Martini-Henry chambered guns.

.4 inch.

Cartridges of larger gauge are not safety cartridges.

The ammunition class has three divisions.

Division 1 comprises exclusively—

Safety cartridges.

Safety fuzes for blasting.

**Fuzes for shells, and tubes friction for guns, provided there be no more than 5 fuzes or 25 tubes in one package, and that the package be a hermetically sealed metal cylinder.*

Railway fog-signals.

Percussion-caps.

Division 2 comprises any ammunition, as before defined, which does not contain its own means of ignition and is not included in division 1, such as—

Cartridges for small-arms, which are not safety cartridges,

Cartridges and charges for cannon, shells, mines, blasting, or other like purposes,

Shells and torpedoes containing any explosive,

Fuzes for blasting, which are not safety fuzes,

Fuzes for shells,

Tubes for firing explosives,

War-rockets,

which do not contain their own means of ignition.

Division 3 comprises any ammunition, as before defined, which contains its own means of ignition and is not included in division 1, such as—

Detonators,
Cartridges for small arms, which are not safety cartridges,
Fuzes for blasting, which are not safety fuzes,
Fuzes for shells,
Tubes for firing explosives,

which do contain their own means of ignition

By ammunition containing its own means of ignition is meant ammunition having an arrangement, whether attached to it or forming part of it, which is adapted to explode or fire the same by friction or percussion.

CLASS 7.—*Firework Class.*

The firework class has two divisions.

Division 1 comprises firework compositions, that is to say, any chemical compound or mechanically mixed preparation of an explosive or inflammable nature, which is used for the purpose of making manufactured fireworks and is not included in the former classes of explosives, and also any star and any coloured fire composition, subject to the proviso hereinafter set forth.

Division 2 comprises manufactured fireworks, that is to say, any explosive of any of the foregoing classes and any firework composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, log cap or unorce, serpent, rocket (other than a war rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects or pyrotechnic signals or sound signals

Provided that a substantially constructed and hermetically closed metal case containing not more than 1 lb. of coloured fire composition of such a nature as not to be liable to spontaneous ignition shall be deemed to be a "manufactured firework."

MANUFACTURE, POSSESSION AND SALE.

(a) *General Rules*

2. An explosive shall not be manufactured *except* under, and in accordance with, the conditions of a license to manufacture the explosive granted under these rules

Provided that this rule shall not apply—

- (a) to the making of a small quantity of an explosive for the purpose of chemical experiment, and not for practical use or for sale; or
- (b) to the filling for private use, and not for sale, of any safety cartridges to the amount allowed by these rules to be possessed for private use.

3. *Whoever manufactures an explosive in contravention of rule 2 shall be punishable with fine which may extend to three thousand rupees.*

4. An explosive shall not be possessed *except* under, and in accordance with, the conditions of a license to possess the explosive granted under these rules:

Provided that this rule shall not apply—

- (1) to a person possessing for his private use and not for sale—

- (a) gunpowder to an amount not exceeding on the same premises 30lbs., or in lieu of the said quantity of gunpowder 15lbs. of any other explosive, or in lieu of any less amount of gunpowder not so possessed, half that amount of other explosive; or
- (b) gunpowder contained in safety cartridges to an amount not exceeding 150lbs., or in lieu thereof 150lbs. of any explosive contained in ammunition of the 1st division of class 6, or in lieu of any less amount of gunpowder not so possessed, that amount of any explosive so contained:

Exception.—Nothing in the foregoing portion of the proviso to this rule shall be held to authorize the possession for private use—

- (a) of any explosive of the 5th (fulminate) class; or
 - (b) of any explosive whereof the possession has been prohibited absolutely by notification under section 6 of the *Indian Explosives Act* (IV of 1884); or
 - (c) where the possession of an explosive has by notification under that section been prohibited, subject to conditions, of any such explosive except subject to those conditions;
- (2) to the possession of an unlimited quantity of fireworks, if obtained and intended for immediate use and not for sale, and if kept for a period not exceeding 14 days in a safe and suitable place, and with all due precautions for the public safety;

(3) to the possession of any explosive by a carrier or other person for the purpose of transport when the same is being kept or transported in accordance with the provisions of the rules made under the *Indian Explosives Act* (IV of 1884) with respect to the transport of such explosive; or

(4) to the possession of any gunpowder, rockets or other explosive on board any ship in pursuance of the provisions of the Merchant Shipping Acts *for the time being in force*, or any order or regulation under those Acts.

5. *Whoever* possesses an explosive in contravention of rule 4 shall be punishable with fine which may extend to one thousand rupees.

6. An explosive shall not be sold except under, and in accordance with, the conditions of a license to sell the explosive granted under these rules:

Provided that this rule shall not apply to any person selling any explosive which for his own private use he lawfully possesses, to any person who is not legally prohibited from possessing the same.

7. *Whoever* sells an explosive in contravention of rule 6 shall be punishable with fine which may extend to five hundred rupees.

(b) *Licensing of the manufacture, possession, and sale of gunpowder and certain explosives*

8. Licenses to manufacture, possess and sell, or to possess and sell, or to possess an explosive of the 1st (gunpowder) class, or of the 1st division of the 6th (ammunition) class, or of the 7th (firework) class, to such total amount during the currency of the license and in such places as shall be approved by the licensing officer, may be granted in a Presidency-town and its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate:

Provided that nothing in any such license shall be deemed to entitle the license holder to keep at the same time in the place to which the license applies more than 200lbs. of gunpowder, 500lbs. of explosive contained in ammunition of the 1st division of the 6th (ammunition) class, and 200lbs. of fireworks, or any such less quantity of any of these explosives as the licensing officer may direct in this behalf.

9. The following fees shall be paid for every license granted under the last foregoing rule, namely:—

- (1) a fee of twenty rupees for every license to manufacture, possess and sell the maximum quantity of explosive mentioned in the *last foregoing* rule, or any less quantity;
- (2) a fee of ten rupees for every license to manufacture, possess and sell half the quantity of explosive mentioned in the *last foregoing* rule, or any less quantity;
- (3) a fee of five rupees for every license to manufacture, possess and sell a fourth of the quantity of explosive mentioned in the *last foregoing* rule, or any less quantity;
- (4) a fee of ten rupees to possess and sell the maximum quantity of explosive mentioned in the *last foregoing* rule, or any less quantity;
- (5) a fee of five rupees to possess and sell half the quantity of explosive mentioned in the *last foregoing* rule, or any less quantity;

(6) a fee of two rupees eight annas to possess and sell a fourth of the quantity of explosive mentioned in the *last foregoing* rule, or any less quantity; and

(7) a fee of eight annas for every license to possess explosives.

10. Every license granted under rule 8 shall be in Form A, B, or C in the schedule hereto annexed, as the case may be, and shall be subject to the conditions prescribed therein.

11. *Whoever* commits a breach of any condition subject to which a license under rule 8 is granted shall be punishable with fine which may extend to five hundred rupees.

(c) *Licensing of the manufacture of other explosives.*

12. Licenses to manufacture explosives other than those referred to in rule 8 shall be granted by the Governor General in Council on payment of such fees in such form, for such term and subject to such conditions, as the Governor-General in Council may in each case prescribe.

Provided that the Governor-General in Council shall, in the case of any such license, prescribe all the conditions which are hereinafter prescribed for licenses to possess an explosive of the same description and quantity as the manufacturing license is to cover.

13. *Whoever* commits a breach of any condition subject to which a license under rule 12 is granted shall be punishable with fine which may extend to three thousand rupees

(d) *Licensing of the possession of small quantities of other explosives.*

14. Licenses for the possession, at such places as shall be approved by the licensing officer, of explosives other than those specified in rule 8 *may*, if the explosive is not one of the 5th (fulminate) class, and if the quantity to be possessed at the same time does not exceed 60lbs, be granted in a Presidency-town and its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate

15. Every license granted under rule 14 shall be in Form D in the schedule hereto annexed, and shall be subject to the conditions prescribed therein. A fee of five rupees shall be paid for every such license.

16. *Whoever* commits a breach of any condition subject to which a license under rule 14 is granted shall be punishable with fine which may extend to one thousand rupees.

(e) *Licensing of the possession of explosives generally.*

17. Licenses for the possession of explosives other than those which may be issued under rules 8 and 14 *may*, if the explosive is not one of the 5th (fulminate) class, be granted by the Local Government in accordance with the following procedure:—

(1) The applicant shall submit to the District Magistrate, or in a Presidency-town and its suburbs, to the Commissioner of Police, an application in writing accompanied by a plan (drawn to scale) of the place in which it is proposed to keep the explosive (herein referred to as the magazine) and the site thereof.

2) The application shall specify such of the following matters as are applicable, namely:—

(a) the boundaries of the land forming the site of the magazine, and either any belt of land surrounding the site which is to be kept clear, and the buildings and works from which it is to be kept clear, or the distances to be maintained between the magazine, or any part thereof, and other buildings and works,

[If a table of minimum distances has been prescribed in this behalf by the Governor-General in Council, or the Local Government with the sanction of the Governor-General in Council, the distances to be maintained between the magazine and the various kinds of buildings shall not be less than those specified for the explosive in question (when stored in the quantity intended) in the Government list of distances.]

- (d) the situation, character and construction of all the mounds, buildings and works on or connected with the magazine, and the distances thereof from each other;
 - (e) the amount of explosives and of ingredients thereof wholly or partly mixed to be allowed at the same time within the boundaries of the magazine; and
 - (d) any special terms which the applicant may propose by reason of any special circumstances arising from the locality, the situation or construction of any buildings or works, or the nature of any process or otherwise.
- (3) Upon receipt of the said application—
- (a) The District Magistrate or Commissioner of Police, as the case may be, shall thereupon cause notice to be published of the application, and fix a date on which any persons shall be heard objecting to the establishment of a magazine on the proposed site who have not less than seven clear days before the day of hearing sent to the said District Magistrate or Commissioner of Police, and to the applicant, notice of their intention to appear and object with their name, address and calling, and a short statement of the grounds of their objection.
 - (b) Where the site of the proposed magazine is situate within, or within one mile of, the limits of the jurisdiction of any municipality or of any Port authority, the applicant shall serve on such authority notice of the application, and of the date of hearing by the District Magistrate or Commissioner of Police.
 - (c) The said notices shall be published and served at the cost of the applicant by the District Magistrate or Commissioner of Police not less than one month before the date of hearing.
 - (d) The District Magistrate or Commissioner of Police shall fix the date of hearing as soon as practicable after application is made to him, and the time so fixed shall be as soon as practicable after the expiration of the said month from the publication and service of the notices by the applicant.
 - (e) On consideration of the application, and on making such enquiry as may be deemed necessary, the District Magistrate or Commissioner of Police may dissent altogether from the establishment of such new magazine on the proposed site, or assent thereto, either absolutely, or on any conditions requiring additional restrictions or precautions.
 - (f) On the completion of the enquiry, the District Magistrate or Commissioner of Police shall forward the application with his recommendation to the Local Government. The Local Government may thereupon grant the license applied for, either in accordance with the recommendation of the District Magistrate or Commissioner of Police, or with the addition of any additional restrictions and precautions as may be deemed proper, or may refuse such license.

Provided that, if the distance of the proposed magazine from any dwelling house, highway, street, public thoroughfare or public place is less than 200 yards, or if for any other reason it considers it advisable to do so, the Local Government shall, before granting the license, obtain the opinion of an Inspector of Explosives after inspection of the place by him.

If a table of distances to be observed has been prescribed, it will be sufficient to see that the provisions requiring the minimum distance so laid down for the case is not infringed.

Provided that, if the application is for the renewal of a license, issued prior to the issue of the table of distances, the Local Government may, if the Inspector of Explosives advises that this can be done without danger, renew the license without requiring that the table of distances shall be complied with.

- (g) If the Local Government grant a license, it shall forward the same to the District Magistrate or Commissioner of Police, who, when satisfied that the magazine is sufficiently completed according to the license to justify the use thereof, shall confirm the license; but until so confirmed, the license shall not come into force.

18 A fee of Rs 20 shall be paid for every license granted under rule 17.

19. Every license granted under rule 17 shall be in Form E in the Schedule hereto annexed, and shall be subject to the conditions prescribed therein.

19A. *With the previous sanction of the Government of India and subject to any conditions or restrictions that may be deemed necessary, the Local Government may authorize the possession of explosives under rule 17 in a floating magazine, and may direct the necessary modifications in the procedure prescribed in rule 17 and in license Form E in such special cases.*

20. Whoever commits a breach of any conditions subject to which a license under rule 17 is granted shall be punishable with fine which may extend to one thousand rupees.

21. Licenses for the possession of explosives of the 5th (fulminate) class shall be granted by the Governor-General in Council on payment of such fees and in such form, and subject to such conditions, as he may in each case prescribe.

22. Whoever commits a breach of any condition subject to which a license is granted under rule 21 shall be punishable with fine, which may extend to one thousand rupees.

(e) *Licensing of the sale of other explosives*

23. Licenses for the sale of explosives other than those referred to in rule 8 may be granted in a Presidency-town and its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate, to any person licensed to possess the same.

24. A fee of five rupees shall be paid for every license granted under rule 23.

25. Every license granted under rule 23 shall be in Form F in the schedule hereto annexed, and shall be subject to the conditions therein prescribed.

26. Whoever commits a breach of any condition subject to which a license under rule 23 is granted shall be punishable with fine, which may extend to five hundred rupees.

(f) *Supplementary*

27. The officers herein undermentioned are authorized, within the areas respectively specified below—

- (a) to enter, inspect and examine any place, carriage or vessel in which an explosive is being manufactured, possessed, used, sold, transported or imported under a license granted under the Indian Explosives Act (IV of 1884), or in which they have reason to believe that an explosive has been, or is being, manufactured, possessed, used, sold, transported or imported in contravention of that Act, or of the rules thereunder;
- (b) to search for explosives therein;
- (c) to take samples of any explosives found therein on payment of the value thereof; and
- (d) at their discretion to seize, detain, remove, and, if necessary for the public safety, destroy any explosive found therein in respect of which there may be reason to believe that the provisions of the said Act or of the rules thereunder have been contravened.

Areas

Officers

In all parts of Bengal

{ The Superintendent of the Gunpowder Factory, Ishapore.
The Assistant Superintendent of the Gunpowder Factory, Ishapore.

Within their respective Districts

All District Magistrates

Within the areas respectively subject to their jurisdiction.

All Magistrates subordinate to the District Magistrate

In the Town of Calcutta and its suburbs. *The Commissioner of Police, Calcutta, and all Police Officers of rank not below that of Inspector, if specially deputed in that behalf by the Commissioner of Police.*

Provided that—

- (1) *Whenever the Superintendent or the Assistant Superintendent of the Gunpowder Factory, Ishapur, or any Magistrate subordinate to the District Magistrate seizes, detains or removes any such explosive, he shall report the fact to the District Magistrate; and that*
- (2) *Neither the Superintendent nor the Assistant Superintendent of the said Factory, nor any Magistrate subordinate to the District Magistrate, shall destroy any such explosive without the previous sanction of the District Magistrate.*

28. *A person licensed to possess an explosive shall not be required to take out a license for the manufacture of the explosive by reason that in connection with his magazine or licensed premises he fills for sale or otherwise any cartridge for small arms with the said explosive :*

Provided that he observes the following regulations, namely —

- (1) *There shall not be in the room in which such filling is being carried on more than five pounds of gunpowder, or an amount to be prescribed by the Local Government in this behalf of any other explosive, except it is made up into safety cartridges ;*
- (2) *Any work unconnected with the making of the cartridges shall not be carried on in the room while such filling is being carried on ;*
- (3) *There shall not be in the room while such filling is being carried on any fire nor any artificial light, except a light of such construction, position or character as not to cause any danger of fire or explosion ;*
- (4) *The room in which the filling is carried on shall be detached from the magazine, but in the immediate neighbourhood thereof, and at such distance therefrom as may be specified on the license by the authority granting the same ; and*
- (5) *The occupier shall give notice to the authority granting his license that he intends to carry on such filling of cartridges as is allowed by this rule.*

28A. *A person licensed to possess an explosive shall not be required to take out a license for manufacture by reason that, in connection with his magazine or licensed premises he, by filling cartridges, making charges, drying, sifting, fitting or otherwise, adapts or prepares the said explosive for use exclusively in his mine, or quarry or in some excavation or work carried on by him, or under his control.*

Provided that he observes the following regulations, namely —

- (1) *There shall not be in the workshop in which such adaptation or preparation is carried on more than 100lbs. of gunpowder, or an amount to be prescribed by the Local Government in this behalf of any other explosive ;*
- (2) *Any work unconnected with such adaptation or preparation shall not be carried on in the said workshop while such adaptation or preparation is being carried on ;*
- (3) *The said workshop shall be detached from the magazine, but in the immediate neighbourhood thereof, and at such distance therefrom as may be specified on the license by the authority granting the same,*
- (4) *An explosive of one description shall not be converted into an explosive of another description and shall not be unmade or resolved into its ingredients ; and*
- (5) *The occupier shall give notice to the authority granting his license that he intends to carry on such adaptation or preparation as is allowed by this rule.*

D.—GENERAL.

29. *Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions subject to which it is granted.*

30. If a person licensed to manufacture, possess or sell an explosive dies or becomes bankrupt, or becomes mentally incapable or otherwise disabled, the persons carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the *Indian Explosives Act (IV. of 1884)* or the rules thereunder for carrying on the business or acting under the license during such reasonable time as may be necessary to allow him to make an application to the authority granting the license for a new license in his own name during the currency of the unexpired portion of the original license. Such new license shall be granted on payment of one rupee.

31. The fees leviable under these rules shall be taken in the shape of impressed stamps. Applications for licenses or renewals of licenses shall, if not otherwise provided, be written on plain paper, the licenses themselves being issued on impressed stamps of value equal to the amount of fee leviable in respect of such licenses or renewals.

32. All licenses except licenses to manufacture an explosive under rule 12, or to possess explosive of the 5th (fulminate) class under rule 21, shall expire on the 31st December of the year for which they are granted. Licenses granted under rules 12, 21, shall be current for the terms therein specified. But the currency of a license may, unless the circumstances have so changed that the grant of a new license would either not be authorized under the Act and rules, or is deemed objectionable by the licensing authorities, on application previous to its expiration, be renewed on payment of the original fee.

33. When a license granted in accordance with these rules is lost or accidentally destroyed, a duplicate may be granted to the licensee on payment of a fee of eight annas.

34. Any person holding a license, or acting under a license, granted in accordance with these rules, shall be bound to produce the same when called upon to do so by any *Inspector of Explosives* or any Magistrate or by any Police Officer in charge of a police-station or by any Police Officer of higher rank.

35. All Magistrates or other authorities acting under these rules shall perform their duties subject to the control of their executive superiors and of the Local Government.

36. Any authority empowered to grant a license under the foregoing rules may, if he thinks fit, direct by an order written on the license that it shall have the effect of a like license under the *Indian Arms Act (XI of 1878)*.

37. Any person lawfully entitled under the *Indian Arms Act (XI of 1878)*, or the rules thereunder, to possess any explosive coming under the head of ammunition as defined in that Act may possess, without license under these rules, any such explosive in reasonable quantities for his own private use.

SCHEDULE.

FORM A.

(See Rule 8.)

FEE RUPEES IN STAMPS

Licence to manufacture, sell, and possess gunpowder or an explosive of the 1st Division of the 6th (Ammunition) class or of the 7th (Firework) class

Granted in a Presidency-town and its suburbs by the Commissioner of Police and elsewhere by the District Magistrate.

Name, etc., of licensee holder and place of residence	Place of business, factory or shop.	Maximum quantity of explosive to be kept at any one time	Description and quantity to be manufactured during the year	Description and quantity to be possessed and sold during the year	Date on which license expires
					The 31st of December 189 .

_____ District, }
_____ 189 . }

(Signature.)

_____ of _____

Conditions.

1. This license is given subject to the provisions of the Indian Explosives Act (IV of 1884) and the rules thereunder.

2. The license-holder shall keep records and accounts of all explosive manufactured, of all stock in hand, and of all sales, in such form as the Local Government may from time to time direct.

3. The license-holder shall exhibit his stock and his books of manufacture and sales to any Magistrate or to any Police Officer not below the rank of Inspector, when such officer may call upon him so to do.

4. The explosive shall be manufactured in a tent or any lightly constructed building exclusively appropriated for the purpose and separated from any dwelling-house by the distance—

(a) in the case of gunpowder, of 100 yards,

(b) in the case of an explosive of the 1st Division of the 6th (Ammunition) class or of the 7th (Firework) class, of 50 yards.

and by the same distances from any highway, street, public thoroughfare or public place. In the case of filling cartridges for small arms the operation may, if preferred, be carried out in the upper room of a building: Provided that no more than 5lbs. of explosive (except such as may be contained in safety cartridges) shall be in the room where the operation is being carried on. In all other cases the manufacture shall be carried on in a one-storeyed building.

5. All sales of explosive under this license shall be effected upon the premises shown on the face of the license.

6. An explosive shall not be sold to any child apparently under the age of 13 years.

7. The explosive possessed by the licensee shall be kept in a substantially constructed unflammable building, approved by such officer as the Local Government may prescribe, or in a fireproof safe, separated from any dwelling-house, highway, street, public thoroughfare, or public place by the distances laid down in condition No. 4, and made and closed so as to prevent unauthorized persons having access thereto, and to secure it from danger from without:

Provided that a quantity not exceeding 50lbs. of gunpowder, or in lieu of each pound of gunpowder not so kept 2lbs. of explosive contained in ammunition of the 1st division of class 6, or an equivalent quantity of an explosive of the 7th (firework) class, may be kept inside a dwelling-house, or in any building other than as last aforesaid, in a receptacle exclusively appropriated to keeping explosive:

Provided also that no explosive containing its own means of ignition [other than explosive of the 1st Division of the 6th (Ammunition) class] shall be kept in a fireproof safe.

8. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosive and from any room or part of a building, fireproof safe, or receptacle containing the same, and no one entering such room or part of any building or such safe or receptacle shall have any iron or steel in their possession, or attached to or on their boots or shoes.

9. Neither the building exclusively appropriated for the purpose of manufacturing or keeping the explosive, nor the fireproof safe or receptacle, shall have any exposed iron or steel (except machinery necessary for the manufacture) in the interior thereof.

10. All explosives exceeding 5lbs. in amount of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class, and all other explosives exceeding 1lb. in amount, shall be kept in a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosives from escaping, and if publicly exposed for sale or sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely attached label or other mark.

11. Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other. Explosives of the same class, however, may be kept together; and gunpowder may be kept with safety fuses.

12.* The license-holder shall affix to his shop or place of business a sign-board as required by rule 11 of the rules framed under the Indian Arms Act (XI of 1878), and shall post up in his shop a copy of section 28 of that Act.

13.* The license-holder shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VIII or IX of the forms prescribed under the Indian Arms Act (XI of 1878) the following particulars—

- (a) the name and address of the person who takes delivery of the article sold,
- (b) the nature and amount of articles sold;
- (c) the date of sale,

and shall append his signature to the endorsement.

FORM B.

(See Rule 8.)

FREE DUPERS IN STAMPS.

License to sell and possess gunpowder or explosive of the 1st Division of the 6th (Ammunition) class or of the 7th (Firework) class.

Granted in a Presidency-town and its suburbs by the Commissioner of Police and elsewhere by the District Magistrate.

Name, etc., of license-holder and place of residence	Place of business, factory or shop.	Maximum quantity of explosive to be kept at any one time.	Description and quantity of explosive to be possessed and sold during the year	Date on which license expires.
				The 31st of December 189 .

_____ District, } (Signature)
 _____ 189 . } of _____

Conditions.

1. This license is given subject to the provisions of the Indian Explosives Act (IV of 1884) and the rules thereunder.

2. The license-holder shall keep records and accounts of all explosive in stock and of all sales in such form as the Local Government may from time to time direct.

3. The license-holder shall exhibit his stock and his books and records of sales to any Magistrate or to any Police Officer not below the rank of Inspector when such officer may call upon him so to do.

4. All sales of explosive under this license must be effected upon the premises shown on the face of the license.

5. An explosive shall not be sold to any child apparently under the age of 13 years.

6. The explosive shall be kept in a substantially constructed *uninflammable building approved by such officer as the Local Government may prescribe*, or in a fireproof safe, *separated from any dwelling-house, highway, street, public thoroughfare, or public place by the prescribed distances,†* and made and closed so as to prevent unauthorized persons having access thereto, and to secure it from danger from without :

Provided that 50lbs. of gunpowder, or in lieu of each pound of gunpowder not so kept 2lbs. of explosive contained in ammunition of the 1st division of class 6, or an equivalent quantity of explosive of the 7th (firework) class, may be kept inside a dwelling-house, or in any building other than as last aforesaid, in a receptacle exclusively appropriated to keeping explosive .

* These conditions are to be added only when the authority granting this license directs, by an order written thereon, that this license shall have the effect of a like license granted under the Indian Arms Act (XI of 18 8)

† In the case of gunpowder, 100 yards

In the case of explosives of the 1st Division of the 6th (Ammunition) class or of the 7th (Firework) class, 50 yards

Provided also that no explosive containing its own means of ignition [other than explosive of the 1st Division of the 6th (Ammunition) class] shall be kept in a fireproof safe.

7. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosive and from any room or part of a building, fireproof safe, receptacle containing the same, and no one entering such room or part of any building or such safe or receptacle shall have any iron or steel in their possession, or attached to or on their boots or shoes.

8. Neither the building exclusively appropriated for the purpose of keeping the explosive, nor the fireproof safe or receptacle referred to above, shall have any exposed iron or steel in the interior thereof.

9. All explosives exceeding 5lbs. in amount of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class, and all other explosives exceeding 1lb. in amount, shall be kept in a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosives from escaping, and when publicly exposed for sale or sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely attached label or other mark.

10. Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space as will effectually prevent explosion or fire in the one communicating with the other. *Explosives of the same class, however, may be kept together, and gun powder may be kept with safety fuses.*

11.* The license-holder shall affix to his shop or place of business a sign-board as required by rule 11 of the rules framed under the Indian Arms Act (XI of 1878), and shall post up in his shop a copy of section 28 of that Act.

12.* The license-holder shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VIII or IX of the forms prescribed under the Indian Arms Act (XI of 1878) the following particulars :—

- (a) the name and address of the person who takes delivery of the articles sold ;
- (b) the nature and amount of the articles sold ;
- (c) the date of sale ;

and shall append his signature to the endorsement.

Conditions.

1. This license is given subject to the provisions of the Indian Explosives Act (IV of 1881) and the rules thereunder.

* These conditions are to be added only when the authority granting this license directs, by an order written thereon, that this license shall have the effect of a like license granted under the Indian Arms Act (XI of 1878).

2. The explosive shall be kept in a substantially constructed *uninflamable building approved by such officer as the Local Government may prescribe*, or in a fireproof safe *separated from any dwelling-house, highway, street, public thoroughfare or public place by the prescribed distances,** and made and closed so as to prevent unauthorized persons having access thereto, and to secure it from danger from without:

Provided that 50lbs. of gunpowder, or in lieu of each pound of gunpowder not so kept 2lbs. of explosive contained in ammunition of the 1st division of class 6, or an equivalent quantity of explosive of the 7th (firework) class may be kept inside a dwelling house or in any building other than as last aforesaid in a receptacle exclusively appropriated to keeping explosive.

Provided also that no explosive *containing its own means of ignition [other than explosive of the 1st Division of the 6th (Ammunition) class]* shall be kept in a fireproof safe.

3. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosive and from any *room or part of a building, fireproof safe, or receptacle containing the same, and no one entering such room or part of any building or such safe or receptacle shall have any iron or steel in their possession or attached to or on their boots or shoes.*

4. Neither the building exclusively appropriated for the purpose of keeping the explosive nor the fireproof safe or receptacle referred to above shall have any exposed iron or steel in the interior thereof.

5. All explosive exceeding 5lbs in amount of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class, and all other explosives exceeding 1lb. in amount shall be kept in a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosives from escaping.

6. Each description of explosive which may be kept under this license shall be separated by an intervening partition of such substance and character, or by such intervening space as will effectually prevent explosion or fire in the one communicating with the other. *Explosives of the same class, however, may be kept together, and gunpowder may be kept with safety fuses.*

7. The license-holder shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases and under the vendor's signature —

- (a) the name and address of the person who takes delivery of the article purchased,
- (b) the nature and amount of the articles purchased,
- (c) the date of purchase.

* In the case of gunpowder, 100 yards
In the case of an explosive of the 1st Division of the 6th (Ammunition) class or of the 7th (Firework) class, 50 yards

Conditions.

1. This license is given subject to the provisions of the Indian Explosives Act (IV of 1884) and the rules thereunder.

2. The explosive shall be kept in a substantially constructed building exclusively appropriated for the purpose and detached from a dwelling-house, and at a safe distance from any highway, street, public thoroughfare, or public place, made and closed so as to prevent unauthorized persons having access thereto, and to secure it from danger from without.

Provided that a quantity not exceeding 15lbs. of such explosive may be kept inside any building other than as last aforesaid, in a receptacle exclusively appropriated to keeping explosive.

3. All articles or substances of any explosive or highly inflammable nature shall be kept at a safe distance from the explosive and from any building or receptacle containing the same.

4. Neither the building exclusively appropriated for the purpose of keeping the explosive nor the receptacle shall have any exposed iron or steel in the interior thereof.

5. All such explosives exceeding 1lb. in amount shall be kept in a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosives from escaping.

6. Each description of explosive which may be lawfully kept under this license, shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other.

7. The license-holder shall at the time of purchase have the following particulars endorsed upon his license by the vendor from whom he purchases and under the vendor's signature.—

- (a) the name and address of the person who takes delivery of the articles purchased ;
- (b) the nature and amount of the articles purchased ;
- (c) the date of purchase.

of

Conditions.

1. This license is given subject to the provisions of Indian Explosives Act (IV of 1884) and the rules thereunder.
2. There shall not be at the same time in the magazine an amount of explosive exceeding the amount specified in the license.
3. The magazine shall be used only for the keeping of the explosive or explosives specified in the license, and of receptacles for, or tools or implements for work connected with, the keeping of such explosive or explosives.
4. The interior of the magazine and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel, and the detaching of any grit, iron, steel, or similar substances in such manner as to come into contact with the explosive, and such interior, benches, shelves, and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean; and in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom.
5. The magazine shall have attached thereto a sufficient lightning conductor *which shall be tested at least once a year.*
6. Before repairs are done to or in any part of a room or magazine, it shall, as far as is practicable, be cleaned by the removal of all explosive or mixed ingredients thereof, and the thorough washing out of such room or part, and after such cleaning, these conditions shall cease to apply to explosive until such room or part of the magazine is again taken into it.
7. Except after such cleaning, all tools and implements used in, or in any repairs to, any part of the magazine shall be made only of wood, copper, or brass, or some soft metal or material, or shall be covered with some safe and suitable material.
8. Due provision shall be made by the use of suitable working clothes without pockets, suitable shoes, searching and otherwise, or by some such means for preventing the introduction into the magazine of fire, lucifer matches, or any substance or article likely to cause explosion or fire, or any iron, steel or grit, but this rule shall not prevent the introduction of an artificial light of such construction, position, or character as not to cause any danger of fire or explosion.
9. No person shall smoke in any part of the magazine.
10. No person under the age of 16 years shall be employed in or enter the magazine except in the presence and under the supervision of some grown-up person.
11. Two or more descriptions of explosive which may lawfully be possessed in a licensed magazine, may be possessed in the same magazine, if they are separated from each other by an intervening partition of such substance and character, or by such intervening space as will effectually prevent explosion or fire in the one communicating with the other, subject to the following qualifications:—
 - (a) The various explosives of classes 1 (gunpowder), 2 (nitrate-mixture), 3 (nitro-compound) and 4 (chlorate-mixture), safety fuze belonging to the first division of class 6 (ammunition), and such of the various explosives of the 2nd division of class 6 (ammunition) as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space.
 - (b) The various explosives of the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space.
 - (c) Such of the various explosives of the 2nd division of class 6 (ammunition) as contain any exposed iron or steel may be kept with each other without any intervening partition or space.

(d) The various explosives of the 3rd division of class 6 (ammunition) may be kept with each other without any intervening partition or space.

(e) The various explosives of class 7 (firework) may be kept with each other without any intervening partition or space.

Save as aforesaid, two or more descriptions of explosives shall not be kept in the same magazine.

12. The licensee and every person employed in or about the magazine shall take all due precaution for the prevention of accidents by fire or explosion in the same, and for preventing unauthorized persons having access to the magazine or to the explosives therein, and shall abstain from any act whatever which tends to cause fire or explosion, and is not reasonably necessary for the purpose of the work in such magazine.

REVISED WATER-RATE RULES FOR THE SARAN CANALS.

No. 209 — Notification — In exercise of the powers conferred on him by sections 99 and 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following rules and to fix the undermentioned rates to be charged for water supplied under individual assessment from the Saran Canals during the *rabi* season of 1896-97 and the hot weather season of 1897, in addition to the rules in notification No. 201, dated 2nd November 1896, published in the *Calcutta Gazette* of 4th idem

A. D. McARTHUR, Colonel, R.E.,
Secy. to the Govt of Bengal.

In Notification No. 110 of the 9th August 1880, issued under the provision of Act III of 1876, Government reserved to itself the rights of property in the water of the river channels known as the Daha, the Dhanai, the Gandaki and the Gangri, and their appendant tributaries, including the Rupan Chap Sota.

2 The revenue administration of the Saran Canals is vested in the Superintending Engineer of the Sone Circle. The Executive Engineer of the Gandak Division is, as Canal Officer under the Irrigation Act [III (B.C.) of 1876], charged with the proper maintenance and management of the canals, and with the control of the supply of water in them. All orders passed by him, or by the Subdivisional Canal Officer, are under the terms of that Act subject to correction on appeal to the Collector of Saran.

3. The following rules will be applicable to all irrigation effected from the Saran Canals in the *rabi* season (1st November to 31st March) of 1896-97, or to the hot weather season (1st April to 13th July) 1897

4. Any person who wishes to make bunds in the canals must obtain the written permission of the Canal Subdivisional Officer before doing so.

5. Any person who constructs bunds in the canals, who interferes with the supply of water in them, or who takes water from them without the written permission of a duly authorised person, will render himself liable to the penalties defined in the Irrigation Act.

6. Any person who requires water from the channels of the Saran Canals must apply either to (a) the Patrol, (b) the Sectional Officer, or (c) the Subdivisional Canal Officer, who will take his signature on the Form A attached. If the application is approved, the Canal Subdivisional or Sectional Officer (all of whom are hereby empowered in that behalf) will grant a permit for irrigation in Form B.

7. Any person who holds a permit in Form B will be allowed to take canal water for irrigation, and he will be charged for it at the rates detailed in the following schedule —

Schedule of rates for irrigation.

Crop	Rate per Saran bigha.		
	Rs	A	P.
For indigo irrigated between the 1st November and 31st March	2	4	0
For indigo irrigated between the 1st April and 15th July	4	8	0
For other crops ditto ditto	3	0	0
For opium	1	8	0
For <i>rabi</i> crops irrigated between the 1st November and 31st March	0	12	0

These rates apply equally to irrigation by lift and flow.

8. Persons who take water from any of the river channels named in rule 1, without a permit in Form B, and persons who waste the water, are liable to be charged water-rates, under sections 79 and 80 of the Irrigation Act, at rates which shall be fixed by the Subdivisional Canal Officer, but which shall not be greater than twice the rate which would have been payable for licensed irrigation.

9. All water-rates assessed under rule 7 will be due on the following dates —

For irrigation in the *rabi* season—5th April 1897.

For irrigation in the hot weather season—20th July 1897.

Water-rates assessed under rule 8 will be due as soon as the demand statement has been prepared.

10. The demand statements for water-rates due will be sent to the Collector as soon as possible after the irrigation in any village is completed, and a *parcha*, showing the area and amount assessed against each cultivator, will be sent to the rate-payer as soon as possible.

11. Any claim for remission of water-rates under section 76 (b), or for compensation under section 76 (c) of the Irrigation Act, must be presented in writing to the Subdivisional Canal Officer at least twenty days before the crop is cut. The Subdivisional Canal Officer shall, after such enquiry as he may consider necessary, pass orders on the application. Any application for remission presented direct to the Collector must be forwarded for the orders of the Canal Officer.

12. Objections to the demand statements must be presented within thirty days of the date on which the *parcha* is issued by the Subdivisional Canal Officer. He will pass orders on such objections.

13. Any person who is not satisfied with an order passed by the Subdivisional Canal Officer may appeal to the Collector under section 91 of the Irrigation Act. Such appeal must be accompanied by a copy of the order appealed against, and it must be submitted to the Collector within thirty days of the date of the order.

14. Remission statements must be signed by the Divisional Canal Officer. Any statement so signed shall be sufficient authority for a refund by the Collector.

15. No guarantee can be given either as to the volume or duration of the supply, or of the delivery of any quantity of water at any particular point of any canal.

16. The Canal Officer will regulate the water passing into, and along, any canal to the best of his ability to meet requirements. If there is any difficulty in supplying all the channels, the Canal Officer will endeavour to divide the available supply as fairly as possible. The Canal Officer shall have complete control of the distribution of water.

FORM A.

Application for water, No.

Name of village
Name of channel
Date of application

We, the undersigned, hereby apply for water from the abovenamed channel for the irrigation of our fields, and we engage to pay, for the area actually found to have been irrigated, to the Canal Officer (or other person duly authorised in that behalf), the water-rates prescribed by the Lieutenant-Governor under the provisions of the Bengal Irrigation Act; and we further agree to abide by the rules issued under the Act:—

The 3rd November 1896.

REVISED WATER-RATE RULES FOR THE SONE CANALS.

No 211 — Notification.—In notification No. 262, dated the 14th of August 1894, the Hon'ble the Lieutenant-Governor was pleased to pass certain rules concerning the Sone Canals and to fix certain rates to be charged for water supplied from those canals. In notification No 28, dated the 28th January 1895, it was notified that it was intended to increase some of those water-rates. The rules which were passed under notification No. 262, dated the 14th of August 1894, contained provision for a class of leases having a currency

of three years. That class of lease is no longer considered suitable. The Lieutenant-Governor proposes to make the following alterations in the rules referred to in consequence of his determination to cease to grant such leases:—

A. D. McARTHUR, Colonel, R.E.,
Secy. to the Govt of Bengal.

(i) Rule 16 to read as follows:—

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *kharij* season leases (Appendix III), shall be subject to the following conditions:—

I.—The application must be for a block of land having well-defined boundaries and so situated that adjoining lands will not ordinarily or probably be irrigated by water supplied for the land included in the application.

II.—The application must be in the form annexed to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented, whether or no water is required.

III.—The applications may be for a term of seven years, or for the season only.—

(a) In the case of applications for the season only, the issue of the permit will not necessarily be delayed until the lands have been measured. The boundaries of the block must be stated in the application, which must be signed by or by authority of the cultivators of all the land included in the boundaries mentioned, and the approximate area in the occupation of each on the block must be specified. Water-rates will be charged on the areas in the block as found by actual measurement.

(b) In the case of applications for a term of seven years, a permit will not be issued until the land has been measured and an application complete in every respect for all the land included in the block has been signed. If water is required to be supplied before the application is completely signed in the manner specified above, an application for water for the season must be made which will be cancelled on a permit for seven years being issued.

(c) Notice that a permit for seven years is required must be given by the 1st of April, and no permit will be issued unless the application is completely signed by the 30th of November, or, with the special sanction of the Superintending Canal Officer, by the 1st of March following. An application for a permit for the season must be filed by the 1st of September.

IV.—With the special sanction of the Superintending Canal Officer—

(a) Existing leases for terms of three years may be cancelled and included in an application for a seven-year lease under the preceding rules.

(b) An application may be made for an addition to a seven-year lease, which, if granted, shall be considered as part of the original lease and terminate therewith.

(ii) Rule 22 to read as follows:—

22. Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *kharij* season leases (Appendix IX) shall be issued under the following conditions:—

I.—The land to be irrigated must form a compact block defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and also be so situated that unleased lands will not be ordinarily or probably irrigated by water supplied for the land included in the block. The boundaries must be mentioned in the application for a permit for the season, and in the notice referred to in Rule 16 (c), when a permit for a seven-year lease is applied for.

II.—The Canal Officer may exclude lands included in the block not irrigable by flow or for which canal water is ordinarily not required. In the case of permits for seven years, the block must be not less than 50 bighas in area. In cases where the Divisional Canal Officer considers it advisable to grant a permit to a block of less area than that mentioned above, the previous sanction of the Superintending Canal Officer must be obtained. No permit for seven years shall be issued unless the owners of the village channel from which water is to be obtained have been registered and the channel itself is in a good state of repair such as to fit it for the conveyance of water without wastage occurring. Such leases will not be issued unless it is known from the experience of previous years' irrigation that a sufficient supply of water is always available and that the quantity required is not excessive.

III.—A permit for a seven-years' lease may be cancelled by the Superintending Canal Officer with effect from a date to be specified in the order for good cause on the application of all the signatories thereto.

IV.—Permits for the season will be issued under less favourable conditions as to situation, soil, and the quantity of water available; it will not be necessary that the owner of the channel should be registered, but the channel itself must be entered on the register.

V.—Water-rates will be levied on the areas of the blocks specified in the permits, and measurement of the areas actually irrigated will not be necessary.

(iii) In Rules 3 (1), 9 (VIII), 11, 12, 24 (II), 25, 31, 39, 50, 62, omit the two words "three or."

(iv) In Rule 42 omit the words "three-years' leases."

Further, the Lieutenant-Governor proposes to make the following alterations in the rules referred to in consequence of the increase he proposes to make in certain water-rates:—

(v) In Rule 71 (a) change the words "1st of April 1892" into "1st of April 1897."

(vi) In Rule 71 (b) change the words "1st of April 1891" into "1st of April 1897."

(vii) Rule 72 will read as follows:—

SCHEDULE No. I.

Leases for a term of years.

For water supplied between the 25th of June of one year and the 25th March of the next.	FLOW OR LIFT.	
	Rate per bigha.	Rate per tenth of a bigha.
1	2	3
For leases for seven years, all crops	Rs. A. P. 1 9 0	Rs. A. P. 0 2 6

Leases having a currency of seven years will be granted at the rate defined in this Schedule until and including the year 1903.

(viii) Rule 73 will read as follows:—

SCHEDULE No. II.

Season leases (kharif)

	FLOW OR LIFT	
	Rate per bigha.	Rate per tenth of a bigha.
1	2	3
For water supplied between the 25th of June and the 25th of October for all crops	Rs. A. P. 2 3 0	Rs. A. P. 0 3 6

(ix) In Rule 42 omit the five words "for bhadoi, &c, 1st November."

(x) Appendix IVB, to be omitted altogether.

(xi) Further, the Lieutenant-Governor proposes to alter Rule 47 by adding the following words to it:—

"All applications for compensation under section 76 (c) must be made not less than 20 days before the crop is cut."

And in Rule 46 to add the words "not less than" before the words "twenty days before the crop is cut."

(xii) In paragraph 2 of Appendix III omit the figures "1—14."

(xiii) In paragraph 2 of Appendix IV C alter the words "1st of January" into "25th of March."

RAILWAY DEPARTMENT.

The 26th November 1896.

No. 144.—Notification.—Babu Sriah Chandra Masoomdar, Sub-Deputy Collector, who is appointed to act as Deputy Magistrate and Deputy Collector, is employed in acquiring lands required for the Cuttack-Midnapore-Calcutta extension of the Bengal-Nagpore Railway, in the districts of Midnapore and Balasore.

The 1st December 1896.

No. 145.—Declaration—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for extension of platform and waiting shed at Golsi, East Indian Railway, in the villages of Babla and Golsi, pargana Baga, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 bighas 3 cottahs 13 36 chitaks of standard measurement (corresponding to 1 acre 8 82 poles), bounded by a nick on the ground, is required within the aforesaid villages of Babla and Golsi.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Land Acquisition Deputy Collector, Burdwan.

No. 146.—Declaration—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for Domohani station on the Toposi-Khairabad section of the Toposi Extension, East Indian Railway, in the village of Baraboni, pargana Kanthanagor, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 5 bighas 9 cottahs 4 03 chitaks of standard measurement (corresponding to 1 acre 3 roods 8 93 poles), bounded by a nick on the ground, is required within the aforesaid village of Baraboni.

Mines of coal, iron-stone, slate or other minerals lying under the land, or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of the work for the purpose of which the land is being acquired, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

No. 147.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose viz., for Mymensingh-Jamalpur Railway passing through the undermentioned villages in the district of Mymensingh, it is hereby declared that for the above purpose a strip of land, 38 miles long, of an average width of 130 feet, more or less, from Mymensingh station on the Dacca section of the Eastern Bengal State Railway system, is required within the villages of—

1. Mymensingh.	17. Jagornath Bari.	33. Srihari.
2. Sunkepara.	18. Matamtola.	34. Gohindbari.
3. Shekpara.	19. Srimantgati.	35. Kalin.
4. Gohalkandi.	20. Barokaonia.	36. Ranogocha.
5. Badiekalpa.	21. Nimtala.	37. Kharkhar a.
6. Azmatpur.	22. Shasha.	38. Nandina.
7. Harti.	23. Kaonia.	39. Badelchindi.
8. Kumargata.	24. Jagirbhugli.	40. Hamidpur.
9. Ohak Narainpur.	25. Ashtodhur.	41. Shampur.
10. Satra Shea.	26. Pearpur.	42. Jaisampur.
11. Pakhiashimal.	27. Muzapur.	43. Sharipur.
12. Katghara.	28. Etail.	44. Boga.
13. Denakhala.	29. Srichundar Bari.	45. Nagalrah.
14. Kerajipara.	30. Narundi.	46. Shalapur.
15. Tarati.	31. Nalkuri.	47. Phulhari.
16. Kushtia.	32. Chondara.	48. Singjani.
	49. Jamalpur.	

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

Babu Braja Syam Mazumdar, 5th Assistant to the Director of Public Instruction (class VI), is allowed leave of absence for two months, under Article 291 of the Civil Service Regulations, with effect from the 16th November 1896, or such subsequent date as he may avail himself of it.

The 30th November 1896—On the death of Babu Ram Sundar Basak, Additional Deputy Inspector of Schools, Dacca, the following arrangements are sanctioned—

- (1) Babu Tarak Bandhu Chakravarti, Deputy Inspector of Schools, Fardpur (class V), to be Additional Deputy Inspector of Schools, Dacca, *vice* Babu Ram Sundar Basak, deceased.
- (2) Babu Mohim Chandra Chatterjee, B.A., Deputy Inspector of Schools, Backergunge (class IV), to be Deputy Inspector of Schools, Fardpur, *vice* Babu Tarak Bandhu Chakravarti, transferred.
- (3) Babu Bhubaneswar Gupta, Deputy Inspector of Schools, Jalpaiguri (class V), to be Deputy Inspector of Schools, Backergunge, *vice* Babu Mohim Chandra Chatterjee, transferred.
- (4) Babu Rameswar Sen, Additional Deputy Inspector of Schools, Bardwan (class VI), to be Deputy Inspector of Schools, Jalpaiguri, *vice* Babu Bhubaneswar Gupta, transferred.
- (5) Maulvi Muhammad Sulaiman, B.A., First English Teacher in the Anglo-Persian Department of the Chittagong Madrasah to be Additional Deputy Inspector of Schools, Bardwan, *vice* Babu Rameswar Sen, transferred.

Maulvi Muhammad Sulaiman is also appointed substantively *pro tempore* to class VI.

The 1st December 1896—Babu Baladeb Ram Jha, B.A., Head Master of the Muzaffarpur Zilla School (substantively *pro tempore* in class IV) is appointed to be Head Master of the Chapra Zilla School, *vice* Babu Khud Chandra Ray Chaudhuri, transferred.

Babu Bhagwan Chandra Datta, B.A., Second Master of the Patna Collège School (class V), is appointed to be Head Master of the Muzaffarpur Zilla School, *vice* Babu Baladeb Ram Jha, transferred.

Babu Hari Charan Mukerjee, L.E., Teacher of Surveying, Civil Engineering College, Sibpur (class V), is allowed leave of absence for one month, under Article 369 of the Civil Service Regulations, with effect from the 10th November 1896.

Babu Purnendu Chakravarti is appointed to act as Teacher of Surveying in the Civil Engineering College, Sibpur, and also in class V, during the absence on leave of Babu Hari Charan Mukerjee, or until further orders.

C. A. MARTIN,

Offg. Director of Public Instruction, Bengal.

Calcutta University Notice

HIS EXCELLENCY the Chancellor has decided to allow the Masters or holders of higher degrees in some Faculty and Bachelors of Arts who graduated before the year 1867, to fill up two vacancies in the Senate by election. Candidates for election must be Masters or holders of higher degrees in some Faculty or holders of the degree of Bachelor of Arts who took that degree before the year 1867.

The election will take place at the Senate House, College Square, on Friday, the 1st January 1897.

Every candidate for election must be nominated by a graduate holding one of the above-named degrees, and no graduate will be allowed to nominate more than one candidate. The written nominations of candidates must reach the office of the Registrar not later than the 9th December.

On and after the 16th December, voting papers containing the name of the candidates nominated will be supplied on application by the Registrar. These papers must be filed up in the presence of the Registrar at the Senate House on the 1st January 1897 between the hours of 10 A.M. and 5 P.M., but graduates who are not able to appear in person before the Registrar may fill up the papers in the presence of a Magistrate, a Judge, and an Assistant Judge or a Munsif (excluding village Munsifs), by whom the papers will be countersigned. All such voting papers must reach the Registrar not later than 3 P.M. on Friday, the 1st January 1897, after which no voting paper will be accepted. Graduates who are not personally known to the officer in whose presence the voting papers are filed up, must bring with them their diplomas, or other satisfactory proof of identity.

SENATE HOUSE,
The 30th November 1896.

A. PEDIER,
Registrar.

NOTICE.

THE following list of books which were presented to the Central Text-Book Committee from time to time and approved by that body *not as text-books*, but as suitable for school libraries and presentation to pupils as prizes, is now published for general information. It is to be understood that this list is by no means an exhaustive one, and that, so far as middle schools are concerned, it is to be treated only as a supplement to the list of authorised *text-books* already issued. The latter, as *text-books*, should have a preferential claim (also with dictionaries, atlases and other works of reference), to be adopted as prize and library books.

CALCUTTA,
The 24th November 1896 }

C. A. MARTIN,
Offg Director of Public Instruction, Bengal.

NOTIFICATION

COURSE FOR THE MIDDLE SCHOLARSHIP EXAMINATION OF 1898

A.—MIDDLE ENGLISH EXAMINATION—

I.—*Language*—The following text-books in languages have been selected for the examination of 1898 —

a.—*English Language* (full marks 150), one paper—

Select Readings from Juvenile Literature, Part I, by Babu Tigran Charan Sen, omitting (1) Capture of "Friday," (2) the Flies And the Ants, (3) William Tell, (4) After the Battle of Blenheim

English Grammar—

To be confined to (a) parts of speech, (b) simple rules of syntax, (c) parsing, composition to consist of translations from vernacular to English and vice versa

b.—*Bengali Language* (full marks 150), one paper—

Prose.—Sitar Banabashi, by Iswar Chandra Vidyasagar (the whole book)

Poetry.—Kavita Path, Part III, by Mahendra Nath Chakrabarti (51 pages)

For the Presidency Circle and Burdwan Division

Prose.—Prabandha Manjari, by Rajjani Kanta Gupta (the whole book)

Poetry.—Palasir Juiha (school edition, by Nabin Chandra Sen (78 pages).

For the Eastern Circle and Rajshahi Division, and for such of the candidates in the Bihar Circle as may elect to be examined in Bengali

In the poetry paper will be included essay-writing and questions in composition

Bengali Grammar—

To include such portions of Sanskrit grammar (*Sandhi, Taddhita, Krit, Samas, Karak Striva*) as are necessary for Bengali writing; composition.

In most of the following subjects no text-books are prescribed, but school-managers are restricted to the use of the books specified in the authorised list, dated 24th October 1895, and the Supplement thereto, dated the 27th November 1896. No book not included in those lists must be introduced into any school, aided or unaided, that prepares candidates for this examination.

II.—History and Geography (full marks 150); two papers—

- **History (50)**—History of India; Hindu, Muhammadan, and British periods, particular attention being paid to the portions relating to Bengal.

Geography (100)—(a) Rudiments of general geography, and special knowledge of Bengal and India; (b) physical geography, including size and shape of the earth; day and night; causes of the seasons, air, its warming and cooling; cause of winds, vapour, dew, mist, clouds and rain, hail and snow; springs, brooks and rivers, their origin and action; formation of deltas.

III.—Arithmetic (full marks 150, thus—European 100 + Native 50); one paper—Four simple rules; four compound rules, including the more important and common tables and the Indian methods of expressing money, weight and land-measure; reduction; calculation of prices, wages, &c, vulgar and decimal fractions, rule-of-three; practice, simple interest; discount, square measure, cross multiplication, and the unitary method, also a knowledge of Subhankar's rules for the calculation of wages, prices and land-measure; and rules for the oral addition, subtraction, multiplication and division of simple numbers, as a means of abridging written calculations.

IV.—Geometry (full marks 50); one paper—Euclid, Book I, with easy deductions; including questions in mensuration, such as can be answered from the First Book of Euclid

V.—Science (full marks 100), one paper—

(a). Elements of physics—

(1) *Properties of matter.*

(2) *Force.*—Definition of force; molecular attraction; gravitation (centre of gravity, different states of equilibrium; the balance)

(3) *General properties of solids, liquids and gases—*

(a) *Properties of solids.*

(b) *Properties of liquids.*—Equality of pressure, Pascal's law; vertical upward and downward pressure, condition of equilibrium of liquids; water-level Buoyancy of liquids—Archimedes' principle; flotation in water; specific gravity

(c) *Properties of gases.*—Pressure exerted by gases; atmospheric pressure; barometers (Torricelli's experiment); air-pump; water-pump (suction), siphon.

(4) *Heat and its effects.*—Nature of heat

Physical effects.—Expansion of bodies generally, thermometer (ordinary mercurial).

Expansion of solids.

Expansion of liquids,—maximum density of water; convection of currents.

Expansion of gases.

Change of state—

Fusion,—its laws; latent heat; solidification

Ebullition and evaporation—Influence of pressure, latent heat of vapour, cold due to evaporation

Production of heat by chemical combination (such as combustion)

Conduction, convection, radiation.

(b) *Hygiene.*—Sanchayaraksha, by Radhica Prasanna Mukherjee.

B.—MIDDLE VERNACULAR EXAMINATION—

Two same as the Middle English, with the exception of English Reader and English Grammar

C.—MIDDLE SCHOLARSHIP EXAMINATION FOR GIRLS—

Female candidates have the option of substituting the following for Geometry including Mensuration, or Natural Philosophy—

(a) Cutting and making of pyjamas, pyjamas, and chapkane.

(b) Knitting, darning and tuckers

N.B.—Additional credit up to a maximum of 10 per cent of the marks gained will be given to those candidates who are able to write non-Indian place names in the English character.

CALCUTTA,

The 1st December 1896.

C. A. MARTIN,

Offg. Dir. of Public Instruction, Bengal.

Civil Engineering College, Sibpur.

Apprentice Department

The date for admission to this Department is 1st February 1897. Candidates must be at least 15, and not more than 17, years of age

They must have passed standard VII of the Code for European Schools or the University Entrance Examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard so as to reach the Principal not later than the 6th January 1897. No application will be attended to after this date.

The number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eye-sight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in February. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of February, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be no vacancy on the free list for Christian apprentices in February next, but there will be seven on the reduced* fee list. For Natives there will be at least nine vacancies, possibly more, on the reduced† fee list.

* Rs. 5 per mensem
† Rs. 2 per mensem.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

J. S. SLATER, *Principal, Civil Engineering College.*

SIRPUR, the 10th November 1896.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 2185B

NOTICE is hereby given that the Provision Opium to be brought forward for sale by public auction in the year 1897 will consist of about 19,500 chests prepared at the Patna Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, and about 19,500 chests prepared at the Ghazipur Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, being of the seasons 1895-96 and 1896-97 in the proportion marginally noted

Opium manufactured at the Patna Factory		Chests.
Supply from 1895-96		19,500
Opium manufactured at the Ghazipur Factory		Chests
Supply from 1895-96		17,989
Ditto 1896-97		1,511
		19,500
Total		39,000

2. The dates on or about which the sales will be held, and the total quantity of opium, as well as the respective quantities manufactured at the Patna and Ghazipur Factories, which will be brought forward for sale every month, are specified below. The Board of Revenue reserve to themselves the right of altering the dates should circumstances render it expedient to do so. In accordance with the notification of the Government of India, No 2760, dated 24th June 1896, 1,625 chests of Patna and 1,625 chests of Benares opium will be sold monthly from January to December 1897:—

DATES.			Chests manufactured at the Patna Factory.	Chests manufactured at the Ghazipur Factory.	Total chests

On or about Wednesday 1st September	"	...	1,625	1,625	3,250
On or about Friday 24th September	"	...	1,625	1,625	3,250
On or about Monday 1st November	"	...	1,625	1,625	3,250
On or about Wednesday 1st December	"	...	1,625	1,625	3,250
Total	.		19,500	19,500	39,000

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin,

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400

shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank

of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M., and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs 5 at a time until a bid is obtained; and the first *bona fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1895-96, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when picked at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

E. H. WALSH,
Secretary.

FORT WILLIAM, the 28th November 1896.

No. 2193B

NOTICE is hereby given that the First Sale of Opium, the Provision of 1895-96, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Monday, the 1st January 1897, at 11 A.M., and will comprise 3,250 chests, viz.—

				Chests
Opium manufactured at the Patna Factory	1,625
Ditto ditto at the Ghazipur Factory	1,625
Total	3,250

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1896, and published in the *Government and Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 19th January 1897, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 9th January 1897, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 19th January 1897.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be

brought to sale down to December 1897 about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so :—

DATE.	Manufactured at the Patna Factory, about chests	Manufactured at the Ghazipur Factory, about chests.	Total, about chests.
On or about Wednesday, 3rd February 1897	1,625	1,625	3,250
On or about Monday, 1st March 1897 ...	1,625	1,625	3,250
On or about Thursday, 1st April 1897 ...	1,625	1,625	3,250
On or about Monday, 3rd May 1897 ...	1,625	1,625	3,250
On or about Thursday, 3rd June 1897 ...	1,625	1,625	3,250
On or about Thursday, 1st July 1897 ...	1,625	1,625	3,250
On or about Monday, 2nd August 1897 ...	1,625	1,625	3,250
On or about Wednesday, 1st September 1897	1,625	1,625	3,250
On or about Friday, 24th September 1897 ...	1,625	1,625	3,250
On or about Monday, 1st November 1897 ...	1,625	1,625	3,250
On or about Wednesday, 1st December 1897	1,625	1,625	3,250
Total ...	17,875	17,875	35,750

By order of the Board of Revenue, L. P.,

E. H. WALSH, *Secretary.*

BOARD OF REVENUE, L. P., FORT WILLIAM, the 30th November 1896.

No. 1972B.

NOTICE is hereby given that the Twelfth Sale of Opium, the provision of 1894-95 and 1895-96, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday, the 2nd December 1896, at 11 A.M., and will comprise 3,250 chests, viz.—

Opium manufactured at the Patna Factory consisting of 237 chests of season 1894-95 and 1,388 chests of season 1895-96	1,625
Opium manufactured at the Ghazipur Factory of season 1895-96	1,625
Total ...	3,250

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 14th November 1895 and published in the *Government and Exchange Gazette*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 7th and 17th December 1896, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-room will be received after 3-30 P.M. of Monday, the 7th December 1896, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Thursday, the 17th December 1896.

By order of the Board of Revenue, L.P.,

E. H. WALSH, *Secretary.*

BOARD OF REVENUE, L.P., FORT WILLIAM, the 27th October 1896.

ELECTION OF MUNICIPAL COMMISSIONERS.

NOTIFICATION.

It is hereby notified for general information that at a bye-election of a Commissioner for each of the Wards Nos II and III of the Hazaribagh Municipality in the district of Hazaribagh, held on the 9th November 1896, the following gentlemen were duly elected to be Commissioners of the said Municipality :—

Babu Bigun Lal ... Karpardaz of the Raja of Ramgurb, for Ward No. II.
 Babu Adhorkali Mookherjee ... Government Pensioner, for Ward No. III.

RAI CHARAN GHOSH, *Personal Assistant, for Officiating Commissioner.*

RANCHI, the 24th November 1896.

The Calcutta Gazette.

WEDNESDAY, DECEMBER 2, 1896.

PART I A.

Orders and Notifications by the Government of India, &c.

[Reprinted from the "Gazette of India."]

The following order, issued by the Government of India, in the Legislative Department, is republished for general information.

O W BOLTON,
Offg. Chief Secy to the Govt. of Bengal

NOTIFICATION.

Calcutta, the 26th November 1896.

No. 29.—In exercise of the power conferred by section 17 of the Indian Councils Act, 1861 (24 and 25 Vict., Cap. 67), the Governor-General in Council has been pleased to appoint Thursday, the 17th December, 1896, at 11 A M, as the time, and the Council Chamber in the Government House, Calcutta, as the place, for a meeting of the Council of the Governor-General for the purpose of making Laws and Regulations.

H W. O. CARNDUFF,
Secy to the Govt. of India.

The following orders, issued by the Government of India in the Home Department, are republished for general information.

O. W. BOLTON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

PUBLIC.

Calcutta, the 26th November 1896.

No. 1825.—The following drafts of certain Rules which it is proposed to make in exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act (IV of 1884) are published, as required by section 18 of the said Act and Government of India, Home Department, Notification No. 1964, dated 2nd September 1887, for the information of persons likely to be affected thereby, and notice is hereby given that the drafts will be taken into consideration by the Governor General in Council after the 15th day of February 1897.

2. Any objection or suggestion, which may be received from any person with respect to the drafts before that date, will be considered by the Governor General in Council.

NOTE—All changes proposed in the existing rules are indicated in italics

Draft Rules to regulate the transport and importation of explosives.

In supersession of the Notification by the Government of India, Home Department, No. 1417 (Public), dated the 24th June 1887, and in exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act (IV of 1884), the Governor General in Council is pleased to make the following rules to regulate the transport and importation of explosives.

These Rules extend to the whole of British India, but the rules relating to the transport of explosives shall cease to apply to any port as defined in the Indian Ports Act (X of 1889) for which special rules made by the Local Government are for the time being in force, in so far as they are expressly superseded by, or are inconsistent with, such special rules.

Nothing in *these Rules* shall apply to the manufacture, possession, use, sale, transport, or importation of any explosive—

(a) by order of the Government, or

(b) by any person employed under the Government in the execution of the *Indian Explosives Act (IV of 1884)*, or as a keeper of a magazine, artizan, soldier, sailor, policeman, or otherwise, or enrolled as a volunteer under the *Indian Volunteers Act (XX of 1869)*, in the course of his employment or duty as such.

PRELIMINARY.

1. For the purposes of ~~these rules~~, explosives shall be classified as follows, namely,

Class 1	Gunpowder.
Class 2	Nitrate-mixture
Class 3	Nitro-compound.
Class 4	Chlorate-mixture.
Class 5	Fulminate,
Class 6	Ammunition.
Class 7	Firework.

And when an explosive falls within the description of more than one class, it shall be deemed to belong exclusively to the latest of the classes within the description of which it falls.

CLASS 1—*Gunpowder Class.*

The term “gunpowder” means exclusively gunpowder ordinarily so called.

CLASS 2—*Nitrate-mixture Class.*

The term “nitrate-mixture” means any preparation, other than gunpowder ordinarily so called, formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance.

The nitrate-mixture class comprises such explosives as—

Pyrolithe,
Pudrolithe,
Poudre saxifragine,

and any preparation coming within the above definition.

CLASS 3—*Nitro-compound Class.*

The term “nitro-compound” means any chemical compound possessed of explosive properties, or capable of combining with metals to form an explosive compound, which is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid) or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

The nitro-compound class has two divisions.

Division 1 comprises such explosives as—

Nitro-glycerine,	Dualine,
Dynamite,	Glyoxiline,
Lithofracteur,	Methylic nitrate,

and any chemical compound or mechanically mixed preparation which consists, either wholly or partly, of nitro-glycerine or some other liquid nitro-compound.

Division 2 comprises such explosives as—

Gun-cotton ordinarily so called,	Cotton gunpowder,
Gun-paper,	Schultz's powder,
Xylidine,	Nitro-mannite,
Gun sawdust,	Pierates,
Nitrated gun-cotton,	Picric powder,

Tonite (or cotton powder),

and any nitro-compound as before defined which is not comprised in the first division.

CLASS 4—*Chlorate-mixture Class.*

The term “chlorate-mixture” means any explosive containing a chlorate. The chlorate-mixture class has two divisions.

Division 1 comprises such explosives as—

Horsley's blasting powder,
Brain's blasting powder,

and any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound

Division 2 comprises such explosives as—

Horsley's original blasting powder,	Hochstadter's blasting charges,
Erhardt's powder,	Reichen's blasting charges,
Reverley's powder,	Toutonite,

Chlorated gun-cotton,

and any chlorate-mixture as before defined which is not comprised in the first division.

CLASS 5.—*Fulminate Class*

The term "fulminate" means any chemical compound or mechanical mixture, whether included in the foregoing classes or not, which, from its great susceptibility to detonation, is suitable for employment in percussion-caps or any other appliances for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

The *fulminate* class has two divisions.

Division 1 comprises such compounds as the fulminates of silver and of mercury and preparations of these substances, such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of phosphorus compounds, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with a sulphurate, with or without carbonaceous matter.

Division 2 comprises such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

CLASS 6.—*Ammunition Class.*

The term "ammunition" means an explosive of any of the foregoing classes when enclosed in any case or contrivance, or otherwise adapted or prepared so as to form a cartridge or charge for small-arms, cannon, or any other weapon, or for blasting, or to form any safety or other fuze for blasting or for shells, or to form any tube for firing explosives, or to form a percussion-cap, a detonator, a fog-signal, a shell, a torpedo, a war-rocket, or other contrivance other than a firework.

The term "percussion-cap" does not include a detonator.

The term "detonator" means a capsule or case which is of such strength and construction, and contains an explosive of the fulminate-explosive class in such quantity that the explosion of one capsule or case will communicate the explosion to other like capsules or cases.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges. *The term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles or with machine guns which have special chambers.*

The maximum gauge at which a small-arm cartridge can be accepted as "safety" is one inch. The following are the gauges of the machine-gun cartridges which may be accepted as "safety"—

.303-inch cordite.

Martini-Henry rifle, solid case.

.45-inch Gardner, Gatling and Nordenfeldt, except Martini-Henry chambered guns.

.4-inch.

Cartridges of larger gauge are not safety cartridges.

The ammunition class has three divisions.

Division 1 comprises exclusively—

Safety cartridges,

Safety fuzes for blasting,

Fuzes for shells, and tubes friction for guns, provided there be no more than 5 fuzes or 25 tubes in one package, and that the package be a hermetically sealed metal cylinder.

Railway fog-signals,

Percussion-caps.

Division 2 comprises any ammunition, as before defined, which does not contain its own means of ignition and is not included in division 1, such as—

Cartridges for small-arms, which are not safety cartridges,

Cartridges and charges for cannon, shells, mines, blasting, or other like purposes,

Shells and torpedoes containing any explosive,

Fuzes for blasting, which are not safety fuzes,

Fuzes for shells,

Tubes for firing explosives,

War-rockets,

which do not contain their own means of ignition.

Division 3 comprises any ammunition, as before defined, which contains its own means of ignition and is not included in division 1, such as—

Detonators,

Cartridges for small-arms, which are not safety cartridges,

Fuzes for blasting, which are not safety fuzes,

Fuzes for shells,

Tubes for firing explosives,

which do contain their own means of ignition.

By ammunition containing its own means of ignition is meant ammunition having an arrangement, whether attached to it or forming part of it, which is adapted to explode or fire the same by friction or percussion.

CLASS 7.—Firework Class.

The firework class has two divisions.

Division 1 comprises firework compositions, that is to say, any chemical compound or mechanically mixed preparation of an explosive or inflammable nature, which is used for the purpose of making manufactured fireworks, and is not included in the former classes of explosives, and also any star and any coloured fire composition, subject to the proviso hereinafter set forth.

Division 2 comprises manufactured fireworks, that is to say, any explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, toy cap or amoroe, serpent, rocket (other than a war-rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article specially adapted for the production of pyrotechnic effects or pyrotechnic signals or sound signals :

Provided that a substantially constructed and hermetically closed metal case containing not more than 1 lb. of coloured fire composition of such a nature as not to be liable to spontaneous ignition shall be deemed to be a "manufactured firework."

TRANSPORT.

(a) Packing.

2. The following general rules shall be observed with respect to the packing of explosives for conveyance :—

I.—Each class of explosive shall be separately packed.

II.—An explosive, not being an explosive of the 5th (fulminate) class, or of the 2nd and 3rd divisions of the 6th (ammunition) class, or of the 1st division of the 7th (firework) class, shall, if not exceeding 5lbs. in quantity, be contained in a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosive from escaping.

III.—In every other case the explosive shall be contained in a double package. The inner package shall be a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosive from escaping, and the outer package shall be a box, barrel, or case of wood or metal or other solid material, and shall be of such strength, construction, and character that it will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow the explosive to escape.

Provided as follows:—

- (a) If the explosive is of the 1st (or gunpowder) class or of the 2nd (nitrate-mixture) class, or is gun cotton or another explosive of the 2nd division of the 3rd (nitro-compound) class, the quantity of the explosive in any one outer package shall not, in the case of explosives of the first two classes, exceed 100 lbs., and in other cases 50 lbs.

*If the explosive is picric acid, the inner package must be of such a nature as to effectually prevent any picric acid from coming into contact with any basic metallic oxide.**

- (b) If the explosive belongs to the 1st division of the 3rd (nitro-compound) class or to the 4th (chlorate-mixture) class, the inner package shall be without any metal in its construction, and the inner or outer package, or both, shall be thoroughly water-proof †. No one of the inner packages shall contain more than 10 lbs., and the aggregate quantity of the explosive in any one outer package shall not exceed 50 lbs.

- (c)—1. *If the explosive belongs to the 5th (fulminate) class, and is of such character that it cannot be packed mixed with water, or that danger would arise from such mode of packing, it shall be packed in such manner as shall be specially directed by the Governor General in Council.*

2. *Any other explosive of the fulminate class shall be packed as follows: It shall be packed in bags or coverings of calico, canvas, or other material permeable to water, and containing each not more than 25 lbs. of fulminate, and so made and closed as to prevent any explosive from escaping. Such bags or coverings shall be packed in a case containing sufficient water to ensure the explosive being kept constantly wet, and such case (hereinafter called the inner case) shall be packed in an outer case containing sufficient water constantly to surround the inner case, and the inner case and the outer case shall each be of such strength, construction, and character that it will not be broken or accidentally opened or become defective or insecure whilst being conveyed, and will not allow any fulminate or water to escape; and the amount of the explosive in any one outer case shall not exceed 200 lbs., except with the consent of, and under conditions approved by, an Inspector of Explosives.*

3. *Every package when actually used for the packing of one fulminate shall not be used for the packing of any other fulminate or for any other purpose.*

4. *On the outer case there shall be affixed in conspicuous characters by means of a brand or securely attached label or other mark the word "Explosive," with the name of the explosive followed by the words "Fulminate, Division I" (or "as the case may be") and the name and address of the owner or sender.*

* Note.—This rule is intended to prevent picric acid being packed in a case lined with certain metals, such as zinc or lead, which would result in dangerous action from the formation of picric acid. Waterproof bags inside powder-barrels are suggested as a suitable alternative mode of packing picric acid for transport or storage.

† Note.—From the provision that the packages should be water-proof are excepted—

(1) All explosives falling in the 2nd division of the 4th (chlorate mixture) class.

(2) Those explosives included in the 1st division of the 3rd (nitro-compound) class which do not yield up their nitrogenous element as water, such as black powder, gelatine dynamite, cordite and ballistite and gelignite, provided that any other substance than those named has been assigned to be of this character by a Chief Inspector of Explosives.

(d)—1. *If an explosive belongs to the 1st division of the 6th (ammunition) class, it shall be contained in a box, barrel, or case of wood, metal, other solid material, and of such strength, construction, and character that it will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow any explosive to escape*

2. *If the explosive belongs to the 2nd division of the 6th (ammunition) class, the following rules shall apply, viz. —*

(i) *A shell or torpedo containing any explosive material, whether such shell or torpedo be separate or form part of a rocket or other appliance, shall be packed in such manner as may be specially directed by the Governor General in Council with reference to such explosive.*

(ii) *Any explosive material when made up into cartridges for cannon, shells, mines, blasting, or other like purposes, shall be packed in the manner required for the same explosive material when not so made up :*

Provided that where a double package is required, the enclosing case of such cartridge or charge, if it satisfies the conditions required for the inner package, may be held to be such inner package.

(iii) *Any other explosive of the 2nd division shall be packed in a box, barrel, or case of wood, metal, or other solid material, and of such strength, construction, and character that it will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow any explosive to escape : and any one such package shall not contain more than 100 lbs. of ammunition.*

(e) *If the explosive belongs to the 3rd division of the 6th (ammunition) class, it shall be packed in a double package. The inner package shall not contain more than 2 lbs. of such explosive and no more than 50 lbs. shall be contained in the outer package*

(f) *If the explosive belongs to the 1st division of the 7th (firework) class, it shall be contained in a double package. The inner package shall be a substantial canister, case, or other receptacle hermetically closed, and containing no more than 1 lb. of explosive, and no more than 20 lbs. shall be contained in the outer package, and,*

(g) *If the explosive belongs to the 2nd division of the 7th (firework) class, it shall be contained in a box, barrel, or case of wood, metal, or other solid material, and of such strength, construction, and character that it will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow any explosive to escape, and the quantity of explosive in any one package shall not exceed 100 lbs.*

IV.—*Whatever be the amount of the explosive, and to whatever class or division of a class it belongs, the following conditions shall be observed —*

(a) *the interior of every package, whether single or double, shall be kept free from grit and otherwise clean ;*

(b) *every package, whether single or double, when actually used for the packing of the explosive, shall not be used for the packing of any other explosive of the same or any other class or for any other purpose, except with the consent of, and under conditions approved by, an Inspector of Explosives ;*

(c) *there shall not be any iron or steel in the construction of any such single package or inner or outer package unless the same is effectually covered with tin, zinc, or other suitable material ;*

(d) on the outermost package there shall be affixed, in conspicuous characters, by means of a brand or securely attached label or mark, the word "Explosive," followed by the name of the explosive or other description of the contents and the name and address of the owners or sender, and

(e) the amount of the explosive in any single package or, if there is a double package, in any one outer package, shall not exceed the amount specified in the foregoing rules, except with the consent of, and under conditions to be approved by, an *Inspector of Explosives* or other officer appointed by the Local Government in this behalf

3. *Whoever* commits a breach of any of the foregoing rules relating to the packing of explosives for conveyance shall be punishable with fine which may extend to **Rs. 1,000.***

(b) *Mode of conveyance*

4 The following general rules shall be observed with respect to the conveyance of explosives.—

I—No explosive shall be conveyed from place to place unless packed in the manner provided for in the foregoing rules.

II—There shall not be conveyed in any carriage or vessel which is being used for the conveyance of an explosive, any explosive of a different class and division, of whatsoever nature, which contains its own means of ignition, unless it is sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

III—Except in the case of small consignments carried by railway, which may be unloaded at any time, explosives shall be loaded or unloaded only between sunrise and sunset. For the purposes of this rule no consignment of more than half a wagon-load booked to one station shall be deemed to be a small consignment.

IV.—Whilst the explosive is being loaded on or unloaded out of any carriage or vessel, no fire or artificial light, nor any article which is liable to cause or communicate fire or explosion [such as charcoal, lucifer-matches, articles for striking a light, petroleum to which the Petroleum Act (*Act of 1886*), or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, applies, or any spirit or oil or substance that gives forth an inflammable vapour at a temperature below 100° Fahrenheit] shall be, or shall be allowed to be, brought, had or used dangerously near to such carriage, ship, or boat, and no smoking shall be allowed in, on or dangerously near to, the same :

Provided that when the use of a light for the purposes of such loading or unloading is unavoidable, a lamp of such construction, position, or character as not to cause any danger from fire or explosion may be used; and no person, while handling any explosive (except an explosive of division 1, class 6, or an explosive of class 7, if packed in accordance with the packing rules), shall wear boots or shoes with iron or steel nails, heels, or tips.

V.—In the loading or unloading of any explosive, the casks and packages containing the same shall be passed from hand to hand and not rolled upon the ground; they shall not be thrown or dropped down, but shall be carefully deposited and stowed.

VI.—The explosive shall not be conveyed except in the interior of a carriage so enclosed on all sides with wood or metal, or in the hold of a ship or boat having a close deck so closed, as effectually to protect the explosive against accident by fire from without. If the explosive cannot be so secured, it shall be completely covered with painted cloth, tarpaulin, or other suitable material so as to effectually protect it against communication of fire.

VII.—There shall not be any iron or steel in the interior of the portion of the carriage or vessel with which the case containing the explosive is in contact, unless the same is effectually covered with leather, wood, cloth, or other suitable material.

* Rules regarding search for, and detention of, explosives contravening regulations have been issued by the Local Governments.

VIII.—In the stowing of *the* explosive, due precautions shall be taken by means of a partition or otherwise and by careful stowing to secure such explosive from being brought into contact with, or endangered by, any other article or substance conveyed in such carriage or vessel which is liable to cause fire or explosion, and if the explosive is dangerously affected by water, due precautions shall be taken to exclude water from coming into contact with such explosive.

IX.—The amount of *the* explosives conveyed in any one carriage or vessel at any one time shall not exceed 2,000 lbs., unless the carriage be so enclosed on all sides with wood or metal, or the vessel have a close deck so closed, as effectually to protect the explosive against accident by fire from without, in which case the amount of *the* explosives conveyed shall not exceed the following —

	Tons.
In any one carriage on a railway	10
In any one other carriage	2
In any one vessel	20

NOTE.—This rule shall in the case of dynamite conveyed by railway, be read subject to paragraph XII of Rule 6

X—Nothing in the foregoing rules (except Rule I) shall apply to any explosive of the 1st division of the 6th (ammunition) class.

Provided *that* all due precautions are taken for the prevention of accidents.

5. The following rules shall be observed with respect to the conveyance of explosives otherwise than by railway —

I.—No explosive shall be conveyed in a carriage or boat whilst carrying or plying for public passengers, unless the quantity is less than 5 lbs. and notice has been given beforehand to the person in charge of such carriage or boat

Provided that there shall not be conveyed in any such carriage or boat any explosive of the 5th (fulminate) class or any explosive of the 3rd division of the 6th (ammunition) class, or of the 1st division of the 3rd (nitro-compound) class, except—

(i) dynamite which may be carried in the form of cartridges up to the limit of 5lbs.

Provided that no detonators are carried in the same compartment, and

(ii) detonators to the number of 200.

Provided that the amount of *explosive of the 5th (fulminate) class* in the detonators shall in no case exceed in the aggregate 3 oz.

(a certificate to this effect being given by the Agent of the Company by whom the detonators are tendered for transport):

Provided also that no dynamite is carried in the same compartment.

II.—With respect to the conveyance by carriage or vessel of explosives of the 5th (fulminate) class, or of the 3rd division of the 6th (ammunition) class, or of the 1st division of the 7th (firework) class, or of larger quantities than 5 lbs. of any other explosive, the following regulations shall be observed:—

(1) The person in charge of the carriage or vessel shall not drive or conduct the same in a dangerous or reckless manner, and shall take all due precautions to avoid fire and explosion, and no person shall do any act or thing in relation to the explosive which tends to cause fire or explosion, and is not reasonably necessary for the conveyance of the explosive or for work immediately connected with such conveyance; and a person who is intoxicated shall not have charge of any carriage or vessel conveying explosive, and shall not be permitted to be in, or on, or attending the same.

(2) A person shall not forward to any warehouseman or carrier a consignment of explosive, unless he has given notice to such warehouseman or carrier beforehand, stating the name and quantity of the explosive proposed to be conveyed, and the name and address of the proposed consignee, and has had an intimation that the warehouseman or carrier is prepared to receive the consignment; and a warehouseman or carrier shall not make such an intimation, nor

receive such consignment, unless he is prepared to receive it, and forthwith to despatch the same, or to deposit it in a magazine or at a place at which a person is licensed to possess the same.

- (3) The carriage or vessel conveying the explosive shall be in charge of, and constantly attended by, some competent person, or by a sufficient number of competent persons, and such persons shall not, if the amount of the explosive conveyed exceed 100 lbs., stop or delay for a longer time than may be reasonably necessary, or stop unnecessarily at any place where such stopping would be attended with special public danger.

6. The following rules shall be observed with respect to the conveyance of explosives by public railway:—

I.—No person shall send for carriage upon any railway any consignment of an explosive, unless he has given to the officer in charge of the railway station previous notice in writing which, at the option of the Railway Administration may extend to 48 hours, of his intention to send such consignment, and stating the true name, description, quantity, and mode of packing of the explosive proposed to be conveyed, and his own name and address, and also the name and address of the proposed consignee, and unless he has had an intimation in writing from an authorised officer of the railway that such consignment will be received.

II.—No explosive which a Railway Administration shall, by any notice or regulation for the time being in force, notify that they will not receive, shall be brought, sent, or forwarded to, or upon, any railway of the said Railway Administration.

III.—Consignments of explosives shall be sent to the forwarding station and shall be received by the railway servants only at such times, between sunrise and sunset, as the Railway Administration may appoint; and every package containing any explosive proposed to be conveyed on any railway shall immediately on arrival at the station be unloaded and placed in a safe place under the special direction of the officer in charge of the station.

All gunpowder under despatch or receipt by a Government arsenal, dépôt, or factory, shall be loaded or unloaded in the railway vans by Government servants employed in such arsenal, dépôt, or factory. In each van used by the railway for the transport of gunpowder the packages of gunpowder shall be secured in such a way as to prevent concussion when the train is in motion.

IV.—An explosive shall be removed by the consignee from the receiving station during the twelve hours of daylight after arrival: if this condition is not strictly complied with, the Railway Administration may return the consignment to the consignor at his risk and expense. And such packages shall in the meanwhile be kept as far away from the station buildings as possible, in the wagon they were conveyed in, or, if unloaded, shall be completely covered with tarpaulins or other suitable material, and, if necessary, shall be protected by a police guard.

V.—The Railway Administration may refuse to receive any packages which they suspect to contain any explosive packed or sent in contravention of these regulations. And in case any package, which the Railway Administration suspect, shall be upon any railway, the Railway Administration may open, or require to be opened, such package, to ascertain the fact, at the risk and expense of the consignor, and may return the explosive contained in the package to the consignor at his risk and expense, keeping the packages, pending such return, in the manner prescribed in the preceding rule.

VI.—Subject to the exception provided for in clause (e), no explosive shall be conveyed by passenger-train except of the kinds and in the manner herein-after specified in this rule:—

- (a) Safety cartridges and percussion-caps and safety-fuze (for blasting) also fog-signals for railway use which may be conveyed in ordinary wagons or carriages.

- (b) Dynamite which may be carried in the form of cartridges up to the limit of 5 lbs:

Provided that no detonators are carried in the same compartment.

(c) Detonators which may be carried to the number of 200 :

Provided that in no case the amount of fulminate of mercury in the package or packages containing the detonators exceeds in the aggregate 8 oz. (a certificate to this effect being given by the Company, firm, or person tendering the detonators for transport or by its or his agent) .

Provided also that no dynamite is carried in the same compartment.

(d) Sporting gunpowder or non-safety cartridges packed in double cases as before provided, so long as the gunpowder is contained in one-pound tin canisters packed in a stout wooden case with an outer covering of tin or zinc completely spark-proof, or in metal-lined cases of a pattern approved by the Railway Administration. But no outer case shall contain more than 25 lbs. of gunpowder, and the total consignment of gunpowder or non-safety cartridges by one train shall not exceed 80 lbs.

(e) Explosives may be carried by mixed trains on any line on which goods trains are not running, subject to the conditions that not more than one vehicle containing explosives is forwarded at any one time by a mixed train; that the precautions prescribed for conveyance by goods trains are observed; and that directly a wagon containing explosives arrives at a section on which goods trains are running, it is detached from the mixed trains.

VII.—Not more than five carriages containing explosives shall be loaded or unloaded at any railway station, or be conveyed by any one train at any one time; and the quantity of explosive to be contained in any one carriage shall not exceed two-thirds of the normal load, unless the carriages shall be specially built and approved of by the Government of India for the conveyance of explosives. But nothing in this clause shall be held to apply to separate consignments of small-arms ammunition.

VIII.—There shall not be conveyed in the same carriage with any explosive any lucifer or other matches, fuzes, pipelights, acids, naphtha, paraffine, petroleum to which the Petroleum Act (*XII of 1886*), or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, apphes, or any other volatile spirit or substance liable to give off an inflammable vapour or liable to spontaneous ignition, or to cause or communicate fire or explosion.

IX.—The consignor shall attach to the consignment note a certificate or (*provided the original is produced for verification*) copy of a certificate, signed by an officer authorised by the Local Government in this behalf that the explosive, if it is an explosive of class 3 or 4, is of the standard purity; and further, in the case of dynamite, and all nitro-glycerine compounds, that there are no signs of exuded nitro-glycerine or of liquefaction. The consignor shall also certify that the explosive has been packed in accordance with the packing rules in force in *England or in British India*.

X.—In the case of explosives under classes 3 and 4 the outer packages shall be marked with the date of the manufacture of the explosives. The above-mentioned certificate shall contain sufficient information to admit of all packages being easily recognised.

XI.—The certificate referred to in Rule IX shall be valid for six months after date, if the examination has been made between the 15th October and 31st March; but any Railway Administration which accepts dynamite for transport may demand a fresh certificate for dynamite presented for conveyance between 1st April and 15th October (both inclusive).

XII.—Packages containing dynamite shall be stowed in one layer only and secured so as to prevent movement during transit, and the gross load in any one wagon shall not exceed 3 tons .

Provided that, if the packages of dynamite are in rectangular form and are properly secured so as to prevent movement during transit, they may be stowed in any number of layers not exceeding five, and the gross load in any one wagon shall not exceed 5 tons.

XIII.—No explosive belonging to the 5th (fulminate) class or to class VI, division 3, shall be carried in the same train with dynamite, or with any other explosive belonging to class III, division 1.

XIV.—Wagons used for the carriage of explosives shall be examined to see that they are spark-proof, and have been cleaned out before they are loaded. Hair cloth, hides, or other suitable materials shall be spread on the floor of the wagon and between each layer of packages, except when the packages are covered with gunny or felt, or contain small-arms ammunition packed in tin-lined service-pattern boxes.

XV.—Wagons containing explosives shall be loaded and unloaded on sidings distant as far as possible from the station buildings

XVI.—*Five layers of packages in rectangular form and of uniform size (provided they are double packages, and are so secure as to prevent movement during transit) may be packed one above another. Otherwise not more than three layers of packages containing explosives shall be packed one above another. But in the case of small-arms ammunition packed in tin-lined service-pattern boxes, there is no restriction.* Subject to the provisions of Rule 4 (III), the loading and unloading of explosives when once begun shall be diligently proceeded with until the same is completed.

XVII.—When the train is being marshalled, wagons loaded with explosives may be shunted by a locomotive, if they are separated from the engine by not less than three wagons containing no explosive nor easily inflammable substance. This precaution is not necessary with wagons specially constructed for the carriage of explosive. The speed of these movements shall be restricted to 5 miles an hour, they shall be superintended by a duly authorised officer, who shall be held responsible for the observance of these orders. Flying shunts are strictly prohibited.

XVIII.—Wagons containing explosives shall be placed at the end of the train away from the locomotive, and shall be close coupled to one another, as well as to the adjoining wagons, and preceded and followed by three wagons not loaded with explosives or other traffic of an inflammable nature.

XIX.—If the wagons employed in the transport of explosives are provided with brakes, the brakes thereon shall on no account be worked while the wagons are running with a train, nor shall brakes, other than iron brakes, on vehicles immediately adjoining such wagons, be worked while such wagons are so running.

XX.—Wagons shall in every case be locked when loaded with explosives.

XXI.—All operations connected with the transhipment of explosives at junction stations shall take place during daylight.

7. *Whoever* commits a breach of any of the foregoing rules relating to the mode of conveyance of explosives shall be punishable with a fine which may extend to Rs100.

IMPORTATION.

8. An explosive shall not be imported by sea into British India, except under, and in accordance with, the conditions of a license to import the explosive granted under these rules

Provided that any explosive other than an explosive specified in Rule 11 may, previous to the grant of an importation license, if certified to be of British manufacture or, if not of British manufacture, if imported from the United Kingdom and covered by the certificate granted by one of Her Majesty's Inspectors of Explosives in England, be landed in accordance with such regulations as the Local Government may prescribe in this behalf, and be stored in a place set apart by the Local Government for this purpose. The Governor General in Council may extend this privilege to any such explosive not of British manufacture regarding which he is satisfied that it has been manufactured under adequate official supervision.

Before any explosive is landed under the proviso to this rule, the consignee shall give to the Chief Customs Officer of the Port such undertaking, with or

without security, as the said officer thinks sufficient, to obey, in the event of the explosive failing to satisfy the prescribed tests, such directions as to its disposal as the Local Government may see fit to prescribe.

If samples are taken by an officer deputed by the Chief Customs Officer on board the ship on its arrival the procedure shall be that prescribed in Rule 15.

9. Whoever imports an explosive in contravention of Rule 8 shall be punishable with fine which may extend to three thousand rupees.

10. An explosive shall not be imported by sea except at the ports of Calcutta, Madras, Bombay, Rangoon, Calicut, Karachi, and Aden, but a license to import an explosive by sea from Rangoon into the ports of Akyab, Moulmein, Sandoway, Kyauk-Phyoo, Tavoy, and Mergui may be granted by the Magistrate of the Districts in which these ports are respectively situated. The fee payable in respect of each such license shall be one rupee, and the license shall be in form A in the Schedule hereto annexed.

11. If the explosive is gunpowder or an explosive of the 1st division of the 6th (ammunition) class or an explosive of the 7th (firework) class, the license to import the same may be granted at the ports of Calcutta, Madras, and Bombay by the Commissioner of Police, and at the ports of Rangoon, Calicut, Karachi, and Aden by the District Magistrate.

12. The fee payable in respect of each such license shall be Rs 10; but, if any explosive imported under a license into a British port is exported thence to another British port named in Rule 10, the necessary license for such re-import may be granted on payment of a fee of one rupee instead of Rs 10.

13. Licenses for the importation by sea of any explosives other than those specified in Rule 11 shall be granted by the Local Government or by some officer specially authorized by the Local Government in this behalf.

14. No license shall be granted for the importation of any explosive of the description referred to in Rule 13, if it be an explosive for which a test or examination has been prescribed by or under the orders of the Government of India, unless samples of the explosive taken as hereinafter provided are certified by the Chemical Examiner or some other officer appointed by the Local Government in this behalf to have passed the test or examination from time to time prescribed.

15. On the arrival in any port at which the importation of explosives is lawful, of a ship having on board an explosive other than an explosive of the description referred to in Rule 11, such officer as the Chief Customs Officer authorizes in this behalf shall, as soon as may be, proceed on board and shall, if testing or examination is requisite under the last preceding rule, obtain samples of the explosive.

All explosive of which samples are taken for examination shall be forthwith deposited in a duly licensed place or places of storage, and shall not be distributed for use until the importer has received from the licensing authority notice that it may be so distributed.

The master of the ship shall give to the said officer, without charge, such samples as he may require. The said officer shall affix to each such sample the name of the ship and of the consignee and such other distinguishing marks as he may think necessary, and shall forward the same to the Chemical Examiner or officer, as aforesaid, for report.

The Chemical Examiner or officer as aforesaid, after testing the said samples, shall without delay forward to the licensing authority, through the Chief Customs Officer, a report under his signature certifying whether the explosive has satisfied the prescribed test.

15-A. Explosives, other than those referred to in Rule 11, which have already undergone the test prescribed by Rules 14 and 15 at the ports of Calcutta, Madras, Bombay, Rangoon, Calicut, Karachi, or Aden, may be re-imported by sea into any other of those ports under a license granted under Rule 13, without re-testing, but subject, in the case of such explosives as are mentioned in Rule 6, Clause IX, to the production of the certificate prescribed in that clause.

Such certificate shall be valid for six months after date, if the examination has been made between the 15th October and 31st March; but in the case of

dynamite, a fresh certificate may be demanded if the consignment is imported between the 1st April and 15th October (both inclusive).

16. The period for which a license to import an explosive, granted under Rule 13, shall continue in force shall not exceed such period as may seem necessary to the authority granting the license.

17. The fee payable on a license granted under Rule 13 shall be R10, but, if any explosive imported under a license into a British port is exported thence to another British port named in Rule 10, the necessary license for such re-import may be granted on payment of a fee of one rupee instead of R10.

18. Every license granted under Rules 11 and 13 shall be in Form A in the Schedule hereto annexed, and shall be subject to the conditions therein prescribed, and also to such additional conditions with respect to the time and place of unloading, landing, delivery and conveyance of the explosive, and such other conditions as may in each case be thought by the licensing officer to be necessary for the public safety or in the interests of the State.

19. *Whoever* commits a breach of any condition subject to which a license under Rules 11 and 13 is granted, shall be punishable with fine which may extend to three thousand rupees.

GENERAL.

20. Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions subject to which it is granted.

21. If a person licensed to import an explosive dies or becomes bankrupt or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the *Indian Explosives Act (IV of 1884)* or the rules thereunder for acting under the license during such reasonable time as may be necessary to allow him to make an application to the authority granting the license for a new license in his own name during the currency of the unexpired portion of the original license. Such new license shall be granted on payment of one rupee.

22. The fees leviable under these rules shall be taken in the shape of impressed stamps. Ordinarily the applications for licenses or renewals of licenses shall, if not otherwise provided, be written on impressed stamps of value equal to the amount of fee leviable in respect of such licenses or renewals, the licenses themselves being issued on plain paper. But when the licenses themselves are written or printed on impressed stamps, the application may be on plain paper. When an application for license is written on an impressed stamp, and the license is refused, the value of the stamp will, on application, be refunded to the applicant.

23. When a license granted in accordance with these rules is lost, or accidentally destroyed, a duplicate may be granted to the licensee on payment of a fee of 8 annas.

24. Any person holding a license, or acting under a license granted in accordance with these rules, shall be bound to produce the same when called upon to do so by any Magistrate, or by any Police officer in charge of a Police station, or by any Police officer of higher rank.

25. All Magistrates or other authorities acting under these rules shall perform their duties subject to the control of their executive superiors and of the Local Government.

26. Any authority empowered to grant a license under the foregoing rules may, if he thinks fit, direct by any order written on the license that it shall have the effect of a like license under the *Indian Arms Act (XI of 1878)*.

27. Any persons lawfully entitled under the *Indian Arms Act (XI of 1878)* or the rules thereunder, to possess any explosive coming under the head of ammunition, as defined in that Act; may possess or import without license under these rules any such explosive in reasonable quantities for his own private use: but when an explosive is so imported, the Collector of Customs or any other officer empowered by the Local Government in this behalf by name or by virtue of his office may at any time detain such explosive until he receives the orders of the Local Government thereon.

FORM A.

(See Rules 11, 13 and 18.)

TEN TEN RUPEES IN STAMPS.

License to import Explosives into the Port of _____

Name etc., and address of licensee-holder.	Number of packages.	EXPLOSIVE.			Purpose for which required.	Destination	Period for which the license is valid.
		Description.	Weight.	Number.			
							From the _____ th of _____ to the _____ th of _____ 189 .

Conditions.

1. This license is given subject to the provisions of the Indian Explosives Act (IV 1884) and the rules thereunder. *Certain general rules are quoted separately below.*
2. This license *shall* become void after expiry of the period named thereon.
3. This license is valid for importation only: if the articles named herein are to be transported to any place outside the Presidency Town, they must be protected by a transport license, to be issued in accordance with the rules under the Indian Arms Act (XI of 1878).
4. On the outside of each package there shall be affixed in conspicuous characters by means of a brand or securely attached label or mark the word "Explosive," followed by the name of the explosive or other description of the contents and the name and address of the owners or senders.

GENERAL RULES.

* * *

20. Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions subject to which it is granted.

21. If a person licensed to import an explosive dies or becomes bankrupt or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the Act or the rules made thereunder for acting under the license during such reasonable time as may be necessary to allow him to make an application to the authority granting the license for a new license in his own name during the currency of the unexpired portion of the original license. Such new license shall be granted on the payment of one rupee.

22. The fees leviable under these rules shall be taken in the shape of impressed stamps. Ordinarily the applications for license or renewals of licenses shall, if not otherwise provided, be written on impressed stamps of value equal to the amount of fee leviable in respect of such licenses or renewals, the licenses themselves being issued on plain paper. But when the licenses themselves are written or printed on impressed stamps, the application may be on plain paper. When an application for license is written on an impressed stamp, and the license is refused, the value of the stamp will, on application, be refunded to the applicant.

23. When a license granted in accordance with these rules is lost, or accidentally destroyed, a duplicate may be granted to the licensee on payment of a fee of 8 annas.

24. Any person holding a license, or acting under a license granted in accordance with these rules, shall be bound to produce the same when called upon to do so by any Magistrate, or by any Police officer in charge of a Police station, or by any Police officer of higher rank.

Draft Rule for Testing Explosives.

WITH reference to Rule 14 of the Rules to regulate the transport and importation of explosives, published with Home Department Notification , the Governor General in Council is pleased to make the following Rule on the subject of the tests which explosives should be required to pass before their importation is permitted:—

RULE.

Class 1.—Gunpowder Class. Gunpowder is not required to pass a test.

Class 2.—Nitrate-mixture class. Nitrate-mixture explosives are not ordinarily required to pass a test. The Local Government, however, or the authorized officer granting the import license under Rule 13 of the Rules to regulate the transport and importation of explosives published with Home Department Notification No. , dated the 1896, may in any particular case or class of cases require that a sample of the explosive which is to be imported be sent first to the Chemical Examiner for an analysis of its constituent parts.

Class 3.—Nitro-compound class. It is for explosives of this class that testing is chiefly required, in respect to the purity of their composition and their liability to liquefaction or exudation. The tests prescribed for nitro-compound explosives are contained in Schedule A attached to this rule.

Class 4.—Chlorate-mixture class. See Schedule A for remarks regarding the testing of this class^(a).

Class 5.—Fulminate class. No test has been laid down for explosives of the Fulminate class^(a).

Class 6.—Ammunition class. No test is required for explosives of the 1st Division of this class. If the substances of which explosives of the 2nd and 3rd Divisions are composed have to be tested under the preceding rules, they will be equally liable to be tested when enclosed in any case or contrivance and thus falling under the Ammunition class.

Class 7.—Firework class. Explosives of this class are not required to pass a test.

SCHEDULE A.

Heat Test as applied to Explosives of the Nitro-compound Class.

GENERAL INSTRUCTIONS.

Apparatus required.

1. A water bath, consisting of a spherical glass or copper vessel [(a) Fig 1] of about 8 inches diameter, and with an aperture of about 5 inches; the bath is filled with water to within a quarter of an inch of the edge. It has a loose cover of sheet copper about 6 inches in diameter (b), and rests on a tripod stand about 14 inches high (c), which is covered with coarse iron wire gauze (e), and is surrounded with a screen of thin sheet tin or copper (d). Within the latter is placed an Argand burner (f), with glass chimney. The cover (b) has four holes arranged as seen in Fig. II, No. 4 to receive the regulator, No. 3 the thermometer, Nos. 1 and 2 the test-tubes containing the gun-cotton or other materials to be tested. Around holes 1 and 2 on the under side of the

(a) Licenses are not at present given for the importation into British India of any explosives of those classes.

cover are soldered three pieces of brass wire with points slightly converging (Fig. III); these act as springs and allow the test-tubes to be easily placed in position and removed.

- *2. Scheibler's or Page's temperature regulator.
 - *3. Two cells of Le Clanché's battery No. 1
 - *4. A few yards of insulated copper wire
- } if Scheibler's regulator is used.
5. Test tubes from $5\frac{1}{2}$ to $5\frac{3}{4}$ inches long, and of such diameter that they will hold from 20 to 22 cubic centimeters of water when filled to a height of 5 inches.
 6. India-rubber stoppers, fitting the test-tubes and carrying an arrangement for holding the test-paper, *viz.*, a narrow glass tube passing through the centre of the stopper, drawn out so as to form a hook, or terminating in a platinum wire hook (Fig. IV).
 7. A thermometer, with range not less than from 30° to 212° Fahrenheit.
 8. A minute clock.

Materials required.

a. *Test-paper.*—The test-paper is prepared as follows:—45 grains of white maize starch (cornflour), previously washed with cold water, are added to $8\frac{1}{2}$ ounces of distilled water, the mixture is stirred, heated to boiling, and kept gently boiling for 10 minutes; 15 grains of pure potassium iodide (*i.e.*, which has been re-crystallized from alcohol) are dissolved in $8\frac{1}{2}$ ounces of distilled water. The two solutions are thoroughly mixed and allowed to get cold. Strips, or sheets, of white English filter paper previously washed with water and re-dried are dipped into the solution thus prepared, and allowed to remain in it for not less than 10 seconds; they are then allowed to drain and dry in a place free from laboratory fumes and dust. The upper and lower margins of the strips, or sheets, are cut off, and the paper is preserved in well-stoppered or cork bottles, and in the dark.† The dimensions of the pieces of test-paper used are about $\frac{1}{10}$ inch by $\frac{2}{10}$ inch (10 mm by 20 mm.).

* This is not absolutely required, as the temperature of the bath can be kept constant by proper attention to the heating flame.

† When a paper is freshly prepared, and as long as it remains in good condition, a drop of dilute acetic acid put on the paper with a glass rod, produces no coloration. In process of time, however, the stronger the light to which the paper is exposed, the sooner a drop of the acid produces a brown or bluish coloration (a single hour account it is advisable not to prepare too much of the test-paper at one time, but to prepare it fresh every month or so.

b. Standard tint paper.—A solution of caramel in water is made of such concentration that when diluted one hundred times (10 cc. made up to 1 litre) the tint of this diluted solution equals the tint produced by the Nessler test in 100 cc. water containing 0.000075 grm. of ammonia or 0.00023503 grm. of chloride of ammonium. With this caramel solution lines are drawn on strips of white filter paper* by means of a clean quill pen. When the marks thus produced are dry the paper is cut into pieces of the same size as the test-paper previously described, in such a way that each piece has a brown line across it near the middle of its length, and only such strips are preserved in which the brown line has a breadth varying from $\frac{1}{2}$ mm. to 1 mm. ($\frac{1}{10}$ of an inch to $\frac{1}{2}$ of an inch).

I.—Testing Dynamite, Blasting Gelatine, and other Explosives of the First Division of the Nitro-compound Class.

A.—DYNAMITE, ETC., ETC

Nitro-glycerine preparations, from which the nitro-glycerine can be extracted in the manner described below, *must* satisfy the following test, otherwise they will not be considered as manufactured with “thoroughly purified nitro-glycerine” within the terms of the license.†

Apparatus required

A funnel 2 inches across (*d*), a cylindrical measure divided into grains (*e*). (See sketch.)

Mode of operation

About 300 to 400 grains of dynamite (*b*) finely divided are placed into the funnel, which has previously been loosely plugged by some freshly-ignited asbestos (*a*).

The surface is smoothed by means of a flat headed glass rod or stopper, and some clean washed and dried Kieselguhr (*c*) is spread over it to the depth of about $\frac{1}{8}$ inch.

Water is next carefully dropped from a wash bottle upon this Kieselguhr, and when the first portion has been soaked up, more is added; this is repeated until sufficient nitro glycerine has been collected in the graduated measure (*e*) below.

If any water should have passed through with the nitro-glycerine, it should be removed with a piece of blotting paper, and the nitro-glycerine, if necessary, filtered through a dry paper filter.

* This paper must be carefully washed with distilled water, in the first instance to remove any traces of bleaching matter, and dried.

† This test, though at present looked upon as the most important, as far as testing the purity of the nitro glycerine is concerned, is in England only one of several which any given sample of nitro-glycerine preparation has to satisfy in order to establish its compliance with the definition in the license.

Application of the Test.

The thermometer is fixed so as to be inserted through the lid of the water bath described under I, page 213, into the water (which is to be steadily maintained at a temperature of 160° Fahr.) to a depth of 2½ inches. Fifty grains of nitro-glycerine, to be tested, are weighed into a test-tube in such a way as not to soil the sides of the tube. A test-paper is fixed on the hook of the glass rod so that when inserted into the tube it will be in a vertical position. A sufficient amount of a mixture of half distilled water and half glycerine to moisten the upper half of the paper is now applied to the upper edge of the test-paper, by means of a camel's-hair pencil, the cork carrying the rod and paper is fixed into the test-tube and the position of the paper adjusted so that its lower edge is about half-way down the tube, the latter is then inserted through one of the perforations of the cover to such a depth that the lower margin of the moistened part of the paper is about five-eighths of an inch above the surface of the cover. The test is complete when the faint brown line which after a time makes its appearance at the line of boundary between the dry and moist part of the paper equals in tint the brown line of the standard tint paper.

The nitro-glycerine under examination will not be considered as "thoroughly purified" within the terms of the license unless the time necessary to produce the standard tint as above described is at *least* 15 minutes.

B — BLASTING GELATINE, GELATINE DYNAMITE, AND ANALOGOUS PREPARATIONS.

Fifty (50) grains of blasting gelatine are to be intimately incorporated with one hundred (100) grains of French chalk.* The mixture is to be gradually introduced into a test-tube of the dimensions prescribed above for the dynamite heat test, with the aid of gentle tapping upon the table, between the introduction of successive portions of the mixture into the tube, so that when the tube contains all the mixture it shall be filled to the extent of 1¾ inches (one inch and three quarters) of its height. The test-paper is then to be inserted and the heat is to be applied in the manner prescribed above for the dynamite heat test, and the sample tested is to withstand exposure to 160° Fahr. for a period of ten (10) minutes, before producing a discoloration of the test-papers corresponding in tint to the standard colour test which is employed for governing the results of the dynamite heat test.

(For Exudation and Liquefaction tests for Blasting Gelatine, etc., etc., see Appendix, p. 218.)

N.B.—Non-gelatinized nitro-glycerine preparations, from which the nitro-glycerine cannot be expelled by water, are tested without any previous separation of the ingredients, the temperature being as above (160° Fahr.) and the time being seven (7) minutes.

C.—CORDITE AND BALLISTITE

1. Apparatus required

The apparatus necessary for the application of the heat test to cordite is identical with that described above (see page 213) for explosives of the nitro-compound class generally † with the addition of a mill and a nest of sieves similar to those used at Waltham Abbey for preparing the cordite for testing (see instructions below).

* This can be readily effected by carefully working the two materials together with a wooden pestle in a wooden mortar.

The French chalk should be of good commercial quality, and after being carefully washed with distilled water and dried in a water oven, it should be exposed under a bell jar to moist air until it has taken up about 0.5 per cent of moisture. It should then be bottled for use, and with ordinary care the limits of 0.5 per cent can be maintained in keeping.

† In the Waltham Abbey apparatus the cover (Fig II) has all the holes around the circumference, instead of having one in the centre and three around the circumference.

2. Preparation of the sample to be tested.

Pieces half an inch long are cut from one end of every stick selected for the test; in the case of the thicker cordites, each piece so cut is further subdivided into about four portions. These cut pieces are then passed two or three times through the mill, the first portion of material which passes through being rejected on account of the possible presence of foreign matter from the mill. The ground material is put on the top sieve of the nest of sieves and sifted. That portion which has passed through the top sieve and been stopped by the second is taken for the test. After each sample has been ground, the mill must be taken to pieces and carefully cleaned.

3. Application of the Test.

The thermometer is fixed so as to be inserted through the lid of the water bath, described under I, page 213, so as to be immersed in the water to a depth of $2\frac{1}{4}$ inches. The water is maintained at a constant temperature of 180° Fahr. When this temperature is reached 25 grains of the sifted cordite are put into one of the test-tubes, and collected at the bottom by gentle tapping. A test-paper is fixed on to the hook of the glass rod, so that when inserted into the tube it will be in a vertical position. A mixture of equal parts of distilled water and pure glycerine (Price's) is now applied to the upper edge of the test-paper by means of a camel's-hair pencil, in sufficient amount to moisten the upper half; the stopper carrying the rod and paper is fixed into the test-tube and the position of the paper adjusted so that its lower edge is about half-way down the tube, the latter is then inserted through one of the perforations of the cover to the same depth as the thermometer. The lower margin of the moistened part of the paper should then be about five-eighths of an inch above the surface of the cover. The test is completed when the faint brown line, which after a time makes its appearance at the margin between the wet and dry portions of the test-paper, equals in depth of tint the brown line drawn on the standard tint paper.

4. The time which elapses between the insertion of the test-tube and the completion of the test must not be less than 15 minutes.

N B.—In the case of ballistite the treatment is the same, except that when it is in a very finely granulated condition it need not be cut up.

II.—Testing Gun-cotton, Schultze Gunpowder, E. C. Powder, and other Explosives of the 2nd Division of the Nitro-compound Class.

A.—GUN-COTTON, TONITE, ETC., ETC.

Sufficient material to serve for two or more tests is removed from the centre of the cartridge by gentle scraping, and, if necessary, further reduced by rubbing between the fingers.

The fine powder thus produced is spread out in a thin layer upon a paper tray 6 inches by $4\frac{1}{2}$ inches, which is then placed inside a water oven, kept, as nearly as possible, at 120° Fahr.

The wire gauze shelves in the oven should be about 3 inches apart. The sample is allowed to remain at rest for 15 minutes in the oven, the door of which is left wide open.

After the lapse of 15 minutes the tray is removed and exposed to the air of the room for two hours, the sample being at some point within that time rubbed upon the tray with the hand, in order to reduce it to a fine and uniform state of division.

Application of the Test.

The cover of the water bath is fitted with the gas regulator which is inserted through the centre hole (No. 4). The thermometer is fixed into hole No. 3. The water in the bath is then heated to 170° Fahr., and the regulator set to maintain that temperature. Twenty grains of the sample to be tested are weighed out, placed in the test-tube, and gently pressed down until the specimen occupies a space of as nearly as possible $1\frac{1}{8}$ inches in a test-tube of the dimensions specified. A test-paper is affixed to the hook of the glass rod or tube, and moistened by touching the upper edge with a drop of distilled water containing 50 per cent. of Price's glycerine. The quantity of liquid used must be only sufficient to moisten about half of the paper. The cork carrying the rod and test-paper is then fixed into the test-tube, and the latter inserted into the bath to a depth of $2\frac{1}{2}$ inches, measured from the cover, the regulator and thermometer being inserted to the same depth. The test-paper is to be kept near the top of the test-tube, but clear of the cork until the tube has been immersed for about five minutes. A ring of moisture will about this time be deposited upon the sides of the test-tube a little above the cover of the bath; the glass rod must then be lowered until the lower margin of the moistened part of the paper is on a level with the bottom of the ring of moisture in the tube; the paper is now closely watched. The test is complete when a very faint brown coloration makes its appearance at the line of boundary between the dry and moist parts of the paper.

The interval of time between the first insertion of the tube containing the sample of gun-cotton in the water at 170° and the first appearance of discoloration on the paper constitutes the test, and this interval of time must be *not less* than 10 minutes, or the sample will not be accepted as properly purified.

B.—GELATINIZED GUN-COTTON PREPARATIONS.*

Twenty-five grains introduced into test-tube* of the dimensions prescribed for the dynamite heat test, then proceed as for Blasting Gelatine, etc., taking the temperature at 180° Fahr., and the time as 15 minutes.

C.—SCHULTZE POWDER, E. O. POWDER, COLLODION COTTON, ETC., ETC.

Sufficient of the sample, without further mechanical division, is dried in the oven as above, and then exposed for two hours to the air. The test as directed above for Compressed Gun-cotton, etc., is then applied, the minimum duration of test being the same, *viz.*, 10 minutes.

D.—PICRIC ACID.

(1) The material shall contain not more than 0.3 part of mineral or non-combustible matter in 100 parts by weight of the material dried at 160° Fahr.

(2) One hundred parts of the dry material shall not contain more than 0.3 part of *total* (free and combined) sulphuric acid, of which not more than 0.1 part shall be *free* sulphuric acid.

(3) Twenty grains of the material shall stand the heat test as laid down for dynamite (*see ante*, p. 214) for not less than 15 minutes.

E.—AMMONITE, BELSITE, ROBURITE, AND EXPLOSIVES OF SIMILAR COMPOSITION.

These are required to stand the same heat test as gun-cotton (*see ante*, p. 216).

III.—Testing Chlorate Mixtures.

No tests have yet been laid down, as at present there are no authorized explosives of this class, but in the event of any being authorized, it would be

* If in a compressed form it should be broken up in the same manner as cordite and ballistite.

necessary to require that they should satisfy the heat test laid down for Gun-cotton, and from time to time the degree of sensitiveness to percussion or friction (especially a glancing blow) should be observed.

APPENDIX.

Exudation and Liquefaction Test for blasting Gelatine, Gelatine Dynamite, and Analogous Preparations.

TEST FOR LIQUEFACTION.

A cylinder of blasting gelatine is to be cut from the cartridge to be tested, the length of the cylinder to be about equal to its diameter and the ends being cut flat.

The cylinder is to be placed on end on a flat surface without any wrapper, and secured by a pin passing vertically through its centre.

In this condition the cylinder is to be exposed for one hundred and forty-four (144) consecutive hours (six days and nights) to a temperature ranging from 85° to 90° Fahr. (inclusive), and during such exposure the cylinder shall not diminish in height by more than one-fourth of its original height, and the upper cut surface shall retain its flatness and the sharpness of its edge.

N.B.—If the blasting gelatine and the gelatine dynamite to be tested be not made up in a cylindrical form, the above test is to be applied with the necessary modifications.

TEST FOR LIABILITY TO EXUDATION.

There shall be no separation from the general mass of the blasting gelatine or gelatine dynamite of a substance of less consistency than the bulk of the remaining portion of the materials under any conditions of storage, transport, or use, or when the material is subjected three times in succession to alternate freezing and thawing, or when subjected to the liquefaction test hereinbefore described.

ESTABLISHMENTS.

The 24th November 1896.

No. 923—Mr. H. J. S. Cotton, C.S.I., of the Indian Civil Service, is appointed to be Chief Commissioner of Assam, with effect from the date of assuming charge of that office.

No. 937—Mr. J. O. Price has been permitted to resign Her Majesty's Indian Civil Service, with effect from the 31st October 1896.

EXAMINATIONS

The 26th November 1896.

No. 447—The undermentioned gentlemen are appointed to be members of the Board of Examiners, Calcutta :—

Dr A F R. Hoernle, Ph. D

The Hon'ble Nawab Syud Ameer Hussain, C.I.E.

ECCLESIASTICAL.

The 27th November 1896.

No. 343—The services of the Reverend V. W. Kinsman, Officiating Chaplain of Nagpur, are placed at the disposal of the Government of Bengal, with effect from the 23rd November 1896 or from the subsequent date on which he may make over charge of his duties at Nagpur.

J. P. HEWITT,
Secy. to the Govt. of India.

The following orders, issued by the Government of India in the Military Department, are republished for general information.

C. W. BOLTON,
Offg. Chief Secy to the Govt. of Bengal.

Fort William, the 27th November 1896.

VOLUNTEER CORPS.

No. 1871.—The undermentioned members of the Volunteer Force are granted the Volunteer Long Service Medal under the provisions of clause 152, India Army Circulars, 895 :—

Bihar Light Horse—

Major J. Hodding.
Captain R. Hudson.
" H. C. Spry.
Lieutenant S. K. Coffin.
Quartermaster Sergeant H. Collingridge.
Troop Sergeant Major H. W. Apperly.
Sergeant E. Thorp.
Corporal G. D. Campbell.
Trooper R. Berrill.

Secy. to the Govt. of Bengal

NOTIFICATION

No 4493 L.S.-G.—The 30th November 1896.—It is hereby notified that, under section 19 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor is pleased to appoint Maulvi Abdul Rahman to be a member of the District Board of Darbhanga, *vice* Babu Mosahib Singh, deceased

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 4495 L.S.-G.—The 24th November 1896.—It is hereby notified for general information that, in exercise of the power conferred on him by section 138 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to amend rule 91 of the rules made under clauses (i) and (t) of the aforesaid section of the Act, and published under notification No. 1758, dated the 14th April 1894, at pages 77 to 127 of Part IB of the *Calcutta Gazette* of the 18th idem, as follows:—

91. Copies of the reports of such examination shall be forwarded by the Accountant-General, Bengal, to the Chairman of the District Board and the Commissioner of the Division. The Chairman shall be bound to remedy any defects or irregularities that may be pointed out by the Accountant-General or the Examiner, and within three months

of the date of the receipt of the report he shall submit a statement, giving particulars of the action taken thereon, to the Commissioner, who shall forward the same with his remarks to the Accountant-General.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION

No 4509M.—*The 1st December 1896.*—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, and in accordance with the recommendation of the Commissioners of the Baranpur Municipality, in the district of the 24-Parganas, made at a meeting, to extend the provisions of Part IX of the said Act as amended by Bengal Acts IV of 1894 and II of 1896, to the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION

No. 4528M.—*The 1st December 1896*—It is hereby notified that, under section 27 of the Bengal Municipal Act III of 1884 as amended by Act IV of 1894, the Lieutenant-Governor is pleased to appoint Babu Trailokya Nath Chakravorty to be a Commissioner of the Puri Municipality vice Babu Gopal Chandra Sircar, resigned.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

DECLARATION

No 4519M.—*The 25th November 1896.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for the extension of drainage outfalls, it is hereby declared that for the above purpose pieces of land in the district of 24-Parganas, measuring, more or less, 1,255 bighas, are required

The boundaries of the lands are as follows:—

Portion marked A on plan.—On the north Ballaghatta canal embankment, on the south the old Municipal central channel, on the east Bentu khal, and on the west Kanabaria khal.

Portion marked B on plan—On the north the remaining portion of land of the owners Rajendra Nath Roy and others, Behary Lal Sen and Gop sar Mukerjee, on the south the Municipal central channel, on the east Kanabaria khal, and on the west Municipal land.

Portion marked C on plan—On the north Municipal central channel, on the south the remaining portion of Rajendra Nath Roy and others' land, on the east the Municipal central channel, and on the west Municipal property.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

DECLARATION.

No 4467 I. S.-G.—*The 27th November 1896*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Monghyr District Board for a public purpose, viz., for the construction of a Pound-shed at Begusarai in the village of Begusarai, pargana Bahia, zilla Monghyr, it is hereby declared that for the above purpose a piece of land measuring, more or less, 600 ahs 15½ dhurs of standard measurement, is required. The land is bounded on the north by the land of Rosh Misser, on the east by the land of the late Amni Misser, on the south by the Mangoe tops of Kishen Ballabh Das and Godadhar Prasad, and on the west by the District Board Road from Begusarai to Manjhaul.

This declaration is made, under the provisions of section 6, Act I of 1894, and section 3 clause (1), Act XVIII of 1885, to all whom it may concern.

A plan of the land has been prepared. It is kept in the office of the Collector, and may be inspected by any one concerned.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

DECLARATION.

No 4489M — The 30th November 1896.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Muzaffarpur Municipality for a public purpose, viz for constructing a road watering reservoir and a coal shed for the pumping engine for flushing works in Mahalla Saryaganj, pargana Bisara, zilla Muzaffarpur, it is hereby declared that for the above purpose a piece of land measuring more or less 1 cottah of standard measurement is required. The land is bounded on the north by the Akharaghat man, on the east by a pathway, on the south by the kutchery road, and on the west by the Lalji Shah's gola.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

H. H. RISLEY,
Secy. to the Govt. of Bengal

DECLARATION

No. 4511M — The 1st December 1896 -- Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz, for the improvement of Nimtola Bustee (road C D), it is hereby declared that for the above purpose a piece of land, No 9, Nimtola Ghat Street, in the Town of Calcutta, district 24-Parganas, measuring, more or less, 4 cottahs 2 chitaks 30 square feet, is required

The land is bounded on the North by Nimtola Ghat Street, on the South by Nos. 5 and 11, Nimtola Ghat Street, on the East by premises No 10, Nimtola Ghat Street, and on the West by premises No 8, Nimtola Ghat Street

A plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern

H. H. RISLEY,
Secy. to the Govt. of Bengal.

DECLARATION.

No. 4614M. — The 1st December 1896.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz, for the improvement of Burtola bustee roads A, B, E, F and E, G, it is hereby declared that for the above purpose pieces of land Nos 84, Ahireetola Street, and 2 and 3, Neemoo Gossain's Lane, in the Town of Calcutta, district 24-Parganas, measuring, more or less, 11 cottahs, are required

The boundaries of the lands are as follow —

Portion marked A on plan — On the North Ahireetola Street, on the South No 316, Upper Chitpur Road, on the East a filled up Municipal drain, and on the West No 84-1, Ahireetola Street, and No 316, Upper Chitpur Road

marked B on plan — On the North public sewered ditch and No 1-3, Neemoo

Munshee South Neemoo Gossain's Lane, on the East Nos. 1-2 to 1-3, Gossain's Lane, on the West Tewary.

Portion marked C on plan — On the North public lane, on the East Tewary, on the South Neemoo Gossain's Lane, and on the West a public lane

The plans and specifications of the lands are filed in the office of the Commissioners for public inspection

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern

H. H. RISLEY,
Secy. to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, DECEMBER 2, 1896.

PART II.
Advertisements.

[N. B.—Advertisements, Notices, &c, intended for insertion in this part of the Gazette cannot be received after Noon on Monday.]

LAND SALE NOTICES

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates and shares of estates in the district of Monghyr will be put up for sale at the office of the Collector of that district on the 21st December 1896, corresponding with 1st Pous 1304 Bishu, at 12 o'clock, for arrears of revenue and other demands which by law are realisable as arrears of land revenue.

When in columns 6, 7 and 8 of the appended statement it is stated that only a share is to be sold it is to be understood that a separate account is kept for that share, and that the other share or shares in the estate are excluded from the sale.

D. B. ALLEN, Collector

Advertisement of Sale

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Puri will be put up to sale at the Puri Collectorate on the 26th of April 1897, corresponding with 17th Bysack 1304 Umla —

Conditions of Sale

- 1st —The estate to be sold to the highest bidder above the upset price which will be fixed by Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.
- 2nd —The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd —If the amount of purchase money do not exceed Rs. 100 the whole amount to be paid down at once.
- 4th —If the amount of purchase money exceed Rs. 100, one fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

CALCUTTA, the 30th November 1896.

L. P. D BROUGHTON, Administrator-General, Bengal.

Pure Sulphate of Quinine.

MANUFACTURED AT THE BENGAL GOVERNMENT
CINCHONA PLANTATION.

From 1st April 1896 the price of this Quinine will be as follows:—

1 Pound tin Rs. 18, or, post free, Rs 18-12.

1/2 " " " 9, " " " 9-8.

1/4 " " " 4-8 " " " 5.

Analysis shows this Quinine to be of the purest manufacture, and it is guaranteed to be free from wilful mixture with the inferior alkaloids, Chinchonine and Cinchonidine. It is for sale only to Government officers, and only for cash, and may be had from the Superintendent, Botanic Garden, Sibpur, near Calcutta.

Cinchona Febrifuge.

Cinchona Febrifuge can be purchased by all Government officers and by any one taking six pounds at a time from the Superintendent, Botanic Garden, Calcutta, at the following rates—per four-ounce tin, Rs 2, and 8, per eight-ounce tin, Rs 5; per pound tin, Rs. 10. The general public can be supplied by the Superintendent, Botanic Garden, for cash only at the undernoted rate—per four ounce tin, Rs 3; per eight-ounce tin, Rs. 6; per pound tin, Rs. 12. This medicine is also sold by the principal European and native druggists. Postage four annas per doz. tin, eight annas per 8oz tin, and twelve annas per pound tin, in addition to the foregoing rates.

ADVERTISEMENT.

Notice.

TO PAPER MANUFACTURERS—

TENDERS are invited before the 15th April 1897 for the purchase of Sabal grass from the forests of the Singhbhum district from 1st July 1897.

Tender forms add further information on application to the Conservator of Forests, Bengal, Darjeeling.

A. E. WILD, Conservator of Forests, Bengal.

Darjeeling, the 18th June 1896.

Now Ready, one volume, half-bound,
Quarto, Fifty-eight plates, Rs 38.

ILLUSTRATIONS OF ANCIENT BUILDINGS IN KASHMIR, prepared at the India Museum, London, under the authority of the Secretary of State for India in Council, from photographs, plans and drawings taken by order of the Government of India, by Henry Hardy Col, Lieutenant, R.E., to be obtained from Messrs. Thacker, Spink & Co, Calcutta, Messrs. Hignbotham & Co, Madras; and of Messrs. Thacker, Vining & Co, Bombay.

The illustrations in this work have been produced in carbon from the original negatives, and are therefore permanent.

Traders, dealers, and others may buy and sell during the period.

F. C. FARNCH, Magistrate, President

K. P. SINGAR, Secretary

Faridpur, the 19th November 1896.

Notice.

AT the meeting held on the 17th instant, the District Board of Saran determined to levy road cess at the maximum rate of half-anna per rupee on the annual value of land during the year 1897-98.

A. KARLA, Chairman.

Chupra, the 22nd November 1896

Notification.

IT is hereby notified that under section 46 of the Local Self-Government Act III (B.O.) of 1883, the District Board of Dacca have, at their special meeting held on the 21st November 1896, determined to levy the road cess in this district for the ensuing financial year 1897-98 at the maximum rate of one-half anna or six pias in the rupee on the annual value of lands.

L. P. SHIMES, Chairman

Dacca District Board's Office, the 27th November 1896.

[Third Publication.] IRRIGATION DEPARTMENT. NOTICE.

IT is hereby notified for general information that for some time there will be inconvenience to traffic on the Midnapore Canal owing to the construction of a low level temporary bridge at the railway crossing near Daman Lock.

All steamer engines and boat manjhis must proceed with caution when approaching the opening in the bridge, and also obey the orders of the subordinate who will be placed in charge to regulate the traffic.

A. S. THOMSON,

Under-Secy. to the Govt. of Bengal.

Calcutta, the 17th November 1896.

Lost, Stolen, or Destroyed.

THE Government Promissory Note, No. 038664, of the 4 per cent of 1842-43, for Rs. 1,000 (one thousand), originally standing in the name of Sreemothy Kadombinee Dassy, the proprietor, by whom it was never endorsed to any other person. Payment of the above Note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicate in favour of the proprietor.

Name of Advertiser—Sreemothy Kadombinee Dassy.

Residence—No. 8, Gobind Sircar's Lane, Bowbazar (781—3)

Lost.

THE undermentioned interest and commission warrants standing in my name from Calcutta Bank of Bengal have been misappropriated by the post office. Public are cautioned not to accept or negotiate them. Bank has been asked to stop payment.—

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1897 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876—

Terms of subscription payable annually in advance

	Without postage			With postage		
	Rs	A	P	Rs	A	P
For the Calcutta Series	10	0	0	12	8	0
„ each of the Madras, Bombay, and Allahabad Series	6	0	0	7	0	0
„ a part of the Calcutta Series purchased separately (exclusive of postage in India)				2	0	0
„ part of each of the Madras, Bombay, and Allahabad Series purchased separately (exclusive of postage in India)				1	0	0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit—

For town For mofussil

	Rs	A	P	Rs	A	P
For the Calcutta Series, per copy	0	8	9	0	10	4
„ each of the Madras, Bombay, and Allahabad Series, per copy	0	5	3	0	5	0
„ the Calcutta Series. For the year	7	2	0	8	6	3
„ each of the Madras, Bombay and Allahabad Series. For the year	4	4	6	4	11	4

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent Government Press, Madras
The Superintendent, Government Central Press Bombay
„ Curator of Government Books, North Western Province and Oudh
„ Officer in charge, Bengal Secretariat Book Depot.

Orders and subscriptions for 1897 should be at once registered and remitted by money order payable to the Accountant and Treasurer, Bengal Secretariat, Calcutta.

ADVERTISEMENTS will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, at the following rates, payable in advance—

	One page.	Half page	Quarter page
For one issue	Rs 20	Rs 14	Rs 9
„ three issues	„ 55	„ 36	„ 21
„ six „	„ 100	„ 68	„ 45
„ nine „	„ 115	„ 96	„ 64
„ twelve „	„ 180	„ 120	„ 80

SEVERAL VOLUMES of the **BENGAL LAW REPORTS**, from August 1883 to December 1875, and **FULL BENCH RULES**, Parts I and II, are available at the following rates—

	Without postage.	With postage
Bengal Law Reports for one year	Rs 20 0 0	Rs 22 8 0
Single copies, at 2 per copy		
Full Bench Rules, Parts I and II	20 0 0	22 8 0

Obtainable at the Bengal Secretariat Book Depot, Writers Buildings, Calcutta.

Remittances to be forwarded to the Accountant and Treasurer, Bengal Secretariat, Writers Buildings, Calcutta.

All the wanting parts of the **INDIAN LAW REPORTS** (complete series) having now been reprinted, the complete Reports from 1876 to 1893 may be purchased for all the years, or for any particular year, on application to the Officer in charge of the Bengal Secretariat Book Depot.

The subscription, Rs. 22-8 per annum, should be remitted in advance to the Accountant and Treasurer, Bengal Secretariat.

Notice.

It is hereby notified, for general information, that subscription to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions of the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

THE following Weather Reports of the Bengal Meteorological Department, issued by orders of the Government of Bengal, can be supplied to the public at the prices annexed—

1st.—Bay of Bengal Daily Weather Report, giving meteorological observations taken at 28 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Bay of Bengal Storm Signal Service. The report giving 8 A.M. observations of the day is distributed by post in Calcutta soon after 11 A.M. Price to subscribers in Calcutta Rs. 2 per annum, payable in advance up to 30th April 1897.

This report will be issued every year from 1st November to 30th April. From 1st May again the Bay of Bengal and Bengal Report containing observations taken at 64 stations will be issued.

2nd.—A Monthly Statement of Meteorological Observations taken at 49 observing stations, and of rainfall recorded at 327 subdivisional and other stations, together with summaries of the more important features of the meteorology of the past month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Monthly Summary Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal, 5, Russell Street, Calcutta, for the Bay of Bengal Daily Weather Report, and to the Accountant and Treasurer, Bengal Secretariat, for the Monthly Report.

C. LITTLE,

Meteorological Reporter to the Govt. of Bengal.

Notice.

NOTICE is hereby given that the terms for the purchase of publications from the Bengal Secretariat Book Depot except for Government offices or offices under the control of Government Officers are strictly cash, and on no other terms will any publication be supplied, or advertisement, notice, &c., inserted in either of the Gazettes.

In the case of insolvent notices, cash must be sent with such notices when forwarded by Mofussil courts or offices, and for those forwarded by the Official Assignee cash must be paid on presentation of memorandum of cost by the Accountant and Treasurer, Bengal Secretariat.

Remittances in postage stamps should be accompanied by an addition of one anna in the rupee on account of discount.

Applications for Acts of the Bengal Legislative Council required on the public service should be addressed to the READING ROOM, Office of the Legislative Department, Government of Bengal.

Copies are available for purchase at the Bengal Secretariat Book Depot.

ROORKEE MANUAL OF APPLIED MECHANICS

Vol. I.—Direct and Transverse Strain, principally by Analytical Methods	8 0
II.—The Stability of Structures, mostly by Graphic Methods (in the Press)	

MANUALS.

	Rs. A
VII.—Surveying, (by Major Firebrace, R.E.), (6th edition), with Curve Table, (in the Press)	
XIII.—Drawing, (by Lieut. R. Pulford, R.E.)†	8 0
XIII A.—Drawing, First Principles of Geometrical (by Lieut. R. Pulford, R.E.) (4th edition)	1 4
XIV.—Simple Applied Mechanics, (2nd edition), Parts I and II in one	8 0
Simple Applied Mechanics, Part II, (1st edition)	0 8
XV.—Examples of Estimating. Comprising a progressive series of Estimates (with plans of Buildings and Bridges, worked in detail) By P. Keay, Esq., and revised by C. C. Sullivan, Esq., Head Master, (5th edition), (in the Press)	
XVI.—Earthwork Estimating, with Practical Tables and Diagrams By Major A. M. Brandt, R.E.	0 4
XVII.—Specimens of Printing used in the College Drawing Course and Entrance Examinations	0 6

Note.—The complete Treatise forms the course of the Engineer Class at the Thomason College in Civil Engineering, and the same, omitting section X, is the course for the Upper Subordinate class. The other Manuals are the complete course for both Classes in the several subjects of which they treat.

MISCELLANEOUS.

ENGINEERING WORKS

	Rs. A.
Curve Tables, complete for laying any curve	0 4
Scantlings of Timber for Roofs. Tables and investigation of formulae for determining size of timbers for Flat Roofs from 8 to 23 feet span, and for Trussed Roofs from 16 to 50 feet span (2nd edition). By P. Keay, Esq., Head Master	1 0

*Date of Edition on sale.
Originally published at Rs. 15, reduced to Rs. 8.*

MISCELLANEOUS—(continued)

ENGINEERING WORKS.

Rs. A

Useful Rules and Tables, relating to Measurement of Timber. Rules for computing the cubic contents of Round Logs, as well as of Sawu Timbers with Tables, &c. By Rai Kunhya Lal	2 8
O'Callaghan's Earthwork Tables for India, in one large sheet, 8 annas, mounted on cloth and bound, (in the Press)	1 12
Tables for Computing Earthwork in Distributaries and small open Channels, for use in Irrigation Department, N.W. Provinces	1 4
Lyndall's Hand-book of Specifications	5 0
The Indian Engineer's Pocket Book	0 4
Wooden Bridges and Designs By Rai Kunhya Lal, (in the Press)	
Blasting under Water, (2nd edition)	0 12
Waugh's Instructions for Topographical Surveying	1 4
Analysis of Lime and Cement Stones By Murray Thomson, Esq., M.D., F.R.S.	0 6
Tables for Degree Curve and Intersection Angles, from 90° to 180°, and for Fixed Tangents from 100 feet to 7,500 feet By F. G. Brook Fox, Esq., M.I.C.E.	2 4
Graphic Hydraulic Diagram for channels in earth, &c., by H. G. Kennedy, Esq., Executive Engineer	7 8
Chart, giving by a graphic method the discharges of earthen channels up to 40 feet bed width	1 8

MATHEMATICAL.

Boileau's Tables of Wages and Rent, and of the value of goods. Tables for converting Sears and Chittucks into decimals of a Maund, and Annas and Pais into decimals of a Rupee. With a few others of general utility (4th edition)	1 8
Boileau's Tables of Log sin ² i P (for computing time)	0 4
Cape's Logarithms, with tables of Squares, Cubes, &c. (in the Press)	
Geometry	1 4
Mechanics	1 0
Military Topography	0 8

HINDUSTANI.

Elements of Hindustani Grammar (in the Press)	
Technical Dialogues—English and Urdu	1 0
A Vocabulary of Common and Technical Words in English-Urdu	1 0
History of India (Ithas Timirnasak), Hindi, Parts I and II, each Part	0 4
Short Account of Ganges Canal (English and Urdu)	0 8

NOTE AND FIELD-BOOKS, &c.

Note Books, (section paper), large	1 4
Surveying Field-Books, (ruled)	1 0
Levelling Field-Books, (English Pattern)	1 8
Levelling Field-Books, (Canal Pattern)	1 8
Levelling Field-Books, (College Pattern)	2 0
P. W. D. Note Book	1 4
Measurement Book	1 4
Circular Card-board Protractors, 12 inches, exclusive of packing	1 8

MISCELLANEOUS.

Distributary Velocity and Discharge Table. By Capt. Allan Cunningham	0
Description of Venomous Snakes. (The drawings of all the venomous snakes of Upper India, with description and all important information, extracted from the "Thana-topidia of India")	1 8
Ditto ditto in Urdu	1 4
Perspective, (fully explained) By Col. A. M. Brandt, R.E.	1 12
Map of Roorkee	1
Thomason College Calendar for 1891, 1892, 1894* and 1895* each	2 0
Ditto ditto for 1896*	4 12
Forms of Accounts, P. W. D., for Subdivisional Officers, in English (very old)	0 8
Memo. of Instructions for Road Project	1 0

* These include Question Papers for entrance to Engineer and Upper Subordinate Classes and Superior Accounts Branch, P. W. D.

Vol II, Estimates	
Shakespearean Readings, viz—	
1 Taming of the Shrew	each 0 4
2 Othello	
3 Macbeth	
4 Comedy of Errors	
5 Merchant of Venice	
Graphic Hydraulic Diagrams for channels in earth giving Discharges and mean Velocities for varying bed widths, depths and slopes By R. G. Kennedy, Executive Engineer	7 8

PLANS OF STATIONS

Lithographed Plans of the Cantonments and Regimental Lines in the different Military Stations of India. Drawn to a uniform scale, and prepared between 1864 and 1868 for the Government of India, Public Works Department (Useful for Executive Engineers' and Superintending Engineers' Offices)

Bengal, 51 Plans	each 0 8
Madras, 99 Plans	
Bombay, 91 Plans	
N.-W. Provinces, 104 Plans	
Rajpootana, 21 Plans	
Rajpootana, 4 Plans	
British Burma, 19 Plans	
Central Provinces	

PROFESSIONAL PAPERS ON INDIAN ENGINEERING

FIRST SERIES

Vol. I (Quarterly Nos 1 to 5), bound	Rs 2,
original price	Rs 18.
Quarterly Nos 1, 2, 3, 4 and 5, at	Rs. 1 each,
original price	Rs 4 each.
Vol. II Quarterly Nos. 6 and 7, at	
" III, " No. 13,	Rs. 1 each.
" V, " Nos 14, 15, 20 and 21,	
" VI, " Nos 22, 23, 24 and 25,	
" VII, " Nos. 26, 27, 28 and 29,	
Extra No., April, 1870,	

SECOND SERIES.

Quarterly Numbers of Vols. I, II, VIII, IX and XI of the Series at Rs 1 each.
Quarterly Number 41A of Vol. X, at Rs 1 each
Cloth covers for Volumes of 1st and 2nd Series at As. 8 each.

THIRD SERIES.

Quarterly Numbers 5, 7, 8, 11, 12, 13, 14 and 15 at Rs. 1 each.
Index to Professional Papers, and loose Papers, 1st and 2nd Series, at annas 2 each.

FERROTYPE PRINTING

Chemicals and Lithographic Paper for this process can be purchased from Thomason College Book Depot. Application to be made to the Curator
Apparatus for printing can be made up at the Roorkee Workshops, and all particulars obtained from the Superintendent.

CIRCULARS

Circulars containing the Rules of Admission to the different classes at the College will be forwarded to applicants.

J. CLIBBORN, LIEUT.-COL., I.E.C.,
Principal, Thomason College

INDIAN LAW REPORTS

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS are hereby informed that, unless complaint of non-receipt of any number is made to the Publisher of the series within three months of the date of publication, the benefits of the subscription rates for copies lost in transit will not be allowed, and full rates will be charged. The price per copy of each of the four series at subscription rates and at full rates is shown below:—

Parts I, II and III of a Descriptive Catalogue of the Sanskrit Manuscripts in the Library of the Calcutta Sanskrit College, prepared by Pandit Hrishukesh Sastri and Babu Niva Chandra Gu, M.A., B.L., of that College, are offered to the public for sale. The Catalogue is to be completed in 23 parts, the price of each part being 12 annas a copy, exclusive of postage. Copies can be obtained from the Principal of the Sanskrit College, Calcutta.

Annual Statement of the Sea-borne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta), and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Pooree, and Narainung.), Volumes I and II. Price Rs 20 for 1895-96. Published at the Calcutta Custom House. Previous years' volumes can also be obtained at the same price.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta* and *Bengal's Gazettes* and *Indian Law Reports* are hereby informed that unless the amount of their subscription for 1897 is received before the 31st December 1896, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1897.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-orders. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should also be stated. Omission to note these particulars will involve considerable delay.

B. FOLLY,

Under-Secy. to the Govt. of Bengal.
The 24th November 1896.

BOOKS AND PUBLICATIONS

FOR SALE BY THE

Superintendent of Govt. Printing, India,
8, HASTINGS STREET, CALCUTTA

All books published by the Superintendent of Government Printing, India, can be purchased either directly or through the following or any other booksellers.—

Ditto. Urdu version Royal 8vo, stiff boards 6a

A Dictionary of the Economic Products of India By DR GEO WATT, C I E,

Reporter on Economic Products

The first five volumes and Vol VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of Superintendent of Government Printing, No 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made) packing and postage, in India, 8 annas per volume, for England, Rs 2-6 per volume for copies bound in half calf or half morocco, Rs 6 and 8 shillings, respectively, will be charged extra for the whole set

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral, each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names, habitat or source, history, properties and uses (both chemical and industrial), trade statistics, markets, &c The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries

Volume I contains the letters A and B, and consists of 559 royal octavo pages, Vol II embraces the letter C in 689 pages, Vol. III contains the letters D, E, F and half of G, Vol. IV latter half of G to middle of L; and Vol V contains the latter half of L to end of O; Vol. VI (which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year, but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value

Technical Art Series published up to 1894, together with their explanatory Text—

1886-87, 6 plates with text Re 1-8 a set (4a)

1888-89, 18 plates with text Rs. 4-8 a set (6a.)

ready for issue on receipt of applications for them.

APPENDIX TO

The Calcutta Gazette.

WEDNESDAY, DECEMBER 2, 1896.

NOTICES TO MARINERS.

GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 243

[First Publication]

JAPAN—(1) MEIACO SIMA; (2) BUNGO CHANNEL, (3) SETO UCHI, AND (4) YEZO, WEST COAST.

(1) *Meiaco Sima—Breakers, north-eastward of Mitsuna island.*

THE British Admiralty has given notice (No 623 of 1896) that the Master of the steam-vessel *Ryusei Maru* reports that, in July 1896, he observed breakers, apparently on a reef, in a position bearing about N.E. by E. $\frac{1}{2}$ E., distant 3 miles, from Mitsuna island

Approximate position, lat $24^{\circ} 47' N.$, long. $124^{\circ} 45' E.$

A danger line, with the words "breakers reported" written against it, has been placed in the above position on the charts.

(2) *Bungo Channel—Sunken Rock, South-Westward of Ora Sima*

Also, the existence of a rock, with a depth of 9 feet on it at low water springs, situated on the northern side of the entrance to Uwajima bay, with the centre of the islet, south-westward of Ora saki, bearing N $65^{\circ} E$, distant $1\frac{1}{2}$ cables; and summit of No sima S. $38^{\circ} E$.

Approximate position, lat. $33^{\circ} 15' 10'' N$, long. $132^{\circ} 29' 5'' E$

(3) *Seto Uchi—Shoal North-Westward of Nezumi Sima.*

Also, of the existence of a sandy shoal, with a depth of $4\frac{1}{2}$ fathoms on it, situated with the remarkable clump of trees (419) north-westward of Hangata bearing about S W $\frac{1}{2}$ S, distance $1\frac{1}{2}$ miles, and north-east point of Nezumi sima S.E $\frac{1}{2}$ E

Approximate position, lat. $34^{\circ} 8' 30'' N$, long $132^{\circ} 57' 30'' E$

(4) *Yezo, west-coast—Sunken Rock, Northward of Ishikari.*

Also, that the Master of the steam-vessel *Soya Maru* reports that, in July 1896, his vessel touched on a pinnacle rock, with a depth of 15 feet on it, and 4 to 5 fathoms close around, lying about $1\frac{1}{2}$ miles off shore in Atsuta roads, in a position with cape Skudutza lighthouse bearing W S W, distant 20 miles; and cape Buyimawas about N by W. $\frac{1}{2}$ W.

Approximate position, lat. $43^{\circ} 24' N.$, long. $141^{\circ} 25' E.$

Variation	$\left\{ \begin{array}{l} 1 \\ 2, 3 \\ 4 \end{array} \right.$	$\left\{ \begin{array}{l} \text{Nil} \\ 4^{\circ} \\ 6^{\circ} \end{array} \right.$	Westerly in 1896

NOTICE TO MARINERS—No. 245.

[First Publication]

AUSTRALIA—EAST COAST—MORETON BAY

Lights exhibited and alterations in buoyage

WITH reference to Notice to Mariners, dated 4th July 1896, issued by this office, the British Admiralty has given further notice (No. 632 of 1896) that the undermentioned lights would be exhibited, to assist in the navigation of North-west Channel, Moreton Bay —

1. Caloundra head light is a fourth order, dioptric, *fixed* light, showing the following sectors — *white* from S. 1° E., through south and west, to N. 61° W (but may be partially obscured by trees between S.S.W. and S by W); *red* from N. 61° W. to N. 30° W (over North banks); and *white* from N. 30° W. to N. 23° W (in North-west channel); the last sector being of greater power than the others

It is elevated 171 feet above high water, and visible in clear weather from a distance of 16 miles

~~The lighthouse is a cylindrical tower, painted white and 38 feet high; situated on the summit marked 150 three-quarters of a mile westward of Caloundra head~~

Approximate position, lat $26^{\circ} 48' 45''$ S, long. $153^{\circ} 9' 30''$ E.

2 Also, two leading lights are shown from framework lighthouses erected on Bribie island —

The front (low) light is a fourth order, dioptric, *fixed* light elevated 56 feet above high water, and visible from S. 17° W. (but a faint light may be visible between that bearing and the land to the westward) to S. 77° W.; and from N. 46° W to N. 40° W (over the North-west channel), a distance of 12 miles in clear weather.

The lighthouse, 62 feet high, is situated 80 yards within high water mark, and S. 5° E., distant nearly $4\frac{1}{10}$ miles from Caloundra head lighthouse.

The rear (high) light is a dioptric *fixed white* light, elevated 95 feet above high water, and visible from about S. 62° W to S. 47° W., a distance of 15 miles in clear weather

The lighthouse, 97 feet high, is situated S. 55° W., distant 1,000 yards from the front lighthouse.

NOTE—The last two lights in line, bearing S. 55° W., lead into North-west channel between Hamilton patches, and the north-west extreme of North banks, they should be kept in line until the *white* sector of Caloundra light, visible in North-west channel, is entered, when vessels should keep in that sector, until within the *white* sector, shown up North-west channel from the front Bribie island lighthouse

3. Also, the undermentioned alterations have been made in the buoyage of Moreton bay —

(a) The black buoys (two) marking respectively the south-west extreme of Spitfire bank, and the western extreme of Salamander (Yule) bank, have been replaced by *gas* buoys, each showing a *fixed white* light, and numbered respectively N.W. 9 and N.W. 11.

(b) The red buoy, marking the northern extreme of Western banks, has been replaced by a *gas* buoy showing an *occulting white* light, and numbered N.W. 4.

These *gas* lights are each elevated 10 feet above the sea

(c) Three black buoys have been placed to mark the eastern side of North-west channel —

N.W. 3 buoy, moored in 8 fathoms, with Caloundra lighthouse bearing N.N.W. $\frac{1}{2}$ W., distant $7\frac{3}{10}$ miles and mount Derwah W. $\frac{1}{2}$ S.

N.W. 5 buoy, surmounted by a topmark, moored in 10 fathoms, with Caloundra lighthouse bearing N.W. by N., distant $10\frac{5}{8}$ miles; and mount Berwah W. $\frac{1}{4}$ N.

N.W. 7 buoy, moored in 9 fathoms, with Caloundra lighthouse bearing N.W. $\frac{3}{4}$ N., distant $13\frac{4}{10}$ miles; and mount Berwah W. $\frac{1}{4}$ N.

The black buoy marking the north-western extremity of North banks has been numbered N.W. 1, and is surmounted by a topmark

NOTIFICATION.

No. 4769 Agri.—The 26th November 1896.—The following paper is published for general information.

M. FINUCANE,

Offg. Secy. to the Govt. of Bengal.

No 4549 Agri, dated Calcutta, the 18th November 1896.

From—M. FINUCANE, Esq, Offg. Secy. to the Govt of Bengal, Revenue Dept,
To—The Secretary to the Government of India, Revenue and Agricultural Dept

IN continuation of this office letters, No. 951T.—R., dated the 16th October, and No. 1012T.—R., dated the 31st October 1896, submitting for the information of the Government of India preliminary reports dated the 8th and 23rd October 1896, by the Commissioner of Patna, on the state and prospects of the crops in that Division, together with copies of the orders passed by the Lieutenant-Governor on them, I am now directed to lay before the

Supreme Government the annexed report,* dated the 11th instant, drawn up by Mr. Bourdillon, Commissioner of Patna, in conformity with section 9 of the Famine Code, and at the same time to offer the following remarks on the state and prospects of the crops and probability of distress in Bengal generally and in Bihar in particular.

* Has been published in the Calcutta Gazette of the 26th November 1896

Earliest intimation of possible distress.

The Government of India will doubtless have observed that in the weekly telegraphic weather and crop reports indications of the possible failure, in greater or less degree, of the coming winter rice harvest owing to the early cessation of the monsoon rains were given from nearly all the districts of these Provinces; but though Sir Alexander Mackenzie and his officers, under his instructions, have been closely and anxiously watching the position, His Honour has hitherto thought it premature to address the Government of India, hoping as he did, till very recently, that a propitious fall of rain during what are known as the Hatiya and Siwati asterisms, *i.e.*, from the 25th September to 10th October, and from 22nd October to the 5th of November, might still avert serious failure of the winter rice crop, and give promise of a favourable *rabi* harvest. These hopes have not been fulfilled.

Principal harvests in Bengal.

2. As the Government of India are aware, there are three principal harvests in these provinces—

- (1) The *bhadoi*, consisting principally of *aus* (early rice) in Bengal Proper and Orissa, and of *makai* (Indian-corn) and millets in Bihar and Chota Nagpur. This harvest, sown in April, May and June, is reaped in August and September.
- (2) The *aghani* or *hymani*, corresponding, according to the Commissioner of Patna, to the *kharif* of the North-Western Provinces, and consisting of the great winter rice crop, reaped in November, December and the beginning of January.
- (3) The *rabi*, consisting of *boro* or spring rice and pulses in Bengal Proper and Orissa, and of wheat, barley and pulses in Bihar, sown in October and November and reaped chiefly in March, April and May.

In order to estimate the effect of the early cessation of the rains which occurred in September, it is necessary to state approximately the relative importance of these different harvests as regards food-supply, the rainfall conditions which produce good harvests, and the extent and effect of the divergence from these conditions which has taken place in the present year.

Relative importance of principal harvests.

3. According to the statistics furnished by the Department of Land Records and Agriculture which, though not pretending to accuracy, and not based on patwaris' returns as in other provinces, but on rough estimates formed by Collectors and other authorities, are still the best available and are on the whole believed to be approximately correct, the following table shows the relative importance of the different harvests described in the preceding paragraph.—

Total area under food crops.

	Acres.
Rice (winter, <i>bhadoi</i> , and spring)	38,988,000*
<i>Bhadoi</i> (excluding <i>aus</i> rice)—	
Millets	1,240,000
Maize	2,041,000
	3,281,000
<i>Rabi</i> (exclusive of spring or <i>boro</i> rice)—	
Wheat	1,472,000
Barley	1,023,000
Gram	1,566,500
Other food-grains	5,761,500
	9,823,000
Total area under food-crops	= 52,087,000
Percentages on total area under food-crops—	
Rice	= 74·9
<i>Bhadoi</i> (exclusive of <i>aus</i> rice)	= 6·3
<i>Rabi</i> (exclusive of <i>boro</i> rice)	= 12·8

* The winter rice area is estimated to be about three times that of the *bhadoi* or *aus* and *boro* rice, so that the area under winter rice alone is about 30 million acres.

It will be seen from the above table that the rice crop is incomparably the most important, covering, as it does, thirty-nine million acres—an area three times as great as that under all other food-crops put together, and it therefore follows that meteorological conditions which cause a failure of that crop have a more serious effect in Bengal than they probably would have in provinces where the autumn (*bhadoi*) and spring (*rabi*) crops are more extensively grown. All known famines in Bengal and Orissa have been rice famines. In Bihar and Northern Bengal the *bhadoi* and *rabi* crops may be the turning point between famine and no famine, but even there the immediate cause of scarcities and famines has always been the failure of the great winter rice crop. It is necessary to bear this fact in mind in estimating the probable results of the early cessation of the monsoon rains in the present year.

4. The distribution of rainfall most favourable to the winter rice crop is when premonitory showers fall in May or early in June. The rain in the latter half of June and in July should be heavy, then should come an interval of comparatively fine weather, so as to permit of weeding operations being successfully carried on. The September rains should be heavy, shading off into fine weather with showers in October. On the sufficiency of the rainfall in September, more than in any other month, depends the character of the outturn of this crop. The preparation of rice land commences much earlier in East and North Bengal, and in the eastern districts of South-West Bengal, than in the rest of the Lower Provinces. The ante-monsoon showers, which fall in April, May and the first part of June, are, in consequence, of more importance in these latter parts than in other places where lands are usually prepared after the commencement of the monsoon rains.

5. The rainfall of the present year was far different from the cultivators' ideal, as will appear from the memorandum* annexed to this letter, prepared by Mr. Little, Meteorological Reporter to Government.

* Has been published in the *Calcutta Gazette* of the 25th November 1896

It will be seen on a perusal of that memorandum that the rainfall was below the normal in Bihar in every month of the present year, except May, and ceased prematurely in the most critical period by the 19th of September, since which date there has been practically none. On the other hand the fall in Orissa during June, July and August being far above the normal, resulted in floods. As regards the rainfall in Bengal, Bihar and Orissa generally, Mr. Little writes:—

With the setting in of the monsoon a marked change appeared. A low pressure area formed over the north of the Bay, and within this one cyclonic storm after another developed. They followed almost the same track westward across Orissa and part of Chota Nagpur, and caused much heavier rainfall in the southern districts than in the north of the province.

In June South-West Bengal, Orissa and Chota Nagpur received from 28 to 62 per cent, and in July Orissa and Chota Nagpur from 12 to 31 per cent. in excess of the normal. During these weeks from the middle of June to the end of July the northern districts received less than usual. North Bengal had only 49 per cent of the normal in June, with practically the usual amount in July, and Bihar rather over 80 per cent throughout. The effect therefore of the continued low pressure in the north of the Bay was to deprive North Bengal and Bihar of a considerable portion of the rainfall in perhaps the most important part of the monsoon season.

From the beginning of August there was a decided weakness in the monsoon current, except in Orissa, where the average rainfall was 28 per cent in excess. The total fall in North Bengal was only 39 per cent., in East Bengal 46 per cent., and in South-West Bengal and Bihar from 70 to 75 per cent. of the normal. The rainfall occurred during the passage of shallow depressions, and it was not well distributed, especially in Bihar, where a large proportion of the rain was received in heavy falls on the 21st, 22nd and 23rd. Thunderstorms were more frequent than usual, and being followed by brighter sunshine, an appreciable part of the rainfall was probably soon lost in vapour.

There would have been very little rain in September but for a shallow depression which formed in the north of the Bay about the middle of the month, and followed a zig-zag path, first north into the Sundarbans, then west across Lower Bengal into Chota Nagpur, and afterwards north-east into North Bengal, where it filled up. This irregular course brought every part of the province under its influence, except the extreme west of Bihar, where very little rain fell throughout the month. There were several days of general rain, moderate in amount in Lower Bengal, Orissa and Chota Nagpur, but excessive in the east of Bihar and north of Bengal during the two last days of the existence of the depression. The average fall during these two days must have been about 8 inches, a large portion of which must have been carried away by surface drainage. From the middle of the month rainfall became more

Distribution of rainfall favourable to the crops

Divergence of rainfall conditions this year from the normal.

Other parts of the province.

scattered, and in Bihar almost entirely ceased. The greater part of the rainfall in the last week was in East and North Bengal, but at times it spread westwards, though in no great quantity, to South-West Bengal and Orissa. In consequence of the heavy fall in the middle of September in North Bengal and the continued showery weather throughout in East Bengal, these were the only divisions that received excess falls. In the west and centre of the province amounts were from 12 to 35 per cent. in defect—the latter in Chota Nagpur.

From the beginning of October rainfall all but entirely ceased, except in North Bengal, where light showers fell at the beginning and towards the end of the month. The average fall was practically nil, except in East Bengal, where it was 9 per cent., and North Bengal, where it was 26 per cent. of the normal fall. In addition to the absence of rainfall, day temperatures were steadily several degrees above the normal, and the hot dry westerly winds which blew across a great part of the province must have quickly dried up whatever moisture was near the surface.

Effect of the unfavourable rainfall this year.

6. The effect of these abnormal meteorological conditions on the *bhadosi* and winter rice crop, according to the latest estimates of the Director of Land Records, is shown in the annexed table (Appendix II).*

It appears from these estimates that though the rice crop is everywhere likely to be seriously short, it is only in the Patna Division, and in parts of the Jessore, Nadia, Pabna, Rajshahi, Cuttack and Balasore districts, that it was reported to be so seriously deficient (considerably less than 8 annas) as to give cause for apprehension of local distress. The Lieutenant-Governor is unable to understand why the prospects of the rice crop in Nadia, Jessore, Rajshahi and Pabna should be so bad as they are reported to be, compared with other parts of Lower Bengal. It is probable that the local officers have overstated the extent of failure in these districts, and the Commissioners of the Presidency and Rajshahi Divisions have been requested to make local enquiries on the point and report the result at an early date. In Manbhum, Palamau and Hazaribagh the rice crop is also reported to be less than 8 annas.

First indications of scarcity shown in Bihar, comparison of conditions of Bihar now and in 1873-74.

7. Though the monsoon rains ceased everywhere about the middle of September, the effect on the crops was more disastrous in Bihar than elsewhere, partly because the lands of that part of the country are comparatively high and require more moisture for the successful growth of rice and some of the other crops than the low-lying alluvial and naturally out-logged districts of Bengal. In Bihar, too, the population is much denser, and the extent and effect of the drought which has taken place in the present year.

8. According to the statistics of the Department of Land Records and Agriculture, Bihar is extremely dense, and the great majority of the people are much poorer than in most other parts of these provinces. The ordinary wages of agricultural labour are extremely low, being for an able-bodied agricultural labourer only from $1\frac{1}{2}$ to $2\frac{1}{2}$ annas a day, and they have, owing partly to the growth of population, and partly to the influence of custom, remained practically unaltered for the past 20 years or more, while the prices of food-grains have increased largely during the same period. On the other hand, it is to be noticed that the Bihar of to-day is in some respects far better prepared to meet a serious scarcity than it was in 1873-74. Then there were no canals completed and there were no railways in North Bihar; in the south of the Patna Division there was no railway except the East Indian Railway. Now the head-quarters of every district, and of most subdivisions, are connected by rail with the markets of India. Canals have been completed in the Shahabad and Gaya districts, the country is better known than it was in 1873-74, the people have confidence in the power and will of Government to save them from starvation, and such problems as whether they will come on to relief works, accept task work, eat imported grain, and the like, which were cause for doubt and anxiety in 1873-74, have by experience been removed from the region of speculation, and no longer present any difficulties. It is known that the people will labour on relief works and seek and accept gratuitous relief rather than starve in their homes, and it is also known that recent scarcities caused by the early cessation of rains in the years 1888-89 and 1891-92 were efficiently met without loss of life and at moderate expenditure. All this has to be borne in mind in considering the probable effect of a failure of crops in that part of the country at the present time.

But though there are many grounds for confidence now that did not exist in 1873-74, the fact cannot be overlooked that there are also some fresh grounds for anxiety. Prices of food-grains have steadily risen during the past 10 years, and are now higher than they ever have been before; this fact coupled

with the facts already mentioned that wages have not risen proportionately to prices, that the purchasing power of the poorer classes has therefore been steadily diminishing and is now less than it ever was, that whereas in former years of scarcity prices were kept down by importation from the North-Western Provinces and Lower Bengal, in the present year supplies from these sources cannot be confidently relied upon—are all circumstances that give fresh cause for anxiety which had no existence in 1873-74.

8. The areas likely to be affected by, and probable extent of, distress will, so far as possible, be described later on. I am here to summarise the action hitherto taken by the Lieutenant-Governor with a view to meet such distress as may occur. As was to be expected, it is in Bihar on the present as on all former occasions, that the symptoms of approaching distress have first presented themselves, and have caused the most serious anxiety to this Government and the local officers.

The Lieutenant-Governor's special attention has been directed for some weeks back to this and other parts of the province where distress is apprehended. As even in the most favourable years some part or other of these provinces is known by experience to suffer from local and temporary distress due to floods, breaking of embankments, and other disasters, a letter was addressed to all Collectors so far back as the 29th June last, in which their attention was called to the Famine Code, and they were requested to watch carefully the vicissitudes of the season, and to report promptly to Government any special circumstances, such as deficient or excessive rainfall, floods or other calamities which might indicate the probability that measures of relief or expenditure of money would be required.

In conformity with these instructions, the Commissioner of Orissa reported officially on the 21st September, in his letter No. 17 P.F. of that date, a copy of which was submitted to the Government of India with my letter No. 870 P.—R., dated 8th October 1896, that injury to the standing rice crops of a more or less serious nature had been caused in all the districts of that Division. Some hardship and temporary suffering had been caused to the people, but such distress as existed was met by advances under the Agricultural Loans' Act, by the employment afforded by the railway line under construction in Orissa, and by private charity. The Commissioner at that time entertained no feeling of anxiety for the future unless the rains should cease prematurely. The rains, however, did cease prematurely, and the Commissioner now thinks that the winter rice crop will be seriously short, but does not apprehend any serious distress for a few months to come. This subject will be reverted to later on, and is mentioned here only in order to preserve the historical continuity of the narrative of the action taken by this Government.

9. Observing the shortness of the rainfall in September, and the high prices that prevailed in Bengal generally, and in the Patna Division in particular, the Lieutenant-Governor called on the Patna Commissioner, by telegram, for a special report on the state and prospects of the crops on the 23rd September. In response to this telegram the Commissioner reported on the 25th September that heavy rain which had fallen in every district of the Division during the week ending the 19th September had done much good, that all cause for anxiety had disappeared for the time, and that if rain should fall between the 25th September and 8th October (the *hatiya* rains) all would be saved. No rain did; however, fall in that period, and the Commissioner was obliged

to report on the 8th October* that a strong west wind had been blowing from the 20th to the 25th September, and again during the few days preceding the date of his report, which had the effect of greatly drying up the land, withering the standing crops, and retarding the preparation of land for sowing of *rabi*. It was at the same time reported that there had been a sharp rise in prices almost everywhere during the preceding week, due to the failure of the *hatiya* rains and large purchases for exportation to the North-Western Provinces, and that there had been some temporary ebullition of popular feeling. The Commissioner was of opinion that there was a sufficiency of grain in the Division, and that what was required was money to buy it. He therefore proposed to open test relief works, but was unable to say that scarcity prevailed or that "famine was

Narrative of action hitherto taken.

* Hia No. 665G of that date.

imminent." Mr. Bourdillon still hoped that rain might fall by the end of the "Sivati asterism" (i.e., by the 6th of November), but if no rain were to fall by that date, he had no doubt that scarcity, if not famine, would supervene.

In passing orders on that report the Lieutenant-Governor, in my letter No. 940T.—R., dated the 15th October, again drew attention to the provisions of the Famine Code, and directed that no time should be lost in offering work on district roads under the conditions prescribed in section 56 of that Code, treating the district roads for the present as test works under section 11, and that the District Boards should be called upon to revise their budgets by cutting out all avoidable expenditure and appropriating all the funds they could find to relief works proper. It was pointed out by Government that should no rains fall before the end of October there could be little doubt that a serious failure of the *aman* rice and *rabi* crops would be inevitable, and that the Local Government would have to largely supplement the Board funds. Meantime all Executive officers were to be instructed by the Commissioner to study carefully the Famine Code and the history of past scarcities. The Magistrates and Police were to keep a sharp look-out for any indications of rioting and to take prompt steps to suppress it. The standing crops were to be carefully watched, the stocks of food-grain were to be enquired into, and every effort was to be made to utilise, for the purposes of irrigation, whatever supply of water there might be from hill streams, tanks, and wells. The Commissioner was also authorised to give loans freely for well-sinking; and to employ, for the purposes of local enquiries, the officers of the Opium, Survey, and Settlement Departments, without, at the same time interfering for the present with their ordinary duties. It was added that the Lieutenant-Governor would be prepared to place an officer on special duty to assist the Commissioner should the situation become worse.

10. The Commissioner submitted another report, No. 579G., on the 23rd of October 1896. In this letter it was stated that the condition of the people had undergone no change, except in parts of Shahabad; but that the outlook for the future was certainly more gloomy, by reason of the total absence of rain. The want of the *hathiya* and *chitra* rains, which were necessary to keep the winter rice crop alive in tracts not commanded by irrigation, had, he wrote, made the failure of that crop certain. Mr. Bourdillon ~~estimated that the outturn of the winter rice crop might, in case rain did not fall~~ soon after the date of his report, be taken at 4 annas at the outside. In reply to this communication, the Lieutenant-Governor, in my letter No. 1010T.—R., dated the 30th of October, remarked that if the Commissioner's estimate was correct the outturn would be less than in any previous year of scarcity on record, except perhaps 1873-74. His Honour expressed the hope that the Commissioner's estimate was unduly low; but added that if it were correct, the extensive failure of the rice crop, coupled with the facts that the *bhadoi* harvest was short, and that prices of food-grains were higher than they ever had been at that time of the year, while wages of able-bodied agricultural labourers were stationary, could hardly fail to cause most serious distress. The Commissioner was at the same time called upon to submit the report required under section 9 of the Bengal Famine Code.

Special enquiries ordered to be undertaken in all Divisions.

11. Meanwhile, pending receipt of the Commissioner's special report under section 9 of the Code, the Lieutenant-Governor caused to be prepared a note giving a *résumé* of the history of past scarcities in Bihar, comparative statements of rainfall month by month, outturn of crops, prices of food-grains, number of persons who came on to relief works or who received gratuitous relief in every year of scarcity since 1873-74, and circulated it with my letter No. 71T.—R., dated 3rd November 1896, to all Commissioners and Public Associations. In that letter and its annexures, copies of which have been submitted to the Government of India and published in the newspapers, the intention of Government to refrain from all interference with private trade was enunciated and emphasised—all the information then available to Government was given with the special object of assisting the mercantile community in forecasting the quantity of grain which it may be profitable for them to import, and further detailed enquiries were ordered to be undertaken with a view to ascertaining, as nearly as may be, the stocks in hand and the deficit

or surplus under or over the requirements for local consumption. A

* Has been published in the *Calcutta Gazette* of the 26th November 1896. supplementary note,* of which a copy is annexed, giving similar information in detail for subdivisions and for all districts, has since been prepared by the Director of Land Records, and is being also circulated.

12. Reverting to the narrative of the Patna Division, I am to state that the special report called for from the Commissioner under section 9 of the Code, as mentioned in paragraph 10 above, has now been received (Commissioner's No. 609G., dated the 11th November 1896), and is herewith submitted for the consideration of the Government of India. *Patna Commissioner's special report under section 9 of the Famine Code.*

The report has, in Sir Alexander Mackenzie's opinion, been prepared with much care and ability.

It will be noticed that the Commissioner traces an extraordinary similarity between the meteorological history of the present year and that of 1873-74 (paragraphs 94 and 95 of his report), and that while the estimated outturn of the crops is generally better now than in that year, Mr. Bourdillon adheres to his previous estimate of only a 4-anna rice crop for the whole Division. There was a fairly good fall of rain, which saved the *rabi* crops in the months of December, January and February 1874. If there should be similar showers in the coming year, which there is no reason to despair of, the outturn of food-supply as a whole should be at least as good as it was in 1874, and will probably be better. But, as the Commissioner remarks, conclusions from the experience of the past are in this year liable to be vitiated by the predominating new factors already referred to in paragraph 7 above, and especially by the circumstance that whereas in former years of scarcity in Bihar, grain was available, and was largely imported from the North-Western Provinces, this year the North-Western Provinces require all that they can produce for their own consumption, and were till very recently importing largely from Bihar.

13. The Commissioner estimates the total area and population of the area likely to be affected by distress respectively at 4,323 square miles and about 3,400,000 persons. He calculates that five per cent. of this population, or 170,000 persons, will require relief in the shape of employment on works, or gratuitously, during the next few months. *Estimates of area and population affected in the Patna Division.*

In the famine of 1873-74, 10 per cent. of the entire population of Bihar received relief for a period of nine months, and the numbers in receipt of direct relief at one time reached about two millions daily. Compared with these figures the Commissioner's present estimate is extremely sanguine.

The Famine Commissioners, in page 26, Part I of their Report, paragraph 75, take 15 per cent. of the entire population in the affected area as the maximum likely to be in receipt of relief in the worst months, and 7 to 8 per cent. of the population as the average number likely to require relief continuously, for a year,

but Mr. Bourdillon† has only taken 5 per cent. of the urban population and of the tracts where the crops are particularly bad. Calculated on this basis, the numbers likely to require relief would, as above shown, be about 170,000. But it does not appear that the Famine Commissioners' estimates were intended to be thus restricted to percentages on the particular areas in which crops are particularly bad, and the Lieutenant Governor is disposed to think that Mr. Bourdillon's calculations in this respect cannot be relied upon.

The Commissioner also calculates that the numbers who may require relief will have to be supported for only a few months. According to all experience; relief should be required from January at least till the rains break, or to the end of June, when credit may be expected to be restored and the people are assured of a coming harvest in August and September following.

14. Turning to the Commissioner's estimates of food supply, I am to observe that Mr. Bourdillon, taking the areas under food crops and the average outturn per acre as given in the statistics furnished by the Department of Land Records and Agriculture, calculates— *Estimate of food-deficit in the Patna Division.*

(a) the normal outturn of food-crops in his division at 14,97,39,000 maunds of 82 lb each, and

(b) the outturn of the present year, assuming the *rabi* to be as good as in 1874 (i.e., an average crop in South and an 8 to 10-anna crop in North Bihar), at 6,64,45,000 maunds, or about $\frac{7}{8}$ ths of the normal.

Assuming, as Sir Antony MacDonnell does in his Report on "Food-supply and Famine Relief in Bihar and Bengal," that the rate of daily consumption per head is three-fourths of a seer, the total population of the Division being 16 millions, the total requirements for local consumption for 12 months would be 108 million maunds against a total outturn of 66½ million maunds. Assuming also, as Sir Antony MacDonnell did, that the people always keep three months' supply of food in hand from previous years, equal to 27 million maunds, the figures will stand thus:—

	Maund.
Requirements for 12 months' consumption	10,80,00,000
(1) Outturn of this year's crop	6,60,00,000
(2) Stocks from previous years	2,70,00,000
Total	9,30,00,000
Deficit	1,50,00,000 maunds, or 550,000 tons.

15. These figures would be alarming if they could be relied upon, but the Lieutenant-Governor hopes that the outturn of this year's crops and the amount of the stocks in hand are under-estimated. Even in 1873-74 the total imports by Government and private trade together to all distressed districts were not more than a million tons, or 27 million maunds. The Lieutenant Governor has already expressed the hope in my No. 1010 T.R., dated 30th October, to the Commissioner of Patna, that Mr. Bourdillon's estimates of the outturn of the rice crops are below the truth, and the above figures would seem to support that surmise; but if M. Bourdillon's figures are even approximately correct, the question where this enormous deficit is to come from becomes one of the gravest importance. This is the question which has caused, and is causing, Sir Alexander Mackenzie the most serious anxiety. There will be no difficulty in providing relief works, of which programmes are ready for every district, as required by section 5 of the Famine Code. It is a fortunate circumstance also that railways are already in the course of construction between (1) Moghulserai, Dehree and Gaya, and (2) Lakhisarai and Gaya, and that

(1) Hajipur and Begumserai to Katihar with branch to Khagaria (164 miles in the Muzaffarpur, Darbhanga and Monghyr districts).

(2) Segowli to Raksaul (17 miles, Champaran)

(2) Sakri to Jainagar (27 miles, in Darbhanga).

(4) Revilganj to Manjhi (7 miles in Saran)

the railways noted in the margin, which pass through the most distressed districts, have been aligned or proposed and may be undertaken at any time with the sanction of the Government of India. As already remarked, among the beneficent effects of the policy of liberal expenditure adopted in 1873-74 were these—that the people of Bihar became accustomed to come on to relief works, that they learnt to have confidence in the power and desire of the officers of Government to save them from starvation, and that these officers acquired experience of relief administration which will stand them in good stead in the present time. But on the other hand, among the drawbacks of that policy, it may be feared that the people may have too much confidence in Government and rely too little on themselves, that they may on this account, and also because of the great improvement in communications and high prices, have allowed stocks to become depleted. If the year's outturn plus stocks in hand is not sufficient for local consumption, and if private trade does not step in, in time, to supply the deficit, there may at any time be a panic and a sudden rise of prices.

Consideration of the question—will private trade supply the deficit?

16. The question whether private trade will do all that is required is in reality the *crux* of the situation. As the Famine Commission remarked, the action of Government itself prevented this question being brought to the test of experience in 1873-74,

and no one can say with certainty what would have happened had private trade been left to itself. The Famine Commissioners themselves were of opinion that in consequence of the extension of railways no such measures of importation by Government as were adopted in 1873-74 would ever again be necessary, and should in no case be resorted to without the most complete proof of their

necessity; but they added* that a resolution to rely on the ordinary operations of trade to meet the wants of the country unquestionably rests not only on the activity of traders, but also on the probability of the requisite supplies of food being forthcoming at the critical time. The question, they said, should therefore be asked whether there is sufficient ground for believing that the quantity of grain likely to be needed to meet the wants of such large areas as may be stricken with famine in a single year will be certainly forthcoming. In a subsequent paragraph, 159, of their report they admitted that there may be cases in which Government interference is admissible, such as for the purpose of providing food required for payment of wages on relief works and distribution of gratuitous relief, stimulating trade where it is sluggish or fails to act, or grain-dealers combine and refuse to sell.

17. Sir Alexander Mackenzie agrees with the conclusions come to by the Famine Commission. His Honour gathers from the utterances of the Government of India that they expect that the requisite supply of food for India as a whole will be forthcoming through the operations of private trade; and in order to satisfy himself on this most important point as regards these provinces, he has caused enquiries to be made from local merchants and the Chamber of Commerce as to what is being actually done or intended to be done in the matter of private importation. Particular importance attaches to this question of importation from beyond sea, because the high prices in Eastern Bengal, and the indications of distress already existing in districts that were always considered free from risk of scarcity, show that little reliance can be placed on supplies from within the Province.

18. His Honour is informed that three cargoes of Californian wheat, aggregating about 14,500 tons, are on the way to Calcutta, but merchants generally are at present indisposed to import wheat largely from California, because of the uncertainty as to the demand in India, the high prices for wheat prevailing throughout the world, doubts as to whether native dealers will purchase and have the grain, if imported, carried into the mufassal where it may be required, and generally because of the difficulties that attend on the diversion of trade from its ordinary channels, that is, from being an export to an import trade. They, moreover, believe that the stocks in Northern India and Bombay are sufficient for the requirements of local consumption. Cargoes of Californian wheat of 4,000 to 5,000 tons each can at present quotations be landed at Calcutta at Rs. 5 to Rs. 5 1 per maund. Offers for such cargoes to arrive in two months or more are not higher than Rs. 4-10 to Rs. 4-11, a fact which indicates that in the opinion of merchants who ought to be the most competent judges in the matter, the price of wheat will not, in Calcutta, rise beyond Rs. 4-10 to Rs. 4-11 within the next two months. The importation of wheat is not, however, a question of so much importance to Bengal as it may be to other provinces.

Importation of wheat.

19. In Lower Bengal and Orissa rice is almost the sole article of food, and in Bihar rice, barley, maize and millets (but not wheat) are principally consumed. It is fortunate that the rice crop is a good one in Burma. The quantity available for export in the present year is estimated to be 1,400,000 tons: of this about half would ordinarily be exported to Europe, but owing to high prices the demand for European countries is likely to be smaller than usual this year, so that the trade can be easily diverted to India. The rice crop is also reported to be good in Siam, Saigon, Java and Shanghai, and the Lieutenant-Governor is informed that arrangements are already under consideration by private traders for large importations from Burma to Calcutta. His Honour is informed that 500,000 tons of rice can be landed in Calcutta two or three months hence if found to be required. Rice can now, it is understood, be purchased at about Rs. 3-6 to Rs. 3-8 a maund to be delivered in Rangoon two months hence, but purchases for Calcutta are so far

Importation of rice.

*Opinion that food-wants
of Bengal can be met by
private trade.*

limited—a fact which indicates that it is not anticipated by merchants that prices in Calcutta will be more than Rs. 4 to Rs. 4-8 a maund at that time.

The Lieutenant-Governor therefore thinks that there is ground for confidence that the food-wants of these provinces will be met by the importations of private trade, but it is necessary to repeat that, in view of the unparalleled highness of prices and of extent of the area over which there has been shortness of crops throughout India, the situation as regards the food-supply is not free, even in Bengal, from elements of doubt and anxiety.

*Divisions other than
Patna.*

20. So far particular stress has been laid on the requirements of the Patna Division. For other divisions special reports under section 9 of the Code have not yet been received, and these divisions may be treated very briefly.

Orissa Division

The worst next to Patna is Orissa. The Commissioner of that division in his latest report dated the 5th of November says that the outturn of the rice crop will be very poor, but he does not apprehend distress for a few months to come. It is not now possible to say what the extent of that distress may be.

Presidency Division.

It is reported that some relief will be required in three thanas in the Satkhwa subdivision of the Khulna district, where the rice crop is said to be likely to be a total failure. The Commissioner has been requested to go on the spot and arrange for such measures of relief as may be necessary.

Bhagalpur Division.

The Commissioner of this division reports that prices are high, but that so far there are no signs of distress though anxiety prevails.

*Dacca, Rajshahi, and
Mittagong Divisions.*

No reports of approaching scarcity have been received from these divisions, but prices rule unprecedentedly high, and districts which ordinarily export are said to have begun to import. This would indicate a dangerous depletion of stocks.

Chota Nagpur Division.

The Commissioner has just reported that Hazaribagh is the only district that gives any cause for anxiety in the immediate future, but even there no expenditure by Government is required at present.

General remarks.

21. Most of the subjects mentioned in section 15 of the Famine Code have been touched upon in the preceding paragraphs, and such information as is available at present has been furnished. It only remains to add that it is not possible at present to give anything like an approximate estimate of the probable expenditure that may be required, and that this Government does not anticipate that there will be any necessity to remit or suspend Government revenue. The numbers of persons employed on test relief works are given in Appendix A to the Patna Commissioner's report. The Lieutenant-Governor has observed that a certain number of persons have been employed on daily wages irrespective of task, and has called the Commissioner's attention to section 64 of the Code. Whether the Provincial staff will have to be increased cannot be now stated with any certainty. The Lieutenant-Governor is about to visit Bihar, and after consulting local officers, indigo planters, zamindars and others, His Honour will be in a better position, as events develop, to report to the Government of India on this and other questions. The Bengal Distress Relief Committee, formed in Calcutta in 1888, have in hand a sum of Rs. 34,000 which is now available for charitable relief. Sir Alexander Mackenzie proposes to ask the Committee to place this amount at the disposal of the local officers of distressed districts at an early date, as soon as he is in a position to say where it is most required.

22. The Lieutenant-Governor, agreeing with the Collectors and Commissioner of the Patna Division, the Director of Land Records and the Board of Revenue, has not thought it necessary to suspend settlement or survey operations in Bihar, at any rate for the present. The survey programme has been altered to this extent only, that the survey party is to be employed in South Darbhanga and South Saran, where distress has never been very great, instead of in North Darbhanga, where scarcity and distress have always been most serious. It is reported by Captain Crichton that most of the field work will be completed by the end of March. If it should become necessary, the survey and settlement operations can then be suspended, and the officers engaged on these operations can be utilised on famine work.

NOTES ON SONEPUR CONFERENCE.

NOTIFICATION.

No 4811 Agri.—The 26th November 1896.—The following is published for general information

M. FINUCANE,
Offg. Secy. to the Govt. of Bengal.

Notes of a Conference held at the Commissioner's Camp, Sonapur, on 20th November 1896.

PRESENT

Sir Alexander Mackenzie, K.C.S.I., Lieutenant-Governor of Bengal
The Hon'ble Mr. C. C. Stevens, C.S.I., Member of Board of Revenue
The Hon'ble Mr. M. Finucane, Revenue Secretary to the Government of Bengal
The Hon'ble Mr. J. G. H. Glass, C.I.E., Public Works Secretary to the Government of Bengal.
J. A. Bourdillon, Esq., Commissioner of Patna.
C. A. Mills, Esq., Inspector of Local Works, Patna.
A. Izat, Esq., Bengal and North-Western Railway
T. Inglis, Esq., Collector.
H. Savage, Esq., Collector
W. Egerton, Esq., Offg. Collector.
Rai Jai Prakash Lal Bahadur, C.I.E., Manager of Dumraon Raj.
R. W. Carlyle, Esq., Collector.
H. Bell, Esq., Manager of Darbhanga Raj
C. R. Hay-Webb, Esq., Manager of Muktapur Factory.
L. Hare, Esq., Collector
C. J. Stevenson-Moore, Esq., Settlement Officer
C. L. S. Russell, Esq., Subdivisional Officer, Sitamarhi
J. F. Gruning, Esq., Subdivisional Officer, Hajipur.
E. Macnaghten, Esq., Secretary to the Bihar Indigo Planters' Association
D. J. Macpherson, Esq., Collector.
J. H. Keir, Esq., Assistant Settlement Officer.
E. T. Sealy, Esq., District Engineer.
Sir William B. Hudson, K.C.I.E., President of Bihar Indigo-Planters' Association.

Muzaffarpur

Champaran

Siwan,

HIS HONOUR THE LIEUTENANT-GOVERNOR opened the proceedings by stating that his main object in coming to Bihar was to consult with the local officials and non-officials, to gather from them information as to agricultural prospects, the extent and intensity of distress, the measures which should be taken to relieve it, and the funds and agency necessary for carrying them out. He said that no doubt Mr. Bourdillon's very full report had been read by all present. He had not yet seen his second fortnightly report, but copies of this also would be circulated to all the local officials.

The only way to cope with a distress as grave as this was for all classes to co-operate. The great advantage of the situation in Bihar was that there was a large body of European non-officials, whose intimate knowledge of, and daily intercourse with, the people would now, as always, be of the greatest assistance to Government, and he was assured that they would be perfectly ready and willing, as they were able, to co-operate in every way.

There were two dangers they had to avoid, *firstly*, that of over-estimating the distress, thereby leading to extraordinary and extravagant expenditure as in 1873-74, and, *secondly*, a tendency to over-confidence generated, to some extent, by the knowledge of the previous over-estimation.

The tract south of the Ganges presented no features of grave anxiety at present. Gaya had always been regarded as a district fairly safe. Nothing like widespread distress need be apprehended there.

In Patna there was no danger of widespread scarcity, and in Shahabad only local distress need be apprehended which could probably be dealt with by local agency.

The north of Darbhanga, Muzaffarpur and Champaran, however, are purely rice tracts. In those parts there appeared to have been a general failure of crops, and considerable distress might be anticipated.

In the rest of the country north of the Ganges he understood that the *rabi* crop was germinating well, and the area under *rabi* larger than usual. In 1873-74, one of the most striking features was that the *rabi* crop, subsequent upon seasonable winter rains, turned out to

be much larger than was expected, and if rain fell in December and January, the present *rabi* crop would be fairly safe.

He wanted everybody present to give him fully and freely from their local knowledge information as to existing facts and advice as to how to meet the scarcity.

He proposed, therefore, to discuss the condition of the crops in each district, but he thought it would be sufficient if they confined their attention mainly to the districts north of the Ganges. He would begin with Darbhanga.

DARBHANGA.

MR. CARYLE, the Collector, put forward a map in which the tracts likely to suffer severely at different times were separately marked. He anticipated that, of the whole district area, there would be acute distress in an area of 205 square miles, that distress would be felt in February and March in 650 square miles, that there would be scarcity in 217 square miles, and that 414 square miles were practically safe.

He remarked that distress had not yet made itself felt to any extent, but that in some parts it was now imminent.

The worst parts of the district were the Madhubani subdivision and the central parts of the Darbhanga subdivision.

MR. BELL stated that a large part of this area is a compact block, belonging to the Darbhanga Raj, and that he had received reports from the local officials as to the prospects of the crops in those villages. The preliminary reports, however, were chiefly collected by the patwaris, and he had found them to be unreliable, and he considered that, for interested reasons, the patwaris took too gloomy a view of the situation.

He was, however, now obtaining more accurate reports which would be available shortly.

THE COLLECTOR stated that he had ridden about 600 miles in the distressed area.

In the Jhanyhapur Circle things were worse than in the Naraia Circle, and there was a line of bad villages along the north-east frontier.

He stated that he had opened test relief works in Phulparas, but that when the task was raised to that prescribed in the Famine Code, all the people left. He proposed, however, to re-open the works shortly.

MR. BELL stated that the Rohika Circle round Madhubani might be divided into two parts. The villages along the banks of the Kamla were fairly good, there being a 12-annas *aghani* crop. The portion further west towards Kamtaul was very bad, the *aghani* crop having failed entirely. The area round Darbhanga was similarly bad.

THE COLLECTOR stated that besides the Darbhanga Raj the other large landholders in the distressed area were Raja Ramaswar Singh, the Madhubani Babus, and the Pachhi Mahanth. The first-named would be able to render considerable assistance in relieving his tenantry. The two latter were very impoverished, and nothing could be expected from them. The Madhubani Babu and the Pachhi Mahanth own the area north of Khajauli. Rai Ganga Prasad Bahadur had promised to provide for all his tenantry. The rest of the district belonged to petty maliks, from whom no assistance could be expected.

THE COLLECTOR said that, as far as he had been able to gather, the *aghani* crop this year would be about the same as it was in 1873-74, but that the *bhadosi* crop had been slightly better. The southern portion of the district was much better.

MR. BELL stated that, in his opinion, the crops at present in the ground had been underestimated.

HIS HONOUR thought that this was very probable.

THE COLLECTOR estimated that the *aghani* crop throughout the district would be 5 annas.

In the northern distressed area there was very little *rabi*, and what been sown had not germinated.

HIS HONOUR enquired whether, in the event of late winter rains, millets could not be sown.

THE COLLECTOR stated that the rain must come soon to be of any avail.

Relief works—MR. BELL stated that the Maharaja was prepared to open small relief works where required, such as tanks, bundhs, and irrigation channels, but that of course he could not undertake big relief works.

HIS HONOUR remarked that he was greatly in favour of tanks, as labour on them was concentrated and easily supervised, and they were of permanent utility.

MR. BELL said that later on when big relief works were opened all able-bodied men could be drafted on to them, keeping all the women and children for the local relief works.

HIS HONOUR enquired whether any schemes for large relief works had been prepared.

THE COLLECTOR stated that there had long been a project to construct a light line of railway from Sakri to Jainagar on the Nepal frontier.

THE COMMISSIONER remarked that the Government of India had lately refused to sanction it pending further report.

HIS HONOUR remarked that railway construction was not generally considered to be a good form of relief work, as the cost of the earthwork formed such a small proportion of the total cost. But his own view was that if a line had been provided for in the railway programme for the immediate future, say the next ten years, which could be now utilised for relief work, he would be prepared to urge on the Government of India the desirability of sanctioning the immediate undertaking of the scheme. The earthwork at least could be taken in hand at once.

MR. GLASS remarked that this line was included in the extension scheme of the Bengal and North-Western Railway.

SIR WILLIAM HUDSON stated that the Syndicate, who proposed to build the line, had had it surveyed some ten years ago, and that he was prepared to find the money at once. The line is 28 miles long.

MR GLASS estimated that the expenditure upon earthwork would be about Rs 50,000.

MR IZAT stated that the survey had been done by Mr Montague, but that it might have to be a little revised, and the direction of the line altered a little. This was probably the reason why the Government of India had not yet sanctioned the scheme. The construction would be perfectly easy, as it ran along the line of the water-shed.

HIS HONOUR stated that, as a result of this Conference, he would be prepared to make a further strong representation to Government for its immediate sanction.

MR FINCANE enquired whether the Raj would be prepared to allow non-Raj raiyats to work on Raj relief works.

MR BELL stated that he had not yet considered the point. THE COLLECTOR remarked that, in practice, he would find it extremely difficult to prevent them from attending.

THE COLLECTOR stated that he had called a meeting on the 13th instant, and had appealed to all zamindars to render all assistance possible, thinking this preferable at present to procuring subscriptions. The District Board intended to open test relief works at Jainagar and Kamtaul shortly, and also those at Phulpur which had been closed. The District Board, however, is in financial difficulties, and he should have to ask Government to advance him the money. Meanwhile, he proposed to take in hand a lakh of rupees' worth of earthwork from next year's programme in anticipation of receipt of the grant.

HIS HONOUR asked what other relief works would be started. If there was as much distress as the Collector anticipated, the light line proposed would not be sufficient.

THE COLLECTOR said that he proposed to excavate new tanks and clean out old ones on a large scale.

MR BELL remarked that if engineers could be obtained, the Raj would be prepared to start irrigation works from the Bagmati and Kamla rivers. He believed a regular scheme had been drawn up, but he could not find any trace of it.

MR FINCANE remarked that it had been drawn up before he left Darbhanga, and had been filed in the Raj Office to be put up for orders at any future time of scarcity.

THE COLLECTOR stated that he proposed to put all existing roads in thoroughly good repair, and to raise the cart-roads, where necessary, but he did not propose to make many new roads, as he was of opinion that there were enough already in the district. He also proposed to clean out old tanks, and, where there was a probability of a scarcity of water, to excavate new ones.

HIS HONOUR enquired whether these tanks could be used for irrigation.

THE COLLECTOR stated they could, but that they silted up very quickly. The water-level, too, was much lower than it was in Chapra.

There was not much apprehension of scarcity of drinking water, but there might be of water for cattle. He had asked the zamindars to clean out all their wells.

HIS HONOUR enquired whether there would be any difficulty in obtaining land for tanks.

THE COLLECTOR replied that he apprehended none, as he thought the zamindars would always be willing to grant land for the purpose. If any raiyat came forward as a few had already done, for permission to make a tank he would grant it and give him advances for the purpose. Up to the present, however, he had refused to make any advances under the Agriculturists Loans Act, as he thought the time for this would not come until April.

Gratuitous relief—HIS HONOUR enquired what arrangements had been made for giving gratuitous relief.

THE COLLECTOR replied that there had been no applications for it yet. Actual distress had only just started. He had sent out seven men to verify the police reports as to scarcity, and had supplied them with money to meet cases where gratuitous relief was necessary. He had not yet, however, received their reports.

HIS HONOUR remarked that there was a balance of some Rs 31,000 in the Bengal Relief Fund, and that he hoped to secure this for Bengal alone, in which case he would distribute it among the various districts for gratuitous relief. He pointed out that the distress which gratuitous relief was intended to meet always began in a very insidious manner, as the high-caste women were very loath to come forward to obtain it. The best method of obtaining information as to places where gratuitous relief was required was to make enquiries from local native gentlemen. The police reports on this subject were not to be trusted.

THE COLLECTOR stated that he only relied upon police reports to show where further enquiries should be made by other agency. He had sent out, among others, the Deputy Inspector of School and two Sub-Inspectors to make these further enquiries, and he proposed to send out the kanungoes shortly.

Stocks—HIS HONOUR enquired whether any estimate had been formed as to stocks.

THE COLLECTOR stated that he was obtaining information from indigo-planters and zamindars as to local stocks.

MR BELL stated that he thought it would be very difficult to get any reliable information upon this point. He had not been satisfied with the reports he had already received, and had asked his sub-managers to submit second reports from information obtained from their own personal observation.

THE COLLECTOR'S impression was that stocks were very large, but that they were all in the hands of the well-to-do raiyats and zamindars. The poorer raiyats had not sufficient stocks to support them after February or March, and the labouring classes and very small

rayats had none even at present. Mr. Webb, of Muktapur, estimated that there were 200,000 maunds in his *dehat*. This information was probably reliable, as he had made enquiries in the large marts. THE COLLECTOR said that he had formed estimates on the lines laid down in Sir A. P. MacDonnell's report, and he believed that an estimate prepared on such lines would be far more accurate than any figures based on local reports, though he would of course utilise these as a check upon the figures he arrived at in that estimate. The chief difficulty would be not in obtaining information as to the stocks in the hands of the banias, but as to those in the hands of the rayats. Reliable information upon the latter point could only be obtained by house-to-house enquiry.

HIS HONOUR enquired whether the local zamindars were laying in stocks of grain.

MR. BELL replied that he had bought 75,000 maunds locally, and the Maharaja had just telegraphed to him to make large purchases of *dhan*.

HIS HONOUR remarked that it was a pity to buy up the local stocks. He was informed there were 80,000 tons of old rice in Rangoon, and forward purchases of the new rice were being made to be delivered in January at about Rs. 3-8 per maund in Rangoon. Paddy would cost still less. It would be a good thing if people requiring grain would at once make arrangements to secure some of this stock through some Calcutta house.

MR. BELL remarked that a Calcutta firm had already offered him American wheat at Rs. 5 per maund, delivered in Darbhanga.

HIS HONOUR remarked that this was the finest Californian white wheat, which was extensively purchased in Calcutta for the manufacture of white bread. It was rather too expensive for ordinary use.

MR. BELL stated that the same firm had also offered to import maize from England to be delivered in Calcutta within six weeks at Rs. 3-8 per maund, which would cost about Rs. 4-2, delivered in Darbhanga.

HIS HONOUR stated that it was much better to import rice and paddy from Burma than to buy up district stocks. This information about Burma rice should be spread as widely as possible, especially among zamindars and mahajans.

MR. BELL remarked that he thought rice would go out of the district.

HIS HONOUR said that Mr. Izat had informed him that 200 waggons a day were now leaving the district, carrying 400 to 500 tons of grain a day. A fortnight ago, something like 1,000 tons a day were being exported.

THE COLLECTOR stated that both the imports and the exports of the district were very large. During the last fortnight the net excess of exports over imports was only 750 tons.

HIS HONOUR stated that the general opinion among the native merchants in Calcutta was that stocks were much lower than had been estimated. The President of the Native Chamber of Commerce had lately informed him that he considered the Government estimate of the present stock (12 lakhs of maunds), to be nearly twice as high as it ought to be. His Honour was surprised to hear this, as the Government estimate had been carefully made, and he had thought, when comparing it with the figures for 1873-74, that it was very low.

Communications.—As to facilities for communication, THE COLLECTOR stated that there was no place in the district more than 30 miles from a railway station, but that the trade from the north and centre of the district was an export one, and that it might take a little time to convert an export into an import trade. The same difficulty would not arise in Samastipur, as grain was always imported there. He did not see why private trade should not be able to supply the whole district with grain. He would appoint a bania at each work. He did not think that there would be any want of grain at any place in the district for the next two or three months.

HIS HONOUR asked whether he thought that there was any necessity at present for reducing railway rates as had already been done on the Eastern Bengal State Railway.

THE COLLECTOR replied that he did not think that it was advisable at present.

MR. BELL remarked that he should not like to have the question shelved at present, as he was quite sure that if the rates had been found to be too high on the Eastern Bengal State Railway, it must be necessary to reduce them on the Bengal and North-Western Railway.

HIS HONOUR remarked that he only mentioned the matter at present. It would be kept in reserve.

MR. IZAT stated that he had asked the East Indian Railway to give the Bengal and North-Western Railway the same concessions regarding rates as had already been granted to the Oudh and Rohilkund Railway. The rates on the Bengal and North-Western Railway were 60 per cent lower than those on the Eastern Bengal State Railway, and considerably lower than those on the East Indian Railway. He had no doubt that this concession would be granted, and the merchants had told him that, in that case, there would be large importations of pulse, rice, and peas.

Fodder.—With regard to fodder MR. COLLECTOR stated that there was no difficulty at present, as the cattle were grazing upon the paddy which had failed.

General.—HIS HONOUR said that he wished that Mr. Bourdillon would extend the system that he had formerly introduced into Saran of obtaining weekly information by means of post-cards from all classes as regards rainfall, prices, stocks and general condition of crops.

MR. BELL remarked that he had already given Rs. 1,000 to each Circle Officer to distribute in charity. He was afraid that the old and infirm who had formerly been dependent upon their fellow-castemen for support, would be the first to suffer. His Honour said that he feared there would be much distress among the lower middle classes which it would be difficult to meet.

THE COLLECTOR stated that, calculating upon the figures of 1878-74, he estimated that there would be an average of 200,000 people upon relief works from February to October.

MUZAFFARPUR.

MR. HARE, the Collector, produced a map showing the areas of Muzaffarpur district which are considered liable to famine, and explained that all the tracts shown in this map were affected, but not quite in the same relative degrees as shown in the map. The worst tracts are the Sitamarhi subdivision, the Katra thana and the north part of the Sadar thana. But Paru, Lalgunge and the north of Mahuwa thanas are also seriously affected. The estimated outturn of the *bhadai* and *agham* crops in each thana is given in his last fortnightly report. Subsequent information led him to make a slightly more favourable estimate of the outturn of *agham* crops in Paru and Katra thanas.

MR. RUSSELL, who had recently been all over the Sitamarhi subdivision, explained his views of the outturn of the *bhadai* and *agham* in connection with a special map of that subdivision prepared in the Settlement Office from information received from the Settlement camps. He was of opinion that the bad area, as shown in the map, should be somewhat extended, and held to his former report that six annas *bhadai* and three annas *agham* represented the outturn for the subdivision.

HIS HONOUR, after hearing Mr. Bell's remarks about the reports of Daibhanga villages at Panbar, about which a European manager had recently reported more favourably than the patwaris generally had previously reported, was of opinion that the *agham* crop had been in all probability under-estimated.

Works—THE COLLECTOR put before His Honour the Lieutenant-Governor the District Board schedule of relief works prepared under the Famine Code. This schedule hardly provided for the probable requirements especially in the Katra thana. But it indicated a large amount of work which could be undertaken.

Large Works—With regard to large works, a scheme had been mooted for an irrigation canal to carry the water of the Bagmati all along the north of the district, and to use the smaller streams, which carry very little water in a year like the present, as distributary channels. Most of these streams have numerous *bahars* or cuts for carrying the water from the streams to the fields. This scheme, however, was not ready, and would have to be carefully planned and considered. It might be that the Bagmati did not carry enough water in a dry season to feed so large a system.

There was a smaller irrigation scheme to tap the Bagmati river and to carry some of its water only as far as the Lakhandu river. This would irrigate about 100 square miles. It was impossible to "bund" the Bagmati river, but a cut had already been made to let the water into the canals. This would be of great advantage for the irrigation of the *rab* crops. This could not, however, be used as a relief work, as it would be necessary to press on with the work as quickly as possible by means of skilled labourers, who would earn full wages, and not according to the relief rate. The larger scheme would, if approved, require a great deal of excavation, and would afford much relief work. If carried out, it would be necessary to have control over the "bunds" made in the distributary rivers.

HIS HONOUR stated that the Embankment Act would give all the control necessary. If this work were undertaken, men could be drafted from the smaller relief works on to this larger scheme.

Railway Works—With regard to the new railway from Hajipur to Begum Serai, MR. IZAT remarked that there was delay in getting the land.

The Collector stated that he could give the land over to the railway officials at once, but that the land had been very badly surveyed, and the plans given to him did not agree with the lands marked out. Men could be drafted to the earthworks there, but he did not yet know if it was to be done on contract rates or not. If the former, it was not a relief work.

MR. IZAT stated that he had laid down 145 miles of railway in the Deccan entirely by relief labour, which was sent to him in drafts by the Collector of the district. It afforded relief to 50,000 men. It was all done by petty contracts with each gang. He was quite willing to work on that scheme here.

THE COLLECTOR stated that he could do a great deal of relief by the excavation and cleaning out of tanks, especially in the north of the district, where they could be used for irrigation, and the able-bodied persons could be collected on these works and drafted off to the railway works.

MR. IZAT stated that the people on his relief work in the Deccan were allowed to form their own gangs, which they did usually by families. They brought their women with them. They were paid at the ordinary rates, about Re 1-8 per 1,000 cubic feet, but varying according to the height of the bank. This worked out that each family earned from 2½ annas to 4 annas a day, which was little, if at all, above the famine rates.

THE COLLECTOR stated that he had already opened test relief works, but that so far very few people had stayed on at them, because they were not allowed to work as long as they liked, and so earn as much as they otherwise would be able to do.

SIR WILLIAM HUDSON remarked that his experience was that Nunsias would earn about 2½ annas a day, but that high caste men could not earn so much as 1 anna.

MR. IZAT remarked that he had at first met with the same difficulty in the Deccan, but that they quickly got into the work, and that at the end of a fortnight their hands were as hard as those of the ordinary labourers.

Funds—THE COLLECTOR remarked that there was no immediate difficulty about funds. The District Board had a cash balance of about Rs. 80,000, and about Rs. 60,000 could be

appropriated from works shown in the budget of the present year, and Rs. 85,000 could be anticipated, if necessary, from the budget of 1897-98 if the Board were allowed to overdraw.

His Honour said that Mr. Bourdillon should inform him, as soon as possible, how much help each district would want, so that he could make the necessary arrangements.

Trade—With regard to trade the Collector remarked that it was very brisk, and he thought it would meet the requirements. No place in the district is much more than 20 miles from a railway station. The trade, however, in the Sitamarhi distressed tracts was ordinarily in the wrong direction, viz., outwards instead of inwards.

Mr. Izet corroborated the remark about trade activity, and said that rice was going out from Darbhanga and Rajshahi to the extent of 100 wagons a day. This was mostly Nepal rice, however, and as the export of it had been stopped lately, no doubt this traffic would diminish. The Collector stated that the prohibition had not stopped the export entirely, as rice was still coming over the frontier in every direction on the heads of coolies, and put into carts in waiting on this side of the frontier.

The Collectors of Champaran and Darbhanga confirmed this statement.

Food Stocks—The Collector also stated that he had made an estimate of the food stocks on the lines laid down in Sir R. P. MacDonnell's report, which tended to show that in an ordinary year the exports of food stocks of the district were only slightly larger than the imports, so that this year there would be a heavy deficiency which would have to be met by importation.

Mr. Macnaghten stated that he had consulted almost all the planters, and the general opinion was that the conditions now are about the same as they were in 1873-74. The *rain* is very fair now, and with winter rain will be as good as, if not better than, the crop in 1873-74. The *bhadoi*, however, had been somewhat worse.

CHAMPARAN

Mr. Macpherson, the Collector, produced a scarcity map prepared on the same lines as in other districts, but explained that the conditions of individual villages varied very much within each tract. The tracts where at present scarcity is most felt were, an area of about 430 square miles in the thanas of Shikarpur, Ramnagar and Bagaha, and smaller tracts towards Govindganj and east of Madhuban. Test works had already been started in all these tracts but only one, namely, the excavation of tanks in the Ramnagar outpost, had been opened sufficiently long to enable an opinion to be formed upon it, but so far everything went to show the existence of distress requiring relief. The wage given is based on a grain-equivalent as laid down in section 104 of the Famine Code. The Collector thought that in the distressed tracts the poorer cultivators had only sufficient grain to carry them on to the end of the current month, while the labourers were already in need of special employment, and the richer raiyats had no large stocks. His enquiries into stocks, however, were not yet complete. At the commencement of the operations the Baniyas had been supplying grain at 11 seers per rupee, but now the price had contracted to 9 seers.

The Collector mentioned that the exports by rail had been very heavy, but that there had been a decided check during the last 10 days. This export accounted for the rise in price mentioned above.

In estimating the condition of tracts, the Collector had been mainly guided by the character of the current year's *bhadoi* and *aghani* crops, as last year's surplus had been almost all exported. He had considered the condition of the poorer, rather than of the richer classes. In the distressed tracts the outturn of the *bhadoi* crops had been two annas, and that of the *aghani* crops would be nil, except where irrigation had taken place.

Fodder—There was ample fodder at present, and later on the cattle will be sent into the hills to graze. Sir William Hudson handed in figures showing that 46 per cent of the population in an area of 35 square miles east of Seeraha in Madhuban thana had no stocks left, although they had had a fair *bhadoi*. This was the result of their having parted with their stocks while the winter rice crop was still promising. Within the tract there were 6,417 cultivators and about 3,500 labourers. The Baniyas had only 20,000 maunds of grain in stock. The labourers had no work except that to be obtained in the factory where 1,300 persons a day were employed.

The Collector stated that the District Engineer had just opened test relief works in the distressed tracts east of Seeraha.

The Collector stated that the district was chiefly owned by large zamindars, the Maharani of Bettiah being the most important. The villages of the Bettiah Raj are all over the district, except in the extreme north of Bettiah, which is owned by the Ramnagar Raj.

Mr. Lewis said that the Raj would be ready to spend much money upon relief works if it were allowed to take a loan from Government for the purpose.

The Collector stated that the Ramnagar Raj which owned the greater portion of the worst area in the north of Bettiah, was completely impoverished, and no help could be expected from it. The Madhuban Babu had expressed his readiness to provide relief. Much could not be expected from the Sheohar Raj, which owns a considerable number of villages in the south-east of the district. The Tikari and Hathwa Raj areas were very small.

Sir William Hudson expressed his belief that landlords would readily come to the assistance of their tenants, if any advances made by them to keep their raiyats alive in the present emergency were by law given a precedence similar to rent over all other encumbrances on their holdings, but otherwise no landlord would venture to give advances, as he could never hope to recover them, and tenths of the holdings being already mortgaged to mahajans.

THE COLLECTOR stated that he expected the distress would be worse than it was in 1873-74, because there was no stock to go on with; there was not more than four annas of *rub* in the ground, and much of this would come to nothing unless rain fell shortly, as little irrigation from wells was carried on in the district.

SIR WILLIAM HUDSON stated that the present outlook in Champaran was much the same as in 1866, and distinctly worse than in 1873-74, and Mr. MacLeod agreed in this opinion. SIR WILLIAM HUDSON stated that the population of the district had more than doubled since 1866.

MR. FINUCANE stated that there had been no State relief in 1836, but the Collector remarked there had been much more gratuitous relief than would be given now.

THE COLLECTOR stated that, calculating from the population of the distressed tracts, if everything continued to be unfavourable, he would not be surprised if the number of persons requiring relief amounted to 500,000.

HIS HONOUR remarked that Champaran was at present evidently in a much worse position than any of the other districts, and that the rainfall chart showed that the distress there would probably be worse than it had been in 1873-74. There was already a deficiency of 20 inches in the rainfall.

Relief Works—THE COLLECTOR mentioned that at a meeting of the District Board held on the 10th of November, which was attended by a number of planters who were not members, the planters and the British Raj agreed to open works at their own expense on the first appearance of distress in the localities in which they were interested, to pay the labourers at a wage that would not exceed what is allowed under the Fanme Code, and to communicate to the Collector the daily results and information as to the classification of labourers, the wages paid, and the amount of work done.

SIR WILLIAM HUDSON explained that the work would be done on the following system.—A rate would be fixed for earthwork, and payment would be made according to the *hasni* system so long as the total cost did not exceed that rate. If that occurred, the rate would be altered.

He had no difficulty in getting grain at present from the local mahajans. The chief works undertaken would be tanks, wells and irrigation channels. Of ordinary factory work, only a little weeding remained, which would be completed by the 1st of December. After that there would be no work at the factories until April.

THE COLLECTOR stated that the reports which he would receive from the planters regarding the test works started by them would enable him to judge in what localities regular relief works were required; and while the private works were still going on, he would be able to arrange for the staff necessary for the larger operations proposed.

Large Works—As regards these, the scheme of railway extension from Baragnia to Bagaha, across the north of the district, for which SIR WILLIAM HUDSON was prepared at once to provide funds through a private company, was considered.

THE COLLECTOR stated that the line was 85 miles long, and that he estimated the earthwork would cost $1\frac{1}{2}$ to 2 lakhs of rupees, and that the eastern portion of the line from Baragnia to Balhar would cross the drainage of the country, and the bridging would be very heavy. The other portion, however, would go through the most distressed tract.

MR. LEWIS proposed an alternative scheme for extending the present line from Bettiah to Bagaha via Champahia.

MR. IZAT stated that he hoped that eventually both lines would be constructed. The Collector said that he had already arranged to send drafts from relief works to the Segauli-Buxaul Railway now under construction.

MR. IZAT said that he could arrange to have the survey of the Baragnia-Bagaha line taken in hand at once, and that if Government could supply the surveyors, he would find the supervising staff.

HIS HONOUR remarked that the services of the students of the Sibpur College, or, as Mr. Boudillon suggested, of those of the Patna Survey School, might be utilized. He stated that Champaran seemed to be the worst tract, and some large works there was necessary.

MR. IZAT stated that if the Baragnia-Bagaha line were started, he would be able also to start the line from Gorakhpur to Bagaha, which the Government of the North-Western Provinces had already asked him to undertake as a relief work, but which he could not take in hand until the Tuhut section was continued to Bagaha.

HIS HONOUR pointed out that the Segauli-Buxaul extension would, when constructed, link the existing line with the proposed Baragnia-Bagaha line, and therefore he thought this scheme much the more natural, as it dovetailed with the scheme of relief for the North-Western Provinces.

He thought the earthwork on the western portion, which passes through the distressed tract, ought to be taken in hand as early as possible.

THE COLLECTOR stated that tank work would be the most beneficial form of minor relief work.

MR. LEWIS stated that in many of the newly settled villages in the north of the district there were no tanks at all, and that there was a general want of tanks throughout the area. In other parts there were many tanks which wanted re-excavating.

HIS HONOUR remarked that tank work could be extended indefinitely, and the tanks would form useful gathering-grounds for people who could afterwards be drafted to larger works.

THE COLLECTOR stated that the programme already provides work for 120,000 people for 90 days. Another large work was an inundation canal from Tribeni to the Haahar river,

near Bagaha. The District Engineer had already taken levels for this, but no definite plan had yet been drawn up.

HIS HONOUR stated that, if necessary, Colonel McArthur could come up and discuss this project with the local officers. He also suggested that the Bettiah Raj might construct this, as it was a duty for the benefit of their property.

THE COLLECTOR stated that, if the Raj were not prepared to meet the whole cost, the canal could be constructed under the Act, and a water-rate levied.

Another scheme is to connect the Ganak river with the Dhanauti. This would be in the main a drainage project.

THE DISTRICT ENGINEER (MR. SEAR) stated that, in his opinion, the fall was sufficient, and that it would largely benefit the head of the tract through which the Dhanauti flows, a large portion of which has remained depopulated since 1866, owing to the malarial character of the tract.

HIS HONOUR stated that these irrigation schemes were too big to pass an opinion upon off-hand, but that he would press forward the railway projects as much as possible.

Funds—THE COLLECTOR stated that the District Board balance was at present very low. The total road cess was only Rs. 85,000, and the Board would at once have to overdraw in anticipation of the realization of the January list.

THE COMMISSIONER informed him that orders had already been passed authorizing the District Board to overdraw to the extent of Rs. 25,000.

HIS HONOUR stated that he would place the sum of Rs. 1,00,000 at the Board's disposal whenever it was required. The Darbhanga District Board had made itself practically insolvent by taking a loan in 1892, which had hampered the work of the Board ever since, while there was now no probability of its being paid off. He would therefore prefer to grant money for relief work rather than that the District Board should take a loan.

Gratuitous Relief—With regard to gratuitous relief, HIS HONOUR stated that he wanted each district to inform him as to the sum that it would require. He observed that this should be administered as much as possible by private agency.

Stocks—MR. FINUCANE suggested that the zamindars might be urged to lay in stocks of grains for themselves.

HIS HONOUR thereupon stated that the new crop of rice shortly expected in Rangoon would be 1,400,000 tons, and that there were old stocks there besides.

MR. MACNAGHTEN said that on behalf of the Behar Indigo Planters' Association he had already ordered 1,60,000 maunds from Rangoon, which certain planters had ordered, to be used instead of money for their labourers' remuneration.

General—SIR WILLIAM HUDSON drew attention to the provisions of section 79 of the Famine Code, and asked what course should be adopted in the event of a failure of supply of grain at a relief centre.

HIS HONOUR explained that a grain contractor would be arranged for, and that he would be given advances to import grain, and that he hoped that the contingency contemplated would not arise.

THE COLLECTOR thereupon enquired what action he could take under section 80 of the Code in the event of prices being forced up at the relief works.

HIS HONOUR replied that as the grain would be supplied by a contractor working under advances, the District Officer would have full authority.

With reference to a remark from SIR WILLIAM HUDSON, HIS HONOUR requested Mr. Finucane to arrange for the supply of copies of the Famine Code to planters and other persons to whom they would be useful.

With regard to payments, THE COLLECTOR mentioned that he had already indented for a supply of copper coin, and that the planters at the District Board meeting had agreed that, if all relief works were paid for in Government currency, they would gladly adopt and continue the same system in paying their own labourers in the hope of driving Lohia pice out of circulation.

HIS HONOUR said that, if necessary, token money could be used.

MR. IZAT said he would like to have the question of the acquisition of land for railways discussed, as he anticipated that there would be great delay in receiving it. He did not expect to receive any within the next six months if the ordinary procedure were followed. His department merely sent in plans of the ground they were to acquire, and the Deputy Collector had to mark upon them the various plots of the raiyats. He would suggest that a Settlement Officer should be appointed to carry out this work speedily. MR. CARLILE agreed, stating that his Land Acquisition Deputy Collector had had no previous experience, and would be quite unable to cope with any large work.

MR. HARRIS stated that his Deputy Collector was quite capable of coping with the work, but that the line plans sent in by the Railway Company, and sanctioned by the Government of India, did not agree with the dog-bells on the ground, in some places showing land which was not in existence. If Mr. Izat would point out any piece of land, he would give it over to him in 15 days. He had pointed out the difficulty above mentioned to the Company, and they had asked him to follow the dog-bells on the ground. His difficulty was that he could not certify that he had made over to the Company the land, the acquisition of which had been sanctioned by the Government of India.

HIS HONOUR said that the Deputy Collector and the Engineer ought to work together, and, in consultation on the ground, get any mistakes of this kind rectified. The maps ought to be followed unless substantially incorrect, and no delay should be allowed to occur in giving over the lands.

SARAN

MR. EARLE, the Collector, produced a scarcity map of the district, and pointed out the worst tracts. These were mainly in the Kateya outpost in the north-west corner which was nearly all *chaur*, in part of the land west of the Jharahi river in the Darauli thana, and a tract through the centre of the Siwan thana. These tracts were mostly paddy lands and the crop had been about two annas there, while the *bhadai* had varied from five annas to eight annas. Along the south-west of the district, too, there was a bad tract, where there was a succession of *chaur*s, and the *dhan* had nearly all failed.

The *rai* crop throughout the district was germinating well and there was extensive irrigation going on, which would save a considerable portion of the crop in any event. If rain fell in December, the crop ought to be 12 annas.

He proposed to open one small test relief work shortly in the area west of the Jharahi, but no others until December.

Funds.—The District Board was well off for funds. It had Rs 70,000 in hand now, and could appropriate Rs 80,000 from next year's budget.

HIS HONOUR stated that he was not at present anxious about Saran. All that would have to be done at present was to meet all distresses that might arise with local funds and by local agency, but to watch carefully and report later if distress appeared likely to become acute, and extra help was wanted.

THE COLLECTOR remarked that the planters in the district were strongly of opinion that money spent on new roads and tanks in this district was wasted, as the district was very well off for roads, and the tanks so quickly silted up. Only one new road had been proposed, the others would be put in good repair. It was thought that money might be spent in extending the distributaries of the Saran canals. Water would nearly always be taken from these for the irrigation of rice, and it was thought that the old scheme had chiefly failed because it had not been carried far enough.

HIS HONOUR remarked that it was not at all probable that Government would sanction any extension of the Saran Canals which had been a complete failure. He had been searching for some time for some person to take a lease of them without success. It was an immature scheme which had been taken up under the wrong Act.

PATNA

MR. INGHAM, the Collector, stated that he anticipated little or no distress. He had had another inspection made of the tract formerly considered bad, and the rice crop there was now estimated to be from 8 to 10 annas.

In answer to an inquiry by HIS HONOUR, he remarked that the scheme started in the city of Patna for buying rice and selling it at cheap rates still continued.

HIS HONOUR said that he could not altogether approve of it on economic grounds, and that it must be merely regarded as a charitable work. The only thing which led him to expect any distress was the extremely high prices now prevalent.

GAYA

With regard to Gaya, HIS HONOUR stated that he was quite satisfied, as the Collector was, with the state of the district, that the District Board had Rs 1,20,000 in hand, and could easily deal with any distress that might arise.

SHAHABAD.

With regard to Shahabad, he understood that Bhabhua was the only bad tract.

MR. EIGHTON, the Collector, stated that he had just received a letter from the District Engineer who was inspecting the bad area, and that the report was distinctly reassuring. The numbers of men on the relief works had fallen to 296, and all the professional labourers had gone to earthwork in the railway. The District Board had Rs 64,000 in hand.

HIS HONOUR thought that all distress at present could be dealt with locally.

AGENCY CIRCLES

HIS HONOUR then proceeded to discuss the question of agency circles, etc., and MR. FINLAYSON produced a statement showing the names of the circles in 1873-74, of the persons in charge of them and other particulars.

HIS HONOUR remarked that the survey parties would be available for relief works after March, and that they had been transferred from North Darbhanga to South Darbhanga and Saran where distress was not imminent. He did not see any necessity for stopping settlement work at present.

MR. MACPHERSON asked if the work ought to continue in the tracts where distress had already shown itself.

MR. STEVENSON-MOORE explained that he proposed to exclude all such areas from his operations. No work would be undertaken in one camp in Champaran, and in another, work would be stopped about the end of December.

SIR WILLIAM HUDSON was strongly of opinion that attestation work ought not to go on while there was distress, as one could not expect a raiyat to assert his rights under such conditions.

MR. STEVENSON-MOORE stated that he hoped to finish all the work that he is now starting in Champaran and Muzaffarpur by the end of January before the distress had made itself severely felt.

MR. MACPHERSON said that he quite agreed with SIR WILLIAM HUDSON, and that no work ought at least to be started in the distressed tracts. But apart from that he wanted to utilize the settlement staff at once so as to make use of their intimate knowledge of the country.

MR. BELL stated that three settlement camps had been opened in the Parihar circle, and he wanted his Sub-Manager there to devote nearly all his time to famine work, and he could not do both works at once.

MR. LEWIS stated that he had to look after his interests in nine settlement camps.

HIS HONOUR stated that there were matters to be settled locally.

MR. STEVENSON-MOORE said he would arrange the work locally so as to meet the convenience of MR. BELL and MR. LEWIS.

MR. STEVENSON-MOORE pointed out that, if his work was stopped now, he could no doubt take up the work again at the point at which he left off, but that it would necessitate the work going on in each district for another year which would considerably add to the cost, as the fixed establishment could not be curtailed. He expected most of the work in Chhamparan would be finished by the 25th of January. He proposed to recover costs only from the factories by zamindars and the Bettiah Raj.

HIS HONOUR said that if the worst came to the worst, the work would have to be stopped, and that at present work in all the distressed tracts should be left to the end.

THE COMMISSIONER stated that the question of agency would depend very much upon the pay to be given and the class of men available. The chief need at present was for an adequate engineering staff. The division of the circles might start from the thana unit while distress was not acute, and then divide it into sub-circles as the work became heavier with the increase of the distress.

HIS HONOUR remarked that the great difficulty with regard to agency was that distress was so prevalent all over India that it would be almost impossible to indent upon other Provinces for officials.

THE COMMISSIONER remarked that in the planters they had a great European agency for the supervision of sub-circles.

MR. HARRIS thought that the work of a circle officer would be more than a planter would have time to undertake.

SIR WILLIAM HUDSON stated that in his opinion a Government official ought to be placed in charge of each thana or circle.

MR. CARLYLE stated that he thought a man on Rs. 200 or Rs. 300 per month ought to be employed for that purpose.

HIS HONOUR said that each Collector should draw up a scheme of circles on the lines of the scheme of work proposed, and the list of circles in 1873-74.

SIR WILLIAM HUDSON observed that in 1873-74 Government supplied the grain, and much of the time of the circle officer was taken up with supervising its receipt and distribution.

HIS HONOUR said that the circles now could be nearly twice as large as they were in 1873-74.

MR. FINUCANE observed, however, that no circle ought to be so large that an active circle officer could not reach any part of it from headquarters within a morning's ride.

HIS HONOUR agreed with this, and said that the best unit to work upon at present was the thana, and that the Collectors should draw up schemes of circles according to the views now put forward. Of course all existing work of the District Board should be stopped that it might be done later on by relief agency.

THE COMMISSIONER observed that the Subdivisional Officers ought to be left very free to move about their subdivisions, and that a 1st grade Deputy Magistrate ought to be sent to each head-quarters to carry on treasury and criminal work.

HIS HONOUR'S SUMMARY OF RESULTS OF DISCUSSION.

HIS HONOUR in summarizing the results of the discussion said that, as the Commissioner and the District Officers had told him that it was unnecessary and even undesirable for him to visit the distressed tracts at present, he would return to Calcutta, but was leaving behind him Mr. Finucane, who knew the districts thoroughly and had had much experience of former famines. Mr. Finucane would visit the various districts with the Commissioner, Mr. Bondillon, and they would discuss with the District Officers the relief works necessary, the rates of wages, the requirements of the various districts, and the size of the circles, &c. The results would be focused in a report which would be submitted to him and which he would carefully consider.

In considering the subject, it must be remembered that the distress is not confined to Bihar. To his mind the prices in Eastern Bengal at present were a cause for serious anxiety, and it was doubtful whether the stocks now in hand were sufficient. It might be necessary to give relief in places where distress had never been thought of before. Thus Khulna was one of the five districts which had not had to prepare any scheme of relief under the Famine Code, as it was considered absolutely safe. He had just heard from the Commissioner that relief must be started in one subdivision, that the price of rice in the bazars was from 6 to 7 annas per rupee, and that these were merely fancy prices, as the grain was not forthcoming in any quantities even at that price. If the state of things is so bad in Khulna with its abundant water ways and its proximity to Calcutta, it is very probable that the condition of things in more distant places may be equally bad.

The distress, too, was almost all over India, and the Imperial Government had to provide for famine in the North-Western Provinces, the Punjab, Central India, a large part of Bombay, and now parts of Madras. There would, therefore, be some difficulty in obtaining the necessary staff, but it must be remembered that, although they had a smaller stock, of officials to draw upon than they had had in 1873-74, yet the work to be done was much smaller. The Collectors must send up their minimum requirements, and he would sanction whatever he possibly could.

He was very glad to say that he was able to retain Mr. Bourdillon's services as Commissioner. If necessary, he would be willing to sanction an extra officer to aid Mr. Bourdillon specially with relief work. He already had an Additional Commissioner however, and he hoped he would try and manage without additional assistance at present. Everybody would have to work hard. He was glad to be able to say that the prospects of the Division as a whole were not quite so bad as he had anticipated. The three southern districts would be all right unless the winter rains should entirely fail. The condition of Champaran, as explained to-day, was worse than had been anticipated. But, if the railway project were sanctioned by Government, and he would do all in his power to press that forward, with the aid of the District Board things ought to go on fairly well. The District Boards had, first of all, to exhaust all the funds at their disposal before they applied to the Bengal Government for relief. He, in the same way, had to exhaust all his surplus, which amounted to Rs 41,00,000, before applying to the Imperial Government. He was ready to sacrifice all other schemes, and to devote this sum entirely to relief work. If it proved to be insufficient, he would have to ask for aid from the Imperial Exchequer, and even though it had many calls upon its funds at present, yet, with flourishing trade and a rising rupee, he had no doubt that it would be able to render assistance, if necessary, and would be willing to do so.

He was glad to say that the state of things in the North-Western Provinces and in the Punjab was, according to the latest reports, not so bad as it had been thought to be.

We do not yet know exactly where we are. Rain now or in December or January would materially improve prospects. If good rain falls in December, the *rahi* crop would help very effectively, much more than was anticipated. Without rain things would be very bad indeed. The Collectors should keep themselves fully informed as to the state of things in their districts.

He would wish Mr. Bourdillon to extend the system of obtaining information from all classes, especially from the Settlement Department, by post cards as to rainfall, prices, state of stocks and crops. He was going to put all the facts frankly and unreservedly before the public, so that the trade might know exactly what was required. He had every confidence that the trade would be able to supply all that was wanted.

Even in 1873-74 the 480,000 tons imported by Government were supplemented by 600,000 tons imported by private trade. If private trade could do this against such a powerful competitor as Government, he had every hope that now, with a fair field and every favour, it could do all that was required. He had no doubt the officials would carry on their duties with the same zeal and energy that they had already displayed.

He wished to thank the non-officials present very specially for coming to this Conference, and would ask them to give the officials, as they had already done, that advice which, from their daily intercourse with the people, they were particularly well fitted to supply. Any proposals which they might have to make would be carefully considered by the Collectors and the Commissioner.

NOTIFICATION.

No. 4875 Agri.—The 30th November 1896.—The following papers are published for general information.

M. FINUCANE,

Offg. Secy. to the Govt. of Bengal.

No. 625G., dated Bankipur, the 19th November 1896.

From—J. A. BOURDILLON, Esq., Officiating Commissioner of the Patna Division,
To—The Secretary to the Government of Bengal, General Department.

In accordance with the instructions in sections 13 and 24 of the Famine Code, I have the honour to forward herewith my report on the state of affairs in the Patna Division for the first-half of the month of November.

PART I.—INTRODUCTION.

2. This report is brief for three reasons. In the first place there is little change to record during the past fortnight. Secondly, as this is the first of the bi-monthly reports required by section 24 of the Famine Code, almost every district report is deficient in some particular. Thirdly, the last of these reports was only received at 3 P.M. this afternoon; and as it is essential that my report should reach the Lieutenant-Governor before the Conference to-morrow, I have had no time to go into great details, or do more than review the district reports.

3. In future I propose, with the Lieutenant-Governor's permission, to forward the district reports in original with a short commentary on each and such general observations as seem required. It is desirable that these periodical reports should be on record in print, and I shall thus be saved the not inconsiderable labour of reviewing and recasting them.

PART II.—DISTRICT REPORTS.

PATNA.

4. *Head (1)—Area affected, &c.*—No change is reported under this head except for the better. The Subdivisional Officer of Barh, who has seen more of his subdivision since he last wrote, has raised his estimate of the rice crop to 8 annas. No relief circles have yet been manned or finally formed, and none are necessary.

5. *Head (2)—General state of the affected tracts, &c.*—The crop prospects are a shade better. I have already noticed that the Subdivisional Officer of Barh has raised his estimate of the rice crop. The harvesting of the rice is said to have begun, but the date seems very early, irrigation is being vigorously carried on everywhere, and the *rabî* is coming up well. Locusts visited part of the Bihar subdivision, but the Subdivisional Officer by personal inspection found that the damage done was insignificant. The weather has turned much colder and for some days the west winds have ceased. The dews at night are heavy.

6. As regards food-stocks the Collector has not yet had time to obtain the information called for in the Government Circular of the 3rd November, but he has received repeated assurances from every quarter that the grain stored is sufficient. Cultivators have ceased selling, and exportation has been at a standstill for the last week or so.

7. Figures are not available for the imports and exports of the fortnight. The East Indian Railway authorities have supplied Mr. Inglis with figures for the month of October, but no figures at all have been received from the Bengal North-Western Railway or the India General Steam Company. Every effort will be made to gather all this information by the time the next report is sent in. The East Indian Railway officials have apparently also informed

Collector that figures for 1895 are not available. This seems difficult to stand, and I will look further into the matter. I have already informed underset Officers that if the difficulty of obtaining statistics is one of some District at liberty to meet the cost of compiling the required expense, they taking the East Indian Railway figures for October, the figures. However, the statistics are for food-grains only in maunds, and result is as follows. Between stations in the same district:—
take no account of traffic.

	For 1st—15th.	October 16th—31st.	Total.
Exports	50,833	1,41,665	3,22,548
Imports	0,665	33,635	64,300

Excess of exports over imports equal 2,58,248 maunds. The exports were chiefly maize and "other grains," and were consigned almost exclusively to the westward. Imports consist largely of rice, some of which is said to have come from Orissa.

8. There has been no rain anywhere though clouds have formed several days. The public health is good, as is the condition of the cattle; there are no signs of emaciation, no increase of crime, and no special emigration or immigration. The prospects of the poppy crop are excellent.

9. Prices are a little easier than they were a fortnight hence, as the accompanying statement will show. This is due, no doubt, partly to the cessation of exportation, partly, I hope, to a general belief that the rice crop is better than was expected, and partly to some of the new rice having come into the market. Prices in Barh are a shade higher than elsewhere, and the Collector reports that in Bihar, as well as in the more remote parts of the Sadar subdivision, the market is less sensitive than it is in places nearer the line of rail.

10. *Head (3)—Relief works.*—No municipality has opened any relief works, nor are there any such under Public Works agency. Out of the nine relief works mentioned in paragraph 12 of my last report the District Board have so far started three only, which are these:—

(a) Pahari to Fatehpur road (8 miles). This was due south from Patna City.

(b) Excavation of a tank at Moner, about 20 miles west of Bankipore.

(c) Raising the Mokameh-Surmera road. The last-named place is about 12 miles south-south-west from Mokameh.

11. The first of these works has been open for three weeks with the following daily average attendance.—

		4th week, October	1st week, November.	2nd week, November
Men	16	38	50
Women	11	28	44
Children	5	17	24
		—	—	—
		31	83	118
		—	—	—

All of these were professional diggers. At Moner work commenced on the 5th instant, and the average daily attendance for the past week has been—men 62, women 34, children 21—total 117. Many of these were small cultivators who were glad to earn something, as there was no work for them in their own fields. The third work was only opened on the 14th, and on that day only 15 persons came for work. Including them, the total number of persons employed on relief works in the Patna district on the 14th instant was 174, viz, men 86, women 63 and children 23. These figures show that there is no present demand for labour, and Mr. Inglis treating them as experimental only has not submitted Statements D and E. I have asked him to submit these statement from the beginning of operations with his next report.

12. Under heads (4) - *Poor-houses*, (5) - *Organisations for sedentary employment*, (6) - *Grain and money doles*, and (7) - *Kitchens*, there is nothing to report.

13. As regards head (3) - *Loans and Advances*, the Collector reports that there have been only one application under the Land Improvement Act and 56 under the Agriculturists' Loans Act, almost all of which have been filed at Bihar. It is not stated whether these figures are on account of the whole year or for the last few weeks only. In any case they compare curiously with similar statistics in other districts of the Division, and suggest great comparative prosperity. It is also stated that the rayats of Eastern Patna are reluctant to take Government advances as traditions linger among them of similar advances having been recovered with great severity in the adjoining district of Monghyr on some former occasion.

13½. No financial statement has been given under head 9. This will be rectified in next report.

GAYA.

14. *Head (1)—Area affected.*—There is no change in the area likely to be affected. Relief circles, though mapped out, have not yet been manned.

15. *Head (2)—General state of the affected tracts.*—Judging from what I have to say in paragraph 20 below, the people are still a long way from want. There is no demand for employment. Further examination shows that the rice crops are quite as good as they were reported to be in my last letter of the 11th instant. A full average area throughout the district has been sown with *rabi*, and over at least three-fourths of the area sown the grain is germinating well. The poppy promises to be an excellent crop.

16. Prices are a little easier, as will be seen from the statement in the appendix. As elsewhere the prices in the more distant subdivisions are more favourable than at Jahanabad and the Sadar. The reason alleged for the fall is that the new rice is beginning to come into the market, and Mr. Savage states that the harvest this year will be an early one.

17. As to food-stocks the Collector has been able to obtain little information, though he has instituted special enquiries as directed by the Government Circular of the 3rd instant. But, so far as his information goes, it tends to show that stocks have not been depleted.

18. In regard to imports and exports the statistics are not yet ready, as the East Indian Railway authorities have not had time to compile them. They will follow when received, but Mr. Savage reports that there is said to have been a large importation of rice into Gaya during the fortnight.

19. There has been no rain. The public health has not been affected by the scarcity, and the condition of the cattle is good. There is no distress or emaciation, nor any wandering of famished persons. The stream of coolies which passes down the Grand Trunk Road at this season appears to be in rather larger volume than usual this year. The destination of most of them is Purulia, and their ostensible object employment on the railway there.

20. *Head (3)—Relief Works.*—It has not been found necessary to open any such in Gaya. The usual road repairs all over the district afford employment to many coolies, and the breaking of ballast for the railways gives work to others. There is no demand for labour, and while the Collector found in the Jahanabad affected tract that no coolie would work on road repairs for less than three annas a day, a still more significant incident occurred in Aurangabad. The Subdivisional Officer, with the Collector's sanction, attempted to open a test-work in the affected tract, but not a single coolie would accept task work at the rates offered.

21. There is nothing to report under heads 4 to 7 of section 24 of the Code, both inclusive.

22. *Under head (8)—Loans and Advances,* the Collector reports that he has before him 86 applications under the Land Improvement Act for sums aggregating Rs. 1,36,360 in all. The allotment of his district up to date is Rs. 69,500, and he has already advanced Rs. 59,500, retaining Rs. 10,000 for expected small loans for kutchha wells. So far, however, applications for petty advances of this kind have reached a total of Rs. 250 only, and the Collector reports that they are not required since most of the cultivators who need them have already dug kutchha wells at their own expense. Mr. Savage now desires to expend on larger advances Rs. 9,000 out of the Rs. 10,000 reserve mentioned above, and to this I have no objection. He presses, moreover, for the further grant of another lakh of rupees to be advanced to zamindars and others for irrigation works for the improvement of their property. This request, I regret, I cannot recommend. It is admitted that Gaya is not urgently in want of relief works, and though the operations to be carried out through these loans would, no doubt, afford employment now and increase the productiveness of the district hereafter, yet they must, in my opinion, be postponed to the much more pressing needs of other districts.

23. Under the Agriculturists' Loans Act the number of applications has been 111, mostly for advances of seed potatoes or for money to buy them with. Under my instructions the Collectorate Nazir of Patna purchased and despatched to Gaya 459 maunds of seed potatoes which have been distributed as follows—Aurangabad 100 maunds, Jahanabad 50 maunds, Nawada 5 maunds, while 181 maunds have been advanced to raiyats in the Sadar subdivision, leaving 116 maunds in hand. The Collector has also advanced Rs. 711 in cash to meet the expenses of planting.

24. Statements I, II and III required by section 26 of the Code are blank. Statement IV (Price of food-grains) is appended, and Statement V will follow. The Collector has not forwarded the financial statement required by section 24 (9), probably because his expenditure has been very small.

SHAHABAD.

25. *Head (1)—Area affected, &c.*—There has been no change since my report of the 11th November was written. The Bhabua subdivision is still the only tract in which scarcity is declared and in which relief works are required. The Collector has made no estimate of the portion of the population to be affected: such an estimate has not yet become possible.

26. *Head (2)—General state of the affected tracts.*—There is no material change to report under this head. As I fully anticipated, a great deal of empty rice-land and all kinds of hollows and depressions usually filled with water at this season have been sown with *rabi*, and it is reported the seed is germinating fairly well everywhere. The first sowings failed in some places or were destroyed by insects, but a second sowing has been more successful. Irrigation is going on wherever water can be had. The river Durganti has been dammed at Pakarihar, a mile or two south of Mahania in the affected tract, and a good deal of land has been irrigated and sown.

27. No rain has fallen, but there have often been clouds and the west winds have ceased for the last week. There is nothing new to report about food-stocks, and I am sorry that the Collector has supplied no figures of imports and exports, as he has not yet received them from the Railway: they will be separately submitted at a later date. This point will be worked up without delay in accordance with the orders in Government Circular No. 7 T.R. of the 3rd instant. But it is stated that grain is now freely offered for sale, and the District Engineer reports a considerable movement of grain by road into Bhabua from Sasaram and Zamania. The large grain-dealers, whom Mr. Egerton has established near his relief works under sections 35 and 80 of the Famine Code, profess to be selling grain imported from Bengal.

28. Public health is good and there is no distress or emaciation. Large numbers of people are coming down the Grand Trunk Road from the North-Western Province looking for work on the Railway.

29. *Head (3)—Relief Works.*—These are the same, as already reported, viz., the raising and repairing of the following roads:—

A.—Bhabua to Jahanabad (Kukurah).

B.—Durgouti to Hata.

C.—Mahania to Panjram.

These are numbered 1, 3 and 4 in paragraph 37 of my previous report.

30. Famine Statement D in Form 5 is appended. It shows no C or D class labourers, but the numbers of the others are as follows.—

		Week ending 7th November.	Week ending 14th November	Total
A class	...	4,904	2,459	7,363
B class	...	4,400	1,623	6,023
Daily wages	..	1,362	2,278	3,640
		10,666	6,360	17,026

Three points in this statement strike the eye at once,—the falling off of A and B class labourers in the second week, the increase in the numbers of these on daily wages, and the large proportion of the latter. It is explained that the falling off of 2,415 in the A class labourers was caused by their migration to the railway work which was opened at 21 different places between Jahanabad and the Karamnassa, giving employment to more than 2,000 workmen per diem. The decrease of 2,777 in the B class labourers was caused by an order raising the task to be demanded from 100 to 150 cubic feet, upon the promulgation of which many B class labourers left the work. The District Engineer has gone to the spot and the matter will be put right. Some of these appear to have gone on to the daily wage gang, but not all. The figures for that class of relief workers are very high, amounting according to Statement E,

to 12·76 per cent. and 35·78 per cent. of the male units in either week. The Collector will be asked to explain why the ratio is so high when section 64 of the Code says that no relief workers shall be paid by daily wage irrespective of task except under very special circumstances.

31 Wages are now being calculated under section 104 of the Code. The Collector is anxious to base them on the price of common rice (8 seers), but I am disposed to think that gram (9½) or maize (10) should be the basis. The matter will be settled when we meet at Sonapur.

32. No gratuitous relief has been granted and no distribution through the Police has yet been reported under sections 12 and 166 of the Code.

33. There is nothing to report under the following heads—(4)—*Poor houses*, (5)—*Organisation for sedentary employments*, (6)—*Grain or money doles*; (7)—*Relief kitchens*, except that the Collector intends to call a meeting after the Sonapur Conference to invite private subscriptions for charitable relief.

34. Under head (8)—*Advances and Loans*, the Collector reports that he has advanced under the Agriculturists' Loans Act Rs. 9,154 on 784 applications, and under the Land Improvement Act Rs. 1,700. As many as 5,297 applications under the former Act are still pending enquiry. It is not stated whether these figures represent operations from the beginning of the year or from the development of scarcity; nor is it stated on what terms they were given. These omissions will be supplied in future. The *financial statement* required by heading 9 of section 24 of the Code has been omitted also.

SARAN.

35 *Head (1)—Area affected, &c.*—Since his previous report Mr. Earle has been making further enquiries in person in the worst parts of his district, and he now says that he expects no distress before the end of December anywhere save in the following tracts—(1) Mirganj thana, (2) Gopalganj thana (except the Maharani outpost in the south-east and the whole of the Gandak diarah land), (3) pargana Chambai in the Darouli thana. This modification reduces the area and population from 1,046 square miles and 860,670 persons to 609 square miles and 522,781 persons as detailed in the Collector's letter. Five per cent of this total gives 26,139 as the number of persons who will require help in the immediate future.

36. The Collector has not finally settled his relief circles, but his present desire is to divide the district into 135 circles, each with an area of about 19 square miles. This arrangement is based upon my plotting of the district for the census of 1891, but the subdivision seems to me to be far too minute for the present, and it will probably be modified.

37. *Head (2)—General state of the affected tracts.*—Regarding the districts as a whole the Collector repeats his estimate of 6 annas for the *bhadoi*, but he says that further enquiries have satisfied him that the rice crop instead of being 2 to 3 annas, as previously reported, will not be more than 1 anna. Such an outturn would be worse than that of 1873-74, and I trust that this forecast may prove to be too gloomy. I observe in this connection that whereas the Collector returns the Sadar subdivision and Siwan as having a 1-anna crop each and Gopalganj a crop equivalent to 2 annas, yet that comparatively fortunate subdivision is composed entirely of two out of the three specially affected areas noted above. On the other hand Mr. Earle reports that *rabi* prospects are unusually good considering the lack of moisture, and on present data he estimates that the *rabi* will be a 10-anna crop all over the district.

38. A statement of prices is given as required by section 26-IV of the Code. They show a slight tendency to fall, which is due partly to the approach of the harvest and also to the improved prospects of the *rabi*.

39. As to food-stocks complete and reliable information has not yet been collected, but here, as in other districts, it is reported that according to popular belief the existing stocks are sufficient for some months.

40. The importation of food-grains will be discussed fully at a later date when the Collector's information is more complete. Statements in Forms 8 and 9 of the Famine Code are appended. They show that during the past fortnight imports exceeded exports by 90,446 maunds, while during the previous

fortnight the excess was one of 58,984 maunds only. This at once suggests an explanation why prices have a tendency to become easier.

40½ There has been no rain during the fortnight and no wandering of famished folk. The public health is reported to be exceptionally good. The condition of the cattle is good also, except in part of Gopalganj where rinderpest has broken out on a small scale.

41. *Head (3)—Relief works.*—After further examination of the distressed areas in his district, Mr. Earle has decided that in pargana Chaubar of the Darouh thana, test relief works should be opened with effect from the 1st December, and that one or more small works should be opened in one or two places in the thanas of Muganj and Gopalganj. The Collector awaits some further information before he actually commences them, but he probably will do this before the end of the month.

42. Under heads 4 to 7 inclusive of section 24 of the Code there is nothing to report.

43. Under head (8)—*Loans and Advances*, Mr. Earle has been unable to give any figures as the returns from his Subdivisional Officers were incomplete. A full report is promised later on. So far about Rs. 20,000 have been spent up to date under the head of Agriculturists' advances. As there has been no expenditure, no financial statement is furnished under head 1.

44. It should be added that Mr. Earle has drawn up detailed instructions for all grades of officers under him, and he has taken steps to call a public meeting to organise some form of charitable relief. His proposals will, no doubt, be brought forward at the Conference at Sonapur.

CHAMPARAN.

45. *Head (1)—Area affected.*—Since the date of his last report Mr. Macpherson has found reason to believe that the small tract south of the Sikrana river is not so badly off as he at first thought, and he considers that it may be relegated to the second rank. Two other small tracts, however, are found to be in bad condition, viz, a small area near Araraj, 15 miles south-west of Motihari, and another in the extreme east of the Madhuban thana in the south-east corner of the district. Both tracts grow rice almost exclusively, and the crop has been practically a complete failure in each. A test work has been started in each tract. The area and population of these tracts have not been given.

46. *Head (2)—General state of the affected tracts.*—The prospects of the crops have in no way improved since there has been no rain. A good deal of the *rabi* area is still not sown as the raiyats are waiting on in hope of rain. In the land which has already been sown, the earlier sowings are said to have been much injured by the heat and the west winds; but the later sowings are better, this gives some hope for the area which yet remains to be sown. Every effort is being made, particularly through the officers of the Opium Department, to induce the people to make and use kutchra wells, but without much success in the south of the district where the soil is not clay. A good deal of work is available on the indigo lands of every factory.

47. Prices have risen both at Bettiah and Motihari in consequence, no doubt, of the exportation which has been carried on. Figures are given in the appended statement.

48. In regard to food-stocks the Collector has nothing to add to his previous remarks.

49. Statements in Forms 8 and 9 of the Code are appended hereto showing the imports and exports by rail during the first fortnight of November. It will be seen that during that period 19,618 maunds were exported, and these figures, added to those quoted in paragraph 64 of my previous report, give a total export of 69,294 maunds of grain which has left the district by rail alone since the 1st September, besides the road traffic and that down the Gandak. This is more than enough to account for the rise in the price of the grain left in the district. It will be noticed that only 878 maunds go out of the Division, viz, the consignments to Nawabganj in Gonda 650 maunds, Tahsil Deoria in Gorakhpur 228 maunds. The great majority of the despatches are made to stations in the Saran district.

50. The general health of the public is good; indeed, there is much less fever than usual owing perhaps to the dryness of the autumn. There is nothing

to notice under the heads of Emigration and Immigration of famished persons. The cattle are in remarkably good case, as they have been allowed to feed down the rice where its condition was hopeless.

51. *Head (3)—Relief works.*—Two test relief works have been opened during the fortnight under report, both in the Ramnagar tract, described in paragraph 61 of my last report. The first of these is the raising and improving of the road from Shikarpur to Biknathori and the other the excavation of a large tank near Ramnagar itself. The first work was opened on the 8th instant, and the average number of persons employed on each of the seven days under report was 816, ranging from 45 on the first to 1,213 on the fifth day. On the second work, which was opened only one day, the number was 283. It will be noticed that the relief workers are nearly all classed as B labourers, i.e., "labourers, but not professional," which is remarkable and will be enquired into. It seems at first sight hardly likely that, if out of the ordinary population so many are in want of relief, the professional earth-workers should be so well off as to be able to ignore our relief works. Turning to Form 7, Famine Statement E, it appears that the cost per 1,000 cubic feet is low, viz., Re. 1-7-4, and the wage earned by each male unit was only 1½ anna. The outturn of work, viz. 53 cubic feet, for each male unit was low, but it is explained that this is due to the work being just started. The remuneration appears to be very small, but this is a good fault, as it is much easier to raise a rate than to reduce it.

52. There is nothing to report at present under heads 4 to 7, inclusive of section 24 of the Code.

53. As regards head (8)—*Loans and Advances*, the number received is greatly in advance of what is usual at this time of year. The number of applications under the Land Improvement Act is 19, all at Bettiah; and under the Agriculturists' Loans Act the number is 61 at Motihari and 471 at Bettiah. It is not stated how many of these have been compiled with, nor how much has been expended, but it is reported that most of those filed at Bettiah are not for money to buy seed grain, as they purport to be, but really for loans for maintenance, and that they are mostly from people of the better castes.

54. Statement II required by section 28 of the Code is blank, and the financial statement required by section 24 has not been given doubtless because the expenditure so far has been so small.

MUZAFFARPUR.

55. Mr. Hare has supplemented his former report by a careful memorandum which gives details as far as they can now be ascertained.

56. As regards head (1)—*The area affected, &c.*, the Collector gives a description of the condition of each outpost in the district, which is too long to quote here. Briefly, the worst parts are the following —

(1) Sitamarhi subdivision.

The Sonbursa and Bela outposts in the extreme north-east of the Sitamarhi thana, each of which had only a 4-anna *bhadoi* and a 2-anna rice crop.

(2) Sadar subdivision.

(a) A broad strip along the north of the Sadar thana where the *bhadoi* was 4 annas and the rice only 2 annas.

(b) A tract to the south-west of the thana which was but little better.

(c) Katia thana, in which, though the *bhadoi* was about 8 annas, the estimate for the rice is only 1 anna.

(d) Paru thana, a tract to the north, the condition of which resembles that of the Sadar thana.

Relief will be wanted in a short time in the above areas marked 1, 2 (a) and 2 (c).

57. Mr. Hare professes himself quite unable so far to form any thing but the most speculative estimate of the number of persons to be relieved, and he hesitates to hazard any estimate till his information is more complete and he has gathered further experience.

58. *Head (2)—General state of the affected tracts, &c.*—The Collector says that so far from modifying, as I hoped he would, his estimate of 5 annas for the

bhadoi and 3 annas for the rice, he finds that detailed enquiries only serve to confirm those estimates. the situation is therefore very serious, as the *rabi* out-turn of the district is 30 per cent. of its total food crop, and the prospects this year are very bad. He says: "Present reports are distinctly unfavourable both as to area sown and the condition of the crop"

59. The movement of prices during the fortnight is exhibited for each subdivision in the statement which is appended. Except in Hajipur, there is a slight tendency for prices to rise.

60. On the amount of food stocks no further information is yet available. Enquiries are being made through village panchayats, and calculations are in hand on statistics supplied by the Settlement Department

61. As regards imports and exports Statements 8 and 9 are appended showing the Railway figures, and these have been examined at some length by Mr. Hare. Imports were heavy at Muzaffarpur, Bhagwanpur and Hajipur ghat, while the export trade was most brisk at the stations on the Baranua extension which tap the rice exports from Nepal. It is reported that though this has been prohibited by the Nepalese authorities, yet a good deal of grain crosses the border at night on coolies' heads and on pack-bullocks. I make no further examination of the figures, as they include traffic between different stations in the same district, which I cannot eliminate without further enquiry.

62. There has been no rainfall. there is no wandering of furnished persons. The public health is reported to be good. The condition of the cattle is good, but Mr. Hare notices what must now be a feature in every district—and is certainly the case in the Sonapur Fair now in progress—that there is great anxiety to sell cattle, so that the market is gorged and prices are very low.

63. *Head (3)—Relief works.*—The three works referred to in paragraph 75 of my last report to Government are ready for labourers. To the first and second of these works, viz., the Sheohar and Parihar roads, some labourers came but left again when they ascertained the rates that were offered which, says Mr. Hare, were "15 annas per 1,000 cubic feet." On the third work, which it is explained is on the Sursand and not on the Nanpur road, there are a few labourers. Figures are given in the statement in Form 5, but they appear to be only daily averages, and not totals. Moreover, it is not stated on what basis the rate of 15 annas was calculated: this will be ascertained before next report and the statements will be corrected. Always supposing that the rate offered was a fair one, these statistics show that relief works are not yet required, even in those parts of the district which in a preceding paragraph have been classed as the worst. Mr. Hare reports that one or two sporadic cases have occurred in the Sheohar and Pupri thanas in which gratuitous relief had to be given by the Police under section 12. These are the first instances reported. Further enquiries will be made from the Collector in the subject. The Sheohar Raja has agreed to look after such cases in his neighbourhood, while the Chaudhry of Nanpur will undertake those in the Pupri thana.

64. There is nothing to report under heads 4 to 7, inclusive of section 21.

65. As regards *head (8)—Loans and Advances*, Mr. Hare states that where as ordinarily at this time of year there are no applications for loans, he has already granted advances under the Agricultural Loans Act in 19 villages to 277 persons to an aggregate amount of Rs. 3,023. He has also 104 applications pending from about 600 persons. He justly observes that the time is now past for purchasing seed-grain, and points out that loans now asked for can only be wanted for subsistence. As Government are not prepared to embark upon that business, Mr. Hare is undoubtedly right in proposing to close his loan business till advances are required for next year's early rice and *bhadoi*, and I shall intimate my acquiescence.

66. No financial statement is appended as no money has been spent, and Statements II and III of section 26 are blank also.

DARBHANGA.

67. The Collector's preliminary report, as stated in my last letter, was admittedly incomplete, but Mr. Carlyle has now submitted a full report dealing with all the important subjects, some of them at considerable length. During the last six weeks Mr. Carlyle has travelled over every part of his district,

and has been able from personal inspection to form a very definite opinion on its general condition and on that of particular areas.

68. *Head (1)—Area affected.*—The Collector's estimate is that every part of the district will feel the scarcity acutely at some period of the next nine or ten months, except the Sonastipur subdivision which is practically safe if we have a fair *rabi* crop. He divides the whole district into four zones or grades. In the first, which measures 2,055 square miles, or nearly two-thirds of the district, with a population of 1,720,000, he anticipates that distress will be acute by the end of December. This area covers the whole of the centre and north of the district. In the second, which covers an area of 649 square miles and carries a population of 545,000 souls, distress is expected, which will not be acute till February or March. The tracts which go to make up the total are to be found in a belt along the south of the Sadar subdivision in two large patches to the east and in other scattered places. The third grade consists of tracts where there will be scarcity, but not distress. The area of this grade, which is a congregation of several small tracts, is 217 square miles and the population about 185,000. Lastly, there is an area of 414 square miles with a population of 365,000 which lies on the south of the Sonastipur subdivision and is said to be quite safe. It is not quite clear that relief operations in Darbhanga must be both widespread and prolonged.

69. No relief centres have finally been settled, but the Collector has tentatively mapped out the district into nine large areas corresponding generally with the thangs in the affected parts of the district. As work increases each circle can easily be split up into smaller units. No officers have yet been put in charge, but all whom the Collector can spare have been deputed to Madhubani to assist the Subdivisional Officer.

70. *Head 2)—General state of the affected tracts, &c.*—Mr Carlyle abides by his original estimate of 8 annas for the *bhajori* and 5 annas for the rice, but he remarks that as rain still holds off, the condition of the crops in the ground is deteriorating.

71. No statement of prices is given, but I learn from Mr. Carlyle that there is no great change anywhere. This omission will be corrected in future reports.

72. As regards food-stocks the Collector's local enquiries are not complete, but in the meanwhile he has been at great pains to calculate the food-supply of the district as well as the relation of the present estimated crops to the normal output and to the demands of the people. The calculations are much too long to repeat here, and they will be examined later, together with those for other districts, in a separate memorandum called for in Government Circular of the 31st instant.

73. The imports and exports of the districts are exhibited in the required statements appended hereto. The totals are—exports 51,858 maunds and the imports 31,231 maunds, giving an excess of exports amounting to 23,627 maunds, but in both cases they are somewhat vitiated by the failure to eliminate stations in the same district.

74. There has been no rain; the public health and the condition of the cattle are good, and there has been no emigration or immigration of famished persons.

75. *Head (3)—Relief works.*—No relief works are open. One test work was opened at Phulpur, as reported in paragraph 87 of my last report, but it was soon closed again when Rs. 339-9-3 had been spent. It appears that the Famine Code system was not understood by the officer in charge. The arrangements were incomplete and extremely small tasks were set. When under the Collector's orders proper tasks were set, the relief workers left the work at once. Though the Collector does not say so, there can be no doubt that relief works must soon be commenced in almost every part of the district.

76. Under heads 4 to 8 of section 24 there is nothing to report, as in this district, for reasons stated in my last report, no advances have been given. A financial statement is appended showing the solitary payment noted above.

PART III.—CONCLUSION.

77. No great change has occurred during the past fortnight. No rain has fallen anywhere, but during the last few days there has been a fall in the

temperature and a cessation of dry winds, both of which points are in favour of the crops. Incessant irrigation is doing much for the *rab* wherever this is possible. In the South Gangetic districts the harvesting of the rice has commenced, and this is believed to have had the effect of making prices easier—an effect which is produced elsewhere by the cessation of exportation. Prices which were till lately comparatively low in Champaran have risen.

78 In Patna and Gaya the outlook is better and the Collectors are more confident. On the other hand in Darbhanga and Muzaffarpur the fuller reports which have now been received unfortunately show that the earlier estimates were not unduly gloomy. These two districts are now certainly the worst in the Division, and widespread relief will be required in both as soon as field work generally ceases. Darbhanga will want pecuniary assistance at a very early date which will be separately applied for.

79 Relief works are really in operation only in the Shahabad and Champaran districts those in Patna, Muzaffarpur and Darbhanga are nothing more than test works. The railway attracts a considerable amount of labour in Shahabad, but in Gaya there is no demand for employment.

80. No distress, emaciation or destitution is reported from any district except one or two cases in Muzaffarpur which will be further enquired into.

81. In these circumstances, it appears likely that the current fortnight, which will terminate with the month of November, should be devoted (a) to completing and perfecting everywhere our information as to grain-stocks, imports and exports and the food demand of each district; (b) to developing relief works in Champaran, Muzaffarpur and Darbhanga; (c) to prosecuting enquiries as to the state of the non agricultural class and organising means for their relief when required.

FORM 7.

[See Section 26 (iii) of the Code]

FAMINE STATEMENT E.

DISTRICT PATNA.

Abstract statement of relief works and gratuitous relief for the half-month ending 15th November 1896.

R W. CARLYLE,
Chairman

No. 4866Agri, dated Calcutta, the 28th November 1896.

From—E. M. KONGIAM, Esq, Under-Secy to the Govt. of Bengal, Revenue Dept,
To—The Commissioner of the Patna Division

I AM directed to acknowledge the receipt of your letter No. 625G., dated 19th November 1896, being the first of the fortnightly reports required by section 24 of the Famine Code, and relating to the state of the Patna Division in the first half of the month of November, and to communicate the following orders and observations of the Lieutenant-Governor.

2. The Lieutenant-Governor approves the proposal contained in paragraph 3 of your letter that you should in future submit the district reports in original with brief commentaries on each and such general observations as may be required

3. As regards the proposal of the Collector of Gaya (mentioned in paragraph 22 of your letter) for the grant of advances amounting to a lakh of rupees for works of improvement in that district, I am directed to inform you that His Honour sees no objection to the grant of such advances upon adequate security provided that the money is available. If the advances are made, it will be the duty of the Collector to see that the money is spent upon works of improvement alone, and especially upon irrigation works. I am to say that the Board of Revenue will be consulted on the question of funds, and the matter will also, if necessary, be referred to the Government of India. A further communication will be addressed to you in due course.

4. In paragraph 31 of your letter you raise the question whether the price of rice, gram, or maize should be the basis upon which wages under section 104 of the Famine Code should be calculated. I am directed to say that the wages should be calculated upon the price of the grain which is actually consumed by the labouring classes. The amount of wages to be given in each district was to some extent considered at the conference which His Honour recently held with yourself and local officers and private gentlemen at Sonapore, and will now be considered in greater detail by yourself and the Secretary to this Government in the Revenue Department and the District Officers.

5. The questions of the area of circles and of the strength of establishment required will also be further considered by yourself and the officers mentioned. There is, however, no doubt that the circles with an average area of 19 square miles, proposed for the district of Saran and described in paragraph 86 of your letter are too small

6. The amount of the task which should be exacted from able-bodied labourers so as to entitle them to full wages will also be separately considered.

STATISTICS OF THE SEA BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

The following memorandum and statements are published for general information

STATISTICAL DEPARTMENT,
The 30th November 1896

M. FINUCANE,
Offg Secy. to the Govt of Bengal.

Memorandum

The total food-grain traffic of Calcutta by sea during the two weeks ending 7th and 14th November 1896, as compared with the corresponding periods in 1895, is shown below.—

		Imports.		
		From Foreign ports	From Indian ports	Total.
		Cwts	Cwts	Cwts.
Week ending 7th Novem- ber	1895	5	31,013	31,018
	1896		45,879	45,879
Week ending 14th Novem- ber	1895		10,444	10,444
	1896		85,054	85,054
Total for the fortnight	1895	5	41,457	41,462
	1896		130,933	130,933

		Exports.		
		To Foreign ports	To Indian ports	Total.
		Cwts	Cwts.	Cwts
Week ending 7th Novem- ber	1895	153,913	61,379	205,292
	1896	103,062	28,610	131,672
Week ending 14th Novem- ber	1895	69,429	22,484	91,913
	1896	62,508	7,349	69,857
Total for the fortnight	1895	223,342	73,863	297,205
	1896	166,570	35,959	201,529

Imports—The total importation by sea of each kind of food-grains into Calcutta during the first 14 days of November 1896, as compared with the figures for the corresponding period of last year, is shown below.—

		1st to 14th November	
Food-grains		1895	1896
		Cwts	Cwts
Rice	...	29,483	60,454
Paddy	..	5,167	10,190
Wheat	.	362	16,713
Gram and pulses	.	6,447	39,589
Other food-grains, such as jowar, barley, oats, etc	...		3,987
Total	..	41,462	130,933

The increase in the total traffic amounted to 215.79 per cent. In the case of rice, the largest increase, viz. 60.71 per cent is shown against Chandbali, which supplied 10,403 cwts against 25,140 cwts in the corresponding period of last year. Among other supplying marts Burma is credited with 14,981 cwts against nil last year. As regards paddy, the imports of which doubled during the period under review, the chief source of supply was again Chandbali, which contributed 8,040 cwts against 3,084 cwts. in the previous year. Imports from Balasore, however, showed a falling off, namely, 1,405 cwts against 2,083 cwts. As regards wheat, the entire supply was practically drawn from Bombay. The bulk of the consignments of gram and pulses was shipped from Madras, viz. 30,491 cwts. against 378 cwts. From Chandbali, the imports of these stuffs aggregated 8,318 cwts. against 5,967 cwts. Miscellaneous food-grains were imported chiefly from Bombay.

Exports—The following statement compares the total quantities of each kind of food-grains exported from Calcutta by sea during the first 14 days of November 1895 and 1896

		1st to 14th November	
Food-grains		1895	1896
		Cwts	Cwts
Rice	...	223,124	167,245
Paddy	.	841	22
Wheat	...	2,846	1,282
Gram and pulses	...	66,050	29,613
Other food-grains, such as jowar, barley, oats, etc	..	4,044	3,367
Total	..	297,905	201,529

There was a heavy decrease of 20·67 per cent under rice, the falling off being most conspicuous in the shipments for Ceylon (55,48½ cwts) and the United Kingdom (15,264 cwts). On the other hand, Réunion drew 21,414 cwts against nil in the previous year. As regards gram and pulses, the quantities sent to the United Kingdom aggregated only 626 cwts against 26,799 cwts in the preceding year, while the consignments to Madras declined from 16,112 cwts to 2,419 cwts, and those to Mauritius from 14,913 cwts. to 6,806 cwts. Detailed statements showing the sources of supply and the places of destination both as regards Foreign and Indian ports are given below—

Statement No. I showing the Imports of Food-grains into Calcutta from Foreign and Indian Ports during the week ending the 7th November 1895 and 1896.

**STATISTICS OF THE SEA-BORNE TRAFFIC OF THE MINOR PORTS IN BENGAL
IN FOOD-GRAINS**

The following memorandum and statements are published for general information.

STATISTICAL DEPARTMENT,
The 30th November 1896.

M FINUCANE,
Offg Secy to the Govt. of Bengal.

MEMORANDUM

THE minor ports in Bengal are Chittagong, Narayanganj, Balasore (including both Balasore and Chandbuli), Cuttack, and Puri. The total food-grain traffic of these ports for the 10 months from January to October 1896 is compared below with the figures for the corresponding period of 1895 —

IMPORTS

Ports		From Foreign ports		From Indian ports	Total
		Cwts		Cwts	Cwts

	{ 1896				2,235,996	3,065,485

Chittagong —The improvement in the import trade is due to increased transactions with Burma, which supplied 16,305 cwts of paddy, 5,675 cwts of rice and 2,377 cwts. of gram and pulses in excess of the totals of the previous year. The decline in the export trade was very marked, viz, 636,558 cwts, or 78·30 per cent. The traffic consisted chiefly of rice and paddy, the decline in the former being 312,008 cwts and in the latter 324,499 cwts. In 1895, Mauritius and Ceylon jointly received 127,167 cwts of rice, but in 1896 nothing was shipped to those places, the consignments to Trinidad also fell off from

120,321 cwts. to only 28,060 cwts ; among Indian ports, the exports to Bombay showed a decrease of 61,301 cwts of rice, and to Madras of 324,111 cwts. of paddy and 21,813 cwts. of rice, while the exports of rice to Calcutta were merely 6 cwts. against 12,834 cwts. in the corresponding period last year

Narayanganj —The import trade of this port is confined to rice and paddy, while rice and gram and pulses form the articles of export. During the first 10 months of 1896, 8,630 cwts of rice were drawn from Chittagong and Chandbali and 6,051 cwts of paddy from Akjeb and Chittagong. In 1895, there were no such imports. As regards exports, only 330 cwts. of rice were shipped for Chittagong as against 4,009 cwts. in the preceding year, but in the case of gram and pulses the figures showed an advance of 4,015 cwts.

Balasore ports —The imports into the Balasore ports were from Calcutta alone, and the figures showed a decrease under all heads, specially gram and pulses, which diminished by 13,054 cwts. In the export trade, the advance under rice was 539,526 cwts., or 63.90 per cent, and under paddy 460,911 cwts, or 1,230.99 per cent, but under gram and pulses transactions were stationary. There was very little change in the quantities of rice sent to Mauritius and Maldives, Bombay received 14,296 cwts of rice against nil in 1895 ; the Madras ports received 158,064 cwts. of rice against 128,314 cwts, while in the case of Calcutta the increase under rice was 481,764 cwts and under paddy 456,321 cwts.

Outlook.—There was only a trifling quantity of gram and pulses imported. Concerning exports, the largest quantities of rice are sent to Mauritius and Ceylon. The former, however, received 18,860 cwts. less than in the previous year and the latter 52,656 cwts in excess of the totals of 1895. Among Indian ports, Madras is credited with an advance of 110,890 cwts of rice and 7,979 cwts. of gram and pulses.

Puri —There was no importation of food-grains into this port during the periods under review, while the exports were confined to rice alone, which for the most part is shipped for Mauritius and Ceylon. The former received only 40,968 cwts in 1896 against 88,266 cwts in the preceding year, while the latter drew 89,289 cwts more than in the previous year.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below —

Statement No. 1 showing the quantities of food-grains imported into Chittagong from both Foreign and Indian ports during each of the 10 months from January to October 1895 and 1896.

M. FINUCANE,
Offg. Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 30th November 1896.

RESOLUTION ON LAND REVENUE ADMINISTRATION OF BENGAL FOR 1895-96.

REVENUE DEPARTMENT—LAND REVENUE

Calcutta, the 28th November 1896.

RESOLUTION—No 4886.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Lower Provinces for the year 1895-96.

The report was due to Government on 15th August 1896, and was submitted on 21st September, the delay being due to non-receipt of Commissioners' reports and returns, which could not be prepared in time owing to the introduction of the new Tauzi Rules.

COLLECTION OF THE LAND REVENUE.

2. *Financial results*—The current demand on account of the land revenue in Bengal for the past five years is shown in the following table:—

Class of estates	1891-92	1892-93	1893-94	1894-95	1895-96
1	2	3	4	5	6
I - Permanently settled estates	Rs 3,22,47,961	Rs 3,22,63,704	Rs 3,24,65,896	Rs 3,24,61,833	Rs 3,33,83,585
II - Temporarily settled estates	26,76,086	27,10,013	28,10,711	28,21,529	28,35,036
III - Estates held direct by Government	32,38,128	33,97,637	34,08,777	34,84,368	35,46,890
Total	3,81,62,175	3,83,72,333	3,86,85,384	3,87,67,731	3,98,65,511

The current demand is higher than that in the preceding year by Rs. 75,610, the increase being in all three classes of estates, but mainly in class III, owing chiefly to the resettlement of Government estates in Backergunge and Faridpur, and to the resettlement of Chittagong.

3. The demands, collections, remissions, and balances for the same five years are exhibited in the following statement.—

Year	DEMAND			COLLECTIONS			Remissions	BALANCES			Percentage of total collections to total demand (column 7 on column 4)	Percentage of total collections to current demand (column 7 on column 2)	Percentage of current collections on current demand (column 8 on column 3).
	Current	Arrear	Total	Current	Arrear	Total		Current	Arrear	Total			
1*	2	3	4	5	6	7	8	9	10	11	12	13	14
	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs			
1891-92	3,81,62,175	17,09,912	3,98,72,087	3,69,87,833	13,52,750	3,83,40,583	59,166	11,67,045	3,14,473	14,81,518	96.15	100.46	96.98
1892-93	3,83,72,333	18,04,778	3,98,77,110	3,70,41,735	11,44,319	3,81,86,054	66,666	14,35,767	2,88,733	16,23,500	95.71	99.40	96.44
1893-94	3,84,85,384	16,11,688	4,00,97,072	3,72,04,505	12,30,748	3,84,35,253	1,21,405	12,16,118	2,67,258	15,38,576	95.87	99.89	96.68
1894-95	3,85,67,731	15,08,978	4,01,36,709	3,72,10,347	12,09,078	3,84,09,325	80,741	13,37,402	2,10,418	15,37,880	95.95	99.54	96.46
1895-96	3,98,65,511	12,72,463	4,09,15,974	3,75,73,610	9,60,676	3,85,73,192	87,220	10,44,862	2,10,680	12,55,542	96.63	99.81	97.23

4. *Collections, balances, and remissions.*—The current demand, as noticed above, was Rs. 75,610 more than that of the previous year, the current collections were Rs. 3,63,369 higher, and the percentage of current collections on current demand increased from 96.48 in 1894-95 to 97.23 in the year under report, which is the highest percentage attained in any year of the quinquennial period or in any previous year. The results, taken as a whole, are satisfactory and creditable to the Board and Revenue officers generally. The arrear collections amounted only to Rs. 9,99,576, or 78.55 per cent. on the demand (Rs. 12,72,463), as against 82.95 per cent. in the previous year. I

will be seen from the statement given above that while the current balances have decreased by Rs. 2,82,570, the arrear balances show a slight increase of Rs. 202 only. The remissions were Rs. 87,220, out of which Rs. 82,856 were granted in estates held direct by Government. Remissions of grace amounted to Rs. 42,246, and were chiefly allowed in the districts of the 24-Parganas and Midnapore to the tenants of Government estates on account of loss of crops, relinquishment of lands by lessees and purchase by Government of the raiyats' jotes. Remissions of right amounted to Rs. 25,139, and nominal remissions to Rs. 19,835, the recovery of which was in suspense.

5. *Permanently-settled estates.*—The total demand, current and arrear, from estates in class I was Rs. 3,26,35,827, of which Rs. 3,22,27,968 were collected. The percentage of the collections on the demand, after excluding from the demand sums the recovery of which was in suspense, and adding to the collections sums realised but not credited during the year, was 98.91 as against 98.32 in the preceding year. The current collections fell short of the standard of 99 per cent. in fourteen districts, of which, however, seven collected over 98 per cent. It is satisfactory to observe that Patna, which collected only 89.16 per cent. in 1893-94, and was even less successful in 1894-95, when the ratio of collection was 88.27, showed very good results during the year under review, the percentage of current collections being 99.06. The current collections in Shahabad also were 96.09 per cent. of the current demand against 86.76 in the previous year. In Palamau the balance was only Rs. 632, out of which Rs. 627 had been collected but not credited within the year. In Darjeeling Rs. 474 had, as usual, been remitted, and no balance remains. In Muzaffarpur Rs. 3,614 out of a total balance of Rs. 22,869 have been realised since the close of the year, while the sale of estates, with arrears of Rs. 2,149, has been postponed on account of errors in the advertisements, the estates having been re-advertised for sale, and Rs. 775 will be recovered from the sale-proceeds of estates already sold. The bulk of the balance relates to the demand for the March kist. The balance in Purnea was Rs. 28,439, out of which Rs. 300 have been realised since the close of the year, and Rs. 27,350 are due from one estate, and will be recovered under the sale law.

Thirteen districts show less than 99 per cent. realised on the arrear balances, but of these, Jessore, Darbhanga, and Midnapore collected over 98 per cent. The arrears in Mymensingh, Purnea, Gaya, and 24-Parganas are very small, and do not require any particular notice, but those in Muzaffarpur, Patna, Saran, Shahabad, Champaran, and Backergunge are large, and require the close attention of the District Officers concerned. The total amount due from Wards' estates at the close of the year was Rs. 12,243 as against Rs. 7,579 in the previous year. The largest amounts were due from estates in Khulna, Midnapore, Champaran, Rangpur, and Shahabad. Rupees 4,337 outstanding in Khulna have been realised since the close of the year. The amount was due from the Sathkira estate, and could not be paid in time on account of the late arrival of remittances from the interior. Rupees 2,135 are shown against Midnapore as due from the Baruthoi Hingly estate, which could not pay the amount for want of funds. Rs. 1,000, however, have been since realised. In Champaran Rs. 1,614, payable in two instalments in 1896-97, are due from the Sheohar estate. The amounts due in Rangpur have been realised since the close of the year. Rupees 1,188 shown against Shahabad are reported to be due from the Mahula Ward's Estate, the Manager of which, it is said, has been asked to pay up the amount. The Lieutenant-Governor desires to repeat what has been frequently said by his predecessors that there can seldom be adequate excuse for failure on the part of managers of Wards' estates to pay the Government revenue on or before due dates.

6. *Temporarily-settled estates.*—Class II, temporarily-settled estates, consists of (a) estates settled for certain periods with proprietors, (b) private estates leased to farmers for certain periods, and (c) Government estates leased to farmers for certain periods. The total demand, current and arrear, from estates in class II was Rs. 31,11,110 as against Rs. 30,58,726, and the total collections Rs. 29,03,555 as against Rs. 27,85,316 of the preceding year, the percentage of the total collections on the total demand being 93.32 as against 91.06 in 1894-95.

The following table shows the results of collections in each subdivision of this class of estates for the two years 1894-95 and 1895-96:—

CLASSIFICATION OF ESTATES.	Year	Percentage of current collections on current demand.	Percentage of arrear collections on arrear demand.	Percentage of total collections on total demand.
1	2	3	4	5
(a) Settled with proprietors ..	1894-95 ...	95 39	95 31	93 49
	1895-96 ..	97 51	94 46	97 31
(b) Private estates leased to farmers	1894-95 ..	76 72	94 26	79 98
	1895-96 ..	78 94	76 62	78 45
(c) Government estates leased to farmers.	1894-95 ..	85 59	77 90	84 41
	1895-96 ..	83 51	71 56	81 75
Total	1894-95 ...	91 31	88 02	91 06
	1895-96 ..	94 15	84 85	93 32

During the year under report there was an improvement in collections in temporarily-settled estates settled with proprietors, but the comparative figures in the statement regarding private and Government estates leased to farmers show poorer results in every case except in the case of current collections of private estates so leased. The current collections reached or exceeded the prescribed standard of 95 per cent. in all classes of temporarily-settled estates in seventeen districts, but in the rest there was a failure to collect up to the prescribed standard under one or more of the three heads, the collections in Government and private estates leased to farmers being in several districts specially bad. There is no reason why the demand should not be realised in full from lessees of estates of these classes, and the Board's particular attention is again invited to this matter. The farming system has many drawbacks, but in its favour it is sometimes urged that it facilitates the realisation of the revenue. If it fails to do this, it ceases to have any merits whatever.

7. *Estates held direct.*—Class III, estates held direct by Government, includes (1) estates owned by Government as proprietor, and (2) estates managed by Government for the proprietors. During the year 1895-96 there were altogether 2,833 estates held direct by Government, of which 2,587 were Government estates and 246 were private estates managed by Government. The current demand has increased from Rs. 34,84,498 to Rs. 35,25,890, and the total demand from Rs. 41,17,668 to Rs. 41,68,987, out of which Rs. 34,41,669, or 82 55 per cent, were collected, and Rs. 82,8 6 remitted, leaving an unrealised balance of Rs. 6,44,462. As there was a higher demand, the collections too were higher, but the balances have increased, on the whole, by Rs. 17,144. The percentage of current collections on the current demand was 85 01 against 85 74 in 1894-95 and 87 63 in 1893-94.

The following statement compares the percentage of actual collections with those of the previous year in each subdivision of this class —

Sub class	Year	Percentage of current collections on current demand	Percentage of arrear collections on arrear demand	Percentage of total collections on total demand
1	2	3	4	5
(a) Managed for proprietors	1894-95 ..	67 14	56 71	63 78
	1895-96 ..	67 28	66 62	67 07
(b) Owned by Government	1894-95 ..	89 11	73 31	87 32
	1895-96 ..	88 29	70 87	86 35
Total	1894-95 ...	85 74	66 66	82 81
	1895-96 ..	85 01	69 09	82 55

These figures show an improvement in both current and arrear collections in estates managed for proprietors, and a falling off in both current and arrear collections in Government estates. The standard of 90 per cent. for current collections under both heads was reached or exceeded in 13 districts against 21 in 1894-95, and in 9 districts against 12 in the previous year the standard was reached under one or other of the two heads, but not under both. In Midnapore the balances, both current and arrear, were, as usual, heavy, and are noted below—

					Rs.
Current balances	..	{ Sub-class (a)	1,19,538
		.. (b)	7,970
Arrear balances	..	{ " (a)	59,950
		.. (b)	8,297

The percentage of current collections on the current demand in Midnapore was 49·11 only in the case of estates managed for proprietors, and 71·13 in the case of Government estates, the percentages of arrear collections being 64·22 and 41·16, respectively. The Board remark—

"The Collector carefully watched the collections. Regarding the balances, he says that with an estate like Majnamutha, which bears an annual demand of over Rs 2,23,000, and which in years of ordinary rainfall is subject to inundation, it is hopeless to expect to reach the prescribed standard of 90 per cent. Moreover, the tenantry are extremely prone to litigation."

As the year under report, however, was one of deficient rainfall, the explanation given above cannot be regarded as altogether sufficient. The fact is that the raiyats of Midnapore have been allowed to get out of hand and the management has been inefficient, but the Lieutenant-Governor relies on the present Collector (Mr. Bright) to restore order and method in place of the confusion that has hitherto existed. If floods and excessive rain are the sole cause of the short collections, the present year ought to be a particularly favourable one in that part of the country. In 24-Parganas, Nadia, Murshidabad, Khulna, Pabna, Patna, Gaya, Shahabad, Monghyr, Purnea, and Balasore, the current collections from the estates held direct and owned by Government were between 55·50 and 81·31 per cent. of the current demand, while in Muzaffarpur they fell so low as 2·24 per cent. The large balances in the 24-Parganas and Murshidabad could not be realised owing to the impoverished condition of the raiyats due to a failure of the crops.

8 *Sale of Government lands.*—The orders of this Government on the subject of the sale of petty Government estates were carried out as far as practicable. Out of 941 estates which it was in 1894-95 decided to sell, 451 were actually sold during the year in addition to 29 disposed of in 1894-95, with an area of 13,586 acres and an annual revenue of Rs. 18,290. The price realised was Rs. 91,810, equivalent to about five times the annual revenue. As these estates were sold at a revenue fixed in perpetuity equal to the existing rental, the results are not unsatisfactory and show that the rental is moderate.

9. *Particulars of estates held direct.*—As stated above, there were 2,833 estates held direct by Government, of which 2,587 (against 2,109 in the previous year) were Government estates, and 246 private estates managed by Government. The subjoined statement shows the number of these estates by divisions, the demands, cost of management, and total collections during the year:—

DIVISION	GOVERNMENT ESTATES		PRIVATE ESTATES		TOTAL		Cost of management	Percentage of cost on current demand	Current collections	Percentage of current collections on current demand
	Number	Current demand	Number	Current demand	Number	Current demand				
1	2	3	4	5	6	7	8	9	10	11
		Rs.		Rs.		Rs.	Rs.		Rs.	
Burdwan	18	5,162	5	2,34,944	23	2,40,106	2,554	8 06	1,58,129	54 13
Presidency	210	3 82 100	41	12 362	257	3 45 088	17,113	4 95	2,74,780	79 02
Ray Bahi	1	5 10 164	34	13 665	35	5 49 864	34,970	7 08	4,38,535	58 84
Bacca	6	4,100	107	1,30,005	113	5 40 124	27,228	4 64	5,28,855	90 10
Cuttack	11	6 19 161	7	16 192	18	4 36 493	64,706	10 18	8,70,376	89 75
Patna	21	2 22 807	21	30 800	42	2 59 728	28 001	11 12	1,90,704	73 42
Bhugulpur	14	2 78 876	5	15 775	19	2 80 301	9,513	3 28	2,61 840	87 02
Orissa	709	1 01 101	5	21,711	714	4,74,002	20,977	4 31	4,44 465	93 58
Chota Nagpur	175	75 501	1	17,720	176	93,230	3,700	2 91	80,807	86 42
Total	2,687	29 74,391	246	5 31 499	2,933	35,25,890	2,33,068	6 62	29,97,361	85 01
In 1894-95	2,109	20,40,530	244	5 14 065	2,353	34,84,408	2,20,836	6 78	20,87,782	86 74

The establishment entertained in each district for the management of estates held direct by Government and its cost are shown fully in Appendix VI of the Board's report. In eight districts, namely, Darjeeling, Bogra, Tippera, Noakhali, Gaya, Muzaffarpur, Darbhanga, and Purnea, against seven in the previous year, the cost of management exceeded 10 per cent on the current demand. The Lieutenant-Governor is aware that the establishments are always carefully scrutinised by the Board, and observes with satisfaction that efforts have been made to reduce the percentage of cost of management to that (6 per cent.) prescribed by Government.

10. *Road and Public Works cesses.*—As the Board submit a separate detailed report on the Road and Public Works cess operations, it is suggested that the portion relating to this subject may be omitted from future Land Revenue annual reports. It is also stated not to be convenient to ascertain the correct figures for the Road and Public Works cesses at the time of the preparation of the Land Revenue Report, which has to be submitted a fortnight earlier than the Road and Public Works Cess Annual Report. Owing to the non-receipt of the figures relating to the Patna Division, the Board have omitted from their report the usual summary of the figures regarding the Road and Public Works cess operations. The Lieutenant-Governor, however, is of opinion that the Board's Land Revenue Annual Report should deal with all the branches of the administration connected with the Land Revenue, and that it is desirable that it should contain a summary, which may be very brief, of the figures showing the Road and Public Works cess demands, current and arrear, and collections, which can, without much difficulty, be supplied by District Officers in time for incorporation with the Board's report.

11. *Revenue and rent money orders.*—The system of payment of revenue and cesses by money-order continues to grow steadily, though slowly, in popularity. Though the actual number of orders fell off from 192,984 to 189,172, the amount remitted increased from Rs. 16,39,658 to Rs. 17,58,973, the average value of each order being Rs. 9-4 against Rs. 8-8 in the previous year.

The system of payment of rent by postal money orders was authorised from the 1st of July 1891 in all districts in which the Bengal Tenancy Act is in force, and in the district of Puri from the 1st of January 1896. The following table gives the available statistics.—

YEAR.	Number of money-orders issued for rent	Amount	Number of such orders used	Amount
1	2	3	4	5
1891-92 (nine months)	37,944	Rs 5,07,819	12,544	Rs 1,27,153
1892-93 (whole year)	42,901	5,19,768	13,687	1,26,757
1893-94 (ditto)	43,206	6,17,146	16,959	1,59,606
1894-95 (ditto)	40,834	5,87,371	13,772	1,45,695
1895-96 (ditto)	43,735	6,20,355	13,610	1,37,506

12. *Operation of the Sale Laws.*—The subjoined statement shows the working of the sale laws during the last five years.—

YEAR	Number of estates and shares and interests liable to sale	SOLD			Percentage of column 5 on column 2	Revenue demand of estates sold	Amount of defaults	Amount realised by sale
		Estates	Shares	Total				
1	2	3	4	5	6	7	8	9
1891-92	15,532	1,015	753	1,369	8.8	Rs 1,52,502	Rs 41,825	Rs 8,03,581
1892-93	16,013	960	595	1,555	9.01	1,38,912	47,640	10,08,773
1893-94	16,230	991	438	1,429	8.7	1,44,689	45,051	10,72,584
1894-95	16,275	980	516	1,496	9.6	1,93,872	78,624	11,11,334
1895-96	16,237	960	539	1,506	9.2	2,93,232	2,88,931	12,81,061

The figures show that out of the estates, shares and interests which became liable to sale for non-payment of Government dues, 9·2 per cent. were actually sold as against 9·6 per cent. in the previous year. The Board remark that the stringency of the law is tempered by the moderation with which it is worked, and that probably the revenue would be collected with still greater punctuality than at present if the Collectors had in their hands some weapon less powerful than that of sale, the severity of which discourages its use. The Lieutenant-Governor is of opinion that no change in the law is called for. Altogether 300 appeals against sales were made to Commissioners, 76 sales were annulled by them, and recommendations for the annulment of sales on the ground of hardship were made to Government in 24 cases.

The largest number of defaults occurred in Shahabad (3,330), Muzaffarpur (1,375), Midnapore (1,298), and Saran (953). The percentage of defaults to the number of estates and shares is unduly large in Shahabad and Midnapore, being 25·5 in the former and 24·4 in the latter district. The Board remark:—

"In Shahabad this department of the Collectorate has been in a very unsatisfactory condition. The Senior Member visited Arrah in November last for the purpose of ascertaining the circumstances under which the balances of land revenue have been gradually increasing. Besides the misconduct of the amla, undue leniency on the part of the District Officers was found by him to be a main cause. Orders have been already passed by Government on this subject, and it is hoped that future reports will show a great reduction in the number of defaults."

In Midnapore it appears the zamundars had been freely allowed to pay revenue after the latest dates of payment, so that, as Mr. Bright reports, the sale day had become practically the latest date of payment. This practice should undoubtedly be stopped. The defaults in Saran are said to be due to the great number of petty estates, and illustrate the difficulties that attend the creation of such petty estates. In Muzaffarpur also litigation and ill-feeling among petty proprietors are reported to be among the causes of the defaults. The percentage of sales to default was highest in Nadia, being 31·8 per cent., Chittagong coming in next with 28·6 per cent. It was lowest in Shahabad, where it was only 1·5 per cent. The Lieutenant-Governor notices with regret that the orders enjoining that the sales for a kist should be effected before the date for the next kist, were not carried out in many districts, the delay being generally attributed to the fact that the arrear lists could not be got ready owing to the difficulties experienced on the introduction of the new tauzi procedure. His Honour hopes, now that these difficulties have been overcome, that the orders of Government will be carried out in future.

13. *Working of the Public Demands Recovery Act I (B.C.) of 1895.*—The new Certificate Act I (B.C.) of 1895 came into force during the year. A revised edition of the Certificate Procedure Manual was issued by the Board tentatively, and Revenue Officers were requested to report, after watching its working for six months, any amendments that might seem necessary, to enable the Board to issue a final edition of the Manual. The new Act is reported to have effected an improvement, but it has been found necessary to introduce an amending Bill in the Bengal Council to remove defects in it, chiefly of a clerical nature.

The following statement shows the number of certificate cases instituted and disposed of during the year under the different classes of demands:—

Classification of demand.	Number pending from last year	Number filed during the year	Total	Disposed of during the year	PENDING—		
					More than six months.	Less than six months.	Total.
1	2	3	4	5	6	7	8
Demands of all kinds under section 5	465	1,396	1,861	1,458	47	356	403
Arrears of rent due to Government, clause (e) section 7	5,926	17,787	23,313	18,620	2,271	2,628	4,799
Embarkment dues, section 59, Act VI (B.C.) of 1873	1,116	7,022	8,138	5,526	408	2,114	2,613
Water rates, Act III (B.C.) of 1876	747	4,160	4,907	4,443	180	284	464
Cesses, Act IX (B.C.) of 1880	41,031	66,934	108,015	71,919	6,711	29,383	36,094
Demands of the Court of Wards, clause (f), section 7	5,092	8,613	13,705	8,071	2,548	3,089	5,637
All other demands under section 7	10,766	20,377	31,133	21,900	2,412	2,461	4,873
Total	65,133	125,939	191,072	131,857	15,064	44,151	59,215
	1896-97	1894-95	1896-97	1896-97	1896-97	1896-97	1896-97
	61,362	1,34,484	214,836	149,705	20,230	44,901	65,131

NOTE.—The number of cases shown in column 2 as pending from the previous year does not correspond with the number in column 8 of that year's Report, owing to alterations found necessary since the submission of that Report.

The number of certificates filed shows a satisfactory decrease of 27,545 which occurred in all classes of demands, except the third and the sixth. The reduction is due to (1) inability to issue requisitions until towards the close of the year on account of the introduction of the new tauzi system, (2) amalgamation of petty rent-free holdings with their parent estates, (3) realisation by means of tahsildars employed for the purpose, instead of having recourse to the certificate procedure, and (4) issue of warning post-card notices prior to the filing of certificates. The percentage of the number disposed of to the total number for disposal shows, however, a decrease (which is not accounted for), being 69.0 as against 69.6 in the previous year.

The Lieutenant-Governor observes with satisfaction that there has been a steady decrease in the total institutions in the water-rate collection department, as is shown by the following figures, which compare the institutions in the three Divisions during the year under report with those of the two preceding years:—

			Filed in 1893-94	Filed in 1894-95	Filed in 1895-96
Districts of the Orissa	Division	...	6,667	5,683	2,497
Ditto	Patna	„	2,219	2,506	1,253
Ditto	Burdwan	„	2,046	651	410
Total			10,932	8,840	4,160

The number of certificates filed for the recovery of cesses decreased by 19,732, from 86,716 to 66,984. The institutions exceeded five thousand in the case of two districts only, namely 9,035 in Saran and 5,271 in Muzaffarpur.

The certificates filed for the realisation of embankment dues rose from 4,272 to 7,022, the fluctuations being most marked in Muzaffarpur with an increase of 1,335 cases and in Darbhanga of 1,204 cases. The increase in Muzaffarpur was due to the fact that proceedings were instituted under the Certificate Act to recover most of the arrears below one rupee which had been outstanding for some years, and which would have been soon barred by limitation. The number of certificates taken out for the recovery of demands of the Court of Wards shows an increase of 456, from 8,157 to 8,613.

Mr. Westmacott, the Commissioner of the Presidency Division, remarks that there has been a decided improvement during the year in the disposal of cases, which he attributes to the work being left less to the amla than before, the Deputy Collector in charge of the department being required to give his personal attention to every case. The Collectors also, it is stated, frequently take some of the oldest cases on their own file and see that they are speedily disposed of. The number of cases in which demands were paid upon service of notice decreased from 45,780 to 35,585; while the cases in which actual sale was had recourse to decreased from 3,320 to 3,266.

14. *Compulsory measures for realisation.*—The number of persons imprisoned for non-payment of public demands was 58 as against 41 in 1894-95, and the number of persons released without payment of the debt increased from 21 to 40. The number of persons imprisoned for non-payment of Government demands proper was 9 against 12 in the previous year. In 6 out of the 9 cases the debt was realised in full, which showed that the debtors could, but would not, pay till forced to do so.

ADMINISTRATION OF THE LAND REVENUE.

15. The principles and rules affecting the funds for the management, improvement and protection of estates under the management of Government were recently explained in paragraph 4 of this Government's Resolution No. 895T.—R., dated the 9th October 1896, on agricultural improvements in Wards' and Government estates. The 12 per cent. deducted from the collections in estates under the management of Government is distributed as follows:—

- (1) 1 per cent. to education
- (2) $1\frac{1}{2}$ per cent. to communications.
- (3) 2 per cent. to sanitary improvements.
- (4) $7\frac{1}{2}$ per cent. to (a) management proper, and (b) miscellaneous improvements.

In addition to the above fund—

(5) A separate grant, known as the Agricultural Public Works grant, is made yearly by Government for such works as irrigation, drainage, or embankments necessary for the increase or maintenance of the land revenue from Government or temporarily-settled estates.

From the proceeds of head (1) primary schools are maintained in Government estates, but the $1\frac{1}{2}$ per cent contribution for improvement of communications is everywhere amalgamated with the general District Road Fund. Under the orders of this Government, passed in February 1895, the Agricultural Public Works grant has now been amalgamated with that devoted to miscellaneous and sanitary works.

The allotments and expenditure under heads (3), (4) and (5) during the year under report are shown below —

	Allotment, 1895-96	Expenditure, 1895-96	Expenditure, 1894-95.
1	2	3	4
Two per cent for sanitary improvements	Rs	Rs	Rs
$7\frac{1}{2}$ per cent. for { (a) Management proper	4,12,600	53,989	53,658
{ (b) Miscellaneous and		2,33,668(a)	2,20,836(a)
{ agricultural improvements		1,06,895(b)	1,03,234(b)
Total . .	1,12,600	3,94,552	3,77,728

The Lieutenant-Governor observes that the allotments made were not fully utilised. The special attention of the Board of Revenue has been called to the subject of improvements in the resolution already referred to, and further comments are not required here. His Honour is glad to note that successful efforts were made during the year to introduce the cultivation of Naini Tal potatoes in the Government estates in Jalpaiguri, and to improve the fodder supply at Kalimpong in Darjeeling by the introduction of foreign grasses.

Due provision is made for primary education in the Government estates, and considerable sums were spent during the year, especially in the Western Duars, Jalpaiguri, for the construction of roads. The Board, however, observe that, in the absence of complete information, showing whether the sums allotted by Government for education, roads and communications in Government estates have been spent for the benefit of such estates or not, the Board are unable to give as satisfactory an account as they would wish of the benefits caused by these grants. Sir Alexander Mackenzie hopes that the Board will obtain the requisite information and be in a position to give a full account of the administration of these grants in their next annual report.

16. *Inspection of accounts.*—A detailed list of inspections of the registers and accounts of Government estates by Government officers of all grades is given in Appendix No XXV of the Board's report. The Lieutenant-Governor is glad to observe that sufficient attention was given by the Revenue Officers generally to this part of their duty. Among the Commissioners, Messrs. Luttmann-Johnson, Westmacott, and Nolan, and among the Collectors, Messrs. Savage, Faulder, LeMesurier, Garrett, Collin, and Bright, made the largest number of inspections. It had been pointed out more than once in the Resolutions on the Board's reports for previous years that though the testing of accounts by comparing the receipts granted to the raiyats with the counterfoils is useful and very necessary, it should not be relied on as the sole method of testing irregularities, as there were many kinds of fraud which could not be discovered by the test alone. The Lieutenant-Governor is glad to note that these remarks have borne fruit, and that besides the method above referred to, a comparison of the register of collections with the *jama wasil baki* register,

counterfoils of rent receipts, and the cash account and the treasury pass-book is reported to have been resorted to in many districts. The Board remark that the work appears to have been done with care and thoroughness, and that no material irregularities or discrepancies were brought to notice by any of the inspecting officers. The condition of the riyats in Government estates is reported on the whole to be fairly good, though in some districts they suffered during the year under report from a poor outturn of the crops.

17. *Survey and settlements.*—The survey and settlement work in Bengal for the survey year ending the 30th September 1895 was reviewed at length in the Government Resolution No. 5421 L.R., dated the 14th December 1895. It is therefore as usual only referred to briefly in this Resolution. The following table shows the progress made in the settlement of Government and temporarily-settled and private estates under the control of the Director of Land Records during the financial year:—

Government and Temporarily-settled Estates

Name of estate or tract under settlement	Estimated area in square miles under settlement of revenue or rent	Total number of villages (and jots and grants)	Area actually surveyed during the year	Total area cadastrally surveyed up to the end of the year.	Number of villages of which attestation has been completed	Number of villages of which the final records of rights have been published under section 105(2) of the Tenancy Act	Cost during the year
1	2	3	4	5	6	7	8
Cuttack (all temporarily settled estates and five permanently-settled estates)	2,270 97	4,088	Sq miles 4 07	Sq miles 2,270 97	4,808	825	Rs 1,70,109
Puri (temporarily settled estates)	1 080	2,098	Figures not available	1,050	2,043		9,109
Khurda Government estates	800	1,373		1,733	3,504		1,01,573
Bhubaneswar (temporarily-settled estates)	1,733	3,070					1,81,750
Chittagong	1,910 20	1,037	4 70	1,910 20	1,037	648 jotes	58,450
Palamau Government estates	283 15	308	48 18	283 15	307		24,162

Pankhal-Haidubpur in Baekergunge	4 18	3	4 10	4 10			
Total	9,805 74	13,224	2,209 5	7,764 6	7,137	1,452	7,30,701

The settlement of the Kolhan Government estate in Singhbhum, which was made for 30 years, will expire on the 31st of March 1897, and measures for its resettlement were commenced in 1894. The settlement is under the

charge of Mr. Craven, Deputy Magistrate and Deputy Collector, who has had much experience in similar work among the Sonthals. One hundred and sixty-two villages with an area of 148 square miles were measured during the year, and the records prepared at an expenditure of Rs. 56,405.

The settlement of the ghatwali lands in Bunkura was in progress under the supervision of Babu Jnan Sanker Sen, by whom 26 sarkari panchaki ghats, paying quit rent directly to Government, and 2 be-panchaki ghats were settled during the year. Since the close of the year the Lieutenant Governor has ordered that the principles on which the settlement of these ghatwali lands were being conducted should be reconsidered.

The following table shows the progress made in smaller settlements under the Bengal Tenancy Act under the supervision of the Commissioners of Divisions:—

	Estimated area in acres under settlements at of revenue or rents	Total number of villages	Area surveyed during the year	Total area surveyed up to the end of the year	Number of villages in which attestation has been completed	Number of villages of which the final records of rights have been published under section 1 (2) of the Tenancy Act	Cost during the year
1	2	3	4	5	6	7	8
Government estates in the districts of the 24 Pargannas, Nadia, Murshidabad, Pabna, Bandipur, Tippera, Noakhali, and Monghyr	Acres 75,333	833	Acres 31,630	Acres 75,815	149	125	Rs 9,854
Private estates in the districts of Midnapore, the 24 Pargannas, Jessore, Dinajpur, Rangpur, Pabna, Dacca, Mymensingh, Faridpur, Tippera, Noakhali, Saran and Monghyr	88,084	310	8,900	91,013	235 (16 partly)	131	21,146

In the forecast of increases of revenue expected from revision of settlement and other causes, a total increase of Rs. 92,101 was anticipated during 1895-96. The actual increase obtained was Rs. 75,610.

The Lieutenant-Governor fully endorses the Board's opinion that, in order to prevent undue delay in the disposal of the smaller settlements under the direct control of District Officers, it is necessary that this subject should receive greater attention than it now does from Commissioners and Collectors. Instances have come to light in which the Settlement Officers employed have evinced a lamentable ignorance of the settlement law and rules, which could have been corrected at the very outset if their proceedings had been watched with sufficient care by their immediate superior officers.

18. *Land Registration.*—The following statement exhibits the number of interests registered under initial registration and the number of applications for mutation filed during the year:—

DIVISION	Total number of interests registered under initial registration (section 38)	NUMBER OF APPLICATIONS UNDER SECTION 42 FILED DURING THE YEAR—			Percentage of column 2 on column 5	during 1894-95	during 1893-94
		On account of succession by inheritance, whether under will or other wise.	On account of succession by purchase, gift, or otherwise	Total of columns 3 and 4			
1	2	3	4	5	6	7	8
Burdwan	50,055	1,832	1,780	3,612	7.2	6.2	6.7
Presidency	63,034	1,707	1,368	3,075	4.8	5.6	7.3
Rajahmundry	26,913	1,166	723	1,889	7.0	6.6	6.3
Dacca	99,486	6,351	4,793	11,144	11.2	12.0	9.3
Chittagong	184,612	5,190	4,079	9,269	5.0	5.7	4.3
Patna	287,612	12,551	11,718	24,269	8.4	7.5	8.5
Bhagalpur	96,614	1,399	1,565	2,964	3.0	2.9	3.5
Orissa	160,726	5,901	5,143	10,744	6.6	6.7	6.1
Chota Nagpur	4,214	79	127	206	4.8	8.5	11.7
Total	973,326	36,876	31,296	67,172	6.9	6.7	6.6
Total for 1894-95	973,190	32,091	33,341	65,436	6.7

The percentage of mutations on initial registrations shows a slight increase from 6·7 to 6·9 per cent, which was due to energetic measures taken by District Officers to secure registration. If these percentages have been correctly calculated, they would indicate that registration of mutations of proprietary rights is not so defective in Bengal as is generally supposed. The Board are, however, requested to carefully consider this subject and report what it is that these percentages really represent. If 6 per cent. of the interests registered change hands in a year, it would follow that on the average all proprietary interests pass into fresh hands by succession and transfers in the course of 16 or 17 years. The number of cases disposed of in 1895-96 was 69,467 as against 63,298 in the previous year, showing an increase of 6,169.

19. *Partitions*—The statement below gives particulars of the number of cases instituted, disposed of, and pending in the three Divisions—Patna, Bhagalpur, and Dacca, where the partition work is heaviest:—

DIVISION	Pending at close of—		Instituted during—		Total		Disposed of during—		Pending at close of
	1893-94.	1894-95	1894-95	1895-96	1894-95	1895-96	1894-95	1895-96	1895-96.
1	2	3	4	5	6	7	8	9	10
Patna	1,510	1,229	264	238	1,774	1,467	515	435	1,053
Bhagalpur	115	142	75	39	190	171	58	40	131
Dacca	418	453	120	153	568	535	163	105	430

The number of partition cases instituted in the Patna Division diminished owing to orders suspending the carrying out of new partition proceedings pending the completion of the survey-settlement operations. It is unsatisfactory that the number of cases disposed of was in all three divisions less than in the previous year. The oldest case pending is that of Sripur Mawan in Darbhanga, which was instituted in 1872, and is now before the Board on appeal. As to the cases decided in the Patna Division, the longest period of duration was 16 years and 6 months; in the Dacca district 13 years and 5 months; in Mymensingh 10 years; and in Monghyr 6 years. In accordance with the orders of this Government, Mr. D. R. Lyall, the then Hon'ble Member of the Board of Revenue, visited Dacca in September 1895 and inspected the long-pending Bhowal case.

A Bill was introduced in the Bengal Legislative Council in April 1896 to amend the law relating to the partition of estates. The principal object of it is to simplify and shorten the procedure for effecting the partition of estates and to put a check to the increase of petty estates borne as separate units on the Collectors' Revenue Rolls.

20. *Land Acquisition*—The following table shows the quantity of land acquired during the year under the Land Acquisition Act of 1894, and the cost of acquisition as well as the department for which it was acquired:—

For whom acquired	Area of land acquired.			Abatement of Government revenue.			Cost of acquisition		
1	2			3			4		
	A.	R.	P.	Rs.	A.	P.	Rs.	A.	P.
Government ..	533	3	28	132	2	5	56,610	6	1
Irrigation ...	1,157	3	9	262	11	4	1,79,107	2	8
Municipalities ..	125	1	29	234	9	9	3,81,004	3	5
Railways ..	1,995	3	10	903	4	1	1,38,804	9	10
District Boards ...	335	3	20	99	13	0	63,402	12	2
Chaukidars' jagir land ..	4	3	14	0	4	8	501	6	11
GRAND TOTAL ...	4,153	2	30	1,632	13	3	8,19,430	9	1

The average cost per acre was Rs. 197 as against Rs. 219 in the preceding year. Excluding in both years certain projects which cost abnormally high prices, the average cost per acre during the year amounted to Rs. 138 as against Rs. 184 in 1894-95. The decrease in price is satisfactory and is due to more careful valuations by officers. The most important Land Acquisition projects carried out during the year were those for the extension of the settling tanks at Pulta, the pumping station at Bhawanipore, the Bengal Duars Railway, and the Barsoc-Kishanganj Branch of the Bihar Section of the Eastern Bengal State Railway. Orders were issued during the year for the acquisition of lands for (1) a camping ground at the Sonapur fair in the district of Saran, (2) Lepor Asylum at Gobia, (3) enlarging the compound of the Eden Hindu Hostel, (4) hostels for students attending the Calcutta Madrassa, (5) Khurda-Puri Branch of the East Coast Railway in Puri, and (6) Cuttack-Midnapore-Calcutta extension of the Bengal-Nagpur Railway.

The new Land Acquisition Act I of 1894 having been passed, the Board issued a new draft Land Acquisition Manual. Any alterations that may be found advisable will be made after six months, when the Manual will be finally published. The Board state that the new Act is reported to have facilitated to some extent the disposal of land acquisition cases.

21. *Kanungos and patwaris*.—As stated last year, the question of reorganising the kanungos and patwaris in Orissa for the purpose of maintaining the settlement records has been, and is still, under consideration. In Cuttack all the kanungos are reported to have qualified themselves in surveying. In Balasore also all the kanungos are said to have acquired sufficient knowledge to keep settlement records corrected up to date, and possess certificates of efficiency from the Survey and Settlement Officers. In Puri there are in all 13 kanungos who performed the duties specified in section XII of the Revenue Officers' Manual, 1888, and other miscellaneous works in connection with Government estates. The registration of patwaris in the Patna Division and in the Monghyr district still continues under the old Regulation of 1817. The Board observe.—

“The Settlement Officers should, during the present survey and settlement operations, ascertain and record what the existing present practice in every village or pargana may be as to the amount of remuneration payable to patwaris, who pays them, the areas of their circles, the extent to which the (patwaris) rules have been enforced and the difficulties met with in attempting to carry them out. When this is done, it will be time enough to consider, in the light of the ascertained facts, any modification of the rules that might be found necessary.”

22. *Advances under the Land Improvement Loans Act*.—Under the Land Improvement Loans Act, XIX of 1883, the Collectors applied for advances, amounting to Rs. 1,36,100, of which Rs. 1,33,300 were allotted to them for distribution, but the sum actually disbursed amounted to Rs. 73,500 only. The following statement shows the demands, collections and balances on account of advances under this Act during the year—

Outstanding advances.	Demand (principal plus interest) falling due during the year.	Collections (principal plus interest) during the year.	Percentage of collections on demand	Remission	Balance at the close of the year.
1	2	3	4	5	6
Rs. 2,52,185	Rs. 71,578	Rs. 54,281	75.8	Rs. 715	Rs. 16,582

The balances were largest in Bankura (Rs. 5,564), Gaya (Rs. 4,746), and Saran (Rs. 2,934) as in the previous year, as well as in Champaran (Rs. 1,321). It is stated that in Bankura, had it not been for the agricultural depression, the realisations would have been much better than they were.

Advances under the Agriculturists' Loans Act.—Rupees 15,762 only were advanced during the year under the Agriculturists' Loans Act XII of 1884 as

against Rs. 50,143 in 1894 95. In the Ghatal subdivision 2,000 applications for loans were filed, but no advances were made as the Commissioner issued orders that these loans should not be granted until it was ascertained that local resources were exhausted, and that the money-lenders would lend no money to the raiyats. No advances were made under this Act in any of the districts in the Presidency Division during the year, though allotments had been made to all the districts for the purpose. The largest sums were advanced in the following districts, viz., Monghyr, Rs. 6,492, to assist the raiyats on the partial failure of the winter crops; Gaya, Rs. 2,442, which were disbursed to raiyats of Government estates who alone had applied for advances; Puri, Rs. 1,760, advanced to raiyats of the Government khas estates to enable them to buy seed and grain and to replant paddy seedlings; Bankura, Rs. 1,340; and lastly Darjeeling, Rs. 1,267, advanced to the raiyats of the Kalimpong khas mahals to enable them to pay off the debts they owed to Marwari money-lenders and to purchase bullocks.

The demands, collections and balances on account of advances under the Agriculturists' Loans Act during the year are shown below.—

Outstanding advances.	Demand (principal <i>plus</i> interest) falling due during the year	Collections (principal <i>plus</i> interest) during the year.	Percentage of collections on demand.	Remission	Balance at the close of the year.
1	2	3	4	5	6
Rs. 2,16,328	Rs. 1,96,232	Rs. 1,13,615	57.9	Rs. 1,921	Rs. 80,696

Of the balances outstanding at the close of the year, the districts of the Patna Division are responsible for 81.57 per cent., Champaran heading the list with a balance of Rs. 28,472, and Muzaffarpur coming second with Rs. 16,361, the greater portion of which is reported to be under recovery by certificate procedure. Sir Alexander Mackenzie agrees with his predecessor that the giving advances and loans under these Acts should at all times be encouraged, and especially in times of scarcity.

RENT.

23 *Relations between landlord and tenant*—As in the previous year, the relations between landlord and tenant in the Lower Provinces except in certain localities were generally satisfactory during the year. In Birbhum the dispute between the *chela* who has succeeded the late Mahant and his tenants in the Mollarpore estate has been settled amicably. Babu Bepin Behari Dutt, the owner of a share of pargana Silda in Midnapore, underwent a severe assault at the hands of his raiyats, with some of whom he had disputes about their right to cut jungle. Six of the raiyats were sent up for trial and convicted. In February last there was a riot between certain *masantas* of Dohati near the Pathaipara factory and Messrs. Watson and Company's factory people, who attempted to carry away certain trees cut by the *masantas*, but which were claimed by the Company as theirs. Two men on the factory side were killed, and one of the *masantas* was sent up for trial, but was acquitted by the Sessions Court. There was friction between the Maharaja of Mohurbhanj and his tenants, but the Collector, Mr. Bright, is trying to settle the matter amicably. In the Presidency Division there were occasional manifestations of ill-feeling in some localities, but none of them were serious. In the Rajshahi Division the relations between landlord and tenant are in general peaceful. The Commissioner (Mr. Nolan) attributes the change which has taken place in the relations of landlord and tenant, at least in part, to the operation of the Bengal Tenancy Act, which has defined the rights of both parties. Wherever disputes could not be amicably settled the Commissioner has encouraged the procedure authorised by Chapter X of the Act regarding the preparation of an authoritative record of rights founded on a survey. The Officiating Collector of Pabna comments unfavourably on the conduct of the zamin.

dars in not rendering any assistance during the drought. In Mymensingh the Maharaja of Shusang, in consequence of a dispute with his Hajong tenantry, has applied for a settlement under the Tenancy Act. The servants of the zamindar of Naraindhar in the same district molested a number of tenants for sacrificing cattle, on which the zamindar's men were criminally punished on a complaint instituted by one of the tenants. In the Patna Division there have been here and there cases of oppression due rather to the zamindars' servants than to the zamindars themselves. In the Champaran district the raiyats of the zamindars of the Moorla Indigo Concern experienced some difficulty in proving the amounts of their rents before the Settlement Officers, owing to their indigo and rent accounts being mixed up. Vigorous action was taken by the Officiating Collector, Mr. Shirres, and the dispute was settled by arbitration, excepting in four villages. In the Supaul subdivision of the Bhagalpur district there was a serious dispute between certain zamindars and their raiyats regarding the rate of rent, resulting in a murder, on which the zamindars were bound down to keep the peace. There have been also two cases of strained relations between the proprietors of indigo factories and their raiyats, which have attracted the attention of the Officiating Collector (Mr. McIntosh). In Cuttack there were several complaints made by the raiyats of Killa Al of the oppression by the Raja's men. In Lohardaga there is an entire want of sympathy on both sides. In Palamau the strained feelings existing between the raiyats and the zamindars in the south of the district did not improve. The Protected Forest Rules are said to have unsettled the minds of the raiyats of Government villages in the southern part of the district, but Mr. Gimley on his last visit to the district in February 1896 impressed upon the people that their prescriptive rights would not be interfered with.

24. *Operation of the Tenancy Act.*—The Bengal Tenancy Act is reported to have worked smoothly, and the raiyats are said to be gradually growing familiar with its provisions. Section 39 of the Act was extended to Orissa.

The Board observe —

"During recent conferences at Belvedere, presided over by His Honour the Lieutenant-Governor, it was thought desirable to strengthen the hands of the Settlement Officers by simplifying the procedure and making the findings of the Revenue authorities final on certain matters, for the decision of which they are most competent. A Bill prepared by the Board and designed to effect these objects has since the close of the year been submitted to Government. It is based on the proposals contained in the Bills prepared by the Rent Commission and the Bengal Government in 1883 and 1884 and under the provisions of Chapter X of the Tenancy Act, and would possibly be accepted by the zamindars as an improvement upon the present law. But whatever law may be in force, the fact is that the endless varieties of conditions prevailing in these provinces, containing as they do, in one place or another, every form of land tenure known in India, from the primitive system of Chota Nagpur and Angul, analogous to the Central Provinces on one side, to the Bihar system, analogous to that of the North-Western Provinces on another, and to the highly complex and intricate system prevailing in Backergunge and Chittagong in a third direction, are so great that no one system of settlement will work well in all parts of the province alike."

The statement below exhibits the operations of some of the most important sections of the Tenancy Act in the various divisions of the Province —

1	2	3	4	5	6	7	8	9	10	11	12		
DIVISION	TRANSFER OF TENURES			Communication of rent payable in kind, section 40	Arrangement or deduction of produce where rent is paid in kind, sections 49 and 50	Registration of improvements, section 80	Certificates of Collectors as to acquisition of land for building or other purposes, section 84	Notices of redemption of land by land lords, section 87 (2)	Written permission to landlords to lease land, section 90	Applications by Collectors for appointment of common managers, section 93	Applications made for survey and record of rights, (under Chapter X)	Applications made for survey and record of proprietors' private lands (under Chapter XI)	Local enquiries held by order of Court, section 123
	(a) Voluntary, section 12 (3)	(b) By sale in execution of decrees, sections 15 (2) and 14	(c) By succession, section 15										
Burdwan	3 034	80	197	17	3	116		17					7
Triplichi	5,049	234	372	1				5					
Rajshahi	632	66	51					67					
Dacca	2 005	1,272	437			4		15					
Chittagong	2,279	904	3,6			10		9					
Patna	785	5	1	4	270	60		714					12
Bhagalpur	940	1	13		40			163					1
Orissa						8							2
Total for 1895-96	10 234	2 870	1 421	22	319	207	5	985	2		48	3	28
Do for 1894-95	8 27	1 977	901	203	129	538	1	1,211	1		80		43

25. *Rent suits.*—The number of suits before Revenue Courts under the rent laws for the years 1894-95 and 1895-96 is shown in the following statement :—

DISTRICT	NUMBER OF CASES INSTITUTED		Increase.	Decrease.
	1894-95	1895-96		
1	2	3	4	5
Darjeeling ...	28	43	16	...
Jalpaiguri .	3,861	3,229		632
Cuttack ...	3,261	3,471	210
Puri ...	2,374	2,247	...	127
Balasore ...	2,849	2,199	...	650
Hazaribagh ...	3,049	2,728	...	321
Lohardaga ..	8,057	7,732	...	325
Singhbhum ..	313	385	72	.
Manbhum ...	6,008	5,933	...	75
Palamau ..	318	387	69	..
Total ...	30,118	28,354	366	2,130

The decrease in Jalpaiguri is said to be due to the restoration of friendly feelings between the landlords and their tenants. The increase in Cuttack took place chiefly in suits for arrears of rent, and is ascribed to the fact that there were good harvests during last two years, which gave an opportunity to the zamindars to realise the arrears of rent due to them. In Balasore the institutions have decreased owing to the disputes between the zamindars and raiyats having been settled by the attestation of lands in connection with the provincial settlement in progress. Four cases in Jalpaiguri, 9 in Hazaribagh, 49 in Lohardaga, 2 in Palamau, 85 in Manbhum, and 5 in Singhbhum were pending for more than six months.

26 *Miscellaneous.*—There were 674,297 cases of all kinds instituted during the year and 702,150 disposed of. The figures for the previous year were 709,352 and 744,225, respectively

27. *Training of Junior Civilians in Survey-Settlement work.*—The Lieutenant-Governor has observed with satisfaction that during the year under report as many as possible of the junior Civilians were put through a course of training wherever survey and settlement operations were in progress in the districts to which they were attached. Seven Civilians, who are of less than seven years' standing, are actually employed on the settlement staff. The Board agree with the Officiating Director of Land Records in thinking that junior Assistant Collectors, who have but recently joined their appointments in the country, should be exempted from such employment until they have completed one year's service, by which time they are expected to have acquired some colloquial knowledge of the vernacular language as well as of the general system of administration

28. *General.*—The Lieutenant Governor is glad to observe that both the Hon'ble Mr. Stevens and the Hon'ble Mr. D. R. Lyall made useful tours of inspection during the year under report. The Board do not, for reasons given in previous Annual Reports, single out individual Commissioners for commendation. The Lieutenant-Governor has satisfied himself that the Commissioners generally exercise adequate control over the work of their District Officers and make very useful and detailed inspections. The paragraphs relating to the several district and subordinate officers selected for commendation will be communicated to the Appointment Department. The thanks of Government are due to the Board for their able Land Revenue Administration of these Provinces and for the aid and advice rendered to Government.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,
Offg. Secy. to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 30th November, 1896.

Burdwan.—Slight showers in the three sub-divisions Weather clear and dry. *Aman* harvest commenced. Standing crops in parts fair; in others a failure Fodder and water sufficient at present No cattle-disease. Common rice selling as follows:—

			Srs. a	Srs. c.	
Sadar	9	0 to 11	0
Kalna	9	8 to 10	0
Katwa	10	5 to 10	10
Raniganj	10	0

} per rupee.

Birbhum.—No rain. Slight cloud. Outting of *aman* progressing Tanks getting dry Sugarcane good. Rice sells at 10½ to 11 seers per rupee.

Bankura.—Rainfall at Sadar ·05, Onda ·05, Khatra ·08, Gangajalghati ·06, Raipur ·10. Weather seasonably cold The rain was insufficient to be of benefit Harvesting of *aman* commenced in places, the yield is expected to be 9 annas on the average Prospects of *rabi* not favourable. Fodder and water sufficient for the present. Common rice (new) selling at 11½ seers per rupee at Bankura and 12 seers at Vishnupur.

Midnapore.—Rainfall at Sadar ·02, Contai ·07, Tamluk ·01. Paddy being out. *Rabi* still being sown More rain wanted for *rabi* Sugarcane and indigo doing well Locusts reported from Sadar and Pingla, but no damage done Fodder and water sufficient. Cattle-disease reported from Garhbata and Jhargram Common rice selling as follows:—

			Srs.	
Sadar	...	Old rice, 10 seers; new rice, 11		
Contai	11 to 14	
Tamluk	10	
Ghatal	10 to 11	

} per rupee.

Hooghly.—Rain required urgently. *Aman* is withering in places. *Rabi* crops and sugarcane are suffering for want of rain. Common rice sells from 8 to 11 seers per rupee.

Howrah.—Rainfall nil. Weather cloudy in the beginning of the week, but latterly fair. Sowing of *rabi* almost over. Harvesting of *aman* paddy progressing Locusts appeared in Ulubaria, but no serious damage is reported. Fodder and water sufficient Common rice sells from 8 to 10 seers per rupee.

24-Parganas.—Rainfall at Sadar ·05 Weather hot in the day; cool at night In south of the district winter rice is estimated to yield 10 to 12 annas; elsewhere 8 annas. *Aman* is being out and harvested Prospects of *rabi* fairly good except in the Barasat sub-division. Fodder and water sufficient. Common rice sells as follows:—

			Srs.	
Sadar	8 to 9½	
Barasat	8½	
Basrhat	9	
Diamond Harbour	10	

} per rupee.

Nadia.—Average rainfall 02. Days rather hot; nights cool. Prospects of *aman* and *rabi* crops bad everywhere. Locusts appeared in several places in thana Tehatta and destroyed standing crops Prospects of sugarcane not bad in the Kushtia subdivision. Water scarcity felt in thana Tehatta and in some parts of the Ranaghat subdivision. Fodder sufficient. Common rice sells at 8 to 10 seers per rupee The number attending test-works as follows:—

23rd November	774
24th "	582
25th "	778
26th "	672
27th "	559
28th "	445

Murshidabad.—Rainfall at Sadar ·07. Weather seasonable. Harvesting of *aman* commenced. Prospects of *rabi* not favourable. Sugarcane, mulberry and indigo good. Fodder sufficient. Common rice sells at Sadar 9½ seers, Kandi 10 seers, and Jangipur 12 seers a rupee

Jessore.—Weather seasonable Rain badly wanted throughout the district. *Aman* on low lands in the Narail subdivision continues good, but on high lands not good. No cattle-disease. Fodder and water available. Common rice sells as follows :—

			Srs.	c.	
Jessore	8 to 9 0	} per rupee.
Jhenida	8 12	
Magura	8 to 9 0	
Narail	9 6½	
Bongaon	10 0	

Khulna.—Rainfall nil. Weather fine and genial. *Aman* paddy much below the average throughout the district. In south-west portion a one-*anna* crop is expected. Test-relief-works opened there No cattle-disease. Fodder and water sufficient. Common rice sells as follows :—

			Srs.	c.	
Khulna	8 to 9 0	} per rupee.
Bagerhat	9 6	
Satkhira	8 0	

Rajshahi.—No rain Harvesting of winter rice continues. *Rabi* sowings going on. Prospects of all standing crops not good Price of rice going up in thana Nator, where it is 7½ seers per rupee, elsewhere stationary Fodder and water available.

Dinajpur.—Average rainfall 10 Crops on low lands doing well, but on high lands bad *Rabi* crops doing well Rain wanted Some cattle-disease reported from thana Bangshuhari. Fodder and drinking-water sufficient Price of common rice 8 to 9½ seers per rupee

Jalpaiguri.—Rainfall 04 Weather seasonable. Early *hamanti* paddy is being out in places Sowing of *rabi* crops nearly finished. Fodder and water sufficient. Average price of common rice is 8 seers per rupee.

Darjeeling.—Rainfall at Sadar 02, Kurseong 23, Siliguri 02 Weather seasonable. Hills—*Kalai*, *bhutmas*, *ayham dhan*, and *bara marua* are being harvested; *phaphur* flowering Terai—Harvesting of *hamanti dhan* commenced in some places; prospects not favourable, sowing of mustard and *kalai* nearly finished, tobacco being planted Coarse rice selling as follows :—

			Srs.	c.	Srs.	c.	
Hills	6 0 to 8 0	} per rupee		
Terai	7 8 to 8 9			

Bhutta sells at 13 seers per rupee.

Rangpur.—Average rainfall 01. *Aman* is being out by the cultivators for home consumption, and has already appeared in the bazar. *Rabi* crops are being sown, prospects fair Common rice selling at 7 to 10½ seers per rupee Fodder and water sufficient.

Bogra.—No rain. Weather clear; cloudy sometimes Reaping of winter rice and *rabi* sowings in progress No cattle-disease. Fodder and water sufficient. Common rice (new) sells at head-quarters 12 seers, and in the interior from 8½ to 12 seers per rupee

Pabna.—Rainfall nil. Weather seasonable No change in prospects of crops since last week Rice selling at 8 seers per rupee. Fodder available.

Dacca.—Rainfall nil. First part of week cloudy and hot, and latter part seasonable. Harvesting of *aman* paddy going on. Prospects continue unchanged Fodder available. No cattle-disease. Common rice sells from 8 to 11 seers per rupee.

Mymensingh.—Rainfall nil. Cool mornings and evenings. Winter rice being harvested, probable outturn about 8 *annas* Price of common rice (old) 7½ seers and (new) 10 seers per rupee.

Faridpur.—No rain. Weather seasonable Prospects not improved. Common rice sells from 8 to 9½ seers per rupee. Fodder and water available

Backergunge.—Rainfall nil Weather seasonable Prospects of standing crops as before Cattle-disease appeared in some places in Backergunge station Price of common *aman* rice 7 to 10 seers and *aus* 7½ to 13 seers per rupee. New rice has come into the market.

Tippera.—No rain Prices of rice (8 to 12 seers a rupee) showing a tendency to fall. Food-grain-supply, exclusive of old stocks, will suffice for the district up to next *aus* harvest.

Noakhali.—Rainfall nil. Weather seasonable. Prospects of winter rice bad for want of rain. No cattle-disease. Fodder and water available. Price of common rice from 8 to 10 seers per rupee.

Chittagong.—Rainfall nil. Weather dry. *Aman* suffering and *rabi* crops not coming out for want of rain. Prospects poor. Water and fodder sufficient. Rice sells from 8 to 10 seers per rupee.

Patna.—Rain has done much good to the *rabi* crops and enabled further sowings. Opium doing well. Paddy being harvested. Prices generally stationary. Common rice selling in Patna at 10 seers per rupee. Fodder and water for cattle sufficient. Test works still open.

Gaya.—Harvesting of paddy and sowing of *rabi* and poppy continue. Prospects improved. Common rice selling at 9½ seers per rupee.

Shahabad.—Rainfall at Sadar 40, Sasaram 1·15, Buxar 45, Bhabua 1·30. *Rabi* crops greatly benefited by the rain. A good deal of *rabi* lands hitherto not sown for want of moisture will now be sown. Number on relief works on Saturday, 28th November—men 105, women 363, and children 234.

Saran.—Slight rain fell in parts of Sadar and Siwan subdivisions. No rain in Gopalganj. *Rabi* germinating excellently. Irrigation going on as before. *Rahar* appears good. Poppy coming up. Sporadic cattle-disease reported from Gopalganj subdivision. Fodder and water sufficient. Prices are—common rice 9 seers, wheat 9 seers, barley 10 seers, *maka* 12 seers, gram 10½ seers, *arhar* 11½ seers, *marua* 14 seers per rupee.

Champaran.—No rain. Weather cool and bright. *Rabi* and poppy sowings in progress. The seeds are germinating fairly well. Common rice selling at 9 seers per rupee, against 9½ seers (last week) and average 17½ seers. Fodder and water sufficient. Number on relief-works on Saturday (28th November)—men 1,020, women 416, and children 501; gratuitous relief nil.

Muzaffarpur.—Rainfall at Sadar 19, Hajipur 40, Sitamarhi 05. Prospects of *rabi* crops slightly improved by recent rain. Prices are—common rice 8½ seers, wheat 8½ seers, *maka* 12½ seers, barley 11½ seers, gram 11 seers, *arhar* 12½ seers, *marua* 15½ seers per rupee.

Darbhanga.—Rain on 23rd at Sadar 32, Madhubani 07, Samastipur 25. *Rabi* crops have been benefited. Paddy ripening. Common rice selling at 10 seers per rupee.

Monghyr.—No rain. Prospects of *rahar* and *jau* promising. *Rabi* sowings still continue. Wheat not germinating well for want of sufficient moisture. Harvesting of paddy going on. Cow-pox reported from Begusarai. Plenty of fodder and water. Common rice sells as follows.—

				Srs.	
Monghyr	8 to 9	} per rupee.
Begusarai	9	
Jamui	10 to 11	

Bhagalpur.—Weather seasonable. Harvesting of *aghami* rice going on. Slight rain in Madhipura and Supaul has done some good. The prospects of *rabi* still continue to be unfavourable. Some cattle-disease in Katonia and Motupganj and Sadar. Fodder and water sufficient. Common rice sells as below.—

				Srs.	
Sadar	10	} per rupee
Banka	11½	
Madhipura	10	
Supaul	11	

Purnea.—No rain. *Agham* harvest and *rabi* sowing in progress. *Rabi* seedlings suffering from drought in places. Cattle-disease reported from Araria and Raiganj thanas. Fodder and water sufficient. Prices of common rice.—

				Srs.	
Sadar	10	} per rupee.
Araria	12	
Kishanganj	8	

Malda.—Weather seasonable. Harvesting of winter rice has commenced; expected outturn six annas. *Kalai* pulse ripening. Wheat and other *rabi* crops thriving. No want of fodder. Supply of drinking-water not sufficient in certain places in Barind.

Sonthal Parganas.—Rain nominal. Weather cooler. Dews scanty. Rice harvest going on. Prospects of *rabi* bad. Price of coarse rice 9 to 12 seers per rupee, and of maize 14 seers.

Cuttack.—Rainfall at Sadar .05. Very slight rain in some parts on 23rd and 24th. *Laghu* being harvested *Guru* ripening. Crops in unirrigated tracts withering for want of rain. Tobacco being planted. Condition of cattle fair. Fodder generally sufficient, though difficulty in obtaining supply reported from some quarters. Food-grains not easily available in some places. Common rice sells as follows:—

			Srs	o	
Cuttack	{ Old rice	11 13	} per rupee
			{ New rice	13 2	
Jajpur	14 7	
Kendrapara	14 7	
Banki	15 12	

Balasore.—Weather seasonable. Early *sarad* being harvested. Late *sarad* ripening, but will prove a failure, more or less, except where irrigated. *Dalua* being sown in Chandbali Circle. Absence of moisture hinders germination of *rabi* crops. Slight rain in Jellasure. Fodder and water sufficient. Coarse rice sells at 12 and 14 seers per rupee at Sadar and Bhadrak respectively.

Angul.—Rainfall (3 inches) may benefit castor oil and moog, no use to *sarad* paddy which will all be reaped by first week in December. Average 8-anna paddy for whole district. *Rabi* prospects very poor. Coarse rice sells at 16 seers per rupee in Angul and 18 seers in Khondmals.

Puri.—A few drops of rain of no use. Condition and prospects of crops much as before. Fodder sufficient. Condition of cattle good. Price of common rice varies from 13 seers 2 chitaks to 15 seers 12 chitaks except in Malud, where it is 9 seers 5 chitaks for the rupee.

Hazaribagh.—Rain wanted. *Rabi* crops withering for want of moisture. Prospects of paddy 2 to 6 annas and of *rabi* 4 to 8 annas. Rice sells from 7 to 9 seers-per rupee.

Lohardaga.—Rainfall .29. Reaping of *don dhan* continues. Rice sells 9 to 10 seers per rupee at head-quarters and 10 to 11 seers elsewhere. Fodder and water sufficient. No report of cattle-disease.

Palamau.—General rain throughout the district, 1.18 registered at Daltonganj. Weather seasonable. *Rabi* crops on the ground will benefit by the recent rain, particularly barley, of which large sowings are being made. Gram is also being sown, but the season for sowing it and wheat has gone by. Prices were a little easier in the Daltonganj market on last Wednesday (25th November), when rice sold at 8 seers 9 chitaks per rupee. The direct reason for this was a supply coming from Lohardaga.

Manbhum.—Slight rain in all thanas except Gourangdih of head-quarters subdivision none in Gobindpur subdivision. Rain did but little good. Prospects of crops on the ground slightly improved in parts. Cattle-disease still exists in a few villages. Fodder and drinking-water sufficient at present. Price of old rice 8 to 9 seers and of new rice 10 to 11 seers per rupee at Sadar, and 8½ seers at Gobindpur. Apparently old rice is existing. Stocks of food-grains sufficient for the present.

General Summary.—There was general but irregularly-distributed rain in Bihar, especially in the south Gangetic districts, and in parts of Chota Nagpur, and slight showers in other parts of Bengal. There was a fall of 3 inches at Angul. In Patna, Gaya, Shahabad, and Saran it is reported that the *rabi* and poppy crops already sown are coming up well, and that further sowings are being made. In Muzaffarpur, Darbhanga, and Bhagalpur the rain has slightly improved the prospects of the *rabi* crops. In Champaran these crops are said to be germinating fairly well. In Palamau the rain has done much benefit. Elsewhere the prospects of the *rabi* crops, except in Northern Bengal, continue unfavourable. The rain was too late for the winter rice, which is being harvested. Reports of the sugarcane crop are generally good. Locusts visited parts of Midnapore, Howrah and Nadia, but, save in Nadia, no damage to crops is reported. No report of cattle disease except from a few districts. New rice has been brought on the market in some parts, and has brought about a very slight fall in price at a few stations, but there have been no important changes in prices generally. The numbers attending relief-works on Saturday, the 28th, were—Nadia, 445; Shahabad, 1,002 (men 405, women 363, and children 234); Champaran, 1,937 (men 1,020, women 416, and children 501). The works in Patna are not largely attended, but are still open. Test-works have also been opened in Khulna.

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,

The 1st December, 1896.

M. FINUCANE,

Offg. Secy. to the Govt. of Bengal.

The mean pressure of the seven days

The average pressure of the corresponding period for 24 years, Surveyor-General's Office

The total number of hours of bright sunshine

The maximum possible number of hours of sunshine

The mean temperature of the seven days

The average temperature of the corresponding period for 24 years, Surveyor-General's Office

The extreme variation of temperature

The maximum temperature

The highest velocity of the wind in one hour

The mean relative humidity

The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office

The total fall of rain from 22nd to 28th November 1896

The average fall of the corresponding period for 24 years, Surveyor-General's Office

The total fall from 1st January to 28th November 1896

The average fall of the corresponding period for 24 years, Surveyor-General's Office

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed, open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official Tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

 dew;  fog; o, overcast; g, gloomy; d, drizzling rain.

METEOROLOGICAL OFFICE, GOVT. OF INDIA,

Calcutta, the 30th November 1896.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

No. $\frac{26}{3-17}$

Extract from the Proceedings of the Government of India in the Department of Revenue and Agriculture (Commercial Exhibitions),—dated Simla, the 31st October, 1896

RESOLUTION.

The following papers relating to the International Exhibition, to be held at Brussels in 1897, are published for general information

[True Extract]

DENZIL IBBETSON,
Offg. Secy to the Government of India

BRUSSELS INTERNATIONAL EXHIBITION, 1897.

PATRON HIS MAJESTY THE KING OF THE BELGIANS
HONORARY PRESIDENT HIS ROYAL HIGHNESS THE COUNT OF
FLANDERS

CIRCULAR OF EXECUTIVE COMMITTEE TO EXHIBITORS

Brussels, 13th February, 1896.

Duration of Exhibition

An International Exhibition will be opened in Brussels on the 24th of April, 1897, and will remain open during at least six months. The Executive Committee, however, reserve the right of keeping it open until the 15th of November

Objects

The Exhibition, under the patronage of His Majesty the King of the Belgians, with His Royal Highness the Count of Flanders as honorary president, organised with the assistance of the Government and the Municipality of Brussels, will include Works of Art, Scientific Works and Industrial and Agricultural Products of all nations, classed under the following sections —

1st Section —Fine Arts	9th Section —Manufactures, Plant, Processes and Products.
2nd Section —Social Economy	10th Section —Sporting Apparatus
3rd Section —Hygiene —Medical and Pharmaceutical Arts	11th Section —Sports —Popular Games and Pastimes
4th Section —Life Saving Apparatus	12th Section —Temporary Agricultural and Horticultural Competitions
5th Section.—Industrial and Decorative Arts	13th Section —Practical Teaching, Economical Institutions and Manual Labour of Women.
6th Section —Lighting, Heating, and applications thereof	14th Section.—Commerce.—Colonies.
7th Section.—Electricity —Traction.	
8th Section.—Military Science.	

Competitions will be organised between exhibits

The questions for competition in the various sections and the value of the money prizes corresponding to each question, will be published shortly

Organisation.

As in former International Exhibitions, *National Compartments* will be organised where the exhibits of one and the same country will be divided into sections, groups, and classes according to a general classification.

In addition to these National Compartments, there will be erected in each section International Compartments in which are grouped the products and works of all countries competing for money prizes.

A detailed classification for the distribution in Sections, Groups, and Classes of the Works of Art, Scientific Works and Industrial and Agricultural Products to be placed in the National Compartments destined to the products of one and the same country, as also in the International Compartments specially reserved to competition, is annexed to this circular.

Special Sections.

The first section—Fine Arts—will include an exhibition of Pictures, Sculptures and Engravings and Architecture to which artists of all countries will be invited. This International Fine Art Section will be organised under special rules.

In the 14th section—Commerce and Colonies—will be classed the special exhibition of the Congo Free State, the importance of which will be in harmony with the interest which the Belgians take in the great work of their King.

Special Exhibitions, etc

Additional Exhibitions, Temporary Exhibitions, Congresses, Lectures, Fetes, Singing and Musical Competitions, Concerts, etc, will be organised during the Exhibition.

Site of Exhibition

The Exhibition will be held in the existing State Buildings and in new erections, in the Parc du Cinquantenaire and the Parc de Tervuren.

The Brussels halls will extend over more than a 100,000 square metres of ground under shelter, the Parc du Cinquantenaire has an area of 36 hectares and the Parc de Tervuren has an area of over 200 hectares, 96 of which, including ponds, etc, are specially reserved to the Exhibition.

The Exhibition Palace at Tervuren will extend over at least 3,000 square metres of ground.

The Parc de Tervuren, in which will be held the Congo Exhibition, and numerous Temporary Competitions, Sports, Popular Games, etc, will be connected with the Parc du Cinquantenaire by rapid means of communication.

The Exhibition buildings are connected with the State Railway by branch lines and the necessary rail are laid in the halls and in the gardens, so that all products may, inasmuch as possible, be placed on the very spot where they will be exhibited.

Organisation and management

The Board of Directors of the "Bruxelles-Exposition" Company * has given full powers to an Executive Committee, the Chairman of which is Mr Emile De Mot, Alderman of the City of Brussels, late Member of the Chamber of Representatives. This Committee undertakes the organisation and management, and will control all matters concerning receipts and expenses.

Although the Belgian Government has left to the Exhibition Company all responsibility in connection with financial arrangements and the direction of the Exhibition, it has yet accorded its high patronage to the undertaking, rightly regarding it as an enterprise of the highest national importance.

By Royal Decrees, dated 17th December, 1895, an organising commission with H. R. H. the Count of Flanders as honorary president, were appointed, as also a Commissariat General of the Government under the direction of Count A. d'Oultremont, late Commissary General of the Government to the World Exhibitions in Philadelphia, 1876, Paris, 1878 and 1881, Antwerp, 1885, etc.

* The Board of Directors is composed as follows: *Chairman* M. Karel Huls, Mayor of Brussels, late Member of the Chamber of Representatives. *Vice-Chairman* MM Georges Brugmann, General Consul of Sweden and Norway, Baron Adolphe Driion, late Member of the Chamber of Representatives, Knight Edouard Deschamps, Senator, Achille Legrand, Senator, Jules Urban, Chairman of the Congo Company for Commerce and Industry, *Members* Gedeon Bordian, Architect, Pierre Caponillet, Manager of the Belgian General Insurance Company of Brussels, Léon d'Aoust, Banker, Julien Daignon, Gentleman, Emile De Mot, late Member of the Chamber of Representatives, Alderman of the City of Brussels, Edouard Dremel, Gentleman, Georges Dupret, Gentleman, Emile Floy, Manufacturer, Maurice Lemonnier, Solicitor, late Member of the Chamber of Representatives, and of the Municipality, Jules Matthieu, jr., Banker, Edmond Neron x, Solicitor, Member of the Chamber of Representatives, Edmond Parmentier, Manufacturer, Charles Suedt, Merchant, Armand Steura, late Senator, Mayor of Saint-Josse ten Noode, Albert Thys, Managing Director, General Manager of the Congo Commercial Companies, Count Charles van der Burch, Senator, Fernand Vanderstraeten Solvay, Solicitor, Vercluyse, A., Senator, Jules Vimenet, Manufacturer.

Reception of the scheme in Belgium and abroad

The three universal Exhibitions held in Belgium during the past ten years were a full success ; the official publication as to the Brussels International Exhibition was warmly welcomed at home and most sympathetically received abroad

His Majesty's Minister announced the organisation of this special exhibition to foreign Governments and invited them to nominate commissioners or official commissions to represent them officially.

France has already accepted officially, Spain, also, granted in principle its official contribution, and other countries will no doubt follow their example without delay

Private committees are being formed in a large number of towns, both in Europe and in America, and gentlemen of high standing have consented to become members.

A large number of producers have joined these committees, who organise numerous particular and interesting sections.

Most of the leading Belgian manufacturers have decided to contribute on a large scale to this exhibition of national activity, they moreover were incited thereto by the warm appeal which the Minister of Industry and Labour made to them in his speech of the 15th January, 1896, at the installation of the organising Commission

"May the International Exhibition of 1897, thanks to you and to the assistance of numerous intellectual and manual labourers, produce numerous progresses, may it erect still more numerous markets for your products, may it contribute to the pacific harmony which ought to exist between all labourers, and may it mark a new step on the way of Belgium's prosperity."

Documents annexed

The Executive Committee annexes to this circular the General Rules, the Classification of Exhibits, Forms of Application for space in the properly so-called Exhibition, a form for the drawing up of the Official General Catalogue, and Plans of the Palace of Brussels and of Tervuren

The programme of the competition, forms of admission to the same and a form for the drawing up of the special catalogue of the competition will be sent shortly to intending exhibitors, on demand addressed to the Executive Committee

Special Arrangements for Contribution.

The attention of intending exhibitors is specially called to the fact that the price charged for space includes the expense of decorating the Section and the fees for the handling of goods (see article 38 of General Rules) By this arrangement exhibitors may know exactly and in advance how to calculate their expenses under this head.

According to articles 38 and 43 of General Rules, special terms may be arranged with all countries officially represented, for the hire of large spaces, for handling goods and storing empties The prices are fixed separately

- 1 For the hire of halls without any decoration,
2. For handling goods,
- 3 For storing empties

As regards the countries officially represented these arrangements will be drawn up through the intervention of the Commissary General of the Belgian Government

Protection, etc

Exceptional advantages will be assured to exhibitors as regards guarantee for Industrial, Scientific and Commercial Property as also the forwarding of Exhibits, Customs, etc.

Lottery

A lottery will be organised under the sanction and inspection of the State The prizes will be purchased from amongst the exhibits

Official and International Jury for Awards.

An International Jury for Awards is formed, the work of which will be directed by the Commissary General of the Belgian Government, with the assistance of a special Commissary. The members of this Jury will be appointed by the Governments of their respective countries.

The awards to be allotted are specified by the General Rules. Exhibitors may receive diplomas or medals as awards. In addition to these, money prizes will be awarded for exhibits, which the International Jury for Awards may consider deserving, and complying satisfactorily and completely with the requirements of the competition.

Fetes and Attractions.

The Executive Committee proposes to organise fetes of all kinds to multiply the objects of attraction, in order to raise the credit of the Exhibition and to increase the number of visitors.

Such is the work to which we have acquired the patronage of His Majesty the King of the Belgians and to which the Belgian Government and the City of Brussels have granted their moral and material support.

Belgium, as a country in Central Europe, and enjoying the sympathies, and the confidence, of all nations, offer to scientists, artists, and industrial and commercial men of all countries, an admirable field for competition.

The Executive Committee of the "Bruxelles-Exposition" Company address a warm appeal to all nations, they invite them to take part in the exhibition of 1897, which, by their rivalry, will show the great progress accomplished for the good of humanity, in Art, Science, Industry, and Commerce.

The Executive Committee :

(*) LÉOPOLD.

Par le Roi

Le Ministre de l'Industrie

et du Travail,

(s) A. NYSSINS

BRUSSELS INTERNATIONAL EXHIBITION, 1897

PATRON HIS MAJESTY THE KING OF THE BELGIANS.

HONORARY PRESIDENT: HIS ROYAL HIGHNESS THE COUNT OF FLANDERS.

GENERAL RULES

CHAPTER I.

General arrangements.

ART 1.—The Brussels International Exhibition under the patronage of His Majesty the King of the Belgians, with His Royal Highness the Count of Flanders as Honorary President, organised with the assistance of the Government and of the Municipality of Brussels, will include Works of Art, Scientific Works and Industrial and Agricultural Products of all nations, classed under the following Sections —

- 1st Section —Fine Arts (').
- 2nd Section —Social Economy
- 3rd Section —Hygiene — Medical and Pharmaceutical Arts.
- 4th Section —Life Saving Apparatus
- 5th Section —Industrial and Decorative Arts —Liberal Arts. —Sciences
- 6th Section. —Lighting, Heating, Ventilation, and applications thereof
- 7th Section —Electricity. —Traction
- 8th Section —Military Science.
- 9th Section —Manufactures Plant, Processes and Products
- 10th Section —Sporting Apparatus
- 11th Section —Sports —Popular Games and pastimes
- 12th Section —Temporary Agricultural and Horticultural Competitions
- 13th Section. —Practical Teaching, Economical institutions and manual labour for women
- 14th Section —Commerce —Colonies.

A special Section will be devoted to Congresses and Lectures.

Competitions will be organised between exhibits, subject to the conditions mentioned in Chapter III (Competitions —Jury and Awards)

ART II —The Exhibition will be held in the existing State buildings and in new erections, in the Parc du Cinquantenaire, and the Parc de Tervuren.

The halls will extend over more than a 100,000 square metres of ground under shelter. The Parc du Cinquantenaire has an area of 36 hectares and the Parc de Tervuren has an area of over 200 hectares.

The Parc de Tervuren, in which will be held the Congo Exhibition, and numerous competitions, will be connected with the Parc du Cinquantenaire by rapid means of communication.

The Exhibition buildings will be connected with the State Railway by branch lines, and the necessary rails are laid in the halls and in the gardens

Fetes of all kinds will be organised during the Exhibition.

ART III —The Exhibition will be opened on Saturday, April 24th, 1897, and will remain open during at least six months. The Executive Committee, however, reserve the right of keeping it open until the 15th of November

(') The Fine Arts Section will be organised under special rules, and will comprise the works of artists living on January 1st, 1890. Copies and Paintings on China and Pottery are excluded but may be exhibited under the Section of Industrial and Decorative Arts

ART IV—The Executive Committee holding full powers from the Board of Directors of the "Bruxelles-Exposition" Company, undertakes the organisation and management, and will control all matters concerning receipts and expenses

Mr Emile De Mot, Alderman of the City of Brussels and late Member of the Chamber of Representatives, is Chairman of this Committee

ART V—A Commission is nominated by a Royal decree for drawing up the programme of competitions, questions and awards, and for encouraging Belgians to take part in the Exhibition.

His Royal Highness the Count of Flanders is Honorary President of this Commission

This Commission elects a Central Committee from its own body

The Committee is divided into Sections

CHAPTER II

General classification.

ART VI—Exhibits are arranged in Sections which are subdivided into groups and classes

A detailed classification is annexed to these General Rules

ART VII—Additional Exhibitions, temporary Exhibitions, Congresses, Lectures, Fetes, singing and musical Competitions, Concerts, etc, will be organised during the Exhibition

ART VIII—In addition to the catalogue mentioned in Art 15 the Executive Committee will issue an official and complete catalogue of exhibits of all nations, arranged systematically, with the names of the exhibitors, the description of the branch of industry and the place of origin.

The necessary information for the compilation of this catalogue will be furnished by the exhibitors themselves under their own responsibility. A special form to this effect is appended to this regulation

ART IX—The Commissariats of the countries represented will be entitled to publish, at their own expense, a special catalogue of their national exhibits, for sale in their respective sections

ART X—Explosive or fulminating substances and all dangerous articles are excluded from the Exhibition.

Alcohol, Spirits, Oils, Essences and Corrosive Liquids, and all substances likely to endanger other exhibits or to inconvenience the public will only be admitted if enclosed in small and appropriate vessels

Percussion caps, fireworks, matches and similar articles will only be admitted in imitation, without any inflammable matter whatever.

Exhibitors of obnoxious or insalubrious articles will have to comply with special regulations which will be drawn up with a view to public safety. The Executive Committee reserve the right to withdraw from the Exhibition all exhibits, from any source whatever, which from their nature or appearance may seem dangerous, unpleasant or not in accordance with the aim and object of the Exhibition

CHAPTER III

Competitions—Jury and Awards

ART XI—An International Jury for Awards will be formed

The rules of this Jury will be drawn up by the Central Committee in conjunction with the Executive Committee and submitted to the Commissary General of the Government for approval

The work of this Jury will be directed by the Commissary General of the Government

The members of the Jury will be named by the Governments of their respective countries

The appointment of the members of the Jury will be confirmed by the Belgian Government on the demand of the Commissary General of the Government

Should the Government of any country, taking part in the Exhibition, fail to name its representatives on the Jury in time, the Belgian Government will itself appoint them

ART. XII.—The Jury will commence to officiate during the month of July 1897. The list of awards will be made known publicly before the close of the Exhibition.

ART. XIII —Money prizes will be awarded for exhibits which the International Jury for awards may consider deserving, and complying with the requirements of the competition drawn up by the Commission mentioned in Art. V.

The value of the prizes to be awarded in each case will be fixed by the Central Committee of the said Commission. The total amount of these prizes provided by the Belgian Government may amount to a maximum sum of 300,000 francs.

A quarter of any prize money which may remain over will be divided amongst the prize winners at the pro rata of the value of the prizes they have already received.

The remaining three quarters of this sum will be at the disposal of the Minister of Industry and Labour.

In addition, exhibitors may also receive diplomas or medals.

ART. XIV —In order to qualify for money prizes, exhibitors must state, in their application for space, with which of the questions drawn up their exhibits comply, and the latter must be immediately exhibited by the authors or producers.

ART. XV —A special catalogue will then be prepared by the Commissary General of the Government for the guidance of the Jury of Awards.

ART. XVI —Exhibits competing for money prizes will inasmuch as possible be exhibited in the International Sections in which are grouped the products of all countries coming under the heading of the questions for that same section. The exhibits which do not come within the range of the questions will be placed in the National Section in which all the products of any one country are grouped.

ART. XVII —The questions for competition in the various sections, and the value of the prizes corresponding to each question, will be published ultimately.

CHAPTER IV.

Commissariat General of the Government

ART. XVIII —The Commissariat General of the Government is managed and conducted by Count Adrien d'Oultremont, assisted by a Commissary for the Foreign Sections, by a Commissary for the Jury of Awards, and by a Commissary for each of the International Sections, contained in the general classification.

The Commissary General of the Government represents the Government in its negotiations with the Executive Committee of the Company organising the Exhibition, and also with the representatives or delegates of foreign countries taking part in the Exhibition.

The Commissary General of the Government is the official referee, between the Company and the representatives or delegates of foreign countries and also between the latter and the Belgian Government in all matters affecting the interests of foreign exhibitors. All information and particulars may be obtained from him.

The Commissary General of the Government and the Executive Committee acting together decide all questions relating to plans of the Halls, the Parc du Cinquantenaire and the Parc de Tervuren, the allotment of space, for the sections of the various countries and the international sections, and all matters regarding passages for public circulation, general decoration, and joint rights in these various sections.

He also acts unofficially as referee, without responsibility, between the foreign representatives and the Executive Committee, for all agreements relating to hire of space, transport and handling of goods, storage of empties, etc., etc.

All conditions and regulations, especially those concerning transport and handling of Goods, Entries, Police, Setting up and Working of Machinery as also the halls of machinery and electricity, must be signed and accepted by him.

The functions and attributes of the members of the Commissariat General of the Government and also their relations with the organising Commission are determined by special regulations.

The Commissary General of the Government organises and supervises Belgian exhibits, and takes all requisite steps relating to the organisation, for which special regulations will be drawn up.

CHAPTER V.

Conditions to be complied with for exhibiting.

ART. XIX —Foreign Governments have been officially notified that a Brussels International Exhibition will be held and they have been invited to delegate official Commissaries to represent them.

These Commissioners representing their respective nationalities and having charge of their interests, will arrange with the Executive Committee through the Commissary General of the Government, all questions relating to the allotment of space to their respective countries and to the arrangement of their exhibits

Collective exhibitors belonging to countries, not officially represented, may be admitted with the consent of the Executive Committee and of the Commissary General of the Government

Exhibitors may only correspond with the Executive Committee through the representatives or delegates of their respective countries. Exhibitors, however, from countries not officially represented, may correspond directly with the Executive Committee

The latter will furnish all necessary information and will make known the rules to which representatives and delegates of foreign countries and exhibitors will have to conform.

ART XX —Interchange of allotted space between countries may only be made through the Executive Committee and with the sanction of the Commissary General of the Government.

ART XXI — All advertisements and notices, printed or otherwise, intended to be posted up or distributed within the Exhibition, must first be submitted to the Executive Committee for approval and sanction, which sanction the said Committee reserves the right of withdrawing at any time

The Executive Committee concurrently with the Commissary General of the Government settles all matters relating to dimensions and placing of signboards

Exhibitors will be required to submit plans of show cases, fixtures, and furniture they intend to use, to the Executive Committee for approval

ART XXII —Application for admission must be made on special forms (see annexed form) supplied by the Executive Committee and must be sent in not later than October 1, 1896, duly signed, postage prepaid and addressed

A To the Commissary General of the Government (if the applicant is Belgian)

B To the Commissary of that country, officially represented at the Exhibition, of which the applicant is a native (if the applicant is a foreigner)

C To the Executive Committee (if the applicant is a native of a country not officially represented)

With regard to the latter, the Executive Committee itself decides upon applications for admission, and intending exhibitors may only send their exhibits after their application has been accepted, and a certificate of admission been sent to them

ART XXIII —All exhibits will be shown under the name of the applicant who has signed the form of demand for admission. This rule will be strictly enforced

ART XXIV —Exhibitors may add to their names or to that of their firm, the names of other persons who may have contributed to the production of the exhibits. These names, however, must be stated on the form of application for admission

ART XXV —Exhibitors or contractors intending to erect buildings or stalls in the Parc du Cinquantenaire or in the Parc de Tervuren, will have to conform to the conditions to be stipulated by the Executive Committee

Concessions for restaurants, bars, cigar stalls, sale of refreshments, etc., will be granted under special rules

ART XXVI —Exhibits must be placed before April 15, 1897, failing which, the allotted space will be forfeited and the certificate of admission cancelled, and no rent will be returned by the Company, without any legal or other proceedings being necessary. In such a case the Executive Committee will have the right to remove any unfinished installations and to charge the cost to the defaulter.

The exhibitor or his agent must be on the spot when his packages arrive at the Exhibition to check their arrival and verify their contents, failing which, the Executive Committee will have the right to send them back or to unpack them at the expense, risks and peril of the parties interested.

All materials for fixtures must, before introduction in the Exhibition, be sanctioned by the Executive Committee.

ART XXVII —No exhibit can be withdrawn before the close of the Exhibition without a special written permit from the Executive Committee

No exhibits may be covered during the hours fixed for public admission to the halls and galleries

The repacking of exhibits will take place in the order settled by the Executive Committee.

Exhibits which require taking to pieces must be ready for removal not later than December 31, 1897.

Exhibits which are not packed or taken to pieces by December 31, 1897, will be removed and stored at the expense, risks and peril of exhibitors.

Articles which have not been removed by March 31, 1898, will be sold by public auction, and the Executive Committee will be entitled to dispose of the proceeds of the sale.

ART XXVIII —The flooring and paving of the halls will be designed to carry loads of 500 kilos per square metre, and in some parts as much as 1,500 kilos per square metre.

Whatever alteration or strengthening the floors may require on account of heavy or special exhibits, must be done with the sanction of the Executive Committee and at the exhibitor's expense.

Exhibitors requiring other partitions than those rented from the Executive Committee must put them up at their own expense.

Exhibitors will be responsible for any damage which their exhibits may cause to the floors, partitions, etc., of which they have the use, and also for any wilful damage.

Exhibitors will not be allowed to remove their exhibits before having paid all charges accruing from rent, sale rights, dilapidations that may arise, etc.

ART XXIX —The Belgian Government guarantees

A Free carriage, both ways, on the State lines, for all Belgian exhibits sent to the Exhibition. This applies to all substances used in manufacture during the Exhibition, and also to empties and packing cases used for sending and returning the exhibits,

B Carriage of foreign exhibits on the State lines, under tariff No. 10 (this tariff implies full rates for carriage for sending the goods, and free carriage on the return journey)

Steps will be taken to induce Belgian and foreign railways working under concession and in connection with Belgian lines, to obtain the most favourable rates of transport.

Most of the regular navigation lines will reduce their ordinary freight rates.

C A post, telegraph and telephone office at Brussels and at Tervuren.

ART XXX —All foreign exhibits will be admitted to the Exhibition in bond free of custom dues, provided they are re-exported, and conform to the regulations imposed by the Government.

ART XXXI —A lottery will be organised under sanction and inspection of the Government. Prizes will be purchased from amongst the exhibits.

ART XXXII —Exhibitors are requested to affix the sale price to their exhibits as a guide to the Jury and the Purchase Commission for the Lottery, as well as for the information of the public.

Exhibitors who intend showing Industrial Art productions, not designed or manufactured by them, must inform the Executive Committee and show due authorisation from the rightful owners.

ART XXXIII —The Government will take measures so that patentable inventions, drawings, working models and trade marks shown in the Exhibition may be duly protected in Belgium.

The attendants will be instructed to prevent drawings, copies, measurements, photograph models, etc., to be taken of exhibits, unless with the permission of the exhibitor. The Executive Committee, however, will not be responsible for any infringement of the above instructions, through the negligence or disobedience of the attendants. The Executive Committee reserve the right of allowing general views to be taken of exhibits, and exhibitors will not be entitled to offer any opposition to this.

ART XXXIV —Due precautions will be taken to protect all exhibits from accidents, but the Company will not be responsible in any case for accidents, fire, damage, theft, or dilapidation whatever may be the cause or importance.

Strict watch and guard will be established to prevent goods from being stolen, mislaid or damaged, without, however, any responsibility being incurred by the Executive Committee in this respect.

Exhibitors must insure their exhibits and packages themselves and at their own expense, if they consider such insurance necessary.

The Executive Committee of the Company will not accept any responsibility for any accidents which may occur to exhibits.

Exhibitors will be responsible towards the Executive Committee as well as towards other parties for any damage caused by their exhibits or by persons in their employ.

The Government, the Company and the Executive Committee will not be responsible for any prejudice which may be caused to exhibitors through accidents, fire, damage, dilapidation, theft, or any other cause whatever.

ART XXXV — Commissaries of countries taking part in the Exhibition, collective and single exhibitors will be entitled to make use, on their own responsibility, of keepers and special attendants.

The latter must be approved of by the Executive Committee and will be required to comply with the rules for admission to the Exhibition.

They will wear special badges, and may claim the help of the police and other guardians named by the Executive Committee.

ART XXXVI — Each exhibitor or his agent, will receive one free ticket of admission, not transferable, which will be withdrawn should it be lent to or used by other persons, without prejudice of further action. This free ticket must be signed by the exhibitor or his agent, must show the photograph of bearer and indicate the number of the section, group and class to which he belongs. It will bear the stamp of the Executive Committee.

It must be well understood that exhibitors' agents, whatever the number of exhibitors they may represent, will be entitled to one ticket only. Each exhibitor will be entitled to one or more free tickets for persons in his employ, available for the whole period of the Exhibition but giving admittance from 8 to 10 A. M. only.

The Commissary General of the Government and the Executive Committee will alone decide on the number of tickets to be given, and will withdraw them in case of misuse or fraud.

Special rules will apply to admission.

ART XXXVII — Subsequent rules will be drawn up for the sending, the receiving, the handling, the installation, and the re-exporting of exhibits, the organisation of attendants and watchmen, customs, admission to the Exhibition, rights of sale, and the naming and working of the International Jury of Awards.

ART XXXVIII — Exhibitors will have to pay rent for the space occupied by their exhibits.

The charge for space, including *general decoration and handling of goods*, has been fixed according to position, as follows —

I — HALLS.

Collective Space.

Ground space	{	A Depth not exceeding 1 metre, per lineal metre frontage 60 francs (sixty francs).
		B Depth exceeding 1 metre, per square metre, ground surface 60 francs (sixty francs)

Wall space C Per lineal metre frontage 60 francs (sixty francs).

The charge for collective space allotted will in no case be less than 60 francs (sixty francs).

Detached Space.

A Measured along the greatest dimension, the smallest being below 1 metre, per lineal metre frontage 90 francs (ninety francs).

B Both dimensions exceeding 1 metre, per square metre, ground surface 90 francs (ninety francs)

The charge for detached spaces allotted will in no case be less than 90 francs (ninety francs).

Central Galleries.

In the central galleries the charge will be	{	Collective space, per square metre 90 francs (ninety francs) detached spaces per square metre 130 francs (one hundred and thirty francs).
		Single frontage, per square metre . 70 francs (seventy francs).
Charge for rooms having at least 5 metres frontage and 5 metres depth	{	Corner frontage, per square metre . 90 francs (ninety francs).

The allotted space will be measured along the greatest length and width above the floor.

II.—WORKING MACHINERY.

For all working machines, propelled by steam, water, gas, electricity or general transmission, a sum equivalent to 50 per cent of the amount charged for space will be repaid to the exhibitor, upon production of proof of payment of at least as heavy a sum for force consumption

The reduction will only be allowed if the machinery works at least five hours per diem and four days weekly.

The spaces allotted will be measured along the greatest length and width above the floor.

III.—GROUNDS—SHEDS AND TENTS IN THE GROUNDS

Of whatever height :

A The depth not exceeding 1 metre, per lineal metre frontage, 25 francs (twenty-five francs)

B The depth exceeding 1 metre, per square metre, ground surface, 25 francs (twenty-five francs)

The charge for space allotted in this department will in no case be less than 25 francs (twenty-five francs).

For space allotted under sheds or tents, the above charges will be increased by 5 francs (five francs) per lineal or per square metre according to circumstances

Payments

Rent for space allotted will be collected by the Executive Committee. When above 1,000 francs it will be payable half on allotment and half on April 1st, 1897.

Rent below or equal to 1,000 francs will be payable in one sum on allotment

Non-compliance with the terms will annul allotment

Space rented can neither be ceded, exchanged or sublet without the special consent of the Executive Committee

Raise of flooring and extra foundations and strengthening of existing flooring for heavy exhibits will be made after approval by the Executive Committee at the expense of exhibitors, whether singly or collectively. The special arrangements thus entailed must be approved by the Executive Committee and by the Commissary General of the Government

Special terms will be made for the hire of large spaces in the Halls and Grounds

The passages for public circulation as shown on the plans annexed to the Building act must be reserved and strictly kept free, and no infringement in this respect will be tolerated

The passages for public circulation comprised within a section of ground rented in one block, or the half of said passages for spaces rented in front of same, will be reckoned for in the measurement of hired spaces

ART XXXIX—All special and private decoration will be at the expense of exhibitors, either singly or collectively and must be approved by the Executive Committee and the Commissary General of the Government

ART XL—Exhibitors, either singly or collectively, must bear all special charges, such as private decoration, raising and strengthening of flooring, partitions and coverings, ceilings, blinds, supply of fixtures, installation, decoration, laying out of goods, preservation and cleaning of exhibits, foundations, fitting up, motive power, steam, water, gas, electricity, taking to pieces and unmounting, storage of empties, insurance, planting and special levellings, custom or excise duties, licenses for refreshments, etc, etc. All these arrangements must be approved by the Executive Committee and by the Commissary General of the Government.

Exhibitors who undertake to store their own empties must remove them immediately after unpacking, and must conform to the regulations of the Executive Committee

If exhibitors desire it, the Executive Committee will undertake the storage of empties and their return for packing at the close of the Exhibition, but will not be responsible for the condition of the empties when returned

Rent for storing empties will be charged at the rate of 2 fr 50 c per square metre of ground they occupy, measured along the greatest dimensions above ground, with a minimum charge of 2 fr 50 c for any empties, less than one square metre.

Contractors for hiring out showcases, mirrors, furniture, etc, and stall-keepers in the grounds will not be entitled to storage or sending back of empties. The Executive Committee will not take charge in any way of the above empties or packing cases.

ART XLI —Exhibitors must carry out, at their own expense, unpacking, installation, laying out and repacking of their exhibits, and also the repairs of the empties

ART. XLII —Exhibitors requiring steam, water, gas or electricity must state on the form of application for space the quantity of steam, water, gas or electricity they may require per hour

When motive power is required, the speed and horsepower desired must be stated

Motive power, electricity, water and gas will be supplied under special rules and special tariff

Special regulations, which will be supplied on application, will govern the fitting up and working of machinery

ART XLIII —When the Company undertakes the handling of goods the greatest precautions will be taken, but it is expressly stipulated that it will not be held responsible, in any case, for loss, shortage, damage, dilapidation, etc., that may happen to the packages or their contents

The handling of goods comprises

A Receiving same within the Exhibition,

B Delivering same on the spot where they are to be exhibited,

C Removing of empties and packing cases,

D Replacing the empties and packing cases on the spot for repacking,

E Removing the goods when repacked

Exhibitors must conform to the instructions of the Executive Committee to facilitate the removal of empties

Special terms must be arranged with the Executive Committee for the handling of packages exceeding 1,500 kilos, also for any single objects exceeding that weight, such as blocks of stone, marble, iron, parts of machinery, guns, moveable engines, etc., also when the dimensions of packages exceed the surface of ordinary railway trucks, such as timber, bar iron, beams, etc., rolling-stock (locomotives, railway and tramway cars, wagons), boats, bulky goods and breakable articles. In special cases exhibitors may be required to assist or undertake entirely the handling of certain goods

The Executive Committee reserve the right of making special terms, for handling goods and storing empties, with all countries officially represented, particularly with those countries with which special arrangements have been made regarding space hire.

ART XLIV —Articles of everyday sale, also those manufactured on the spot, may be sold and delivered to visitors on payment of a tax, to be fixed by agreement and subject to special regulations. No sale of this kind can take place inside the halls without special written permission from the Executive Committee

No refreshments may be provided inside the halls unless by special permission of the Executive Committee. The sale of refreshments in the grounds and gardens of the Exhibition is subject to a tax and to special arrangements to be made with the Executive Committee

ART XLV —Exhibitors as such, agree to these rules and regulations and to all special regulations which may hereafter be made

Exhibitors or contractors must register an address in Brussels

ART XLVI —All communications relating to the Exhibition must be addressed post paid to the Chairman of the Executive Committee, 10, rue du Congrès, Brussels.

By order of the EXECUTIVE COMMITTEE, August 26, 1895.

SOCIAL ECONOMY

FIRST DIVISION —LABOUR

GROUP II

The labour itself

Class 5 —Instruction and Apprenticeship —Primary Instruction in regard to the development of professional taste —Professional Instruction —Apprenticeship

Class 6 —Organisation and Conditions of Work —Organisation and Conditions of Work in the trade —Large Factory Work, Small Factory Work, Hand-Work, Home-Work, Co-operative Societies of Production —Geographical Distribution of Industries, Displacement of Industries and of Workmen

Class 7 —Professional Associations —Offices of Placement, Labour Offices —Professional Unions of Masters and Workmen —Guilds and Corporations —Institutions of Conciliation and Arbitration

GROUP III

Safety and Ruling of Work

Class 8 —Safety in the Yards —Scaffoldings, Props, Precautions against the Downfall of Stones, Arrangements for Loading and Unloading, as also for the Handling of heavy objects, etc

Class 9 —Safety in Industrial Establishments Generally —Management of Workshops —Protectors against burning and poisonous stuffs, etc —Means of Precaution in working Steam Generators —Measures of Protection relative to 1st Steam Motors, 2nd Turbines and Hydraulic Wheels, 3rd Gas and Petroleum Motors, 4th Electric Motors, 5th all kinds of Motors —Measures of Protection against Shalts, Bands and Gearings, Projecting Pieces fixed and movable, Coupling and Uncoupling —Arrangements for replacing Bands —Brake Apparatuses, Oiling Apparatuses. —Arrangements for the Safety of Apparatuses and Engine tools, Apparatuses for Leverage or Transport, Windlasses, Cranes, Hoists, Lifts. —Special Apparatuses for different trades (Engine Tools, Presses, Saws, Wood Turning Machines, Mills, Beaters' Carding, Lapping Machines, Delivering Rollers, Combing Machines, Jack Frames, Spinning Frames, Selfactings, Drying Machine, Mangles, Shearing Machines, Brass Rollers, etc, etc.

Class 10.—Organisation and Methods of work adopted in industries particularly dangerous —Plans and models of the factories and workshops

Class 11 —Safety in Mines and Quarries —Protection against fallings in —Use of Explosives —Safety Appliances for the removal of men in pits and for underground transport —Protection against injurious Gases, and Explosions, etc.

Class 12 — Safety in the industry of transports by land and water — Railway Safety Appliances.—Lighting the Coasts, Banks, and Rivers. Preventatives against Collisions — Safety Apparatuses in reference to transports by road, etc

Class 13 — Results obtained from the improvement of the sanitary conditions in industrial establishments. Results due to the application of measures taken to prevent illnesses owing to the work — Propaganda in favour of the safety in industrial establishments — Free and official Associations

GROUP IV.

Workmen's life.

Class 14 — Budget of working families — Salaries and other resources of the workman. — Food — Clothing — Lodging — Furniture — Economical supply establishments — Co-operative societies of consumption

Class 15 — Types of workmen's houses and workmen's furniture

Class 16.—Moral and intellectual life — Workmen's clubs, Patronages, Libraries, etc

GROUP V

Legislation and history of labour

Class 17 — Legislation of labour — Laws and Rules concerning labour — Results obtained

Class 18 — History, Statistics and Bibliography of social economy — History of labour — Statistics — Offices of labour — Bibliography.—Museums of Social Economy

SECOND DIVISION — SOCIAL WORKS

GROUP VI

Saving and Provident Institutions.

Class 19 — Saving — Instruction in Providence — Intervention of Public Authorities in matter of Providence.

Class 20 — Insurances — Personal Insurances against illnesses, accidents, invalidity, old age, stoppage of work — Life Insurance — Mutualities — Life annuities and Patrimones — Insurances of things

GROUP VII

Institutions of Credit Patronal and Benevolent Institutions

Class 21 — Institutions of credit — Banks of credit, Rural Banks of credit — Co-operative Societies of credit generally — Pawn-brokers

Class 22 — Building Societies for Workmen — Free and official institutions

Class 23 — Patronal and Benevolent Institutions — Patronal Institutions — Public and Private Benevolence.—Homes for Orphans — Refugees Asylums and Alms houses — Protection of infants.

THIRD SECTION

HYGIENE — MEDICAL AND PHARMACEUTICAL ARTS

A — HYGIENE

GROUP VIII

Hygiene in general and prophylactic Hygiene

Class 24 — Plans, Models and Ordonnance of Laboratories for the study of hygiene and of sanitary technic — Material in use — Works and Publications referring there to — (a) Analysis of food, (b) Infectious diseases, (c) Meteorologic, endogenic and atmospheric stations

Class 25 — Works, Publications, plans, tables and studies relative to public health and sanitation — National and International Institutions Health offices, Demographic and medical

statistics, municipal and other Syndicates for the execution of Sanitary Works and organisation of Sanitary services —Associations for the sanitary inspection of houses.

Class 26 —Works relative to the study of prophylactic measures and isolation, Plans and Models of posts of observation, Lazarets and Isolation Hospitals. Sanitary service of Ports. Material and mode of Disinfection and Vaccination. Plans and organisation of Disinfection Halls according to the importance of the locality. Sanitary Stations Maritime, Bathing, Hydromineral, Climatic

GROUP IX

Urban and Rural Hygiene

Class 27 —General plans of improved sanitary conditions and enlarging of agglomerations (Width of streets, plans for new Districts, establishment of Squares, height of Buildings, etc.). Modes of Protection of Public roads. Pavings. Carrying away, utilisation and destruction of refuse from the Roads and of rubbish from houses.

Mode of evacuation of excremental matters, waste liquids and surface water, Purification and utilisation of filthy water and of manufactory water. Ventilation of sewers, rendering wholesome of rivers, etc., draining of marshes. Plans and models of canalisations, Flush Reservoirs, etc. Wells and movable tanks. Material and systems of emptying.

Class 28.—Various systems of capitation, distribution of water, filtration and sterilisation, machines and apparatuses used thereto pumps, conducts, meters, wells, etc.

Class 29 —Plans, models and material of Public Baths, Popular Baths, etc. Douche Baths, Public washing and drying houses.

Class 30 —Studies and selection of ground for cemeteries, plans of cemeteries. Mortuary Galleries, Apparatuses and modes of cremation, Crematory furnaces. Material and modes of transporting corpses. Material employed for inhumations. Plans and models of the installations of mortuary depôts. Mortuaries, Institutes of Anatomy, Inquest Rooms. Apparatuses for help in cases of apparent death. Modes for improvement of the sanitary conditions in mortuary depôts, Cemeteries, battlefields, etc. Modes and materials used for the conservation and disinfection of corpses.

GROUP X.

Hygiene of houses.

Class 31 —Plans and models of private houses and model dwellings, Public buildings, Churches, Government Buildings, Theatres, Meeting Halls, etc.

Preparation and pavement of the ground. Building and decoration materials, stones, bricks, tiles, metals, wood, colours, varnish, etc. Systems and installations of ventilation, heating and lighting. Distribution of drinkable water, filters. Drainage and removal of waste matters. Water-closets, urinals, sinks, basins for passing dirty Water, Wash stands, Baths. Furniture and utensils particularly interesting the hygiene of houses. Disinfection of private houses and model dwellings.

Class 32 —Plans and models of establishments of instruction. Primary schools, colleges, Superior schools and Universities. Institutions for deaf and dumb and blind people, backward children and idiots.

School furniture, teaching materials, forms, chairs, desks, blackboards, etc. Conditions of their good hygienic installation. Classic material for the use of pupils.

Class 33 —Plans and models of barracks, prisons, Depôts for beggars, Reform schools, Civil and Military hospitals, university and private clinical surgeries, maternities, lunatic asylums, Asylums for epileptics. Almshouses, Homes for orphans, Convalescent homes, Maritime hospitals and Sanatoria, Lazarets or hospitals for contagious diseases, Temporary homes for persons without resources, drunkards, etc. Special furniture for these establishments from a hygienic point of view.

Class 34 —Arrangement of vehicles for the transportation and lodging of persons; vessels, boats, railway wagons, sleeping cars, dining cars, tramway carriages, Gipsy caravans, Ambulances, etc.

GROUP XI.

Corporal Hygiene.—Alimentary Hygiene.—Hygiene for Children

Class 35 —Clothing in general and toilet requisites considered from a hygienic point of view. Clothing and equipments for certain professions or occupations (Army, Navy, Railwaymen, miners, tourists, workmen, and servants), Laundry —Works relative to the bathing and exercising of corps, games, etc., from a hygienic point of view —Gymnastics.

Class 36 —Samples, models, tables, Works and publications relative to the physiological study of the nourishment and illnesses produced by an insufficient, defective or unhealthy

alimentation.—Alcoholism.—Measures and modes for the inspection of the manufacture and sale of food.

Class 37.—Unprepared animal and vegetable substances used as food.—Mineral table waters —Material and processes, particularly recommended from a hygienic point of view, for the industrial preparation of these substances.—Modes for preserving and warehousing fresh articles of food of all kinds.—Preserves, methods and processes of manufacture.—Processes destined to prevent the deterioration of food.—Sterilisation —Utilisation of food and new condiments and unknown goods —Victualling

Class 38 —Materials and modes of transport, by land and water of food to the places of consumption. (Cattle, poultry, fish, meat, fruit, vegetables and other victuals.)—Plans and models of markets, slaughter-houses, etc —Shops, stalls, etc

Class 39.—Immediate preparation of foods —Economical cooking —Regime of hospitals, alms-houses, Homes for orphans, prisons, etc —Methods and Processes for perfecting the preparation of food and drinks —Kitchen utensils

Class 40 —Hygiene for children —Infantile alimentation (artificial feeding).—Clothing.—Habitation.—Asylums.

GROUP XII.

Industrial and Professional Hygiene.

Class 41.—Unhealthy industries, Plans and models of improved factories and workshops, etc; Arrangements for Ventilation, heating, supply of fresh water, closets and refuse, disinfection, lighting, particular cares of the staff of these establishments, etc.—Washing houses, baths, douches, etc

Apparatuses and modes of protection of workmen against the inherent inconvenience of the work dust, irritant and poisonous vapours and gases, germs of transmissible affections, etc.

Apparatuses and modes for protecting the healthfulness of the neighbourhood.

Arrangements to prevent illnesses and infirmities, liable to intellectual, industrial and manual professions, etc

Works and publications treating industrial and professional Hygiene

B.—MEDICAL AND PHARMACEUTICAL ARTS

GROUP XIII.

Medical and Pharmaceutical Arts.

Class 42 —Instruments for medical exploration —Surgical instruments and apparatuses.—Dressing apparatuses —Prothesis apparatuses plastic and mechanic —Orthopædic apparatuses.—Bandages —Electric apparatuses —Pneumatic apparatuses —Medical bath and hydropathic apparatuses —Pulverisation and inhalation apparatuses —Medical gymnastics and massage.—Ophthalmologic, gynecologic, laryngologic, otologic and rhinologic instruments, etc —Optical instruments and apparatuses.—Dentists' instruments and apparatuses —Material for the transport of ill and wounded persons —Various apparatuses for ill and infirmed persons and lunatics —Necessary objects for the medical and surgical service of hospitals and infirmaries —Dressing boxes.—Cases and trousseaus of instruments.—Ambulances.

Class 43 —Material for the installation of Pharmacies —Material for manufacture and work.—(Drugs—Vegetable drugs, officinal animal products, chemical products used in Pharmacies, mineral waters)—Pharmaceutical preparations —Patent medicines —Pharmacy accessories.

Class 44 —Organisation of Veterinary medicine —Instruments and apparatuses —Hygiene of sheds and stables —Prophylactic measures against epizootics.—Prevention of contagious diseases.

FOURTH SECTION.

LIFE SAVING APPARATUS.

GROUP XIV.

Fires.

Class 45 —Individual action —Means of prevention in houses, farms, factories, theatres, etc. Lamps, burners, stoves, canalisation of electricity and gas, matches, etc.

Precautions against spontaneous combustion, inflammability of all warehoused goods. Modes of rendering material, decorations, cloth, and constructions incombustible. Warning apparatuses. Means of extinction, pails, cloths, powders, sulphur, liquids, etc.; Automatic and other extinguishers, pumps, etc.

Ventilation, salvage, assistance.

Class 46 —General action —Safety appliances, warnings, public education, visits to buildings, workshops, etc., Alarms, Organisation division of territories by zones, distributions of posts and warning instruments, distribution of plant, communication between the posts and the authorities.

Class 47 —Means of action.—Reservoirs, wells, cisterns, plug holes, large extinguishers, hand and steam pumps, pipes, junctions, cocks, squirts; uniforms and equipments for men, horse harness, means of transport.

Class 48 —Means of assistance —Ladders, ropes, hooks, sacks, parachutes, lighting and respiratory apparatuses —Instruments for breathing and salvage in cellars, wells, etc.; Medical cases.

Class 49 —Library concerning everything in reference to fires.

GROUP XV.

Accidents on land under water

Class 50 —Maritime salvage in general. Models of fixed and floating salvage stations. Life boats and other various articles —Signals of all kinds —Fog signals. —Means of preventing collisions, Machines for repairing leaks and other damages.—Fire extinguishers for ships. Life belts. Diving dresses and apparatuses —Various rafts.

Class 51.—Salvage on Rivers and Shores—Buoys not serving for coast marking. Salvage barges —Cabins, Medical cases.—Salvage material for beaches, Rescuing perches, hooks and buoys.

Class 52 —Salvage in case of inundation, Rafts. Rescue on and under ice for ships as also persons —Ladders and apparatuses in case of accidents on the ice. Apparatuses and machines for sounding.

Class 53 —Library concerning this group

GROUP XVI.

Accidents on and under ground

Class 54 —Salvage apparatuses relative to mines, quarries, metalworks and railways, which are not absolutely necessary for the working of these industries —Library concerning this class.

Class 55 —Every apparatus, mode or organisation relative to all accidents not included in the preceding classes

All means for *preventing* accidents not classed in another section

1st Material and Rescuing apparatuses in case of accidents.

(a) In sewers and domestic wells,

(b) In Buildings;

(c) In case of explosions from Gas or Lightning,

(d) „ boiler explosions,

(e) „ accidents due to electric currents,

(f) „ tramway, carriage and cycle accidents.

2nd Carriages for the transport of wounded people, Assistance apparatuses in general boxes, hand-carts, ambulances, aid posts, tents, huts, etc

Library concerning this class.

N B —All which concerns the Hospital and Life Saving service on battlefields is put in Section 8

FIFTH SECTION.

INDUSTRIAL AND DECORATIVE ARTS.—LIBERAL ARTS SCIENCES.

A.—INDUSTRIAL AND DECORATIVE ARTS.

GROUP XVII.

Metal.—Glass.—Ceramic.

Class 56.—Diamond-cutting industry.—Preparation and cutting of diamonds —Lapidary art in general.—Preparation of precious metals. Refinement, Stamping, etc.—Goldsmiths'

work of art, table and decoration work, etc.—Fine Goldsmith's work.—Jewellery.—Stone Mounting and Setting. Precious Metal chiselling.—Imitation Gold Works.—Fancy Work in Imitation Gold.—Clock and Watchmaking.

Class 57.—(a) Art Bronzes and Bronzes for furniture. Heating and Lighting Apparatuses as regards Models and from an Artistic and Decorative point of view Art Tin-Work. Gravings Damascening Coins, Medals, Locketts, Applications of Galvanisation.

(b) Artistic Iron Castings Objects in Copper, Bronze, Nickel, Zinc, etc., for the Building Industry. Cutlery. Kitchen Enamel Ware

(c) Art Iron Works Iron Forgings, Complete Armours and Panoplies, Artistic and Decorative

Class 58—White and coloured Window Panes of different thicknesses, Fluted, Convexed, Smoothed, Sanded, Frosted, Dull, Sheet Glass, and engraved Glass, Opals and Enamels, etc., White Glazings, Quicksilverings, Silverings, Smoothed and Engraved Articles, Bevellings, Framings, Smooth and Relieved Unpolished Glass, Pressed Pieces, in Glass, etc Crystals and Glass Work of every kind. Lighting and Fancy Articles Paintings on Glass.

Class 59.—Artistic Ceramic Decorative Panels White, Coloured and Decorated Earth-Work and Porcelain Majolic, Biscuit, Pottery, Artistic Stone ware, Enamels of all kinds, Tiles for Walls, etc.; Paintings on Biscuit, Earth-Work and Porcelain.

GROUP XVIII

Furniture and decoration for houses

Class 60—Furniture in general. Complete Suites and single Pieces of Furniture Hangings

Class 61—Decorative Paintings. Frescoes and Graffitoes Wall Paper and Wall Cloth. Imitation of Embroideries and Tapestry painted on Linen and other Cloth Imitation of Wood, Marble and Faience Imitation of Paintings on Glass Unvitrified Paintings on Glass, Ornaments in Plaster or Paste, Mouldings drawn in a rough state, Smoothed, Ornamented, Painted or Gilded Frames for Glasses or Pictures, other than those in natural wood.

Class 62—Stuffs, special Carpetting and Tapestry for House Furnishing such as Tissue Goods, Prints on Silk, Wool, Cotton, or other Stuffs Embroidered, Stitched and Braided Velvets, Silks and Wools—Smooth, Painted or Figured Velvets of all kinds in Wool, Goats hair, Flax or Jute. Cretounes, Chintz. "Aubusson" and other Tapestry. Imitation Woven or Printed Tapestry Hair, Alce, or Felt goods, Repoussé or stamped Leather. Painted, Gilded, or Decorated, Carpets of all kinds and stuffs, Oil Cloths, Linoleum, etc

Class 63—Theatrical Art Material—Scenery, apparatuses, Lighting, costumes, etc

GROUP XIX

Architecture and Building Industry.

Class 64—Plans and models of houses, villas, castles, public buildings, etc,—Arrangement of outhouses.—Designs of fronts, and constructions of style

Class 65—Worked and sculptured marbles, chimneys, busts, statues, clocks, pedestals, objects in marble and metal combined.

Class 66—Materials of construction from a decorative point of view

Class 67.—Application of architectural and decorative art to the installations of the Exhibition, fronts of stalls, entries, and constructions erected in the gardens

GROUP XX.

Church Art.

Class 68—(a) Church Goldsmiths' work in general, (b) Bronzes, brass work, etc Pictures, paintings on glass, and cartoons. Frescoes, decoration, (c) Sacerdotal ornaments, embroideries, symbolic stuffs, (d) Furniture for churches and temples, ivories, Covers for Evangile Books, Leaves for diptychs, triptychs, Reliquaries; (e) Designs and Rough Models in Clay of furniture, Sculptures, (f) Church architecture Plans and Designs for the Construction and Restoration of Churches

All these objects considered from the special point of view of their destination.

GROUP XXI.

Applied Art.

Class 69.—Rough Clay Models, Drawings and Models for the Industrial Application of Art.

Class 70.—Works executed by the artist alone or with assistance.

Class 71.—Industrial Products named in the General Official Catalogue of the Exhibition and being of an artistic character

B.—LIBERAL ARTS

GROUP XXII.

Graphic Arts

Class 72 —Material for the Arts of Drawing and Painting —Canvasses, Panels, Colours. Inks, Brushes, Pencils, etc —Set Squares, Rulers, Compasses, etc —Geometry and Architectural Instruments, etc Stationery in general.

Class 73 —Photography (a) Artistic Studies (Professional and Amateur), (b) Other Proofs of all kinds (ditto), (c) Scientific Photography, (d) Processes of Photo-copying and Photo-drawing; (e) Material and Products for Photography (Optics, Chemical Products, Cabinet Work and Accessories)

GROUP XXIII.

Printing and Book Industries.

Class 74 —Engraving and Casting Type. Steel, Copper, Lead, Wood and Stone engravings Zincograph, Stereotype, Electrotpe, and other plates for Lithograph and Typograph Printing. Inks and Varnish. Roller pastes.

Class 75 —Machines and Tools for different Printing, Lithographing, Stitching and Binding Departments, etc —Printer's Furniture.

Class 76 —Typography —Lithography.—Chromotype and Lithography.—Autography —Bible and Church Images —Stamping.—Colouring.—Designs, and Lithographic stones

Class 77 —Pamphlets.—Newspapers.—Books —Periodical and other Publications.—Artistic Editions.

Class 78 —Stitching and Covering —Registers —Fancy and Ordinary Binding —Gilding —Requisites, Paper, Cardboard, Leathers, and Special Tissues.

GROUP XXIV.

Musical Instruments —Musical Art.

Class 79.—I. Autophone Instruments (a) Hand Organs, etc., (b) Musical Boxes, etc.

II. Parchment Instruments (a) Drums, etc.; (b) Tamborines, etc

III. Wind Instruments (a) Clarionets, etc., (b) Flutes, etc., (c) Church Organs, etc.; (d) Trumpets.

IV. Cord Instruments. (a) Violins, etc.; (b) Mandolins, etc.; (c) Pianos, etc.

V. Instrument Accessories, Detachable Pieces and Orchestra Material.—Tuning-Forks and Flutes and Acoustic Apparatuses

VI.—Music Editions and Publications, Instrument Teaching Books Works on the Theory of Music, and the Organography and History of the Art.—Musical Compositions edited since 1st January 1896.

C.—SCIENCES.

GROUP XXV.

A.—Physical and Mathematical Science.

Class 80 —Mathematics and Astronomy, Mathematics, Mechanics, Astronomy; Physics of the Globe and Meteorology; Geodesy; Topography.

Class 81.—Physic ; Meteorology , Physic.

Class 82.—Chemistry , Physico-Chemistry , Techno-Chemistry , Photo-Chemistry.

B —Natural Science.

Class 83 —Geology and Geogriaphy Geology, Geogeny, Applied Geology , Mineralogy
Petrogiaphy , Cristallogiaphy , Paleontology , Geography

Class 84 —Biology , Botany , Zoology , Phys-iology , Bacteriology.

Class 85 —Anthropology.

Class 86 —Bibliography.

SIXTH SECTION.

LIGHTING, HEATING, VENTILATION AND APPLICATIONS THEREOF.

GROUP XXVI

Lighting

Class 87 —Illumination by Solid or Liquid Mitters , by Threads, Ribbons, or Metallic
Powders, by Mineral, Animal or Vegetable Oil.—Raw Materials and Manufactured Products —
Secondary Products —Torches, Tallow, Wax, Stearine Candles, etc Tapers, Night
Lights, Matches —Plant for Manufacture and Utilisation

Class 88 —Illumination by Gas , Coal Gas —Water Gas, Gas from Essences, etc —Raw
Materials, and Secondary products.—Plant for Manufacture, Distribution and Utilisation

Class 89 —Electric Lighting —Apparatuses for the Utilisation of Electricity for lighting ;
Arc and Incandescent Lamps, Various Lamps, Cubons, Wicks and Threads for Electric
Light —Various Accessories

Class 90 —Apparatuses and Modes for Measuring, Controlling and Testing Meters for
Lighting substances —Apparatuses and Modes of Testing and Controlling Solids, Liquids and
Gases used for Lighting —Apparatuses and modes of measuring light

GROUP XXVII.

Heating and Ventilation.

Class 91 —Raw Materials and Manufactured Products for Heating

Class 92 —Heating for Houses , Warmers, Kitchens —Bath Heaters.—Ovens, Roast-
ing Stoves, Grilling Stoves, Coffee-burners —Coffee-pots, Water-baths, etc —Heating of
Buildings by movable appliances Chimneys, Stoves, etc

Class 93 —Heating by distributing Apparatuses Hot Air, Water, and Steam Stoves.—
Mixed Heating Stoves —Distributing Material and Accessories

Class 94 —Industrial Heating Boilers —Safety Apparatuses and Accessories —Modes
of Heating and Heating Apparatuses used in the Industry Metallurgy, Chemical Industries,
Glass making Manufacture of Ceramic Products, etc —Heating of Vehicles

Class 95 —Apparatuses and Modes of Technical and scientific Heating —Apparatuses and
Modes of Measuring and Controlling —Ovens and Heating apparatuses used in Laboratories —
Thermometers, Pyrometers, Calorimeters —Apparatuses and Modes of Drawing and Ventila-
tion applied to Heating and Lighting.—Chimneys and Ventilators

GROUP XXVIII.

Special applications for Lighting and Heating.

Class 96.—Light projectors Light-houses, Mines, Microscopy, and Photography.—
Various Applications Lighting by Natural light, etc

Class 97 —Steam, Hot Air and Gas Thermic Motors, etc —Electric Soldering and
Forging —Heating by Electricity —Fire Warning Instruments —Sundry Applications.—
Apparatuses for utilising the Solar Heat

Class 98 —Retrospective study of various means of Lighting and Heating from the
most remote times

N B—The Plans, Models and Apparatuses for the Distribution of Heat or Light in
Houses from a hygienic point of view are classed in the Hygiene Section.

SEVENTH SECTION. ELECTRICITY.—TRACTION.

GROUP XXIX.

Electricity

Class 99 —Generating Dynamos, Batteries, Accumulators, Reverseis.

Class 100 —Measuring, Controlling and Safety Apparatuses Distribution Boards
Circuit Breakers and Commutators Electric Meters Ammeters. Voltmeters Wattmeters
Current and Force Registers, etc. Sundry Accessories

Class 101.—Apparatuses and Material for Transport and Distribution Wire Cables.
Insulating Material. Various systems of Canalisation and Distribution Posts, Insulators,
Commutators, etc. Safety Appliances, etc. Instruments and Material for Laying lines

Class 102 —Telegraphy Telephony.

Class 103 —Electro-Chemistry Electro-Metallurgy.

Class 104 —Sundry Applications not mentioned in the preceding classes, Electric Clock
Work, Lightning Conductors, Signals, Detonators, Indicators Registers, Bells, etc

Class 105 —Historic and Bibliographic Collections. Apparatuses for the Study and
Teaching of Electric Science

The Life Saving Section will contain the Electric Apparatuses for the uses mentioned in
the classification of this section

GROUP XXX

Traction.

Class 106 —Machines for Locomotion and application of different systems of Traction
by Cable Chain, Wire, Gearings, etc —Various Roads —Metals —Aerial Roads, Funiculars,
Inclined Planes, etc

Class 107 —Electro-motors.

Class 108 —Transmission of movement, Driving apparatuses Safety appliances, etc

Class 109 —Machines for Locomotion, Horseless Carriages of all kinds, Electric, Steam,
Gas, Essence, Petroleum, Mechanical, etc, for ordinary roads

Class 110.—Locomotives and Self-propelling Carriages running on Rails —Boats, etc

Class 111 —Rolling Stock of Railways and Tramways

EIGHTH SECTION.

MILITARY ART.

GROUP XXXI

Ordnance

Class 112 —Powders, Explosives, Primings, Powder magazines and Laboratories —
Apparatuses and Plant for Manufacture.—Testing and Examining Instruments, etc

Class 113 —Small Arms, Swords, etc —Fire Arms.—Ammunition —Manufacture of
Arms and Ammunition —Instruments for Examining and Testing, etc

Class 114 —Field Ordnance —Pieces of Ordnance —Projectiles, Charges, Primings —
Armaments, Accessories, etc —Manufacture of Ordnance and Ammunition —Rolling Material
for Batteries and Ammunition Columns —Material for Bridge equipment

Class 115 —Siege, Place, Coast and Marine Ordnance —Ordnance —Carriages, Platforms
— Projectiles, Charges, Primings —Armaments and Accessories, etc —Manufacture of Ord-
nance Pieces and Ammunition —Instruments for manœuvres and Transports —Modes of
Packing Ammunition and Primings and Preserving them in Magazines —Tools and Material
for the construction of Batteries.—Sighting Apparatuses.

GROUP XXXII

Engineer's Service.

Class 116 —Constructions and Barracking Types, Plans and Designs of Buildings,
Magazines, Barracks and Military Hospitals.

N B —Plans and Models of Barracks and Military Hospitals which interest the Hygien
of habitations are classed in the third Section

Class 117 —Service of Fortifications and Pioneer Service Organisation of Fortresses — Applications of Armored and Beton Revetments, etc., to Fortifications —Turrets and Towers — Blindings —Defences —Mines —Material and Tools for Pioneers, Sappers and Miners.

Class 118 —Means of Observation, Transport and Communication, Electric projectors — Photography —Aerostation —Bridges —Railway Material —Military Cycling, etc —Telegraphy and Telephony —Visual Signals, etc —Pigeon Houses.

Class 119 —Naval Ships —Means and material for under-water attacking and defending —Models of Ships, Torpedo Boats, Coast Guard-Ships, Launches, Ship's boats.—Torpedoes, etc.

GROUP XXXIII

General Service.

Class 120 —Military Teaching, Instruction and Education.—Military Bibliography — Military Cartography, Cards, Apparatuses, Instruments and Means used in the Cartography Service, and Reconnoitring, Field Glasses, Telescopes, Telemeters, Apparatuses for Photographing plans, etc

Class 121 —Equipment and Encampment Requirements for Large and Small Equipment —Tents and Shelters for men and horses —Covers and Canteens —Sundry Objects

Class 122 —Harnessing and Shoeing Harness, Pack-saddles and means of attachment for Saddle Draught and Pack Horses, and other animals of burden Farmer's Tools and Material, etc

Class 123 —Administration, alimentation Post-Wagons, Travelling Offices, Various Wagons, Victual and Forage Wagons —Transports of Victuals and Forage by Road, Railway, and water —Portative or Rolling Kitchens and Ovens —Alimentary Products and Material for their manufacture

Class 124 —Rescuing Services Army Hospital Services —Material for the Army and Red Cross Field Hospital Service Instruments and Dressing Material used by the Army and Red Cross Hospital Service —Ambulances —Movable Hospitals —Field Hospitals —Stationary War Hospitals —Sanitary Trains by Railway and Water

NINTH SECTION.

MANUFACTURES : PLANT, PROCESS ES AND PRODUCTS.

GROUP XXXIV

Mechanical Plant and Processes

Class 125 —(a) Steam and Gas Generators, etc —Purifiers —Apparatuses and accessories for Generators.

(b) Steam, Gas Petroleum or Essence, Compressed or Rarefied Air, or Hot Air Motors, etc Parts of, and Accessories for these Motors

Methods of testing and controlling Steam Apparatuses

Hydraulic Motors —Wind motors and pananemones

(c) Various Apparatuses for General Mechanism Power transmitting Apparatuses, bands, etc —Oiling, Weighing, and Lifting Machines, etc —Liquid Raising Machines

Class 126 —Metal Turning Machines Rollers and Drawing plates, Lathes, Shaping, Planing, Cylinder Boring, Mortising and Punching Machines and Cutting Presses, Shearing Machines, Perforators, etc, Grinding Machines Plant and Various tools for Metal Works.

Class 127.—Wood Turning Machines —Tree felling and Sheng in forests and yards by means of machines worked by Steam Gas, Electricity etc —Sawing Machines for turning logs into trade wood —Machines for the manufacture of Carpentering, furniture, Wagons, Railway Material, etc —Stamping and Chasing Machines —Machines and Apparatuses for Stucco, Paste Board, Ivory, Bone, Glue, Meerscham and Amber Work —Preparing Machines for sculptures, sculpturing machines, machines for reducing statues Engraving and Rose Engines —Plant and various Tools for the work of these matters

GROUP XXXV.

Plant and Modes of Civil Engineering and Building.—Materials.

Class 128 —(a) Building Materials, Rock, Stone, Marble, Wood, Cork, Metal, Lime, Sand, Cement, Trass Plaster, Mortar, Beton and Concrete Artificial Stones. Asphalte,

Bucks, Tiles, Paving Stones, Artificial Sand Paving Stones, Pipes, Slates, Tar Board, Carton pierre, Cloth, etc., for roofing.

(b) Material and Plant for Earth-works, Foundations of all kinds, and other various Building Branches

(c) Material and Products used for the preservation of Wood Apparatuses and Modes of testing Building Material

(d) Material and means of distributing Water and Gas

(e) Material and Modes of Pneumatic and Compressed Air Telegraphy

(f) Roads generally : Bridges, Viaducts, Aqueducts.

(g) Interior Navigation

(h) Sea-Ports, Ship Canals, Lighting and Buoying the Coasts

(i) Railways from the special point of view of direction line and Bridge Work.

(j) City Road System Water Supplies, Gas Lighting. Sewage. Plantations, etc.

(k) Bibliography, Statistics, Publications referring to Building and Public Works

Class 129 —Plastic Earth and Fireproof Products Vases for Chemical Products Gas Retorts, Muffles, etc —Material for the manufacture of these Products.

GROUP XXVI.

Mining

Class 130 —Material, Modes and Products for the working of Mines, including modes of loading and unloading

(a) Material and modes of underground Topography, prospecting and boring for Artesian Wells Shaft Sinking and Timbering, Gallery Driving, Excavating and Blasting and Cutting, underground Conveyance Extraction of Products, Lowering and Raising workmen, Draining, Airing, Lighting, Salvage, Exterior conveyances and handling of the extracted products, working of Salt and Petroleum Mines, etc

Apparatuses for washing and Mechanical dressing of Ores, etc, for agglomerating and carbonising combustibles

(b) Products —Sundry Minerals Gems Precious Stones Rock Salt Raw Sulphur Natural Mineral Colours, Natural Mineral Manure. Combustibles Minerals, Turf Brown Coal, etc, Petroleum, Raw Asphalte. Tar, etc

Metallic Ores of all kinds.

Class 131.—Plant and Modes of extracting Quarry Products, including modes of loading and unloading

(a) Plant and modes for working open and underground quarries, etc.

(b) Rocks, Building Stones —Lime and Cement Stones —Slate, Sand, Clay, etc.

GROUP XXVII.

Metallurgy

Class 132 —Plants, Modes and Products of Iron and Steel Metallurgy —Worked Metals —Hammered pieces, Wheels, Tyres, Springs, Pipes, Chains, etc.—Pig Iron, Iron Castings, etc.

Class 133 —Plant, Modes and Products of small Metallurgy

Special Plant for Forges, Bolt Mills and Wire Drawers, Nail and Boiler Forges, Flattening Mills Manufacture of Tin Boxes, Tin Plate Work, Black Iron Work, Iron Foundry Work, Ironmongery, Locksmith's Work, etc

Products —Various Hammered Pieces —Bolts, screws —Tacks, Nails, Pins, Needles —Cables.—Lattice, etc Chains —Boilersmith's and Tin Work.—Worked Sheet Iron —Iron Pottery —Pipes —Capsules —Metallic Pens —Springs.—Scythes, Bill Hooks, etc, —Locks, Padlocks, Bolts, Keys.

Fine Locksmith's Work, Safes, Strong Rooms.

Class 134 —Material, Modes and Products from Metals other than Iron and Steel.

Treatment of Copper, Zinc, Lead, Tin, Aluminium, Nickel Silver, and Gold Ore, etc.

Products from the treatment of these ores.

Special alloys for Guns, Bells, etc.

GROUP XXXVIII

Chemical Industries.

Class 135.—Plant, Processes, and Products of Chemical Industries, Oil, Stearine, Soap and Perfumery Manufacturing

Laboratory Apparatuses.

Plant, Apparatuses and Modes of Manufacturing Chemical Products not classed in this group—Application of Chemical Processes to Metallurgy

Sundry Products from these Industries Acids, Alkalis Salts of all kinds, Refined Sulphur, Phosphorus, etc. Various Oils, Tallow Candles, Glycerine, Soap, Pomatums, Toilet Water, etc

Class 136.—Plant, Processes, and Products of Paper Manufacturing.

Class 137.—Plant, Processes and Products of Dyeing, Cleaning, and Printing Cloths, etc.

Processes of Cleaning, Dyeing and Printing

Dyeing Preparations.

Printed Carpets.—Oil Cloths. Linoleum—Awnings, etc.

Class 138—Plant, Processes and Products of Leather, Morocco Tanning and Dressing.

Class 139—Plant and Modes of Manufacturing India-rubber, Gutta-percha, Amianthus and their substitutes—Machines for the application of India-rubber to Clothing—Raw India-rubber.—Manufactured goods of these different trades—Cycle and carriage tyres

GROUP XXXIX

Alimentary and Consumable Industries

Class 140—Plant, modes and Products of Milling, and Manufacture of Pastes, Vermicelli, etc

Class 141—Plant, Modes and Products of Starch, Fecula and Rice Manufacture.

Class 142—Plant, Modes and Products of Bakeries, Pastry Making, Ginger-Bread and English Biscuits.

Class 143—Plant, Modes and Products of the Manufacture of alimentary products, Chicory, tinned Meat, Fish, Fruit, Vegetables, etc—Condiments and Stimulants.

Class 144—Plant, Modes and Products of Sugar Works and Refineries.

Class 145—Plant, Modes and Products of Confectionery and Chocolate manufacture.—Snaps and Sweet Cordials

Class 146—Plant, Modes and Products of Brewery, Malt and Vinegar manufacture

Class 147—Plant, Modes and Products of Distillery.

Class 148—Plant, Modes and Products of Wine Growing and other similar trades: Manufacture of Cider, Perry, Liquors, etc.

Class 149—Plant, Modes and Products of the Manufacture of Tobacco, Cigars and Cigarettes.

GROUP XL.

Textile trades

Class 150.—Cotton—Plant, Modes and Products of Spinning and Weaving Frames for Smooth, Fancy and Figure weaving, etc—Dyed or printed Threads and Tissues.

Class 151—Wool, Silk—Plant, Modes and Products of washing, cleaning, combing, spinning and weaving—Frames for smooth, fancy and figure weaving, etc—Dyed or printed Threads and Tissues—Frames for the manufacture of Carpets, Tapestry and Felt—Products of these Trades

Class 152—Hemp, Flax, Jute, Ramie, Rope making—Plant, Modes and Products of Spinning and Weaving—Frames for the Manufacture of these Products.—Dyed Threads and Tissues—Plant, Modes and Products of Rope making

Class 153—Laces, Embroideries—Plant, Modes and Products of the Manufacture of Laces, Machine and Hand-made Embroidery, and of Tulles

Class 154.—Tulles, Trimmings.—Plant, Modes and Products of the Manufacture of Trimmings, Galloons, Borders and Ribbons.

GROUP XLI.

Clothing.

Class 155—Material and Tools for Sewing and Clothes-making work-rooms: Sewing, Hemming, Stitching, Embroiding, Knitting Machines, etc.—Saws for cutting Cloth and Leather—Shoe-making, Nailing and Screwing Machines—Machines and Tools for Glove-making—Machines and Tools for Hatter's workshops and accessory trades.

Frames and Gauzes for the Manufacture of Hosiery—Machines for gaufering, plaiting Tissues, and wadding Wool and Silk.—Tools concerning the manufacture of artificial feathers and flowers.

Class 156—Modes and Products of tailoring for both sexes—Clothing for Men, Women and Children, Hats for Men and Women, artificial Flowers and Feathers—Water-proof Clothing, Special Clothes for Sundry Professions, for Colonies, etc—Furs.

Class 157—Modes and Products of Hosiery and glove-making (Tissues and Leather).

Class 158—Modes and Products of the Manufacture of Underclothing for both sexes—Shirts, Linen, Petticoats, Neckties, Neckkerchiefs, etc

Class 159—Modes and Products of Boot and Shoe-making.

Class 160—Modes and Products of the Manufacture of Clothing Accessories Buttons, Braces, Garters, Belts, etc—Trimnings for Clothing—Parasols Walking Sticks, Umbrellas, Fans, etc.

Class 161—Special Material, Modes and Products of Corset-making.—Accessories.

GROUP XLII

Agriculture

Class 162—Agricultural and horticultural Tools, Engines and Material, Material for Dairies, Cheese-making, Apiculture, Aviculture, Conservatories, Early Vegetable Beds, etc.

Class 163—Animal, Mineral and Vegetable Manure—Feeding Materials and Concentrated Food for Cattle—Turf, Tan, Wood, etc, used for Beds for Cattle

Class 164—Agricultural, Apicultural, Horticultural Products, etc.—New Varieties, Modes, Installations, Plans, Packings.

Class 165—Agricultural and Horticultural Instruction and Technology

Class 166—Forestry Tools, Instruments and Material—Products Seeds, Plants, Wood, etc. Teaching. Working. Technology.

GROUP XLIII.

Sundry Trades

Class 167—Material and Modes of Clock-making, Arms-making, Cutlery, Jewellery, Goldsmith's work, Cutting, etc, of Diamond and Precious Stones, etc

Class 168—Material, Modes and Products of the Manufacture of Small Ornaments, Toys, Morocco Leather, fine Carpenter's work, Basket-work, Brush-trade, Cooperage, Traveling and Camping Articles and of Boarding, etc.

Class 169—Machines for Button manufacturing. Machines for packing, Stamping, lead sealing goods, etc.—Machines for the Manufacture of Letter-Covers and Paper-Bags.—Machines and Tools not denominated in the classification.

Class 170—Utilisation of Waste from Manufactures.

TENTH SECTION.**SPORTING APPARATUS.**

GROUP XLIV.

Riding and Driving.

Class 171—Plans, Models, and Arrangement of Stables, and their dependences. Boxes and Stalls, Mangers. Racks. Troughs. Oat Boxes, etc.

Class 172—Fancy and ordinary Harness, Saddles, Bridles, Halters.—Training and special apparatuses Curbs, Longing Reins, Horse Locks Dump-Jockeys, etc.—Rugs, Hoods and Horse Cloths, Surcingle, etc—Various Accessories: Bits, Stirrups, Spurs, Canes, Whips for Driving and Riding, etc. Dresses for Grooms, Coachmen, Jockeys, etc.

Class 173.—Hygiene of Animals · Draining Airing and Lighting Systems for Stables — Dressing Instruments, Brushes, Curry-combs, etc.—Natural and Artificial Alimentary Products for Working Animals.—Rations—Veterinary, Pharmaceutical and Medical Products.—Apparatuses, Instruments, and Processes of Veterinary.—All systems of shoeing —Iron and Nails for shoeing, hoes and bolts, Roughing Nails Pattens, Shoes, etc.—Farrier's and Clipper's Tools.

Class 174 —Couches, Carriages of all kinds, Drawings and Photographs of Carriages, Sleighs—Coach House Accessories Gigs, Hooks, Greasing oils and Greases, Detachable pieces for Wagons, etc Springs Boxes and Axles—Rims, Tyres, and Wheel Naves, etc.—Carriage Painting, Modes, Material Employed, Plant, etc—Furniture Cloths, Trimmings and Stuffings, etc—Products from the carriage accessory Manufacturing Trade Lanterns, Locks, Handles, Caps, etc.

Class 175 —Transporting Material Wagons, Boxes.

GROUP XLV.

Hunting.

Class 176 —Game Snares —Means of Destroying Noxious Animals.—Modes of re-stocking Hunting Grounds, and Game Breeding—Stuffed Game, Skins and Furs —Hair, Feathers, Down.—Teeth, Ivory, Horns, etc —Hunter's dress

Class 177 —Plans and Models of Kennels, and Dependences—Kennels and Dog Baskets—Leads, Collars, Muzzles—Trumpets, Cornets and Whistles—Hunting and Shooting Arms.—Guns, Carbines, Pistols, Revolvers—Throwing Arms Slings Harpoons and Lances. Bows and Cross Bows. Ammunition Powder and Shot, Balls, Cartridges Caps, Arrows, etc—Targets and other marks—Plans and Models of Shooting and Targets—Trophies Traps for Pigeon Shooting—Poultry and Game Baskets—Trunks, Portmanteaus, Game Bags, and Pouches—Powder and Shot Flasks Cartridge Pouches, etc

GROUP XLVI.

Cycling

Class 178 —Cycles —Accessories Spanners, Lanterns, Oil Cans, Brakes, Cyclometers Speed Registers, etc—Construction Pieces Frames, Rims, Tyres, Spokes, Axles, Chains, etc —Cycling Costumes for both Sexes

GROUP XLVII.

Fencing, Swimming, Gymnastics, Various Games

Class 179 —Gymnastic and Swimming Apparatuses —Furniture for Fencing Schools —Gloves Helmets and Masks Swords, Sabres, Foils, etc—Plant for Sea and River Baths and Swimming Basins

Class 180 —Material for open air Games Cricket, Lawn-Tennis, Football, Ball, Skittles, Quoits—Bow and Crossbow, high and distance shooting—Ice Skates, Ice and Snow Shoes and Rolling Skates—Plans of Ground for Games.

Class 181 —Material for Indoor Games—Billiards, Chess, Dominoes—Playing Cards, etc.

Clothing for the various sports of this group

GROUP XLVIII

Navigation.

Class 182 —Yachts—Small Boats of all kinds, Racing and Pleasure Boats—Rigging, Sails, Rope, Oars—Propellers Accessories, Instruments of Precision, Compasses, etc, Clothing for Gentlemen, Boatmen, Sailors, etc

GROUP XLIX.

Fishing and Pisciculture.

Class 183 —Models and Designs of Sea and River Fishing Boats.—Fish Transporting Boats Flat-bottom Boats, Pirogues, etc—Armaments for Fishing Boats Capstans, Nets, Drag Nets, Harpoons, Cannons, Drags, etc.—Models of Fishing Ports—Protection of Underwater Telegraph Cables—Rods, Lines, Floats, Traps, etc.—Clothing for Fishermen and Sailors.

Class 184.—Fishing Products Fishes Living Crustacean and Mollusks Fresh, Preserved and Dry Fish—Artificial Reproduction of Fish. Fishing Bait, etc.

Class 185—Plans and Models of Pisciculture Establishments, Oyster and Lobster Beds, etc—Accessories and Plant of these establishments.—Food for Fish. Modes of re-stocking Rivers and Ponds.—Salmon Runs and Cascades, etc.

GROUP L.

Pigeon Keeping.

Pigeons, Conveyance-Baskets, Accessories of this sport —Training of Travelling pigeons, etc.

ELEVENTH SECTION.

Exercises — Popular Games

During the course of the Exhibition, Popular Games and Competitions will be organised, notably

Riding and Driving Competitions Horse Races, Polo-Football, Lawn-Tennis, Cricket Competitions, etc

Cycle and Boat Races.

Target, Gun, Pistol, Bow, Crossbow and Pigeon Shooting

Fencing, Foot-races, and Gymnastic Fetes

Programmes of these fetes and Competitions will be published in good time

TWELFTH SECTION

Temporary Agricultural and Horticultural Competitions.

During the course of Exhibition, Agricultural and Horticultural Competitions of all kinds will be organised —Horses of all breeds, Dogs—Cattle, Bovine, Ovine and Porcine Breeds —Aviculture—Apiculture—Domestic and other Cultures—Dairy—Agricultural Machines and Instruments —Competitions of Flowers and Plants on stalk, cut Flowers, etc.

Programmes of these Competitions will be published in good time, as they are organised

THIRTEENTH SECTION.

PRACTICAL TEACHING, ECONOMICAL INSTITUTIONS AND MANUAL LABOUR OF WOMEN

GROUP LI

Teaching.

Class 186—Infant Asylums—Guardian Schools,—Infant Gardens—House-Keeping Schools—Professional School—Dairy Keeping and Cheese-making Schools Teaching Programmes and branches Special Material.

GROUP LII.

Sciences, Arts, Economical Institutions —Benevolence

Class 187—Works written by Women and concerning Sciences, Arts or Literature.—Statement of the various latest systems for the admission of women to public Offices and in liberal professions—Work of women.—Organisation—Publications—Economical Institutions, Mutualities, Co-operatives, etc.

Class 188—Several services rendered for Benevolence

GROUP LIII.

Manual Work

Class 189.—Laces—Embroideries—Church Ornaments—Trimmings and Pearls—Artificial Flowers.—Feathers—Linen and Dressmakings—Cutting, Made Clothes—Dresses, Mantels—Corsets.—Millinery—Glove-Stitching—Hosiery—Weaving of Cloth and Silk.—Carpets—Fine Basket-Work—Straw-Work.—Sundry Trades.—Paintings on Earth-Work, Porcelain, Sill, Ivory, Enamel, etc.

Class 190.—Special Tools for the Professions denominated in this Group.—Raw Materials, Products and Accessories used in these Professions.

FOURTEENTH SECTION.

COMMERCE.—COLONIES.

GROUP LIV

Commerce

Class 191 —Commercial Legislation —Customs-tariffs —Companies Acts.—Jurisprudence —Commercial Statistics.—Commercial Bibliography —Commercial Teaching (Methods, Books, Material, etc.).—Commercial Museums

Class 192 —Studies, Projects and Works concerning 1st Importation. Exportation and Transit, 2nd Bank and Change, 3rd Insurances, Interior and International Conveyances and Customs Transports, 4th Ports considered in the following points of view (a) Taxes, Freight and Means of Shipping, (b) Appliances, Regular Shipping Lines, Management, Quays and Sheds, Store Houses, Engines, etc ; (c) Means and prices for conveyance to the interior and zones of influence of the Ports —Objects concerning the Management, Armament and Engines of Commercial Ports —Material for Passengers and Goods traffic by Land and Water. —Armament and Fitting of Packet boats.

Class 193 —Products of the Soil and the Industry destined for export trade, prices, markets for the different Products —Imported foreign Products, Prices, Origins —Packings

GROUP LV

Colonies

Class 194 —Products of Soil, Products of underground Soil, Animal Products

Class 195 —Existing Branches of Industry, Branches of Industry to be introduced, Conveyance-Industry

Class 196.—Importation, Trade by Barter, Commercial Companies

GROUP LVI.

Colonial Studies.

Class 197 —The Country (Geography, Climatology, Meteorology, Geology, Mineralogy, Faune, Flora).

Class 198.—The Inhabitants (Anthropology, Ethnography, Linguistics)

Class 199.—Political and Moral Evolution —History, Organisation and Administration.

The Commissary General of the Government,

Count A D'OULTREMONT.

JARDINS—AUVENTS DANS LES JARDINS.

TARIFICATION

Le prix des emplacements sera établi sur les bases suivantes, d'après la place occupée par les produits

Pour emplacements de toute hauteur.

(a) La profondeur ne dépassant pas 1^m00

Par metre courant de facade fr 25

(b) La profondeur dépassant 1^m00.

Par metre carre de surface horizontale „ 25

Le prix des emplacements de cette catégorie ne pourra être inférieur à 25 francs

Les installations seront mesurées aux plus grandes dimensions au-dessus du sol.

La taxe des *emplacements sous auvents* sera augmentée de 5 francs par mètre courant ou par mètre carré suivant le cas

La Société organisatrice traitera de gré à gré avec les exposants de fleurs, arbustes, essences forestières, pelouses, etc.

A V I S .

La Société organisatrice se charge gratuitement de la manutention de tous les colis dont le poids n'excédera pas 1,500 kilog. et qui lui seront remis au plus tard le 10 avril 1897.

La manutention comprend

- (a) La réception sur quai dans l'enceinte de l'exposition.
- (b) La mise à pied d'œuvre
- (c) L'enlèvement
- (d) La remise à pied d'œuvre
- (e) L'enlèvement des colis réemballés

des caisses vides et emballages

Les exposants se conformeront aux instructions qui seront données par le Comité exécutif pour faciliter l'enlèvement des caisses vides

Les exposants devront effectuer à leurs frais le déballage, l'installation, l'étalage et le réemballage de leurs produits ainsi que la mise en état des caisses vides, etc. Le réemballage se fera dans l'ordre qui sera indiqué par le Comité exécutif et devra être effectué avant le

31 décembre 1897 le démontage des machines devra être terminé de façon à en permettre l'enlèvement, au plus tard, le 31 décembre 1897. Passé ces délais, les produits non emballés ou non démontés seront enlevés d'office et emmagasinés aux frais, risques et périls des exposants. Les objets non retirés au 31 mars 1898 seront vendus publiquement et la Société de l'Exposition aura le droit de disposer du produit de la vente

Pour les colis dont le poids dépasserait 1,500 kilog. l'exposant aura à se mettre en rapport avec le Comité exécutif, qui fixera une taxe modérée de manutention

La Société de l'Exposition apportera les plus grands soins à la manutention dont elle se charge, mais il est expressément stipulé qu'elle ne saurait, en aucun cas, être rendue responsable des pertes, manquants, dommages, avaries, etc., que les colis ou leur contenu pourraient subir

Les taxes d'emplacements seront encaissées par les soins de la Société organisatrice. Elles seront payables en deux fois pour les sommes supérieures à 1,000 francs. La première moitié au moment de la réception du bulletin d'admission, la seconde moitié le 1^{er} avril 1897. Les taxes inférieures à 1,000 francs sont payables en une fois à la réception du bulletin d'admission. (Voir art. 38 du règlement général de la Société anonyme de l'Exposition)

MACHINES EN MOUVEMENT.

TARIFICATION.

Le prix des emplacements, comprenant la décoration générale des halles et la manutention sera établi sur les bases suivantes, d'après la occupation par les produits

Emplacements non isolés

SUR SOL.	(a) La profondeur ne dépassant pas 1 mètre Par mètre courant de façade . fr 60	Exemple	{ Un emplacement de 2 50 de façade x 0 ^m 60 de profondeur, payera 2 ^m 50 de façade à 60 francs par mètre courant = fr. 150
	(b) La profondeur dépassant 1 mètre Par mètre carré de surface horizontale 60		
SUR CLOISON	Par mètre courant de façade 60	Exemple	{ Un emplacement de 3 mètres de façade sur 1 ^m 50 de profondeur, payera 3 mètres de façade x 1 ^m 50 de profondeur = 4 ^m 50 à 60 francs par mètre carré = fr. 270
	Par mètre courant de façade 60		
			{ Un emplacement de 2 ^m 50 de façade sur 2 50 de hauteur, payera 2 ^m 50 de façade à 60 francs par mètre courant . = fr 150

Le prix des emplacements non isolés ne pourra être inférieur à 60 francs

Emplacements isolés

(a) Mesurés sur la plus grande dimension, la plus petite n'atteignant pas 1 mètre Par mètre courant de façade fr 90	Exemple	{ Un emplacement de 2 mètres x 0 ^m 75, payera 2 mètres de façade à 90 francs par mètre courant . = fr 180
(b) Les deux dimensions dépassant 1 mètre Par mètre carré de surface horizontale 90		
	Exemple	{ Un emplacement de 1 ^m 50 x 1 ^m 50, payera 2 ^m 50 à 90 francs par mètre carré = fr 202-50

Le prix des emplacements isolés ne pourra être inférieur à 90 francs

Dans les galeries centrales, le prix des emplacements	non isolés, par mètre carré .	fr 90
	isolés, par mètre carré	130

Toutes les surfaces seront établies au grand carré

Les installations seront mesurées d'après les plus grandes dimensions au-dessus du plancher

Les installations ou vitrines isolées peuvent, dans certaines parties des halles, atteindre une hauteur de 10 mètres

Pour toute machine en mouvement, empruntant la force motrice à la vapeur, à l'eau, au gaz, à l'électricité ou à la transmission générale, les sommes payées par l'exposant, pour son emplacement, lui seront remboursées jusqu'à concurrence de 50 p. c du prix de l'emplacement de la machine en mouvement, et ce sur justification du paiement d'une somme au moins équivalente pour consommation de force.

AVIS

Le Conseil d'administration de la Société anonyme de l'Exposition se charge gratuitement de la décoration générale des halles et de la manutention de tous les colis dont le poids n'excédera pas 1,500 kilogrammes et qui lui seront remis, au plus tard, le 10 avril 1887

La manutention comprend

(a) La réception sur quai dans l'enceinte de l'Exposition ;

(b) La mise à pied d'œuvre ,

(c) L'enlèvement

(d) La remise à pied d'œuvre. } des caisses vides et emballage ,

(e) L'enlèvement des colis réemballés.

Les exposants se conformeront aux instructions qui seront données par le Comité exécutif pour faciliter l'enlèvement des caisses vides.

Les exposants devront effectuer à leurs frais le déballage, l'installation, l'étalage et le réemballage de leurs produits ainsi que la mise en état des caisses vides, etc. Le réemballage se fera dans l'ordre qui sera indiqué par le Comité exécutif et devra être effectué avant le 31 décembre 1897. Le démontage des machines devra être terminé de façon à en permettre l'enlèvement, au plus tard, le 31 décembre 1897. Passé ces délais, les produits non emballés ou non démontés seront enlevés d'office et emmagasinés aux frais, risques et périls des exposants. Les objets non retirés au 31 mars 1898 seront vendus publiquement et le Conseil d'administration de la Société anonyme de

l'Exposition aura le droit de disposer du produit de la vente.

Pour les colis dont le poids dépasserait 1,500 kilogrammes, l'exposant aura à se mettre en rapport avec le Comité exécutif qui fixera une taxe modérée de manutention.

La Société anonyme de l'Exposition apportera les plus grands soins à la manutention dont elle se charge, mais il est expressément stipulé qu'elle ne saurait, en aucun cas, être rendue responsable des pertes, manquants, dommages, avaries, etc., que les colis ou leur contenu pourraient subir.

Les taxes d'emplacement seront encaissées par les soins de la Société organisatrice. Elles seront payables en deux fois pour les sommes supérieures à 1,000 francs, la première moitié au moment de la réception du bulletin d'admission, la seconde moitié le 1er avril 1897. Les taxes inférieures à 1,000 francs sont payables en une fois à la réception du bulletin d'admission. (Voir art. 38 du Règlement général de la Société organisatrice.)

Le prix des emplacements, *compreuant la decoration générale des halles et la manutention*, sera établi sur les bases suivantes, d'après la place occupée par les produits.

Emplacements non isolés.

SUR SOL	(a) La profondeur ne dépassant pas 1 mètre. Par mètre courant de façade . . . fr 60	Exemple	Un emplacement de 2 ^m 50 de façade x 0 ^m 60 de profondeur, payera : 2 ^m 50 de façade à 60 francs par mètre courant . . . = fr. 150
	(b) La profondeur dépassant 1 mètre. Par mètre carré de surface horizontale 60	Exemple	Un emplacement de 3 mètres de façade sur 1 ^m 50 de profondeur, payera 3 mètres de façade x 1 ^m 50 de profondeur x 4 ^m 50 à 60 francs par mètre carré = fr 270
SUR CLOISON	Par mètre courant de façade 60	Exemple	Un emplacement de 2 ^m 50 de façade sur 2 ^m 50 de hauteur, payera : 2 ^m 50 de façade à 60 francs par mètre courant . . . = fr 150

Le prix des emplacements non isolés ne pourra être inférieur à 60 francs.

Emplacements isolés

(a) Mesurés sur la plus grande dimension, la plus petite n'atteignant pas 1 mètre Par mètre courant de façade . . . fr. 90	Exemple	Un emplacement de 2 mètres x 0 ^m 75, payera 2 mètres de façade à 90 francs par mètre courant . . . = fr. 180
(b) Les deux dimensions dépassant 1 mètre Par mètre carré de surface horizontale 90	Exemple	Un emplacement de 1 ^m 50 x 1 ^m 50, payera 2 ^m 25 à 90 francs par mètre carré . . . = fr. 202 50

Le prix des emplacements isolés ne pourra être inférieur à 90 francs

Dans les *galeries centrales*, le { non isolés, par mètre carré, fr 90
prix des emplacements. { isolés, par mètre carré. . . 130

La taxe pour *salons* ayant au { à façade, par mètre carré . . fr 70
moins 5 mètres de façade { sur angle, par mètre carré . . 90
sur 5 mètres de profondeur.

Toutes les surfaces seront établies au grand caré.

Les installations seront mesurées d'après les plus grandes dimensions au-dessus du plancher

Les installations ou vitrines isolées peuvent, dans certaines parties des halles, atteindre une hauteur de 10 mètres.

AVIS.

Le Conseil d'administration de la Société anonyme de l'Exposition se charge gratuitement de la décoration générale des halles et de la manutention de tous les colis dont le poids n'excédera pas 1,500 kilogrammes et qui lui seront remis, au plus tard, le 10 avril 1897.

La manutention comprend

(a) La réception sur quai dans l'enceinte de l'Exposition ;

(b) La mise à pied d'œuvre ;

(c) L'enlèvement . . . { des caisses
(d) La remise à pied d'œuvre { vides et
emballages ;

(e) L'enlèvement des colis remballés.

Les exposants se conformeront aux instructions qui seront données par le Comité exécutif pour faciliter l'enlèvement des caisses vides.

Les exposants devront effectuer à leurs frais le déballage, l'installation, l'étalage et le réemballage de leurs produits ainsi que la mise en état des caisses vides, etc. Le réemballage se fera dans l'ordre qui sera indiqué par le Comité exécutif et devra être effectué avant le 31 décembre 1897 le démontage des machines devra être terminé de façon à en permettre l'enlèvement, au plus tard, le 31 décembre 1897. Passé ces délais, les produits non emballés ou non démontés seront enlevés d'office et emmagasinés aux frais, risques et périls des exposants. Les objets non retirés au 31 mars 1898 seront vendus publiquement et le Conseil d'administration de la Société anonyme de

l'Exposition aura le droit de disposer du produit de la vente.

Pour les colis dont le poids dépasserait 1,500 kilogrammes, l'exposant aura à se mettre en rapport avec le Comité exécutif qui fixera une taxe modérée de manutention.

La Société anonyme de l'Exposition apportera les plus grands soins à la manutention dont elle se charge ; mais il est expressément stipulé qu'elle ne saurait, en aucun cas, être rendue responsable des pertes, manquants, dommages, avaries, etc., que les colis ou leur contenu pourraient subir.

Les taxes d'emplacement seront encaissées par les soins de la Société organisatrice. Elles seront payables en deux fois pour les sommes supérieures à 1,000 francs, la première moitié au moment de la réception du bulletin d'admission, la seconde moitié le 1^{er} avril 1897. Les taxes inférieures à 1,000 francs sont payables en une fois à la réception du bulletin d'admission. (Voir art. 38 du Règlement général de la Société organisatrice)

BRUSSELS INTERNATIONAL EXHIBITION.

PATRON. — H. M. THE KING OF THE BELGIANS.

OPEN 24TH APRIL 1897.

OFFICIAL CATALOGUE.

RULES.

ART. I.—The catalogue will be issued as per the form hereunder. No stereotype or other plates will be accepted.

ART. II.—Every exhibitor has the right, for each class in which he exhibits, to four lines of detail. The name and address will be printed in large type, the description of the goods exhibited and rewards obtained in small type.

ART. III.—Extra lines will be inserted at the following prices

First line	Fr. 1 00
Second line	„ 2 00
Third line	„ 3 00
Fourth line	„ 4 00
Fifth line	„ 5 00
Each following line	„ 5 00

Each line consists of an average of 40 letters, figures and spaces (hyphens count for five letters).

Every incomplete line is reckoned as a full one.

ART. IV.—The form herewith duly filled up, and signed, must be returned, under stamped envelope, the same time as the form of admission, to the Executive Committee of the Exhibition, 10, Rue du Congrès, Brussels. The Exhibition Company declines any responsibility in regards to the matter furnished by the exhibitors.

ART. V.—The Executive Committee reserves the right to modify the wording,—notice previously being given to the exhibitor

ART. VI.—Special arrangements will be entered into with groups of exhibitors, as to the number of gratuitous lines, mentioned in Art. II.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Forecast of the cold weather rains in Northern and Central India, 1896-97.

The following is a brief statement of the chief conditions of the meteorology of India during the past six months, which will perhaps be more or less influential in determining the character and distribution of the cold weather rainfall of the next three months (December to February).

It was stated in the south-west monsoon forecast published in the *Gazette of India* for 6th June 1896 that the meteorological conditions in India immediately antecedent to the monsoon were favourable over nearly the whole of India, and hence that, if the conditions over the sea area to the south were favourable, normal or abundant rain might be expected over nearly the whole area. It was, however, pointed out that there were indications that conditions were not favourable over the sea area to the south of India, and that they might affect the distribution of the monsoon rainfall to an important extent. This anticipation has unfortunately been fully verified.

The south-west monsoon currents of the present year have been throughout much feebler, as rain-distributing winds, than usual, and in this respect resemble the year 1895 and contrast strongly with those of the years 1892, 1893 and 1894. The total rainfall of the season has been more or less in defect over nearly the whole of India, the deficiency, relative to the normal, differing little in percentage amount over North and Central India, thus indicating that the unfavourable conditions are to be sought in the general character and strength of the monsoon currents, and were not due to abnormal features in India.

The south-west monsoon rains commenced somewhat later than usual (upwards of a week) on the Malabar and Konkan coasts, and almost simultaneously on the 13th and 14th June along the whole west coast. They began slightly later than usual on the Bengal coast, but the delay was less marked than on the west coast of India.

The humid currents extended very rapidly into the interior and gave general rain over nearly the whole of Northern and Central India, including the greater part of the Punjab and Rajputana and the North-Western Provinces, during the last week of June. The circumstances of the advance of the monsoon currents in June 1896 were hence similar to those of June, 1895.

The monsoon currents were fairly steady in the Indian seas during July and August, more especially in the Arabian Sea. They were, however, not so strong as usual, and, as usually happens when the monsoon currents are feeble, cyclonic storms formed more frequently than usual in the Bay of Bengal. The distribution of the rainfall of these two months was hence mainly determined by a succession of five or six cyclonic storms which formed in the north of the Bay during this period. These storms, with one exception, marched along a west-by-north track from the north-west angle of the Bay across the head of the Peninsula into the western states of Central India or Gujarat. The districts through which they passed, including Orissa, the Central Provinces, Central India and Gujarat hence received frequent cyclonic downpours, whilst the districts remote from their tracks, more especially North Bengal, the submontane districts of the Gangetic Plain, the Punjab and Rajputana obtained much less frequent and lighter rain than usual. The Konkan received heavy rain during the later stages of the advance of these storms. The rainfall of these two months was hence very irregularly distributed, the areas directly and indirectly affected by the storms obtaining frequent heavy to excessive rain, whilst the areas well outside of the storms obtained considerably less than their normal amounts. The rains terminated unusually early in the Punjab, North-West Rajputana and the western districts of the North-Western Provinces, in the third or fourth week of August (about a month earlier than usual) and September was hence an abnormally dry month in these areas.

The remainder of India received moderate and generally well distributed rain in September, but the tracks of the storms and other features indicated that the south-west monsoon currents were feeble and were retreating much earlier than usual from Northern and Central India. The rains ceased in the eastern districts of the North-Western Provinces, Bihar, Chota Nagpur and the Central Provinces in the fourth week of September (four to six weeks before the normal date), and in Bengal at the end of September. Madras and the Deccan obtained moderate general rain in the last week of September, due to conditions which do not usually obtain before the third week of October. This rainfall was in fact due to a premature and feeble burst of the so-called north-east monsoon.

Burma and Southern India obtained occasional rain in October and the first fortnight of November. Fine clear weather with abnormally high day temperature and excessive dryness of the air obtained during this period over the whole of Northern and Central India and the December and north-east to north-west winds held steadily over the north and centre of the Bay. Light variable winds with showery weather prevailed in the extreme south of the Bay. Two disturbances originated in that area and marched across the Coromandel Coast during the last fortnight of November, and gave heavy rain to Central and South Madras.

The first storm passed out as a feeble disturbance into the Arabian Sea, where it re-developed and re-curved, advancing again into India across the Kathiawar Coast. It then gave a light to moderate burst of rain over a considerable part of Northern India.

The chief feature of the monsoon of 1896 was its weakness, shown more especially, firstly, by the delay in its arrival, secondly, by the diminished rainfall and its occurrence chiefly during cyclonic storms, and thirdly, by its early withdrawal. The following shows fully the general deficiency of the total rainfall from the beginning of June to the middle of October —

Political Province or area	RAINFALL DATA FROM MAY 31ST TO OCTOBER 17TH, 1896			
	Average actual	Average normal	Variation from normal	Percentage variation
Burma	105 35	111 23	—5 88	—5
Bengal and Assam	54 87	66 78	—11 91	—18
North-Western Provinces and Oudh	23 66	34 78	—11 12	—32
Punjab	16 02	20 72	—4 70	—23
Bombay	58 99	54 66	+4 33	+8
Central Provinces	52 70	43 89	+8 81	+20
Berar	23 48	33 00	—9 52	—29
North Bombay	23 43	22 50	+0 93	+4
Rajputana and Central India	18 79	23 48	—4 69	—20
Madras	30 41	33 14	—2 73	—8

The monsoon rains of 1896 were very unfavourable, not so much on account of their deficiency, as of their early and abrupt termination over the whole of Northern and Central India and the Deccan, from a month to six weeks before the normal date. This was evidently not due to local conditions and actions, but to general conditions affecting the whole area and almost certainly chiefly connected with the weakness of the south-east trades during the present year as in 1895.

The following comparative data show more fully the distribution of the rainfall of the past monsoon, so far as amount only is concerned. In these statements the meteorological divisions are arranged according to whether their total rainfall was upwards of 20 per cent. or more in excess or in defect, or from 1 to 20 per cent. in excess or in defect.

(1) Comparative data for six meteorological divisions in which the monsoon rainfall was more than 20 per cent. in excess.

PROVINCE	Division.	RAINFALL FROM 31ST MAY TO 20TH SEPTEMBER 1896			Variation expressed as a percentage
		Average actual	Average normal	Variation from normal	
Central Provinces	Central Provinces (East)	69.06	43.56	+25.50	+59

	Madras (South)	6 27	6 35	— 0 08	— 1

The chief antecedent conditions that have hence to be considered in forecasting the character of the approaching winter rains are —

1st.—The unusual weakness of the south-west monsoon currents of the present year as rain-distributing currents.

2nd.—The abnormally early withdrawal of these humid currents from Upper India in the third and fourth weeks of August, and from North-Eastern India, the Central Provinces and Deccan in the last week of September or first week of October.

3rd.—The early withdrawal of the monsoon currents from the whole Bay area, except perhaps the extreme south in the beginning of November.

The following conditions have also to be taken into consideration —

4th —The weather in North-Western and Central India has, it may be noted, been finer and less disturbed than usual, and has been marked during the greater part of November by unusually high temperature and excessive dryness.

5th.—The winter has, however, commenced earlier than usual in Kashmir and Afghanistan and also in Sikkim, and it is reported that much snow has already fallen on the higher elevations.

Condition (1) is, on the whole, unfavourable to more abundant rain than usual in Northern India and to increased snowfall in the Western Himalayas. Conditions (3) and (5) are, on the other hand, favourable, and hence on the whole these conditions are slightly favourable.

This conclusion is confirmed to some extent by a consideration of the pressure conditions obtaining during the past two months in India.

Pressure averaged '040" in excess in India in October and '008" in defect in November, the increased excess in October being related to the early withdrawal of the south-west monsoon from the Indian land area except Southern Madras.

There was a considerable to large local excess of pressure in the northern half of the Peninsula and Central India during the months of September and October. The excess was greatest in the Central Provinces in September and in the Circars and North Coromandel Coast districts in October. Pressure was, on the other hand, locally in defect throughout in Northern India and Burma. The provincial anomalies or local variations changed considerably in November, the chief feature being deficient pressure in Western and Central India, the deficiency being greatest in Kathiawar and Lower Sind, and excess pressure in Bengal, Burma, the Madras coast districts and Deccan (greatest in the Circars).

The horizontal pressure anomalies (as they may be termed) have been unsteady during the past two months, and were in November slightly favourable in Upper India.

The variations of pressure during the months of September and October at the hill stations, as compared with the plains, have been such as to show a slight deficiency at the level of the hills in the Punjab and Kashmir Himalayas and also in the Sikkim Himalayas, but an excess in the Kumaon and Gurhwal Himalayas. Hence to employ the technical expression, the vertical pressure anomalies in these months were generally negative but small in amount. The following gives the vertical pressure anomalies for September, October and November, as determined from several pairs of stations —

Pair of stations	September	October	November
Leh—Lahore	— 020	+ 002	
Murree—Rawalpindi	— 006	— 011	— 002
Simla—Ludhiana	+ 011	+ 006	+ 005
Chakrata—Roorkee	+ '017	+ 037	+ 029
Ranikhet—Lucknow	+ '007	+ '025	+ 035
Darjeeling—Dhubri	— 019	— 022	— 015
Quetta—Jacobabad	+ 001	— '006	— 007
Mount Abu—Deesa	— '028	— '013	+ 006
Wellington—Coimbatore	+ 016	— 009	— '020

The preceding data show that the vertical pressure anomalies were generally negative, but small in amount, and hence of little significance. They, however, are slightly more favourable than for the corresponding period of 1895, and indicate that the winter precipitation in the Western Himalayas will be normal or in slight excess.

The most important data (*vis.*, for Leh and Kailang) for November have not been received, and the forecast is hence based on imperfect information.

The general pressure conditions obtaining in the Indian monsoon area are an important feature. The most important is, what I have termed in a memoir recently published, the "long period oscillations" over that area. The indications dependent on these oscillations are distinctly for North-Western India favourable.

The meteorological conditions of the present year, and more especially of the past six months, have been very abnormal, and a comparison with the data of the past 25 years indicates that there is no year with which the present year or south-west monsoon can be compared as a whole. As pointed out, the abnormal features are due to general conditions and actions extending at least over the whole Indian monsoon area and the greater part of the Indian Ocean, and not to local conditions in India.

The years which it resembles in two or more of its abnormal features are 1895, 1888, 1877 and 1876, but, as stated above, the resemblances are not strong enough to be used as indications of the probable character of the approaching cold weather rains.

The following forecast is hence based chiefly upon theory applied to the conditions given above.—

- (1) The precipitation or snowfall in the Punjab and Kashmir Himalayas and the Afghan mountains will very probably be at least normal, and probably in excess. If the vertical pressure anomalies for the area represented by Chakrata and Ranikhet are correct, it is probable the snowfall in the Central Himalayas will not be above the normal, and, on the other hand, it is probable it will be at least normal in amount in the Eastern Himalayas
- (2) The winter rains in Upper India (from December to February) will very probably be at least normal, and probably in slight to moderate excess.
- (3) It is probable that the winter precipitation in the Gangetic Plain will be about normal, and very probable it will not be above the normal.
- (4) It is very probable the rainfall of the next four months will be in slight defect in Assam and perhaps Bengal
- (5) It is, on the whole, very probable the rainfall in Central India and Central Provinces will not be above the small normal of the period, and probably it will be below it.

The general inference is that the indications are, to some extent, conflicting, but that, on the whole, they are favourable in North-Western India. Rainfall will hence probably be normal or above it in Upper India, and probably normal or in slight to moderate defect in North-Eastern and Central India

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT, — (FORESTS).

NOTIFICATION—No. 5022For

The 5th December 1896.—Mr. W. F. Lloyd, Assistant Conservator of Forests, 1st grade, and Officiating Deputy Conservator, 4th grade, is, on return from furlough, posted to the charge of the Direction Division, and appointed to be Personal Assistant to the Conservator of Forests, Bengal.

M. FINUCANE,
Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT,—(LAND REVENUE).

NOTIFICATION—No. 5031L.R.

The 6th December 1896.—Under the powers conferred upon him by section 101 (1) of the Bengal Tenancy Act VIII of 1885, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to order that a survey shall be made and a record of rights prepared in respect of all lands included within the external boundaries of thanas Samastipur and Dalsinghsara, in the district of Darbhanga.

The particulars to be recorded in the survey and record of rights shall be the following:—

- (a) The name of each tenant.
- (b) The class to which he belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure.
- (c) The situation, quantity, and boundaries of the land held by him.
- (d) The name of his landlord.
- (e) The money rent payable, or if a produce rent, the fact that a produce rent is paid.
- (f) The mode in which the rent has been fixed, whether by contract, by order of a court, or otherwise.
- (g) If the rent is a gradually increasing rent, the time at which, and the steps by which, it increases.
- (h) The special conditions and incidents, if any, of the tenancy.
- (i) The name of each proprietor, including rent-free owner, with the character and extent of his interest, and the situation, quantity and boundaries of the proprietor's private lands as defined in Chapter XI of the Act.
- (j) The name of each rent-free occupant, if any, the situation, quantity, and boundaries of the land held by him, and whether he holds rent-free by the permission of the proprietor of the land, or of his predecessor in title, or independently of such permission.

(2) The Notification No. 919T.R., dated the 14th October 1896, directing the survey of, and the preparation of a record of rights in, thanas Banipatti and Khajauli in Darbhanga, published at page 1081, Part I of the *Calcutta Gazette* of the 21st idem, is hereby cancelled.

M. FINUCANE,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5041L.R.

The 7th December 1896.—Whereas the Lieutenant-Governor of Bengal by an order No. 3384L.R., dated the 16th of July 1895, which was published at page 694, Part I of the *Calcutta Gazette*, dated the 24th idem, notified for general information that the estimate of the probable expenses to be incurred in respect of the repairs, maintenance and works connected therewith of the Jokee embankment in the Balasore Division for a period of five years, commencing from the 1st of April 1896, amounts to Rs. 2,000, and whereas the amount of such estimate was, as required by section 63 of Act II (B.C.) of 1852, published in December 1895, with a general notice calling on persons interested to prefer to the Collector of Midnapore any objections they might think proper against such amount being fixed as the total sum payable, and the Collector of Midnapore has reported that no objections have been preferred thereto, His Honour is pleased, under section 63 of Act II (B.C.) of 1852, to fix the estimated amount of Rs. 2,000 as the sum payable during the period of five years, commencing from the 1st of April 1896, by the zamindars of the estates benefited by such repairs maintenance and works.

M. FINUCANE,
Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5061L.R.

The 8th December 1896.—Under the powers conferred upon him by section 101 (2) (o) of the Bengal Tenancy Act, VIII of 1885, the Lieutenant-Governor is pleased to order that a survey shall be made and a record of rights prepared in respect of all lands included within the following estates and tenures in the districts of Faridpur and Backergunge:—

Estates.

1. Estate No. 5372, Taluq Ram Kishan Barari, in the Faridpur Collectorate, but situated in the districts of Faridpur and Backergunge.
2. Estate No. 5048, Taluq Radha Nath Guha in the Faridpur revenue-roll.

Tenures.

1. Pattani Taluq Jagabandhu Chatterji, pargana Idilpur.
2. Dar Pattani Taluq Jagabandhu Chatterji, pargana Idilpur.
3. Kayem Howla Jagabandhu Chatterji, pargana Idilpur.

4. Taluq Syama Charan Chatterji, pargana Idilpur. All these four tenures are included in estate No. 3872 of the Backergunge Collectorate, pargana Idilpur, but are situated in the district of Faridpur.

5. Pattani Syama Charan Chatterji, pargana Idilpur, in estate No. 3197 of the Backergunge Collectorate, but situated in the district of Faridpur.

The particulars to be recorded in the survey and record of rights shall be the following:—

- (a) The name of each tenant;
- (b) The class to which he belongs; that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, occupancy raiyat, non-occupancy raiyat or under-raiyat, and if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;
- (c) The situation, quantity, and boundaries of the land held by him,
- (d) The name of his landlord;
- (e) The money rent payable, or if a produce rent, the fact that a produce rent is paid;
- (f) The mode in which that rent has been paid, whether by contract, by order of a Court, or otherwise;
- (g) If the rent is gradually increasing rent, the time at which, and the steps by which, it increases;
- (h) The special conditions and incidents, if any, of the tenancy;
- (i) The name of each proprietor, with the character and extent of his interest, and the situation, quantity, and boundaries of proprietors' private lands, as defined in Chapter XI of the Act;
- (j) The name of each rent-free occupant, if any; the situation, quantity, and the boundaries of the land held by him, and whether he holds rent-free by the permission of the proprietor of the land or of his predecessor in title or independently of such permission.

No. 6005J.—The 8th December 1896.—The Lieutenant-Governor accepts the resignation tendered by Babu Pran Sanker Roy of his appointment as an Honorary Magistrate of the Teota Independent Bench, in the district of Dacca.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5988J

The 7th December 1896.—Under the authority conferred on him by section 185A, subsection 1 of the Code of Civil Procedure, the Lieutenant-Governor directs that evidence in cases in which an appeal lies shall be taken down by Babu Nistaran Banerji, Munsif of Patna, with his own hand in the English language.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

DECLARATION—No. 5978J

The 7th December 1896.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for the construction of new buildings for the police-station of Ghafargaon, in the village of Shilashi, pargana Ranbhawal, zilla Mymensingh, it is hereby declared that for the above purpose a piece of land measuring, more or less, 4 bighas 3 cottahs and 3 chitaks of standard measurement, bounded on the north by the attached land of Toke road, on the east and south by the lands occupied by Chandra Kishor Shaha and Junkulu, and on the west by the lands of the Inspection Dāk Bungalow, is required within the aforesaid village of Shilashi.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 5988J.

The 7th December 1896.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to sanction the conversion of the Kutubia beat-house, in the district of Chittagong, into an outpost subordinate to thana Maskhal in the Cox's Bazar sub-division of the district of Chittagong.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

POLITICAL DEPARTMENT.

NOTIFICATION—No. 3195P.

The 8th December 1896—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in him by section 3 (2) of the Protection of Muhammadan Pilgrims Act I of 1896, to make the following rules regulating the grant of licenses to pilgrim brokers, and prescribing the conditions to be embodied therein, unless good reasons are shown to the contrary within one month from the date of the publication of this notification

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

Rules under section 3 (2) of the Protection of Muhammadan Pilgrims Act, 1896.

1 Any person desirous of acting as a pilgrim broker shall apply to the Commissioner of Police for a license under the Act. The application shall be in Form A annexed, printed copies of which can be obtained at the Police Office, and shall be accompanied by certificates of respectability and fitness for the duties of a pilgrim broker from at least two respectable Muhammadan gentlemen

2 The Commissioner of Police shall, after such enquiry as may be necessary into the character of the applicant, grant the license if he considers the applicant a fit person to hold it

3 The license shall be in Form B annexed, and shall be subject to the following conditions, which shall be printed thereon.—

- (a) The licensee shall affix to his place of business a board on which shall be printed in English, Urdu and Bengali his name and the words "Licensed Pilgrim Broker"
- (b) The business shall be carried on solely by the licensee
- (c) The licensee shall keep up a register, in Form C annexed, of all pilgrims or would-be pilgrims who employ him
- (d) The licensee shall advise and assist the pilgrims in regard to the purchase of tickets for their journey, and, if he maintains rest-houses for them, shall attend to their wants. If they travel by train to the port of embarkation, he shall accompany them to the Railway Station and see them start, if they desire it. He shall be careful not to purchase for pilgrims tickets for vessels which they cannot catch at Bombay, if travelling thither, or for vessels leaving Calcutta or Bombay which are not timed to arrive at Jeddah at least one week before the commencement of the Haj
- (e) The licensee's place of business shall be open for inspection at all hours. The license and all registers and books relating to the business shall be produced for inspection when called for by the Protector of Pilgrims or any officer authorised by the Commissioner of Police
- (f) The licensee shall report to the Protector of Pilgrims the arrival of pilgrims at any rest house kept by him who have not received passports in their districts, and shall advise them to apply to the Commissioner of Police for passports
- (g) Rest-houses maintained by the licensee shall be open at all times to inspection by the Protector of Pilgrims or other person authorised by the Commissioner of Police, and he shall be bound to carry out any orders for their improvement issued by the Commissioner of Police
- (h) The licensee shall report at once to the Commissioner of Police any case of illness from a contagious or infectious disease, or any death at a rest-house kept by him, and he shall make such arrangements as may be ordered by the Commissioner of Police with a view to prevent the spread of a contagious or infectious disease
- (i) The licensee shall grant receipts to pilgrims, in Form D annexed, for any articles made over to him for safe custody. He shall also be responsible for the safe custody of property belonging to any pilgrim who dies at his rest-house, until such property is disposed of by order of the Commissioner of Police
- (j) The licensee shall be bound to furnish at all times such returns or other information in connection with his business as the Commissioner of Police may call for

A.

FORM OF APPLICATION FOR LICENSE TO ACT AS PILGRIM BROKER

Applicant's name, father's name, and residence	Where applicant intends to carry on business.	Number of rest-houses to be maintained by applicant and address of each.	Number of pilgrims for whom accommodation is available in each rest-house

- (a) The licensee shall affix to his place of business a board on which shall be printed in English Urdu, and Bengali his name and the words "Licensed Pilgrim Broker"
- (b) The business shall be carried on solely by the licensee
- (c) The licensee shall keep up a register of all pilgrims or would-be pilgrims who employ him in Form C prescribed under the Rules
- (d) The licensee shall advise and assist the pilgrims in regard to the purchase of tickets for their journey, and, if he maintains rest-houses for them, shall attend to their wants. If they travel by train to the port of embarkation, he shall accompany them to the Railway Station and see them start, if they desire it. He shall be careful not to purchase for pilgrims tickets for vessels which they cannot catch at Bombay, if travelling thither, or for vessels leaving Calcutta or Bombay which are not timed to arrive at Jeddah at least one week before the commencement of the Haj
- (e) The licensee's place of business shall be open for inspection at all hours. The license and all registers and books relating to the business shall be produced for inspection when called for by the Protector of Pilgrims or any officer authorised by the Commissioner of Police
- (f) The licensee shall report to the Protector of Pilgrims the arrival of pilgrims at any rest-house kept by him who have not received passports in their districts, and shall advise them to apply to the Commissioner of Police for passports
- (g) Rest-houses maintained by the licensee shall be open at all times to inspection by the Protector of Pilgrims or other person authorised by the Commissioner of Police, and he shall be bound to carry out any orders for their improvement issued by the Commissioner of Police
- (h) The licensee shall report at once to the Commissioner of Police any case of illness from a contagious or infectious disease, or any death at a rest-house kept by him, and he shall make such arrangements as may be ordered by the Commissioner of Police with a view to prevent the spread of a contagious or infectious disease
- (i) The licensee shall grant receipts to pilgrims, in Form D prescribed under the rules, for any articles made over to him for safe custody. He shall also be responsible for the safe custody of property belonging to any pilgrim who dies at his rest-house, until such property is disposed of by order of the Commissioner of Police
- (j) The licensee shall be bound to furnish at all times such returns or other information in connection with his business as the Commissioner of Police may call for

REVISED WATER-RATE RULES FOR THE SARAN CANALS.

No. 209.—Notification—In exercise of the powers conferred on him by sections 99 and 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor proposes to make the following rules and to fix the undermentioned rates to be charged for water supplied under individual assessment from the Saran Canals during the *rabi* season of 1896-97 and the hot weather season of 1897, in addition to the rules in notification No. 201, dated 2nd November 1896, published in the *Calcutta Gazette* of 4th idem.

A. D. McARTHUR, Colonel, R.E.,
Secy. to the Govt of Bengal.

IN Notification No. 110 of the 9th August 1880, issued under the provision of Act III of 1876, Government reserved to itself the rights of property in the water of the river channels known as the Daha, the Dhanai, the Gandaki and the Gangri, and their appendant tributaries, including the Rupan Chap Sota.

2 The revenue administration of the Saran Canals is vested in the Superintending Engineer of the Sonu Circle. The Executive Engineer of the Gandak Division is, as Canal Officer under the Irrigation Act [III (B.C.) of 1876], charged with the proper maintenance and management of the canals, and with the control of the supply of water in them. All orders passed by him, or by the Subdivisional Canal Officer, are under the terms of that Act subject to correction on appeal to the Collector of Saran.

3 The following rules will be applicable to all irrigation effected from the Saran Canals in the *rabi* season (1st November to 31st March) of 1896-97, or to the hot weather season (1st April to 13th July) 1897.

4. Any person who wishes to make bunds in the canals must obtain the written permission of the Canal Subdivisional Officer before doing so.

5. Any person who constructs bunds in the canals, who interferes with the supply of water in them, or who takes water from them without the written permission of a duly authorised person, will render himself liable to the penalties defined in the Irrigation Act.

6 Any person who requires water from the channels of the Saran Canals must apply either to (a) the Patil, (b) the Sectional Officer, or (c) the Subdivisional Canal Officer, who will take his signature on the Form A attached. If the application is approved, the Canal Subdivisional or Sectional Officer (all of whom are hereby empowered in that behalf) will grant a permit for irrigation in Form B.

7 Any person who holds a permit in Form B will be allowed to take canal water for irrigation, and he will be charged for it at the rates detailed in the following schedule:—

Schedule of rates for irrigation.

Crop	Rate per Saran bigha		
	Rs	A	P.
For indigo irrigated between the 1st November and 31st March	...	2	4 0
For indigo irrigated between the 1st April and 15th July	...	4	8 0
For other crops ditto ditto	...	3	0 0
For opium	1	8 0
For <i>rabi</i> crops irrigated between the 1st November and 31st March	0	12	0

These rates apply equally to irrigation by lift and flow.

8 Persons who take water from any of the river channels named in rule I, without a permit in Form B, and persons who waste the water, are liable to be charged water-rates, under sections 79 and 80 of the Irrigation Act, at rates which shall be fixed by the Subdivisional Canal Officer, but which shall not be greater than twice the rate which would have been payable for licensed irrigation.

9 All water-rates assessed under rule 7 will be due on the following dates —

For irrigation in the *rabi* season—5th April 1897.

For irrigation in the hot weather season—20th July 1897.

Water-rates assessed under rule 8 will be due as soon as the demand statement has been prepared.

10 The demand statements for water-rates due will be sent to the Collector as soon as possible after the irrigation in any village is completed, and a *parcha*, showing the area and amount assessed against each cultivator, will be sent to the rate-payer as soon as possible.

11 Any claim for remission of water-rates under section 76 (b), or for compensation under section 76 (c) of the Irrigation Act, must be presented in writing to the Subdivisional Canal Officer at least twenty days before the crop is cut. The Subdivisional Canal Officer shall, after such enquiry as he may consider necessary, pass orders on the application. Any application for remission presented direct to the Collector must be forwarded for the orders of the Canal Officer.

12 Objections to the demand statements must be presented within thirty days of the date on which the *parcha* is issued by the Subdivisional Canal Officer. He will pass orders on such objections.

13. Any person who is not satisfied with an order passed by the Subdivisional Canal Officer may appeal to the Collector under section 91 of the Irrigation Act. Such appeal must be accompanied by a copy of the order appealed against, and it must be submitted to the Collector within thirty days of the date of the order.

14. Remission statements must be signed by the Divisional Canal Officer. Any statement so signed shall be sufficient authority for a refund by the Collector.

15. No guarantee can be given either as to the volume or duration of the supply, or of the delivery of any quantity of water at any particular point of any canal.

16. The Canal Officer will regulate the water passing into, and along, any canal to the best of his ability to meet requirements. If there is any difficulty in supplying all the channels, the Canal Officer will endeavour to divide the available supply as fairly as possible. The Canal Officer shall have complete control of the distribution of water.

FORM A.

Application for water, No.

Name of village

Name of channel

Date of application

We, the undersigned, hereby apply for water from the abovenamed channel for the irrigation of our fields, and we engage to pay, for the area actually found to have been irrigated, to the Canal Officer (or other person duly authorised in that behalf), the water-rates prescribed by the Lieutenant-Governor under the provisions of the Bengal Irrigation Act; and we further agree to abide by the rules issued under the Act.—

REVISED WATER-RATE RULES FOR THE SONE CANALS.

No. 211 —Notification.—In notification No. 262, dated the 14th of August 1894 the Hon'ble the Lieutenant-Governor was pleased to pass certain rules concerning the Sone Canals and to fix certain rates to be charged for water supplied from those canals. In notification No. 28, dated the 28th January 1895, it was notified that it was intended to increase some of those water-rates. The rules which were passed under notification No. 262, dated the 14th of August 1894, contained provision for a class of leases having a currency

of three years. That class of lease is no longer considered suitable. The Lieutenant-Governor proposes to make the following alterations in the rules referred to in consequence of his determination to cease to grant such leases:—

A. D. McARTHUR, Colonel, R.E.,
Secy. to the Govt of Bengal.

(i) Rule 16 to read as follows:—

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *kharyf* season leases (Appendix III), shall be subject to the following conditions:—

I.—The application must be for a block of land having well-defined boundaries and so situated that adjoining lands will not ordinarily or probably be irrigated by water supplied for the land included in the application.

II.—The application must be in the form annexed to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented, whether or no water is required.

III.—The applications may be for a term of seven years, or for the season only—

(a) In the case of applications for the season only, the issue of the permit will not necessarily be delayed until the lands have been measured. The boundaries of the block must be stated in the application, which must be signed by or by authority of the cultivators of all the land included in the boundaries mentioned, and the approximate area in the occupation of each on the block must be specified. Water-rates will be charged on the areas in the block as found by actual measurement.

(b) In the case of applications for a term of seven years, a permit will not be issued until the land has been measured and an application complete in every respect for all the land included in the block has been signed. If water is required to be supplied before the application is completely signed in the manner specified above, an application for water for the season must be made which will be cancelled on a permit for seven years being issued.

(c) Notice that a permit for seven years is required must be given by the 1st of April, and no permit will be issued unless the application is completely signed by the 30th of November, or, with the special sanction of the Superintending Canal Officer, by the 1st of March following. An application for a permit for the season must be filed by the 1st of September.

IV.—With the special sanction of the Superintending Canal Officer—

(a) Existing leases for terms of three years may be cancelled and included in an application for a seven-year lease under the preceding rules.

(b) An application may be made for an addition to a seven-year lease, which, if granted, shall be considered as part of the original lease and terminate therewith.

(ii) Rule 22 to read as follows:—

22. Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *kharyf* season leases (Appendix IX) shall be issued under the following conditions:—

I.—The land to be irrigated must form a compact block defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and also be so situated that unleased lands will not be ordinarily or probably irrigated by water supplied for the land included in the block. The boundaries must be mentioned in the application for a permit for the season, and in the notice referred to in Rule 16 (c), when a permit for a seven-year lease is applied for.

II.—The Canal Officer may exclude lands included in the block not irrigable by flow or for which canal water is ordinarily not required. In the case of permits for seven years, the block must be not less than 50 bighas in area. In cases where the Divisional Canal Officer considers it advisable to grant a permit to a block of less area than that mentioned above, the previous sanction of the Superintending Canal Officer must be obtained. No permit for seven years shall be issued unless the owners of the village channel from which water is to be obtained have been registered and the channel itself is in a good state of repair such as to fit it for the conveyance of water without wastage occurring. Such leases will not be issued unless it is known from the experience of previous years' irrigation that a sufficient supply of water is always available and that the quantity required is not excessive.

III.—A permit for a seven-years' lease may be cancelled by the Superintending Canal Officer with effect from a date to be specified in the order for good cause on the application of all the signatories thereto.

IV.—Permits for the season will be issued under less favourable conditions as to situation, soil, and the quantity of water available; it will not be necessary that the owner of the channel should be registered, but the channel itself must be entered on the register.

V.—Water-rates will be levied on the areas of the blocks specified in the permits, and measurement of the areas actually irrigated will not be necessary.

(iii) In Rules 8 (1), 9 (VIII), 11, 12, 24 (II), 25, 31, 39, 50, 62, omit the two words "three or."

(iv) In Rule 42 omit the words "three-years' leases."

Further, the Lieutenant-Governor proposes to make the following alterations in the rules referred to in consequence of the increase he proposes to make in certain water-rates:—

(v) In Rule 71 (a) change the words "1st of April 1892" into "1st of April 1897."

(vi) In Rule 71 (b) change the words "1st of April 1891" into "1st of April 1897."

(vii) Rule 72 will read as follows:—

SCHEDULE NO. I.

Leases for a term of years

For water supplied between the 25th of June of one year and the 25th March of the next.	FLOW OR LIFT	
	Rate per bigha	Rate per tenth of a bigha.
1	2	3
For leases for seven years, all crops	Rs. A P. 1 9 0	Rs. A P. 0 2 6

Leases having a currency of seven years will be granted at the rate defined in this Schedule until and including the year 1903.

(viii) Rule 73 will read as follows:—

SCHEDULE NO. II.

Season leases (kharif).

	FLOW OR LIFT	
	Rate per bigha.	Rate per tenth of a bigha.
1	2	3
For water supplied between the 25th of June and the 25th of October for all crops	Rs. A P. 2 8 0	Rs. A P. 0 3 6

(ix) In Rule 42 omit the five words "for bhadoi, &c., 1st November."

(x) Appendix IV B, to be omitted altogether.

(xi) Further, the Lieutenant-Governor proposes to alter Rule 47 by adding the following words to it:—

"All applications for compensation under section 76 (c) must be made not less than 20 days before the crop is cut"

And in Rule 46 to add the words "not less than" before the words "twenty days before the crop is cut."

(xii) In paragraph 2 of Appendix III omit the figures "1—14."

(xiii) In paragraph 2 of Appendix IV O alter the words "1st of January" into "25th of March."

RAILWAY DEPARTMENT.

The 4th December 1896.

No. 148 Corrigendum—In page 2 of this department declaration No. 88, dated the 21st July 1896, published at pages 789-91, Part I of the *Calcutta Gazette* of the 22nd idem, relative to the acquisition of land required for the construction of the Hajipur-Katihar extension of the Tirhut State Railway, mauza Tara Dhamown should be included in the list of mauzas in the Darbhanga district, and not, as shown, in the Muzaffarpur district.

The 8th December 1896.

No. 149.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for Mymensingh-Jamalpur Railway passing through the undermentioned villages in the district of Mymensingh, it is hereby declared that for the above purpose a strip of land 83 miles long, of an average width of 130 feet, more or less, from Mymensingh station on the Dacca section of the Eastern Bengal State Railway system, is required within the villages of—

1 Mymensingh.	15 Kaunia	29 Kharkharua.
2. Sunkepara.	16. Jagirbhugli.	30. Nandina.
3. Shekpara.	17 Ashtodhui	31. Bادهلہندی.

12. Gobindganj	26. Gobindbari.	40. Singjani.
13. Kushtia.	27 Kalin.	41. Jamalpur.
14. Shasha.	28. Ranagocha.	

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

This declaration is in supersession of this Department Declaration No 147, dated the 1st December 1896, published at page 1237, Part I of the *Calcutta Gazette* of the 2nd idem, which is hereby cancelled

No. 150 —Notification—Whereas it appears to the Lieutenant-Governor of Bengal that land is likely to be required for a line of railway from Sikriti Joynagar in the district of Darbhanga, notice is hereby given, under the provisions of section 4 of Act I of 1894, that a survey party is about to take the field for the purpose of making a survey of the proposed line, and that in the exercise of the powers conferred by the above-noted section 4, the Lieutenant-Governor of Bengal has authorized the Engineers for the time being engaged in the undertaking to enter upon and survey lands, and to do all other acts required for the proper execution of their work as provided or specified in the said section

No. 151 —Notification—Whereas it appears to the Lieutenant-Governor of Bengal that land is likely to be required for a line of railway from Buiragnia to Bagaha in the district of Champaran, notice is hereby given, under the provisions of section 4 of Act I of 1894, that a survey party is about to take the field for the purpose of making a survey of the proposed line, and that, in the exercise of the powers conferred by the above-noted section 4, the Lieutenant-Governor of Bengal has authorised the Engineers for the time being engaged in the undertaking to enter upon and survey lands, and to do all other acts required for the proper execution of their work as provided or specified in the said section.

No. 152 —Declaration—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up at the public expense for a public purpose, viz., for South Behar Railway, in the district of Gaya, it is hereby declared that for the above purpose a strip of land of an average width of 399 feet, more or less, is required in the village of Nawadah, as named in the following schedule, of an approximate area of 835 acres.—

Village Nawadah, tahsil Samat, district Gaya ... 835 acres.

Mines of coal, iron-stone, slate or other minerals lying under the land, or any particular portion of the land, except only such parts of the mines and minerals as it may be necessary to dig or carry away, or use in the construction of railway, are not needed.

This declaration is made, under the provisions of section 6, Act I of 1891, and section 3, clause (1), Act XVIII of 1885, to all whom it may concern.

No. 153 —Notification.—Mr. S. C Roberts, Deputy Magistrate and Deputy Collector, Champaran, is employed in acquiring lands required for the Segowlie-Roxaul Railway in the Champaran district

No. 154. —Addendum.—In this Department Notification No. 134, published at page 1158, Part I of the *Calcutta Gazette* of 11th November 1896, for the survey of a railway from Ranaghat to Bhagwangola, Murshulabad should be included in the districts mentioned.

Orders by the Vice-Chancellor and Syndicate of the Calcutta University

1. The following dates have been fixed for holding the ensuing Examinations in Medicine and Engineering —

M.B. Examinations	Monday, the 22nd March 1897, and following days
L.M.S. and F.E. Examinations	Monday, the 19th April 1897, and following days
L.E. and B.E. Examinations	Monday, the 12th July 1897, and following days.

Applications and fees for admission to the above Examinations must reach the office of the Registrar, Calcutta University, on or before the following dates. —

M.B. Examinations	... 8th March 1897.
L.M.S. Examinations	... 5th April 1897.
F.E. Examination	... 5th April 1897
L.E. and B.E. Examinations	28th June 1897.

2. The following changes in the Regulations of the University have been adopted by the Senate and approved by the Governor-General of India in Council —

(i) After paragraph 15 of the Regulations for the M.B. Examinations (p. 54, Calendar, 1896), the following new paragraph has been added:—

"16. A candidate who fails at the Second M.B. Examination shall be admitted to the next half-yearly re-examination of the unsuccessful Second L.M.S. candidates, and shall be re-examined in those subjects only in which he has been rejected at the Second M.B. Examination, provided that he has not failed in more than two of the four subjects, Medicine, Surgery, Midwifery and Pathology, or in two of these subjects and in Medical Jurisprudence and Hygiene."

(ii) The numberings of the subsequent paragraphs have been changed accordingly

The above changes in the Regulations are to come into effect at the ensuing examinations

J. H. GILLILAND, *Offg. Registrar*

SENATE HOUSE, the 7th December 1896.

Civil Engineering College, Sibpur.

Apprentice Department

THE date for admission to this Department is 1st February 1897. Candidates must be at least 15, and not more than 17, years of age.

They must have passed standard VII of the Code for European Schools or the University Entrance Examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard so as to reach the Principal not later than the 6th January 1897. No application will be attended to after this date.

The number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eye-sight. If this officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A

The session begins on the first Monday in February. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of February, except by special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be no vacancy on the free list for Christian apprentices in February next, but there will be seven on the reduced* fee list. For Natives there will be at least nine vacancies, possibly more, on the reduced† fee list

* Rs. 5 per mensem
† Rs. 2 per mensem

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

J. S. STATER, *Principal, Civil Engineering College.*

SIBPUR, the 16th November 1896.

ECCLESIASTICAL.

The 4th December 1896

THE Reverend Clarence Garland Mylrea, B.A., of Pembroke College, Cambridge, Minister, has been appointed by the Lord Bishop of Calcutta a Surrogate in the Diocese for granting Episcopal Licences of Marriage.

A. M. DUNNE, *Registrar.*

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 2226B.

APPLICATIONS for tickets of admission to the Opium Sale Rooms for the year 1897 should be made at the office of the Board of Revenue, L.P.,

THE HONBLE MR W. H. GUMLEY

on or after the 21st December 1896

Tickets for the year 1896, which have not already been surrendered, should be returned at the same time.

By order of the Board of Revenue, L.P.,

E. H. WALSH, *Secretary.*

CALCUTTA, the 3rd December 1896

No. 2185B.

NOTICE is hereby given that the Provision Opium to be brought forward for sale by public auction in the year 1897 will consist of about 19,500 chests prepared at the Patna Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, and about 19,500 chests prepared at the Ghazipur Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, being of the seasons 1895-96 and 1896-97 in the proportion marginally noted.

2. The dates on or about which the sales will be held, and the total quantity of opium, as well as the respective quantities manufactured at the Patna and Ghazipur Factories, which will be brought forward for sale every month, are specified below. The Board of Revenue reserve to themselves the right of altering the dates should circumstances render it expedient to do so. In accordance with the notification of the Government of India, No. 2760, dated 24th June 1896, 1,625 chests of Patna and 1,625 chests of Benares opium will be sold monthly from January to December 1897:—

Total		19,500	19,500	39,000

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export

2.—The opium will be ordinarily offered for sale at an upset price of Rs 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank

DEPOSIT

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday, if it falls on a Saturday, the opium must be paid for by 1-30 P.M., and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards exchangeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1895-96, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

E. H. WALSH,

Secretary.

FORT WILLIAM, the 28th November 1896.

No. 2193B

NOTICE is hereby given that the First Sale of Opium, the Provision of 1895-96, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Monday, the 4th January 1897, at 11 A.M., and will comprise 3,250 chests, viz—

				Chests.
Opium manufactured at the Patna Factory	1,625
Ditto ditto at the Ghazipur Factory	1,625
		Total	...	3,250

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1896, and published in the *Government and Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 19th January 1897, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 9th January 1897, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 19th January 1897.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December 1897 about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so.—

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 4622 L.S.-G.—The 5th December 1896.—It is hereby notified that, under sections 10 and 19 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to appoint Babu Kali Charan Mukerji to be a member of the Bongaon Local Board, in the district of Jessore, *vice* Babu Manik Chandra Misra, deceased.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION

No. 4624 M.—The 5th December 1896.—In supersession of the orders contained in the

(1) Government Notification, dated the 8th November 1876, sanctioning the extension of the provisions of sections 235 to 255, 273, 274, 284, 285 and 286 of Part VII of Bengal Act V of 1876 to the Barisal Municipality

(2) Government Notification, dated the 2nd March 1887, sanctioning the extension of the provisions of sections 236 to 244 of the Bengal Municipal Act III of 1884 to a certain portion of the Barisal Municipality and those of sections 249 and 268 of the Act to the entire area of the Municipality

(4) Government Notification No. 4581 M., dated the 2nd November 1896, sanctioning the extension of the provisions of sections 236 to 241, 267, 270 clause 5, 271 and 273 clause 1 of the Bengal Municipal Act III of 1884, as amended by Act IV of 1894, to a certain portion of the Barisal Municipality.

notifications noted in the margin, it is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, and in accordance with the re-

commendation of the Commissioners of the Barisal Municipality, in the district of Backergunge, made at a meeting, to extend the provisions of Part VI of the said Act, as amended by Bengal Acts IV of 1894 and II of 1896, to the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 4626 L.S.-G.—The 5th December 1896.—It is hereby notified that the members of the Madhubani Local Board, in the district of Darbhanga, having at a meeting, under section 25 of the Bengal Local Self-Government Act III of 1885, requested the Lieutenant-Governor to appoint a Chairman, the Lieutenant-Governor is pleased under the said section to appoint Mr. M. Smither, Subdivisional Officer, to be the Chairman of that Local Board.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 4628 L.S.-G.—The 5th December 1896.—It is hereby notified that the members of the Jampur Local Board, in the district of Cuttack, having at a meeting, under section 25 of the Bengal Local Self-Government Act III of 1885, requested the Lieutenant-Governor to appoint a Chairman, the Lieutenant-Governor is pleased under the said section to appoint Babu Monmohan Chakravarti, Subdivisional Officer, to be the Chairman of that Local Board, *vice* Babu Rajkishore Das, resigned

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION

No. 4630M.—The 5th December 1896.—Whereas a notification No. 3638M., dated the 20th August 1896, was published at page 186, Part IB of the *Calcutta Gazette* of the 26th idem, declaring the intention of the Lieutenant-Governor to extend the provisions of the Calcutta Hackney Carriage Act II of 1891 to the Dacca Municipality, and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 1, clause 3 of the Act, the Lieutenant-Governor sanctions the extension of the above provisions of the Municipal Act to the said Municipality.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION

No. 4635L S.-G.—The 5th December 1896.—It is hereby notified for general information that, under Rule 32 of the Rules made under clause (a), section 138 of the Bengal Local Self-Government Act III of 1885, the Lieutenant-Governor is pleased to fix the following dates for holding elections of members of Local Boards in the several thanas of the Sadar and Pirojpur subdivisions of the district of Backergunge:—

Local Board.	Thana.	Date of election.
Sadar	Barisal	15th February
	Nalchiti	15th "
	Jhalokati	16th "
	Backergunge	16th "

	Bhandaria	15th "
	Pirojpur	15th "
	Sarupkati	16th "

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 4658M.—The 7th December 1896.—In continuation of Government notification No. 4534M, dated the 21st December 1895, published at page 278, Part IB of the *Calcutta Gazette* of the 25th idem, the Lieutenant-Governor is pleased, under section 3 of Act I of 1887 (an Act to provide for a survey of the town of Calcutta), to appoint Babu Ram Dayal Ghose, a Municipal Commissioner, to be an Assistant Superintendent of Survey for the Kotechandpur Municipality, in the district of Jessore, *vice* Babu Abhoy Charan Bose, resigned

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION

No. 4687M.—The 7th December 1896.—Whereas a notification No. 5581M, dated the 16th September 1896, was published at page 191, Part IB of the *Calcutta Gazette* of the 23rd idem, declaring the intention of the Lieutenant-Governor to extend the provisions of Part VI of the Bengal Municipal Act III of 1884, as amended by Bengal Act IV of 1894, with the exception of sections 236 to 244, 249, 261, 262, 267, 268, and the provisions of section 273 as far as they relate to sections other than sections 235, 262A, 263, 264 and 265 of the said Act, to the Patuakhali Municipality, in the district of Backergunge, and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the Patuakhali Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the above provisions of the Municipal Act to the said Municipality

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 4709M.—The 8th December 1896.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act III of 1884, as amended by Act IV of 1894, and in accordance with the recommendation of the Commissioners of the Katwa Municipality, in the district of Burdwan, made at a meeting, to extend the provisions of sections 256A, 256B and 260A of the said Act to the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

DECLARATION.

No. 4706M.—The 8th December 1896.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz, for the improvement of Nimtola bustee, it is hereby declared that for the above purpose a piece of land No. 66, Durmahatta Street, in the Town of Calcutta, district 24-Parganas, measuring, more or less, 3 cottahs and 8 chitaks, is required. The land is bounded on the north by premises No. 67, Durmahatta Street, on the south by premises No. 65, Durmahatta Street, on the east by premises No. 5, Nimtola Ghat Street, and on the west by Durmahatta Street.

The plan and specification of the land are filed in the office of the Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

H. H. RISLEY,
Secy. to the Govt. of Bengal

Hooghly Collectorate, the 16th November 1896.

D. B. ALLEN, Collector

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Puri will be put up to sale at the Puri Collectorate on the 28th of April 1897, corresponding with 17th Bysack 1304 Uml —

Conditions of Sale.

- 1st —The estate to be sold to the highest bidder above the upset price which will be fixed by Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.
- 2nd —The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities
- 3rd —If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once
- 4th —If the amount of purchase money exceed Rs 100, one fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale

Jessore Collectorate, the 26th November 1896

F S HAMILTON, Collector

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situated in the district of Malda, will be put up to sale at the Malda Collectorate on the 16th January 1897, corresponding with 3rd Mugh 1303 B S

The purchasers will be subject to the following conditions of sale —

Conditions of Sale

- 1st —The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.
- 2nd —The sales to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd —If the amount of purchase-money do not exceed Rs 100, the whole amount to be paid down at once.
- 4th —If the amount of purchase-money exceed Rs 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

Notification

TO be peremptorily sold pursuant to a decree and an order of the Calcutta High Court in its Ordinary Original Civil Jurisdiction, made in suit No 272 of 1894 (Guru Prasanno Ghose *versus* Kassi Money Dabee and another), and dated respectively 13th July 1894 and 23rd August 1895, by the Registrar of the said Court in his sale-room in the Court-house on Saturday, the 12th of December next at 12 o'clock, noon the undermentioned unmoveable properties —

Lot No. 1—No 13 (formerly No 21), Sikdarparah Street, in the Town of Calcutta an upper-roomed brick-built messuage and premises and rent free land on part whereof the same is built and appertaining thereto, containing by estimation 2 cottahs and 8 chitaks, more or less. The boundaries as given in the indenture of mortgage, dated 27th February 1891, are as follows — "Formerly bounded on the north by the house of Ram Chunder Mookerjee, on the east by the house which formerly belonged to Ram Joy Mozoomdar, on the west by a public lane, and on the south by the dwelling-house of Gobind Chunder Mookerjee, but at present bounded on the east by the house No 15-1, hereinafter mentioned, on the south by the tenanted house of Doyal Chand Dutt, on the west by a blind lane, and on the north by Ram Lal Mookerjee's tenanted house."

Lot No 2—No 16-1, Sikdarparah Street, in the Town of Calcutta, an upper-roomed brick-built dwelling-house and premises and rent-free land on which the same is built and appertaining thereto, containing by estimation 8 cottahs 8 chitaks and $9\frac{1}{2}$ gundahs, being formerly a portion of the premises No 22, in that Street, and bounded on the north by Sikdarparah Street, on the east by a filled-up drain leading to Shuboo Thakoor's Lane, on the south by the dwelling houses of Gouri Canto Mookerjee and Mutty Chand Khettry, and on the west partly by the premises No 13, Sikdarparah Street, and partly by the house of Shub Chunder Mozoomdar.

Lot No 3—No 46, Sikdarparah Street, in the Town of Calcutta, a stable, house and the rent-free land on which the same is built and appertaining thereto, containing by estimation 1 cottah and 6 chitaks, more or less, and bounded on the north by the tenanted land, No 46-1, of Soorjee Kumar Dutt, on the east by a filled-up drain separating this property from the dwelling-house of Roghoo Nauth Bysack, on the south by the tenanted house of Kunjo Bohary Mullick, and on the west by Sikdarparah Street.

Lot No 4—No 17, Sikdarparah Lane in Sootanatty, in the Town of Calcutta, an upper-roomed brick-built dwelling-house and premises and the rent-free land appertaining thereto, and on part whereof the same are built, containing by estimation 6 cottahs and 4 chitaks, more or less, and bounded on the north partly by the dwelling-house of Gopaul Chunder Chakravarty and others and partly by the tenanted house of Luckhey Narain Mullick, on the south by Sikdarparah Lane, on the east by a newly opened lane called Bungshee Dhur Mullick's Lane, and on the west partly by Sikdarparah Lane and partly by a common passage belonging to the dwelling-house of Gopaul Chunder Chakravarty and others.

Lot No 5—No. 4, Muddun Mohun Chatterjee's Lane (formerly Panchoo Dhubanoo's Lane) in Calcutta, an upper-roomed brick-built messuage and premises and the rent-free land appertaining thereto and on part whereof the same are built, containing by estimation 1 cottah and $14\frac{1}{2}$ chitaks, more or less. The boundaries as given in the said indenture of mortgage, dated 27th February 1891, are as follows — "Formerly bounded on the north by Panchoo Dhubanoo's Lane, on the east by the house of Suriosutty Bewah, on the west by the house of one Choonee Lal Auddy, and on the south by a drain belonging to Shama Churn Lahoori, deceased, but at present bounded on the north partly by the temple of Sittolah Thakoorancy and partly by Panchoo Dhubanoo's Lane, on the east by the house of Sowdaminy Dassee, on the south by the rayati land of Judu Lal Mullick, and on the west by the dwelling-house of Choonee Lal Auddy."

Lot No. 6—No 2, Soor Lal Johury's Lane, in the Town of Calcutta, a lower roomed brick built dwelling-house and premises and the land appertaining thereto, and on part whereof the same are built, containing by estimation 3 cottahs, more or less, being Holding No 31, in Block No XVII, North Division, and bounded (as stated in the said indenture of mortgage, dated 27th

February 1891)—"Formerly on the north by a Government drain, on the south by Soor Lal Johury's Lane, on the east by the house of Muddun Mohun Sapoodo, and on the west by the tenanted house of Toolsee Dass Chunder, but at present bounded on the north by a passage formed by a filled up drain, on the east by the dwelling-houses of Muddun Mohun Khotah and Bama Soondery Dabee, on the south by Soor Lal Johury's Lane, and on the west by the house of Jugger Nauth Khettry."

The abstract of title and conditions of sale may be seen at the office of the said Registrar, or at the office of Messrs Swinhoe & Co., Attorneys-at Law, on any day before the sale and will be produced at the sale.

R. BRIDCHAMBERS, Registrar

Swinhoe & Co., Plaintiffs' Attorneys.

Calcutta High Court, Original Jurisdiction, the 14th September 1896 (769—1)

The Barai-bari Marriage Fund, Limited.

The Indian Law Reports.

Published under Authority

THE Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from the High Courts in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1897 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1870—

Terms of subscription payable annually in advance

For the complete series including postage, Rs 22 8

	Without postage	With postage
	Rs A P	Rs A P
For the Calcutta Series	10 0 0	12 8 0
" each of the Madras, Bombay, and Allahabad Series	6 0 0	7 0 0
" a part of the Calcutta Series purchased separately (exclusive of postage in India)		2 0 0
" part of each of the Madras, Bombay, and Allahabad Series purchased separately (exclusive of postage in India)		1 0 0

The following is the rate at which deductions will be made for parts out of print and at which duplicate copies will be supplied to subscribers when required in place of copies lost in transit—

	For town	For mofussal
	Rs A P	Rs A P
For the Calcutta Series, per copy	0 8 9	0 10 3
each of the Madras, Bombay, and Allahabad Series, per copy	0 5 3	0 6 0
" the Calcutta Series For the year	7 2 6	8 0 5
" each of the Madras, Bombay and Allahabad Series For the year	4 1 6	4 11 4

Persons desiring to subscribe for or purchase the Report should apply to—

Superintendent, Government Press, Madras
The Superintendent, Government Central Press, Bombay
" Curator of Government Book, North Western Province and Oudh

Parts I, II and III of a Descriptive Catalogue of the Sanskrit Manuscripts in the Library of the Calcutta Sanskrit College, prepared by Pandit Hrishikesh Sastri and Babu Siva Chandra Gu, M.A., B.L., of that College, are offered to the public for sale. The Catalogue is to be completed in 23 parts, the price of each part being 12 annas a copy, exclusive of postage. Copies can be obtained from the Principal of the Sanskrit College, Calcutta.

Annual Statement of the Sea borne Trade and Navigation of the Bengal Presidency and of its Chief Port (Calcutta), and each of its Subordinate Ports (Chittagong, Balasore, Cuttack, Pooree, and Narainjunge), Volumes I and II. Price Rs 20 for 1895-96. Published at the Calcutta Custom House. Previous years' volumes can also be obtained at the same price.

NOTICE TO SUBSCRIBERS.

SUBSCRIBERS to the *Calcutta and Bengal Gazettes* and *Indian Law Reports* are hereby informed that unless the amount of their subscription for 1897 is received before the 31st December 1896, it will be concluded that the Gazettes and Reports are no longer required, and the supply will accordingly be discontinued from 1st January 1897.

All remittances should be made direct to the Accountant and Treasurer, Bengal Secretariat, Calcutta, by means of money-orders. No postage stamps or stamps of any other kind will be received in payment of subscriptions.

The correct address of the subscriber should be legibly written on the money-order coupon, and the period for which the subscription is paid should also be stated. Omission to note these particulars will involve considerable delay.

B. FOLLY,

Under-Secy. to the Govt. of Bengal.
The 24th November 1896.

Catalogue of Books procurable from Thomason College Book Depot.

Application to be made to Curator. Cash must accompany order. Articles will be sent by Value-payable Post to persons in Government employment only. It is advised that letters containing remittances be registered.

A B—The Revised Prices herein entered cover the cost of packing, postage and other incidental charges (except commission for value-payable supplies), and are for all purchasers other than resident College Students.

Drawing Instruments (all items) are available at the College Book Depot at Rs. 62 per box. Drawing Instruments, drawing materials, &c., are also obtainable from the Roorkee Workshops, and application should be made to the Superintendent.

[First Publication.]

INDIA, WEST—MALABAR COAST.

Port of Hangarkotta—Exhibition of a new light.

THE Presidency Port Officer, Madras, has given notice, dated 17th November 1896, that a 6th Order Red Dioptric Port Light was exhibited at the port of Hangarkotta on the 9th November 1896, and is visible seaward about 8 miles on a clear night from North through East to South except where obscured by trees between South and S. 9° E., and by St. Mary's Isles between North and N. 5° E., and between N. 9° E. and N. 15° E. All bearings magnetic.

2. The apparatus which is 12 feet above high-water is placed on the top of the small masonry column, on the beach, marking the *northern* limit of the port, and not on the southern pillar as stated in the preliminary notice issued on the 27th October last.

3. As this light is only intended for the use of coasting vessels during the fair-weather season, it will be extinguished yearly between the 1st June and the 14th September, both days inclusive.

H. LINDQUIST,
for Port Officer of Calcutta.

JAPAN—(1) MEIACO SIMA; (2) BUNGO CHANNEL; (3) SETO UCHI; AND (4) YEZO, WEST COAST

(1) *Meiaco Sima*—Breakers, north-eastward of Mitsuna island.

THE British Admiralty has given notice (No 623 of 1896) that the Master of the steam-vessel *Ryuses Maru* reports that, in July 1896, he observed breakers, apparently on a reef, in a position bearing about N.E. by E. $\frac{1}{4}$ E., distant 3 miles, from Mitsuna island.

Approximate position, lat $24^{\circ} 47' N$, long. $124^{\circ} 45' E$.

A danger line, with the words "breakers reported" written against it, has been placed in the above position on the charts.

(2) *Bungo Channel*—Sunken Rock, South-Westward of Ora Sima

Also, the existence of a rock, with a depth of 9 feet on it at low water springs, situated on the northern side of the entrance to Uwajima bay, with the centre of the islet, south-westward of Ora saki, bearing N $65^{\circ} E$, distant $1\frac{1}{2}$ cables; and summit of No sima S. $88^{\circ} E$.

Approximate position, lat. $33^{\circ} 15' 10'' N$, long $132^{\circ} 28' 5'' E$ (3) *Seto Uchi*—Shoal North-Westward of Nezumi Sima

Also, of the existence of a sandy shoal, with a depth of $4\frac{1}{2}$ fathoms on it, situated with the remarkable clump of trees (419) north-westward of Haugata bearing about S W. $\frac{1}{4}$ S., distance $1\frac{1}{2}$ miles, and north-east point of Nezumi sima S.E. $\frac{1}{4}$ E.

Approximate position, lat. $34^{\circ} 8' 30'' N$, long. $132^{\circ} 57' 30'' E$ (4) *Yezo, west-coast*—Sunken Rock, Northward of Ishikari.

Also, that the Master of the steam-vessel *Soya Maru* reports that, in July 1896, his vessel touched on a pinnacle rock, with a depth of 15 feet on it, and 4 to 5 fathoms close around, lying about $1\frac{1}{2}$ miles off shore in Atsuta roads, in a position with cape Skudutza lighthouse bearing W S W., distant 20 miles, and cape Buyimawas about N. by W. $\frac{1}{4}$ W.

Approximate position, lat. $43^{\circ} 24' N$, long $141^{\circ} 25' E$.

NOTICE TO MARINERS—No. 246.

[Second Publication.]

AUSTRALIA—EAST COAST—MORETON BAY.

Lights exhibited and alterations in buoyage.

WITH reference to Notice to Mariners, dated 4th July 1896, issued by this office, the British Admiralty has given further notice (No. 632 of 1896) that the undermentioned lights would be exhibited, to assist in the navigation of North-west Channel, Moreton Bay—

1. Caloundra head light is a fourth order, dioptric, *fixed* light, showing the following sectors.—*white* from S. 1° E, through south and west, to N 61° W. (but may be partially obscured by trees between S.S.W and S by W.); *red* from N. 61° W. to N 30° W. (over North banks); and *white* from N 30° W to N. 23° W. (in North-west channel), the last sector being of greater power than the others

It is elevated 171 feet above high water, and visible in clear weather from a distance of 16 miles.

The lighthouse is a cylindrical tower, painted white and 38 feet high, situated on the summit marked 150 three-quarters of a mile westward of Caloundra head.

Approximate position, lat. $26^{\circ} 48' 45''$ S, long $153^{\circ} 9' 30''$ E.

2. Also, two leading lights are shown from framework lighthouses erected on Bribie island—

The front (low) light is a fourth order, dioptric, *fixed* light elevated 56 feet above high water, and visible from S 17° W. (but a faint light may be visible between that bearing and the land to the westward) to S. 77° W.; and from N 46° W to N 40° W. (over the North-west channel); a distance of 12 miles in clear weather.

The lighthouse, 62 feet high, is situated 80 yards within high water mark, and S 5° E, distant nearly $4\frac{1}{6}$ miles from Caloundra head lighthouse

The rear (high) light is a dioptric *fixed white* light, elevated 95 feet above high water, and visible from about S. 62° W to S. 47° W., a distance of 15 miles in clear weather.

The lighthouse, 97 feet high, is situated S. 55° W., distant 1,000 yards from the front lighthouse.

NOTE.—The last two lights in line, bearing S. 55° W., lead into North-west channel between Hamilton patches, and the north-west extreme of North banks, they should be kept in line until the *white* sector of Caloundra light, visible in North-west channel, is entered, when vessels should keep in that sector, until within the *white* sector, shown up North-west channel from the front Bribie island lighthouse.

3. Also, the undermentioned alterations have been made in the buoyage of Moreton bay—

(a) The black buoys (two) marking respectively the south-west extreme of Spitfire bank, and the western extreme of Salamander (Yule) bank, have been replaced by *gas* buoys, each showing a *fixed white* light, and numbered respectively N W 9 and N W 11.

(b) The red buoy, marking the northern extreme of Western banks, has been replaced by a *gas* buoy showing an *occulting white* light, and numbered N W. 4.

These *gas* lights are each elevated 10 feet above the sea.

(c) Three black buoys have been placed to mark the eastern side of North-west channel.—

N.W. 3 buoy, moored in 8 fathoms, with Caloundra lighthouse bearing N N W $\frac{1}{4}$ W, distant $7\frac{1}{6}$ miles and mount Berwah W. $\frac{1}{4}$ S.

N.W. 5 buoy, surmounted by a topmark, moored in 10 fathoms, with Caloundra lighthouse bearing N W by N, distant $10\frac{1}{6}$ miles, and mount Berwah W $\frac{1}{4}$ N

N W. 7 buoy, moored in 9 fathoms, with Caloundra lighthouse bearing N.W. $\frac{1}{4}$ N, distant $13\frac{1}{6}$ miles; and mount Berwah W. $\frac{1}{4}$ N.

The black buoy marking the north-western extremity of North banks has been numbered N.W. 1; and is surmounted by a topmark.

RESOLUTION Reviewing the Reports of the Commissioners of Divisions on the working of the District and Local Boards in Bengal during the year 1895-96	2433	ABSTRACT of the Results of the Barometric and Thermometric Observations taken at 10 a.m. at the Meteorological Office, Chowringhee, in the month of November 1896	2501
Resolution on the report of the Honorary Committee for the Management of the Zoological Garden, Calcutta, for the year 1895-96	2476	Results of the Barometrical and Thermometrical Observations taken at the Meteorological Office, Chowringhee from 29th November to 5th December 1896	2501
Stocks of rice in and around Calcutta	2477	Results of the Meteorological Observations taken at the Alipore Observatory from 29th November to 5th December 1896	2502
Early Cotton crop in Bengal, 1896	2485	Circular and Eastern Canals for the week ending Saturday, the 5th December 1896	2503
Weather and Crop Report for the week ending the 7th December 1896	2489	East Indian Railway for the month of October 1896	2504
Prices-current (retail) of Food-grains, Fire wood and salt in the Head-quarters Station Buzars of the Districts of Bengal on the 30th November 1896	2493	Bengal Central Railway for the month of September 1896	2505
Abstract of the results of Meteorological Observations taken at the Alipore Observatory in the month of November 1896	2500	Weekly returns of Traffic Receipts on Indian Railways	2508

RESOLUTION REVIEWING THE REPORTS OF THE COMMISSIONERS OF DIVISIONS ON THE WORKING OF THE DISTRICT AND LOCAL BOARDS IN BENGAL DURING THE YEAR 1895-96.

MUNICIPAL DEPARTMENT—LOCAL SELF-GOVERNMENT.

Calcutta, the 7th December 1896

RESOLUTION—No. 4641 L S-G

READ—

The Reports from Commissioners of Divisions on the working of the District Boards in Bengal during 1895-96.

Read again—

The Resolution reviewing the Divisional Reports on the working of the District Boards in Bengal during 1894-95.

Of the eight reports which were due on the 31st July only those from the Rajshahi, Bhagalpur, and Dacca Divisions reached Government on or about that date. The other five reports were received late, those from the Burdwan and Presidency Divisions being nearly a month behind time. In the case of the Presidency Division it is explained that the annual report and accounts of the

District Board of Nadia were not received until five weeks after the due date. Commissioners of Divisions are again requested to take the necessary steps to ensure greater punctuality in the submission of the reports in future.

2. *Constitution of District Boards.*—As in the previous year the 38 District Boards in Bengal contained in all 794 members. Of these, 176 were appointed *ex-officio*, 290 were nominated by Government, and 328 were elected by Local Boards, against 172, 293, and 329, respectively, in 1894-95; 247 of them were officials and 547 non-officials. The European or Eurasian members numbered 198, and the natives of the country 596.

3. The District Boards held altogether 586 meetings, giving an average of 15·4 meetings for each Board, as compared with 571, or an average of 15 in the previous year. The largest number of meetings (21) was held in Dinajpur and Puri. In Bogra and Mymensingh 20 meetings were held, in Noakhali 19, and in Gaya and Malda 18. In Bankura and Shahabad there was less than one meeting a month. In the case of Bankura it is explained that the Sub-Committees held numerous meetings and disposed of a great portion of the work, and that therefore there was less necessity for frequent meetings of the District Board. In the case of Shahabad no explanation has been submitted, although the failure of the Board to comply with the rule of holding at least one meeting a month was unfavourably noticed in the Resolution on last year's reports.

4. The number of meetings that had to be adjourned, and of those that proved abortive for want of a quorum, shows an improvement, the figure for the year being 71 against 89 in 1894-95, 7 of these failures occurred in Puri, 6 in Balasore and Dinajpur, and 1 in Champaran and Malda. The number of abortive meetings in Puri was the same as in the preceding year, and appears to have been due to the illness of some of the non-official members of the Board. In Balasore the Vice-Chairman was away from the district, and some of the other members were absent by accident. In Dinajpur the number of unsuccessful meetings, though still high, shows an improvement on last year, when 10 meetings fell through for want of a quorum. The Chairman of the Champaran District Board explains that although 14 meetings were convened during the year, in 9 only was any business done, and the percentage of attendance, poor as it was before, fell off slightly. The failures in Malda were caused by the irregular attendance of some of the mufassal members. It is said that the Board will be reconstituted during the current year, and the Magistrate has undertaken to see that gentlemen, who have both time and inclination to serve on the Board, are nominated as members.

5. On an average 10·1 members were present at each meeting against 9·8 in 1894-95. The attendance was best in the Burdwan, Midnapore, Bankura, Howrah, 24 Parganas, Nadia, Khulna, Faridpur, Tippera, Noakhali, Chittagong, Gaya, Durbhanga, Monghyr, and Purnea districts, where it equalled or exceeded one-half of the total number of members. It was bad in Champaran and worst of all in Dinajpur, where more than two-thirds of the members were habitually absent. In his report for 1894-95 the Chairman of the Dinajpur District Board noticed a similar state of things which he ascribed to apathy on the part of the members. The attendance of officials was highest in Midnapore, 8·3 out of 10, and lowest in Rangpur, 1·92 out of 5.

6. *Constitution of Local Boards.*—The 103 Local Boards had 1,231 members, of whom 147 were officials and 1,084 non-officials, against 156 and 1,075, respectively, in 1894-95. Of the total number, 40 sat as *ex-officio* members, 758 were nominated by Government, and 433 were elected. Europeans or Eurasians held 114 and natives of India 1,117 seats.

7. The total number of meetings held by Local Boards was 1,167 against 1,146 in 1894-95, being an average of 11·3 meetings for each Local Board: of these meetings 286 had to be adjourned or proved abortive for want of a quorum against 227 in 1894-95. Forty Local Boards as against 26 in the previous year held more than 12 meetings, the Sadar Local Board at Howrah heading the list with 25 meetings, none of which were unsuccessful. Only 49 Local Boards as compared with 63 last year failed to meet once a month; but four of these, viz., Kalna, Thakurgaon, Dinapur, and Muzaffarpur, held four

meetings or less during the year. The following statement shows a further decline in the attendance of non-official members:—

YEAR.	AVERAGE ATTENDANCE.			Average percentage of attendance.
	Official	Non-official	Total	
1	2	3	4	5
1894-95	9	44	53	41.3
1895-96	9	40	49	41.1

8. *Elections.*—General elections of members of Local Boards were held during the year in Burdwan, Birbhum, Bankura, Hooghly, Howrah, Rajshahi, Pabna, Dacca, Fardpur, and Patna, and in all the districts of the Presidency Division. It appears that no great interest was aroused in these elections. In the Burdwan Division the percentage of voters attending ranged from 39 to 7 per cent., and in 14 thanas out of 49 the elections failed wholly or partially owing to candidates not being nominated in time, or to 10 per cent. of the electors not appearing to vote. In the Presidency Division the elections failed in 19 thanas for various reasons. In the Pabna district the attendance varied from 10 to 31.6 per cent. of qualified voters. In Dacca, out of 18,943 qualified voters only 2,909 gave votes, and in Fardpur the elections were very poorly attended, and failed altogether in two thanas. On this subject the Commissioner of Burdwan remarks:—

“The value popularly attaching to the right of election is still more strikingly illustrated by the fact that the elections came to nothing even in such advanced places as Rampur Hat and Asan-ul. Considering that this is the fourth occasion on which a general election has been held, that this Division comprises some of the most advanced portions of Bengal, and that the people are now well acquainted with all details of the Local Self-Government scheme, it cannot be denied that the results so far have been disappointing. These go to show that the masses of the population are quite indifferent to the boon of popular representation, on the grant of which a small but clamant section of the public has laid so much stress.”

By-elections were held in some districts, but they call for no special comment.

9. *Occupation of Members of District Boards.*—In the following table the members of the several District and Local Boards are classified according to their professions and occupations:—

	GOVERNMENT SERVANTS		ZAMINDARS, &c		PLEADERS AND MCKHINARS		PLANTERS		MISSIONARIES		GOVERNMENT PENSIONERS		OTHER OCCUPATIONS		Total number of members.
	Number	Ratio per cent	Number	Ratio per cent	Number	Ratio per cent	Number.	Ratio per cent	Number	Ratio per cent.	Number	Ratio per cent.	Number	Ratio per cent.	
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
District Boards	241	37.7	239	36.1	173	26.7	68	10.5	9	1.4	10	1.5	48	7.4	704
Local ..	149	18.1	573	43.2	324	25.3	88	4.7	5	.5	21	1.7	143	11.6	1,881

As compared with the preceding year, the number of Government servants on the Local Boards decreased from 159 to 149. In other respects there has been but little change.

10. *Powers of Local Boards.*—There was little change in the powers exercised by Local Boards. In Midnapore they were charged with the improvement of water-supply, and in Hooghly with the control of sanitation in consequence of the formation of Union Committees in those districts. The supervision of the village roads was made over to the Thakurgaon Local Board in Dinajpur during the year, and the district roads, which had been in charge of the Local

Boards in Pabna, were resumed by the District Board. In Faridpur, Local Boards were, for the first time, entrusted with the control of primary education.

11. The Commissioner of Burdwan reports that the management of pounds, ferries, and roads by the Local Boards in the Burdwan district was fairly good, but that there is room for much improvement in their work in connection with primary education. Their administration of the grants to secondary schools proved a failure, and the control of the grants had to be resumed by the District Board. In Birbhum the Rampur Hât Local Board was unsuccessful in its management of eight scheduled roads and a dâk bungalow, and its Chairman was anxious to be relieved of the responsibility of passing bills for work which he found himself unable to check. In respect of village roads and primary education the two Boards in this district are said to have done fairly well. The Sadar Local Board in Bankura is well spoken of, but in Vishnupur the Board showed so little interest in their duties that for almost the whole year they did not even take the trouble to elect a Vice-Chairman. The administration of pounds by the Local Boards in Midnapore is described by the Magistrate as "practically no management at all." Kabuliyats were seldom taken, pound sheds were often not erected at all, and in no single case did he find the proper registers kept up. In the same district the Tamluk Local Board, to which primary education was made over in 1894-95 as an experiment, took no interest in the subject beyond mechanically passing bills for rewards and stipends. In the 24-Parganas the administration of roads and pounds by the Local Boards was not satisfactory, but in Nadia these bodies showed a slight improvement in the management of pounds, ferries, and village roads. In Khulna the management of pounds and ferries by the Local Board is said to have been satisfactory, in Satkhira to have slightly improved, and in Bagerhat to be bad. The Commissioner of the Presidency Division reports that in his inspections he generally found the management of pounds and ferries by Local Boards to be extremely weak, defaulters being allowed to remain in possession without payment of rents, as the Board were afraid to face the immediate loss involved in cancelling the leases and bringing in fresh lessces. The Chairman of the Rajshahi District Board remarks that the Local Boards did their work fairly well, and that the Nator Local Board showed a commendable amount of energy under the Chairmanship of the Subdivisional Officer. In Pabna the Local Boards are said to have worked satisfactorily and to have given material help to the District Board, but this opinion seems hardly consistent with the fact that the latter body found it necessary to resume charge of the district roads which they had made over to the Local Boards. The Magistrate of Dacca reports that the Local Boards showed great interest in the performance of their duties. In Mymensingh the Local Boards have charge of village roads, sanitation in villages and at fairs, primary education, pounds and ferries, and also exercise certain powers in respect of dispensaries. They are said to have managed all their departments with a fair amount of zeal and success, but it is remarked that the Chairman of the District Board had to help and guide them in all important matters. The Local Boards in Faridpur supervised the construction and maintenance of village roads, the digging and repair of tanks, and managed pounds, ferries, and primary education. Their work is said to have been on the whole well done. In Patna all the Local Boards, except Dinapur, spent nearly the whole allotment made for repairs of village roads. In Shahabad the Local Boards worked fairly up to their allotments, but in Saran, Gaya, Darbhanga, and Muzaffarpur the recorded expenditure fell short of the allotments owing to expenditure which had been incurred not being brought to account during the year. The Local Boards in Cuttack exercised the powers delegated to them with great care; they had no sub-committees, all matters being disposed of by them in their general meetings. The management of pounds and ferries and of the grants for village roads by the Local Boards in Puri is said to have somewhat improved, but there is still considerable room for improvement.

12. *Union Committees.*—The Union Committee system was further extended during the year. In the Burdwan Division altogether 21 Unions have been started—6 in each of the two districts of Burdwan and Midnapore, 5 in Hooghly, and 4 in Howrah. In the Presidency Division there are 22 Unions—3 in the

24-Parganas, 4 in Nadia, 4 in Murshidabad, 5 in Jessore, and 6 in Khulna. In the Chittagong Division 5 Union Committees were formed in the Tippera district during the year. Of the Unions already formed, the area varies from 3 to 23 square miles, the average being 10; and the population from four thousand to twenty-three thousand, with an average of 11,200. The Committees have, for the most part, been entrusted with the control of pounds, village roads, sanitation, and water-supply. In regard to primary schools, their authority is restricted to inspection, and no power of control has been conferred upon them. The income of the Union Committees consists of (a) net pound receipts, (b) a consolidated grant from the District Board for village roads, sanitation and water-supply, and (c) funds raised under section 118 of the Act. The amount available from these sources for expenditure on public purposes varies from Rs. 215 to Rs. 2,400 a year, the average being Rs. 558. As most of the Unions have been hardly a year in existence and complete statistics of their working are not yet available, it would be premature to express any opinion as to their prospects of success.

13. *Financial results.*—The following statement shows the principal items in the income and expenditure of District Boards during the two years 1894-95 and 1895-96:—

INCOME.		1894-95	1895-96.
		Rs	Rs
VI.—Provincial Rates	...	35,60,402	36,27,156
XII.—Interest	...	37,616	35,102
XVII.—Police (including pounds)	...	4,36,693	4,15,947
XIX.—Education	...	54,933	53,836
XX.—Medical	...	28,930	24,489
XXI.—Scientific and other Minor Departments	...	5,425	6,692
XXIII.—Stationery and Printing	1,027
XXV.—Miscellaneous	...	1,99,526	1,81,023
XXX.—Irrigation—Minor Works and Navigation	...	14,475	15,224
XXXII.—Civil Works (including ferries)	...	10,43,703	10,89,183
Contributions	...	5,02,999	5,13,102
Debt	...	7,90,264	8,08,116
Total	...	66,74,986	67,70,986

EXPENDITURE.		1894-95	1895-96.
		Rs.	Rs.
1.—Refunds	2
18.—Administration	...	2,94,974	2,97,949
20.—Police (pounds)	...	27,215	16,909
22.—Education	...	11,28,359	12,26,642
24.—Medical	...	1,51,012	1,92,810
26.—Scientific and other Minor Departments	...	9,075	11,277
29.—Superannuation allowances and pension	...	2,978	4,171
30.—Stationery and Printing	...	50,632	50,495
32.—Miscellaneous	...	53,319	71,354
36.—Famine Relief	...	26,621	664
43.—Minor Works and Navigation	...	8,782	3,618
45.—Civil Works	...	41,72,576	44,71,881
Contributions	2,789
Debt	...	7,24,120	7,36,250
Interest on Debt	...	36,702	10,702
Total	...	66,77,267	70,97,463

The year opened with a balance of Rs. 17,32,181 against Rs. 17,34,464 in the previous year. The receipts during the year amounted to Rs. 67,70,987 against Rs. 66,74,986, and the charges to Rs. 70,97,463 against Rs. 66,77,267. The year thus closed with a balance of Rs. 14,05,689, of which Rs. 3,36,971 consisted of deposits, against Rs. 3,52,645 in the previous year. The District Funds of Burdwan and Midnapore had deficit balances of Rs. 8,097 and Rs. 1,339, respectively, owing to the income from road cess falling considerably short of the estimate. The closing balances amounted to more than half of the year's income in Bogra, Tippera and Malda, and to more than one-third in Rajshahi, Dinajpur, Noakhali, Bhagalpur and Cuttack. In the cases of Bhagalpur, Malda, Cuttack and Tippera, the large balances have been adequately accounted for; but in Rajshahi, Dinajpur, Bogra and Noakhali, no reasons for keeping so large a balance have been given. The Commissioner of Chittagong reports that he has called upon the Tippera District Board to prepare a scheme for spending their balance on feeder roads to the Assam-Bengal Railway.

INCOME

14. *Provincial Rates*.—The proceeds of the road cess, less the cost of collection and of periodical revaluation, form the receipts under this head. They increased from Rs. 35,60,402 to Rs. 36,27,156 during the year under report. The increase is attributed generally to better collections. In Backergunge it was due to the rate having been raised from one pie to half an anna in the rupee. In the Chittagong Division a decrease of Rs. 14,723, which is shared by Tippera and Chittagong, is ascribed to the cumbrous procedure of the Tauzi Manual, to the necessity of issuing warning post-cards, and to default on the part of two large proprietors.

15. *Interest*.—The receipts from this source fell from Rs. 37,616 to Rs. 35,102. The decrease occurred more or less in every district, but chiefly in Midnapore, Saran, and Hooghly. In Midnapore the cess collection during the year was bad, and this is said to have reacted on the realisation of interest.

16. *Pounds*.—The statement below shows the number of pounds and their income during the past three years:—

Year.	No	Income Rs.
1895-96	3,583	4,15,947
1894-95	3,514	4,36,693
1893-94	3,456	4,50,009

The figures show that while the number of pounds has increased the income derived from them has fallen off. For the latter fact a variety of reasons are assigned, such as combinations among the farmers of pounds; the difficulty of inducing substantial men to come forward as lessees; the injudicious opening of new pounds; the mismanagement of the Local Boards; the more frequent inspections now insisted on; and the elaborate forms which farmers are required to keep up.

17. Regular inspections of pounds were made during the year by Government and District Board officials, viz., District Magistrates, Subdivisional Officers, Sub-Inspectors of Schools, and also by the Sub Overseers and Pound Inspectors employed by District Boards. In the Nawada subdivision of the Gaya district five cases occurred in which food was not supplied to the impounded cattle. In one the farmer was fined Rs. 5, and in the rest the offenders were let off with a warning. The Chairmen of the Birbhum and Midnapore District Boards report that in most cases the inspections made by the Sub-Inspectors of Schools were not thorough, and the Commissioner remarks that "this is not a new complaint. Some Sub-Inspectors of Schools seem to think pound inspection beneath their dignity." In Midnapore road sarkars, and in Howrah the inspecting pandits, were also entrusted with this duty, but the Commissioner observes that "inspection by such subordinate officers is likely to debar men of known position from taking leases of pounds." Legislation is being undertaken with the object of enabling District Boards to devote funds to a comprehensive veterinary scheme, one of the results of which will probably be to facilitate the inspection of pounds and to bring about improvements in the details of their management.

18. The new pound forms were in use in all districts, except Bankura and Midnapore, where they have been introduced since the close of the year. They are said to be too intricate for the lessees, who are usually illiterate men. The system of triennial settlement is reported to have worked satisfactorily in Rangpur, but to have failed in Rajshahi, Pabna, and other districts, because profits vary greatly and lessees will not risk more than a year's income. The Commissioner of Burdwan, on the other hand, observes that with three-year leases "larger bids might be expected, as a farmer could set a bad year against a good," so that "a better class of men would come forward and better pound buildings and more attention to rules might be expected."

19. *Education*.—The income from this source declined from Rs 54,933 to Rs. 53,836. The decrease occurred in the Dacca, Chittagong, and Patna Divisions, and was due to casual variations of no special importance.

20. *Medical*.—The income under this head was Rs 24,489 against Rs. 23,930. The decrease occurred chiefly in Hooghly and in Monghyr. In Hooghly the receipts of 1894-95 were swollen by a sum of Rs. 4,578 received from the bequest of the late Dr. Bholanath Bose for the construction and maintenance of the Mandlai Dispensary. In Monghyr some new dispensaries were started in 1894-95, and a large amount of advance subscriptions and donations was received; but after the dispensaries had been opened enthusiasm abated, and the subscriptions fell off. In Balasore also there was a decrease of over Rs. 800, which is said to be due to subscriptions not having been realised in full, and to the small amount of the sale-proceeds of intestate property of in-door patients. The Commissioner of the Division remarks that "there must be something radically defective in the system of collecting subscriptions, if the proceeds during the year under review fall short by several hundreds of rupees as compared with those of the preceding year." The increase in Patna is attributed to the receipt of a sum of Rs 2,000 as a gift from the Zamindar of Rajgir for the construction of a new building for the dispensary there.

21. *Scientific and other Minor Departments*.—The receipts under this head rose from Rs. 5,425 to Rs. 6,692. Nearly half of the receipts was contributed by the District Board of the 24-Parganas, and consisted of a sum of Rs. 3,291 paid by Raja Sir Sourindro Mohan Tagore, K.C.S.I., for sanitary and conservancy arrangements in the Ganga Saugor fair.

22. *Miscellaneous receipts*.—There was a decrease of Rs. 18,503 in the income under this head, which is mainly due to recoveries on account of the cost of collecting arrear cesses not having been credited during the year.

23. *Minor Works and Navigation*.—Canal revenue in Chittagong rose from Rs. 14,255 to Rs. 15,004, while in the 24-Parganas Rs. 220 was received for a fishery in the drainage channel along the Diamond Harbour Road from Sorakoli to Sonamukhi.

24. *Civil Works, including Ferries*.—The receipts from tolls on ferries increased from Rs. 3,94,072 to Rs. 4,18,814. The increase is shared by all the districts, except Bankura, Midnapore, Jalpaiguri, Pabna, Backergunge, Noakhali, Chittagong, Gaya, Shahabad, Saran, Cuttack, and Puri. In Bankura and Chittagong the decrease is attributed to lack of competition for leases, in Midnapore to scanty rainfall, in Noakhali to the closing of two ferries, and in Saran and Puri to failure to collect the amounts due. The decrease was small in Gaya, and in Cuttack was due to the adjustment of certain deposits in the preceding year.

25. In many districts the unexpected inspection of ferries by Government and District Board officers has been productive of good results. No serious complaints were made during the year against farmers on the ground of overcharge or negligence. In one case, however, in the 24-Parganas, a farmer was found levying tolls at higher rates than those authorised, and steps were taken to prevent the recurrence of this practice. In Balasore some prosecutions were instituted against persons opening private ferries within two miles of public ferries. The complaint of illegal levy of tolls from persons who waded through the river, noticed in last year's Resolution, was proved on inquiry to be unfounded. In several districts the condition of the ferry boats, landing stages and approaches is said to have been improved. In Tippera and Noakhali Inspectors of pounds and ferries were appointed, and in the latter district this led to many farmers being punished. The District Board of Darbhanga have also appointed an Inspector of ferries.

26. The grants made by Government, local bodies or private individuals for special works are shown as contributions in column 63 of Form No. II. The receipts under this head rose from Rs. 6,37,133 to Rs. 6,63,209, owing mainly to the increased grants made by Government.

27. *Contributions.*—The contributions made by Government to equalize the assets and charges of the several District Boards rose from Rs. 5,02,344 to Rs. 5,10,907. The increase is partly due to the additional grants made by Government to meet the salaries and travelling allowances of the Departmental Sub-Inspectors of Schools whose services were transferred to the District Boards during the year, and partly to the additional allotments, which were made by Government for primary education.

28. *Loans.*—During the year the District Boards of Nadia, Murshidabad and Jalpaiguri obtained loans from Government of Rs. 20,000, Rs. 15,000, and Rs. 10,000, respectively, for the improvement of certain district roads. The District Board of Muzaffarpur also received a loan of Rs. 80,000 for the construction of a pontoon bridge over the Bur-Gandak river at Akhra Ghat on the road from Muzaffarpur to Sitamarhi.

29. *Deposits and Advances.*—The total receipts under this head fell from Rs. 7,20,264 to Rs. 6,79,911. The variations are of no special importance. The Commissioner of Dacca should report specially through the Board on the question raised by him as to the disposal of unclaimed compensation for land acquired by the Boards.

EXPENDITURE.

30. *Administration.*—The cost of general administration has increased from Rs. 2,94,974 to Rs. 2,97,949. The increase is attributed to the grant of annual increments to employes, the payment of increased charges for establishment in offices of account, control and audit, expenses incurred in temporary establishments and heavier expenditure on account of travelling allowance and office contingencies.

31. *Pension and Provident Fund Rules.*—Provident Funds have been established everywhere for the benefit of those employes whose whole service has been under the Boards. Pension and gratuity rules for officers transferred from pensionable service under Government or the late Road Cess Committee have also been passed in all districts except Faridpur, where no such rules are necessary.

32. *Pounds.*—There was a decrease of expenditure under this head, amounting to Rs. 10,306. The largest decrease was in Champaran, where the expenditure was Rs. 1,758 against Rs. 8,159 in 1894-95, owing to most of the pounds being farmed out in June, and the rest from the beginning of the year.

33. *Education.*—The expenditure on education rose from Rs. 11,28,359 to Rs. 12,26,642, being an increase of Rs. 98,283, to which all the heads in the table contribute, except training and special schools. Only nine districts show a decrease for which various explanations are given. Thus in Burdwan the bills of some aided schools remained unpaid; and in Midnapore a change in the method of disbursing the khasmahal grant-in-aid of primary education produced a nominal decrease of 2,628. In Howrah the expenditure on secondary education was reduced; while in Nadia and Murshidabad shortness of funds led to a falling off in the grants-in-aid to middle and primary schools. The decrease in Jalpaiguri is said to be due to the reduction of the Government contribution towards primary education, and in Bogra to the payment of lesser amounts on account of the pay and travelling allowance of a Sub-Inspector of Schools and some pandits who were on leave, the abolition of the guru-training class, and the non payment of some grants-in-aid and scholarship bills not presented for payment during the year. The increase of Rs. 31,804 under the head of "Inspection" is explained by the fact that during the year the services of the remaining 25 Departmental Sub-Inspectors of Schools were transferred to District Boards. Under the head of "Grants-in-aid" there is also an increase of Rs. 49,047, which is due to the grant of additional amounts in the shape of aid to some Middle English and Vernacular schools.

34. The table below shows the proportion of its ordinary income which each District Board spent during each of the past two years on education generally and on primary education in particular :—

DISTRICT BOARDS.	1894-95					1895-96				
	Ordinary income	Total expenditure on education	Expenditure on primary education	Percentage of column 3 on column 2	Percentage of column 4 on column 3	Ordinary income	Total expenditure on education	Expenditure on primary education	Percentage of column 3 on column 2	Percentage of column 4 on column 3

The average expenditure on education incurred by the District Boards during the year was 23.1 per cent. of their ordinary income against 21.5 in 1894-95

and 20·6 in 1893-94. In all the districts of the Patna Division, and in the Birbhum, Murshidabad, Jalpaiguri, Backergunge, Monghyr, Bhagalpur and Purnea districts, the expenditure was below the provincial mean. The highest figures are shown against Faridpur (40·6), Balasore (40·3), Bankura (39·6), Hooghly (37·1), Cuttack (36·8), Dacca (36·2), Pabna (36·0), Puri (32·2), Malda (31·2), Nadia (30·9) and Burdwan (30·1). Taking next the proportion spent on primary education, Balasore has a ratio of 31·7, Faridpur 30·4, Cuttack 28·6, Bankura 27·7, Dacca 25·7 and Hooghly 25·1. In Jalpaiguri, Shahabad and Muzaffarpur the proportion was below 10 per cent. of income. On this subject the Commissioner of Patna remarks as follows:—

“The educational expenditure thus shows a gradual advance from year to year, the total expenditure being 10·2 per cent of the whole in 1893-94, 11·4 in 1894-95, and 13·2 in the year of report. It was the policy of the late Lieutenant-Governor to encourage expenditure on primary education, and he laid down the principle that as the general income of a District Board developed, their expenditure on primary education should be increased in due proportion. I understand, however, that this is not the view held by the Lieutenant-Governor, and that Sir Alexander Mackenzie has decided that all proceeds from Provincial rates should be expended on communications, and that it is only the balance of a Board's income, after this has been done, which can be expended on the other departments under their control, such as education, sanitation, hospitals and vaccination. It has also been held, I understand, that no District Board is bound to expend on primary education more than it receives on that account, *i.e.*, a proportion of the original grant to produce equilibrium, together with any subsequent grants which may be made from time to time from Provincial Funds. In these circumstances, it is only necessary to say that the original grants made to District Boards in Bihar on account of education, and included in the lump annual contribution, were very small, because the calculation of their requirements was based on the expenditure of the time. Since 1885, however, Bihar has greatly developed, and the sum which can usefully be spent on promoting primary education now reaches a much higher figure than it did 11 or 12 years ago. Consequently, if the expenditure from the District Fund is to be limited ordinarily to what it was when the scheme first began, we must look for a considerable subscription from Provincial revenues year by year if we are to comply with the increasing demand for primary education and foster learning in a province which, though now progressive, is still much behind Bengal.”

35. The following abstract compares the educational expenditure of the Boards during the last two years under its main heads:—

<i>Inspection.</i>		1894-95. Rs.	1895-96. Rs.
Sub-Inspectors	...	1,49,984	1,75,095
Inspecting pandits	..	86,211	89,644
<i>Direct Management</i>			
Training and other special schools	.	20,102	9,373
High schools	...	1,319	1,619
Middle „	...	47,601	76,298
Primary „	...	980	7,308
<i>Aided Schools.</i>			
Training and other special schools	...	3,184	6,723
High schools	..	2,054	2,844
Middle „	..	1,84,919	1,83,715
Primary „	...	5,21,072	5,75,163
<i>Scholarships.</i>			
Scholarships	...	26,055	26,601
<i>Miscellaneous.</i>			
Building and furniture	...	6,279	5,779
Payments to abolished schools	...	10,576	8,807
Examination prizes and rewards	...	34,370	34,152
Contingent charges	...	20,302	14,016
Total	...	11,15,308	12,26,643

Out of the total expenditure on education, 47·4 per cent. was devoted to primary schools, 21·5 to inspection and 21·1 to middle schools. During the

past year there was an increase under all heads except those classed as "Miscellaneous." The increase in inspection charges is divided among the districts to which the services of certain Departmental Sub-Inspectors of Schools were transferred. It was largest in the 24-Parganas, owing to the number of the Sub-Inspectors transferred to that Board being two in excess of that transferred to the other Boards. The rise in the expenditure on middle schools under direct management occurred in all districts except Bankura, Howrah, Mymensingh and Faridpur. The increased expenditure on primary education is due chiefly to grants of new stipends and to the payment of higher sums as rewards during the year under report. The decrease of expenditure under the head "Contingencies" is explained by the fact that the contingent expenses of Sub-Inspectors, which used to be shown in the previous year's returns under that head, are now taken under the head of "Inspection."

36. *Technical and other Schools.*—Technical schools were maintained in the Burdwan, Howrah, Midnapore, 24-Parganas, Rangpur, Pabna, Backergunge, Mymensingh and Purnea districts. Those at Burdwan, Pabna and Rangpur were affiliated during the year to the Apprentice Department of the Sibpur Engineering College. The Maisadal Raja's Technical School, which is under the management of the District Board of Midnapore, is said to be doing better than before. Classes have been opened for teaching theoretical subjects, scholars of a better stamp have joined the school, and it is proposed to procure better artisan instructors and to introduce an improved style of workmanship. The Sonarpur Technical School, under the management of the District Board of the 24-Parganas, proved a failure, and was abolished at the close of the year. Scholarships tenable at the Sibpur Engineering College were granted by the District Boards of Mymensingh, Backergunge, Noakhali, Cuttack and Puri. An Apprentice Department was opened during the year in the Comilla Artizan School which was affiliated to the Sibpur Engineering College. The District Board of Noakhali founded a scholarship of Rs. 10 to be held at the Calcutta School of Art, but no candidate came forward. Scholarships tenable at the Bihar Industrial School, which was amalgamated during the year with the Government Survey School, were granted by all the District Boards in the Patna and Bhagalpur Divisions, with the exception of Purnea. The District Board of Cuttack paid Rs. 107 during the year to the boys receiving education in the Jobra Workshop, and the District Board of Balasore Rs. 120 to the student sent by that body to the Calcutta School of Art. Viewing the year's work as a whole, the efforts made to promote technical education appear to have been fairly successful.

37. The Officiating Director of Public Instruction makes the following remarks on the relations between District Boards and the Education Department, in his Report on Public Instruction, Bengal, for the year 1895-96.—

"On the whole, harmonious relations subsisted between the District Boards and the Education Department. With rare exceptions the District Boards followed the advice of the Deputy Inspectors in all educational matters, the disposal of which required the knowledge and experience of a specialist. In the Presidency Division the only exceptional case in which the Deputy Inspector of the 24-Parganas was not consulted was with regard to the appointment of the head pandit of a Board model school; but the Chairman, after due enquiry into the matter, ordered that the Deputy Inspector should be consulted in all cases of appointment. During the year under review, certain malpractices on the part of a clerk of the District Board of the 24-Parganas came to light, for which he was suspended. I am of opinion that the Boards' clerks require looking after, otherwise they are apt to become dilatory and lazy, and school bills are passed irregularly and much hardship results. In Dinajpur, in the Rajshahi Division, the Deputy Inspector was made Vice-Chairman of the District Board during the absence of the permanent incumbent. In each of the districts of Bogra and Pabna there was on one occasion disagreement between the District Board and the Deputy Inspector, viz., when the Board determined to reduce the budget allotments for education. The Assistant Inspector of the Chittagong Division took exception to the action of the District Board of Tippera prescribing certain text-books for primary schools. The matter was at last referred to Sir Alfred Croft, who had to point out to the Board that they had no authority to prescribe text-books in the way they had done. In the Bhagalpur Division the Deputy Inspector of Malda continued to be the Vice-Chairman of the District Board. The temporary Inspector of the Orissa Division reports that there appears to be a tendency on the part of some of the Boards not to re-allot the educational savings for educational purposes, and that, generally speaking, there still exists a want of despatch in their office work. The Cuttack Deputy Inspector continued to be the President of the Educational Sub-Committee of the District Board."

38. *Female Medical Education.*—The District Boards of 24-Parganas, Jessore, Rajshahi, Rangpur, Mymensingh, Faridpur, Backergunge, Patna, Shahabad, Saran, Champaran, Muzaffarpur, Darbhanga, Cuttack, and Puri granted scholarships to female medical students. Scholarships were also offered by the District Boards of Burdwan, Midnapore, Jessore, Noakhali, and Tippera, but no candidates came forward. The Gaya District Board incurred an expenditure of Rs. 492 during the year in the training of *dhais* in the female ward of the Gaya Pilgrim Hospital. The Monghyr District Board paid a scholarship of Rs. 25 per mensem to Mrs. Swindon, who is prosecuting her studies in the Calcutta Medical College. The District Board of Faridpur continued its grant of Rs. 20 a month to the female nurse sent to the Campbell Medical School.

39. *Medical.*—The expenditure under this head shows an increase of Rs. 40,898, chiefly under dispensaries, sanitation, and vaccination, to which all districts contributed, except Midnapore, Hooghly, Pabna, Chittagong, Gaya, Saran, and Bhagalpur. The District Board of Burdwan have resolved to open a dispensary at Purbasthali, one of the most unhealthy places in the district, where the death rate in 1895 was 33.99 per thousand of the population, at a cost of Rs. 780 a year. The Board have also decided to contribute Rs. 100 a year to the municipal dispensary at Raniganj. The management of the Nayabasan dispensary, which has hitherto been in the hands of the Midnapore District Board, has been taken over by the Maharaja of Moharbhauj. The Polba Charitable Dispensary, which used to be maintained by the Hooghly District Board, was abolished during the year. Owing to an outbreak of malarial fever within the jurisdiction of the Singta outpost, a charitable dispensary has been temporarily established there by the Howrah District Board. In addition to the five dispensaries established by the District Board of Rajshahi last year, that body has resolved to establish two other dispensaries, one at Kalam in thana Singia, and the other at Durgapur. Four new dispensaries were built by the District Board of Bogra. A dispensary, opened by Babu Nandalal Sen of Baldhana, in the Manikganj subdivision, came during the year under the management of the Dacca District Board. The attendance at the Boaha dispensary is said to have increased during the year owing to the action of the Board in placing Mrs. Bonotoshimi Chandra in charge of the female and child-patients. The District Board of Mymensingh established two new dispensaries at Dhalla and Dighpait in addition to the five opened last year. The District Board of Monghyr opened four new dispensaries during the year. They also took over the management of the Jamui dispensary and employed an extra native doctor in the local hospital. The Backergunge Board opened six, and the Noakhali Board two, new dispensaries during the year. The District Board of Puri took over the management of the Pipli dispensary, which had hitherto been maintained by the Puri Lodging-house Fund. The District Board of Tippera continued its contribution of Rs. 50 a month to the Faizunnissa Zanana Hospital for a lady doctor and appointed four Civil Hospital Assistants to travel about with medicines and treat the sick in definite areas. The Chittagong Board provided funds for sending women to the Eden Hospital in Calcutta to be trained as midwives, but no candidates came forward. The lady doctor employed by them is said to work hard and to be very popular. In Champaran grants-in-aid to two dispensaries were sanctioned, and in Muzaffarpur a police outpost was purchased and fitted up as an outdoor dispensary. The Shahabad District Board contributed towards the salaries of the midwives supported by the Dunraon and Sasaram Municipalities. The Board also appointed a lady doctor at Ariah on a salary of Rs. 55 per mensem whose services are said to be in demand among native women. The Saran District Board paid Rs. 538 during the year to a midwife entertained at Chapra for the treatment of female patients. The District Board of Burdwan contributed half of the pay of the lady doctor employed at the municipal dispensary at Burdwan. Subscriptions amounting to Rs. 3,256 were realized for the establishment of a branch Lady Dufferin Hospital at Suri, and the District Board of Buxhum have guaranteed a monthly contribution of Rs. 20. The Bankura and the Hooghly District Boards contributed Rs. 300 and Rs. 1,200, respectively, towards the maintenance of a branch of the Lady Dufferin Hospital. The District Boards of Rajshahi,

Jalpaiguri, and Jessore continued to contribute to the pay of midwives at the head-quarter stations. The District Board of Mymensingh employed midwives at Tangail and Kishorganj and a lady doctor at Mymensingh. The Faridpur Board contributed Rs. 220 towards the pay of the nurse attached to the dispensary at Rajbari. The Chittagong District Board sent a boy to study at the Bengal Veterinary Institution on a monthly stipend of Rs. 8, who is reported to have passed the first-year examination, and a second candidate has since been selected. The Commissioner, however, is doubtful whether the boys belong to the right class, or have any real intention of becoming veterinary practitioners. The Purnea District Board has sanctioned an annual contribution of Rs. 500 for the maintenance of the Zanana Hospital at Purnea. The Lieutenant-Governor has perused with much satisfaction this record of the measures adopted by the several District Boards to extend medical relief in various forms, and he trusts that they will continue to persevere in their good work.

40. *Sanitation.*—The total expenditure of the year amounts to Rs. 99,640 against Rs. 86,585 in 1894-95, as shown in the margin. On the improvement of water-supply the largest expenditure was incurred in the Dacca Division, viz., Rs. 16,910, and the smallest in the Orissa Division (Rs. 1,164). The minimum limit of Rs. 5,000 prescribed in last year's Resolution was attained only in My-

	1894-95. Rs	1895-96 Rs
Improvement of water supply ...	68,768	65,891
" of village sites	2,698	8,247
Conservancy of towns and villages	457	598
Sanitation at fairs	7,560	8,830
Other sanitary expenditure	12,202	16,071
Total	86,585	99,640

mensingh and Monghyr, where the expenditure under this head was Rs. 8,278 and Rs. 7,857, respectively. In districts where tanks are the chief source of water-supply, the main obstacle to improvement is the fact that there are few public tanks and the owners of private tanks are unwilling to permit the Boards to reserve them for drinking purposes. The Commissioner of Burdwan thinks that this difficulty will disappear when it is understood that fishing and other proprietary rights will not be interfered with, and that the Boards do not wish to make a profit out of the reserved tanks. In many districts tube wells were introduced during the year. They answer well in light soil, but the people have not yet learnt how to manage them, and they frequently get out of order. In the Patna Division Rs. 16,004 was spent on constructing 16 roadside wells, on repairing 473 such wells, and in supplying 166 wells with chains, buckets, and lifts. Systematic inquiries are being made under the special orders of Government into the sufficiency of the rural water-supply throughout the Province, and the subject is being considered in connection with the Bill to amend the Local Self-Government Act.

41. The total amount spent on other sanitary objects was Rs. 16,071 against Rs. 12,202 in 1894-95. The largest expenditure was incurred in the Noakhali district, where a sum of Rs. 4,563 was spent in putting drain-pipes on roads, and cutting, clearing and deepening drains and boat passages. The District Board of Saran spent Rs. 3,568 on the sanitation of the Sonapur and four other fairs; and in the 24 Parganas a sum of Rs. 3,219, was laid out on the sanitary and conservancy arrangements of the Ganga Saurgar mela.

42. *Scientific and other Minor Departments.*—The District Board of Pabna maintained two bulls at Pabna and at Sirajganj at a cost of Rs. 196 for the purpose of improving the breed of cattle in the district. The stallion belonging to the Shahabad District Board, stationed at Buxar, served 20 mares against 28 and 38 mares in the previous two years. Towards the close of the year the Champaran District Board purchased an Arab pony stallion through the Civil Veterinary Department at a cost of Rs. 1,010, but the animal has proved unsuitable, and the Board are negotiating for its return.

43. *Stationery and Printing.*—The total outlay under this head was Rs. 50,362, which is Rs. 137 less than the previous year's expenditure.

44. *Miscellaneous.*—Miscellaneous charges rose from Rs. 53,319 to Rs. 71,354. The increase includes Rs. 7,780 paid in Muzaffarpur as compensation for certain ferries acquired by the District Board. The increase of Rs. 3,983 in Jalpaiguri was due to a change in the method of accounting

for the Board's contribution to the Bengal-Duars Railway. In the 24-Parganas and Jessore expenditure rose on account of the general elections held during the year and of law charges, and in Monghyr by reason of payments for gratuitous medical attendance on the employes of District Boards. The increase in Bhagalpur is due to the expenses incurred in prosecuting a road sarkar for misappropriation.

45. *Famine Relief*.—The expenditure on famine relief amounted to Rs. 664, representing advances granted in Faridpur two years ago to distressed women for husking paddy, which were written off as irrecoverable during the past year.

46. *Civil Works*.—The following table shows the expenditure on public works as compared with that of 1894-95 —

YEAR	Ferry estab- lishment, contingencies and refunds	Original works	Repairs	Establish- ment and contingen- cies	Tools and plant	Water-supply and water works	Drainage works	TOTAL
1	2	3	4	5	6	7	8	9
1894-95	Rs 38,008	Rs. 12,23,703	Rs 22,09,265	Rs 6,27,780	Rs 25,144	Rs 10,725	Rs 7,903	Rs 41,72,578
1895-96	45,682	14,09,268	24,11,022	6,26,847	21,888	61,976	5,118	44,71,981
Difference	+ 7,674	+ 1,85,565	+ 1,01,757	— 131	— 3,256	+ 11,251	— 2,105	+ 2,99,303

The increase of Rs. 2,99,303 affected all the heads except Establishment and Contingencies, Tools and Plant and Drainage Works, the largest increase being under Original Works. The Muzaffarpur Board spent the largest sum on Original Works owing to the construction of a pontoon bridge over the Bur-Gundak at a cost of Rs. 80,000 borrowed from Government. Mymensingh took in hand several new roads, and Gaya completed several works which were left unfinished at the end of 1894-95. In Burdwan Rs. 49,072 were spent on the upkeep of provincial roads, Rs. 87,021 on the maintenance of metalled and bridged roads, and Rs. 15,066 on unmetalled and unbridged roads. The 24-Parganas comes next with an expenditure of more than a lakh and half on repairs. The most important works taken in hand during the year were the metalling of the Burdwan-Jahanabad road by the District Board of Burdwan at a cost of Rs. 12,019, the construction of the subdivisional Court buildings at Netrokona, Kishorganj, and Jamalpur by the District Board of Mymensingh, the building of a two-storied Civil Court building at Barisal by the District Board of Backergunge, the construction of an iron girder bridge over the Ganges Nala on the Jahanabad-Urwal road by the District Board of Gaya, and of a pontoon bridge over the Bur-Gandak, and of a masonry bridge of nine spans over the Danda river by the District Board of Muzaffarpur. The District Board of Monghyr built for Government a Munsif's cutcherry at Beguserai, a court-house at Shaikpura, a thana building at Gogri and opium buildings at Lakhiserai. The Commissioner of Chittagong reports that the new General Hospital in Chittagong, which was begun in 1893, is still far from completion.

47. The average ratio of the cost of civil works to the total expenditure under this head was 63·0 per cent. against 62·8 in 1894-95, but in particular districts the proportion ranged from 74·6 in Bhagalpur and 74·3 in Muzaffarpur to 42·9 in Balasore and 40·7 in Patna. The percentage of the cost of establishment on total expenditure was 8·6 for the whole Province against 9·2 in 1894-95. It reached 13·8 in Saran and 13·4 in Shahabad, while Backergunge and Faridpur show 6·0 and 6·1 respectively. For the Province generally the salary of the District Engineer represents 42·7 per cent. of the total cost of establishment, but this proportion is exceeded in no less than 16 districts. In Champaran the salary of the District Engineer comes to 74·3 of the total cost of establishment, and in Jessore and Cuttack to 61·8. The provincial mean ratio of cost of establishment to expenditure on original works and repairs is exceeded in 21 districts, the first place being taken by Saran.

48. *Village Roads.*—The expenditure on village roads in each Division

	1894-95	1895-96.
	Rs	Rs
Burdwan Division	31,847	40,261
Presidency "	40,448	43,957
Rajshahi "	22,273	28,691
Dacca "	63,433	63,403
Chittagong "	40,196	50,149
Patna "	67,335	74,925
Bhagalpur "	39,618	42,105
Orissa "	22,389	17,927
Total	3,36,489	3,61,718

during the past two years is shown in the margin. As in last year, the expenditure was highest in the Patna Division, where a total length of 5,725 miles was maintained at an average cost of 13·08 per mile. Of the Bihar districts Saran stands first with 1,694 miles costing Rs. 16,826, and Champaran last with 322 miles and an expenditure of Rs. 1,821.

In the Resolution for the year 1893-94, it was remarked that the Lieutenant Governor agreed with the Commissioner of Patna that Rs 10 a mile should ordinarily be sufficient for the maintenance of village roads in that Division, except in special cases. The limit is high, but it was exceeded in four districts out of seven, viz., Patna, Gaya, Muzaffarpur, and Darbhanga, and in the last-mentioned district the cost was as much as 25·48. Even this figure was exceeded in the Rampur Hât subdivision of Birbhum, where the average cost of maintaining a mile of village road reached the high figure of Rs. 91. The amount spent on village roads by the District Board of Puri was very small, viz. Rs. 1,570, or 6 per cent of the expenditure on roads; while in Balasore it was 20 per cent and Cuttack 25 per cent. In Jalpaiguri only Rs. 271 was spent, and the Commissioner rightly remarks that "although the charges are pressing, more than Rs 271 should have been devoted to this purpose." With reference to the remarks contained in the concluding sentence of paragraph 55 of last year's Resolution, the Commissioner of Burdwan reports that none of the District Boards have yet framed any rules regarding the classification of some of the village roads as district roads, and that he has called their attention again to the matter. He also makes the following general remarks on the subject, which all District Boards will do well to consider:—

"It would also seem desirable that besides classifying village roads to be undertaken in order of importance, District Boards should proceed upon a fixed plan, so that each new village road would link up with some existing road. Not only would each new village road be thus a real extension of communication, but funds could be more usefully and economically expended, as proper supervision by the engineering staff could be more easily ensured. Too often at present a village road consists of a few hundred yards of earthwork leading from nowhere to nowhere, and it may be miles from any road that the District Engineer or his subordinates pass over regularly. The consequence is that there is practically no check on the way the money is spent, for the Local Boards nominally in charge have not adequate supervising establishment, and the District Engineer and his subordinates cannot be expected to waste time by visiting places so remote from roads regularly under their charge. The case would be very different were all village roads linked with roads directly under the district staff, and even an occasional visit from this latter would keep the Local Board's agency more up to the mark. Too many village roads, moreover, are often in hand at once, the consequence being that instead of one road being finished off hand, several may remain in an unfinished state, and therefore useless for months. Bridges are generally the want; and the construction of these being deferred, the earthwork in the meantime gets washed away."

49. *Water Communications.*—The District Board of Dacca spent a sum of Rs. 937 on the improvement of the river Buriganga, on which the town of Dacca stands. Acting under the advice of the Chief Engineer, Bengal, the Board erected spurs on the banks of the river with a view to divert the main current in the river from the right to the left bank, and to cut away the big *char* opposite the town. Nawab Ashanullah Khan Bahadur contributed Rs. 15,000 for the purpose, and the Dacca Municipality Rs. 500. The Faridpur District Board spent Rs. 3,045 in opening out Dignagar khal, which facilitates boat communication between the Sadr station and Madaripur. The District Board of Backergunge improved the roadside cut between Mahilara and Palardi on the Barisal-Palardi road at a cost of Rs. 3,874. The navigable channels in Noug-khali were cleared of obstructions to the passage of boats during the rains, and the drain from Ramganj to Alipur Bil was deepened and extended so as to assist the passage of boats during the rains. The Telkupi khal, in the Serajganj subdivision, was kept navigable during the floods at a cost of Rs. 611. The District Board of Malda spent a sum of Rs 198 in clearing snags from

the navigable rivers. An expenditure of Rs. 265 was incurred by the District Board of Dacca in clearing a tow-path on the right bank of the river Banar.

50 *Steam Communications*.—The District Board of Dacca continued to maintain the steam ferry between Narainganj and Munshiganj. The District Board of Backergunge subsidised the steamer services between Barisal and Khulna, Barisal and Patuakhali and Barisal and Chandpur. The District Board of Pabna contributed to the cost of the steamer service between Pabna and Kushtia, and the Maldah District Board paid a subsidy to the farmer of the Rajmahal ferry for the steamer service between English Bazar and Rajmahal. The District Board of Noakhali continued to pay a subsidy of Rs. 200 a month to the Bengal Central Flotilla Company for the steamer service between Noakhali and Barisal. The Commissioner complains that no improvement has been made in the service between the island of Sandwip and the mainland.

51. *Miscellaneous Public Improvements*.—The expenditure incurred by the several District Boards in the maintenance of trees on the sides of the district roads, and in replacing by new ones the trees that had withered, is shown below.—

Rs	Rs	Rs	Rs.
Monghyr .. 3,461	Burdwan ... 1,587	Dinajpur ... 892	Faridpur ... 370
Shahabad ... 2,474	Tippera ... 1,549	Rangpur ... 799	Howrah ... 302
Pabna ... 2,244	Dacca ... 1,347	Jalpaiguri .. 749	Murshidabad 194
Bogra ... 2,193	Noakhali ... 1,324	Birbhum .. 691	Rajshahi ... 191
Bhagalpur .. 2,103	Jessore ... 1,301	Nadia ... 675	Midnapore . 189
Mymensingh 1,994	Chittagong 1,279	Putna ... 563	Malda ... 98
Hooghly ... 1,889	Saran ... 955	Champanan 533	Bankura ... 80
Gaya ... 1,819	24-Parganas 898	Purnea ... 412	

The District Board of Dacca also laid out Rs. 322 on the maintenance of the Government land at Narainganj. The Faridpur Board subsidised the Telegraph Department for the telegraphic communication between Faridpur and Madaripur and intermediate places. The District Board of Backergunge maintained jetties at Bhola and Patuakhali at a cost of Rs. 172. The District Board of Purnea spent Rs. 841 in taking gauge-readings of the river Kusi and on other works in connection with the Kusi survey, and Rs. 740 in repairing the Belwa embankment. The Inspector of Works, Bihar Division, has reported favourably on the agricultural operations in the Shahabad district. In former years tree-planting used to be carried out very largely in the Muzaffarpur district, and with great success, but of late there has been no expenditure under this head because, as the Chairman explains.—

“The soil being light and friable, the trees along the roadside draw off the moisture from the surrounding earth, with the result that the kutchra roads work into dust early in the dry season, and in the rains the drip from foliage causes guttering on them.”

The Commissioner does not accept this theory, and has circulated to all District Officers a memorandum by Mr. Slack, formerly Chairman of the Saran District Board, showing how tree-planting can be made a source of income.

52. *Railway Feeder Roads*.—In Hooghly, the feeder road from the Haripal railway station to the village of Bhanderhatti was completed during the year. A proposal to construct a feeder road from Saktigar station to Attaghur, meeting the road from Burdwan to Kalna, and also one from the village of Devipur to the Devipur railway station are under the consideration of the Burdwan District Board. The extension of the Galsi feeder road was completed by that Board during the year. A portion of the Nator road, near the Nator railway station, was metalled with brick during the year. The feeder road to the Bengal Duars Railway from Lataguri to Tandu basti, for which Government gave a grant of Rs. 11,200 to the District Board of Jalpaiguri, was started during the year. The bridging and improving of the road from Dupchanchia to the Nawabganj railway station in Bogra was completed, and the road from Pabna to Sara was still further improved. The road between Barasat and Barrackpore, which connects the Bengal Central Railway with the East Indian Railway, was metalled at a cost of Rs. 30,000. Arrangements are being made by the District Board of the 24-Parganas to survey and prepare estimates for the new road from Maslandpur to Kulsur and for the improvement of an existing road from Habra to Baduria. The District Board

of Nadia was unable to utilise during the year any portion of the loan of Rs 20,000 granted by Government for the improvement of the road from Kissengunge to Hansnada. The construction of the road from Taragonia to Bharamara, for which a grant of Rs. 20,000 has been promised by Government, will, it is stated, be taken in hand next cold weather. The surveys of the proposed feeder roads from Bharamara to Taragonia, Khoksa railway station to Ajodhia, Allamdanga to Jamjami, Allamdanga to Hât Boalia, Mirpur to Amlasaderpur, Halsa to Durgapur, and Munshigunge to Ghaldany and Kissenganj have been completed. In Khulna, a new feeder road from Shahapur Hât to Phultala Hât was constructed last year. The Dacca District Board have greatly improved the railway feeder roads from Tangi to Kaliganj, Rajendrapur to Kapasia, Rajendrapur to Mirzapur and Gosinga to Kapasia. The District Board of Mymensingh also have improved during the year six of the feeder roads in the district. Government have sanctioned a grant of Rs 10,000 from Provincial Revenues for the completion of the feeder road from Tangi to Kaliganj on condition that the District Board of Mymensing spend Rs. 5,000 in excess of the sum already spent by that Board on the road. It is stated that the work will be undertaken during the current year. In Tippera, Rs. 866 were spent in surveying feeder roads for the Assam-Bengal Railway, and steps have been taken for the acquisition of lands for the road from Akhaura to Sultanpur in the Brahmaubia subdivision. The District Board of Noakhali repaired from the village road grant the feeder road from the Chittagong Trunk road to the Fazilpur station, and made arrangements for acquiring lands for the construction of a road from Bose's Hât to Little Fenny. That body also propose to construct another feeder from Bakhtiar Munshi's Hât to Karanah on the Chittagong Trunk road. The District Board of Bhagalpur completed the feeder road leading to the Babua railway station on the Tirhut State Railway. In Purnea, the extension of the feeder road from the Sonali railway station to Prampur has been completed up to the sixth mile. Another feeder road from Kusba railway station to Kusba Bazar is under construction.

53. *Railways and Tramways.*—Survey operations were commenced during the year by the East Indian Railway in connection with the project of a railway from Burdwan to Katwa. The District Board of Burdwan have guaranteed an annual subsidy, not exceeding Rs. 10,000, in order to make up the deficit in the event of the dividends falling below 4 per cent. The proposal for a light tramway from Suri to Sainthia or Ahmedpur was dropped, as the project for the construction of the Baidyanath, Bhagalpur and Ahmedpur Railway has been taken up by the East Indian Railway Company. The Midnapore Board granted certain concessions to Mr. E. F. Keighly for the construction of a tramway from Chandrakona to Baisa *via* Ghatal. A tramway from Howrah to Amta is under construction. The proposal to construct a steam tramway from Barasat to Basirhat is under the consideration of the District Board of the 24-Parganas. The Commissioner is of opinion that the proposed line would benefit a very limited class of passengers, and says that Road Cess funds ought not to be spent on it. Messrs. Martin and Company, who have obtained the contract for the construction of the steam tramway from Ranaghat to Krishnagar, have already finished all the field work, and are now engaged in preparing detailed drawings and estimates for submission to Government. The Commissioner does not think that the line is likely to attract much goods traffic. He says that as a passenger line it would benefit the residents of the towns of Krishnagar and Santipur only, and that it would be of much more use if it were extended to Murshidabad and brought into connection with the East Indian Railway system at Azimganj. A commencement has been made since the close of the year of the earthwork on the feeder line of rail from Itaxaul to Segowli, the concession of which has been granted to Sir William Hudson, K.C.I.E. The question of constructing a tramway to connect Bakhtiarpur on the East Indian Railway with Bihar has been taken up by the Patna District Board.

54. *Drainage*—A project for the drainage of the villages in the unhealthy thana of Purbasthali in Burdwan is under the consideration of the District Board of Burdwan. The drainage canal from Dinajpur to Gouripur was maintained and cleared from obstructions during the year. In Rangpur, two permanent

float bridges were constructed over the Rangpur drainage canal at a cost of Rs. 1,358. The Kurigram and Nilphamari drains were also maintained by that Board. The District Boards of the 24 Parganas and Murshidabad spent in all Rs. 1,636 in the improvement of drains. The Backergunge District Board have resolved to make continuous side-cuttings along all the new roads to be constructed for facilitating the free flow of water. The District Board of Mymensingh have taken up the question of draining the Salunkhali khal which passes through the Rajitpur Municipality. In Noakhali, roadside drains were cleared and channels and khals deepened at a cost of Rs. 4,563. Drain-pipes were put on several roads for the passage of surface water, and an old culvert on the Ichakhali road renewed and its waterway greatly enlarged. The Commissioner of Chittagong makes the following remarks on the subject:—

"No drainage scheme was attempted in Tippera and Chittagong, though drainage is very much needed in both districts. There is a vast chain of swamps in the Satkania Tahsil circle which could be drained with ease if Act VI of 1880 were put in force, and the profit to Government would be enormous. The drainage schemes have been most lucrative elsewhere—witness the Rajapur project, which is paying 20 per cent and nothing but the apathy which seems to rule here has prevented the good example given by Hooghly and Howrah being followed."

55 *Amendment of the Bengal Local Self-Government Act*—A Bill to amend the Bengal Local Self Government Act of 1885 was introduced into Council towards the close of the year. Its immediate object is to enable District Boards to devote some portion of their funds to the improvement of the breed of horses and cattle and the prevention and cure of horse and cattle diseases. The opportunity has been taken to remove certain omissions in the sections of the Act which deal with the original elections of members of District and Local Boards, the election of Chairmen and Vice-Chairmen, and the filling of casual vacancies in such Boards and offices; and a clause has been inserted in section 138, empowering Government to prescribe by what authority disputes relating to elections shall be decided. District Boards are also authorised to spend money on the training and employment of medical practitioners and the promotion of free vaccination. The scope of the Bill has since been enlarged by including in it provisions enabling Union Committees to levy a local rate for water-supply and other village purposes and giving to District Boards the power of imposing tolls, subject to certain restrictions. Opinions have been invited on these and other points, and are now under consideration.

56. *General Remarks.*—The following extracts contain the observations recorded by the several Commissioners of Divisions on the working of the District and Local Boards in their Divisions during the year.

Mr. Stevenson, Officiating Commissioner of the Burdwan Division, writes:—

The verdict upon the working of Local Boards is decidedly unfavourable. They have practically failed all round. It has been urged on their behalf in one district report that they have not had enough work to do, nor the requisite staff to see it done. To hold that proved incapacity to discharge petty duties argues capacity for those more important is not perhaps a very tenable position. Probably no employer ever advanced an employé on such a ground. That Local Boards have no adequate supervising staff is of course very true. But the question here arises why they should have a staff at all. It was at first, I believe, hoped that individual members of Local Boards would make themselves responsible for special works near their homes, as the supervision of a pound or of a ferry, or the construction of a village road, in this last case relieving the District Engineer and his staff of this duty. These expectations have nearly always, however, as I understand, been falsified, and supervision by the Local Board member resolved itself into the leaving of everything to his tahsildar or gomasta, with results such as might be expected. When members of Local Boards cannot be trusted to see themselves to the execution of petty works, a supervising staff becomes plainly necessary. But such a staff, if allowed, cannot be left in its turn unsupervised, and the further question then presents itself who is to look after the staff. Hardly one could think the Local Board, which has proved itself incapable of directly carrying out petty works and the like. The task then must devolve upon the District Engineer or other subordinates of the District Board, and this being so, the simpler course would obviously be to eliminate the Local Board from the Local Self-Government scheme as superfluous if not a positive source of weakness. It remains to be seen whether Unions will succeed where Local Boards have failed. In their favour will be the fact that they will have small areas to deal with, and that therefore any duty entrusted to them will interest probably

all the members and not only one or perhaps two. It is on the other hand to be feared that except when members' pockets are threatened, their interest may not be keen enough to overcome the apathy so characteristic of most Indian races.

Mr. E. V. Westmacott, Commissioner of the Presidency Division, states :—

The best that I can say of the District Boards is that Magistrates find them useful as consultative bodies, and can sometimes obtain valuable local information from them. They do not in any way relieve the Magistrates of the burden of administration, and even the Finance Sub-Committees, which might do very good work in auditing and checking the accounts, cannot be induced to do it punctually or efficiently or without letting many months pass by. The interests of the higher classes in such matters as roads and superior schools are strongly championed in the Boards, but the interests of the poor, and of the people generally, require the vigilant protection of the District Officers. The Boards, if they had their own way, would greatly increase expenditure on superior schools for the higher classes, and cut down that on primary education. A seat on the District Board is coveted as an honour; but only a certain proportion of those who attain to it show a sufficient interest in the work to come regularly to the meetings. In so far as the object of the creation of District Boards may have been to relieve the District Magistrate of some portion of his duties, I consider that they have proved a complete failure, and it is only the fact of the Magistrate being the Chairman that gives them any vitality. The only favourable exception which I have noticed, is that in some cases the non official Vice-Chairman does the office work punctually and efficiently. This is especially true of Babu Naffur Chandra Pal Choudhuri in Nadia and Babu Moni Lal Banerjee in the 24-Parganas.

Mr. P. Nolan, Commissioner of the Rajshahi Division, observes as follows :—

Mr. Mullick, the Chairman of the Dinajpur District Board, writes :—

‘I have only been here since the 15th March, and cannot therefore offer any useful criticism. Judging, however, from their work as disclosed by the papers which have come up before me, I cannot say that I entertain a very high opinion of the zeal and enthusiasm of the members. With the exception of two gentlemen, I do not know of any who devote the slightest attention to the business before them or keep themselves acquainted with the wants of the district. The Board is run by its paid servants, plus the Chairman and the Vice-Chairman.’

‘In my opinion the Boards work very satisfactorily. The burden of administration falls mainly on the Chairman, who is also Magistrate of the district, and on the Vice-Chairman, an unpaid officer. They receive assistance and advice from the other members, and would experience control also if they departed from the accepted lines of good management. Junior officers, new to their districts, such as those who have written the reports, do not easily realize the assistance which an experienced Chairman derives from the co-operation of those having a more permanent interest than himself in the locality.’

Mr. H. Luttman-Johnson, Commissioner of the Dacca Division, makes the following remarks :—

* ‘As I have said before, these district councils, though they are not entitled to a place in a Local Self-Government scheme, have their uses, as the Departmental Councils in France have. The members no doubt take an intelligent interest in the questions submitted for their consideration. From an executive point of view, they are, no doubt, fortunate in their reliance on the District Officer.’

Mr. H. Skrine, Officiating Commissioner of the Chittagong Division, records his opinion in the following words :—

‘The deliberative work of the Boards in each district was fairly satisfactory. They had the business before them threshed out by the Sub-Committees, and are thus able to dispose of a large number of questions at a single sitting. The attendance was good everywhere, and the members generally took a laudable degree of interest in the proceedings, and gave the official Chairman substantial help in points of the experience and local knowledge. The lesson to be learnt is that the upper classes, of which these Boards are composed, are beginning to demonstrate their fitness for governing themselves. If nomination ruled in the selection of Commissioners for the municipalities, I doubt not that the work would be far better done. At any rate, chaos and gross mismanagement would be avoided.’

Mr. J. A. Bourdillon, Officiating Commissioner of the Patna Division, makes the following comments :—

‘It will be noticed that this year the District Officers of the Division are unanimous in praising the working of the District Boards, with the exception of Mr. Wheeler who gives no opinion. It would be strange indeed if it were not so. In the first place, they are fortunate in their *personnel*. The admixture of unofficial Europeans of good position and education stiffens the Board, and adds weight to its opinion, while their intimate knowledge of the wants of the district, at any rate within a large circle round their homes, renders their advice on local topics of great value. Secondly, the Boards are, for the most part,

much more wealthy than those in other parts of Bengal. Taking the statistics for 1894-95, I find that, excluding the Patna Division, the average annual income of a District Board was Rs 1,64,667, while that of a District Board in Bihar was Rs 2,24,327. The command of sufficient means enables a Board to entertain a better Engineer and a full establishment, as well as to meet the many wants of the district, besides enabling more important work to be laid before the members and interesting them in the execution of it.

"For Local Boards not so much can be said. My opinion has long been that, as at present constituted, they have no place in the system of Local Self-Government. Their powers are small, and it is difficult to increase them without divesting the District Board of functions which it is for the general advantage that they should retain. The general opinion seems to be that they may well be excised; and if the proposals now under consideration for the amendment of the Local Self-Government Act lead to that operation, I feel little doubt that, on the whole, it will be followed by a general feeling of relief."

Mr W. B. Oldham, Commissioner of the Bhagalpur Division, remarks:—

"The Malda District Board approaches most nearly in character to the District Boards of those districts where the presence of a numerous and educated middle class in the mufassal supplies many members who are willing and anxious to busy themselves in public affairs, and who are proud of their position on the Board, and always ready to use it in discussing and pushing with outside authority those matters in which they are interested. Otherwise this does not seem to be the case in this Division. The eulogium given by its Chairman to the Bhagalpur District Board, I attribute to the colony of educated and enlightened Bengalis at Bhagalpur. The other members generally, there and elsewhere, are content to follow their Chairman, and meet more with the object of learning his views and the policy of Government than of urging proposals of their own. This is not said in any way in depreciation of these councils, but to show that they fill a position in this Division which differs from that held or used by the bodies which I have been acquainted with in Central and Eastern Bengal."

Mr R. C. Jutt, Officiating Commissioner of the Orissa Division, states:—

"The Chairman of the Balasore District Board, Mr. Brajendranath De, writes:—

"The District Board and the Local Boards have worked in a generally satisfactory manner during the year under report. The attendance at the meetings was not very good, but this is due to a certain extent to the fact that there were several vacancies among the members for a portion of the year, owing to the death and transfer of some of them. The members, however, who attended generally evinced a lively interest in the matters brought before the Board, and have discussed them with fairness and good sense. Necessarily the Boards have a merely consultative character, and the success or otherwise of the work generally depends a great deal on the Chairman and the Vice-Chairman, and on the District Engineer and his subordinates."

"It will appear from the foregoing remarks that all the District Officers appreciate the help and co-operation rendered by the members of the Boards. Non-official members devote much of their time not only to the work of the Boards, but also to the work of the different Committees which deal with the details of administration in the different departments—Public Works, Education, &c. The interest which these gentlemen take in this work, and the intelligence and zeal with which they perform it, have made Local Self-Government a success in these provinces."

57. As regards District and Local Boards the Lieutenant-Governor's views are in general accord with those expressed by Sir Charles Elliott in the last paragraph of the Resolution on the reports for 1894-95. The status and powers of Union Committees and their relations to District and Local Boards are now under consideration in connexion with the Bill to amend the Local Self-Government Act.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Secretary to the Government of Bengal.

FORM No P (a)

**RESOLUTION ON THE REPORT OF THE HONORARY COMMITTEE
FOR THE MANAGEMENT OF THE ZOOLOGICAL GARDEN,
CALCUTTA, FOR THE YEAR 1895-96.**

REVENUE DEPARTMENT—MISCELLANEOUS

Calcutta, the 7th December 1896.

RESOLUTION—No. 5035.

READ—

The Report of the Honorary Committee for the management of the Zoological Garden, Calcutta, for the year 1895-96.

The past year was one of financial prosperity. The actual receipts of the Garden, excluding the opening balance of Rs 4,774 and a sum of Rs. 29 realized on the 31st March 1896, and credited to the Treasury on the 1st April, amounted to Rs. 44,317 against Rs. 41,533 in the previous year; while the expenditure rose from Rs. 41,672 in 1894-95 to Rs. 44,106. The increase in receipts occurred under all the principal heads of income, viz., "Entrance receipts," "Donations and subscriptions," "Rents" and "Miscellaneous." The increase in expenditure is due chiefly to increased charges for the purchase of animals, to the higher cost of feeding them, and to the fact that improvements and repairs were undertaken, the most important of which was the cleaning out of a portion of the ornamental water. The closing balance increased from Rs. 4,774 to Rs. 4,985.

2. The number of paying visitors admitted to the Garden was 165,152 against 154,532 in the previous year; a number of school pupils and small children were also admitted free. This is the highest number admitted in any year except 1883-84, the year of the Calcutta International Exhibition, when the garden was visited by 188,532 persons.

The following statement shows the number of visitors who paid entrance money in each year since 1891-92—

Year.	Number of visitors.
1891-92	116,382
1892-93	139,173
1893-94	162,449
1894-95	154,532
1895-96	165,152

3. Two hundred and ninety-one additions were made during the year to the collection of animals in the Garden (including 77 mammals, 104 birds and 110 reptiles); three animals were born in the Garden and the rest were obtained either by presentation or by purchase or exchange.

4. The Lieutenant-Governor is glad to notice that the popularity of the Garden continues unabated. The Committee report that a large number of applications for free admission were received and granted during the year. A certificate of fitness was granted by the Committee to Mr. Jamshedji M. Doctor, who was deputed by the Bombay Corporation to receive training in the management of animals in captivity.

5. As in the past two years, a series of experiments was conducted in the Joygobind Law Laboratory by Surgeon-Lieutenant-Colonel D. D. Cunningham to test the efficacy of various alleged remedies for cures of snake-bite. Dr. Cunningham's interesting report on the results of his experiments has been communicated to the Government of India.

6. On the recommendation of the Committee, supported by this Government, the Government of India were pleased during the year to recognize as pensionable the appointments of Superintendent, Assistant Superintendent, engine-driver, gate-clerk, and store-keeper in the Garden. The contributions towards pension required under Article 863 of the Civil Service Regulations are to be paid in future, the arrears of contribution being remitted.

7. The thanks of the Lieutenant-Governor are due to the Members of the Committee for their efficient management of the Garden.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Honorary Secretary to the Committee, for information, and that it be published in the Gazette.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

Secretary to the Govt. of Bengal.

STOCKS OF RICE IN AND AROUND CALCUTTA.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 7th December 1896

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 895 *Stats.*—The following memorandum and statements are published for general information:—

STATISTICAL DEPARTMENT,
The 7th December 1896.

M. FINUCANE,
Secy. to the Govt. of Bengal.

Memorandum.

The following abstract shows the quantities of food-grains imported into and exported from Calcutta by sea during the week ending the 21st November 1896, as compared with the totals of the same period last year:—

		WEEK ENDING 21ST NOVEMBER			
		1895.		1896.	
1		2	3	4	5
		Cwts.	Mds.	Cwts.	Mds.
<i>Imports.</i>					
From Foreign Ports	8	11
„ Indian „	...	13,471	18,335	44,114	60,044
Total	...	18,471	18,335	44,122	60,055
<i>Exports.</i>					
To Foreign Ports	...	150,788	2,05,239	79,855	1,08,691
„ Indian „	...	80,354	1,09,371	24,442	33,268
Total	...	231,142	3,14,610	1,04,297	1,41,959

Imports—The advance in the import trade aggregated 30,651 cwts., or 227·53 per cent. The total quantity of each kind of food grains imported into Calcutta during the week ending the 21st November 1896 is compared below with the figures for the corresponding week of 1895.—

		WEEK ENDING 21ST NOVEMBER			
		1895.		1896.	
1		2	3	4	5
		Cwts.	Mds.	Cwts.	Mds.
<i>Food-grains.</i>					
Rice	...	8,941	12,170	32,729	44,548
Paddy	..	1,349	1,835	4,390	5,975
Wheat	46	63
Gram and pulses	...	3,181	4,330	6,957	9,469
Other food-grains, such as jowar, barley, oats, &c.
Total	..	18,471	18,335	44,122	60,055

The improvement in the rice trade amounts to 133·67 per cent., and is due chiefly to increased transactions with Chhandbali and Balasore. The former supplied 17,360 cwts. against 7,429 cwts. in the preceding year, and the latter 9,650 cwts. against only 1,512 cwts. Rangoon contributed 5,719 cwts. of rice against nil in 1895. The bulk of paddy imported was shipped from Balasore, namely, 3,730 cwts. against 223 cwts. in the previous year. In the case of gram and pulses, 2,626 cwts. were drawn from Madras and 550 cwts. from Balasore, but in 1895 there were no such imports from those places; the figures for Chhandbali remained stationary.

Exports.—The decline in the export trade is very marked, viz. 126,845 cwts., or 54·87 per cent. The chief fluctuations are a heavy falling off under rice, and small increases under gram and pulses and miscellaneous food-grains, as the following statement will show:—

	WEEK ENDING 21st NOVEMBER			
	1895.		1896.	
1	2	3	4	5
<i>Food grains.</i>	Cwts.	Mds.	Cwts.	Mds.
Rice	199,337	2,71,320	67,349	91,069
Paddy	434	590
Wheat	1,681	2,288	393	535
Gram and pulses	29,544	40,213	32,137	48,742
Other food-grains, such as jowar, barley, oats, &c.	146	199	4,418	6,013
Total ...	231,142	3,14,610	104,297	1,41,959

The decrease in the rice trade is 66·21 per cent. In 1895, Ceylon received 91,392 cwts. of rice, but during the week under review, the shipments were reduced to only 8,804 cwts.; the United Kingdom received only 11,080 cwts., against 22,988 cwts. in the preceding year; on the other hand, Mauritius drew 40,011 cwts., whereas in 1895 it imported nothing from Calcutta. Among Indian ports, Bombay is credited with only 1,810 cwts., against 37,692 cwts. in 1895, while Calcutt received 18,012 cwts. in 1895, but nothing in 1896. The increase shown under gram and pulses was owing to larger consignments of these grains having been sent in 1896 to Mauritius (9,653 cwts.) and Bombay (14,427 cwts.), which places drew nothing in 1895. Against these increases, the United Kingdom shows a falling off of 13,667 cwts. and Madras of 5,293 cwts. As regards miscellaneous food-grains, 2,947 cwts. were shipped for Mauritius against nil in 1895, and 1,471 cwts. to Rangoon against 110 cwts. in the previous year.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

Statement No. I showing the Imports of Food-grains into Calcutta from Foreign and Indian Ports during the week ending the 21st November 1895 and 1896.

EARLY COTTON CROP IN BENGAL, 1896.

The following is published for general information.

REVENUE DEPT.,	}	M. FINUCANE,
<i>The 8th December 1896.</i>		<i>Secy. to the Govt. of Bengal.</i>

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Notes on the early cotton crop in Bengal, 1896.

N.B.—Returns have been received from all the districts which grow early cotton, except from Manbhum.

1. *Explanatory.*—The present report deals with estimates of the area and outturn of the early cotton crop which is sown during the monsoon rains and harvested during the cold weather. Similar estimates for the late cotton crop, which is usually sown at the close of the rainy season and harvested in the hot weather, will be furnished duly in a separate report.

2. *Character of the season.*—The rainfall of the monsoon season of 1896 was generally below the normal. In July, the rainfall was irregularly distributed in the early cotton-growing districts of these Provinces, being more than the normal in 8 and less than the normal in 6 out of the 14 early cotton growing districts for which returns have been received. In the latter 6 districts are included all the districts having large areas under early cotton except Puri.

In August, the rainfall was below the normal everywhere except in Orissa and the districts of Hazaribagh and Singhbhum. Heavy rain in Orissa in this and the two preceding months resulted in floods, which are reported to have affected the area and outturn of the early cotton crops in Cuttack and Puri.

In September, rain was deficient in all districts, except Monghyr and Bhagalpur.

In October, there was no rain in Chota Nagpur, and only nominal showers were received elsewhere.

In November, slight rain fell in almost all the cotton-growing districts.

3. *Area sown.*—The total area sown in early cotton this year, exclusive of Manbhum, appears from the appended returns to be 77,800 acres against 81,100 acres the corresponding estimate for last year. Decrease in area is noticeable chiefly in the districts of Puri and Lohardaga, and is attributed to unfavourable rainfall at the time of sowing.

4. *Character of the crop.*—The deficiency of rain which characterised the latter part of the monsoon period injured the early cotton crop in most of the cotton-growing districts.

No district returns a full average crop of 16 annas, and only two districts, viz., the Chittagong Hills Tracts (the principal early cotton-growing district in Bengal) and Bhagalpur, estimate the outturn as better than that of last year. Nine out of 14 districts return crops varying from 8 to 12 annas, and five crops varying from 4 to less than 8 annas. Taking all the early cotton-growing districts together, Manbhum excepted, the outturn this year may be estimated as 9 annas.

N. N. BANERJEE,

*Assistant Director of Land Records
and Agriculture, Bengal.*

(Countersigned.)

W. C. MACPHERSON,

*Director of Land Records and Agriculture,
Bengal.*

CALCUTTA,
The 2nd December 1896.

Forecast of the early Cotton Crop of Bengal, 1896.

1	2	3	4	5	6	7	8	9
DIVISION	District.	Approximate normal area under early cotton in acres	Approximate area sown last year in acres	Estimated area sown this year in acres	Taking 10 annas to represent the average outturn per acre, how many annas represented outturn last year	Taking 10 annas to represent the average outturn per acre, how many annas will represent this year's outturn	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal
Burdwan	Midnapore	2,000	2,000	2,000	12	8	Owing to good rain during the sowing season, the prospect of this crop was at first promising, but subsequent want of rain caused considerable damage to the crop.	
Rajshahi	Jalpaiguri	400	400	260	13	10	In Chulka, there is no cultivation of early cotton. The lands in which cotton was grown have been taken up for tea cultivation. In Jampur, the cultivation of cotton has been discontinued, and in Palakata there has been a decrease in the area sown for want of timely rainfall.	
Cuttack	2nd Jagmug Hill Tracts	17,000	17,000	17,000	6	12	The better outturn estimated this year is attributed to favourable rain. The outturn is due to scanty rainfall throughout the monsoon season.	
	Monclur	400	400	400	6	4	The decrease in the outturn is due to the better crop of the normal area, which has been cultivated the district rainfall was not favourable. Hence the outturn is less.	
Bhagalpur	Bhagalpur	11,300	10,700	10,800	9	11	On account of heavy rainfall and floods at the time of sowing, a large portion of the area could not be sown and that which was sown was swept away. The outturn is less than that of last year, owing to subsequent drought.	
	5th and 6th Parganas	12,900	12,900	12,900	10	9		
Orissa	Cuttack	3,100	1,800	2,000	12	9		The outturn in column 6 was shown as 15 annas in the forecast of the early cotton crop of 1896. The outturn now given is 8 annas due to a revision of the estimate by the Assistant Commissioner. Last year's crop was damaged by a heavy gale in October.

1	2	3	4	5	6	7	8	9
DIVISION.	District	Approximate normal area under early cotton in acres	Approximate area sown last year in acres	Estimated area sown this year in acres	Taking 16 annas to represent the average outturn per acre, how many annas represented outturn last year?	Taking 16 annas to represent the average outturn per acre, how many annas will represent this year's outturn?	Remarks by Dist. Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
Orissa	Puri	14,870	6,000	3,600	8	5	The decrease in the area under cultivation is due to irregular rainfall at the sowing time, and that in the estimated outturn to short rainfall and floods at the time of growth. The decrease in area as compared with the normal is due to want of rainfall at the time of sowing, and the decrease in outturn as compared with that of last year is due to subsequent want of rain. The figures in columns 3 and 4 have been corrected. The outturn is less than that of last year owing to the want of rain in October and November 1895. The decrease in the outturn as compared with that of last year is due to continued drought after the sowing season.	
	Balasore	1,000	900	900	13	12		
Chota Nagpur	Angul and Khondmals	8,500	3,500	3,500	16	12	The decrease in the area as well as in the outturn is due to the cessation of rain in the latter part of the rainy season, i.e., since the middle of September. During the sowing time there was rain and moisture in the land, hence the increase in the area, but there having been no rain after sowing, the outturn is less than last year's. There being a good deal of rain during the sowing time, a larger tract of land was cultivated, but as the rain held off at the end the crop was damaged and the outturn is worse than that of last year.	Return not received * Estimated by the Department of Land Records and Agriculture, Bengal.
	Hazaribagh	7,500	7,500	7,500	12	7		
	Lohardaga	8,800	8,800	6,900	10	6		
	Palamu	10,000	5,00	5,600	8	6		
	Manbhum Singbhum	19,000 7,300	12,000 4,400	4,500	12 13	9		
	Total	111,600	93,100(a)	77,900	10(b)	9*		

(a) As against 91,100 acres estimated in this Department's note, dated 2nd December 1895. The increase in area of 2,000 acres is due to a revised estimate received from Angul and Khondmals.

(b) As against 12 annas estimated in this Department's note, dated 2nd December 1895. The change is due to revised estimates submitted for Angul, the Chittagong Hill Tracts and for the South Parganas.

B.B.—Twenty annas represent a bumper crop, 15 annas an average crop, 10 annas three-fourths of an average crop, and so on.

WEATHER AND CROP REPORT.

For the week ending the 7th December, 1896.

Burdwan.—No rain. Weather bright and cool. *Aman* harvest being pushed on; the outturn varies, being best in Katwa; Raniganj is low, but this is not abnormal in that subdivision. No progress being made with *rabi* sowings for want of rain. Fodder and water sufficient at present. No cattle-disease. Common rice selling as follows:—

			Srs. c	Srs. c.	
Sadar	9 0 to 11 0	} per rupee.
Kalna	9 8 to 10 0	
Katwa	10 5 to 10 10	
Raniganj	10 0	

Birbhum.—No rain. Weather slightly cloudy. *Aman* harvest progressing. Price of rice 10 to 11 seers per rupee.

Bankura.—No rain. Weather seasonably cold. Harvesting of *aman* going on. Prospects of *rabi* gloomy. Fodder and water sufficient for the present. No cattle-disease. Common rice selling at 11½ seers a rupee both at Bankura and Vishnupur.

Midnapore.—No rain. Prospect of *rabi* moderate and of sugarcane and indigo good. Harvesting of winter rice continues. Fodder and water sufficient. Cattle-disease reported from Naraingarh, Salboni, Gurubeta, and Keshpur police-stations. Common rice selling as follows:—

			Srs.	
Sadar	{ Old rice 10	} per rupee.
Contai	{ New „ 11	
Tamluk	11 to 14	
Ghatal	10	

Hooghly.—No rain. Cloudy to-day (7th). *Aman* is withering in places. *Rabi* crops and sugarcane are suffering for want of rain. Common rice sells from 8 to 11 seers per rupee.

Howrah.—Rainfall nil. Weather seasonable. Rain wanted for *rabi* crops. Harvesting of *aman* paddy progressing. Fodder and water sufficient. Common rice sells from 8 to 10 seers per rupee.

24-Parganas.—Rainfall nil. Weather cloudy and warm. In south of the district winter rice is estimated to yield 10 to 12 annas, and elsewhere 8 annas. *Aman* is being out and harvested. *Rabi* crops suffering for want of rain. Fodder and water sufficient. Prices have slightly fallen. Common rice sells as follows:—

			Srs.	
Sadar	8½ to 11	} per rupee.
Barasat	New rice, 10	
Basirhat	9	
Diamond Harbour	New rice, 10	

Nadia.—No rain. Days hot, nights cool. Direction of wind constantly shifting. Sky slightly clouded. Harvesting of *aman* commenced; outturn exceedingly poor. Prospects of all standing crops, except sugarcane and *arhar*, are bad. Water-supply becoming deficient. Price of common rice varies from 8 to 11 seers per rupee. Number on relief-works as below:—

30th November	332
1st December	445
2nd „	453
3rd „	370
4th „	435
5th „	449
6th „	433

Murshidabad.—No rain. Weather seasonable. Harvesting of *aman* going on. Prospects of *rabi* crops not good; that of sugarcane, indigo, and mulberry seems to be good. Fodder sufficient. Common rice sells as follows:—

			Srs. c.	
Sadar	9 11	} per rupee.
Jangipur	11 8	
Kandi	10 0	

Jessore.—Weather seasonable Rain badly wanted throughout the district. Paddy in low lands continues good *Rabi* crops are being sown in low and moist lands, but they cannot be sown on high lands for want of moisture No cattle-disease Fodder and water available Price of rice has generally come down. Common rice sells as follows:—

				Srs	
Jessore	8 to 10	} per rupee.
Jhenida	8½	
Magura	9 to 9½	
Narail	10	
Bongaon	10	

Khulna.—Rainfall nil. Weather fine and genial. *Aman* paddy much below the average throughout the district In the south-west portion a one-anna crop is expected Test-relief-works opened there. A flight of locusts passed over the district from south-west to north-east on 28th and 29th November No report of any damage of consequence received No cattle-disease. Fodder and water available. Common rice sells as follows:—

				Srs.	c.	
Khulna	8 to 9	8	} per rupee.
Bagerhat	10	0	
Satkhira	8	0	

Rajshahi.—No rain Harvesting of winter rice in progress. Prospects of *rabi* crops not good No cattle-disease Fodder and water sufficient. Price of common rice ranges between 7 and 11 seers per rupee.

Dinajpur.—No rain Weather seasonable Sowing of *rabi* crops over Rain wanted Harvesting of winter rice commenced Fodder and water sufficient. Common rice sells from 8 to 9½ seers per rupee.

Jalpaiguri.—Rainfall 42 Weather seasonable. *Haimanti* paddy being harvested *Rabi* crops doing well. No complaint of want of fodder and water. Average price of common rice 8 seers per rupee

Darjeeling.—Rainfall at Sadar 01 Weather more than usually cold Hills—*Kalai*, *bira marua*, *phachur*, *bhutmis*, and *aghani dhan* are being harvested, wheat, barley, and *tort* coming up Terai—Harvesting of *haimanti dhan* commenced; prospect not good; potatoes and jute being sold; sowing of mustard and *kalai* nearly finished, tobacco doing well. Coarse rice selling as follows —

				Srs. c	Srs. c.	
Hills	6	0 to 8	} per rupee
Terai	7	8 to 9	

Bhutta Rs 3 per maund.

Rangpur.—No rain Harvesting of *aman* going on. Sowing of *rabi* crops almost complete Mustard in flower. Prospects fair Common rice selling from 7 to 10½ seers per rupee. Fodder and water sufficient.

Bogra.—No rain. Weather clear and cold Oilseeds and pulses doing well. Harvesting of winter rice in progress. Land being ploughed for *aus dhan* and jute Fodder and water sufficient Price of common rice at head-quarters 11 seers 13 chitaks, and in the interior from 8½ to 12 seers per rupee

Pabna.—Rainfall nil. Weather seasonable No change in prospects of crops since last week Fodder available Rice selling from 8 to 9 seers per rupee.

Dacca.—Rainfall nil Weather seasonable. Harvesting of *aman* paddy continues. Prospects continue unchanged. Fodder available No cattle-disease. Price of common rice 8 to 13 seers per rupee.

Mymensingh.—Rainfall nil. Weather seasonable. *Aman* paddy is being harvested, average outturn of 8 annas is expected. Mustard, *kalai*, and *til* doing well New rice coming into the market; prices range from 8 to 13 seers per rupee. Old rice about 7½ seers per rupee

Faridpur.—No rain. Weather seasonable Prospects slightly improved. Common rice selling from 8 to 10 seers per rupee. Fodder and water available

Backergunge.—Rainfall nil Weather seasonable. Prospects of standing crops poor on high lands and average on low lands No cattle-disease. Price of common rice (*aman*) 6½ to 12 seers and (*aus*) 8½ to 13 seers per rupee.

Tippera.—No rain Prices (8 to 13 seers per rupee) falling with the incoming of the new *aman* No cattle-disease. Fodder available

Noakhali.—Rainfall nil. Weather seasonable. Prospects of crops bad. Half the *aman* plants has been damaged for want of rain. No cattle-disease. Fodder and water available. Price of rice ranges from 8 to 12 seers per rupee.

Chittagong.—Rainfall nil. Weather cold and dry. *Aman* being reaped. *Rabi* crops not doing well for want of rain. Prospects poor. Water and fodder sufficient. Rice sells at 8 to 9 seers per rupee.

Patna.—*Rabi*, opium, and sugarcane doing well. Paddy being reaped. New rice has come to the market. Prices stationary. Common rice selling in Patna to-day (7th) at 10½ seers per rupee. Fodder and water for cattle sufficient. Test-works still open.

Gaya.—Harvesting of paddy continues. *Rabi* crops germinating. Prospects good. Common rice selling at 10½ seers per rupee.

Shahabad.—No rain. *Rabi* sowing being pushed on. Harvesting of rice in progress. *Rahar* and sugarcane doing well. Common rice selling at 9 to 10 seers per rupee. Number on relief works on Saturday, 5th December—men 526, women 486, and children 239.

Saran.—State of *rabi* crops good. Irrigation going on as before. Poppy on 8,000 bighas will fail. Slight cattle-disease still in Gopalganj subdivision. Prices are—common rice 10½ seers, wheat 9½ seers, barley 12 seers, *makni* 12½ seers, gram 11 seers, *arhar* 11½ seers, and *marua* 14½ seers per rupee. Number on relief-works on Saturday, 5th December—men 97, women 132, and children 116; gratuitous relief—men 131, women 246, and children 153.

Champaran.—No rain. Weather clear. *Rabi* and poppy sowings continue with fairly good germination, but rain is urgently required. Prices fallen somewhat. Common rice fallen at Sadar from 9 to 10 seers per rupee, against average 17½ seers. Number on relief-works on 5th December—men 1,627, women 817, and children 537—total 2,981; gratuitous relief returns not received.

Muzaffarpur.—*Aghani* being harvested; outturn very poor, as already reported. *Rabi* sowings nearly over; prospects unaltered. Prices are—common rice 8 seers, wheat 8 seers, *makas* 12 seers, barley 11 seers, gram 11 seers, *arhar* 12 seers per rupee.

Darbhanga.—Harvesting of paddy continues. *Rabi* doing well except in Madhubani. Rain wanted. Common rice selling at 10 seers per rupee.

Monghyr.—No rain. Weather seasonable. Prospect of wheat gloomy. Other *rabi* crops fair. Paddy being harvested. Some *cheena* being sown. Standing crops want moisture. *Rahar*, *jauar*, and chillies doing well. Cow-pox reported from Begusarai. Sufficient fodder and water. Prices of common rice.—

				Srs.	} per rupee.
Monghyr	8 to 10	
Begusarai	9	
Jamui	10 to 11½	

Bhagalpur.—Weather cold with easterly wind. Sky slightly cloudy to-day (5th). Reaping of paddy in progress. *Kalas* and *kurthi* are also being reaped. Sowing of *rabi* completed; area sown below normal. *Arhar* is the only standing crop that is doing well. Other *rabi* crops are suffering for want of rain. Fodder and water sufficient. Coarse rice sells as below:—

				Srs. c.	} per rupee.
Sadar	10 2	
Banka	12 8	
Madhipura	11 0	
Supaul	11 0	

Purnea.—No rain. Harvesting of *aghami* and sowing of *rabi* continue. Cattle-disease abating. Fodder and water sufficient. Prices of common rice:—

				Srs.	} per rupee.
Sadar	{ New rice,	11 to 13	
			{ Old rice,	9 to 10	
Araria	Old rice,	11	
Kishanganj	New rice,	9	

Malda.—No rain. Weather clear and cool. Harvesting of winter rice continues. *Kalas* pulse ripening, expected outturn 10 annas. Prospects of *rabi* crops not favourable. Fodder sufficient. Drinking-water not sufficient in certain places in Barind. Common rice selling at 8½ seers per rupee.

Sonthal Parganas.—No rain. Harvesting of winter rice continues. Prospects of paddy and *rabi* same as before. Outturn of paddy is on average eight annas. Dews scanty. No cattle-disease. Price of common rice 9 to 13 seers, and of maize 14 seers per rupee.

Cuttack.—Rainfall nil. Sky occasionally cloudy. *Rabi* crops retarded for want of rain. Food-grains sufficiently procurable at present in almost all places. Condition of cattle generally good, but disease reported from some parts of Kendrapara. Fodder-supply fair. Common rice sells as follows:—

			Srs. o	
Cuttack	New rice, 13 2	} per rupee.
Jajpur	14 7	
Kendrapara	14 7	
Banki	17 15	

Balasore.—Weather seasonable. Harvesting of winter rice going on. *Rabi* crops suffering for want of rain. *Dahua* being sown. Sugarcane doing well, pressing commenced. Coarse rice sells at 12 and 14 seers per rupee at Sadar and Bhadrak respectively. In the mufassal prices vary from 12 to 18 seers per rupee. Fodder and water sufficient.

Angul.—No rain. Rice prospects as previously reported. *Rabi* prospects poor. Rinder-pest to a slight extent among Angul cattle. Rice sells at 16 seers per rupee in Angul and 19 seers in Khondmals.

Puri.—No rain. Prospects of crops much the same as before. Sowing of *rabi* retarded for want of rain. Fodder sufficient. Price of common rice varies from 13 seers 2 chitaks to 15 seers 12 chitaks per rupee except in Balavadiapur and Malud, where it is 10 seers 8 chitaks and 9 seers 5 chitaks respectively.

Hazaribagh.—Harvesting of paddy going on. Rain wanted for *rabi*. Rice sells at 6 to 9 seers per rupee.

Lohardaga.—Weather a little cloudy. Reaping of *don dhan* nearly finished. Rice sells at head-quarters 10 seers and in the interior from 11 to 12 seers per rupee. No report of cattle-disease. Fodder and water sufficient.

Palaman.—Rainfall nil. Weather seasonable. Sowing of barley continues. Rice selling generally at 9 seers per rupee.

Manbhum.—Rainfall nil. Weather seasonable. Prospects of crops on ground same as before. Average outturn of winter rice about 5 to 8 annas. Cattle-disease still reported from a few villages in thana Raghunathpur. Fodder and water sufficient for the present. Average price of common rice (old) 8 seers and (new) 10 to 11 seers at Sadar, and 8½ seers at Gobindpur. Stock of grains sufficient for the present.

Singhbhum.—Weather cloudy. More gram is being sown. Price of rice (old) 8 to 10 seers and (new) 12 to 14 seers per rupee.

General Summary.—With the exception of light showers in Jalpaiguri and Darjeeling, there was no rain during the week, and prospects continue unaltered. In South Bihar and in Saran the *rabi* crops are germinating well. In the rest of Bihar rain is still urgently needed for these crops, but they are doing fairly well in Champaran and in Darbhanga (except Madhubani). In parts of North Bengal the prospects of the *rabi* crops are fairly good, but they are poor in the rest of Bengal and in Orissa. The harvest of the winter rice is proceeding. A flight of locusts passed over the district of Khulna on the 28th and 29th November, but no damage to crops is reported. Cattle are generally in good condition, but disease among them is reported from a few localities. The price of common rice is reported to have fallen slightly in Patna, Gaya, Saran, Champaran, and a few other districts, but is still very high everywhere. Prices—Nadia 8 to 11 seers, Khulna 8 to 9½ seers, Patna 10½ seers, Shahabad 9 to 10 seers, Saran 10½ seers, Champaran 10 seers, Muzaffarpur 8 seers, Darbhanga 10 seers. The numbers on relief works and in receipt of gratuitous relief on Saturday, the 5th December, were—Relief works—Nadia, 449; Shahabad, 1,251 (men 526, women 486, and children 289); Saran, 345 (men 97, women 132, and children 116); Champaran, 2,981 (men 1,627, women 817, and children 537). Gratuitous relief—Saran, 530 (men 131, women 246, and children 153).

By order of the Lieutenant-Governor of Bengal,

REVENUE DEPARTMENT,
The 8th December, 1896.

M. FINUCANE,
Secy. to the Govt. of Bengal.

**Abstract of the results of Meteorological Observations taken at the Alipore
Observatory in the month of November 1896.**

	Inches.	Date.	Hour.
The mean pressure of the month	29.946		
The average pressure of November from 24 years' registers ...	29.970		
The highest pressure in the month	30.110	29th	10
The lowest pressure in the month	29.794	22nd	16
The range of pressure	0.316		
The total number of hours of bright sunshine during the month	249.1		
The maximum possible number of hours of sunshine ...	330.8		
°			
The mean temperature of the month	73.5		
The average temperature of November from 24 years' registers	74.8		
The highest temperature in the month	89.7	2nd	
The lowest temperature in the month	58.0	28th	
The range of temperature during the month	31.7		
The mean daily range of temperature	19.2		
The greatest range of temperature in one day	25.0	30th	
Per cent.			
The mean humidity of the month	75		
The average humidity of November from 24 years' registers ...	72		
Inches.			
The mean vapour tension of the month	0.610		
The average vapour tension of November from 9 years' registers	0.616		
The mean cloud proportion of the month	1.86		
The average cloud proportion of November from 19 years' registers	2.42		
The total rainfall of the month	0.05		
The total rainfall indicated by a Beckley's self-registering rain-gauge (month of the gauge about 52 feet above the ground)	0.03		
The average fall of November from 48 years' registers ...	0.65		
The greatest fall in 24 hours	0.05	24th	
Days.			
The number of rainy days in the month	1		
The number of rainy days in November from 24 years' registers	2		
°			
The number of equilibrium temperature of solar radiation ...	135.9		
The number of sun and air temperatures	52.3		
The average number of sun and air temperatures	145.2	4th	
The mean maximum of the nocturnal radiation thermometer on woollen cloth	58.3	4th	
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	6.8		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	8.5	28th	
Miles.			
The mean movement of the wind per day	59.1		
The greatest movement of the wind in one day	117.0	1st	
The greatest movement of the wind in one hour	10.0	1st, 10 to 11 A.M. and 1 to 2 P.M.; 2nd, noon to 1 P.M. and 3 to 4 P.M.; and 12th, 10 to 11 A.M. and 11 to noon.	

The number of hours with winds from each of the 8 points—

N. 264, N.E. 58, E. 11, S.E. 3, S. 2, S.W. 78, W. 129, N.W. 94, Calm 81.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore; and, other things being equal, reads therefore 0.03 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1.6° lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

J. H. GILLILAND,

METEOROLOGICAL OFFICE, INDIA;
Calcutta, the 7th December 1896.

For Meteorological Reporter to the Govt. of India

Abstract of the Results of the Barometric and Thermometric Observations taken at 10 a.m. at the Meteorological Office, Chowringhee, in the month of November 1896.

	Inches.	Date.
The mean pressure at 10 A.M. during the month ...	30.009	
The mean temperature at 10 A.M. during the month ...	80.1	
The highest temperature during the month ...	92.6	2nd.
The lowest temperature during the month ...	58.1	28th.
The absolute range of temperature during the month ...	34.5	
The mean daily range of temperature during the month ...	20.7	
The greatest range of temperature in one day during the month ...	25.9	30th.
The mean 10 A.M. humidity during the month ...	73	%
The mean 10 A.M. vapour tension during the month ...	771	Inch
The total rainfall of the month ...	0.02	
The greatest fall in 24 hours ...	0.02	24th.
The number of rainy days in the month ...	Nil.	Days.

C. LITTLE,

Meteorological Reporter to the Govt. of Bengal.

METEOROLOGICAL OFFICE, BENGAL,

The mean pressure of the seven days 30.006

The average pressure of the corresponding period for 24 years, Surveyor-General's Office 30.012

The total number of hours of bright sunshine 61.9

The maximum possible number of hours of sunshine 75.7

The mean temperature of the seven days 69.4

The average temperature of the corresponding period for 24 years, Surveyor-General's Office 70.5

The extreme variation of temperature 30.0

The maximum temperature 85.2

The highest velocity of the wind in one hour 10

The mean relative humidity 71

The average relative humidity of the corresponding period for 24 years, Surveyor-General's Office 71

The total fall of rain from 29th November to 5th December 1896 Nil

The average fall of the corresponding period for 24 years, Surveyor-General's Office 0.04

The total fall from 1st January to 5th December 1896 53.22

The average fall of the corresponding period for 24 years, Surveyor-General's Office 65.19

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h. and 24h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed, open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official Tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

 dew;  fog.

- 239 Entry and inspection by the General Officer of the Command, the Officer Commanding the District or the District Magistrate.
- 240 Entry and inspection by, or by the authority of, the Cantonment Authority
- 241 Entry, inspection and search by, or by the authority of, the Sanitary Officer.
- 242 Entry, inspection and search by, or by the authority of, the Cantonment Magistrate
- 243 Entry into, and inspection of, markets by Sanitary Officer or Cantonment Magistrate
- 244 Entry by public conservancy establishments.
245. Time of entry.

RULES.

246. Precautions to be observed in entering dwelling

247. Precautions to be observed in entering and inspecting burial or burning ground.

Arrest without warrant

248. Arrest by police without warrant

CHAPTER XVIII.

Service of summonses, notices, etc.

249. Service of summonses, notices, requisitions and other documents

250. Service on agent of absentee owner

CHAPTER XIX

Appeals from executive orders.

251. Appeals from executive orders when allowed and to whom to lie

252. Time for appeal.

253. Petition of appeal

254. Order in appeal final except in certain cases.

255. Suspension of action pending appeal

256. Cantonment Authority's power to apply for revision in certain cases

CHAPTER XX

Committees of Arbitration

257. Obligation of Commanding Officer of cantonment to convene a Committee of Arbitration to decide question as to rent or repairs

258. Discretion of Commanding Officer of cantonment to convene a Committee of Arbitration to decide question as to condition of house or as to rent or repairs.

259. Obligation of Commanding Officer of cantonment to convene a Committee of Arbitration to determine amount of compensation payable

260. Procedure for convening Committee of Arbitration.

261. Composition of Committee of Arbitration convened in pursuance of rule 257 or rule 258

262. Composition of Committee of Arbitration convened in pursuance of rule 259

263. Members of Committee of Arbitration to be persons who are not personally interested, and whose services are immediately available

RULES.

264. Assembly of Committee of Arbitration.

265. Chairman of Committee of Arbitration.

266. Calculation of rent by Committee of Arbitration

267. Decision of Committee of Arbitration to be by vote.

CHAPTER XXI

Applications for building-sites on Government land in cantonments.

268. Applications for permission to occupy Government land for building-sites

269. Documents to accompany applications.

270. Disposal of such applications.

271. Execution of lease, with site plan annexed

272. Record of copies of leases and site-plans.

CHAPTER XXII

Registration of immoveable property in cantonments.

273. General plan.

274. Bazar plans

275. Sites and roads to be distinguished.

276. Dating and authentication of plans.

277. Certain plans not to be destroyed without sanction

278. Register of Government land held by lessees outside bazars

279. Register of Government land held by lessees in bazars

280. Register of private land.

281. Register of transfers

282. Reference, in other registers, to the register of transfers

283. Annual inspection of registers.

CHAPTER XXIII

Supplemental

Bye-laws

284. Additional power of Cantonment Committee to make bye-laws in hill cantonments.

285. Penalty for infringement of bye-laws made under rules 175 and 284

286. Confirmation of bye-laws made under rules 175 and 284.

287. Procedure for making bye-laws under rules 175 and 284.

Delegation of functions

RULES.

288. Delegation of functions of Cantonment Magistrate.

289. Delegation of functions of General Officer of the Command.

290. Delegation of Committee's functions to Sub-committees

Notices

291. Notices to fix reasonable time for doing act required.

Notices to whom to be given.

292. Authentication and validity of notices issued by Cantonment Authority

293. Publication of public notices.

Penalties and Prosecutions

294. Penalties

295. Authority for prosecutions

296. Limitation of prosecutions

297. Compensation for groundless prosecution.

Miscellaneous

298. Verification of weights and measures

299. Compensation for damage resulting from exercise of powers under these Rules

300. Powers to be exercisable from time to time

301. Method of framing notifications

302. Validity of notices and other documents

303. Vacancies and irregularities not to invalidate proceedings

304. Rules and bye-laws to be available for inspection and purchase

SCHEDULE I—FORMS

SCHEDULE II—CASES IN WHICH POLICE MAY ARREST WITHOUT WARRANT.

SCHEDULE III.—APPEALS FROM EXECUTIVE ORDERS.

SCHEDULE IV.—FORMS OF LEASES OF LAND.

THE CANTONMENT RULES, 1897.

CHAPTER I.

Preliminary

1. (1) These rules and applied enactments may be called the Cantonment Rules, 1897, and are hereinafter referred to as "these Rules."

(2) They shall apply to every cantonment in British India, except Aden, and

(3) They shall come into force on the , 1897

2. The following rules, regulations and notifications are hereby cancelled, namely

(a) all rules and regulations made under—

Act XXII of 1864 (*an Act to make provision for the administration of military cantonments*),

Madras Act IV of 1865 (*an Act to make provision for the administration of military cantonments in the Presidency of Fort St George*),

Madras Act I of 1866 (*an Act to repeal Madras Act No IV of 1865, and to make provision for the administration of military cantonments in the Presidency of Fort St. George*), and

the Bombay Cantonment Act of 1867, B

(b) all rules made under the Cantonments Act, 1880, and II

(c) the Notifications of the Government of India in the Military Department No 460, dated the 3rd May, 1895, and No. 597, dated the 22nd May, 1896.

3. In these Rules, unless there is anything repugnant in the subject or context,—

(1) "General Officer of the Command" means the General Officer Commanding the forces in a Command, and

"Command" means one of the principal portions into which the army of India is for the time being divided

(2) "lessee" means a person who has been granted permission, whether before or after the commencement of these Rules, to occupy, for the purposes of a building-site, land belonging to the Government in a cantonment, and includes the successors in interest of a lessee

(3) "Sanitary Officer" means, where no Sanitary Officer has been specially appointed, the senior executive medical officer in military employ present on duty in a cantonment.

(4) "Executive Engineer" means the Public Works Officer or Military Works Officer of that

grade having charge of the military works in a cantonment, and includes the officer, of whatever grade, in immediate executive engineering charge of a cantonment

(5) the expression "infectious or contagious disorders" includes cholera, leprosy, enteric fever and every infectious or contagious disorder other than a venereal disease

(6) "bazar" means any land set apart for occupation by natives of India, except the lines of native troops

(7) "dairy" includes any farm, shed, milk-store, milk shop or other place from which milk is supplied, or in which milk is kept for purposes of sale

(8) "dairyman" includes the keeper of any cow, buffalo, goat, ass or other quadruped the milk of which is offered, or intended to be offered, for sale for human consumption, any purveyor of milk and any occupier of a dairy

(9) "street" includes any way, road, lane, square, court, alley, passage or open space, whether a thoroughfare or not, and whether built upon or not, over which the public have a right of way, and also the roadway and foot-way over any public bridge or causeway

(10) "owner" includes the person for the time being receiving the rent of lands and buildings, or either of them, whether on his own account or as agent or trustee for any person or society or for any religious or charitable purpose, or who would so receive the same if the land or building were let to a tenant

(11) "notification" means a notification published in the official Gazette and

(12) "notified" means published as aforesaid

CHAPTER II

Cantonment Committees and Control

4 (1) In every cantonment with respect to which the Local Government has determined that a Cantonment Committee is to be constituted, the Cantonment Committee shall ordinarily consist of the following persons, namely

the Commanding Officer of the cantonment, or, when he commands the district, the officer who would succeed to the command of the cantonment during his temporary absence

President

any Magistrate of the first class, being also a Justice of the Peace, appointed by the District Magistrate to represent him on the Committee

such commanding officers in the cantonment as may be appointed in Station Orders to be members

Members

the Sanitary Officer
the Executive Engineer
the District Superintendent of Police, and

the Cantonment Magistrate . *Member and Secretary.*

(2) If the President is absent from any meeting, the next senior combatant officer present shall preside on that occasion.

5 The General Officer of the Command may at any time, by order in writing, appoint any residents of the cantonment, whether officials or non-officials, to be additional members of the Cantonment Committee (if any), for such period as may be stated in such order, and may revoke any such appointment

6 Subject to the provisions of rule 18, in every cantonment with respect to which the Local Government has determined that a Cantonment Committee is to be constituted, and has not revoked such determination, such Committee shall discharge the functions of the Cantonment Authority under these Rules

7 (1) With the previous sanction of the General Officer of the Command, and subject to the control over the Cantonment Fund which is vested in the Local Government by section 23 of the Cantonments Act 1889, x the Cantonment Authority shall fix the number of servants to be employed by it and the amount of their salaries

(2) Every alteration in the number of such servants or in their salaries shall be subject to the sanction and control aforesaid

(3) Provided that temporary servants may, in cases of emergency and if funds are available, be employed without such sanction for any period not exceeding three months

EXPLANATION - Nothing in this rule shall be deemed to apply to police employed in cantonments beyond the limits of a Presidency-town, the strength and cost of such police being determined by the Local Government with the sanction, or subject to the control, of the Governor General in Council in pursuance of the following enactments, namely

The Cantonment Act, 1889, X

Act XXIV of 1859, section 8

Act V of 1801, section 2,

Bengal Act VII of 1869,

The Bombay District Police Act, 1867, section 3, Bo

The Bombay District Police Act, 1890, section 4 Bo

8 (1) The Cantonment Committee (if any) shall meet for the transaction of business, once at least in every month, and at such other times as the President may direct

(2) The time and place of each meeting shall be announced in Station Orders, and shall be communicated to each member by a notice in writing issued by the Secretary

(3) Every such notice--

(a) shall, unless the President in any case otherwise directs, be issued so as to reach each member three clear days before the meeting takes place, and

(b) shall be accompanied by an agenda paper specifying the business to be transacted at the meeting

(4) The President may permit the consideration of any business not so specified unless a

majority of the members require its postponement to a later meeting.

(5) The President may, by order in writing, adjourn any meeting to any date fixed by such order.

9 No business relative to the imposition, abolition or modification of any tax shall be transacted at a meeting of the Cantonment Committee (if any), unless at least six clear days' notice in writing of the date fixed for such meeting has been given.

10 No business shall be transacted at any meeting of the Cantonment Committee (if any), unless there are present, in addition to the President,—
 Quorum three members of the Committee, or half the total number of members, not counting the President, whichever number may be the greater

11 (1) Minutes of the proceedings at each meeting of the Cantonment Committee (if any), shall be recorded in a book, shall be signed by the President, and shall, at such times and in such place as shall be fixed by the Cantonment Committee, be open, free of charge, to the inspection of any inhabitant of the cantonment

(2) A copy of the minutes shall, as soon as possible after each meeting be forwarded for the information of the District Magistrate.

12 Every meeting shall be open to the public unless in any case the President, for reasons to be recorded in the minutes, otherwise directs

13 (1) All questions coming before a meeting shall be decided by a majority of the votes of the members present and voting.

(2) In case of an equality of votes, the President shall have a second or casting vote.

(3) The dissent of any member from any decision of the Cantonment Committee (if any), with an abstract of the grounds thereof, shall, if the member so requests, be recorded by the Secretary in the minutes

14 (1) If the President dissents from any decision of the Cantonment Committee (if any), he may, for reasons to be recorded in the minutes, by order in writing, direct the suspension of action thereon for any period not exceeding one month, and, if he does so, he shall forthwith refer the matter to the Officer Commanding the district

(2) If the Magistrate appointed to represent the District Magistrate on the Committee (if any) is present at a meeting and dissents from any decision which he considers prejudicial to the public health, safety or convenience, he may, for reasons to be recorded in the minutes and after giving notice in writing of his intention to the President, report the matter to the District

Magistrate, and the President shall, on receipt of such notice, direct the suspension of action on the decision for a period sufficient to admit of the District Magistrate being communicated with and taking proceedings as hereinafter by this rule provided.

(3) If the District Magistrate considers any decision of the Committee (if any) to be prejudicial to the public health, safety or convenience, he may, whether on a report made by the Magistrate representing him on the Committee as aforesaid or otherwise, after giving notice in writing of his intention to the President, refer the matter to the Local Government through the Commissioner (if any) of the Division, and the President shall, on receipt of such notice, direct the suspension of action on the decision, pending the disposal of the reference to the Local Government, and shall forthwith report the matter to the General Officer of the Command through the Officer Commanding the district.

Controlling powers of Officer Commanding the district
 15 (1) The Officer Commanding the district may, by order in writing,—

- (a) call for any book or document in the possession or under the control of the Cantonment Authority,
- (b) require the Cantonment Authority to furnish such statements, accounts, reports and copies of documents, relating to its proceedings or duties as he may think fit to call for,
- (c) require the Cantonment Authority to furnish plans and estimates for all works to be constructed out of the Cantonment Fund at a cost exceeding five hundred rupees, and to conform to any directions which he may think fit to give with respect to the superintending authority by whom such works shall be approved, and
- (d) direct that any matter or any specific proposal, other than one which has been referred to the Local Government under rule 14 (3), be brought before the Cantonment Committee.

(2) The Officer Commanding the district may, by a like order,—

- (e) direct the suspension, for such period as may be stated in the order, of action on any decision of the Cantonment Committee which has not been referred or reported to him under rule 14 (1), or
- (f) when any decision of the Cantonment Committee has been referred to him under rule 14 (1), either—
 - (i) cancel the order given by the President directing the suspension of action, or
 - (ii) extend the duration of such order, for such period as may be stated in his order, or
 - (iii) declare the modifications with which the decision may be carried into effect by the Cantonment Committee.

(3) Whenever the Officer Commanding the district directs the suspension of action on any decision of the Cantonment Committee, or extends the duration of any order of suspension, he shall forthwith refer the matter to the General Officer of the Command.

16. The General Officer of the Command may, by order in writing,—

Controlling powers of General Officer of the Command.

- (a) exercise any of the powers conferred by rule 15 (1) on the Officer Commanding the district,
- (b) direct the suspension, for such period as may be stated in the order, of action on any decision of the Cantonment Committee which has not been reported to him under rule 14 (3), or referred to him under rule 15 (3), or
- (c) when any decision of the Cantonment Committee has been referred to him under rule 15 (3), either—
 - (i) cancel the order given by the President or the Officer Commanding the district, as the case may be, directing the suspension of action, or
 - (ii) extend the duration of such order, for such period as may be stated in his order, or
 - (iii) declare the modifications with which the decision may be carried into effect by the Cantonment Committee

17. When any decision of the Cantonment Committee has been referred to the Local Government under rule 14 (3), the Local Government shall consult the General Officer of the Command and may then, by order in writing, either—

- (i) cancel the order given by the President directing the suspension of action, or
- (ii) extend the duration of such order, for such period as may be stated in its order, or
- (iii) direct that no action be taken on the decision, or
- (iv) declare the modifications with which the decision may be carried into effect by the Cantonment Committee

18 (1) The Governor General in Council, after consultation with the Local Government and the Cantonment Committee, may, by notification, direct, in respect of any Cantonment in which a Cantonment Committee has not been constituted or has ceased to exist or cannot be convened, that any of the functions of the Cantonment Authority under these Rules—

- (a) shall be in abeyance, or
- (b) shall, with such modifications (if any) as may be prescribed in the notification, be discharged by the Commanding Officer of the Cantonment
- (2) The Governor General in Council, after like consultation, may, by notification, rescind or vary any notification issued under this rule
- (3) Subject to any notification for the time being in force under this rule, the Commanding Officer of any such Cantonment may discharge any of the functions of the Cantonment Authority under these Rules.

CHAPTER III.

The Cantonment Magistrate and Servants.

19 (1) The Cantonment Magistrate shall be the executive officer of the Cantonment Authority, and all orders of the Cantonment Authority shall be issued through him

(2) It shall be the duty of the Cantonment Magistrate to see that all orders of the Cantonment Authority are duly obeyed

(3) The Cantonment Magistrate shall, as far as practicable, keep a record of every final order issued by him in his official capacity.

20 It shall be the duty of the Cantonment Magistrate to maintain such public register of menial servants as may be instituted by the Cantonment Authority

21 It shall be the duty of the Cantonment Magistrate—

- (a) to appoint all servants required by the Cantonment Authority. Provided that no person shall be appointed who has been dismissed for misconduct from employment under any other Cantonment Authority, any municipal or other local authority, or any department of the Government,
- (b) to apppoint, control and superintend the performance of the duties of all such servants,
- (c) to disburse the salaries of all such servants, and
- (d) to deal with applications from such servants for leave of absence

22 The Cantonment Magistrate may, for reasons to be recorded by him in writing, fine, suspend, dismiss or reduce to a lower grade or salary any servant of the Cantonment Authority.

Provided, first, that no fine so imposed shall exceed one week's salary of the servant fined

Provided, secondly, that the Cantonment Magistrate shall submit to the Cantonment Authority a monthly list of all such fines, suspensions, dismissals and reductions (if any) and

Provided, thirdly, that the Cantonment Magistrate shall not dismiss any such servant whose salary is not less than twenty-five rupees per mensem without obtaining the previous sanction of the Cantonment Authority

23. Whoever at any time obstructs or molests any person employed by the Cantonment Authority (not being a public servant within the meaning of section 21 of the Indian Penal Code), or any person with whom the Cantonment Authority may have lawfully contracted, in the performance and execution of its or his duty, or of anything which it or he is empowered or required to do by virtue of or in consequence of any of these Rules, shall be deemed to have committed an offence punishable under these Rules.

24. (1) In the absence of a written contract to

Obligation of cantonment servants to discharge their duties the contrary, every sweep-
or employed by the Cantonment Authority shall be entitled to one month's notice before discharge or to one month's wages in lieu thereof, unless he is discharged for misconduct or was engaged for a specified term and discharged at the end of it.

(2) Should any sweeper employed by the Cantonment Authority, in the absence of a written contract authorising him so to do and without reasonable cause, resign his employment or absent himself from his duties without giving one month's notice to the Cantonment Authority, or neglect or refuse to perform his duties or any of them, he shall be liable to imprisonment which may extend to two months.

(3) The Local Government may by notification direct that, on and from a date to be specified in the notification, the provisions of this rule with respect to sweepers shall apply also to any specified class of servants employed by the Cantonment Authority whose functions intimately concern the public health or safety.

25 (1) The Cantonment Magistrate shall require each servant of the Cantonment Authority who is entrusted with the receipt, custody or control of moneys or securities for money to furnish security for the due discharge of his office, to such amount as the Cantonment Authority may determine.

(2) No security shall be accepted other than a deposit of—

- (a) cash,
- (b) Government securities,
- (c) shares in the Bank of Bengal, the Bank of Madras or the Bank of Bombay, or
- (d) debentures or other securities for money issued by or on behalf of a Local Authority.

26 On or about the first day of January in each year the Cantonment Magistrate shall submit to the Cantonment Authority a report as to the sufficiency of the security furnished by or on behalf of its servants.

27 (1) The Cantonment Magistrate shall deal in the manner prescribed in the Civil Account Code with all moneys and securities deposited as security by or on behalf of servants of the Cantonment Authority or persons who have entered into contracts with the Cantonment Authority.

(2) Provided that no such moneys or securities shall be delivered up,—

- (a) if deposited by or on behalf of a servant of the Cantonment Authority, until after the lapse of such time after the death of, or the vacation of his office by, such servant as the Cantonment Authority may direct, or,
- (b) if deposited by or on behalf of a contractor, then, in the absence of any condition in the contract to the contrary, until after the lapse of such time after the completion of the contract to the satisfaction of the Cantonment Authority as that Authority may direct.

CHAPTER IV.

Cantonment Fund and Accounts

Definitions

28. In this Chapter—

(1) "treasury" means the Government treasury or sub-treasury or the bank or place prescribed by or under section 22 of the Cantonments Act, 1889, for the custody of the Cantonment Fund, and

(2) "Accountant General" means Civil Accountant General or Comptroller.

Cantonment Fund

29 There shall be placed to the credit of the Cantonment Fund the following sums, namely

- (a) all sums directed by section 21, sub-section (1), of the Cantonments Act, 1889, or by or under any other enactment for the time being in force, to be placed to the credit of that fund, and
- (b) all grants-in-aid and other sums received by the Cantonment Authority in aid of that fund.

30 (1) The Secretary to the Government of India in the Military Department shall, from time to time, intimate to the General Officer of the Command the annual sum (if any) which will from time to time be placed at his disposal by the Government of India as a grant-in-aid to the Cantonment Funds in his Command.

(2) The General Officer of the Command shall distribute the said sum among the said funds in such proportions as he may think fit.

31 The Cantonment Magistrate shall be responsible to the Cantonment Authority for the proper keeping of the accounts of the Cantonment Fund prescribed by these Rules, and shall sign all receipts for money paid to the credit of that Fund.

32 (1) The Cantonment Fund may be applied to the following purposes within the cantonment, namely

- (a) the payment of any expenses directed by or under any enactment for the time being in force to be debited to the Fund,
- (b) the maintenance of the police-force employed in the cantonment, including charges of every description required for the efficient discharge of their duties therein,
- (c) the provision and maintenance of an office for the Cantonment Authority,
- (d) the payment of the salaries of all Cantonment establishments,
- (e) the survey of buildings and lands,
- (f) the management and improvement of lands and other property placed by the Government under the management of the Cantonment Authority, including—
- (i) the construction and maintenance of streets (other than those maintained from Imperial or Provincial Funds),

(ii) the lighting, watering and cleansing of streets, and

(iii) the maintenance of public parks and gardens and the planting and tending of trees,

(g) the provision and maintenance or aiding of public hospitals, dispensaries and schools,

(h) the provision and maintenance of public markets and slaughter-houses,

(j) the carrying out of a proper system of conservancy throughout the cantonment for all its inhabitants other than classes of troops for whom conservancy is provided from public revenues other than the Cantonment Funds, including—

(iv) the pay of the public conservancy establishments,

(v) the construction of public latrines and other conservancy works, and

(vi) the purchase of all necessary conservancy carts, utensils and other appliances,

(k) the carrying out of proper systems of water-supply and drainage and of other sanitary measures, including public vaccination and the prevention of the spread of infectious or contagious disorders and generally the maintenance of the cantonment in a thoroughly sanitary condition,

(l) the burial, burning or other lawful disposal of the corpses of paupers and unknown persons,

(m) the abatement of nuisances,

(n) the taking of a census, and

(o) generally, the payment of all expenses incurred under these or any other rules or law for the time being in force.

(2) The Cantonment Fund may, with the general or special sanction of the Local Government, be applied to any of the purposes referred to in this rule, within or without British India, beyond the limits of the cantonment, in cases in which, in the opinion of the Local Government the application of the Fund beyond those limits is for the benefit of the inhabitants of the cantonment or of any military force ordinarily quartered therein or of any detachment of any such force

Estimates and Sanctions

33 No money shall be paid from the Cantonment Fund unless expenditure is either—

(a) provided for in the sanctioned Budget Estimate, or by re-appropriation under rule 36, or

(b) sanctioned by the Local Government after consultation with the General Officer of the Command, and,

(c) in the case of expenditure on Public Works unless detailed estimates have been prepared and sanctioned

34 The responsibility for administering the funds provided in the sanctioned Budget Estimate or

sanctioned under clause (b) of the last foregoing rule shall rest with the Cantonment Authority, under the direction of the General Officer of the Command.

35 (1) On the first day of June in each year or on such other date as the General Officer of the Command may direct, the Cantonment Authority shall submit to the Officer Commanding the district a Budget Estimate of the receipts (including the grant-in-aid, if any) into, and expenditure from, the Cantonment Fund for the ensuing financial year

(2) Such estimate shall be framed in accordance with Form S in Schedule I, or in such other form as may from time to time be prescribed by the Comptroller General with the previous sanction of the Governor General in Council

(3) The Officer Commanding the district may revise such estimates and shall submit them to the General Officer of the Command.

(4) The General Officer of the Command may further revise such estimates and shall submit them to the Local Government through the Accountant General by the twentieth day of November in each year

(5) The Local Government may sanction such estimates, with or without modification

(6) The sanction of the Local Government to such estimates shall be communicated by it—

(a) to the Accountant General, and

(b) to the General Officer of the Command for intimation to the Officer Commanding the district and the Cantonment Authority

36 (1) The Cantonment Authority may,—

(a) with the previous sanction of the General Officer of the Command, re-appropriate any sum from one major head of the Budget Estimate to another, or,

(b) with the previous sanction of the Officer Commanding the district, re-appropriate any sum from one minor head or sub-head of the Budget Estimate to another minor head or sub-head under the same major head

Provided that no allotment to any major head shall by re-appropriation be varied by more than ten per cent of its original amount, except with the previous sanction of the Local Government also

(2) A copy of every order made under this rule shall be sent by the General Officer of the Command or the Officer Commanding the district, as the case may be, to the Accountant General

Payments.

37 (1) Every claim for payment from the Cantonment Fund shall be examined, and order for payment of, presented—

(a) to the President of the Cantonment Committee, or,

(b) if so directed by the General Officer of the Command, to the Secretary to the Cantonment Committee, or,

- (c) if there is no Cantonment Committee, to the Commanding Officer of the cantonment,

and shall be supported by a voucher duly receipted and, if necessary, bearing a stamp.

(2) The President, Secretary or Commanding Officer, as the case may be, shall check and examine every such claim, and, if it is found correct and is supported by a voucher as aforesaid, shall sign an order for payment thereof.

(3) If payment is to be made from the imprest, the order for payment shall be "Pay in cash rupees (in words)," and, if payment is to be made by cheque, the order shall be "Pay by cheque No. , dated , rupees (in words)," the blanks being filled up when the cheque is signed.

Payments how made **38. Payments shall be made,—**

- (a) if the sum does not exceed twenty rupees, in cash, and,
(b) if the sum exceeds twenty rupees, by cheque

39 (1) Money shall be drawn from the Cantonment Fund only by means of cheques written in Form 4 in Schedule I

(2) No cheque shall be current for more than three months from the date on which it was drawn, after the expiration of which period payment will be refused at the treasury, and it shall be necessary for the person in whose favour the cheque was drawn to return it to be re-dated. No fresh cheque shall be issued, but the lapsed cheque shall be re-dated and the alteration initialled by the officer whose duty it would be to sign the cheque as hereinafter provided. A note of the fact of re-dating shall be entered in the register of payments against the original transaction.

(3) All cheques shall be signed,—

(a) if there is a Cantonment Committee,—

- (i) where the sum does not exceed one hundred rupees, by the Secretary, or,
(ii) where the sum exceeds one hundred rupees, by the President, and,

(b) if there is no Cantonment Committee, by the Commanding Officer of the cantonment

(4) Cheques drawn in favour of a Government officer shall be made payable to order, and cheques drawn in favour of any other person shall be made payable to bearer.

(5) All cheque forms shall be bound in books, with counterfoils.

(6) Every such book shall bear a number, and each officer authorized by this rule to sign cheques shall notify to the treasury the number of the book which he from time to time brings into use.

(7) On each cheque form there shall be entered the number of the book in which the form is contained and a consecutive number.

(8) There shall be noted on the outside of each cheque book an order to keep the book under lock and key in the personal custody of the officer who is authorized to use the book for the purpose of signing cheques, and, when such officer is relieved, he shall take a receipt for the number of cheques made over to the relieving

officer and shall send to the treasury a specimen of the signature of the relieving officer.

40 (1) The Cantonment Authority shall, if it has not already done so, draw from the treasury a sum not exceeding fifty rupees, to form an imprest for the purpose of meeting petty payments.

(2) The amount of petty payments met out of the imprest shall be recouped by cheque on the last day of each month, and, if necessary, during the month also, so that the full amount of the imprest, plus any sum received too late for remittance to the treasury on the last day of the month, shall always be shown in the monthly accounts as being in the hands of the Cantonment Authority.

41 Overdrafts on the Cantonment Funds shall be allowed only if sanctioned by the General Officer of the Command and also by the Local Government.

Receipts

42 All money received for credit to the Cantonment Fund shall be entered in a register of receipts kept in Form 1 in Schedule I, and, with the exception of grants-in-aid and fines, shall be acknowledged by receipts in Form 2 in the said schedule.

43 All receipts granted by way of acknowledgment under the last foregoing rule shall bear printed numbers in a consecutive series, and the number of every such receipt shall be entered in the second column of the register of receipts.

44 The Cantonment Authority shall be responsible for making such arrangements as will secure—

- (1) that all money received for credit to the Cantonment Fund is duly brought to credit in the accounts,
(2) that all money so received, with the exception of grants-in-aid and fines, is acknowledged by receipts in Form 2 in Schedule I, and
(3) that, whenever a receipt is given, the foil and counterfoil are correctly filled up.

Account of the imprest

45 An account of the imprest shall be kept in Form 6 in Schedule I, and the expenditure recorded in it shall be entered in a register of payments, to be kept in Form 5 in the said schedule, when a bill for the recoupment of the amount is made out and the amount is drawn from the treasury by cheque.

Bills for expenditure.

46. (1) Every item of expenditure shall be entered in a bill of one of the following kinds, namely:

- (a) Establishment Pay Bill—for the pay of members of the cantonment establishment,

(b) Travelling Allowance Bill—for the travelling allowances of members of the cantonment establishment, and

(c) Contingent Bill—for all charges other than pay and travelling allowances of members of the cantonment establishment

(2) Every Establishment Pay Bill shall be prepared in Civil Account Form *

(3) Every Travelling Allowance Bill shall be prepared in Civil Account Form *

(4) Every Contingent Bill shall contain full details of the charges incurred

47 (1) Claims for supplies or services by Contractors or tradesmen shall be paid on bills presented by them.

(2) When such claims are paid by cheque, the payment shall be at once entered in the register of payments (Form 5 in Schedule I), and, when they are paid in cash, the payment shall be entered in the imprest register (Form 6 in the said schedule)

(3) When a bill is presented by a contractor or tradesman in the vernacular, a brief abstract, stating the amount, the name of the payee, and the nature of payment in terms of Article 9 (b) of the Civil Account Code, shall be indorsed thereon in English.

48 (1) All petty charges to be met from the imprest shall be entered in bills prepared in Civil Account Form.

(2) Such bills shall be supported,—

(a) in the case of all payments for telegrams and in the case of any other payment exceeding ten rupees, by the original vouchers on which the payments were actually made, and,

(b) in other cases, by a certificate that the receipts of the payees have, as far as possible, been obtained, and have been so destroyed, defaced or mutilated that they cannot be used again

(3) The certificate referred to in this rule shall be signed by the Secretary to the Cantonment Committee, or, if there is no Cantonment Committee by the Commanding Officer of the Cantonment

49 (1) All charges incurred direct by the Cantonment Authority and paid by cheque shall be entered in bills prepared in Civil Account Form.

(2) The following certificate shall be recorded at the foot of every such bill and signed by the Secretary to the Cantonment Committee, or, if there is no Cantonment Committee, by the Commanding Officer of the cantonment, namely

"I certify that the expenditure charged in this bill could not, with due regard to the interests of the cantonment, be avoided. I have satisfied myself that the charges entered in this bill have really been paid"

(3) In the case of expenditure on Public Works, the usual completion certificate shall be furnished

Entry of cheques in accounts

50. All payments made by cheque shall be entered in the register of payments (Form 5 in Schedule I), the vouchers being numbered in a monthly consecutive series

51 If any cheque is cancelled, the amount thereof shall be deducted from the expenditure by a minus entry in the appropriate columns of the register of payments (Form 5 in Schedule I). The deduction shall then pass into the Cash Book (Form 7 in the said schedule) through the daily total of payments carried into it.

Accounts and returns

52 The Cantonment Authority shall keep a Cash Book in Form 7 in Schedule I. The Cash Book shall be balanced monthly, and the balance shown in it reconciled with that shown in the Pass Book (Form 3 in the said schedule) as follows

Balance as per Pass Book
Add—		
Amount of imprest	..	
Money received too late for remittance to treasury
		—
Total		—
Deduct—Outstanding cheque, as per details below —		
Balance as per Cash Book
Cheques outstanding on—		
No	Date	Amount
		—
Total	..	—

53 (1) In the registers of receipts and payments (Forms 1 and 5 in Schedule I) the amounts sanctioned in the Budget Estimate for the year shall be entered at the top of the columns for the heads for which separate estimates are made

(2) If, during the year, or in any revised estimate which may be sanctioned for the year, any addition to or alteration in the estimates is made, such addition or alteration shall be noted in the appropriate register in red ink, with plus or minus signs, the orders therefor being cited

54 (1) At the end of each month the figures in the registers of receipts and payments (Forms 1 and 5 in Schedule I) shall be added up, the totals up to the end of the last preceding month being added to those of the month just expired, and grand totals being made from the first day of April last preceding.

(2) If the grand total under any head in the register of payments shows that the budget grant is likely to be exceeded, application shall at once be made for orders under rule 33 (b) or rule 36, as the circumstances may require, to cover the excess.

* Note—Copies of Civil Account Code forms may be obtained on payment from the Accountant General

55. As soon as possible within ten days after the end of each month, the Cantonment Authority shall send to the Accountant General, for purposes of audit,—

(a) extracts from the registers of receipts and payments for the month, prepared in the same detail as those registers and showing the Budget Estimates, each receipt and payment, the monthly totals, the totals to the end of the last preceding month and the grand totals,

(b) the foils of all receipts granted during the month,

(c) all paid bills,

(d) all cancelled cheques (if any), and

(e) a statement of the balances, in the following form

Balance at end of last month

Receipts during the month, as per accompanying schedule ..

Total ..

Expenditure during the month, as per accompanying schedule ...

Balance at the end of the month

Detail of Balance—

Balance in treasury, as per Pass Book

Cash received too late for remittance to treasury ..

Imprest in hands of Cantonment Authority ..

*Deduct—*Outstanding cheques, as per details below

Net balance as above ...

Cheques outstanding on—

No. Date Amount.

Total ...

56 (1) The Cantonment Authority shall prepare annually a consolidated account showing the receipts into and payments from, the Cantonment Fund, classified under the major heads, minor heads and sub-heads contained in the monthly accounts

(2) The total of the details under each head of receipts and payments, as given in the said consolidated account, shall agree exactly with the figures appearing against the entry "From 1st April to date" under the same heads in the extracts forwarded to the Accountant General for the month of March last preceding

(3) The said consolidated account shall be forwarded to the Accountant General, who shall compare the figures with his own classified abstract and, if correct, forward the account to the

General Officer of the Command with the following indorsement, namely

"Examined and found correct.

Signed _____ Accountant General"

Classification

57 (1) All receipts into, and expenditure from, the Cantonment Fund shall be classified, in the monthly and annual accounts, in accordance with Form 8 in Schedule I.

(2) All expenditure shall be classified in the monthly accounts under the appropriate major heads, minor heads and sub-heads with reference to the nature of the charge, whether specific budget provision exists or not, and no expenditure, which from its nature properly falls under one of the other prescribed heads, shall be classified under the head "Miscellaneous" on the ground that there is no specific budget provision for the charge *

Remittance to Treasury and Pass Book.

58 The Cantonment Authority shall remit to the treasury all moneys received for credit to the Cantonment Fund

59 (1) Remittances to the treasury may be made either daily or weekly as may be most convenient

Provided that all moneys in hand on the last working day of each month shall be remitted on that day.

(2) All remittances shall be accompanied by a chalan or invoice and by a Pass Book in Form 3 in Schedule I.

(3) Whenever a remittance is made the officer in charge of the treasury shall acknowledge the receipt of the money by entries in the Pass Book, and shall enter on the charge side of the Pass Book particulars of cheques paid up to date as recorded in his register

(4) The Pass Book shall be sent to the treasury on the last working day of each month whether or not there are any moneys to be remitted to the treasury on that day. The officer in charge of the treasury shall then close the Pass Book for the month and enter therein in words the balance in hand and sign the entry

60 (1) The Cantonment Authority shall from time to time examine the Pass Book and shall immediately call the attention of the officer in charge of the treasury to any discrepancy appearing between the credits or debits shown therein and those shown in the Cantonment registers.

(2) The Pass Book shall be written up only by the officer in charge of the treasury or by some member of his establishment, and no entries or marks shall be made therein by the Cantonment Authority or by any member of the Cantonment establishment

* Note—Every permanent advance to a Cantonment Fund receiving a grant-in-aid under rule 30 shall be held outstanding in the military accounts until the Fund becomes self-supporting, and the advance shall then merely be shown as a balance in the hands of the Cantonment Authority.

Abstract statement of estimated income and expenditure

61. The General Officer of the Command shall, on receiving the sanction of the Local Government to the Budget Estimates for the several Cantonment Funds in his Command, forward to the Government of India in the Military Department, to the Commander-in-Chief in India and to the Local Government for information, an abstract statement of the estimated income of, and expenditure from, all such Funds

Submission of proposals as to taxation

62. All proposals made by the Cantonment Authority for the imposition, abolition or modification of any tax shall be submitted to the General Officer of the Command for transmission to the Local Government.

CHAPTER V

Contracts

63. Every contract made by the Cantonment Authority shall be executed on its behalf by the officer authorized by the Governor General in Council so to execute it under the Statute 33 Victoria, Chapter 59, section 2

64. (1) No lease or other contract which is to remain in operation for more than twelve months, shall be executed on behalf of the Cantonment Authority without the previous sanction of the General Officer of the Command

(2) When any such lease is a lease of land, such sanction shall not be given without the concurrence of the Local Government

65 No contract for the execution of a work shall be executed on behalf of the Cantonment Authority unless it has been examined and approved by the Executive Engineer

Provided that, where a work is estimated to cost not more than five hundred rupees, the contract shall not be referred to the Executive Engineer unless the Cantonment Authority so directs

66. The officer authorized as provided in rule 63 shall not execute on behalf of the Cantonment Authority any contract the value or amount of which exceeds one hundred rupees, without the previous sanction of—

- (a) the Cantonment Committee or,
- (b) where a Cantonment Committee has not been constituted or has ceased to exist or cannot be convened, the Commanding Officer of the cantonment

Provided that, in case of urgency where there is a Cantonment Committee, such officer may, with the previous sanction of the President, ex-

ecute on behalf of the Committee any contract the value or amount of which exceeds one hundred rupees but does not exceed two hundred rupees and shall in every such case submit to the Committee, at its next meeting, a report of his action and the reasons therefor

67 Every contract executed on behalf of the Cantonment Authority the value or amount of which exceeds fifty rupees, except a contract for the sale of moveable property, shall be in writing, and if the contract is for the execution of a work, it shall be prepared in the form in use for that purpose in the Public Works Department under the orders of the Local Government.

68 (1) The Cantonment Authority may direct that security be required for the fulfilment of any contract to be executed on its behalf, other than a contract for the execution of a work, and that the whole or any part of such security be deposited before the contract is executed

(2) Whenever any security is required, it shall be of the nature specified in rule 25 (2), and shall be of such amount as the Cantonment Authority may think fit

(3) Whenever any such direction as aforesaid has been given, the contract shall not be executed unless—

- (a) it contains a clause specifying the nature and the amount of the security required, and
- (b) any sum directed to be deposited has been lodged with the Cantonment Authority

69 Nothing in this Chapter shall apply to any lease of land for the purposes of a building-site

CHAPTER VI

Nuisances, Drainage and Sanitation

Nuisances

Offences in road or public place

70 Whoever,—

- (1) in any street or public place within the limits of the cantonment,—
 - (a) is drunk and disorderly, or drunk and incapable of taking care of himself, or
 - (b) uses any threatening, abusive or insulting words, or behaves in a threatening or insulting manner, with intent to provoke a breach of the peace, or whereby a breach of the peace is likely to be occasioned, or
 - (c) exposes himself, or wilfully and indecently exposes his person, or
 - (d) begs importunately for alms, or
 - (e) exposes or exhibits, with the object of exciting charity, any deformity or disease or any offensive sore or wound, or
 - (f) carries meat exposed to public view, or
 - (g) is found gaming, or
 - (h) pickets animals or collects carts, or

- (j) being engaged in the removal of night-soil or other offensive matter or rubbish, neglects to sweep away or otherwise effectually remove any portion thereof that may spill or fall on to such street or public place, or
- (k) without proper authority,—
- (i) affixes or causes to be affixed any bill, notice or other document upon any building, monument, post, wall or fence, or
- (ii) defaces, or writes upon, or otherwise marks, any building, monument, post, wall, fence or tree, or
- (iii) removes, destroys, defaces or otherwise obliterates any notice or other document put up or exhibited under these Rules, or
- (iv) breaks, throws down or damages any direction-post, lamp or lamp-post maintained by the Cantonment Authority in such street or public place, or
- (l) carries a corpse, or causes the same to be carried, without keeping it decently covered, or without taking due precaution to prevent risk of infection or injury to the public health, or annoyance to passers-by or to persons dwelling in the neighbourhood, or
- (2) carries a corpse along a route prohibited by the Cantonment Authority by public notice, or
- (3) deposits, or permits his servant to deposit, any offensive matter or rubbish on road, public place, or waste or unoccupied land in any place not intended for the purpose on any street or public place, or waste or unoccupied land under the management of the Cantonment Authority, or
- (4) having charge of a corpse, fails to bury, Keeping corpse for twenty four hours or otherwise lawfully dispose of the same within twenty-four hours after death, or
- (5) makes any grave, or buries or burns any corpse, at an unauthorised place, or
- (6) having entered or used a public conveyance under the circumstances or for any of the purposes mentioned respectively in rule 190, fails to disinfect the same to the satisfaction of the Cantonment Authority, or
- (7) keeps or uses, or knowingly permits to be kept or used, any common place as a common gaming-house, or assists in conducting the business of any common gaming-house, or
- (8) wilfully intrudes upon a place set apart for bathing purposes and incommodes persons lawfully using the same, or
- (9) at a time or place prohibited by the Cantonment Authority by general or special notice, beats a drum or tom-tom, blows a horn or trumpet, or beats or sounds any brass or other instrument or utensil, or plays any music, Playing music
- (10) by singing, screaming or shouting, disturbs the public peace or order, Singing, etc., so as to disturb public peace or order
- (11) fires a gun, or does any other act, in such manner as to frighten or be likely to frighten animals passing by, or to cause or be likely to cause annoyance or danger to persons passing by or dwelling or working in the neighbourhood, or Firing gun, or doing other act, so as to frighten animals or cause annoyance or danger
- (12) lets loose any horse or other animal so as to cause, or negligently allows any horse or other animal to cause, injury, danger, alarm or annoyance to any person, or Letting animal loose, etc
- (13) suffers any ferocious dog to be at large without a muzzle, or, Suffering ferocious dog to be at large unmuzzled
- (14) sets on or urges any dog or other animal to attack, worry or put in fear any person, or, Baiting
- (15) being the occupier of any building or land in or upon which an animal dies, neglects within three hours after the death of the animal, or, if the death occurs at night, within three hours after sunrise, either— Disposal of carcasses
- (m) to report the death to the Cantonment Magistrate or to some officer (if any) appointed by him to receive such reports, with a view to the removal and disposal of the carcass by the public conservancy establishments, or
- (n) to remove and dispose of the carcass in accordance with any general directions given by the Cantonment Authority by notice, or any special directions given by the Cantonment Magistrate on receipt of a report under clause (m), or
- (16) except with the written permission of the Cantonment Authority, stores or uses night-soil, manure, rubbish or any other substance emitting an offensive smell, Storing or using offensive substance
- shall be deemed to have committed a nuisance and breach of these Rules.
- 71. The Cantonment Authority may, by public notice, appoint from time to time certain periods within which any dogs without collars or other marks distinguishing them as private property, found straying in the streets or beyond the enclosures of the houses of the owners of such dogs, may be destroyed, and such dogs may be destroyed,**
- Destruction of stray dogs at appointed periods

in accordance with such order, by such person and in such manner as the Cantonment Magistrate may direct

EXPLANATION—In this rule the word “house” shall include any hut, shop, warehouse or building

Drainage and Sanitation

72 The following officers shall, for the purposes of sanitation, have control over, and shall be responsible for the sanitary condition of, the parts of the cantonment hereinafter indicated, namely

- | | |
|---|---|
| (a) each Commanding Officer, | his regimental lines, including the regimental bazar and all latrines used by the troops and followers under his command or control, |
| (b) the Executive Engineer, | all yards, works, workshops and other places used by establishments under his charge, |
| (c) the executive officer of the Commissariat department, | all transport-lines, cattle-yards, slaughter-houses, bakeries and other places used by establishments under his charge |
| (d) the head of any other military department occupying as such any part of the cantonment, | all blocks of buildings, workshops and other places used by establishments under his charge |
| (e) the Cantonment Magistrate, | the Sudder Bazar, all roads, and all other parts of the cantonment not under the control of any officer mentioned in clause (a), clause (b), clause (c) or clause (d) of this rule. |

73 (1) Every officer mentioned in clauses (a) to (e) (both inclusive) of the last foregoing rule shall forward to the Cantonment Authority a weekly sanitary report, stating that the parts of the cantonment over which he has control as aforesaid have been inspected by him and are, in his opinion, in a sanitary condition or otherwise, as the case may be.

(2) Whenever any such officer reports that any part of the cantonment under his control as aforesaid is not in his opinion in a sanitary condition, he shall specify the defects and may make such suggestions for remedying the same as he may think fit.

74. The Sanitary Officer shall exercise a general sanitary supervision over the whole cantonment, shall report every insanitary practice and every insanitary condition of things, whenever or wherever existing therein, both to the officer responsible under rule 72 and to the Cantonment Authority, and shall attach to his report such recommendations for the remedy of the same as he may consider suitable.

Cantonment Magistrate's duties in respect of sanitation

75. It shall be the duty of the Cantonment Magistrate,—

- (a) subject to these Rules, to make, and supervise the carrying out of, all arrangements (including the provision and maintenance of a sufficient number of animals, vehicles, receptacles and implements, and of places for keeping the same) necessary for—
 - (i) the removal of night-soil and other offensive matter and rubbish from latrines, urinals, streets and all other places, public and private, from which the removal of the same by the public conservancy establishments is directed by the Cantonment Authority,
 - (ii) the surface cleansing of all streets and the watering thereof, and
 - (iii) the maintenance in a sanitary condition of public and private latrines and urinals, of encamping-grounds and sarais, of public and private markets and slaughter-houses, of fair-grounds, of all sources from which water is or may be made available for public use, and the lands in the vicinity thereof, of all other places likely to create a nuisance, and generally of every part of the cantonment other than the parts mentioned in clauses (a) to (d) (both inclusive) of rule 72,
- (b) to make frequent inspections of all parts of the cantonment with a view to ensuring that all orders of the Cantonment Authority on sanitary matters are duly obeyed, and that the public conservancy establishments satisfactorily perform their duties, and,
- (c) subject to these Rules, and to the control of the Cantonment Authority, to take all necessary steps for remedying any defects in the sanitary condition of the cantonment of which he may become aware and for which funds can be provided

76. (1) It shall be the duty of the Cantonment Authority, with due regard to the state of its finances, to provide and maintain a sufficient number of public latrines and urinals, with all necessary conservancy establishments

(2) Such latrines and urinals shall be placed in proper and convenient situations, as near as circumstances admit to the dwelling-places or places of resort of the persons for whose use they are intended

Provided that, except with the previous sanction of the General Officer of the Command, no latrine or urinal shall be placed within fifty feet, and no trench latrine shall be placed within two hundred feet, of any inhabited building.

(3) Separate latrines and urinals shall ordinarily be provided for males and females, or, if any latrine or urinal is provided for the use of both sexes, separate divisions shall be provided for each sex, and each such latrine, urinal or division shall be marked as being for the use of men only, or women only, as the case may be.

77. (1) In the provision of public latrines the
Directions as to pro- Cantonment Authority
 vision of public latrines shall observe the following
 and establishments directions, namely
 therefor

- (a) such number of latrines shall be provided as will admit of there being one compartment for the use of every fifteen adults resorting to the latrines,
- (b) no latrine shall be constructed for the use of more than five hundred adults,
- (c) every latrine, other than a trench latrine, shall be provided with proper closed iron receptacles in the proportion of not less than two for every hundred adults using the latrine, and with not less than one iron or glazed earthen pan for each compartment,
- (d) for every latrine, other than a trench latrine, there shall be provided,—
 - (i) for the cleansing thereof sweepers in the proportion of not less than one for every hundred adults using the latrine, and
 - (ii) for the removal of night-soil therefrom, air-tight iron filth-carts in the proportion of not less than one for every five hundred adults using the latrine, or, where carts cannot be used, sweepers in the proportion of not less than three for every five hundred adults using the latrine,
- (e) for every trench latrine, there shall be provided digging-sweepers in the proportion of not less than one for every two hundred adults using the latrine

Provided that, if in any case it is impracticable owing to want of funds or for any other sufficient reason, fully to observe the foregoing directions, the General Officer of the Command may declare the extent to which they shall be observed.

(2) No public latrine shall be constructed or rebuilt except on a plan approved by the General Officer of the Command

78 The Cantonment Authority shall, whenever necessary, provide
Receptacles or places for temporary deposit of offensive matter and rubbish
 and maintain in proper and convenient positions receptacles or places for the temporary deposit of offensive matter and rubbish

79. The Cantonment Authority shall appoint
Places for disposal of offensive matter and rubbish
 places for the disposal of night-soil, carcasses and other offensive matter and rubbish

80. The Cantonment Authority may, by notice in writing,—

(1) require any person having control,
Cesspools, receptacles for filth and fouling of foul water etc
 whether as lessee owner or occupier, of any land or building—

- (a) to close any offensive cesspool belonging to the land or building, or
- (b) to provide a receptacle (of a pattern, if any, approved by the Cantonment Authority) for filth accumulating on or in the land or building, or

(c) to keep in a cleanly condition (in such manner, if any, as may be prescribed by the notice), any receptacle provided for such filth, or

(d) to prevent the water of any private latrine, urinal, sink or bath-room, or any other offensive matter, from soaking, draining, flowing or being put from the land or building upon any street or public place or into any water-course or into any drain not intended for the purpose, or

(2) require the owner or other person having
Putting private latrine or urinal to public use
 the control of any private latrine or urinal not to put the same to public use, or,

(3) if any plan for the construction of private
Conformity of private latrines and urinals with standard plan
 latrines or urinals has been approved by the Cantonment Authority,—

(e) require any person repairing or constructing a private latrine or urinal not to allow the same to be used until it has been inspected by or under the direction of the Cantonment Magistrate and approved by him as conforming with such plan, or

(f) require any person having the control of a private latrine or urinal to rebuild or alter the same in accordance with such plan

Provided that, on the application of any person to whom a notice under clause (e) or clause (f) of this rule is addressed, a copy of the plan approved as aforesaid shall be given to him by the Cantonment Magistrate free of charge, or

(4) require the owner or other person having
Removal of private latrine or urinal
 the control of any private latrine or urinal which, in the opinion of the Cantonment Authority, creates a nuisance, to remove the latrine or urinal, and to substitute fresh earth, to such a depth, not exceeding two feet, as may be specified in the notice, for the earth on which the latrine or urinal stood, or

(5) require any person having control, whether as lessee, owner or
Roofing, etc., of private latrine, or cleansing of private latrine or urinal
 occupier, of any land or building,—

(g) to have any latrine provided for the same shut out by a sufficient roof and wall or fence from the view of persons passing by or dwelling or working in the neighbourhood, or

(h) to cleanse with deodorants any latrine or urinal belonging to the land or building, or

(6) require any persons having control, whether as lessees, owners or
Collection of offensive matter and rubbish for public removal
 occupiers, of any lands or buildings, who have allowed any offensive matter or rubbish to accumulate or remain thereon or therein, to collect the same and deposit it, for removal by the public conservancy establishments, at such times and in such receptacles or places as may be specified in the notice.

Provided that no person shall be required to deposit any offensive matter or rubbish in any

receptacle or place situate at a greater distance than one hundred and fifty feet from the nearest boundary of his premises, or

(7) where any land or building is situate within one hundred feet of a public drain, or of some other place set apart for the discharge of drainage, and the drains belonging to such land or building are, in the opinion of the Cantonment Authority, insufficient, require any person having control of the land or building, whether as lessee or owner, or, in the case of neighbouring lands or buildings, the several lessees or owners having control of the lands or buildings, conjointly, to provide sufficient drainage within fifteen days from the service of the notice, or

(8) require any person to desist from making or altering any drain leading into a public drain, or

(9) require any person who is creating or likely to create a nuisance by—

(1) altering, obstructing or encroaching upon a public drain, or

(2) impeding the flow of water owing to the absence of a culvert or the existence of an insufficient culvert under a path leading to his premises,

to desist therefrom, or

(10) require any person who is constructing or laying a drain to obey any directions which the Cantonment Authority may, on the advice of the Executive Engineer, think fit to give in order to ensure the completion of the work to its satisfaction, or

(11) require any person or persons, being the owner or owners and having control, of any drain or drains, to provide and apply to the same within ten days from the service of the notice such covering as may be specified in the notice, or

(12) require any person having the control of a drain to remove, within a period to be specified in the notice, any obstruction from the drain, or to cleanse, purify, repair or alter the drain, or otherwise to put the same in good order.

81. (1) The Cantonment Authority may, by notice in writing, require the owner or lessee of any building or land to remove or provide any privy, cesspool or other receptacle for filth, or provide any additional privies, cesspools or other receptacles as aforesaid which should in its opinion be provided for the building or land, in such manner as the Cantonment Authority may direct.

(2) The Cantonment Authority may, by notice in writing, require any person employing more than twenty workmen or labourers to provide such latrines and urinals as it may think fit, and to cause the same to be kept in proper order and to be daily cleansed.

82. (1) The Cantonment Authority may provide for the performance by its agents of the duties usually performed by sweepers.

Employment of public sweepers. in respect of any building or land, or of any privy, drain, cesspool or other receptacle for offensive matter pertaining to any building or land, with the consent of the occupier of the building or land, or without such consent if the occupier fails to make arrangements to the satisfaction of the Cantonment Authority for the performance of such duties

(2) When the Cantonment Authority has provided for the performance by its agents of the duties referred to in this rule, all matter removed by such agents in the course of such duties shall be at the disposal of the Cantonment Authority

83 The Cantonment Authority may, by notice in writing, require the lessee, owner or occupier of any land to clear away and remove any thick or noxious vegetation or undergrowth which appears to the Cantonment Authority to be injurious to health or offensive to the neighbourhood.

84 Whenever any tank, marshy ground, or waste or stagnant water, whether within any private enclosure or not, is in such a condition as to create a nuisance, the Cantonment Authority may, by notice in writing, require the lessee, owner or occupier of the land within thirty days from the service of the notice to fill up such tank or ground, or to drain off or remove such water, as the case may be.

Provided that, if, in the opinion of the Cantonment Authority, it is unreasonable to throw the whole expense on the lessee, owner or occupier, it may, with the previous sanction of the General Officer of the Command, require him to pay only a proportion of the expense

85 (1) Whenever it appears to the Cantonment Authority that any block of buildings is by reason of the manner in which the buildings are crowded together, in an unhealthy condition, the Cantonment Authority may cause the block to be inspected by a special committee consisting of—

(a) the Sanitary Officer,

(b) the Civil Surgeon of the district, or, if his services are not available, some other medical officer of the Government, and

(c) the Executive Engineer, or some person deputed by him

(2) Such special committee shall make a report in writing to the Cantonment Authority on the sanitary condition of the block, and, if it considers that the overcrowded condition thereof is likely to cause risk of disease to the inhabitants of the buildings or of the neighbourhood, or to endanger the public health, it shall clearly indicate, on a plan verified by the Executive Engineer or by the person deputed by him to serve on it, the buildings which should, wholly or in part, be removed in order to abate the unhealthy condition of the block.

(3) If, upon receipt of such report, the Cantonment Authority is of opinion that all or any of the buildings indicated should be removed, it may, by notice in writing, require the owners thereof to remove them

Provided that the Cantonment Authority—

(1) shall make compensation to such owners for any buildings which may have been erected under proper authority, and

(2) may, if it appears to it to be equitable under the circumstances to do so, pay to such owners such sum as it may think fit as compensation for any buildings which may not have been erected under proper authority

(4) The sum payable as compensation under this rule may be settled by mutual agreement between the Cantonment Authority and such owners as aforesaid, or in default of agreement, by a Committee of Arbitration constituted as provided in Chapter XX

EXPLANATION.—In this rule the word “buildings” includes enclosure walls or fences connected with buildings

86. If it appears to the Cantonment Authority that any building used as a dwelling is so overcrowded as to endanger the health of the inmates thereof, it may, after such inquiry as it may think fit to make, by notice in writing, require the owner or occupier, within a reasonable time to be specified in the notice, to abate the overcrowding of the building by reducing the number of lodgers, tenants or other inmates thereof

87 (1) Whenever any building is so ill constructed or dilapidated as to be, in the opinion of the Cantonment Authority in an insanitary state, the Cantonment Authority may, by notice in writing, require the owner, within a reasonable time, to be specified in the notice, to execute such repairs, or to make such alterations, as it may think necessary in order to remove such defects

(2) A copy of every notice issued under this rule shall be conspicuously posted on the building to which the notice relates

(3) A notice issued under this rule shall be deemed to have been complied with if the owner of the building to which it relates has, instead of executing the repairs, or making the alterations, directed by the notice, removed the building.

88. The Cantonment Authority may, by notice in writing, require the owner, lessee or occupier of any building or land which appears to it to be in a filthy or unwholesome state within twenty-four hours to cleanse the same or otherwise put it in a proper state in such manner as it may in the notice direct

89 Whoever fails to comply with any notice issued under this Chapter, shall be punishable with fine which may extend to fifty rupees, and, in case of a continuing failure, with an additional fine which may extend to five rupees for every

day after the first during which such failure continues

CHAPTER VII

General control over buildings, lands, trees, etc.

90 The Cantonment Authority may attach to the outside of any building brackets for lamps in such manner as not to occasion any injury thereto or inconvenience

91 (1) The Cantonment Authority may cause a name to be given to any street, and to be affixed on any building in such place as it may think fit, and may also cause a number to be affixed to any building, and in like manner may, from time to time, cause such names and numbers to be altered

(2) Whoever destroys, pulls down or defaces any such name or number, or puts up any different name or number from that put up by order of the Cantonment Authority, shall be punishable with fine which may extend to twenty rupees

92 The Cantonment Authority may, by public notice, direct that within certain limits, to be fixed by the notice, the roofs and external walls of huts or other buildings shall not be made or renewed of grass, mats, leaves or other highly inflammable materials without the permission of the Cantonment Authority in writing, and the Cantonment Authority may, by notice in writing, require any person who has disobeyed any such direction to remove or alter the roofs or walls so made or renewed, as it may think fit

93 (1) Every person who intends to erect or re-erect any building (except a person applying under Chapter XXI for permission to occupy land for the purposes of a building site) shall give notice in writing, in the manner hereinafter prescribed, of his intention to the Cantonment Authority, and the Cantonment Authority may, within six weeks after the receipt of such notice, refuse to sanction the said building or sanction it either absolutely or subject to any written directions which it may deem fit to issue in respect of all or any of the matters following, namely

- (a) free passage or way in front of the building,
- (b) space to be left about the building to secure free circulation of air and facilitate scavenging and for the prevention of fire,
- (c) ventilation, and the provision and position of drains, privies or cesspools,
- (d) level and width of foundation, level of lowest floor and stability of structure; and
- (e) the line of frontage with neighbouring buildings, if the building abuts on a street,

and the person erecting or re-erecting any such building as aforesaid shall obey all such written directions

Provided that the Cantonment Authority shall make full compensation to the owner for any damage which he may sustain in consequence of its prohibition of the re-erection of any building, or of its requiring any land belonging to him to be added to the street

(2) Any person giving notice to the Cantonment Authority under this rule shall, along with his notice forward a plan and specification of the building which he intends to erect or re erect, together with a site plan of the land of such character and with such details as the Cantonment Authority may require, and no such notice shall be valid until such plans and specification have been supplied

(3) Should any such building be begun or erected without the giving of such notice, or without the submission of such plans and specification as aforesaid, or in contravention of any order of the Cantonment Authority issued within six weeks of receipt of a valid notice under this rule, the Cantonment Authority may, by notice in writing, to be delivered within a reasonable time require the building to be altered or demolished, as it may deem necessary.

(4) Should the Cantonment Authority neglect or omit for six weeks after the receipt of a valid notice under this rule to make and deliver to the person who has given such notice any order in respect thereof, it shall be deemed to have sanctioned the proposed building absolutely

(5) Every sanction for the erection or re-erection of any building which shall be given or deemed to have been given by the Cantonment Authority, shall be available for one year from the date on which the notice shall have become valid and complete, and no longer, and, should the building so sanctioned not have been begun by the person who has obtained such sanction, or some one lawfully claiming under him, within such year, it shall not thereafter be begun without fresh sanction, but such person as aforesaid may at any subsequent time give fresh notice to the Cantonment Authority in the manner hereinbefore prescribed and thereupon the provisions hereinbefore contained shall apply to such notice

EXPLANATION.—In this rule the expression "erect or re-erect any building" include —

- (a) any material alteration or enlargement of any building,
- (b) the conversion into a place for human habitation of any building not originally constructed for human habitation,
- (c) the conversion into more than one place for human habitation of a building originally constructed as one such place,
- (d) the conversion of two or more places of human habitation into a greater number of such places,
- (e) such alterations of the internal arrangements of a building as effect an alteration of its drainage or sanitary arrangements, or affect its security, and
- (f) the addition of any rooms, buildings, out-houses or other structures to any building

94. (1) It shall not be lawful, without the written permission of the Cantonment Authority, for the owner or occupier of any

building to add to, or place against or in front of, the building any projection or structure overhanging, projecting into or encroaching on any street or into or on any drain, sewer or aqueduct therein

(2) The Cantonment Authority may, by notice in writing require the owner or occupier of any building to remove or alter any such projection or encroachment as aforesaid

Provided that, in the case of any projection or encroachment lawfully in existence at the commencement of these Rules, the Cantonment Authority shall make reasonable compensation for any damage caused by the removal or alteration.

(3) The Cantonment Authority may, by order in writing, give permission to the owners or occupiers of buildings in any particular street to put up open verandahs, balconies or rooms projecting from any upper storey thereof to an extent beyond the line of the plinth or basement-wall, and at a height from the level of the ground or street, to be specified in the order.

95 The Cantonment Authority may, by notice in writing, require the owner or lessee of any building or land in any street to put up and keep in good condition proper troughs and pipes for receiving and carrying the water from the building or land and for discharging the same so as not to inconvenience persons passing along the street

96 The Cantonment Authority may, by notice in writing, require any person who has, without its written permission, newly erected or re-built any building over any public sewer, drain, culvert, water-course or water-pipe, to pull down or otherwise deal with the same as it may think fit

97 If any building, or any well tank, reservoir, tower, pool, depression or excavation, wells, tanks, buildings, etc., is deemed by the Cantonment Authority to be, for want of sufficient repair, protection or enclosure, dangerous to persons passing by or dwelling or working in the neighbourhood, the Cantonment Authority may, by notice in writing, require the owner or occupier thereof to repair, protect or enclose the same, and, if it appears to the Cantonment Authority that there is imminent danger, it shall forthwith take such steps to avert the danger as it may think necessary

98 If any building, wall or structure, or anything affixed thereto, is in a ruinous state or in any way dangerous, it may, by notice in writing, require the owner or occupier thereof forthwith either to remove the same or to cause such repairs to be made to the building, wall, structure or bank as it may consider necessary for the public safety, and, if it appears to the Cantonment Authority that there is imminent danger, it shall forthwith take such steps to avert the danger as it may think necessary

99. The Cantonment Authority may, by notice

Power to require un-
tenanted building or land
becoming a nuisance to
be secured or enclosed

in writing, require the owner or part-owner, or person claiming to be the owner or part-owner, of any building or land, or the lessee or person claiming to be the lessee of any land, which, by reason of abandonment or disputed ownership or other cause, has remained untenanted and become a resort of idle and disorderly persons or otherwise a nuisance, to secure or enclose the same within a reasonable time, to be fixed in the notice

Construction and
maintenance of bound-
ary-walls, hedges and
other fences

100 The Cantonment Authority may, by notice in writing, require the lessee or owner of any land—

- (a) to construct sufficient boundary-walls, hedges or other fences therefor, of such materials, description and dimensions as may be specified in the notice, or
- (b) to maintain the boundary-walls, hedges or other fences thereof in good order

EXPLANATION—In this rule the expression “boundary-walls, hedges or other fences” includes all necessary gates and the posts or pillars thereof

101 The Cantonment Authority may, by notice in writing, require the lessee, owner or occupier of any land to cut or trim, within three days, in the manner specified in the notice, the hedges standing on the land

102 No general felling of trees, and no general lopping or trimming of trees in a manner likely to cause permanent injury thereto, shall be ordered by the Cantonment Authority without the previous sanction of the General Officer of the Command

103 (1) No tree of mature growth, whether standing in any private enclosure or not, shall be felled without the previous sanction of the Cantonment Authority

(2) If the Cantonment Authority considers that the felling of any tree of mature growth standing in a private enclosure is necessary for sanitary reasons, it may, by notice in writing, require the lessee, owner or occupier of the land to fell such tree within a period to be specified in the notice.

Power to require lopping or trimming of trees

104 The Cantonment Authority may—

- (a) cause to be lopped or trimmed any trees standing on land belonging to the Government, or,
- (b) by public notice, require all lessees, owners or occupiers of land, or, by notice in writing, require any lessee, owner or occupier of land, to lop or trim, in such manner as may be specified in the notice, all or any trees standing on the land

105. (1) If the Cantonment Authority considers the cultivation of any description of crop, or the use of any kind of manure, or the irrigation of land in any specified manner,

Power to control
agriculture and irriga-
tion.

to be for any reason undesirable, it may, by public notice, prohibit such cultivation, use or irrigation after a certain date to be fixed in the notice

Provided that, if, when any such notice is issued any land to which it relates has been lawfully prepared for cultivation, or any crop is sown therein or is standing thereon, the Cantonment Authority—

- (a) may subject to such conditions (if any) as it may think fit to impose, postpone the date from which the notice shall take effect, or
- (b) may, if it thinks fit and whether or not it postpones the date from which the notice shall take effect, pay to any person interested in the land or crop such sum as it may think fit as compensation for any loss incurred by reason only of his having complied with the notice, and
- (c) shall, if it directs that the notice shall take effect without delay make compensation to all persons interested in the land or crop for any loss incurred by reason only of their having complied with the notice

(2) The sum payable as compensation under this rule may be settled by mutual agreement between the Cantonment Authority and such person or persons as aforesaid, or, in default of agreement by a Committee of Arbitration constituted as provided in Chapter XX.

106 The Cantonment Authority may, by notice in writing, require the lessee, owner or occupier of any land to abstain from any improper use of the same, whether by quarrying, or by removing earth, sand, stone or gravel, or by digging a tank, well or pit

107 Whoever, without the written permission of the Cantonment Authority, digs up the surface of any public grass-land, shall be punishable with fine which may extend to twenty rupees.

108 Whoever fails to comply with any notice issued under this Chapter shall be punishable with fine which may extend to fifty rupees, and, in case of a continuing failure, with an additional fine which may extend to five rupees for every day after the first during which such failure continues.

CHAPTER VIII.

Regulation of sarāis, encamping-grounds, traffic, etc.

Definitions

109. (1) In this Chapter—

(a) “sarāi” means any building within the limits of the cantonment ordinarily used, whether wholly or in part, for the accommodation of native travellers, and not maintained by the Cantonment Authority;

(b) "keeper of a sarái" includes the owner of a sarái, any person having the care or management of a sarái and the lessee of any land occupied by a sarái,

(c) "market" means any place within the limits of the cantonment where persons periodically assemble for the sale of meat, fish, fruit, vegetables or any other perishable articles of food for human consumption, or milk,

(d) "slaughter-house" means any place within the limits of the cantonment ordinarily used for the slaughter of animals for the purpose of selling the flesh for human consumption,

(e) "public market" or "public slaughter-house" means a market or slaughter house maintained by the Cantonment Authority,

(f) "private market" or "private slaughter-house" means a market or slaughter-house not maintained by the Cantonment Authority, and

(g) "licensed market" or "licensed slaughter-house" means a private market or private slaughter-house licensed by the Cantonment Authority.

(2) If any question should arise as to whether any building is a sarái, it shall be decided by the Cantonment Authority after giving the owner or occupier of the building an opportunity of representing his case, either orally or in writing, and the decision of the Cantonment Authority shall be final.

Saráis

Obligations of keeper of a sarái **110.** (1) Every keeper of a sarái shall be bound,—

(a) if to his knowledge any person in the sarái is ill of any infectious or contagious disorder, or has died of any such disorder, to make an immediate report of the fact to the officer in charge of the police-station within the jurisdiction of which the sarái is situated;

(b) to maintain a sufficient supply of pure water for the use of persons frequenting the sarái,

(c) to keep all parts of the sarái in a clean and sanitary condition, and

(d) to give any information which the Cantonment Magistrate may require regarding—

(i) the boundaries of the sarái, and

(ii) any matters affecting its management and condition.

(2) Whoever refuses to give the Cantonment Magistrate any information required under this rule, or wilfully gives him false information, shall be punishable with fine which may extend to twenty rupees, and, in case of a continuing offence, with an additional fine which may extend to five rupees for every day after the first during which such offence continues

111. (1) The Cantonment Magistrate may, by notice in writing, require

Power to require reports as to persons using sarái any keeper of a sarái to report to him, or to any person whom he may appoint in this behalf, either orally or in writing as may be directed in the notice, the name and description, or the names and descriptions, of any person or

persons who resorted to the sarái during any period, to be specified in the notice

(2) If a written report is required, the form in which the same is to be furnished may be specified in such notice.

112 (1) If the keeper of a sarái commits a breach of any of the provisions of rules 110 and 111, the Cantonment Authority may, in addition to any punishment which may be inflicted under these Rules, by notice in writing, require that the sarái be closed to the use of the public.

(2) Such notice shall be cancelled, if the keeper of the sarái satisfies the Cantonment Authority that no such breach as aforesaid would be likely to occur in the event of the sarái being re-opened to the use of the public.

113 The three last foregoing rules shall not apply to any cantonment in which the Saráis Act 1867, is for the time being in force

Encamping-grounds.

114. (1) No public place shall be used as an encamping-ground without the written permission of the Cantonment Authority.

(2) Such permission may be given subject to any conditions which the Cantonment Authority may think fit to impose with respect to sanitary arrangements and other matters affecting the public health, safety or convenience.

Markets and Slaughter-houses

115 No person shall sell, or expose for sale, in any market, any article of food or drink for human consumption which is unfit for that purpose

116 (1) The Cantonment Authority may, by public notice, limit the hours during which any market may be kept open for public use

(2) A copy of every notice issued under this rule shall be conspicuously posted in each market to which the notice relates

117 The Sanitary Officer and the Cantonment Magistrate shall frequently inspect—

(a) articles of food and drink for human consumption kept for sale in markets,

(b) the water supply of markets,

(c) the arrangements for the removal and disposal of offensive matter and rubbish from markets, and

(d) all other arrangements for maintaining markets in a sanitary and proper condition.

118. The Cantonment Authority may, by public notice, prohibit the sale or exposure for sale of any animal or article, or class of animals or articles, within a public market.

119. If the owner or the person in charge of any private market applies for a license for the market, such license shall be issued free of charge by the Cantonment Magistrate on his being satisfied—

- (a) that convenient passages have been provided between the shops, stalls, sheds or standings in the market,
- (b) that a sufficient supply of pure water is provided for the market,
- (c) that, in the case of a large market, one or more public latrines, at a distance of not less than fifty yards from the market, and one or more public urinals, according to requirements, are provided for the use of persons frequenting the market, and
- (d) that suitable arrangements are made for—
 - (i) keeping the market in a clean and sanitary condition and removing offensive matter and rubbish therefrom,
 - (ii) the proper ventilation of buildings and structures in the market, and
 - (iii) the proper maintenance of the public latrines and urinals (if any) provided for the use of persons frequenting the market

120. No private market shall, after the commencement of these Rules, be opened to public use until it has been licensed

121. (1) The Cantonment Authority may require,—

- (a) by notice in writing, the owner or the person in charge of any private market in existence at the commencement of these Rules, or,
- (b) by public notice, the owners or the persons in charge of any class of such markets,

to furnish, within a period to be specified in the notice, any information which may be needed for the purpose of determining whether a license should be required for any such market

(2) On the expiration of the period specified in any such notice the Cantonment Authority shall determine, in respect of each market to which the notice relates, whether or not it is necessary to require a license

(3) If the Cantonment Authority determines that a license shall be required for any such market, and a license either is not applied for or is refused, the Cantonment Authority may, by notice in writing, require the owner or the person in charge of the market to close the same until a license has been obtained

122 The owner or the person in charge of a licensed market shall be bound—

- (a) to maintain convenient passages between the shops, stalls, sheds or standings in the market,
- (b) to maintain a sufficient supply of pure water for the market,

- (c) to keep the market in a cleanly and sanitary condition and to remove all offensive matter and rubbish therefrom, and
- (d) to maintain in good order any public latrines or urinals which may have been provided for the use of persons frequenting the market

123. (1) If the owner or the person in charge of a licensed market commits a breach of any of the provisions of rules 116 and 122, the Cantonment Authority may, in addition to any punishment which may be inflicted under these Rules, by order in writing, suspend the license for any period specified in such order, or withdraw the license

(2) No market for which a license has been issued under this Chapter shall be kept open for public use while such license is suspended or after the same has been withdrawn

(3) A copy of every order made under this rule shall be conspicuously posted in the market to which the order relates

124 The Cantonment Magistrate shall maintain a register of all private markets which have been licensed under this Chapter, showing—

- (a) the date on which the license was issued, and,
- (b) if the license has been suspended the date and period of such suspension, or,
- (c) if the license has been withdrawn, the date of such withdrawal

125 No person, knowing that a license issued for a private market is for the time being suspended or withdrawn, shall sell, or expose for sale, in such market any meat, fish, fruit, vegetables or other perishable articles of food for human consumption, or milk.

126 If the Cantonment Authority has made or approved any arrangements for—

- (a) passing and marking animals in a slaughter-house as being suitable for slaughter, or
- (b) regulating the admission into a slaughter-house of persons carrying on business or trade or working for gain therein, or regulating the conduct of such persons therein,

the owner or the person in charge of such slaughter-house shall not slaughter, or permit to be slaughtered, any animal therein, unless such arrangements are duly observed.

127. (1) The Cantonment Authority may, by public notice, limit the hours during which any slaughter-house may be kept open for use and the slaughter of animals be permitted therein.

(2) A copy of every notice issued under this rule shall be conspicuously posted in each slaughter-house to which the notice relates.

128. (1) Whenever it appears to the Cantonment Authority to be necessary on sanitary grounds to do so, it may, by public notice, prohibit, for any period not exceeding one month, to be specified

Power to prohibit, on sanitary grounds, the use of a slaughter-house or the slaughter therein of any particular description of animal

in the notice, or for such further period, not exceeding one month, as it may from time to time by a like notice prescribe, the use of any slaughter-house or the slaughter therein of any animal of a description specified in the notice

(2) A copy of every notice issued under this rule shall be conspicuously posted in the slaughter-house to which the notice relates

129. If the owner or the person in charge of any private slaughter-house applies for a license for the slaughter-house, such license shall be issued free of charge by the Cantonment Magistrate on his being satisfied—

(a) that convenient passages have been provided between any pens, standings or yards in the slaughter-house,

(b) that a sufficient supply of pure water has been provided for the slaughter-house,

(c) that sufficient drains have been provided,

(d) that the premises are so enclosed as to prevent the interior being visible by passers-by, and

(e) that suitable arrangements have been made for—

(i) keeping the slaughter-house in a clean and sanitary condition and removing offensive matter and rubbish therefrom,

(ii) the proper ventilation of buildings and structures in the slaughter-house,

(iii) the proper maintenance of drains, and of any public latrines and urinals that may be required for the use of persons frequenting the slaughter-house,

(iv) the treatment of animals in the slaughter-house,

(v) the slaughter of animals, in a humane manner, within an enclosure so constructed that animals placed therein shall be out of sight of animals kept outside,

(vi) the removal of animals to the said enclosure,

(vii) the disposal or destruction of animals which are offered for slaughter and are from disease or any other cause unfit for human consumption, and

(viii) the destruction of carcasses which from disease or any other cause are found after slaughter to be unfit for human consumption

Provided that no license shall be issued for a slaughter-house opened after the commencement of these Rules, if the slaughter-house is situate at any place which the Cantonment Authority may consider, especially with regard to any neighbouring drains or water-courses, to be objectionable.

130 No private slaughter-house shall, after the commencement of these Rules, be opened to public use until it has been licensed.

New private slaughter-houses to be licensed

131. (1) The Cantonment Authority may, by notice in writing, require the owner or the person in charge of any private slaughter-house in existence at the commencement of these Rules to furnish, within a period to be specified in the notice, any information which may be needed for the purpose of determining whether a license should be required for the slaughter-house

(2) On the expiration of the period so specified, the Cantonment Authority shall determine whether or not it is necessary to require a license

(3) If the Cantonment Authority determines that a license shall be required, and a license either is not applied for or is refused, the Cantonment Authority may, by notice in writing, require the owner or the person in charge of the slaughter-house to close the same until a license has been obtained

Obligations of owner or person in charge of a licensed slaughter-house

132 The owner or the person in charge of a licensed slaughter-house shall be bound—

(a) to maintain convenient passages between any pens, standings or yards in the slaughter-house,

(b) to maintain a sufficient supply of pure water for the slaughter-house,

(c) to keep the slaughter-house in a clean and sanitary condition, to provide and maintain receptacles for refuse, and to remove all offensive matter and rubbish from the slaughter-house,

(d) to maintain in good order the drains of the slaughter-house and any public latrines or urinals which may have been provided for the use of persons frequenting the slaughter-house,

(e) to maintain suitable arrangements for the purposes mentioned in rule 129, sub-clauses (i) to (viii), both inclusive, and

(f) to prevent the keeping of animals at the slaughter-house for more than twenty-four hours

133 (1) If the owner or the person in charge of a licensed slaughter-house commits a breach of any of the provisions of rules

Power to suspend or withdraw license

127, 128 and 132, the Cantonment Authority may, in addition to any punishment which may be inflicted under these Rules, by order in writing, suspend the license for any period specified in such order, or withdraw the license

(2) No slaughter-house for which a license has been issued under this Chapter, shall be kept open to public use, and no animal shall be slaughtered therein, while such license is suspended or after the same has been withdrawn.

(3) A copy of every order made under this rule shall be conspicuously posted in the slaughter-house to which the order relates.

134 The Cantonment Magistrate shall maintain a register of all private slaughter-houses which have been licensed under this Chapter, showing—

- (a) the date on which the license was issued, and,
- (b) if the license has been suspended, the date and period of such suspension, or,
- (c) if the license has been withdrawn, the date of such withdrawal.

135 No person, knowing that a license issued for a slaughter-house is for the time being suspended or has been withdrawn, shall slaughter any animal therein

Levy of stallages, rents and fees in markets and slaughter-houses maintained by the Cantonment Authority.

136 (1) The Cantonment Authority may—

- (a) charge for the occupation or use of any stall, shop, standing, shed or pen in a public market or slaughter-house and for the right to expose goods for sale in such a market, and for weighing and measuring goods sold in any such market, and for the right to slaughter animals in any such slaughter-house, such stallages, rents and fees as shall from time to time be fixed by it, with the approval of the Officer Commanding the district, in this behalf, or,
- (b) with the approval of the Officer Commanding the district, fix the stallages, rents and fees leviable as aforesaid or any portion thereof, for any period not exceeding one year at a time

(2) A copy of the table of stallages, rents and fees, if any, leviable in any market or slaughter-house under this rule printed in the English language and in such other language or languages as the Cantonment Authority may direct, shall be affixed in some conspicuous place in the market or slaughter-house

137. (1) No person shall, without the written permission of the Cantonment Authority, bring into the cantonment any cattle, sheep, goat or swine intended for human food, or the flesh of any such animal slaughtered outside the cantonment

(2) Any animal or flesh brought into the cantonment in contravention of this rule may be seized by the Cantonment Magistrate or by any servant of the Cantonment Authority and sold or otherwise disposed of as the Cantonment Authority shall direct, the sale-proceeds (if any) being credited to the Cantonment Fund

(3) Whoever commits a breach of this rule shall be punishable with fine which may extend to fifty rupees

(4) Nothing in this rule shall be deemed to apply, to cured or preserved meat.

Traffic.

138. The Cantonment Authority shall not permanently close any street, or open any new street, without the previous sanction of the General Officer of the Command

139 Every person driving a vehicle along a street shall, except in cases of actual necessity, keep to the left when passing a vehicle coming from the opposite direction and to the right when passing a vehicle going in the same direction.

140 No animal shall be ridden or driven, and no vehicle shall be driven, on any street in a rash or negligent manner

141. No animal shall be ridden or driven, and no vehicle shall be driven, on any street at a time or in a manner prohibited by public notice issued by the Cantonment Authority or the District Superintendent of Police

142. No vehicle shall be driven, led or kept standing on any street between nightfall and dawn without a suitable lamp, unless there is sufficient moonlight to render a lamp unnecessary.

143 Every person driving an elephant or camel on a street shall remove such animal to a safe distance on the approach of a horse or of bullocks drawing a vehicle

144 No vehicle or animal shall be left on a street without proper control.

145 No animal shall be trained, broken in or led for exercise on any street at a time or place prohibited by public notice issued by the Cantonment Authority

146 No person shall—

- (a) cause any vehicle, with or without an animal harnessed thereto, to remain or stand on any street longer than may be necessary for loading or unloading or for taking up or setting down passengers, or
- (b) leave or fasten any vehicle or animal so as to cause obstruction in any street, or
- (c) expose any article for sale, whether upon a stall or booth or in any other manner, so as to cause obstruction in any street, or
- (d) in any other manner wilfully obstruct or cause obstruction to the free passage of any street.

Burial and burning grounds.

147. The Cantonment Authority may, by notice in writing, require the owner or keeper of any burial or burning ground to supply any information indicated in the notice which may be required concerning the condition, management or position of such ground.

148 (1) No place not previously used as a burial or burning ground shall, after the commencement of these Rules, be so used without the written permission of the Cantonment Authority.

(2) Such permission may be given subject to any conditions which the Cantonment Authority may think fit to impose for the purpose of preventing annoyance to, or danger to the health of, persons living in the neighbourhood

149 (1) If the Cantonment Authority is of opinion, after making or causing to be made local inquiry, that any burial or burning ground has become offensive to, or dangerous to the health of, persons living in the neighbourhood, it may, with the previous sanction of the Local Government, by notice in writing, require the owner or keeper of such ground to close the same from a date to be specified in the notice.

(2) Whenever the Local Government sanctions the issue of any such notice, it shall declare the conditions on which such burial or burning ground may be re-opened, and a copy of such declaration shall be annexed to the notice

(3) Whenever the Local Government sanctions the issue of any such notice, it shall declare that a new burial or burning ground shall be provided at the expense of the Cantonment Fund, or, if the community concerned is willing to provide a new burial or burning ground, that a grant shall be made from the Cantonment Fund towards the cost of the same

150 No corpse shall be buried or burnt in any burial or burning ground in respect of which a notice issued under the last foregoing rule is for the time being in force.

151 No grave shall be made in any burial-ground at a less distance than three feet from the margin of the nearest grave

152 Except with the written permission of the Cantonment Authority, no corpse shall be buried in any burial ground in a grave of less depth than—

- (a) four feet, if the grave is made of masonry, or
- (b) six feet, if the grave is not made of masonry

153 Every corpse brought to a burial or burning ground shall be buried or burnt, as the case may be, within six hours after it has been so brought

154 Every corpse brought to a burning-ground shall be completely reduced to ashes

155. Whenever a corpse has been buried, burnt or otherwise disposed of in contravention of any of the provisions of rules 148, 150, 151, 152, 153 and 154, the Cantonment Authority may, if it thinks fit, take such order therewith, or with the remains thereof, as shall ensure its or their proper disposal in accordance with these Rules.

156. The provisions of rules 147 to 155 (both inclusive) shall not apply to any burial-ground which is for the time being managed under rules published in the Public Works Department Code

CHAPTER IX.

Water-supply

157 In this Chapter, the expression "source of public water-supply" means all public wells, tanks, rivers, streams, springs, channels, reservoirs and other sources within the limits of the cantonment from which water is or may be made available for public use, whether or not they are used for the purposes of water-works, and includes any source of water-supply situate on private premises to the use of which the public is entitled

158 All sources of public water-supply (except those, if any, which are used for the purposes of water-works and are for the time being under the control of the Public Works Department or the Military Works Department) shall be under the control of the Cantonment Authority

159 Where there are no water-works, the Cantonment Authority shall take all necessary measures for maintaining a supply of pure water, for guarding from pollution water which is used for human consumption, and for preventing polluted water from being so used.

160 (1) If it appears to the Cantonment Authority that the water in any source of public water-supply is likely, if used by man or by any milch animal for drinking purposes, to engender or cause the spread of any disorder, it may, by public notice, prohibit the use or removal of the said water for all or any of the following purposes, namely —

- (a) drink for man, or mixing with any article of food or drink for man,
- (b) drink for milch animals, or mixing with any article of food or drink for milch animals,
- (c) washing vegetables or cooking-utensils,
- (d) any other purpose which is likely to cause its introduction into any article of food or drink for man.

(2) A copy of every notice issued under this rule shall be conspicuously posted near the source of water-supply to which the notice relates

Power to require proper maintenance, or closing to public use, of private source of public water supply used for drinking purposes

161 The Cantonment Authority may, by notice in writing, require the owner, or any person having control, of any source of public water-supply which is used for drinking purposes,—

- (a) to keep the same in good order, and to clear it from time to time of silt, refuse or decaying vegetation, or,

- (b) if the water therein is proved to the satisfaction of the Cantonment Authority to be unfit for drinking purposes, to take such measures as may be specified in the notice to prevent the public from having access to, or using, such water.

Polluting source of public water-supply used for drinking purposes

162 (1) No person shall—

- (a) bathe in any source of public water-supply which is used for drinking purposes, or
- (b) wash, throw or cause or permit to enter, therein any dog or other animal, or
- (c) wash or cleanse therein any clothes, wool, cloth, leather, skin, utensil or other thing, or
- (d) throw or allow to flow thereinto any offensive matter or rubbish, or
- (e) cause or allow the water of any sink, drain, steam-engine or boiler, or any other filthy or polluted water, belonging to him or under his control, to flow thereinto, or
- (f) do any other act whereby the water thereof is polluted or is likely to be polluted

(2) For the purposes of this rule the Cantonment Authority may, by public notice, declare what sources of public water-supply are used for drinking purposes.

(3) A copy of every notice issued under this rule shall be conspicuously posted near the source of water-supply to which the notice relates.

Impairing quality or diminishing quantity of water in source of public water-supply used for drinking purposes, or impairing usefulness of water-works

163 The Cantonment Authority may, by public notice, prohibit any act specified in the notice which would, in its opinion,—

- (a) impair the quality or diminish the quantity of the water in any source of public water-supply which is set apart for public use and is used for drinking purposes or
- (b) injure or impair the usefulness of any of the pipes, locks, cocks or other fittings of water-works

164 (1) The Cantonment Authority may, by public notice, prohibit trespasses upon land occupied by water-works.

(2) A copy of every notice issued under this rule shall be conspicuously posted on the land to which the notice relates.

165. No person shall without the written permission of the Cantonment Authority, alter, obstruct or encroach upon any public water-channel

166. (1) The Cantonment Authority may, by public notice prohibit fishing, boating or the gathering of flowers or plants, generally or by any particular method specified in the notice, in any source of public

Power to prohibit polluting of source of public water supply by fishing, boating or gathering flowers or plants.

water-supply whenever it considers that any such act is likely to cause danger to the public health.

(2) A copy of every notice issued under this rule shall be conspicuously posted near the source of water-supply to which the notice relates

167. No person shall throw a corpse into any source of public water-supply

Throwing of corpse into source of public water-supply

168 The Cantonment Authority may, by notice in writing, require the lessee, owner or occupier of any place in which is carried on any offensive trade or manufacture, whereby the water in any source of public water-supply is polluted, to take steps to abate such pollution.

169. No person shall without the written permission of the Cantonment Authority,—

Placing latrine, etc., or depositing off noxious matter or rubbish, near source of public water-supply

(a) place any latrine, urinal, cesspool or drain, or

(b) use for the deposit of offensive matter or rubbish any place,

within fifty feet of any source of public water-supply

170 The Cantonment Authority may, by notice in writing, require any lessee, owner or occupier on whose land any latrine, urinal, cesspool, drain or other receptacle for filth or refuse exists within fifty feet of any source of public water-supply, to remove or close the same within one week from the service of such notice.

Bathing or washing at public well or spring so as to pollute the water

171. No person shall—

(a) bathe, or

(b) wash any animal, or any clothes, wool, cloth, leather, skin, utensil or other thing,

by the side of any public well or spring in such a manner as to pollute the water thereof

172 (1) The Cantonment Authority may, by public notice, prohibit—

Regulation of public bathing and washing

(a) bathing, or

(b) the washing of animals or of clothes, wool, cloth, leather, skins, utensils or other things, or of any class of such things,

by the public or any section thereof at any public place specified in the notice.

(2) The Cantonment Authority may, by public notice,—

(c) appoint places for—

(1) bathing, or

(2) the washing of animals or of clothes, wool, cloth, leather, skins, utensils or other things, or any class of such things, and

(d) fix the hours at which alone bathing or washing may be carried on at any place so appointed.

(3) In any notice issued under this rule, separate places may be appointed for bathing and washing, respectively, and separate places may be appointed for bathing by men and women respectively.

(4) A copy of every notice issued under this rule shall be conspicuously posted on or near the place or places to which the notice relates.

EXPLANATION —“Washing an animal” includes driving or throwing an animal, or permitting it to go, into water.

CHAPTER X.

Trades, callings and occupations

173. (1) No persons of any of the following classes, namely

Licenses required for carrying on of certain occupations

- (a) butchers, and sellers of poultry, game or fish,
- (b) persons keeping pigs for profit, and dealers in the flesh of pigs which have been slaughtered in India,
- (c) persons keeping milch cattle or milch goats for profit,
- (d) persons keeping for profit any animals other than pigs, milch cattle or milch goats,
- (e) dairymen and buttermen,
- (f) makers of bread, biscuits or cake, and sellers of bread, biscuits or cake made in India,
- (g) sellers of fruit or vegetables,
- (h) manufacturers of aerated or other potable waters, or ice, and sellers of the same,
- (j) sellers of any medicines, drugs or articles of food or drink for human consumption (other than the flesh of pigs, milk, butter, bread, biscuits, cake, fruit, vegetables, aerated or other potable waters or ice) which are of a perishable nature,
- (k) sellers of water to be used for drinking purposes,
- (l) washermen,
- (m) dealers in hay, straw, wood, charcoal or other inflammable material,
- (n) dealers in fire-works, kerosine oil, petroleum or any other inflammable oil or spirit,
- (o) tanners and dyers,
- (p) persons carrying on any trade or occupation from which offensive or unwholesome smells arise,

shall reside in any part of the cantonment for the purpose of carrying on their trades, callings or occupations, unless they have applied for and obtained a license from the Cantonment Authority

(2) Provided as follows

(i) a license shall not be withheld if the applicant is willing to comply with such

conditions as the Cantonment Authority may consider it necessary to impose under the next following rule;

(ii) no person who may, at the commencement of these Rules, be carrying on his trade, calling or occupation in any part of the cantonment shall be bound to apply for a license for carrying on such trade, calling or occupation in that part until he has received from the Cantonment Authority not less than three months' notice of his obligation to do so,

(iii) if the Cantonment Authority refuses to grant a license to any such person to carry on his trade, calling or occupation in such part, it shall pay him reasonable compensation for any loss incurred by reason only of such refusal.

(3) No charge shall be made for any license granted under this rule.

174. A license granted to any person under Conditions which the last foregoing rule shall may be entered in such specify the part of the cantonment in which the licensee shall reside for the purpose of carrying on his trade, calling or occupation, and may contain any conditions which the Cantonment Authority may think fit to impose with respect to the following matters, namely

(a) in the case of butchers, and sellers of poultry, game or fish,—

- (1) the apparatus and coverings to be used in the operations of their trade,
- (2) the places at which, and the manner in which, meat, poultry, game or fish may be exposed for sale, and
- (3) the disposal of meat, poultry, game or fish when found to be unfit for human consumption.

EXPLANATION —Meat which has been subjected to the process of blowing shall be presumed to be unfit for human consumption.

(b) in the case of persons keeping pigs for profit, and dealers in the flesh of pigs which have been slaughtered in India,—

- (4) the places at which pigs may be kept,
- (5) the number of pigs which may be kept at any one place,
- (6) the season and the places at which pigs may be slaughtered and the flesh offered for sale,
- (7) the manner in which pigs shall be inspected prior to slaughter, and
- (8) the manner in which the flesh thereof shall be inspected and marked prior to sale, and disposed of when found to be unfit for human consumption,

(c) in the case of persons keeping milch cattle or milch goats for profit,—

- (9) the places at which such animals may be kept,
- (10) the number of such animals which may be kept at any one place,
- (11) the sources from which such animals shall be watered,
- (12) the segregation of any sick or diseased animals, and

(13) the taking of any other measures which the Cantonment Authority may consider necessary for maintaining the premises in a clean and sanitary state,

(d) in the case of persons keeping for profit any animals other than pigs, milch cattle or milch goats,—

(14) the places at which such animals may be kept,

(15) the number of such animals which may be kept at any one place, and

(16) the manner of keeping the animals so as to prevent their becoming a public nuisance or injurious to the public health,

(e) in the case of dairymen and buttermen,—

(17) the vessels and other apparatus to be used in the operations of their trade,

(18) the places at which and the manner in which milk or butter may be prepared and kept for sale, and

(19) the taking of any other measures which the Cantonment Authority may consider necessary for keeping the premises and all vessels and apparatus in a clean and sanitary state,

(f) in the case of makers of bread, biscuits or cake, and sellers of bread, biscuits or cake made in India,—

(20) the apparatus and the water, flour and other ingredients which may be used in the operations of their trade,

(21) the places at which bread, biscuits or cake may be prepared and kept for sale,

(22) the inspection to be exercised over the making of such articles, and

(23) the disposal of any such articles which may be found to be unwholesome,

(g) in the case of sellers of fruit or vegetables,—

(24) the places and seasons at which fruit or vegetables, or any specified kinds of fruit or vegetable, may be sold, and

(25) the disposal of any fruit or vegetables which may be found to be unwholesome, or of which the sale has been prohibited under clause (24) of this rule,

(h) in the case of manufacturers of aerated or other potable waters, or ice, and sellers of the same,—

(26) the sources from which water used in such manufacture shall be taken,

(27) the machinery, chemicals and ingredients which may be used in such manufacture,

(28) the measures to be taken in order to ensure the proper filtering of the water used and the cleanliness of all apparatus and receptacles used, and

(29) the attachment of labels or the adoption of other means for the purpose of identifying the factory at which each article was made,

(j) in the case of sellers of any medicines, drugs or articles of food or drink for human consumption (other than the flesh of pigs, milk, butter, bread, biscuits, cake, fruit, vegetables,

aerated or other potable waters, or ice) which are of a perishable nature,—

(30) the disposal of any articles which may be found to be unwholesome,

(k) in the case of sellers of water to be used for drinking purposes,—

(31) the sources from which such water shall be taken, and

(32) the taking of measures to ensure the cleanliness of mussucks or any other vessels or utensils used for carrying such water,

(l) in the case of washermen,—

(33) the places at which clothes may be washed, dried or kept,

(m) in the case of dealers in hay, straw, wood, charcoal or other inflammable material,—

(34) the places at which such materials may be kept,

(35) the quantity which may be stored at any one place, and the manner of storing, and

(36) the precautions against fire to be taken by the dealer or the person in charge of the business,

(n) in the case of dealers in fire-works, petroleum, kerosine oil or any other inflammable oil or spirit,—

(37) the places at which, and the quantities in which, any such article may be stored or kept for sale, and

(38) the taking of any measures which the Cantonment Authority may consider necessary for the prevention of danger to life or property,

(o) in the case of tanners and dyers,—

(39) the taking of measures for regulating the discharge of refuse matter from their premises and for abating any nuisance arising from such premises,

(p) in the case of persons carrying on any trade or occupation from which offensive or unwholesome smells arise,—

(40) the taking of any measures which the Cantonment Authority may consider necessary for the abatement of any nuisance arising from the premises.

175 The Cantonment Committee (if any) may, by bye-laws made at a meeting of which at least six clear days' notice shall have been given,—

(a) render licenses necessary for the proprietors or drivers of vehicles, boats or animals kept or plying for hire within the limits of the cantonment, and fix the fees payable for such licenses and the conditions on which they are to be granted and may be revoked; and

(b) limit the rates which may be demanded for the hire of any carriage, cart, boat or other conveyance, or of animals hired to carry loads, or for the services of persons hired to carry loads, and the loads to be carried by such conveyances, animals or persons when hired within

the cantonment for a period not exceeding twenty-four hours, or for a service which would ordinarily be performed within twenty-four hours

Provided that no bye-law made under this rule by the Cantonment Committee of a cantonment in which the Hackney Carriage Act, 1879, or Bengal Act V of 1866 (*an Act to make better provision for the regulation of hackney carriages and palankeens in the town and suburbs of Calcutta*), or the Calcutta Hackney Carriage Act, 1891, or the Madras Hackney Carriage Act, 1879, or Bombay Act VI of 1863 (*an Act for the regulation of public conveyances in the town, suburbs and harbour of Bombay*) is in force, shall apply to any vehicle to which any of those Acts applies

176. No person holding a license under rule 173 for keeping for profit
Feeding animals on filth, etc. mulch cattle or mulch goats, or pigs or any other animal which may be used for human consumption, shall allow the same—

- (a) to be fed upon refuse or any filthy or deleterious substance, or
- (b) to graze in any place in which grazing has for sanitary reasons been prohibited by public notice issued by the Cantonment Authority

177 No dairyman holding a license under rule 173 shall mix water with, or otherwise adulterate, any milk intended for sale.
Adulteration of milk

178. No butterman holding a license under rule 173 shall adulterate any butter intended for sale.
Adulteration of butter

179 No person holding a license under rule 173 shall sell any article of food or drink for human consumption which is unfit for that purpose
Selling food or drink unfit for human consumption

180 The Cantonment Authority may, by notice in writing, prohibit—
Removal of brothels or prostitutes

- (a) the keeping of a brothel, or
 - (b) the residence of a public prostitute,
- in any part of the cantonment other than the part or parts specified in the notice

181 No person known to be a public prostitute shall, under any circumstances, be permitted to reside within the limits of any regimental bazar situate in the cantonment
Exclusion of public prostitutes from regimental bazars

182 (1) If any person, holding a license under rule 173 or rule 175, commits a breach of any of the provisions of rules 174, 176, 177, 178 and 179, the Cantonment Authority may, in addition to any punishment which may be inflicted under these Rules, by order in writing, suspend the license for any period specified in such order, or withdraw the license.
Power to suspend or withdraw license

(2) No person who has obtained a license under this Chapter for carrying on a trade, call-

ing or occupation in any part of a cantonment shall carry on such trade, calling or occupation in that part while such license is suspended or after the same has been withdrawn.

CHAPTER XI.

Prevention and Treatment of Disease.

Information to be given of infectious or contagious disorder **183.** Whoever,—

- (a) being a medical practitioner and in the course of practice becoming cognizant of the existence of any infectious or contagious disorder in any dwelling, other than a public hospital or dispensary, in the cantonment or its neighbourhood, or, in default of such medical practitioner,
- (b) being the owner or occupier of such dwelling and being cognizant of the existence of any infectious or contagious disorder therein, or, in default of such owner or occupier,
- (c) being the person in charge of or in attendance on any person suffering from any infectious or contagious disorder in such dwelling and being cognizant of the existence of the disorder therein,

fails to give information or gives false information to the Cantonment Authority respecting the existence of such disorder, shall be punishable with fine which may extend to fifty rupees

Provided that a person not required to give information in the first instance, but only in default of some other person, shall not be punishable if it is shown that he had reasonable cause to suppose that the information had been, or would be, duly given.

184. (1) In the event of the cantonment being at any time visited or threatened by an outbreak of any infectious or contagious disorder among the inhabitants thereof, or of any epidemic disease among the cattle, sheep or goats therein, the General Officer of the Command, if he thinks that the provisions of these Rules or of any law at the time in force are insufficient for the purpose, may, with the previous sanction of the Local Government,—

- (a) take such special measures, and,
- (b) by public notice, prescribe such temporary regulations to be observed by the public or by any person or class of persons,

as he may deem necessary to prevent the outbreak of such disorder or disease or the spread thereof

(2) Whoever commits a breach of any temporary regulation prescribed under this rule shall be deemed to have committed an offence punishable under section 188 of the Indian Penal Code. XI

185 Whenever it is certified to the Cantonment Magistrate by a medical practitioner that the outbreak or spread of any infectious or contagious
Power to require names of dairyman's customers

disorder is, in the opinion of such medical practitioner attributable to the milk supplied by any dairyman, the Cantonment Magistrate may, by notice in writing, require the dairyman, within a period to be specified in the notice, to furnish him with a full and complete list of the names and addresses of all his customers within the cantonment, or to give him such information as will enable him to trace the persons to whom the dairyman has sold milk

186 Whenever it is certified to the Cantonment Magistrate by the Sanitary Officer that it is desirable, with a view to prevent the spread of any infectious or contagious disorder, that such Sanitary Officer should be furnished with a list of the customers of any washerman, the Cantonment Magistrate may, by notice in writing, require the washerman within a period to be specified in the notice, to furnish the Sanitary Officer with a full and complete list of the names and addresses of all owners within the cantonment of clothes and other articles for whom the washerman washes or has washed during the six weeks immediately preceding the date of the notice

187 (1) If after an inspection made under rule 241 (2) of a dairy or a place at which a washerman washes or keeps clothes or other articles in the course of his business, the Sanitary Officer is of opinion that any infectious or contagious disorder is caused, or is likely to arise, from the consumption of the milk supplied from such dairy or from the washing of soiled clothes or other articles in any such place as aforesaid or from any process employed by such washerman, he shall make a report to the Cantonment Magistrate.

(2) Upon receipt of any such report the Cantonment Magistrate may, by notice in writing,—

- (a) prohibit the person in charge of the dairy from supplying milk therefrom until the notice has been withdrawn, or
- (b) prohibit the washerman from washing soiled clothes or other articles in any such place or by any such process as aforesaid until the notice has been withdrawn or unless he uses such place in such manner or washes by such process as the Cantonment Magistrate may direct in the notice

188 The Sanitary Officer, or any medical officer of the Government appointed by him in this behalf, may take possession of any milk, clothes or other articles which are, or have recently been, in the possession of any dairyman or washerman on whom a notice under rule 185 or rule 186 has been served, and may subject the same or cause the same to be subjected to any chemical or other process which he may think necessary, and the Cantonment Authority shall pay from the Cantonment Fund all the costs of any such process and shall also pay to the owner of the milk, clothes or other articles, such sum as compensation for any loss occasioned by such process as may in the circumstances appear to it to be reasonable

Procedure where introduction of infectious or contagious disorder is attributable to milk supplied from, or to clothes, etc., washed in, a place outside the cantonment

189. (1) If the Sanitary Officer has reason to believe—

- (a) that any person is suffering from an infectious or contagious disorder attributable to—
 - (i) milk supplied within the cantonment from a dairy situated beyond the cantonment, or
 - (ii) clothes or other articles washed in a place situated beyond the cantonment, or
- (b) that the consumption of milk from any such dairy or the washing of clothes or other articles in any such place is likely to cause the introduction of an infectious or contagious disorder into the cantonment,

he shall make a report to that effect to the Cantonment Authority

(2) Upon receipt of any such report, the Cantonment Authority may, with the concurrence of the Magistrate of the district in which such dairy or such place as aforesaid is situated, move the Local Government to extend, under section 28 of the Cantonments Act 1889, such of the provisions of these Rules as relate to dairies or places used by washermen, as the case may be, to the area within which such dairy or place is situated

Obligations of person using public conveyance for carriage of infected person or corpse.

190 Every person who—

- (1) enters a public conveyance while suffering from an infectious or contagious disorder which would be likely to be communicated to other persons using the conveyance, or
- (2) uses a public conveyance for the carriage of a person who is suffering from such a disorder, or
- (3) uses a public conveyance for the carriage of the corpse of a person who has died from such a disorder,

shall be bound—

- (a) to notify to the driver the fact that such person or corpse is infected, and
- (b) to communicate to the Cantonment Magistrate the number of the conveyance and the name of the driver

191 When any person suffering, or the corpse of any person who has died, from an infectious or contagious disorder, has been carried in a public conveyance, the driver shall forthwith report the fact to the officer in charge of the nearest police-station in the cantonment, and such officer shall immediately cause the conveyance to be disinfected, if that has not already been done.

192. If the Cantonment Magistrate is, upon the advice of the Sanitary Officer, of opinion that the cleansing or disinfecting of

Disinfection of building or articles therein, or renewal of flooring

any building or part of a building, or of any articles therein likely to retain infection, or the renewal of the flooring of any building or part of a building, would tend to prevent or check the spread of any infectious or contagious disorder, he may, by notice in writing, require the owner or occupier to cleanse and disinfect the said building, part or articles, or to renew the said flooring, within a period to be specified in the notice

Provided that, where, in the opinion of the Cantonment Magistrate, the owner or occupier is from poverty or any other cause unable effectually to carry out any such requisition, the Cantonment Magistrate may, at the expense of the Cantonment Fund, cleanse or disinfect the building or part, or any articles therein likely to retain infection, or renew the said flooring.

193 If the Cantonment Authority is of opinion that the destruction of any

Destruction of infected hut or shed

hut or shed is necessary to prevent the spread of any infectious or contagious disorder, it may, by notice in writing, require the owner, within a period to be specified in the notice, to destroy the hut or shed and the materials thereof

Provided that the Cantonment Authority shall pay to the owner such sum as compensation for any loss incurred by reason of compliance with such notice as may in the circumstances appear to it to be reasonable

194 The Cantonment Authority shall provide

Temporary shelter while building is being disinfected or when infected hut is destroyed

free of charge temporary shelter or house accommodation for the members of any family in which an infectious or contagious disorder has appeared, who have been compelled to leave their dwellings, in consequence of any proceedings taken under the two last foregoing rules

195 (1) Every person who lets a building or

Disinfection of building and articles therein before letting the building

part of a building in which any person has, within the six weeks immediately preceding, been suffering from an infectious or contagious disorder, shall, before letting the building or part, disinfect the same, in such manner as the Cantonment Authority may, by public or special notice, direct, together with all articles therein liable to retain infection

(2) For the purposes of this rule the keeper of a sarai shall be deemed to let part of a building to any person who is admitted as a guest into the sarai

196 No person shall, without previous disinfection of the same, give, lend,

Disposal of infected article without disinfection.

sell, transmit or otherwise dispose of to another person any article or thing which he has reason to know has been exposed to contamination by any infectious or contagious disorder

197 The Cantonment Authority shall by public

Disposal of infectious excreta and other matter

notice, prescribe the manner in which infectious excreta and other matter shall be dealt with or disposed of

198 (1) No land shall be selected in a canton-

Cholera hospitals and camps in cantonments

ment for use as a cholera hospital or cholera camp without giving the Canton-

ment Magistrate and the Sanitary Officer an opportunity of stating their opinions upon the proposed selection

(2) Whenever any land in a cantonment is used as aforesaid, it shall be ploughed up as soon as practicable after it has ceased to be put to such use

199 (1) The Cantonment Authority may provide or prescribe suitable

Routes for pilgrims and others

routes for the use of persons passing through the cantonment—

(a) on their way to or from fairs or places of pilgrimage or other places of public resort, or

(b) during times when an infectious or contagious disorder is prevalent,

and may, by public notice, require such persons to use such routes and no others.

(2) All routes provided or prescribed under this rule shall be clearly and sufficiently indicated by the Cantonment Authority.

200 No person shall, when suffering from

Making or selling of food, etc., or washing of cloths, by infected person

any infectious or contagious disorder,—

(a) make or offer for sale any article of food or drink for human consumption, or any medicine or drug, or

(b) take any part in the business of washing or carrying soiled clothes

201 The Cantonment Authority may, by

Power to prohibit the making, carrying or selling of cloths, bedding or other articles by infected person

notice in writing, prohibit any person, while suffering from or likely to spread any infectious or contagious disorder, from making, carrying or offering for sale, or from taking any part in the business of making, carrying or offering for sale, any article of clothing or bedding, or anything for use in the making of clothing or bedding, or any other article for personal wear or use which may be specified in the notice

202 If any cantonment is at any time visited

Power to restrict or prohibit sale of specified articles of food or drink on outbreak of infectious or contagious disorder

or threatened by an outbreak of any infectious or contagious disorder, the Cantonment Authority may, on the advice of the District Magistrate and the Sanitary Officer, by public notice, restrict in such manner, or prohibit for such period, as may be specified in the notice the sale or preparation of any article of food or drink for human consumption specified in the notice or the sale of the flesh of any description of animal specified in the notice

203 Where any person has died from any

Disposal of infected corpse

infectious or contagious disorder, the Cantonment Magistrate may, by notice in writing,—

(a) require any person having charge of the corpse—

(i) to bury, burn or otherwise dispose of the same according to the custom of the class to which the deceased belonged, forthwith, or within any period, shorter than that prescribed in rule

70 (4), which may be specified in the notice, or

(u) to convey the same to a mortuary, thereafter to be disposed of in accordance with law, or

(b) prohibit the removal of the corpse from the place where death occurred, except for the purpose of being buried, burnt or otherwise disposed of as aforesaid or of being conveyed to a mortuary.

Hospitals and Dispensaries.

Provision and maintenance of Station Followers' Hospitals or dispensaries, or aiding of other hospitals or dispensaries

204 (r) So far as the funds at its disposal permit, the Cantonment Authority may—

(a) provide and maintain, either within or without the cantonment, a hospital, to be called the "Station Followers' Hospital," or a dispensary or dispensaries, or

(b) make, upon such terms as it thinks fit to impose, a grant-in-aid to any hospital or dispensary not maintained by it, subject to the condition that the sick poor of the cantonment and any persons entitled under rule 206 shall receive medical treatment thereat.

(2) Every Station Followers' Hospital shall contain wards for the treatment of persons suffering from infectious or contagious disorders.

205. (r) The sick poor of the cantonment may receive medical treatment gratuitously at any hospital or dispensary maintained or aided under the last foregoing rule, and may be dieted gratuitously as in-patients in any such hospital

(2) Every person admitted to a ward for infectious or contagious disorders in the Station Followers' Hospital shall be treated gratuitously, and, if any such person is without means of support and either is a resident of the cantonment or was admitted to the hospital at the request or with the consent of the Cantonment Authority, he shall also be dieted gratuitously

206 Any person, whether resident in the cantonment or not, who is not, in the opinion of the Cantonment Authority, a fit object of public charity, may, upon such terms as the Cantonment Authority may think fit to impose, obtain medical treatment in any hospital or dispensary maintained or aided under rule 204

207 If the medical officer for the time being in charge of the Station Followers' Hospital is informed, upon testimony which he believes to be credible, that any person living in the cantonment is suffering from cholera, small-pox, diphtheria, or typhoid fever, he may, by notice in writing, require such person to attend at the hospital, at a time to be specified in the notice, and, if upon the attendance of any such person, whether in pursuance of such notice or otherwise, he ascertains that such person

is in fact suffering from any of the above mentioned disorders, he may require such person to remain in the hospital until he is pronounced free from such disorder, or may give such other direction in the matter as may seem to him most expedient for the purpose of preventing the spread of such disorder.

208 If any person, upon whom a notice is served, refuses or neglects to attend at the Station Followers' Hospital in compliance with such notice, he shall be deemed to be suffering from cholera, small-pox, diphtheria or typhoid fever and to have refused to attend at the hospital

209 If the medical officer for the time being in charge of the Station Followers' Hospital certifies in writing to the Commanding Officer of the cantonment that any person living in the cantonment is, or is deemed to be, suffering from cholera, small-pox, diphtheria or typhoid fever and that such person has refused, or is deemed to have refused, to attend at the hospital, or that he, having attended at the hospital, has left it while still under the influence of any of these disorders and that his continuance in the cantonment is likely to be attended with danger to the health of the other inhabitants of the cantonment or some of them, the Cantonment Magistrate may, on the application of such medical officer, order such person to remove from the cantonment within twenty-four hours and prohibit him from remaining in or re-entering it without the written permission of such medical officer

210 Save as hereinbefore provided, no person shall be required to attend at, or become a patient in, the Station Followers' Hospital, or be detained therein against his will, nor shall any person, except at his own request, be examined by the medical officer for the time being in charge of such hospital, or by any other person acting under Government authority, with a view to its being ascertained whether he is or is not suffering from any infectious or contagious disorder

211 Whoever, having under rule 209 been prohibited from remaining in or re-entering the cantonment, remains in or re-enters it without such written permission as is required by that rule, shall be punishable with imprisonment which may extend to eight days, or with fine which may extend to fifty rupees, for every breach of the said prohibition.

212 A medical officer, to be appointed in such manner as the Local Government may direct, shall be in charge of the Station Followers' Hospital or any dispensary or dispensaries maintained by the Cantonment Authority.

213 Subject to the control over the Cantonment Fund which is vested in the Local Government by section 23 of the Cantonments Act, 1889, there shall be appointed, for the XI

Station Followers' Hospital, a hospital assistant and such other subordinate establishments as the Cantonment Authority may consider necessary.

Medical supplies, etc., for Station Followers' Hospital or dispensaries **214** So far as the funds at its disposal permit, the Cantonment Authority shall—

- (a) furnish the Station Followers' Hospital or any dispensary maintained by it with all necessary drugs, instruments, apparatus, furniture and appliances, and
- (b) provide such hospital with a sufficient quantity of cots, bedding and clothing for in-patients

215. The Station Followers' Hospital or any dispensary maintained by the Cantonment Authority shall be maintained in accordance with the rules made generally or specially by the Governor General in Council or the Local Government for the conduct of hospitals and dispensaries, or in accordance with the said rules modified in such manner as the Governor General in Council or the Local Government may think proper

216 No spirituous or fermented liquor or intoxicating drug or preparation shall be introduced into the Station Followers' Hospital without the permission of the medical officer in charge.

CHAPTER XII

Mendicants, loiterers and disorderly persons. *Mendicancy*

217. No mendicant shall, in any street or public place within the limits of the cantonment, loiter or beg for alms

Loitering and importuning

218 (1) No person shall, in any street or public place within the limits of the cantonment, loiter for the purpose of prostitution or importune any person to the commission of sexual immorality

(2) Whoever commits a breach of this rule shall be punishable with fine which may extend to fifty rupees, or with imprisonment for a term which may extend to eight days

Provided that no person shall be charged with the commission of any offence punishable under this rule except on the complaint of the person importuned, or of a member of the British military police-force employed in the cantonment and specially authorized in this behalf by the Commanding Officer of the cantonment, or of an officer as defined in the Cantonments Act, 1889.

219 (1) No person shall be arrested without a warrant on a charge of having committed a breach of the last foregoing rule except—

- (a) at the request of the person importuned, or of an officer as defined in the

Cantonments Act, 1889, in whose presence the breach was committed, or

- (b) by, or at the request of, a member of the British military police-force employed in the cantonment and specially authorised in this behalf by the Commanding Officer of the cantonment, in whose presence the breach was committed.

(2) Subject to the foregoing provisions of this rule, any member of the police-force employed in the cantonment may arrest, without a warrant, any person committing, or charged with having committed, a breach of the provisions of the last foregoing rule

Provided as follows

- (i) no person shall be so arrested whose name and address are known either to the complainant or the arresting officer,
- (ii) no person shall be so arrested who consents to give his or her name and address unless there is reasonable ground for doubting the accuracy of the name or address so given, the burden of proof of which shall be on the arresting officer,
- (iii) no person so arrested shall be detained after his or her name and address have been ascertained.

(3) No person arrested under this rule shall, except under the order of a Magistrate, be detained longer than may be necessary for bringing him or her before a Magistrate

Disorderly persons

220 (1) Whenever the Cantonment Magistrate receives information that any person, whether resident in or frequenting the cantonment,—

- (a) is a disorderly person keeping or frequenting—
 - (i) a common gaming-house,
 - (ii) a disorderly drinking-shop, or
 - (iii) a disorderly house of any other description, or

(b) has been convicted more than once, either within the cantonment or elsewhere, of an offence against Chapter XVII of the Indian Penal Code or

(c) has been convicted, either within the cantonment or elsewhere, of any offence against section 156 of the Army Act, 1889 or

(d) has been ordered under the Code of Criminal Procedure, 1882, either within the cantonment or elsewhere, to execute a bond for his good behaviour,

he may make an order in writing, setting forth the substance of the information received, and issue a summons requiring such person to show cause why he should not be removed and excluded from the cantonment.

(2) Every such summons shall be accompanied by a copy of such order, and such copy shall be delivered by the officer serving the summons to the person served with the same.

(3) The Cantonment Magistrate shall, when such person appears before him, proceed to

inquire into the truth of the information upon which he has acted, and to take such further evidence as may appear necessary, and, if, upon such inquiry, it appears necessary for the maintenance of good order that such person should be removed and excluded from the cantonment, the Cantonment Magistrate shall issue a notice in writing directing him to remove from the cantonment within a period, to be specified in the notice, and prohibiting him from re-entering it without the written permission of the Commanding Officer of the cantonment, to be given on the recommendation of the Cantonment Magistrate.

221. (1) Whenever the Commanding Officer of the cantonment deems it expedient to exclude any person from the cantonment, whether with or without assigning any reason therefor, he shall send to the Cantonment Magistrate an order in writing to that effect, and the Cantonment Magistrate shall cause a copy of such order to be served on such person, and shall issue with such copy a notice in writing directing him to remove from the cantonment within a period to be specified in the notice, and prohibiting him from re-entering it without the written permission of the Commanding Officer of the cantonment.

Provided that no such order shall be made—

(a) if the only reason for making it is that such person—

(i) is disorderly, or

(ii) has been convicted of any offence against Chapter XVII of the Indian Penal Code or section 156 of the Army Act, or

(iii) has been ordered under the Code of Criminal Procedure 1882, to execute a bond for his good behaviour, or

(b) unless the Commanding Officer considers that the presence of such person in the cantonment is dangerous to good order or military discipline

(2) A copy of every such order shall forthwith be sent by the Commanding Officer to the General Officer of the Command

222 When any person has, under either of the two last foregoing rules, been directed to remove from a cantonment, and has not obtained the written permission mentioned in such rule to re-enter the cantonment, no person who has knowledge of those facts shall harbour or conceal him in the cantonment

Harbouring or concealing person ordered to remove from and prohibited from re-entering a cantonment

CHAPTER XIII

Care of animals.

Prevention of cruelty

223. No person shall, within the limits of the cantonment, ill-use, torture or cruelly beat any animal.

224. (1) Unless the General Officer of the Command concurs with the Cantonment Authority in thinking that there is some special reason to the contrary, the Cantonment Authority shall apply to the Local Government to extend the Prevention of Cruelty to Animals Act, 1890, to the cantonment.

(2) In making such application the Cantonment Authority shall, unless there is some reason to the contrary, suggest that the place appointed to be an infirmary under section 6, sub-section (2), of the said Act shall be the pound (if any) established for the cantonment under the Cattle-trespass Act, 1871.

(3) When the Prevention of Cruelty to Animals Act, 1890, has been extended to any cantonment, the provisions of the last foregoing rule shall cease to have effect therein.

Grazing.

225 Every owner, or person in charge, of an animal grazing on any land belonging to the Government in the cantonment shall be bound to keep it under proper care and control.

226 (1) If any animal is found grazing on land belonging to the Government in the cantonment without being under proper care or control, it may be seized by any servant of the Cantonment Authority and sent within twenty-four hours to the nearest pound established under section 4 of the Cattle-trespass Act, 1871.

(2) Every animal so sent to the pound shall be dealt with as if it has been impounded under the provisions of the said Act and the provisions of the said Act shall apply thereto.

(3) Every member of the police-force employed in the cantonment shall, when required, aid in preventing resistance to such seizure and rescues from persons making such seizures.

227 (1) Every person who takes delivery of any animal impounded from the pound-keeper (if any) appointed under section 6 of the Cattle-trespass Act, 1871, shall inform the pound-keeper of the name of the owner of the animal and the name of the person who had charge of the same at the time of its seizure.

(2) Whoever refuses to give the pound-keeper the information required by this rule, or wilfully gives him false information, shall be punishable with fine which may extend to fifty rupees.

CHAPTER XIV

Prevention of fire.

228. No person shall, within the limits of the cantonment,—

Collecting inflammable materials, or building matted structure, in prohibited place

(a) stack or collect dry grass, straw or any other highly inflammable material, or

- (b) build a matted structure or a cooking-place,

within one hundred yards of any public building or of any building having a thatched roof, or in any other place in which the collection or placing of highly inflammable materials may be prohibited by public notice issued by the Cantonment Authority

- 229 No person shall, without the general or special permission of the Cantonment Authority, let off rockets or fire-works of any description, send up a fire-balloon or light a bonfire.

Letting off fire works, sending up fire-balloon or lighting bonfire, without permission

special permission of the Cantonment Authority, let off rockets or fire-works of any description, send up a

- 230 No person shall set a naked light on or near any building in any street or public place in such manner as to cause danger of fire

Setting naked light on or near building

near any building in any street or public place in

Provided that this prohibition shall not extend to the use of lights with the written permission of the Cantonment Authority for the purpose of illumination on the occasion of a festival or a public or private entertainment

CHAPTER XV

Registration of births and deaths

231. (1) The Cantonment Magistrate shall maintain registers, in such forms as may be prescribed by the Local Government, of all births and deaths occurring in the cantonment.

Registers

forms as may be prescribed

- (2) No charge shall be made for the registration of any birth or death

- 232 The head of the time being of every house or family in which any birth occurs shall, within eight days after the event, report the same to the Cantonment Magistrate, together with the following particulars, namely

Report of births by head of house or family

or family in which any birth occurs shall, within

- (a) the date of the birth and the sex and the name (if any) of the child,

- (b) the name, place of residence and occupation, and the caste or religion (if any) of the father, if the person making the report is willing to furnish these particulars, and

- (c) the name and place of residence of the person making the report.

- 233 The head of the time being of every house or family in which any death occurs shall, within twenty four hours after the event, report the same to the Cantonment Magistrate, together with the following particulars, namely

Report of death by head of house or family

or family in which any death occurs shall, within

- (a) the date of the death, the sex, name, age and occupation, and the caste or religion (if any), of the deceased, the cause of death, and the place of residence of the deceased at the time of death,

- (b) the name of the father, or, if the deceased was a married woman, the name of her husband, if the person making the report is willing to furnish these particulars, and

- (c) the name and place of residence of the person making the report.

234. It shall be the duty of every medical officer of the Government to inform the Cantonment Magistrate, as soon as practicable after the event, of every birth and death occurring in the cantonment of which he may become cognizant in the exercise of his profession.

Medical officers to inform Cantonment Magistrate of births and deaths

of the Government to inform the Cantonment Magistrate, as soon as practicable after the event, of

- 235 Whoever commits a breach of rule 232 or rule 233 shall be punishable with fine which may extend to five rupees.

Penalty

CHAPTER XVI.

Appointment of agents.

236. Every owner of any building or land in the cantonment who is absent from the cantonment, shall appoint some person who resides within or near the cantonment to act as his agent for all the purposes of the Cantonments Act, 1889, and of these Rules, and shall notify such appointment to the Cantonment Magistrate.

237. Whoever fails to appoint an agent as required by the last foregoing rule shall be punishable with fine which may extend to twenty rupees, and, in case of a continuing failure, with an additional fine which may extend to five rupees for every day after the first during which such failure continues

Penalty.

required by the last foregoing rule shall be punishable

- 238 (1) When any person, by reason of his relieving the rent of immoveable property as agent or trustee, or of his being as agent or trustee, the person who would receive the rent if the property were let to a tenant, would, under these Rules, be bound to discharge any obligation imposed on the owner of the property and for the discharge of which money is required, he shall not be bound to discharge the obligation unless he has or but for his own improper act or default might have had, in his hands funds belonging to the owner sufficient for the purpose

- (2) The burden of proving the facts entitling an agent or trustee to relief under this rule shall be on him

- (3) When any agent or trustee has claimed and established his right to relief under this rule, the Cantonment Authority may, by notice in writing require him to apply to the discharge of such obligation as aforesaid the first moneys which shall come to his hands on behalf, or for the use, of the owner, and, should he fail to comply with such notice, he shall be deemed to be personally liable to discharge such obligation.

CHAPTER XVII

Inspection, entry, search and arrest.

Inspection, etc.

- 239 The General Officer of the Command, the Officer Commanding the district or the District Magistrate may enter into or on, and inspect, any building or land, if it appears to him to be necessary to do so in view to the exercise of any power conferred upon him by these Rules.

Entry and inspection by the General Officer of the Command, the Officer Commanding the district or the District Magistrate

Officer Commanding the district or the District Magistrate may enter into or on, and inspect, any building or land, if it appears to him to be necessary

240. The Cantonment Authority, by itself or by any person generally or specially authorized by it in this behalf, may—

Entry and inspection by, or by the authority of, the Cantonment Authority.

(1) enter into, or on, any building or land for the purpose of—

(a) removing any buildings or materials, or altering any building, in pursuance of a notice issued by the Cantonment Authority in accordance with the conditions of a lease executed under rule 271, or

(b) resuming any land in pursuance of a notice issued by the Local Government in accordance with the conditions of a lease executed as aforesaid, or

(c) performing any act authorized by any of the provisions of rules 97, 98 and 294 (3), or

(d) making any inspection authorized by rule 85 (1), or

(2) enter into and inspect any place which is, or may recently have been, used as a burial or burning ground, if it appears to the Cantonment Authority to be desirable to do so in order to the carrying out of any of the purposes of these Rules, or

(3) enter into, or on, and inspect, any building or land in, on, or with respect to, which the Cantonment Authority has reason to believe—

(e) that breach of any of these Rules has been committed, or

(f) that any notice issued thereunder has not been duly complied with, or

(g) that any conditions imposed thereunder have not been duly observed, or

(h) that a notice should be issued thereunder, or

(j) that any conditions should be imposed under any of the provisions of rules 114 (2), 148 (2) and 174.

241 The Sanitary Officer, by himself or by any

Entry, inspection and search by, or by the authority of, the Sanitary Officer.

medical officer of the Government specially deputed by him by an order in writing in this behalf, may—

(1) enter into or on any building or land for the purpose of inspecting any receptacles or places provided under rule 78 for the temporary deposit of offensive matter and rubbish, or

(2) enter into, and inspect, any dairy, or any place at which a washerman washes or keeps clothes or other articles in the course of his business if it appears to the Sanitary Officer to be necessary to do so in view to the prevention of the spread of any infectious or contagious disorder, or

(3) enter into or on, and inspect, any building or land in or on which the Sanitary Officer has reason to believe that there is, or has recently been, any person suffering, or the corpse of any person who has died, from an infectious or contagious disorder, and search for infected persons, corpses or articles therein or thereon, or

(4) enter into or on any building or land in or on which the Sanitary Officer has reason to be-

lieve that there is any public conveyance which has been used for the carriage of a person suffering or the corpse of a person who has died from an infectious or contagious disorder, and which has not been disinfected, or

(5) enter into or on, and inspect, any building or land in, on or with respect to which the Sanitary Officer has reason to believe—

(a) that any such nuisance as is described in rule 70 clause (4), clause (5), clause (15) or clause (16), has been committed, or

(b) that any breach of any of the provisions of rules 110, 126, 132, 150 to 154 (both inclusive), 162 176 to 179 (both inclusive) and 200 has been committed, or

(c) that any notice issued under rule 192, rule 197 or rule 201 has not been duly complied with, or

(d) that any conditions imposed under rule 148 (2) or any conditions imposed under rule 174 and affecting sanitation or hygiene, have not been duly observed, or

(e) that the Cantonment Authority should be moved—

to issue any notice under any of the following rules, that is to say, rules 80, 83, 84, 86, 87, 88, 103 (2), 105, 106, 160, 161, 163 (a), 166, 168, 170, 193 and 202, or

to take any action under rule 85 (1), or

(6) enter into and inspect any private slaughter-house, or any structure therein, for the purpose of assisting the Cantonment Magistrate in determining whether a license should be issued under rule 129, or

(7) enter on, and inspect any land which it is proposed to use as a burial or burning ground, for the purpose of ascertaining whether any such permission as is referred to in rule 148 (1) should be given, or

(8) enter into or on, and inspect any building or land for the purpose of advising the Cantonment Authority as to the conditions which should be imposed under rule 174 in any license which it is proposed to grant under rule 173, or

(9) enter into or on, and inspect, any building or land in or on which the Sanitary Officer has reason to believe that there is any animal or flesh which has been brought into the cantonment in contravention of rule 137, and search for such animal or flesh, or

(10) enter into or on, and inspect, any building or land, for the purpose of—

(f) ascertaining whether the General Officer of the Command should be moved to take any action under rule 184 (1), or

(g) advising the Cantonment Authority whether any, and, if so, what, directions should be issued under rule 93 (1) (b) or rule 93 (1) (c), or

(11) enter into or on, and inspect, any building or land with respect to which the Sanitary Officer has reason to believe that the Cantonment Authority should be moved to issue a

notice under rule 81, rule 87, rule 88 or rule 99.

242 The Cantonment Magistrate, by himself or Entry, inspection and search by, or by the authority of, the Cantonment Magistrate by any person generally or specially authorized by him in this behalf, may—

(1) enter into or on, and inspect, any building or land for the purpose of—

(a) inquiring into occupation, ownership, agency rights or any other matter required to be entered in the registers maintained under rules 278, 279 and 280, or

(b) performing the duties imposed on the Cantonment Magistrate by any of the following rules, that is to say, rules 19 (2), 72, 75 and 80 (3) (e), or

(c) determining whether a license should be issued under rule 119 or rule 129, or

(d) ascertaining whether any notice should be issued under rule 187 (2) or rule 192, or

(e) cleansing or disinfecting a building or any articles therein, or renewing flooring, in pursuance of the proviso to rule 192, or

(2) enter into or on, and inspect, any building or land in or on which the Cantonment Magistrate has reason to believe that there is the corpse of any person who has died from an infectious or contagious disorder, and search for such corpse, or

(3) enter into and inspect any building which is being used, or is intended to be used, as a theatre or place of public entertainment or resort or any structure therein, for the purpose of enquiring into and testing the safety of such building or structure, or

(4) enter into or on, and inspect, any building or land in or on which the Cantonment Magistrate has reason to believe that there is any animal or flesh which has been brought into the cantonment in contravention of rule 137, and search for such animal or flesh, or

(5) enter any building in order to enforce its surrender in pursuance of the conditions of a lease executed under rule 271.

243 The Sanitary Officer, or the Cantonment Entry into, and inspection of, markets by Sanitary Officer or Cantonment Magistrate Magistrate, may enter into any market, or any structure therein, and inspect the same or any article therein, in the performance of the duty imposed upon him by rule 117

244. If the Cantonment Authority has, under Entry by public conservancy establishments, rule 82 (1), provided for the performance by its agents of the duties usually performed by sweepers in respect of any building or land, or of any privy, drain, cesspool or other receptacle for offensive matter pertaining to any building or land, the persons employed by it to perform such duties may enter into or on the building or land for the purpose of performing their duties.

245 (1) Every entry made under any of the foregoing rules 239 to 243 Time of entry (both inclusive) shall be made between sunrise and sunset

Provided that, if in any such case the authority empowered by any of the said rules to make, or

authorize an entry considers it necessary, in the interests of the public health or safety, that entry should be made at any other time, he or it may, for reasons to be recorded in writing, make such entry, or authorize it to be made, at any reasonable time between sunset and sunrise.

(2) Any entry made under rule 244 may be made at any reasonable time.

246 When any building used as a human dwelling is entered under this Chapter, due regard shall be paid to the social and religious sentiments of the occupiers, and no apartment in the actual occupancy of a woman shall be entered under this Chapter until she has been informed that she is at liberty to withdraw and every reasonable facility has been afforded to her for withdrawing

247. Every entry and inspection made in pursuance of rule 240 (2) shall be made under such arrangements as shall ensure due regard for the religious feelings of the community concerned.

Arrest without warrant

248 (1) Any member of the police-force employed in the cantonment Arrest by police without warrant may, without a warrant, arrest any person committing in his view a breach of any rule specified in the first column of Schedule II

(2) Provided as follows

(a) no member of such police-force shall arrest any person without a warrant for committing a breach of any rule specified in Part B of the said schedule, unless—

(i) the name and address of such person are unknown to him, and

(ii) such person declines to give his name and address, or there is reason to doubt the accuracy of the name or address given by him

(b) no person arrested without a warrant under this rule shall be detained after his name and address have been correctly ascertained

(c) no person arrested under this rule shall, except under the order of a Magistrate, be detained longer than may be necessary for bringing him before a Magistrate

CHAPTER XVIII.

Service of summonses, notices, etc.

249 (1) Unless it is in these Rules in any case otherwise expressly provided, any summons, notice, requisition or other document issued thereunder may be served by being delivered to the person to whom it is addressed, or by being left at his usual place of abode or business with some adult male member or servant of his family, or, if it cannot be so served, may be posted on some conspicuous part of his usual place of abode or business.

(2) If the usual place of abode or business of the person to whom the summons, notice, requisition or document is addressed is not within the cantonment, it may be served by posting it in a registered cover addressed to his usual place of abode or business

(3) If the usual place of abode or business of the owner of any property is not known, any such summons, notice, requisition or document addressed to him as such owner may be served on the occupier.

(4) If the usual place of abode or business of the occupier of any property is not known, any such summons, notice, requisition or document addressed to him as such occupier may be served by posting it on some conspicuous part of the property.

250 The service of a summons, notice, requisition or other document as aforesaid on any agent appointed by an absentee owner shall be deemed to be service on the owner

CHAPTER XIX.

Appeals from executive orders.

251. Any person aggrieved by any of the executive orders described in the second column of Schedule III may appeal to the authority specified in that behalf in the third column of the said schedule

252 (1) No such appeal shall be admitted unless made within the period specified in that behalf in the fourth column of the said schedule

(2) The period specified in the said column as the time allowed for making an appeal shall be computed in accordance with the provisions of the Indian Limitation Act, 1877, with respect to the computation of the period of limitation thereunder.

253. (1) Every petition of appeal shall be in writing and must be accompanied by a copy of the order appealed against.

(2) Any such petition may be presented to the authority which made the order appealed against, and such authority shall be bound to forward such petition to the appellate authority, and may attach thereto any report which it may desire to make in explanation of such order

(3) If any such petition is presented direct to the appellate authority and an immediate order on the petition is not necessary, such authority may refer the petition, for report, to the authority which made the order appealed against

254. (1) Except as provided in the next following rule, the order of the appellate authority confirming setting aside or modifying an order appealed against shall be final

(2) Provided that no order shall be confirmed, set aside or modified in appeal until the appellant has had a reasonable opportunity of being heard.

255 Whenever an appeal has been presented, within the period specified in that behalf in the fourth column of Schedule III, from any order, other than an order contained in a notice issued under any of the following rules, that is to say, rules 80 (4), 80 (5), 80 (7), 81 (1), 81 (2), 87, 97, 161, 163 (a), 220 (3) and 221, all proceedings to enforce such order and all prosecutions for any breach thereof shall be held in abeyance pending the decision of the appeal, and, if such order is set aside on appeal, disobedience thereto shall not be deemed to be an offence.

256 (1) When an appeal from an order made by the Cantonment Authority has been disposed of by the District Magistrate, the Cantonment Authority, if it is dissatisfied with the decision of the District Magistrate, may, within thirty days from the date thereof, apply, through the General Officer of the Command, to the Local Government, or to such authority as the Local Government may appoint in this behalf, for a review of such decision.

(2) The provisions of this Chapter with respect to appeals shall apply, so far as may be, to every application made and every decision given under this rule.

CHAPTER XX.

Committees of Arbitration.

257. Whenever a requisition is made to the Commanding Officer of the cantonment under Condition XVIII or Condition XIX set forth in a lease executed under rule 271 in Form B in Schedule IV, within the period mentioned in such Condition, he shall forthwith proceed to convene a Committee of Arbitration—

(a) to determine the amount of monthly rent to be paid, or

(b) to determine whether any, and, if so, what, repairs are necessary, and the extent to which they are necessary.

258 (1) Whenever an application is made to the Commanding Officer of the cantonment under Condition XX or Condition XXI set forth in a lease executed under rule 271 in Form B in Schedule IV, he may, after such enquiry as he may think fit to make, proceed to convene a Committee of Arbitration—

(a) to determine whether the house has become unfit for occupation, or

(b) to determine the amount of monthly rent to be paid, or

(c) to determine whether any, and, if so, what, repairs are necessary, and the extent to which they are necessary, or

(d) otherwise to determine the question in dispute.

(2) In the exercise of the discretion vested in him by this rule, the Commanding Officer may

refuse to convene a Committee of Arbitration on the ground that the application therefor is groundless or frivolous, or for any other sufficient reason.

259. If the Cantonment Authority and the person or persons concerned are unable to agree as to the amount of any compensation payable under rule 85 (3) (1) or rule 105 (1) (c), the Commanding Officer of the cantonment shall proceed to convene a Committee of Arbitration to determine the amount payable.

260 (1) Whenever a Committee of Arbitration is to be convened, the Commanding Officer of the cantonment shall cause an order to be published in Station Orders, stating the matter to be determined

(2) The Cantonment Magistrate shall send a copy of such order to the District Magistrate and to the parties concerned, and shall, by notice in writing, require such parties to nominate members of the Committee in accordance with the following provisions.

261. (1) Every Committee of Arbitration convened in pursuance of rule 257 or rule 258 shall consist of—

(a) the District Magistrate or, if it is inconvenient for him to act on the Committee, some Magistrate, being a Justice of the Peace, appointed by him to act in his stead,

(b) a member to be nominated by the officer concerned, and

(c) a member to be nominated by the lessee

(2) Provided that,—

(i) if the said officer or lessee fails to nominate a member within seven days from the date on which he may be called upon to do so, or,

(ii) if any member who has been nominated, neglects or refuses to act, and the said officer or lessee, as the case may be, fails to nominate another member in his stead within seven days from the date on which he is called upon to do so,

the Commanding Officer of the cantonment shall forthwith appoint a member in the stead of a nominee of such officer or lessee, as the case may be.

262 (1) Every Committee of Arbitration convened in pursuance of rule 259 shall consist of—

(a) the District Magistrate or, if it is inconvenient for him to act on the Committee, some Magistrate, being a Justice of the Peace, appointed by him to act in his stead,

(b) a member to be nominated by the person or persons concerned; and

(c) a member to be nominated by the Cantonment Authority.

(2) Provided that,—

(i) if the person or persons concerned fails or fail to nominate a member within seven days from the date on which he or they is or are called upon to do so, or,

(ii) if any member nominated by such person or persons neglects or refuses to act, and such person or persons fails or fail to nominate another member in his stead within seven days from the date on which he or they is or are called upon to do so,

the Commanding Officer of the cantonment shall forthwith appoint a member in the place of such nominee

263. No person shall be nominated or appointed a member of a Committee of Arbitration unless he is personally disinterested in the matter under reference and his services are immediately available for the purposes of the Committee, and the nomination of any person who is, in the opinion of the Commanding Officer of the cantonment, personally interested in the matter under reference, or whose services are not immediately available as aforesaid, shall be deemed to constitute a failure to make a nomination within the meaning of the foregoing rules.

264 When a Committee of Arbitration has been duly constituted, the Cantonment Magistrate shall, by notice in writing, inform each of the members of the fact, and the Committee shall assemble within seven days from the service of such notice.

265 The District Magistrate or the Magistrate appointed by him to act in his stead shall be the chairman of every Committee of Arbitration

266 For the purpose of determining the amount of monthly rent to be paid for any house, every Committee of Arbitration shall estimate, as nearly as may be, the market-value of all buildings and authorized additions; and the amount of rent determined upon shall be such percentage on such market value as the Committee may consider reasonable with reference to the circumstances of the neighbourhood and the period for which the house is likely to remain vacant during the year, and shall include the taxes (if any) levied upon the land, or such proportion thereof as the Committee may find to be customarily paid for the time being in the neighbourhood by tenants

267 (1) The decision of every Committee of Arbitration shall be determined by the majority of the votes of the members present at a meeting at which the chairman attends and of which notice in writing specifying the time and place therefor has been served on each of the other members.

(2) In case of an equality of votes, the chairman shall have a second or casting vote.

(3) The decision of every Committee of Arbitration shall be final.

CHAPTER XXI.

Applications for building-sites on Government land in cantonments.

268. Every application for permission to occupy, for the purposes of a building-site, land belonging to the Government in a cantonment shall be submitted to the Cantonment Magistrate in writing, and shall contain the following particulars, namely —

- (a) the situation, area and boundaries of the land;
- (b) the materials to be used in the intended buildings,
- (c) the period after the date of occupation within which the intended buildings are to be completed, and
- (d) the purposes for which the land and the intended buildings are to be used

Documents to accompany applications

269. Every such application shall be accompanied by—

- (a) a plan, on a scale of fifty feet to the inch, showing—
 - (i) the boundaries of the land,
 - (ii) the roads or lands adjoining, and
 - (iii) all buildings intended to be erected on the land,
- (b) a ground plan and elevation of the principal building intended to be erected, showing the dimensions of the same,
- (c) a statement of the buildings intended to be erected,
- (d) an approximate statement of the intended outlay on the buildings and of the rent which it is proposed to charge for the same, if let to a tenant, and
- (e) a declaration that the applicant has read the appropriate form of lease referred to in rule 271 and undertakes, in the event of his application being sanctioned, to execute a lease in that form

270. (1) Every such application shall, if the procedure prescribed by the two last foregoing rules has been correctly observed, be referred by the Cantonment Magistrate to the Executive Engineer—

- (a) for verification of the plan referred to in clause (a) of the last foregoing rule, and
- (b) for report as to whether the land is within one thousand yards of a fortified place, whether the land is, in the opinion of the Executive Engineer, likely to be required for any public purpose, and whether there is any departmental objection to the application being sanctioned

(2) On receipt of such verification and report, the application shall be submitted to the Commanding Officer of the cantonment.

(3) Where the land is not situate in a bazar, if the Commanding Officer of the cantonment considers that its occupation in the manner proposed would not be objectionable, either as

regards the health or comfort of the troops or in any other respect, he shall attach to the application a certificate to that effect, and shall forward the application to the General Officer of the Command

Provided that, where the Commanding Officer of the cantonment does not command the district, the application shall be forwarded to the Officer Commanding the district, who shall, unless he considers that the occupation of the land in the manner proposed would be objectionable as aforesaid, forward the application to the General Officer of the Command.

(4) Where the land is situate in a bazar, and there is a Cantonment Committee, if the Commanding Officer of the cantonment considers that the occupation of the land in the manner proposed would not be objectionable as aforesaid, he shall attach to the application a certificate to that effect, and shall forward the application to the Cantonment Committee

(5) The General Officer of the Command, the Commanding Officer of the cantonment or the Cantonment Committee, as the case may be, may sanction or reject any such application, as he or it may think fit

Provided as follows.—

(i) if the land is within one thousand yards of a fortified place, or is applied for by a railway-administration, such sanction shall not be accorded without the express orders of the Governor General in Council, obtained through the Local Government

(ii) if the land is applied for by any Civil Department, or for the purpose of erecting a hospital, school or other public building, or if it is intended to set apart for occupation by civil officers the house to be erected on the land, such sanction shall not be accorded without the concurrence of the Local Government

271. (1) When an application under this Chapter is sanctioned, the applicant, before using or occupying the land or erecting any building thereon, shall duly execute a lease in one of the forms indicated in Schedule IV and subject to the conditions set forth in the annexure to such form, or in such other form as the Governor General in Council may, by notification prescribe, and shall register the lease under the law for the time being in force relating to the registration of documents

EXPLANATION—Form A in Schedule IV shall be applicable to leases of land applied for by a railway administration or Civil Department, or for the purpose of erecting a hospital, school or other public building, and to leases of land situate in a bazar

Form B shall be applicable to all other leases of land under this Chapter

(2) There shall be appended to the lease a site-plan of the land, on a scale of fifty feet to the inch, showing—

- (a) the boundaries of the land,
- (b) the roads or lands adjoining, and
- (c) all buildings authorised to be erected on the land.

(3) Such plan shall be verified by the Executive Engineer, and shall be signed,—

(i) if the land is situate in a bazar, by the Cantonment Magistrate, or,

(ii) if the land is not situate in a bazar, by the Officer Commanding the district or his principal staff officer,

and shall be indorsed with the date of its preparation, the name of the lessee, and a note specifying the period within which the buildings to be erected on the land are to be completed.

(4) Two copies of such plan, prepared at the cost of the lessee and verified by the Executive Engineer, shall be delivered by the lessee to the Cantonment Magistrate.

272. (1) The Cantonment Magistrate shall cause Record of copies of to be prepared, and shall leases and site-plans authenticate with his signature, two copies of every lease executed in pursuance of this Chapter

(2) The Cantonment Magistrate shall—

(a) record in his office one of the said copies of each such lease and one of the copies of each site-plan delivered to him by the lessee under the terms thereof, and

(b) forward the other copy of each such lease and site-plan to the head-quarters of the Command for record.

CHAPTER XXII.

Registration of immoveable property in cantonments

273. The Cantonment Authority shall maintain a general plan of the cantonment, on a scale of twenty-four inches to the mile, showing all necessary details, and distinguishing in particular—

(a) all houses (if any) which have been set apart, in accordance with the conditions of leases executed under rule 271, for occupation by civil officers, and

(b) all land (if any) which does not belong to the Government, and all houses (if any) situate thereon

274. The Cantonment Authority shall also maintain a plan, on a scale of fifty feet to the inch of each bazar in the cantonment

275. (1) Every site shall be shown on such Sites and roads to be distinguished plans under a distinguishing number, and the numbers for each bazar shall form a separate series

(2) Every street shall be shown on such plans by its name or under an alphabetical letter or under a number

276. (1) Every such plan shall on completion be dated and be authenticated by the signature of the Executive Engineer

(2) Whenever a general plan is altered, the alteration shall be explained on the plan in a memorandum dated and signed by the Executive Engineer

277. No plan relating to land in a cantonment which is in the custody of the Cantonment Authority or any public officer (other than a plan submitted with

an application under Chapter XXI) shall be destroyed without the previous sanction of the Governor General in Council.

278 The Cantonment Magistrate shall maintain a register showing, Register of Govern- ment land held by les- sees outside bazars, ment land held by lessees and not situate in a bazar (whether the sites were occupied by the lessees before or after the commencement of these Rules) and the buildings situate thereon, the following particulars, so far as they can be ascertained, namely

(1) the name of the cantonment, and the number and date of any orders declaring it to be a cantonment or defining its limits,

(2) a reference to any similar register kept before the commencement of these Rules,

(3) the date of registry of the site,

(4) the number of the site, as shown on the general plan,

(5) the dimensions of the site,

(6) the boundaries of the site,

(7) in the case of a site occupied before the commencement of these Rules, the date of the permission to occupy the site, and, in the case of a site occupied after the commencement of these Rules, the date of the lease executed by the lessee under rule 271,

(8) the name and description of the lessee at the date of registry,

(9) the name and description of the lessee's agent (if any) at the date of registry,

(10) the nature of the lessee's right—

(a) under these Rules, or

(b) under any other provision of law, including the particulars of any special right of occupancy,

(11) the estimated value of buildings on the site at the date of registry,

(12) the dates of authorities to add to buildings, and

(13) a note of changes occurring from time to time, whether—

(c) by transfer,

(d) by alterations or additions,

(e) by decisions of Committees of Arbitration,

(f) in dimensions,

(g) in value, or

(h) in agency.

EXPLANATION.—In this rule the expression "date of registry" means the date of entry in the register maintained hereunder

279. The Cantonment Magistrate shall maintain a register showing, Register of Govern- ment land held by les- sees in bazars, ment land held by lessees and situate in a bazar (whether the sites were occupied by the lessees before or after the commencement of these Rules), and the buildings situate

thereon, the following particulars, so far as they can be ascertained, namely

- (1) the name of the bazar,
- (2) a reference to any similar register kept before the commencement of these Rules,
- (3) the date of registry of the site,
- (4) the number of the site, as shown on the bazar plan,
- (5) the dimensions of the site,
- (6) the boundaries of the site,
- (7) in the case of a site occupied before the commencement of these Rules, the date of the permission to occupy the site, and, in the case of a site occupied after the commencement of these Rules, the date of the lease executed by the lessee under rule 271,
- (8) the name and description of the lessee at the date of registry,
- (9) the name and description of the lessor's agent (if any) at the date of registry,
- (10) the estimated value of buildings on the site at the date of registry, and
- (11) a note of changes occurring from time to time, whether—
 - (a) by transfer,
 - (b) by alterations or additions,
 - (c) in dimensions
 - (d) in value, or
 - (e) in agency

EXPLANATION—In this rule the expression "date of registry" means the date of entry in the register maintained hereunder

280. The Cantonment Magistrate shall maintain a register showing, in regard to all land (if any) which is private property, and the buildings situated thereon, the following particulars, so far as they can be ascertained, namely

- (1) the name of the cantonment, and the number and date of any orders declaring it to be a cantonment or defining its limits,
- (2) a reference to any similar register kept before the commencement of these Rules,
- (3) the date of registry of the site,
- (4) the number of the site as shown on the general plan,
- (5) the dimensions of the site,
- (6) the boundaries of the site,
- (7) the name and description of the owner at the date of registry,
- (8) the name and description of the owner's agent (if any) at the date of registry,
- (9) the particulars of the owner's right, namely
 - (a) reference to any acknowledgment by the Government, or
 - (b) reference to any other proof,

- (10) the estimated value of buildings on the site at the date of registry, and
- (11) a note of changes occurring from time to time, whether—
 - (c) by transfer,
 - (d) by alterations or additions,
 - (e) in dimensions,
 - (f) in value, or
 - (g) in agency.

EXPLANATION—In this rule the expression "date of registry" means the date of entry in the register maintained hereunder

281. (1) The Cantonment Magistrate shall maintain a register of transfers, in which he shall from time to time enter references to all transfers of immoveable property—

- (i) registered in his own office, where he is himself Registrar or Sub-Registrar of the cantonment, under the Indian Registration Act, 1877, or
- (ii) appearing in the copies forwarded to him by the Registrar of the district under section 32, sub-section (2), of the Cantonments Act, 1889,

as the case may be

(2) The register of transfers shall contain the following particulars, namely

- (a) a serial number for each transfer,
- (b) the date of registry,
- (c) the distinguishing number of the site, as recorded in the register maintained under rule 278, rule 279 or rule 280, as the case may be,
- (d) the name of the transferor,
- (e) the name of the transferee,
- (f) the nature of the transfer, that is to say, whether by sale, mortgage, gift, exchange or bequest,
- (g) the date of the transfer, and,
- (h) where the cantonment has been constituted a district or sub-district for the purposes of the Indian Registration Act, 1877, references to the Indexes Nos I, II and III kept in the cantonment under sections 54 and 55 of that Act

EXPLANATION—In this rule the expression "date of registry" means the date of entry in the register maintained hereunder

282. Reference, when possible, to the serial numbers in the register of transfers shall be sufficient record, in the registers maintained under rules 278, 279 and 280, respectively, of changes occurring by transfer.

283. (1) The Cantonment Authority shall, in the month of July in each year, make an inspection of the registers maintained under rules 278, 279 and 280, respectively, and shall ascertain—

- (a) whether all the changes referred to in rule 278 (13), or in rule 280 (11), which have taken place during the last preceding twelve months, have been duly noted in the appropriate register, and
- (b) whether any of the said registers are in such a condition as to require renewal.

(2) The Cantonment Authority shall give any directions which may appear to it to be necessary after making such inspection, and shall send a brief report to the Officer Commanding the district of any action taken by it under this rule.

CHAPTER XXIII

SUPPLEMENTAL.

Bye-laws.

284. The Cantonment Committee (if any) of a cantonment wholly or in part situated in a hilly tract may, at a meeting of which at least six clear days' notice shall have been given, make bye-laws for regulating or prohibiting the cutting or destroying of trees or shrubs, or the making of excavations or removal of soil or quarrying, where such regulation or prohibition appears to the Cantonment Committee to be necessary for the maintenance of a water-supply, the preservation of the soil, the prevention of land-slips or of the formation of ravines or torrents, or the protection of land against erosion or the deposit thereon of sand, gravel or stones

285. (1) In making any bye-law under rule 175 or the last foregoing rule, the Cantonment Committee may direct that a breach of it shall be punishable with fine which may extend to fifty rupees, and, when the breach is a continuing breach, with a further fine which may extend to five rupees for every day after the first during which the breach continues

(2) In lieu of or in addition to such fine, the Magistrate may require the offender to remedy the mischief so far as within his power.

286 (1) No bye-law made under rule 175 or rule 284 shall come into force until it has been confirmed by the Local Government and published for such time and in such manner as the Local Government may prescribe in this behalf

(2) The Local Government may cancel its confirmation of any such bye-law, and thereupon the same shall cease to have effect.

287. (1) The Cantonment Committee shall, before making any bye-laws under rule 175 or rule 284, publish, in such manner as may, in its opinion, be sufficient for giving information to persons interested, a draft of the proposed bye-laws, with a notice specifying a date on or after which the draft will be taken into consideration, and shall, before making such bye-laws, consider any objection or any suggestion which may be received from any person with respect to the draft before the date so specified

(2) If, on such consideration of the draft, any modification is made, the Local Government shall determine whether or not the draft shall be republished under this rule.

(3) Every such bye-law shall be notified in English and in such other language or languages as the Local Government may direct, and

such notification shall be conclusive proof that such bye-law has been duly made in accordance with the requirements of this rule.

Delegation of functions.

288. (1) With the previous sanction of the Governor General in Council, the Local Government may, by order published in the official Gazette, authorize any person mentioned in such order to discharge any of the functions imposed by these Rules on the Cantonment Magistrate, except those imposed by Chapter XXI

Provided as follows

- (a) a person so authorized shall discharge such of the said functions only as the Cantonment Magistrate may, by order in writing, assign to him, and
- (b) the Cantonment Magistrate may, by a like order, resume any functions which he may have assigned to such person.

(2) In the discharge of any functions so assigned to him, such person as aforesaid shall, under the control of the Cantonment Magistrate, have the same powers and responsibilities as the Cantonment Magistrate

289 With the previous sanction of the Governor General in Council, the General Officer of the Command may, by notification in Command Orders, delegate any of his functions under these Rules to any officer named in such notification, and may, in like manner, vary or rescind any such notification

290 (1) The Cantonment Committee (if any) may, by order in writing, entrust any of its duties to a Sub-committee consisting of any two or more of the members of the Cantonment Committee

(2) Every order passed by any such Sub-committee shall have the same effect as an order of the Cantonment Committee

Provided that the Cantonment Committee may, in any particular case, require that any such order shall be submitted to it for confirmation before issue

Notices.

291 (1) When any notice under these Rules requires any act to be done by which no time is fixed by such rule, it shall fix a reasonable time for doing the same

Provided that it shall rest with the Magistrate to determine whether the time so fixed was a reasonable time within the meaning of this rule.

(2) Whenever it is provided by any such rule as aforesaid that any such notice may be given to the owner, lessee or occupier of any land or building and the owner or lessee and the occupier are different persons, such notice shall be given to the one of them primarily liable to comply with such notice, and in case of doubt to both of them.

Provided that in any such case, where there is no owner or lessee resident within the cantonment, the delivery of such notice to the occupier shall be sufficient.

292. Every notice issued by the Cantonment Authority under these Rules shall be signed—
Authentication and validity of notices issued by Cantonment Authority

- (a) by the President or Secretary of the Cantonment Committee (if any), or
- (b) by the members of any Sub-committee specially authorized by the Cantonment Committee (if any) in that behalf, or
- (c) if a Cantonment Committee has not been constituted or has ceased to exist or cannot be convened, by the Commanding Officer of the cantonment

293 (1) Unless it is in these Rules in any case otherwise expressly provided, every public notice issued thereunder shall be published by proclamation or in such other manner as the Local Government may direct.
Publication of public notices

(2) Proclamation shall be by such method as the authority issuing the notice, or the Cantonment Magistrate, may deem to be the customary method.

Penalties and Prosecutions.

294. (1) Whoever, in any case not otherwise provided for, commits a breach of any of the provisions of these Rules shall be punishable with imprisonment which may extend to eight days, or with fine which may extend to fifty rupees.
Penalties

(2) In lieu of, or in addition to, any fine imposed under these Rules, the Court may require the offender to remedy, so far as it lies within his power to do so, any mischief in respect of which such fine is imposed.

(3) If any person, required by any notice issued by the Cantonment Authority under these Rules to perform any act, fails to perform such act, the Cantonment Authority may cause the act to be performed and recover the cost from him.

295 No Court shall take cognizance of any offence punishable under these Rules except on the complaint of the Cantonment Authority or of some person authorized by the Cantonment Authority in this behalf.
Authority for prosecutions

EXPLANATION—The Cantonment Authority may authorize persons to prosecute either generally in regard to all offences against these Rules or particularly in regard only to specified offences or offences of a specified class. The person authorized may be authorized by office, if he is President or Secretary of the Cantonment Committee. In other cases the authority shall be personal. The authority shall in all cases be in writing and may at any time be cancelled by the Cantonment Authority.

296 No person shall be liable to punishment for any offence punishable under these Rules, unless complaint of such offence is made before a Magistrate having jurisdiction to entertain such complaint within three months after the commission of such offence.
Limitation of prosecutions

297 In any case in which a Magistrate is satisfied that the Cantonment Authority had no reasonable ground for instituting a prosecution under these Rules, he may direct the Cantonment Authority to pay to the accused such compensation, not exceeding fifty rupees, as he may think fit, and the sum so awarded shall be recoverable as if it were a fine.
Compensation for groundless prosecution

Miscellaneous.

298. The Cantonment Authority shall maintain such standards as it may deem requisite for the purpose of verifying weights and measures, and shall provide proper means—
Verification of weights and measures

- (a) for verifying weights and measures in use in the cantonment, by comparison with the said standards, and
- (b) for stamping weights and measures so verified, and may, by public notice, fix the times and places at which a servant of the Cantonment Authority shall attend for the purpose of such verification

299. (1) The Cantonment Authority, in any case not otherwise provided for, may make compensation out of the Cantonment Fund to any person sustaining any damage by reason of the exercise of any of the powers vested in the Cantonment Authority, its officers and servants, by these Rules, and shall make such compensation if the person sustaining the damage was not himself in default in the matter in respect of which the power was exercised.
Compensation for damage resulting from exercise of powers under these Rules

(2) Should any dispute arise touching the amount of any compensation which the Cantonment Authority is required as aforesaid to pay for injury to any building or land, the matter shall be referred to, and decided by, a Committee of Arbitration constituted under Chapter XX.

300 Any power conferred by these Rules on the General Officer of the Command, the Officer Commanding the district, the Cantonment Authority, the Sanitary Officer or the Cantonment Magistrate may be exercised from time to time as occasion requires.
Powers to be exercisable from time to time

301 When a notification under the Cantonments Act, 1889, or under these Rules has been published at length in the official Gazette or in Command Orders, it shall be sufficient in any subsequent notification to the same effect in such Gazette or Orders to refer to the number, date and subject of the previous notification.
Method of framing notifications

302 No notice, order, requisition, license, written permission or other such document issued under these Rules shall be invalid for defect of form.
Validity of notices and other documents

303 No act done or proceeding taken under these Rules shall be questioned on the ground merely of the existence of any vacancy in the Cantonment Committee (if any) or in any Sub-committee, or on account of any defect or irregularity not affecting the merits of the case.
Vacancies and irregularities not to invalidate proceedings

304. (1) A copy of these Rules and of any bye-laws made under rule 175 or rule 284 shall be kept at the Cantonment Authority's office, and shall be open during office hours to the inspection free of charge, of any inhabitant of the cantonment.
 (2) Copies of the said Rules, including any such bye-laws as aforesaid, shall be kept at the Cantonment Authority's office for sale to the public.
Rules and bye-laws to be available for inspection and purchase

on behalf of the General Officer of the _____ Command,
said Command (*or, if the _____ and is*
situate in a bazar, the Cantonment
Authority of _____),
acting in the premises for and on
behalf of the Secretary of State for
India in Council, in the presence of _____

Signed, sealed and delivered by the
above-named _____,

in the presence of

NOTE—Copies of this form, with the Annexure, will be obtainable gratis on application to the Cantonment Magistrate.

ANNEXURE TO FORM A.

CONDITIONS.

CONDITION 1—The buildings to be erected on the land in accordance with the site-plan appended to the lease shall be commenced within six months from the execution of the lease, and shall be completed within the period specified in the note indorsed on such plan, or within such further period (if any) as the authority which sanctioned the application under Chapter XXI of the Cantonment Rules, 1897, may, by order in writing, allow.

CONDITION II—(1) Buildings may be erected on the land only in accordance with the site-plan appended to the lease or, where a proposed building, alteration or addition is not in accordance with such plan, with the written permission of the authority which sanctioned the application under Chapter XXI of the Cantonment Rules, 1897.

(2) Any such permission may be made subject to any conditions which may be agreed upon between such authority and the Lessee.

CONDITION III — The land shall not be used for any purposes other than those specified in the Lessee's application under rule 268 (d) of the Cantonment Rules, 1897 nor shall the buildings erected on the land be permitted to fall into such a state of ruin as absolutely to prevent their being used for the purposes so specified

CONDITION IV. (1) Whenever the Lessee intends to transfer, by sale, gift, mortgage or exchange, his interest in the land, or in the buildings erected on the land, or in any part of the land or buildings, he or the intended transferee shall give the Cantonment Magistrate one month's notice in writing before the transfer is completed.

(2) The General Officer of the Command shall have power, within the said period of one month and with the concurrence of the Local Government, to impose, by order in writing, his veto on any such transfer, and, if in any case the Cantonment Authority considers it desirable that the said power of veto should be exercised, it shall report the case to such General Officer without delay.

(3) If notice of any such transfer is not given as aforesaid, or if any such transfer is made after the same has been vetoed, the transfer shall be void.

CONDITION V.—Every person on whom the Report of devolution Lessee's interest in the of Lessee's interest land, or in the buildings, erected on the land, may devolve by transfer, by succession or by operation of law, shall send to the Cantonment Authority, within one month from the date of such devolution, a report in writing of the fact, together with such particulars as may be required by that Authority, for entry in the register maintained under rule 278 or 279, as case may be, of the Cantonment Rules, 1897.

CONDITION VI—(1) If the Lessee does not commence or complete, as required by Condition I, the buildings to be erected on the land, the Cantonment Authority may, by notice in writing, require him to remove all or any buildings or materials which he may have erected or collected thereon, and, if he fails to comply with such notice, the Cantonment Authority may, after giving him six hours' further notice in writing, cause such removal to be effected and recover the cost from him, and may also cancel the lease.

(2) If the Lessee erects any building or makes any alteration or addition otherwise than as allowed by or under Condition II, the Cantonment Authority may, by notice in writing, require him to remove the building or to alter the same to its satisfaction, and, if he fails to comply with such notice, the Cantonment Authority may, after giving him six hours' further notice in writing, cause such removal or alteration to be effected and recover the cost from him.

CONDITION VII.—(1) So long as the Lessee, his heirs, executors, administrators or assigns, shall duly observe the conditions hereinbefore specified, and on his part to be observed, he or they may, subject to Condition IX, hold the land without interruption.

(2) If the Lessee, his heirs, executors, administrators or assigns, shall break any of the conditions hereinbefore specified, other than Condition I or Condition II, and on his or their part to be observed, the Local Government may, after giving one month's notice in writing, resume the land or any portion thereof, and may, on such resumption, declare all or any part of the right and interest of the Lessee, his heirs, executors, administrators or assigns, in the buildings erected on the land to be forfeited.

CONDITION VIII.—The Lessee, his heirs, executors, administrators or assigns, shall not be entitled to compensation for any loss incurred by reason of anything done in pursuance of Condition VI or Condition VII, clause (2).

CONDITION IX—The Local Government may resume the land or any portion thereof at any time, after giving one month's notice in writing, and on payment of compensation for such buildings standing on the land or portion as shall have been erected under proper authority.

FORM B.

FORM OF LEASE TO BE EXECUTED IN ALL CASES OTHER THAN THOSE FOR WHICH FORM A ABOVE IS PRESCRIBED.

THIS INDENTURE, made the _____ day of _____, BETWEEN THE SECRETARY OF STATE FOR INDIA IN COUNCIL (hereinafter called the Secretary of State), of the one part, and _____ son of _____ of _____ (hereinafter called the Lessee) of the other part.

WHEREAS the Lessee has applied for permission to occupy, for the purposes of a building-site, the land belonging to the Government in the _____ Cantonment which is delineated in the site-plan hereto appended, and has submitted with his application the particulars and documents required by rules 268 and 269 of the Cantonment Rules, 1897.

AND WHEREAS the said application has received the sanction of the General Officer of the _____ Command,

NOW THIS INDENTURE WITNESSETH as follows

1. The Secretary of State doth hereby grant unto the Lessee liberty and license to enter into and upon the piece or parcel of land delineated in the site-plan hereto appended, and henceforth to occupy and enjoy the same as a site for the erection of buildings, subject to the conditions set forth in the Annexure hereto.

2. The Lessee doth hereby, for himself, his heirs, executors and administrators, covenant with the Secretary of State, his successors and assigns, that the Lessee, his heirs, executors, administrators and assigns, shall and will duly observe all and every the conditions hereinbefore referred to and on his and their part to be observed.

In witness whereof the said parties hereto have hereunto set their hands and seals the day and year first above written

Signed, sealed and delivered by

_____, Principal Staff Officer of the _____ Command, on behalf of the General Officer of the said Command acting in the premises for and on behalf of the Secretary of State for India in Council, in the presence of

Seal

Signed, sealed and delivered by the above-named _____, in the presence of _____

Seal

NOTE—Copies of this form, with the Annexure, will be obtainable gratis on application to the Cantonment Magistrate

ANNEXURE TO FORM B.

CONDITIONS.

In these Conditions—

(a) "house" means the house erected on the land occupied by the Lessee, and includes the land and buildings appurtenant to the house, and, if any question arises whether any land or building is appurtenant to the house, it shall be decided by the Cantonment Magistrate, whose decision thereon shall, subject to revision by the District Magistrate, be final

(b) the expression "repairs" to a house shall be deemed to include such repairs as are usually made in the neighbourhood to buildings of the same class as that to which the house belongs, but does not include additions, improvements or alterations except in so far as they are necessary to carry out such repairs as aforesaid or have been made with the Lessee's consent:

- (c) "military officer" means a commissioned or warrant officer of the army on military duty in the cantonment, and includes a chaplain, a Cantonment Magistrate and any person in Army departmental employment whom the General Officer of the Command may for the purposes of these Conditions place on the same footing as a military officer and
- (d) "civil officer" means a gazetted civil officer of the Government, and includes any other person in the service of the Government, not being a military officer, whom the Local Government may for the purposes of these Conditions place on the same footing as a civil officer.

CONDITION I.—The buildings to be erected on the land in accordance with the site-plan appended to the lease shall be commenced within six months from the execution of the lease, and shall be completed within the period specified in the note indorsed on such plan, or within such further period (if any) as the authority which sanctioned the application under Chapter XXI of the Cantonment Rules, 1897, may, by order in writing, allow.

CONDITION II.—(1) Buildings may be erected on the land only in accordance with the site-plan appended to the lease or, where a proposed building, alteration or addition is not in accordance with such plan, with the written permission of the authority which sanctioned the application under Chapter XXI of the Cantonment Rules, 1897.

(2) Any such permission may be given subject to any conditions which may be agreed upon between such Authority and the Lessee.

CONDITION III.—The land shall not be used for any purpose other than those specified in the Lessee's application under rule 268 (d) of the Cantonment Rules, 1897, nor shall the buildings erected on the land be permitted to fall into such a state of ruin as absolutely to prevent their being used for the purposes so specified.

CONDITION IV.—(1) Whenever the Lessee intends to transfer, by sale, gift, mortgage or exchange, his interest in the land, or in the buildings erected on the land, or in any part of the land or buildings, he or the intended transferee shall give the Cantonment Magistrate one month's notice in writing before the transfer is completed.

(2) The General Officer of the Command shall have power, within the said period of one month, and with the concurrence of the Local Government, to impose, by order in writing, his veto on any such transfer, and, if in any case the Cantonment Authority considers it desirable that the said power of veto should be exercised, it shall report the case to such General Officer without delay.

(3) If notice of any such transfer is not given as aforesaid, or if any such transfer is made after the same has been vetoed, the transfer shall be void.

CONDITION V.—Every person on whom the Lessee's interest in the land, or in the buildings

erected on the land, may devolve, by transfer, by succession or by operation of law, shall send to the Cantonment Authority, within one month from the date of such devolution, a report in writing of the fact, together with such particulars as may be required by that Authority for entry in the register maintained under rule 278 or rule 279, as the case may be, of the Cantonment Rules, 1897.

CONDITION VI.—The Government reserves a right, subject to the Conditions hereinafter contained, to appropriate the house at any time for occupation by any military officer or civil officer.

CONDITION VII.—If the Lessee lets the house to any person other than a military officer or (if the house has been set apart in accordance with Condition X for occupation by civil officers) a civil officer, possession of the house shall not be given until—

- (a) such person has executed a stamped agreement undertaking to vacate the house whenever required so to do in pursuance of a notice issued under Condition VIII or Condition X, and has registered such agreement under the law for the time being in force relating to the registration of documents, and
- (b) the Lessee has forwarded an attested copy of such agreement to the Cantonment Authority.

CONDITION VIII.—Whenever the Cantonment Authority considers that the right reserved by Condition VI should be exercised in behalf of any military officer, it may, if the house is not already occupied by a military officer, and if it has not been set apart in accordance with Condition X for occupation by civil officers, by notice in writing—

- (a) require the Lessee to let the house to the military officer named in the notice, and
- (b) require the existing tenant (if any) to vacate the same.

CONDITION IX.—If the house is occupied by a departmental military officer and the Cantonment Authority considers that the right reserved by Condition VI should be exercised in behalf of a regimental officer, or *vice versa*, it may, by notice in writing, require the officer in occupation to vacate the house, and may, if necessary, by further notice in writing, require the Lessee to accept the change of tenancy.

CONDITION X.—(1) The Cantonment Authority may at any time, with the previous sanction of the General Officer of the Command, given with the concurrence of the Local Government, set apart the house for occupation by civil officers.

(2) If the house has been so set apart, the arrangement shall not be revoked without the concurrence of the Local Government.

(3) If, while the house is so set apart, the Cantonment Authority at any time considers that

the right reserved by Condition VI should be exercised in behalf of any civil officer, it may, if the house is not already occupied by a civil officer, by notice in writing,—

- (a) require the Lessee to let the house to the civil officer named in the notice, and
- (b) require the existing tenant (if any) to vacate the same

CONDITION XI—(1) Whenever a military officer or a civil officer considers that a notice should be issued in his behalf under Condition VIII, Condition IX or Condition X, he may request the Commanding Officer of his regiment, or (in the case of a departmental military officer) the local head of his department, or (in the case of a civil officer) the District Magistrate, to make an application to that effect to the Cantonment Authority

(2) On receipt of any such application the Cantonment Authority shall inquire into the case, and it shall not issue the notice unless it is satisfied—

- (a) that the officer ought to reside in the cantonment, and
- (b) that the circumstances are such as to require its intervention, and
- (c) that the rent offered by the officer for the house is reasonable, and,
- (d) if the house is vacant, that it is suitable for the residence of the officer, and,
- (e) if the house is occupied, that it is suitable for the residence of the officer, and that there is no vacant house in the cantonment which is suitable for his residence

EXPLANATION—In considering whether a house is suitable for the residence of an officer, regard shall be had to (i) the locality in which his duties chiefly lie and (ii) his rank

CONDITION XII—(1) The house shall not be occupied for the purposes of a bank, hotel, shop or school, or by a railway administration, without the previous sanction of the General Officer of the Command, given with the concurrence of the Local Government

(2) Before application is made for such sanction, the Commanding Officer of the cantonment shall certify whether or not in his opinion the number of houses in the cantonment, as compared with the strength of the existing or probable garrison, renders it likely that such occupation as aforesaid would—

- (a) cause any difficulty in obtaining accommodation in the cantonment, or in the part of the cantonment in which the house is situate, for military officers or civil officers, or
- (b) necessitate the acquisition of land at some future time for the extension of the cantonment

CONDITION XIII—No notice shall be issued under Condition VIII or Condition X if the house—

House not to be appropriated for military or civil officer if it is occupied, with sanction, as a bank, hotel, shop or school, or by a railway administration, or is otherwise appropriated by the Government

- (a) is occupied, with the sanction required by Condition XII, as a bank, hotel, shop or school, and has been so occupied continuously during the three years immediately preceding the time when the

- occasion for issuing the notice arises, or
- (b) is occupied, with the sanction aforesaid, by a railway administration, or
- (c) is appropriated by the Local Government, with the concurrence of the General Officer of the Command, or by the Governor General in Council for use as a public office or for any other purpose.

CONDITION XIV—Every notice to the Lessee issued under Condition VIII, Condition IX or Condition X, shall state the amount of monthly rent which the proposed tenant offers to pay for the house

CONDITION XV—(1) If the house is unoccupied, any notice issued under Condition VIII or Condition X may require the Lessee to give possession of the same to the proposed tenant within four days from the service of the notice

(2) If the house is occupied, no such notice as aforesaid shall require its vacation in less than thirty days from the service of the notice

CONDITION XVI—(1) Subject to the terms of any agreement in writing between the Lessee and a military officer or a civil officer, and to the terms of this condition, every lease of the house to such an officer shall be deemed to be a lease from month to month, terminable—

- (a) without notice, in the case of the departure of the officer from the cantonment on duty or under medical certificate, or in the case of a Committee of Arbitration deciding that the house has become unfit for occupation, or
- (b) by one month's notice in writing to the Lessee in any other case

(2) A notice under clause (1) of this condition must be signed by or on behalf of the officer concerned, and the Cantonment Magistrate shall, if the officer so desires, cause it to be served on the Lessee free of charge

(3) When a military officer or a civil officer has, in pursuance of clause (1) of this condition, given up his occupation of the house without notice, and has occupied the house during a portion only of the calendar month in which his occupation ceased, he shall be liable to pay as rent for that portion a sum bearing the same proportion to the monthly rent as the said portion bears to the whole month

Provided that the sum shall not in any case, be less than one-fourth of the monthly rent

CONDITION XVII—If any tenant of the house, being a military officer or a civil officer, sub-lets the same without the consent of the Lessee, the sub-lease shall be voidable at the option of the Lessee

CONDITION XVIII—(1) If the Lessee considers that any rent offered by a proposed tenant and stated in a notice in accordance with Condition XIV is insufficient he may, within a period of fifteen days from the service of such notice, require that the matter be referred by the Commanding Officer of the cantonment to a Committee of Arbitration.

(2) If the Lessee does not make such a requisition within the said period, he shall be deemed to have accepted the rent so offered.

(3) After such acceptance, or the decision of a Committee of Arbitration, the amount of such rent shall not be called in question by either party, except in the circumstances mentioned in clause (a) of Condition XXI.

CONDITION XIX—(1) If the Lessee fails to execute any repairs to the house which any tenant, being a military or civil officer, may consider necessary, the Cantonment Authority may, at the request of the tenant, and if it is satisfied that such repairs or any of them are necessary, by notice in writing, require the Lessee to execute such repairs, or such of them as it may consider necessary, within a period, not less than fifteen days, to be specified in the notice.

(2) If the Lessee objects to comply with any notice issued under clause (1) of this condition, he may, within fifteen days from the service of the notice require that the matter be referred by the Commanding Officer of the cantonment to a Committee of Arbitration.

CONDITION XX—If any tenant of the house, being a military or civil officer, considers that his lease should be terminable without notice in consequence of the house having become unfit for occupation, he may apply to the Commanding Officer of the cantonment to refer the matter to a Committee of Arbitration.

CONDITION XXI—If the Lessee and any tenant of the house, being a military or civil officer, disagree—

- (a) as to any change in the rent of the house which is proposed in consequence of dilapidations or additions to buildings or for any other similar reason, or
- (b) on any matter relating to rent or repairs, other than a matter referred to in clause (a) of this condition or in Condition XVIII, Condition XIX or Condition XX,

either the Lessee or the tenant may apply to the Commanding Officer of the cantonment to refer the matter to a Committee of Arbitration.

CONDITION XXII—Whenever any matter is referred to a Committee of Arbitration in pursuance of Condition XVIII, Condition XIX, Condition XX or Condition XXI, the Committee shall be constituted as provided in Chapter XX of the Cantonment Rules, 1897, and the Lessee and his tenant shall be bound by the decision of the Committee.

CONDITION XXIII—If the Lessee fails to comply with any notice issued under clause (1) of Condition XIX, and has not, within fifteen days from the service of such notice, required that the matter be referred to a Committee of Arbitration, or,

if any Committee of Arbitration constituted under Chapter XX of the Cantonment Rules,

1897, decides that repairs are necessary and the extent to which they are necessary, and the Lessee fails to execute such repairs within a period to be specified in a notice issued by the Cantonment Authority in that behalf,

the tenant of the house may himself cause the repairs specified in the notice to be executed at rates not exceeding those paid in the cantonment by the Military Works Department or the Public Works Department, and may deduct the cost thereof from the rent, or otherwise recover it from the Lessee.

CONDITION XXIV—(1) If the Lessee does not commence or complete, as required by Condition I, the buildings to be erected on the land, the Cantonment Authority may, by notice in writing, require him to remove all or any buildings or materials which he may have erected or collected thereon, and, if he fails to comply with such notice, the Cantonment Authority may, after giving him six hours' further notice in writing, cause such removal to be effected and recover the cost from him, and may also cancel the lease.

(2) If the Lessee erects any building or makes any alteration or addition otherwise than as allowed by or under Condition II the Cantonment Authority may, by notice in writing, require him to remove the building or to alter the same to its satisfaction, and, if he fails to comply with such notice, the Cantonment Authority may, after giving him six hours' further notice in writing, cause such removal or alteration to be effected and recover the cost from him.

CONDITION XXV—(1) So long as the Lessee, his heirs, executors, administrators or assigns, shall duly observe the conditions hereinbefore specified and on his or their part to be observed, he or they may, subject to Condition XXVII, hold the land without interruption.

(2) If the Lessee, his heirs, executors, administrators or assigns shall break any of the conditions hereinbefore specified, other than Condition I or Condition II, and on his or their part to be observed, the Local Government may, after giving one month's notice in writing, resume the land or any portion thereof, and may, on such resumption, declare all or any part of the right and interest of the Lessee, his heirs, executors, administrators and assigns, in the buildings erected on the land to be forfeited.

CONDITION XXVI—The Lessee, his heirs, executors, administrators and assigns, shall not be entitled to compensation for any loss incurred by reason of anything done in pursuance of Condition XXIV or Condition XXV, clause (2).

CONDITION XXVII—The Local Government may resume the land or any portion thereof at any time after giving one month's notice in writing, and on payment of compensation for such buildings standing on the land or portion as shall have been erected under proper authority.

No. 6635A.—The 15th December 1896—Mr. F. R. Roe, Officiating Joint-Magistrate, Champaran, is vested, under section 407 of the Code of Criminal Procedure, with power to hear appeals from convictions by Magistrates of the second and third classes, and with powers under sections 110, 133, 143, 144, 174, 186, 191 and 524 of the same Code.

No. 6641A.—The 15th December 1896—Mr. W. Maxwell, substantive *pro tempore* Joint-Magistrate, Nadia, is vested, under section 407 of the Code of Criminal Procedure, with power to hear appeals from convictions by Magistrates of the second and third classes.

No. 6643A.—The 15th December 1896—Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers Mr. Sakawat Hossein, Deputy Magistrate, Shahabad, to take down evidence in criminal cases in the English language.

GRANT OF LEAVE TO MUNSIFS.—*No. 6613A.—The 7th December 1896*—Babu Kunja Behary Gupta, Munsif of Nabinagar, in the district of Tippera, is allowed leave for fifteen days, viz., ten days under article 309 of the Civil Service Regulations, and the remaining period under article 306 (b) of the same Regulations, with effect from the date on which he availed himself of it.

The 7th December 1896.—Babu Bimala Charan Majumdar, Munsif of Khulna, in the district of Jessore, is allowed leave for one month, viz., five days under article 309 of the Civil Service Regulations, and the remaining period under article 306 (b) of the same Regulations, with effect from the 18th November 1896.

No. 6614A.—The 10th December 1896.—Babu Bihari Lal Banerjee, Munsif of Suri, in the district of Birbhum, is allowed leave for two months, under article 369 of the Civil Service Regulations, with effect from the 14th November 1896.

No. 6615A.—The 12th December 1896—Babu Nikunja Behari Roy, Munsif of Cox's Bazar, in the district of Chittagong, is allowed leave for nine days, under article 306 (b) of the Civil Service Regulations, in extension of that granted to him on the 22nd September 1896.

No. 6003J.—The 9th December 1896.—The undermentioned gentlemen are appointed to be Honorary Magistrates of the Independent Bench at Samastipur, in the district of Darbhanga, and are vested with the powers of a Magistrate of the 3rd class:—

Mr Arthur Hume.

Maulavi Shah Mohamad Basit.

No. 6090J.—The 14th December 1896—Babu Benode Behary Mullick is appointed, under section 18 of the Code of Criminal Procedure, to be a Presidency Magistrate for the town of Calcutta.

No. 6117J.—The 14th December 1896.—Babu Gajendra Nath Maity is appointed to be an Honorary Magistrate of the Independent Bench at Contai, in the district of Midnapore, and is vested with the powers of a Magistrate of the third class.

No. 6118J.—The 15th December 1896—The Lieutenant-Governor accepts the resignation tendered by Mr W. M. Donald of his appointment as an Honorary Magistrate of the Manikganj Independent Bench, in the district of Dacca.

No. 6120J.—The 15th December 1896.—Under the authority vested in him by the final clause of section 357 of the Code of Criminal Procedure, Act X of 1882, the Lieutenant-Governor empowers Babu Gopal Lal, an Honorary Magistrate of the Araria Independent Bench, in the district of Purnea, to take down evidence in criminal cases in the English language.

C. W. BOLTON,

Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 6056J.

The 11th December 1896.—In exercise of the power conferred by section 3 of the Scheduled Districts Act (XIV of 1874), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor of Bengal is pleased to declare that the Indian Explosives Act (IV of 1884) is in force in the districts of Hazaribagh, Lohardaga, Palamau and Manbhum, and in pargana Dhalbhum and the Kolhan, in the Singhbhum district, of the Chota Nagpur Division.

C. W. BOLTON,

Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No 6113J.

The 15th December 1896.—Under the provisions of section 75 of the Presidency Small Cause Courts Act, 1882, (as modified by subsequent Acts), the Lieutenant-Governor is pleased to vary the amount of the institution fees payable under section 71 (a) of that Act as follows —

When the amount or value of the subject-matter does not exceed five hundred rupees, the sum of annas $1\frac{1}{2}$ in the rupee on such amount or value

This notification shall take effect from the 1st day of January 1897.

C. W. BOLTON.

Chief Secy. to the Govt. of Bengal.

DECLARATION—No. 6054I

The 9th December 1896.—Whereas it appears to the Lieutenant Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz, for the construction of a police-station at Kalna in Banagidanga in the town of Kalna, pargana Ambica, zilla Burdwan, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 bighas 10 cottahs of standard measurement (corresponding to 3 roods 12 23 poles), bounded on the north by the Municipal road to the cutcherri, on the east by a line from the cutcherri road westwards, on the south by the land belonging to Satis Chandra Bhattacharjee and others, and on the west by the drain which divides Jagannath Bari from this land, is required within the aforesaid town of Kalna

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern

A plan of the land may be inspected in the office of the Collector of Burdwan.

C. W. BOLTON,

Chief Secy to the Govt. of Bengal

PROCLAMATION—No 6122J.

The 16th December 1896—Under section 15 of Act V of 1861 (as amended by Act VIII of 1895), the Lieutenant-Governor declares that the conduct of the inhabitants of the villages of Gonnogohali, Katal Baria and Paikpara in the jurisdiction of the Puthia police-station, and the villages of Simla, Palashi Furehpur, and Mungli in the jurisdiction of the Charghat police-station, in the district of Rajshahi, has rendered it expedient to increase the number of the police-force by the appointment of an additional force to be quartered therein at the cost of the inhabitants of the said villages. This proclamation shall remain in force for a period of six months from this date

C. W. BOLTON,

Chief Secy to the Govt. of Bengal.

LOCAL COMMUNICATIONS.

The 15th December 1896.

No. 250.—*Declaration*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz, for the construction of a road from Jhalakati to Kirtipasha, running from south-east to north-west through the villages of Urua Jhalakati, Pirtala, Ramnagar, Bagmara, Nehalpur, Govindadhabal and Tarpasha in police-station Jhalakati, pargana Silmahad, zilla Backergunge, it is hereby declared that for the above purpose a piece of land measuring more or less, 84 bighas 16 cottahs $1\frac{1}{2}$ chitaks of standard measurement, 15,600 feet in length and 80 feet in breadth, together with a plot of land measuring 12 cottahs $3\frac{1}{2}$ chitaks of standard measurement, and 110 feet in length and 80 feet in breadth, situated to the east of the south-eastern extremity of the road, is required within the aforesaid villages of Urua Jhalakati, Pirtala, Ramnagar, Bagmara, Nehalpur, Govindadhabal and Tarpasha

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may be concern.

J. G. H. GLASS,

Secy. to the Govt. of Bengal.

IRRIGATION DEPARTMENT.

The 14th December 1896.

REVISED WATER-RATE RULES FOR THE SONE CANALS.

No. 245 — Notification — In notification No. 262, dated the 14th of August 1894, the Hon'ble the Lieutenant-Governor was pleased to pass certain rules concerning the Sone Canals and to fix certain rates to be charged for water supplied from those canals. In notification No. 28, dated the 28th January 1895, it was notified that it was intended to increase some of those water-rates. The rules which were passed under notification No. 262, dated the 14th of August 1894, contained provision for a class of leases having a currency of three years. That class of lease is no longer considered suitable. The Lieutenant-Governor is pleased, in exercise of the powers conferred on him by sections 99 and 78 of Act III (B C) of 1876, to make the following alterations in the rules and rates referred to in consequence of his determination to cease to grant such leases:—

The 4th, 11th, 18th and 25th November and the 2nd and 9th December 1896

A draft of the alterations was published in the *Calcutta Gazette* of the dates noted in the margin, as Notification No. 211, dated the 3rd November 1896.

A. D. McARTHUR, Colonel, R.E.,
Secy to the Govt of Bengal.

(i) Rule 16 to read as follows:—

16. Applications under section 74 of the Act for permits for irrigation upon leases for a term of years (Appendix I), or upon *khariif* season leases (Appendix III), shall be subject to the following conditions:—

- I.—The application must be for a block of land having well-defined boundaries and so situated that adjoining lands will not ordinarily or probably be irrigated by water supplied for the land included in the application.
- II.—The application must be in the form annexed to these rules, which states that water-rates will be paid on all lands contained in the block for which an application is presented, whether or no water is required.
- III.—The applications may be for a term of seven years, or for the season only:—
 - (a) In the case of applications for the season only, the issue of the permit will not necessarily be delayed until the lands have been measured. The boundaries of the block must be stated in the application, which must be signed by or by authority of the cultivators of all the land included in the boundaries mentioned, and the approximate area in the occupation of each on the block must be specified. Water-rates will be charged on the areas in the block as found by actual measurement.
 - (b) In the case of applications for a term of seven years, a permit will not be issued until the land has been measured and an application complete in every respect for all the land included in the block has been signed. If water is required to be supplied before the application is completely signed in the manner specified above, an application for water for the season must be made which will be cancelled on a permit for seven years being issued.
 - (c) Notice that a permit for seven years is required must be given by the 1st of April, and no permit will be issued unless the application is completely signed by the 30th of November, or, with the special sanction of the Superintending Canal Officer, by the 1st of March following. An application for a permit for the season must be filed by the 1st of September.
- IV.—With the special sanction of the Superintending Canal Officer:—
 - (a) Existing leases for terms of three years may be cancelled and included in an application for a seven-year lease under the preceding rules.
 - (b) An application may be made for an addition to a seven-year lease, which, if granted, shall be considered as part of the original lease and terminate therewith.

(ii) Rule 22 to read as follows:—

22 Permits for irrigation upon leases for a term of years (Appendix VIII) or upon *khariif* season leases (Appendix IX) shall be issued under the following conditions:—

- I.—The land to be irrigated must form a compact block defined by well-marked boundaries of such a nature as clearly to distinguish leased from the adjoining unleased lands, and also be so situated that unleased lands will not be ordinarily or probably irrigated by water supplied for the land included in the block. The boundaries must be mentioned in the application for a permit for the season, and in the notice referred to in Rule 16 (c), when a permit for a seven-year lease is applied for.

II.—The Canal Officer may exclude lands included in the block not irrigable by flow or for which canal water is ordinarily not required. In the case of permits for seven years, the block must be not less than 50 bighas in area. In cases where the Divisional Canal Officer considers it advisable to grant a permit to a block of less area than that mentioned above, the previous sanction of the Superintending Canal Officer must be obtained. No permit for seven years shall be issued unless the owners of the village channel from which water is to be obtained have been registered and the channel itself is in a good state of repair such as to fit it for the conveyance of water without wastage occurring. Such leases will not be issued unless it is known from the experience of previous year's irrigation that a sufficient supply of water is always available and that the quantity required is not excessive.

III.—A permit for a seven-years' lease may be cancelled by the Superintending Canal Officer with effect from a date to be specified in the order for good cause on the application of all the signatories thereto.

IV.—Permits for the season will be issued under less favourable conditions as to situation, soil, and the quantity of water available; it will not be necessary that the owner of the channel should be registered, but the channel itself must be entered on the register.

V.—Water-rates will be levied on the areas of the blocks specified in the permits, and measurement of the areas actually irrigated will not be necessary.

(iii) In Rules 3 (1), 9 (VIII), 11, 12, 24 (II), 25, 31, 39, 50, 62, omit the two words "three or."

(iv) In Rule 42 omit the words "three-years' leases."

Further, the Lieutenant-Governor is pleased to make the following alterations in the rules referred to in consequence of the increase he intends to make in certain water-rates:—

(v) In Rule 71 (a) change the words "1st of April 1892" into "1st of April 1897."

(vi) In Rule 71 (b) change the words "1st of April 1891" into "1st of April 1897"

(vii) Rule 72 will read as follows:—

SCHEDULE No. I.

Leases for a term of years.

For water supplied between the 25th of June of one year and the 25th March of the next.	FLOW OR LIFT.	
	Rate per bigha.	Rate per tenth of a bigha.
1	2	3
For leases for seven years, all crops	Rs. A. P. 1 9 0	Rs. A. P. 0 2 6

Leases having a currency of seven years will be granted at the rate defined in this Schedule until and including the year 1903.

(viii) Rule 73 will read as follows:—

SCHEDULE No. II

Season leases (kharif).

	FLOW OR LIFT	
	Rate per bigha.	Rate per tenth of a bigha.
1	2	3
For water supplied between the 25th of June and the 25th of October for all crops	Rs. A. P. 2 3 0	Rs. A. P. 0 3 6

- (ix) In Rule 42 omit the five words "for bhadoi, &c., 1st November."
- (x) Appendix IVB. to be omitted altogether.
- (xi) Further, the Lieutenant-Governor is pleased to alter Rule 47 by adding the following words to it:—
 "All applications for compensation under section 76 (c) must be made not less than 20 days before the crop is cut"
 And in Rule 46 to add the words "not less than" before the words "twenty days before the crop is cut."
- (xii) In paragraph 2 of Appendix III omit the figures "1—14"
- (xiii) In paragraph 2 of Appendix IVO alter the words "1st of January" into "25th of March."

The 14th December 1896.

REVISED WATER-RATE RULES FOR THE SARAN CANALS.

No 246 —Notification—In exercise of the powers conferred on him by sections 99 and 78 of Act III (B.C.) of 1876, the Hon'ble the Lieutenant-Governor is pleased to make the following rules and to fix the undermentioned rates to be charged for water supplied under individual assessment from the Saran Canals during the *rabi* season of 1896-97 and the hot weather season of 1897, in addition to the rules in notification No. 201, dated 2nd November 1896, published in the *Calcutta Gazette* of 4th idem.

The 4th, 11th, 19th and 25th November and the 2nd and 9th December 1896

A draft of the rules and rates was published in the *Calcutta Gazette* of the dates noted in the margin, as Notification No. 209, dated the 3rd November 1896.

A. D. McARTHUR, Colonel, R.E.,
Secy to the Govt of Bengal.

IN Notification No. 110 of the 9th August 1880, issued under the provision of Act III of 1876, Government reserved to itself the rights of property in the water of the river channels known as the Daba, the Dhanai, the Gaudaki and the Gangri, and their appendant tributaries, including the Rupan Chap Sita

2 The revenue administration of the Saran Canals is vested in the Superintending Engineer of the Sone Circle. The Executive Engineer of the Gandak Division is, as Canal Officer under the Irrigation Act [III (B.C.) of 1876], charged with the proper maintenance and management of the canals, and with the control of the supply of water in them. All orders passed by him, or by the Subdivisional Canal Officer, are under the terms of that Act subject to correction on appeal to the Collector of Saran.

3 The following rules will be applicable to all irrigation effected from the Saran Canals in the *rabi* season (1st November to 31st March) of 1896-97, or to the hot weather season (1st April to 13th July) 1897

4. Any person who wishes to make bunds in the canals must obtain the written permission of the Canal Subdivisional Officer before doing so

5 Any person who constructs bunds in the canals, who interferes with the supply of water in them, or who takes water from them without the written permission of a duly authorised person, will render himself liable to the penalties defined in the Irrigation Act

6. Any person who requires water from the channels of the Saran Canals must apply either to (a) the Patil, (b) the Sectional Officer, or (c) the Subdivisional Canal Officer, who will take his signature on the Form A attached. If the application is approved, the Canal Subdivisional or Sectional Officer (all of whom are hereby empowered in that behalf) will grant a permit for irrigation in Form B

7. Any person who holds a permit in Form B will be allowed to take canal water for irrigation, and he will be charged for it at the rates detailed in the following schedule.—

Schedule of rates for irrigation.

Crop	Rate per Saran bigha. Rs A P.
For indigo irrigated between the 1st November and 31st March ...	2 4 0
For indigo irrigated between the 1st April and 15th July ...	4 8 0
For other crops ditto ditto ...	3 0 0
For opium	1 8 0
For <i>rabi</i> crops irrigated between the 1st November and 31st March	0 12 0

These rates apply equally to irrigation by lift and flow.

8 Persons who take water from any of the river channels named in rule I, without a permit in Form B, and persons who waste the water, are liable to be charged water-rates, under sections 79 and 80 of the Irrigation Act, at rates which shall be fixed by the Subdivisional Canal Officer, but which shall not be greater than twice the rate which would have been payable for licensed irrigation

9 All water-rates assessed under rule 7 will be due on the following dates:—

For irrigation in the *rabi* season—5th April 1897.

For irrigation in the hot weather season—20th July 1897.

Water-rates assessed under rule 8 will be due as soon as the demand statement has been prepared.

10 The demand statements for water-rates due will be sent to the Collector as soon as possible after the irrigation in any village is completed, and a *parcha*, showing the area and amount assessed against each cultivator, will be sent to the rate-payer as soon as possible.

11 Any claim for remission of water-rates under section 76 (b), or for compensation under section 76 (c) of the Irrigation Act, must be presented in writing to the Subdivisional Canal Officer at least twenty days before the crop is cut. The Subdivisional Canal Officer shall, after such enquiry as he may consider necessary, pass orders on the application. Any application for remission presented direct to the Collector must be forwarded for the orders of the Canal Officer.

12 Objections to the demand statements must be presented within thirty days of the date on which the *parcha* is issued by the Subdivisional Canal Officer. He will pass orders on such objections.

13. Any person who is not satisfied with an order passed by the Subdivisional Canal Officer may appeal to the Collector under section 91 of the Irrigation Act. Such appeal must be accompanied by a copy of the order appealed against, and it must be submitted to the Collector within thirty days of the date of the order.

14. Remission statements must be signed by the Divisional Canal Officer. Any statement so signed shall be sufficient authority for a refund by the Collector.

15 No guarantee can be given either as to the volume or duration of the supply, or of the delivery of any quantity of water at any particular point of any canal.

16 The Canal Officer will regulate the water passing into, and along, any canal to the best of his ability to meet requirements. If there is any difficulty in supplying all the channels, the Canal Officer will endeavour to divide the available supply as fairly as possible. The Canal Officer shall have complete control of the distribution of water.

FORM A.

Application for water, No.

Name of village
Name of channel
Date of application

We, the undersigned, hereby apply for water from the abovenamed channel for the irrigation of our fields, and we engage to pay, for the area actually found to have been irrigated, to the Canal Officer (or other person duly authorised in that behalf), the water-rates prescribed by the Lieutenant-Governor under the provisions of the Bengal Irrigation Act; and we further agree to abide by the rules issued under the Act —

Description of crop	Approximate area in bighas	Signature of cultivators

or Sectional Officer.*

Date

The 15th December 1896.

No. 247.—Declaration.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for construction of the Public Works Department Sub-Overseer's quarters at Routara, in the village of Samudrapore, pargana Dakkhinmal, subdivision Contai, zilla Midnapore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 bighas 3 cottas 3 chitaks of standard measurement, bounded on the north by the spoil bank corner and the abandoned embankment of Pichhabani khal, on the south by the spoil bank and the paddy-field of Hati Giri, on the east by the abandoned embankment, and on the west by the Pichhabani khal, is required within the aforesaid village of Samudrapore.

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Midnapore.

A. D. McARTHUR, *Colonel, R.E.,*
Secy. to the Govt. of Bengal.

The 15th December 1896.

REVISED WATER-RATE RULES FOR THE MIDNAPORE CANAL

No. 248 Notification.—His Honour the Lieutenant-Governor of Bengal is pleased to propose the following modifications in the Water-rate Rules for the Midnapore Canal passed by him under the provisions of sections 99 and 78 of Act III (B.C.) of 1876 in notification No. 162 of the 19th June 1893.

A. D. McARTHUR, *Col., R.E.,*
Secy. to the Govt. of Bengal

1. The Divisional Canal Officer is responsible for maintaining the canal in an efficient state of repair, for providing drainage channels where necessary, and generally for all engineering work involved in its management, as well as for the distribution of water to lessees. The word "canal" is here used as defined in section 3 of the Act.

2. The Deputy Collector is responsible for the assessment and collection of water-rates accruing to Government from the canal.

3. Water shall not be distributed otherwise than on the application of a lessee, or to a person in whose favour a provisional license under Rule 15 has been issued. Such application may be made verbally or in writing to any subordinate in charge of that part of the canal from which water is required.

4. If any lessee apply for water to the Deputy Collector or one of his subordinates verbally, he shall be directed to address himself to an irrigation officer or subordinate. If he makes such an application in writing, his petition shall be forwarded direct by the zilladar, to whom it is addressed, to the Sub-divisional Canal Officer in charge of that part of the canal from which the petitioner's village is supplied.

5. The Divisional Canal Officer shall map out the irrigable area into blocks in accordance with the natural features of the ground, and so determine that the whole block shall be irrigable from one outlet or from one set of outlets. So far as may be practicable, the blocks shall be separated by drainage lines.

6. Each block determined as above shall be numbered and recorded with its irrigable area in registers to be maintained by the Divisional Canal Officers and Deputy Collector. The blocks shall also be marked on maps to be maintained by the same officers.

7. Leases for not more than five years may be granted for the whole irrigable area of a block, or, subject to the provisions of Rule 13, for definite parts of a block, under the following conditions—

I.—Ordinarily the whole irrigable area of any village, so far as situated within the block, must be included in the lease.

II.—All leases within one block shall be granted so that they shall expire on the same date.

III.—In order to equalise the areas to be dealt with in each year, the date of expiry of the leases in each block shall be determined by the Divisional Canal Officer in consultation with the Deputy Collector, so that, as far as practicable, one-fifth of the total area usually irrigated may fall out of lease in each year.

IV.—No permit shall be granted, when the supply of water must of necessity be delivered across an unleased area, unless a village channel exists, which, in the opinion of the Sub-divisional Canal Officer, will deliver water without waste across the unleased area.

8. The rates to be charged for water supplied between 15th June and 30th November, whether by flow or lift, to lessees on application shall be—

For a term of five years—Rs. 1-8 per acre for each season.

For one year or for water supplied on a provisional license for which a permit for a term of years is not subsequently issued, Rs. 3 per acre.

Provided that the leases, whether new or renewals, required for shorter terms than five years in order to develop the system of block as explained above, shall be charged Rs. 1-8 per acre only.

9. For the supply of water, when available, for winter crops, a rate of Rs. 2-8 per acre per season shall be charged.

10. For the unauthorized use of canal water a rate of Rs. 5 per acre, or such less rate as may be sanctioned by the Deputy Collector, shall be charged.

11. Application for water leases under section 74 of the Act shall be presented to the Sub-divisional Officer through the zilladar in whose charge the land lies.

12. Every application for a water-lease shall contain the following particulars:—

1.—Name and residence of applicant.

2.—Name of pargana, mahal and village in which the land to be irrigated is situated.

3.—Total area for the irrigation of which the application is made and its boundaries, and if the lands to be irrigated lie in separate *chaks*, the name of each *chak*.

4.—Names of the raiyats whose lands are to be irrigated, and the quantity of land held by each

5.—Name of the canal and number of distributary from which water is required.

6.—Signatures of the applicants

13. A separate application must be presented for lands in each village, but *tehsilaula* or other lands lying within the village boundary at the time of survey may be included.

14. Before a permit for a term of years is granted, the written consent of the Divisional Canal Officer shall be obtained, but permits for one year only and provisional licenses may be issued with the written assent of the Sub-divisional Canal Officer. The Deputy Collector shall on the day of issue forward a copy of all permits granted to the Divisional Canal Officer.

Existing leases may, with the written consent of the Divisional Canal Officer, be extended for not more than three years, without enquiry or re-measurement, payments being made in accordance with the existing assessment.

15. When a water lease is granted, a *kabuliyat* shall be taken in a form approved by Government, and a "permit" shall be given to the lessee or lessees in a form similar to that prescribed in Schedule C of the Act. Pending the completion of a lease, the zilladar may issue a provisional license for the supply of water to an area covered by an application.

16. On the issue of a permit or provisional license, the zilladar shall forward to the Sub-divisional Canal Officer direct a requisition requesting him to supply water to the lessee on application. This requisition shall be kept by the Canal Officer till January 1st next following, and shall then be returned to the Deputy Collector. On the back should be noted the several dates on which the village was supplied with water. A fresh requisition shall be issued on or before June 1st, and returned on or before January 1st each year, till the lease expires.

17. When it comes to the knowledge of the Sub-divisional Canal Officer that canal water has been taken without authority, he shall hold a local investigation and transmit the record thereof to the Divisional Officer, who shall, if he is of opinion that the fields should be assessed, forward the case with his remarks to the Deputy Collector. Separate proceedings shall be taken in the case of each village irrigated without authority.

18. On receipt of the record mentioned in Rule 17, and after hearing any objection which may be raised, the Deputy Collector shall determine whether water-rates can be legally charged, and if so, he shall proceed to assess, at the rate provided in Rule 10, the land irrigated without authority. Water-rates shall not be charged where the unauthorized irrigation has occurred through the neglect or default of a Canal Officer or subordinate.

19. The statements of the amounts demandable for water-rates leviable under the rules in force shall be prepared under the supervision and signature of the Deputy Collector in such form as shall from time to time be sanctioned by the Lieutenant-Governor. Persons charged under Rule 10 or 18 shall be served, by post or otherwise, with a statement showing the amounts charged to enable them to lodge an appeal to the Collector under section 91 of the Act, if they desire to do so.

20. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted, or used for the irrigation of lands not under lease, it shall be competent for the Superintending Canal Officer to direct that the lease shall be cancelled with effect from the 1st of June next following.

21. The rates for water supplied from June to November shall in each season fall due on the 1st January and 15th February following, but all sums of Rs. 5 and under shall become due on the 1st January and be payable in one instalment. The Deputy Collector may, however, require one-half of the rates due on applications filed after the 1st of September to be paid in advance, and may refuse to issue a permit for more than one year. The rates for water supplied for winter crops shall fall due on the 1st April following.

22. Water-rates imposed under Rule 10 or 18 shall fall due as soon as the assessment is made, and shall be realized at once.

23. The Superintending Canal Officer may, with the concurrence of the Collector, direct the Deputy Collector to—

I.—Cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realizing water-rates until all the arrears of water-rates due are paid up, and also, if specially so ordered, unless half the amount due under new applications is paid in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

II.—Cancel any five-years' lease if on the 1st of June of any year water-rates to the extent of half the demand for one year are in arrears.

24. Remission of water-rates, either in whole or part, as the case may require, shall be granted by the Deputy Collector for—

I.—Errors in the assessment of rates

II.—Injury to the crop on a leased area caused by deficient supply of water, provided a written application for remission has been made 15 days at least before the crop is cut.

In regard to applications under II, the written opinion of the Divisional Canal Officer shall be obtained and form part of the record of the case

25. The Deputy Collector, with the written consent of the Divisional Canal Officer, may grant remissions of water-rates, either in whole or part, for injury to the crops on leased areas caused by excess of water due to deficient drainage.

26. The Deputy Collector may, with the written assent of the Divisional Canal Officer, commute rates charged under Rules 10 and 18 to those chargeable for water supplied on application, provided that a lease either for a term of years or for the season has been subsequently executed for the lands in question.

27. Remissions on other grounds than the above require the sanction of Government.

28. In cases where sums due on account of water-rates cannot be collected owing to the death, bankruptcy, or absconding of the defaulter, the amount which is non-realizable may be written off as irrecoverable on the authority of the Superintending Canal Officer.

29. Before awarding compensation under section 16 of the Act, or making a reference under section 17 of the Act, the Collector shall obtain the written opinion of the Superintending Canal Officer, and his written opinion shall form part of the record of the proceedings.

30. The *chaukidar* of any village in which lands are leased for a term of years shall be entitled to a remission of water-rates for his holding either as a *yaghir* or *rayats* up to a limit of 3 acres, provided he gives efficient and willing assistance to the Canal Officers in respect to the following matters—

I.—In the preparation of applications for leases.

II.—In the measurements of irrigated lands.

III.—In giving the names of the occupiers of the various fields

IV.—In receiving demand statements and informing the cultivators of the demands against them.

V.—In receiving *tappas* from the *zilladars* and distributing them

VI.—In being present when complaints are investigated by Canal Officers, and giving information regarding the matters under investigation.

VII.—In reporting to the *zilladars* any mutations in holdings of persons who have signed a lease for a term of years.

31. Tanks may be filled with canal water without charge, wherever water can be made available without injury to the cultivation dependent on a canal under the following conditions.—

I.—No tank shall be filled unless the water is to be exclusively used for domestic purposes or for watering cattle

II.—No tank shall be filled from which irrigation is practised.

III.—No tank shall be filled which intercepts any line of drainage or is liable to overflow from the accumulation of water from natural causes.

IV.—No tank shall be filled except on the written order of the Sub-divisional Canal Officer issued on the written application of the persons concerned.

V.—No tank shall be filled unless the village channel used to convey water to it shall be shown to the satisfaction of the Sub-divisional Canal Officer to be in a sound condition when the application is made.

VI.—The privilege here accorded may, by the written order of the Sub-divisional Canal Officer, be suspended for twelve months for the breach of any of the above rules

32. The Divisional Canal Officer may supply water for manufacturing or other purposes, and charge for the same at the rate of one rupee for each 10,000 cubic feet or part of 10,000 cubic feet supplied. The same charge will be made if water is taken into a tank without authority or used in an unauthorized manner

33. No person shall, without the permission in writing of the Divisional or Sub-divisional Canal Officer, pass or cause any animal or vehicle to pass on or across any of the works, banks or channels of a canal or drainage work after he has been desired to desist therefrom, except by means of such bridges, fords and ferries and their approaches as are provided by the Divisional Canal Officer.

34. No officer employed on the canals, unless especially exempted by the Lieutenant-Governor from the operation of this rule, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly, or in shares with others.

35. Except as provided in the Act and in these rules, no appeal shall lie from any order passed by a Canal Officer; but the Sub-divisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional

Canal Officer or Divisional Canal Officer shall modify any orders passed by them in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

36. In appeals to the Collector under section 91 of the Act other than those specially provided for in Rule 19, the Collector may require the Superintending Engineer to state his opinion in writing, which shall form part of the record of the proceedings in the case.

The 15th December 1896

No. 249 — Notification.—With reference to notification No. 156, dated the 10th August 1896, and published at pages 850-51, Part I of the *Calcutta Gazette* of the 12th idem, it is hereby notified that the rate for hot-weather irrigation under clauses VII and VIII of schedule I annexed to the revised water-rate rules for the Orissa Canals is payable on the 1st July.

HIGH COURT, ENGLISH DEPARTMENT

NOTIFICATION.

The 11th December 1896.

BABU SHYAM CHAND ROY, Subordinate Judge of Jessore, is appointed to be a District Delegate under section 235A of Act X of 1865 and section 52 of Act V of 1881 within the local limits of his jurisdiction

T. W. RICHARDSON, Registrar.

HIGH COURT, ENGLISH DEPARTMENT.

EDUCATION DEPARTMENT, BENGAL.

Civil Engineering College, Sibpur.

Apprentice Department

THE date for admission to this Department is 1st February 1897. Candidates must be at least 15, and not more than 17, years of age.

They must have passed standard VII of the Code for European Schools or the University Entrance Examination. They must submit their applications accompanied by a certificate of age and a certificate showing that they have passed the requisite standard so as to reach the Principal not later than the 6th January 1897. No application will be attended to after this date.

The number to be admitted each year is limited to 60, and applicants will be selected in order of merit.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, chest measurement, fitness for manual labour, and eye-sight. If the officer's report is unsatisfactory, the applicant will not be admitted.

Before an apprentice is admitted to the College, his parent or guardian must sign an agreement in the form shown in Appendix A.

The session begins on the first Monday in February. All apprentices are required to join the College on that date. Any apprentice prevented by sickness from attending on the opening day must produce a certificate to that effect from a Civil or Assistant Surgeon, failing which he will be liable to a fine not exceeding Rs. 10. No apprentice will be admitted or re-admitted to the College after the close of the month of February, except by

special order of the Director of Public Instruction. This permission will only be given under exceptional circumstances.

There will be no vacancy on the free list for Christian apprentices in February next, but there will be seven on the reduced* fee list. For Natives there will be at least nine vacancies, possibly more, on the reduced† fee list.

These vacancies will be filled up after the opening of the session by the Board of Visitors from those apprentices who join the College. No guarantee can therefore be given beforehand, but forms to be filled up for the consideration of the Board can be had on application to the Principal.

J. S. SLATER, *Principal, Civil Engineering College*

SIBPUR, the 16th November 1896.

NOTIFICATIONS OF THE BOARD OF REVENUE.*

No. 2226B.

APPLICATIONS for tickets of admission to the Opium Sale Rooms for the year 1897

OF

THE HON'BLE MR W H GRIMLEY

should be made at the office of the Board of Revenue, L.P., on or after the 21st December 1896.

Tickets for the year 1896, which have not already been surrendered, should be returned at the same time.

By order of the Board of Revenue, L.P.,

E. H. WALSH, *Secretary.*

CALCUTTA, the 3rd December 1896.

No 2185B.

NOTICE is hereby given that the Provision Opium to be brought forward for sale by public auction in the year 1897 will consist of about 19,500 chests prepared at the Patna Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, and about 19,500 chests prepared at the Ghazipur Factory, each chest of which is believed to contain 1 maund 18 seers 12 chitaks of pure opium, besides 9 seers 6 chitaks used for pasting the leaves of the shell, being of the seasons 1895-96 and 1896-97 in the proportion marginally noted.

Total			19,500	19,500	39,000

The following are the conditions of sale :—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted, except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chest.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin,

DEPOSIT

When the amount bid is less than

Rs. 1,200 per chest, Rs. 200 per chest

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400

shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank

of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the

name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1895-96, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

E. H. WALSH,
Secretary.

FORT WILLIAM, the 28th November 1896.

No. 2193B.

NOTICE is hereby given that the First Sale of Opium, the Provision of 1895-96, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Monday, the 4th January 1897; at 11 A.M., and will comprise 3,250 chests, viz.—

				Chests.
Opium manufactured at the Patna Factory	1,625
Ditto ditto at the Ghazipur Factory	1,625
Total	3,250

2nd.—The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 28th November 1896, and published in the *Government and Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3rd.—The latest dates for deposit and clearance will be the 9th and 19th January 1897, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 1-30 P.M. of Saturday, the 9th January 1897, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Tuesday, the 19th January 1897.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the Opium manufactured at the Patna and Ghazipur Factories will be brought to sale down to December 1897 about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so —

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION

No. 4740M—The 10th December 1896—Whereas a notification No. 3351, dated the 5th August 1896, was published at page 158, Part IB of the *Calcutta Gazette* of the 12th idem, declaring the intention of the Lieutenant-Governor to extend the provisions of Part VI of the Bengal Municipal Act III of 1884, as amended by Bengal Act IV of 1894, to the Berhampore Municipality in the district of Murshidabad, and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the Berhampore Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the above provisions of the Municipal Act to the said Municipality.

H. H. RISLEY,
Secy. to the Govt. of Bengal

NOTIFICATION

No. 4771L.S.-G—The 11th December 1896—It is hereby notified that the members of the Bhadrak Local Board, in the district of Bilasore, having at a meeting, under section 25 of the Bengal Local Self-Government Act, III of 1885, requested the Lieutenant-Governor to appoint a Chairman, the Lieutenant-Governor is pleased, under the said section, to appoint Babu Raj Kisore Das, Subdivisional Officer, to be the Chairman of that Local Board.

H. H. RISLEY,
Secy. to the Govt. of Bengal

NOTIFICATION

No. 4732M.—The 8th December 1896.—Under Rule 9 of the Rules framed under section 5 of the Local Authorities Loan Act, 1879, it is hereby notified for general information that the Lieutenant-Governor intends to sanction the following application from the Commissioners of the Nauratal Municipality, in the district of Mymensingh, for a loan of Rs. 5,000 from Government, bearing interest at 4½ per cent per annum, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the said Municipality.

H. H. RISLEY,
Secy. to the Govt. of Bengal

NOTIFICATION.

No. 4773M.—The 10th December 1896—Whereas a notification No. 588T.—M, dated the 19th September 1896, was published at page 192, Part IB of the *Calcutta Gazette* of the 23rd idem, declaring the intention of the Lieutenant-Governor to extend the provisions of Bengal Act II of 1891 (an Act to consolidate and amend the law relating to hackney carriages and palanquins in Calcutta), to the Darbhanga Municipality, and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 1, clause 3 of the Act, the Lieutenant-Governor sanctions the extension of the provisions of the said Act to the above Municipality, with effect from the date of this notification.

2. Under section 61, clause 1 of the Act, the Lieutenant-Governor appoints the Commissioners of the Darbhanga Municipality and their Chairman, and the members of the District Board of Darbhanga and their Chairman, to perform the duties imposed and exercise the powers conferred by the Act on the Commissioners and the Chairman of the Corporation of Calcutta, within their respective jurisdictions.

3. Under section 61 (2) of the Act, the Lieutenant-Governor prescribes that for the purposes of sections 32 (1), 45 (2) and 49 of the Act, the languages shall be English and Hindi.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 4776M.—The 10th December 1896.—Whereas a notification No. 692T.M., dated the 25th September 1896, was published at page 200, Part IB of the *Calcutta Gazette* of the 30th idem, declaring the intention of the Lieutenant-Governor to extend the provisions of sections 223A to 236, 249 to 251, 254 to 266, 268 to 274, 277 and 278 of Part VI of the Bengal Municipal Act III of 1884, as amended by Bengal Act IV of 1894, to the Nadia Municipality in supersecession of the orders contained in the Government notifications noted in the margin, and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that, in

(1) Notification, dated the 21st July 1879, published at page 717, Part I of the *Calcutta Gazette* of the 23rd idem, introducing the provisions of certain sections of the Bengal Municipal Act V of 1878 into the Nadia Municipality.

(2) So much of the notification No. 2005M, dated the 20th May 1896, published at page 105, Part IB of the *Calcutta Gazette* of the 22nd idem, as relates to the extension to the Nadia Municipality of certain sections of Part VI of the Bengal Municipal Act III of 1884, as amended by Act IV of 1894.

the exercise of the power vested in the Local Government by section 231 of the Act, and in accordance with the recommendation of the Commissioners of the Nadia Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the above provisions of the Municipal Act to the said Municipality.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 4792L S-G.—The 12th December 1896—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor is pleased to re-appoint the Magistrate of Gaya to be the Chairman of the Gaya District Board, with effect from the 20th November 1896.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 4793L S-G.—The 12th December 1896.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor is pleased to re-appoint the Magistrate of Shahabad to be the Chairman of the Shahabad District Board, with effect from the 18th December 1896.

Government of Bengal.

PUBLIC WORKS DEPARTMENT.

ROAD CESS

Dated Calcutta, the 9th December 1896.

RESOLUTION.

Receipts and expenditure of the several District Road Funds and District Road Accounts in Bengal during 1895-96.

READ—

Annual reports and accounts of the several District Road Funds and District Road Accounts in Bengal for the year 1895-96, received from the Commissioners of Divisions concerned

Read again—

Annual reports and accounts of the several District Road Funds and District Road Accounts in Bengal for the previous year, and the review thereof, No 210R C, dated 16th January 1896

REMARKS.—The Bengal Local Self-Government Act of 1885 has been introduced into all the districts of this Province, except the following —

Darjeeling	Manbhum
Hazaribagh.	Singbhum
Lohardaga	Sonthal Parganas
Palamau	Chittagong Hill Tracts

In the first five of these districts, and in the Dalbhum pargana of the Singhbhum district the Cess Act of 1880 is in force, while the other parganas of this

latter district, and the Sonthal Parganas and Chittagong Hill Tracts are not under the operations of any of the above Acts.

RECEIPTS.

2. In the districts in which the Cess Act is in force, the cess was levied at the maximum rate allowed by law, while in those districts which were not under the operations of the Act, and in which therefore there were no cess collections, funds were provided by grants-in-aid. The receipts for the year 1895-96, compared with those of the previous year, are shown below:—

	CESS BUT NON-LOCAL SELF GOVERNMENT DISTRICTS										NON CESS AND NON LOCAL SELF GOVERNMENT DISTRICTS

† Includes Rs. 15,564 under Land Revenue. ‡ Includes Rs. 16,644 under Land Revenue.

3. The decrease in revenue in the Darjeeling district, compared with the revenue of the previous year, is owing to the collection of Rs. 1,812 on the Balisan ferry at Matigara, which belonged to the Darjeeling Improvement Fund having been credited to the District Road Fund in 1894-95, but which amount was subsequently refunded, less the percentage cost of establishment for officers of account and control and audit, while that in the Hazaribagh district is attributed to the decrease in the valuation made of the coal mines of the Bengal Coal Company during the year by the Collector of Burdwan, the principal place of business of the Company being at Burdwan. In the Lohardaga district the decrease is due to advantage being taken by the zamindars of the 15 days' grace allowed under the Act for the payment of the cesses. The decrease in the Singbhum district is due to the decrease in the receipts under 'Advances,' which amounted to Rs. 151 only against Rs. 2,088 in the previous year. The decrease in income in the Palaman district is mainly due to the increase in the Government grant, the amount being Rs. 22,606 against Rs. 7,130 in the previous year, and that in Manbhum to the assessment of new coal mines.

4 The following table shows the outlay incurred in 1895-96, compared with that of the previous year:—

5. The closing balances of the Darjeeling, Hazaribagh and Palamau districts at the end of the year were more than one quarter's lists of the respective Committees, as prescribed in paragraph 9 of the Resolution No. 4228R C, dated 18th December 1895. The heavy closing balances were due (i) in the Palamau district, to the large unexpended balance of the grants for the 1st and 2nd sections of the Gurwa Singu road owing to the hilly nature of the country through which the road passes, the scarcity of local labour and the difficulty of importing coolies from the neighbouring districts; (ii) in the Darjeeling district to the Committee having been allowed, in letter No. 5106R C, dated 26th September 1892, to accumulate its balance to enable it to construct important bridges in the district without having recourse to borrowing. The District Road Committee of Hazaribagh should explain the clause of the large closing balance in that district.

6. Of the total expenditure incurred during the year, Rs. 3,47,554 were devoted to Public Works, while the outlay under other sub-heads, exclusive of

'Suspense Accounts,' was small, being Rs. 54,913 only in the aggregate. The distribution of the outlay on Public Works is as follows:—

	Original Works	Repairs.	Total Works and Repairs	Establishment	Tools and Plant	Tolls and Ferry establishment and contingencies.	Total Public Works

7 *Original Works.*—The principal works carried out during the year are detailed below:—

Number	Name of district	Name of work	Outlay during the year	REMARKS
1	2	3	4	5
			Rs	
	Darjeeling	Suspension bridge, 400 ft span, over the Balasun river at Panighata	23	This bridge was constructed by the Public Works Department in 1893-94 at a cost of Rs 21,177. The sum of Rs 23 shown was adjusted during 1896-96 on account of expenditure incurred by the Public Works Department
		Total Darjeeling District	23	
	Hazariabagh	Inspection bungalow at Dudhumati on Gola-Dakugaria Road	205	The estimate sanctioned for the work amounts to Rs 870, against which Rs 604 were expended up to end of 1894-95 and Rs 265 in 1895-96
	Ditto	Inspection bungalow at Khejuri on the Gaya and Deoghur Pilgrim Road from Majhne to Khejuri	654	The estimate sanctioned for the work amounts to Rs 876, against which Rs 205 were expended in 1894-95 and Rs 654 in 1895-96
	Ditto	Inspection bungalow at Nasirganj on the Gaya and Deoghur Pilgrim Road	649	The estimate sanctioned for the work amounts to Rs 875 against which Rs 205 were expended in 1894-95 and Rs 649 in 1895-96
	Ditto	Inspection bungalow at Barkagaon on the Hazariabagh Tandwa Road	105	The estimate sanctioned for the work amounts to Rs 862, against which Rs 655 were expended in 1894-95 and Rs 205 in 1895-96
	Ditto	Inspection bungalow at Kulkamsandi on Old Benares Road.	197	The estimate sanctioned for the work amounts to Rs 862, against which Rs 655 were expended in 1894-95 and Rs 197 in 1895-96
	Ditto	A pukka well at Itkhuri on the Chowparan Chatra Road	925	
	Ditto	One well at Chatra on the above Road	295	Estimate sanctioned for the work amounts to Rs 507, against which Rs 194 were expended up to the end of 1894-95 and Rs 295 in 1895-96
	Ditto	One well at Jubra on the Balumath-Sherghati Road	19	The estimate sanctioned for the work amounts to Rs 325, against which Rs 10 were expended up to end of 1894-95 and Rs 19 in 1895-96
	Ditto	Gravelling the Dhanwar and Jamoo Road	1,471	The estimate for the work amounts to Rs 6,513, against which Rs 1,471 were expended in 1895-96
	Ditto	30 Dari wells (water springs)	1,336	
		Total Hazariabagh District	5,729	
		Aggregate total carried over	5,752	

Number	Name of district	Name of work.	Outlay during the year	REMARKS.
1	2	3	4	5
		Brought forward	Rs. 5,752	
	Lohardaga	An inspection bungalow at Jaria, on Ranchi Palkote Road	524	The work was commenced in 1894-95, and completed in 1895-96. Of the total expenditure of Rs 1,927 incurred on it, Rs 528 were spent in the latter year
	Ditto	A cart sarai at Bili	761	
	Ditto	Sinking wells and improving daries or natural springs	519	
	Ditto	Construction of Bero-Toto Road <i>via</i> Sesai (35 miles)	7,951	The estimate for the work amounting to Rs 12,638 has been sanctioned by the Bengal Government. The work was commenced in 1894-95 and completed in 1895-96. Of the total expenditure of Rs 12,554 incurred on it, Rs 7,951 were expended in 1895-96.
		Total Lohardaga District	9,762	
	Palamau	Constructing 2 pukka culverts and re-grading certain steep grades on Daltonganj-Garwa Road	1,104	The amount sanctioned for this work is Rs 2,043, but the expenditure incurred up to 31st March 1896 was Rs 1,104.
	Ditto	Pukka culverts on the Daltonganj-Maharajganj Road.	3,030	The estimated cost of the work is Rs 6,659, but an expenditure of Rs 3,185 only was incurred up to the close of the year 1894-95, and that during 1895-96 was Rs 3,030.
	Ditto	35 dry rubble stone culverts on the Daltonganj towards Ranchi Road	1,150	
	Ditto	A 20-feet arched bridge on the 23rd mile of the Daltonganj towards Shergathi Road	1,000	
	Ditto	19 dry rubble stone culverts on Majiwan-Japla Road	1,000	
	Ditto	An 8 feet culvert at Jhariduba on the 44th mile of the above road	444	
	Ditto	First section of the Garwa-Sirguja Road, 13½ miles in length.	4,337	A special grant of Rs 13,000 was made by Government, the estimate sanctioned for the work amounted to Rs 12,960. The work was commenced in 1894-95, but Rs 6,128 only are reported to have been expended in that year. The expenditure in 1895-96 was Rs 4,337.
	Ditto	2nd section of the above road, 16 miles in length	2,998	A special grant of Rs 23,316, the amount of the sanctioned estimate for the work, was made by Government. The expenditure incurred during the year was Rs. 2,998 only.
	Ditto	Extension of the Daltonganj-Husseina-bad road to the banks of the Sono river at Dangwar.	1,296	The amount sanctioned for the work is Rs 2,302. The work was practically finished, but as many temporary culverts were not satisfactorily made and earth-work not finally dressed, a payment of Rs 1,206 only was made.
	Ditto	A pukka culvert of two spans of 6 feet each at the boundary of the district at the 43rd mile of the Daltonganj Maharajganj Road.	415	A contribution was paid to the Gaya District Board for constructing the culvert.
	Ditto	A pukka well at Chandwa on the 57th mile of the Daltonganj towards Ranchi Road	384	
	Ditto	Road from Shapur ferry-ghat to the 2nd mile of Daltonganj Garwa Road	552	
	Ditto	Earthwork in improving the Daltonganj-Maharajganj Road, filling in approaches to pukka culverts, and re-grading the steep approaches in and out the Amanat, Sadubaha and Kara rivers	1,482	
	Ditto	Providing new gabions and transplanting trees	300	
		Total Communications	19,792	
	Ditto	Additions and alterations to malkhana room of the Deputy Commissioner, Palamau	242	From Public Works Funds
	Ditto	Additions and alterations to the cowshed attached to the Jail at Daltonganj	178	Ditto ditto.
	Ditto	Providing wire-netting to the Munshi khana room of the Deputy Commissioner's Office, Daltonganj	12	Ditto ditto.
	Ditto	Wire-netted wooden partition in the tanza office of the Deputy Commissioner's outchery at Daltonganj	150	Ditto ditto.
	Ditto	A night latrine in the Hospital Ward, Intermediate Jail, Daltonganj	125	Ditto ditto.
	Ditto	A workshop in the Female Ward in Intermediate Jail, Daltonganj	92	Ditto ditto.

* Includes Rs. 544 for repairs to Hill bridges.

The funds for the repairs of Government roads and buildings were supplied by Government.

9. *Arboriculture.*—A sum of Rs. 7,587 was spent in planting and maintaining trees on roadsides and in maintaining nursery gardens in the several districts, as shown below :—

	Rs.
In Darjeeling
„ Hazari bagh	1,098
„ Lohardaga	1,799
„ Palamau	300
„ Manbhum—	Rs
On district roads	316
„ Government roads	1,575
	1,691
In Singhbhum	348
„ Sonthal Parganas	641
„ Chittagong Hill Tracts
Total	5,877

10. *Establishment.*—The expenditure under this head amounted to Rs. 49,878, thus :—

1	Outlay on Works and Repairs	Outlay on Establishment.	Percentage
2	3	4	
	Rs.	Rs.	
Darjeeling	9,437	635	6.72
Hazari bagh	52,733	8,202	15.55
Lohardaga	37,384	7,874	21.06
Palamau	33,902	5,244	15.56
Manbhum	45,874	8,210	17.89
Singhbhum	10,315	2,809	27.23
Sonthal Parganas	76,116	10,318	13.55
Chittagong Hill Tracts	27,197	6,586	24.21
Total	2,92,938	49,878	17.02

In the Darjeeling district the low percentage is due to the fact that no Engineer was employed. all the Road Fund works, both original and repairs, were executed by the tea-planters and non-official residents of the district to whom the thanks of Government are due for their assistance. The sum of Rs. 635 spent under this head was for the Public Works Establishment in the Terai subdivision only. The percentages in the Singhbhum and Chittagong Hill Tracts districts were high.

ORDER.—Ordered that a copy of this Resolution, together with the annual accounts of the several District Road Funds and District Road Accounts, extracts from the reports of the Chairmen of the several District Road Committees, and remarks of the Commissioners of Divisions concerned, be published in Part II of the *Calcutta Gazette*.

Ordered also that a copy of this Resolution be forwarded for information to the—

Commissioners of the Rajshahi, Bhagalpur, Chittagong and Chota Nagpur Divisions ;
Superintending Engineer of the Northern Circle, and Superintending Engineer in charge of the Western Circle ,
Inspector of Works, Eastern Circle ;
Accountant-General, Bengal ,
Board of Revenue, Lower Provinces ,
Financial Department of this Government.

By order of the Lieutenant-Governor of Bengal,

J. G. H. GLASS,

Secretary to the Government of Bengal.

Abstract of the Report by the Chairman, District Road Committee of Darjeeling, on the operations of the District Road Fund of the District during the year 1895-96.

[Vide letter No 135R F., dated 28th July 1896, from R T GREEN, Esq, c s, Deputy Commissioner and Chairman, to the Commissioner of the Rajshahi Division.]

1 *Working of the Committee.*—The number of members of the District Committee was 18. One vacancy took place by the death of Mr C K. Harcourt towards the end of the year. Mr Harcourt rendered valuable help as a member of the Committee for many years. Four meetings were held during the year, the average attendance being 6·7, and the percentage on the average attendance at a meeting 37·5. There were 20 members of the Terai Branch Road Committee. They held eight meetings during the year. The average attendance was 7 and the percentage on the average attendance at a meeting was 35.

2 The year opened with a balance of Rs 18,774-6-7 made up of a cash balance of Rs 10,784-7-6 and unadjusted advances aggregating Rs 7,989-15-1. The total sum for expenditure during the year was Rs 41,130-7-5, including the income (Rs 22,356-0-10) of the year. Of this sum, Rs 12,874-2-0 were spent, leaving a balance of Rs 28,256-5-5, which includes unadjusted advances (Rs 11,099) at the end of the year. The closing cash balance is excessive, but in order to avoid the need for loans for bridges, a fund is being gradually accumulated.

RECEIPTS.

3 *Assessment and Collection of the Road Cess.*—The assessment was made at the maximum rate (6 pies in the rupee). The demand of cess from different sources (lands, mines, &c.) amounted to Rs 17,880, as compared with Rs 17,886 in the year previous. Of this, Rs 16,274 were realized during the year and Rs 1,547 (as advance) in the previous year. The outstanding balance at the close of the year accordingly was Rs 59 only. Besides the collection in payment of the year's demand, Rs. 1,463 were received in advance for 1896-97 and Rs 57 as an outstanding balance of 1894-95. The actual receipts, therefore, amounted to Rs 17,794.

4 *Ferry Tolls.*—There is no ferry under the District Road Fund Committee.

5 *Contribution.*—The receipts under this head were derived from (a) Government, (b) Darjeeling Improvement Fund, (c) Private and other sources.

(a) The grant of one-eighth of 12 per cent collection from Government and other estates amounted to Rs 1,261-15-6 as compared with Rs 2,328-13-3 of the preceding year, showing a decrease by Rs. 1,066-13-9. The amount shown as received represents the contribution of the last quarter of 1894-95 only. The new *tanzi* manual introduced during 1895-96 the system of making an annual adjustment, but as yet no intimation of adjustment has been received. Hence the decrease. Besides the contribution noted above, Rs 400 were received as usual from Government on account of Road and Public Works Cess joint establishment.

(b) The Darjeeling Improvement Fund contributed Rs 2,300 during the year for the improvement and maintenance of roads.

(c) A sum of Rs 600 was contributed by tea-planters and the Forest Department for improving certain roads in the hills.

EXPENDITURE

6 *Original Works.*—No original works were executed during the year. Rupees 22-11-1 shown under this head represents the unadjusted advance made in previous years to the Executive Engineer, Darjeeling Division, for the suspension bridge over the Balasun river at Panighatta and were adjusted during the year.

7 *Repairs.—Communications.*—A sum of Rs. 5,431-10-1 was spent in repairing roads and bridges in the hills during the year against Rs. 3,096-6-4 in 1894-95. The increase was due to the adjustment of advances made in previous years.

8 The expenditure on roads and bridges in the Terai amounted to Rs 3,982-9-4 against Rs 5,716-3-6 of the year preceding. The decrease is only apparent, however, as the total outlay during the year, taken together with the unadjusted advances made during the year, exceeds the expenditure of both the years mentioned. Of the amount (Rs 3,982-9-4) mentioned as spent on communications proper, Rs. 197-13-9 were on account of repairs and maintenance of village roads and Rs. 3,784-11-7 for the upkeep of district roads and bridges. The latter amount includes Rs. 387 for mile stones in the Terai.

9 The expenditure of Rs 197-13-9 for village roads shows a nominal falling off of Rs. 42 as compared with Rs. 239-13 of the preceding year. The difference between the actual expenditure under this head and the budget allotment (Rs 200) is slight (Rs. 2).

10 Altogether 320½ miles of unmetalled district roads were repaired at a cost of Rs. 8,672, including Rs 387 spent in replacing mile-posts, or Rs. 27·1 per mile, and 17 miles of village roads at a cost of Rs 197-13-9, or Rs. 11·6 per mile. Rupees 544-5-8 were spent on the repairs or maintenance of bridges in the hills which have not been included in the expenditure shown in this paragraph, the work having been carried on as usual either by members of the Committee themselves or other gentlemen of the district.

11. *Tools and Plant*—There was no expenditure under this head during the year.

12 *Tolls and Ferry Establishment, &c*—As there is no ferry under the Committee, there is no ferry establishment. The sum of Rs 342-5-3 shown under this head is the balance referred to in the previous year's report of the Balasun ferry collections credited during 1894-95 to the District Road Fund instead of to the Darjeeling Improvement Fund, and refunded during the year 1895-96 less Rs 27 paid on account of cost of control and audit.

13 *Agriculture*—No expenditure was incurred under this head during the year.

14 *Loans*—No works were executed during the year by means of loans, &c

15 *Public Works Establishment*—No professional Engineer was entertained by the Committee during the year, all works having been executed by the members or by private gentlemen. An overseer and a peon were, however, entertained by the Torai Branch Committee at a cost of Rs. 607 for some portion of the year.

16 *Inspection of Accounts*.—The Examiner of Local Accounts audited the Accounts on 18th July 1896.

R. T. GREER,

Chairman.

No 275R O, dated Ranchi, the 5th September 1896.

From—C. R. MARINDIN, Esq., Offg Commissioner, Chota Nagpur Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to submit the accompanying annual reports and accounts of the several District Road Committees in this Division for the year ending 31st March 1896 with the following remarks.

2. The following table exhibits the constitution of each Road Committee, the number of meetings held, and the percentage of average attendance at those meetings:—

DISTRICT	NUMBER OF MEMBERS FORMING THE COMMITTEE			Number of meetings held	Percentage of average attendance
	Official	Non-official	Total		
1	2	3	4	5	6
Hazaribagh	8	16	24	3	34.5
Lohardaga	4	8	12	7	35.0
Palamau	4	12	16	9	43.7
Manbhum	5	12	17	14	44.1
Singhbhum	3	7	10	7	60.0

As in the previous year, the highest percentage was attained in Singhbhum, which is 60.0. In other districts it ranges from 34.5 in Hazaribagh to 44.1 in Manbhum. The low percentage in Hazaribagh and Lohardaga is no doubt due to the want of interest taken by the non-official members in Road Cess matters.

3. The Branch Road Cess Committee at Giridih in Hazaribagh held three meetings during the year (in two of which no quorum was obtained). The average attendance of members in these meetings was 5.0 against 3.7 in the previous year. The Branch Committee at Gobindpur in Manbhum did not hold any meeting at all during the year.

4. The Cess Act was in force in the districts of Hazaribagh, Lohardaga, Palamau, Manbhum and in pargana Dalbhum in Singhbhum, and the cess was levied in all of them at the maximum rate allowed by the law.

5. The following table compares the opening balance, income, expenditure and closing balance of each Road Committee during the past two years —

	HAZARIBAGH		LOHARDAGA		PALAMAU		MANBHUM		SINGHBHUM	
	1894-95	1895-96	1894-95	1895-96	1894-95	1895-96	1894-95	1895-96	1894-95	1895-96
1	2	3	4	5	6	7	8	9	10	11
Opening balance	Rs 28,064	Rs 29,303	Rs 13,313	Rs 14,240	Rs 33,780	Rs 24,084	Rs 17,471	Rs 16,012	Rs 4,381	Rs 2,730
Income	67,249	63,619	62,014	49,470	91,061	47,893	52,489	56,150	17,691	15,319
Total	95,313	91,922	75,327	63,710	124,841	71,977	70,960	72,162	21,472	18,049
Expenditure	65,920	70,431	62,028	52,785	41,640	46,256	61,128	63,828	18,742	14,814
Closing balance	29,393	21,491	13,299	10,925	83,201	25,721	9,832	8,334	2,730	3,235

Palamau and Manbhum show increases of Rs. 15,931 and Rs. 3,281, respectively, in their incomes during the year. In the former the increase is mainly due to the increase in the Government grant being Rs. 22,606 against Rs. 7,430 in the previous year. In the latter, the increase is due to the assessment of some new coal-mines. Hazaribagh, Lohardaga and Singhbhum show decreases of Rs. 4,700, Rs. 10,474 and Rs. 1,772 respectively in their incomes. In Hazaribagh the decrease is attributed to the decrease in the valuation of the coal-mines of the Bengal Coal Company made during the year by the Collector of Burdwan, —the principal place of business of the Company being at Burdwan, the valuations of their coal mines are made in that district. In Lohardaga the decrease

is due to advantage being taken by the zamindars of the 15 days' grace allowed under the Act for the payment of the cesses. In Singhbhum the decrease is due to the decrease in the receipts under the head of "Advance" which amounted to only Rs. 151 against Rs. 2,088 in the previous year.

6. The following table exhibits the revenue of each Road Committee (excluding the Suspense heads), the expenditure incurred in works and the establishment charges on account of those works.—

DISTRICT	Revenue	AMOUNT SPENT ON WORKS			Cost of establishment employed on works.	Total expenditure on works including establishment charges (column 5+6)	Percentage of establishment on amount spent on works (column 6 on column 5)	Percentage of total expenditure on works on revenue (column 7 on column 2)
		Original works.	Repairs	Total				
1	2	3	4	5	6	7	8	9
Hazaribagh	Rs. 57,657	Rs. 5,740	Rs. 47,004	Rs. 52,744	Rs. 8,302	Rs. 60,935	15.6	108.7
Lohardaga	94,910	9,702	27,042	37,744	7,874	45,264	21.1	118.1
Palamau	41,620	20,787	11,115	33,902	5,214	39,140	15.6	87.7
Manbhum	58,174	2,458	43,417	45,875	8,210	54,085	17.0	101.7
Singhbhum	15,087	4,518	5,837	10,355	2,809	13,164	27.2	87.8
Total	2,08,853	43,252	1,96,985	1,80,237	32,339	2,12,576	17.9	101.8

The percentage of expenditure on account of establishment for works on the amount spent on works ranged from 15.5 in Palamau to 27.2 in Singhbhum, against 16.6 to 31.4 respectively in the previous year, but the total establishment charges incurred by all the Road Committees in the Division were within the limit of one-fourth of their total income, being 17.9 against 20.3 in the previous year. In Singhbhum alone has the percentage exceeded 25; but here, too, it has fallen much short of that of the preceding year in which it was as high as 31.4.

7. *Original Works.*—In Hazaribagh, besides Rs. 1,471 spent in gravelling 12 miles of road No. 19, a sum of Rs. 2,280 was spent during the year in completing three masonry wells and excavating and lining 20 *dari* wells with pukka masonry. The well at Jabra on road No. 6, commenced last year, could not be completed during the year owing to rocky soil having been found. The well has been taken up departmentally, and will be completed during the current year. The outlay on this well amounted to Rs. 19. In Lohardaga the Boro-Toto road, with two rest-houses with mud walls and tiled roofs, was completed during the year at a total cost of Rs. 12,554 out of the sanctioned amount of Rs. 12,638, of which Rs. 7,951 was paid during the year. The inspection bungalow at Jara, on the 33rd mile of the Ranchi-Palkote road, which had been all but finished in the previous year, was completed during the year at a total cost of Rs. 1,927 out of a sanctioned amount of Rs. 1,946. The expenditure incurred in the construction of the bungalow during the year amounted to Rs. 528. A cart-serai containing ten rooms, together with enclosure walls, was built at Silli on the Public Works road from Ranchi to Purulia at a cost of Rs. 764. A sum of Rs. 519 was also spent in sinking wells and improving *daris* or natural springs. In Palamau, an expenditure of Rs. 4,337 was incurred in cutting heavy rocks and banks of the first section of the Gurwa-Sirguja road. The second section of the road from Ranka to the border of the district, 18 miles long, the construction of which was sanctioned by Government in October 1895 at an estimated cost of Rs. 23,346, was commenced on the 15th December 1895, and earthwork on the first four miles of the section was completed at a cost of Rs. 2,998 when the year closed. The hilly nature of the country and scarcity of labour greatly obstructed the progress of work of the two sections. The extension of the Daltonganj-Hosseinabad road to the border of the district at Dingwar was practically finished during the year; but as many temporary culverts were not satisfactorily made and earthwork not finally dressed, a payment of only Rs. 1,296 was made against a sanctioned amount of Rs. 2,302. A sum of Rs. 1,482 was spent in making improvements and executing earthwork in the Daltonganj-Hariharganj road. A new piece of road from the Shapur ferry-ghat to the 2nd mile of the Daltonganj-Gurwa road, nearly three miles long, was constructed, and the amount spent on this work was Rs. 552 against a

budget allotment of Rs. 588. The construction of a 20-foot arched bridge on the 23rd mile of the Daltonganj Sherghati road was finished during the year at a cost of Rs. 1,000. A sum of Rs. 7,443 was also spent in the construction of culverts on roads Nos. 1, 2, 4 and 9 during the year. The construction of a pukka well at Chandwa on the 27th mile of the Ranchi road, which was reported last year as just commenced, was completed during the year at a cost of Rs. 384. In Manbhum the survey of the Chandil-Bundu road was completed during the year at a total cost of Rs. 426, of which Rs. 414 was paid during the year. The Balarampur-Baginundi road, about 17 miles long, taken up for construction in 1893-94, has already been rendered fit for local traffic, excepting a length of about 2 miles close to the Mahta hills. A sum of Rs. 2,042, against a budget allotment of Rs. 4,511, was spent during the year on this road in earthworks and in the construction of 18 temporary culverts. The total amount paid for the road up to the end of the year amounted to Rs. 5,000 against a sanctioned allotment of Rs. 17,006. By an oversight on the part of the engineering staff, the amount available for expenditure on this work was not noticed till towards the end of the year. This accounts for the actual expenditure being so much less than the year's grant. The omission has, however, been rectified by adding the unspent balance to the contemplated grant for the current financial year. In Singhbhum the expenditure incurred under this head during the year amounted to Rs. 4,366, namely

Chaibassa-Bend road	Rs. 3,297
Chaibassa-Subarnarekha road	Rs. 107
Chaibassa-Jyntgaur road	Rs. 763
Chaibassa-Katharia road	Rs. 199
Chaibassa-Amda road	

in completing the Harinala bridge, and Rs. 199 in finishing a diversion on the Chaibassa-Subarnarekha river road.

8. *Repair works.*—In Hazaribagh a sum of Rs. 45,332 was spent during the year on repair works, namely, Rs. 45,108 in maintaining district and village roads, and Rs. 224 in repairing the Road Cess Office buildings. In Lohardaga 23 district roads were maintained at a cost of Rs. 20,220, and the village roads at Rs. 5,603. Six miles of more track were also converted into roads. In Palamau the expenditure incurred under this head amounted to Rs. 10,878, namely, Rs. 10,378 in maintaining the district and village roads, and Rs. 500 in the repairs of eight inspection bungalows transferred from the Police Department. In Manbhum, excluding Rs. 606, viz., Rs. 316 on account of maintenance of trees and plants, and Rs. 290 contribution towards repairs of the Jubilee Town Hall building, the total sum spent on repair works amounted to Rs. 42,811, namely, Rs. 30,409 in maintaining 32 district roads and Rs. 12,402 in repairing the two Provincial roads transferred to the Road Committee of the district. In Singhbhum a sum of Rs. 5,631 was spent in maintaining district and village roads exclusive of Rs. 196 spent on the maintenance of the trees. The repair works to roads were restricted to the maintenance of the road surfaces and repairs to bridges and culverts and to inspection bungalows.

9. *Arboriculture.*—The following table exhibits the amount spent by each Road Committee under this head.—

District.		AMOUNT SHOWN IN ANNUAL ACCOUNTS UNDER		
		Original works.	Repair works	Total.
1		2	3	4
		Rs.	Rs.	Rs.
Hazaribagh	1,672	1,672
Lohardaga	1,799	1,799
Palamau	...	300	...	300
Manbhum	316	316
Singhbhum	...	152	196	348

In Hazaribagh 1,017 new trees were transplanted with bamboo gabions and 5,492 old ones maintained during the year. The nursery at the head-quarters station contained 4,472 plants when the year closed. In Lohardaga 1,900 seedlings of different sorts were planted on roadsides during the year, and 1,445 large bamboo gabions of approved type were supplied, besides other gabions of a cheaper description. The nursery at the head-quarters station was also continued to be maintained, and 750 seedlings were raised and 937 added during the year. In Palamau 186 new trees were planted on the roadsides during the year and 500 new bamboo gabions were provided. The nursery with a stock of about 100 to 150 seedlings was maintained as usual. In Manbhum 112 new trees were planted, and 218 old trees maintained during the year on the sides of the different Station roads, besides looking after 2,400 old established trees on these roads. The nursery in the Town Hall compound was also maintained. In Singhbhum 700 new bamboo gabions of strong make were supplied for the protection of young plants on the four important roads. The dryness of the climate and the stony nature of the country over which almost all the roads run prevent vigorous growth of the plants, especially in the hot season.

9. The District Engineers and the subordinate establishments under them are reported to have given satisfaction in the discharge of their duties.

Abstract of the report by the Chairman, District Road Committee of Hazaribagh, on the operations of the District Road Fund of the District during the year 1895-96.

[Vide letter No 87D R, dated 30th May 1896, from J L Herald, Esq., c s, Chairman, to the Commissioner of the Chota Nagpur Division]

1. *District Road Committee*—There was no change in the *personnel* of the Committee during the year. Three meetings of the District Road Committee were held during the year, in all of which quorums were obtained. The average attendance was 83 against 96 in the previous year. The low average shows that the members did not take much interest in their duties.

2. *Branch Committee*—There is only one Branch Committee in this district, viz., at Giridih. The reorganization of the Branch Committee by fresh appointments of the members under section 113 of the Cess Act, IX (B C.) of 1880, took place during the year, and Babu Surendra Lal Mitter, Sub-Deputy Magistrate and Collector, was appointed as Vice-Chairman of the Branch Committee. Three meetings were held by the Branch Committee during the year, and the average attendance of the members was 500 against 375 in the previous year.

RECEIPTS.

3. *Cess Collections*.—The Road Cess was levied in this district at the maximum rate prescribed by law, viz., 6 pies per rupee. The demand for cess on lands and mines, &c., during the year amounted to Rs 55,669 against Rs 56,021 in the previous year. The decrease in the demand is attributable to the valuations of the coal-mines of the Bengal Coal Company made during the year by the Collector of Burdwan. The principal place of business of the Company being at Burdwan, the valuations of their coal-mines are made in that district. The total demand of the district, including the arrears of Rs 1,290 outstanding at the close of 1894-95, amounted to Rs 56,959 against Rs 58,010 in the previous year. Out of the demand of Rs 56,959, Rs 14 were remitted and Rs 55,930, including Rs 1,641 previously paid in advance, were collected during the year, as compared with Rs 56,720 in the previous year, leaving an outstanding balance of Rs 1,615, or 2.83 per cent, on the total demand, against Rs. 1,290, or 2.22 per cent., in the previous year. The advance collections during the year amounted to Rs 1,854 against Rs. 1,711 in the previous year. The percentage of arrear collections on arrear demand was 98.36, that of current collections on current demand 97.13, and that of total collections on current demand 99.40, as compared with 99.01, 97.73 and 101.24, respectively, in the previous year. Certificate procedure was adopted to recover the arrears during the year, except the arrears due from 55 revenue-paying estates in which the last instalment of the year was payable on the 28th March 1896, for recovery of which no coercive measures could be taken within the year.

EXPENDITURE

4. *Original Works*.—The total outlay under this head amounted to Rs. 5,729 against Rs. 2,605 in the preceding year. The principal items were as follows:—

(1) Rupees 1,959, due to contractors on account of the five inspection bungalows completed in the previous year, viz., at Kalkamsandi, Nasriganj, Khejuri, Dudhimatti and Burkagawan, on roads Nos. 5, 10, 29, 32 and 40, respectively, were paid during the year.

(2) Three masonry wells, viz., two on road No. 1 at Chatra and Itkhuri, respectively, and one on road No. 32 at Dudhimatti, were completed at a cost of Rs 295, Rs 324 and Rs 325 respectively.

(3) Rupees 19 were expended on the well at Jubra on road No. 6, which was commenced in 1894-95, but it could not be completed during the year owing to rocky soil having been found.

(4) Twenty *dars* (spring) wells were excavated and lined with masonry at a cost

(5) The gravelling of road No. 19 from Dhanwar to Jamu, a distance of over 12 miles, was taken up, and an expenditure of Rs 1,471 was incurred on it.

5. *Repairs, District Roads*—The number of roads in this district was forty-six. Of these, thirty three roads, aggregating 532 miles in length, were repaired during the year at a cost of Rs 34,759, as compared with Rs 29,945 for repairs to thirty five roads aggregating 544 miles in length in the preceding year. The following table compares the cost incurred on each class of roads during the years 1894-95 and 1895-96—

DESCRIPTION OF ROADS.	1894-95.		1895-96.	
	Length	Cost	Length	Cost
1	2	3	4	5
		Rs		Rs.
Road under class I .	43	5,923	43	7,721
Ditto II ...	85	4,394	70	4,948
Ditto III .	239	9,845	240	11,325
Ditto IV ...	153	8,653	155	9,499
Ditto V ...	24	1,130	24	1,266
Total .	544	29,945	532	34,759

6 *Repairs, Village Roads*—Thirty-two village roads, aggregating 148 miles in length, were maintained during the year at a cost of Rs 6,338, viz., twenty roads aggregating 55 miles in the head-quarter subdivision at Rs 1,811, and twelve roads, aggregating 93 miles, in the Giridih subdivision at Rs 4,427, against thirty-four village roads of a length aggregating 187 miles maintained in the previous year at Rs 7,515, viz., twenty-two roads covering 61 miles in the head-quarters subdivision at Rs 2,298 and twelve roads aggregating 126 miles in the Giridih subdivision at Rs 4,717. For want of labour in some parts of the district, the whole allotment of Rs. 2,000 for the head-quarters subdivision was not spent during the year. A sum of Rs. 5,260, including Rs 260 for the cost of establishment and contingencies, was placed at the disposal of the Branch Committee at Giridih during the year, out of which Rs 5,238 were spent, viz., Rs 4,427 on maintenance of village roads, Rs 475 on repairs and furniture of inspection bungalows, Rs 81 in planting and maintaining trees and Rs 255 on account of cost of establishment and contingencies of the Branch Committee, as compared with Rs 5,255 expended in the previous year, viz., Rs 4,717 on maintenance of village roads, Rs 234 on repairs and furniture for inspection bungalows, Rs 48 in planting and maintaining trees, and Rs 256 on account of cost of establishment and contingencies. The repairs to the Giridih town roads were undertaken departmentally under the supervision of the Vice-Chairman of the Branch Committee.

7. *Arboriculture*.—1,017 new trees were transplanted during the year with bamboo gahons and 5,492 old ones maintained on the roadsides, as compared with 750 new trees transplanted and 4,442 old ones maintained in the previous year. The total outlay under this head amounted to Rs. 1,753, viz., Rs 1,672 for the head-quarters and Rs 81 for the Giridih subdivision, against Rs 2,275, viz., Rs. 2,227 for the head-quarters and Rs 48 for the Giridih subdivision in the previous year.

8. *Nursery*—In this district there is only one nursery garden in the Road Cess office compound. It contains 4,472 plants, viz., 31 mango, 77 jamoon, 135 neem, 1,240 sishoo, 480 *eucalyptus*, 820 karanj, 145 teak, 13 kahoo, 320 date-palm, 140 *porciaiana regia*, 187 mohua, 406 babool, 120 *grevillia robusta*, 40 kusum, 13 *ficus madura*, 46 mahogany, 11 mulberry, 20 ashua, 6 rose apple, 46 jack, 91 amish and 82 ansfal.

9 *Buildings*—Twenty-three rest-houses or inspection bungalows, viz., twenty-one under the District Road Committee and two under the Giridih Branch Committee were maintained at a cost of Rs 4,030 against Rs. 2,032 in the previous year. The Road Cess office building at Hazaribagh was kept in repair during the year at a cost of Rs 224 against Rs 236 in the previous year. There is only one road cess staging bungalow in this district, viz., at Ramgurih on the Ramgurih and Gola road. The income from the bungalow during the year amounted to Rs. 62 against Rs. 60 in the year preceding. The bungalow was repaired during the year at a cost of Rs 125 against Rs 147 in the previous year. The cost of establishment and contingencies for the staging bungalow during the year amounted to Rs 112 as compared with Rs 111 in the previous year. There is only one cart serai in this district, viz., at Bagodar on the Grand Trunk road. The income from this serai during the year amounted to Rs 47 against Rs 92 in the previous year. The serai was maintained during the year at a cost of Rs. 243, as compared with Rs. 18 in the previous year. The income from the

cartserai is decreasing year by year, the reason being that the cartmen, in order to avoid payment of the required fee for stopping in the serai, halt at the *chatti* with their carts and bullocks.

10. *Establishments.*—The Public Works Establishment of the Road Committee of this district consists of one District Engineer and five sub-overseers. The total cost of the above establishment during the year amounted to Rs. 8,262 against Rs. 8,478 in the previous year. The percentage of the cost of establishment on the total expenditure on public works was 35.41 against 18.89 in the previous year.

11. The monthly accounts were, as usual, audited by a sub-committee appointed under section 174 of the Cons. Act.

J. L. HERALD.

Abstract of the Report by the Chairman, District Road Committee of Lohardaga, on the operations of the District Road Fund of the district during the year 1895-96.

[Vide letter No. 48D.R., dated 13th June 1896, from H. C. Streetfield, Esq., c.s., Chairman, to the Commissioner of the Chota Nagpur Division]

1 *Working of the Committee.*—The attendance of the non-official members was not satisfactory. Out of eight non-official members, one attended six, one five, one three, two two, and three one meeting only. Of the seven meetings held during the year, five were special and two ordinary. The average attendance was four, as in the previous year.

*** RECEIPTS.**

2 *Collection.*—The demand on account of cess on lands and mines during the year, including the arrears of the previous year, amounted to Rs. 50,953, of which Rs. 37,112 were collected within the year, leaving a balance outstanding at the close of the year of Rs. 13,841. The whole of the balance fell due on the 28th March, and could not therefore be realized under the Certificate Act within the year.

EXPENDITURE.

3. *Original Works.*—The following works were carried out during the year —

(1) The construction of the road from Bero to Tato and Sesai (length 35 miles) including the bridges, which was commenced in 1891-95, was completed during the year.

(2) The inspection bungalow at Jaria, on the 33rd mile of Ranchi-Palkote road, of kutchha-pukka masonry walls and terraced roof, including out-offices, which was all but finished in 1894-95, was completed and paid for in 1895-96.

(3) Two rest-houses or inspection huts, one at Bhorno and the other at Murgoo, with mud wall and tiled roofs, were constructed on the new road from Bero to Tato and Sesai.

(4) A cart sarni containing ten rooms, together with enclosure walls, was built at Silli on the Public Works Department road from Ranchi to Purulia.

4. *Repairs, District Roads*—482½ miles of district roads were maintained passable for traffic by surface and patch repairs, and repairs to metalling and temporary bridges. Surface repairs were also done to the class V roads as far as funds permitted. Besides the above, portions of certain roads were newly gravelled, and a mile was added to each of the Lohardaga-Sumbulpur and the Bundu-Jhalda roads by improving the tracks.

5. *Repairs, Village Roads*—Village roads, of which 151 miles were class III roads and 180 miles class V roads, were maintained. Several temporary bridges were reconstructed and petty repairs executed. Six miles of mere track were converted into roads.

6. *Arboriculture.*—Seedlings of mango, jack, teak, karanj, jamun, and others, 1,900 in number, were planted along different roads to fill up gaps in the avenues previously planted out. Of these, 750 were taken from the nursery, and the rest were small seedlings locally procured. The following statement shows the progress made during the year under review:—

Length of roads planted in—		Number of roadside trees in—		Planted in filling up gaps.
1894-95.	1895-96.	1894-95.	1895-96.	
1	2	3	4	5
66½	67½	11,646	12,584	1,900

A large number of plants died owing principally to the drought during the last five months of the year in spite of attempts to water them as far as funds would permit. 25 good mango grafts were planted in the compounds of the inspection bungalows. All the roadside trees were maintained throughout the year. 1,445 large bamboo gabions of approved type were supplied for the protection of plants, besides other gabions of a cheaper description, and many plants had to be protected with a fencing of thorn. A nursery was maintained at head-quarters, and seedlings of karanj, teak, mahua, mango, jack, bahera, bokul, panseana, reja, kanak champa, nageshur champa, neem, toond, tamarind, jamun,

kusum, sal, mahogany and others, to the number of 937, were reared during the year. The chaukidar in charge of the Lohardaga and Opa bungalows maintained small nurseries in the compounds of these bungalows.

7. *Buildings*—An old police bungalow at Lodhma, on the 14th mile of Ranchi-Palkote road, was purchased at a cost of Rs. 100, and converted into an inspection bungalow the accommodation consisting of three rooms. It was thoroughly repaired and improved by constructing light roofs and pukka floors in all the rooms and by building an sub-office. Besides these, six inspection huts were repaired. Repairs were also done to the Road Cess office bungalow and godown.

8. *Sanitation*.—Rupees 519-1 were spent in constructing a pukka well at Kamdera and improving one at Bero, and three *daris* or natural springs at Boramibey, Het Jary, and Sonahatu, from which the people got their supply of drinking water, were improved. In previous years the people have always avoided these improved springs, thinking that the corrugated iron would spoil the water, but this year it is said that owing to scarcity of water the people have used these springs.

9. *Tools and Plant*—2 small tents, 24 pick-axes, 24 kodalis, 4 pruning saws, furniture and crockeries for the two new staging bungalows and several other tools were purchased.

10. The establishment entertained under the Road Cess Act was:—

- (a) Establishment for collection of revenue.
- (b) Committee's office establishment.
- (c) Engineering establishment.

The establishment for the collection of revenue consists of one head-clerk and accountant, one assistant clerk and one peon. These officers also do the work of the Committee's office for which there is no separate establishment. The several establishments employed under the Committee performed their duties satisfactorily.

11. Generally, it may be said that more attention has been paid to good and lasting work in the roads and buildings than to quantity of work. The works have all been executed by contract during the year and the small sums advanced to the contractors have been adjusted. The following table shows the relative expenditure on works and repairs compared with expenditure on establishment, &c., 1895-96 —

Original works.	Repairs.	Total.	Establishment on works	All other expenditure.	Percentage of expenditure on establishment on the outlay on works.
1	2	3	4	5	6
Rs. A. P. 9,768 4 5	Rs. A. P. 27,621 13 5	Rs. A. P. 37,389 1 10	Rs. A. P. 7,674 1 10	Rs. A. P. 10,403 5 9	21

12. *Accounts*—The monthly accounts of the Road Fund and of the District Engineer's Office were examined and audited by the Vice-Chairman and two other English-knowing members of the Committee, who were appointed for the purpose. The accounts of the year were duly examined and audited by a Sub-Committee consisting of the Vice-Chairman and two other English-knowing members of the Committee. The Local Auditor inspected the District Boards' and the District Engineer's Office on the 13th May 1896, and the result was satisfactory.

H. C. STREETFELD,

Chairman.

Abstract of the Report by the Chairman, District Road Committee of Palamau, on the operations of the District Road Fund of the district during the year 1895-96.

[Vide letter No. 63D R, dated 27th May 1896, from J. D. Cargill, Esq., c.s., Chairman, to the Commissioner of the Chota Nagpur Division]

1 *District Road Committee.*—Nine meetings of the District Road Committee were held during the year, in all of which a sufficient number of members was present to form a quorum. The average attendance of members was 7 against 73 in the preceding year, out of a total of 16 members

RECEIPTS

2 *Working of the Cess Act*—Road cess was levied at the maximum rate of half an anna in the rupee both on the annual value of lands and on the annual net profits from mines. The demand on account of cess on lands and mines during the year was Rs 21,768 against the same sum in the preceding year. The year commenced with an arrear balance of Rs. 3,053, and thus, together with the current demand for the year, *minus* Rs 859 previously paid in advance, gave a total of Rs 23,962 for collection within the year. Of this sum, Rs 3,050 were realized on account of arrears and Rs 17,312 on account of the current demand leaving a balance at the end of the year of Rs 3,600 against Rs 3,053 in the preceding year. Besides the arrear and current collection mentioned above, a sum of Rs. 718 was collected in advance for the coming year. Thus the total collections during the year amounted to Rs 21,080 against Rs. 21,137 in the preceding year. Out of the balance of Rs 3,600, the sum of Rs 2,503 is due from the following principal estates—

					Rs.
(1) Chandegir	123
(2) Shonpura	1,114
(3) Namudag	156
(4) Myapur	56
(5) Patan	53
(6) Palhey	35
(7) Tori	966
Total					2,503

EXPENDITURE.

3 *Original Works—Communication*—The total amount expended on original works was Rs 20,787-1-6 against Rs. 18,678-3-2 in the preceding year. The following original works were undertaken during the year—

- (1) The first section of the Gurwa-Sirguja road, on which an expenditure of Rs. 6,128 was incurred in 1894-95, could not be completed during the year owing to the unusual dryness of the season and want of labour. Some of the heavy rock-cuttings and heavy banks were only half finished when the year closed. An expenditure of Rs 4,337 was incurred in 1895-96 against a budget allotment of Rs 4,832.
- (2) The second section of the Gurwa-Sirguja road from Banka to the border of the district, 18 miles in length, which was sanctioned by Government in October 1895 at an estimated cost of Rs 23,346, was commenced on the 15th December 1895, and earthwork on the first four miles was completed when the year closed. The expenditure incurred was Rs 2,998.
- (3) The construction of a number of pukka culverts on the Daltonganj-Hariharganj road which was commenced in 1894-95, was completed during the year at an expenditure of Rs 3,030.
- (4) The construction of a 20-foot arched bridge on the 23rd mile of the Daltonganj—towards—Sherghati road was finished during the year, and the expenditure incurred was up to the sanctioned estimate of Rs 1,900.
- (5) The extension of the Daltonganj-Hossenabad road to the border of the district at Dingwar was practically finished during the year, but as several temporary culverts were not satisfactorily constructed and earthwork was not finally dressed, a payment of only Rs 1,296 was made against a sanctioned allotment of Rs 2,302.
- (6) The construction of two pukka culverts and re-grading certain steep lengths on Daltonganj-Gurwa road on the 18th and 17th mile were completed, and the Dobra river approaches re-graded at an expenditure of Rs. 1,104.
- (7) The replacing of 35 temporary brushwood culverts on the Ranchi road with substantial culverts of dry rubble stone was taken in hand and finished at an expenditure of Rs 1,450.
- (8) The construction of dry rubble stone culverts in place of brushwood culverts on the Majewan to Hossenabad (Japla) road was completed at a cost of Rs 1,000.
- (9) The construction of 8-feet culverts at Jhariduba on the 44th mile of the Majewan to Hossenabad road, which was commenced in 1894-95, was completed during the year at a cost of Rs. 444.

- (10) The execution of earthwork in improving the Daltonganj-Hariharganj road, filling in the approaches to the new pukka culverts, and re-grading the steep approaches in and out of the Amanat, Sadabaha and Kara rivers were completed at a cost of Rs 1,482
- (11) The construction of a new piece of road, 2 miles and 11 chains long, from the Shapur ferry ghat to the 2nd mile of Daltonganj-Gurwa road was finished during the year, and the amount expended on it was Rs 552
- (12) A contribution of Rs 415 was made to the Gava District Board for constructing a pukka culvert of 2 spans of 6 feet each at the boundary of the district at the 4rd mile of the Daltonganj-Hariharganj road. *
- (13) The construction of a pukka well at Ohandwa on the 57th mile of the Ranchi road, which was commenced in 1894-95, was completed, and an expenditure of Rs 384 was recorded during the year.

4 *Original Works — Provincial Buildings* — The following table shows the estimated cost of and outlay on original works of all descriptions executed from Provincial grants during the year —

NAME OF WORK	Authority by whom sanctioned	Amount sanctioned	Outlay to 31st March 1896.	REMARKS.

1 Providing wire-netting to doorway in the malkhana of Deputy Commissioner's Cutcherry at Daltonganj	Bengal Government, Public Works Department letter No 1882B, dated 16th April 1895	Rs 12	Rs 12 0 0	Completed
2 Erecting a wooden railing in the room to be used by the Court Nazir as his office in the Deputy Commissioner's Cutcherry at Daltonganj	Ditto, ditto No 2030B, dated 23rd April 1895	31	31 0 0	Ditto
3 Supplying two pole punkies to the registration office at Daltonganj	Ditto, ditto No 3747B, dated 11th July 1895	24	24 0 0	Ditto
4 Additions and alterations to the malkhana room of Deputy Commissioner's Cutcherry at Daltonganj	Ditto, ditto No 562B, dated 30th January 1895	242	241 14 10	Ditto
5 Additions and alterations to the cow shed attached to the Intermediate Jail at Daltonganj	Ditto, ditto No 4074B, dated 23rd July 1895	188	178 0 0	All completed, except the iron receptacle which has not been received
6 Providing a wire-netted wooden partition in the tauri office of the Deputy Commissioner's Cutcherry at Daltonganj	Ditto, ditto No 4206B, dated 3rd August 1895	150	150 0 0	Completed.
7 Constructing a night latrine in the hospital ward of the Intermediate Jail at Daltonganj	Ditto, ditto No 5133B, dated 30th September 1895	125	125 0 0	Ditto
8 Constructing a small workshop in the female ward of Daltonganj Intermediate Jail	Ditto, ditto No 4485B, dated 12th August 1895	92	92 0 0	Ditto
9 Constructing an additional bath room in back verandah of the Deputy Commissioner's residence bungalow	Ditto, ditto No 5236B, dated 27th October 1895	141	141 0 0	Ditto
10 Constructing an additional out-house for the Deputy Commissioner's bungalow at Daltonganj	Ditto, ditto No 4646B, dated 6th February 1896	330		In progress
	Total	..	994 14 10	

5 *Repairs — District Roads* — Of the 305½ miles of fair-weather roads in the district, 284½ miles are of class III and 21 miles of class V. The above is exclusive of the 31 miles of the Gurwa-Sirguja road under construction and the 7 miles of Daltonganj-Hosseinabad road extension which is nearly completed. The total expenditure on class III and class V of roads during the year was Rs 10,034, or an average of Rs 32-8 per mile, as against Rs. 9,387, or Rs. 30-8 per mile in the previous year. The principal items of work executed in repairing the roads were as follows. —

- (1) Jungle-clearing and petty repairs to the road surface and maintaining it in fair order.
- (2) New drain-cutting where the road lies low or is on steep grades, and cuttings to improve the drainage
- (3) Re-grading some of the steep approaches in and out of unbridged rivers.
- (4) Petty repairs to the existing pukka culverts.
- (5) Gravel patch repairs to the first four miles of the three principal roads leading out of head-quarters
- (6) Earthwork in raising low portions of roads skirted by paddy fields and maintaining temporary culverts in repair.

6 *Repairs — Village Roads* — There are 25½ miles of village roads. Of these 4½ miles are class III and 21 miles class V. The total expenditure on village roads was Rs. 182, or Rs. 7 per mile, as against Rs. 275, or Rs. 11 per mile in the previous year

7 *Repairs — Staging and Inspection Bungalows* — The expenditure on the maintenance and repairs of staging and inspection bungalows was Rs. 844-15-2.

8. *Repairs.—Provincial Buildings.*—The principal works executed during the year under this head were as follows.—

	Amount expended during 1895-96		
	Rs.	A.	P.
(1) Quadrennial repairs to the Deputy Commissioner's bungalow and out-houses	1,180	0	0
(2) Quadrennial repairs to the District Superintendent of Police's bungalow and out-houses	939	15	3
(3) Petty repairs to the Deputy Magistrate's bungalow	64	14	3
(4) Ditto Cutcherry buildings	42	6	6
(5) Ditto New Jail buildings	9	8	0
Total	2,236	12	0

9. *Arboriculture*—A sum of Rs. 300 was sanctioned for the maintenance of the existing roadside trees and planting out new ones. There were only 186 new trees planted out this year against 326 in the previous year. Five hundred new bamboo gabions were provided. Owing to abnormal dryness, greater attention was paid to the maintenance of the existing trees under 7 feet in height on roadsides than to planting out new ones. The nursery garden, with a stock of about 100 to 150 seedlings, was maintained as usual. The following table shows the progress made during the past three years in arboriculture in this district

Particulars of roadside trees.	Number in March 1894	Number in March 1895.	Number in March 1896.
1	2	3	4
Grown up trees above seven feet	266	350	393
Trees under six feet protected by bamboo gabions	408	933	1,046
Ditto ditto by thorus and brushwood fences	726	411	405
Total	1,400	1,694	1,844

11. *Establishment* The Engineering establishment of the district consisted of (a) one District Engineer on Rs 250 per month, of which Government contributes Rs 100, (b) one Sub-Overseer on Rs 35 per month, and (c) a temporary Sub-Overseer in charge of the Sirguja road whose pay was provided for in, and charged to, the estimate for that work. The cost of the Engineering establishment during the year was Rs 5,131 against the budget grant of Rs 5,160. The following statement shows the relative expenditure on works and repairs compared with the expenditure on establishment —

DISTRICT	Year	Revenue.	Amount spent on original works	Amount spent on repairs	Total expenditure on original works and repairs	Expenditure on account of establishment employed on works	Total expenditure on works including the cost of establishment employed on them	Percentage of the cost of establishment on the amount actually spent on works	Percentage of total expenditure on works including establishment on the revenue	REMARKS
1	2	3	4	5	6	7	8	9	10	11
Palamau	1894-95	Rs 29,104	Rs 18,079	Rs 12,227	Rs 30,305	Rs 5,127	Rs 36,032	16.5	123.8	
Ditto	1895-96	44,620	20,787	13,115	33,902	5,131 + 115	39,033	15.6	87.7	

12. *Tools and Plant*—The expenditure under this head was Rs. 350-4-5

13. *Staging Bungalow.—Establishment and Contingencies.*—A sum of Rs 930-15-5 was spent under this head against an allotment of Rs 926. Besides the wages of chaukidars, a sum of Rs. 438 was expended for providing certain necessary articles of furniture and crockery.

14. *Staging Bungalow.—Petty Construction and Repairs*—A sum of Rs. 500 was spent in executing repairs under this head against an allotment of Rs 500

15. The opening balance of the District Road Committee in 1894-95 was Rs 24,097-15-6, and that in the year 1895-96 Rs. 26,734-2-4. This balance could not be brought down to the limit of one quarter's income as prescribed by the Rules in consequence of the unexpended balance of about Rs. 18,000 out of the grants for the first and second sections of the Gurwa Sirguja road. This was due to the hilly nature of the country through which the road passes, the scarcity of local labour and the difficulty of importing coolies from the neighbouring districts

16. The accounts of the Committee's office are kept under the direct supervision of the Chairman. These accounts, as well as those of the District Engineer's office, were audited monthly by the standing Sub-Committee composed of the Vice-Chairman and two other English-knowing members appointed under the provisions of section 174 of the Act.

J. D. CARGILL,
Chairman.

Abstract of the Report by the Chairman, District Road Committee of Munbhun, on the operations of the District Road Fund of the district during the year 1895-96.

[Vide letter No. 81D R, dated 20th July 1896, from L F Morshead, Esq., c.s., Chairman, to the Commissioner of the Chota Nagpore Division.]

1 *Working of the Committee*—The Committee held 14 meetings during the year for the transaction of their business, and at all the meetings a sufficient number of members was present to form a quorum.

2. *Working of the Branch Committee*—No meeting was held during the year. The Branch Committee is under reconstruction with additional powers.

RECEIPTS

3 *Working of the Cess Act, IX of 1880*—The demands, collections and balances of Road and Public Works cesses are shown in the following statement:—

DISTRICT.	DEMAND.			COLLECTION			BALANCE			Remission	Net balance.
	Current	Arrear	Total	Current	Arrear	Total	Current	Arrear	Total		
1	2	3	4	5	6	7	8	9	10	11	12
	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs	Rs
Road cess	41,506	11,074	52,580	24,810	10,870	35,680	14,080	203	14,283	200	14,083
Public Works cess	11,008	1,073	12,081	20,820	1,870	22,690	14,087	204	14,291	201	14,090
TOTAL	52,514	12,147	64,661	45,630	12,740	58,370	28,167	407	28,574	401	57,969

The outstanding balance of the year 1894-95 was Rs 22,147, and the demand for the year 1895-96 was Rs. 83,012, against Rs 6,087 (outstanding balance) and Rs 78,137 (demand) respectively for the previous year. The increase in demand was due to the assessment of some new coal-mines. The collection during the year is Rs 75,379, against Rs. 61,323 of the previous year. The percentage of the total collection on the total demand is 71.69. The deficient collection is due to the large amount of arrears from the Pachete Estate. The amount due from the Pachete Estate has, however, been partly realized after the close of the year, and certificates have been issued for the realization of what remains. The following statement will show the total amount placed in the hands of the District Road Committee consisting of road cess and other petty miscellaneous collections and the expenditure incurred during the year.—

<i>Receipts.</i>		<i>Expenditure</i>	
	Rs.		Rs.
Road Cess collection	37,914	Establishment	10,768
Other receipts	1,864	Original Works	2,456
Total	39,682	Repairs	31,015
Cash balance on the 1st April 1895, excluding contribution for Provincial roads	14,135	Other charges	4,796
Total	53,817	Total	49,035

Besides the above, the Government contributed Rs 12,900 for the maintenance of the two Provincial roads. The whole of this amount is spent solely on their maintenance. There is only one Sub-Overseer to look after these works, who is paid by Government.

EXPENDITURE.

4. *Original Works*—(a) *Communications*—The allotment under this head for the year was Rs 4,988, of which Rs 477 were for surveying a line of road from Chandil to the border of the district in the direction of Bandu in Lohardaga, and the remainder Rs 4,511, for the construction of the Balarampur-Bagmundi road. The survey of the Chandil-Bandu road was completed during 1895-96 at a total cost of Rs 426, of which Rs. 414 were spent during the year. The Balarampur-Bagmundi road is a third class road taken up for construction since 1893-94 to connect Bagmundi, a village with a police-station in the south-western part of the district, with the Bengal-Nagpur Railway station at Balarampur. The works done in this road during the year consisted of some earthwork (about 3,50,000 c. ft.), and the construction of 18 temporary stone culverts of a total waterway of 66 r ft. The total amount paid for them was Rs 2,042, making a total outlay of Rs. 6,000 up to the end of 1895-96 against an estimate of Rs 17,056.

(b) Buildings

(c) Sanitation

(d) Miscellaneous

Nothing was done under these heads during the year.

5. *Repairs*—(a) *Communications*.—The total length of roads under the District Road Committee was 467½ miles, of which 59 miles were Provincial roads transferred to the Committee in 1893-94, and 408½ miles, District roads of all classes. The annual Government grant for the Provincial roads, two in number, was Rs 12,900. The total amount spent on them was Rs. 12,402. A detailed statement showing the amount of expenditure under different heads in these roads is given below:—

NAME AND DESCRIPTION OF ROAD	Length in miles.	AMOUNT SPENT FOR—						COST PER MILE FOR—					
		Maintaining and improving road surface.	Maintaining bridges and culverts.	Maintaining inspection bungalows.	Arboriculture.	Demarcating boundary pillars.	Total.	Maintaining and improving road surface.	Maintaining bridges and culverts.	Maintaining inspection bungalows.	Arboriculture.	Demarcating boundary pillars.	Total.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
	Rs	Rs		Rs	Rs	Rs	Rs	Rs.		Rs	Rs	Rs	Rs.
Chassi Goolbera road (kutchua but partly gravelled)	17	2,510		641	245		3,396	147	..	37	23	..	207
Puruli-Bankar road (metalled)	42	5,740		1,593	990	351	8,674	137		38	23	13	211

In addition to ordinary repairs, the following works were executed during the year under report in these Provincial roads —

(i) *Puruli-Bankar Road, 42 miles*.—Three miles of this road were retetalled, and one mile was gravelled over old metalling. The demarcation of the boundary pillars was completed (though not finally paid for). The reduction in sizes and improvement was also completed.

(ii) *Chassi-Goolbera Road, 17 miles*.—Portions aggregating about 3 miles were improved with gravel work, puuka side-drains in the lower portions of the approaches to two rivers and a rough sort of causeway in the bed of a nala were constructed, and the formation and slopes of some of the banks were adjusted and improved.

The amount spent on District roads of all classes during the year was Rs 31,015 against a revised budget grant of Rs 36,831. Of this, Rs 19,509 was for works undertaken and executed during the year, and Rs 11,506 for those undertaken during the preceding year, but completed during 1895-96. The operations of the year were chiefly restricted to the maintenance of the several roads and petty improvements by gravel work. The surface and approaches to unbridged nalas and rivers and the slopes and formation of old ~~had a large~~ of the roads were adjusted and restored. Owing to want of rain, the road work could not be all finished and paid for during the year. An endeavour will be made to complete and pay for works estimated for within the year in future. A classified statement showing expenditure under different heads on the several roads is given below —

YEAR	Description of road	Length in miles	AMOUNT SPENT IN EACH CLASS OF ROAD				COST PER MILE ON EACH CLASS			
			Maintenance of road surface	Repairs to bridges and culverts.	Repairs to inspection bungalows.	Total	Maintenance of road surface	Repairs to bridges and culverts.	Repairs to inspection bungalows.	Total
1	2	3	4	5	6	7	8	9	10	11
1895-96	I	4½	Rs 229	Rs .	Rs .	Rs 229	Rs 98	Rs .	Rs .	Rs 98
1904-95	I	2½	205			205	114	114
1895-96	II	19	12,856	1,238	1,311	15,305	64	6	7	77
1904-95	II	109	10,125	..	370	10,495	51	..	2	53
1895-96	III	19	7,003	..	1,444	8,447	61	..	11	72
1901-95	III	127	6,871	..	212	7,083	54	..	2	56
1895-96	IV	78	5,945	..	229	6,174	69	..	2	71
1904-95	IV	78	4,353	..	181	4,534	56	..	2	58

The increase in the length of class III roads was due to the increase of length actually repaired.

(b) *Buildings*.—The only buildings in charge of the District Road Committee were the inspection bungalows and the cart serais. These are maintained in fair condition. The amount spent during the year on repairs to bungalows including wages of chaukidars was Rs 2,978. For serais the expenditure was Rs. 1,441 against a budget grant of Rs 1,476. In addition to the above, a sum of Rs. 290 was paid by the Committee to the Municipal Commissioners of Purulia for repairs to the Jubilee Town Hall, which was built at the joint

expense of the Municipality and the District Road Committee and part of which is occupied by the Committee's and the District Engineer's offices. Rs. 155 were also spent during the year on the reconstruction of a rest-house at Manbazar to replace the old rest-house there which was burnt down about 5 years ago. The grant for this work for the year was Rs. 600; but on account of unavoidable circumstances, the work could not be taken in hand till towards the close of the year.

(c) *Simulation*
(d) *Miscellaneous* } Nothing was done under these heads during the year.

6 *Agriculture*.—The work done under this head out of the District Road Fund was not very large. It consisted chiefly of the maintenance of the nursery in the Town Hall compound and the young trees on the different station roads, numbering altogether 3,10, including 112 planted during the year under report. The old established trees (about 2,400 in number) in these roads were also taken care of. Some of these got blown down during high winds or died from natural causes. The gaps, however, were mostly filled up by planting young trees. The total expenditure under this head during the year was Rs. 316, being Rs. 96 for works covered by the preceding year's estimate, and Rs. 220 by that for the year against a budget grant of Rs. 300. The works done in the Provincial roads under the Committee consisted chiefly of the maintenance of young and established trees in the portions of roads under plantation as detailed under

(i) *Chass-Goolbera Road*.—As in the preceding year, four out of 17 miles of this road were under plantation. There were altogether 786 trees, of which 149 were established and 637 of sizes varying from 3 to 5 feet in height, in these 4 miles, against 778 unestablished trees in the preceding year.

(ii) *1st section, Puruha-Burakar Road*.—In this section of the road $5\frac{1}{2}$ out of the 17 miles were under plantation, being half a mile (latter half of mile 16) more than the length in the preceding year. In this length there are altogether 1,122 trees, of which 276 are established and 846 of sizes varying from 3 feet to upwards in height against 920, consisting of 127 established trees and 793 young trees in the preceding year.

(iii) *2nd Section, Puruha-Burakar Road*.—In this section of the road, 13 out of 25 miles, or the same length as in the preceding year, were under plantation. The total number of trees are 2,090, consisting of 1,091 established and 999 young trees, against a total of 2,027, consisting of 937 established and 1,090 young trees in the preceding year. The decrease in the number of young trees is due to some of them having grown up and been included among established trees.

The total expenditure under this head on the above (principal) roads was Rs. 1,375, being Rs. 335 in the Chass-Goolbera Road, and Rs. 491 in the 1st section and Rs. 499 in the 2nd section of the Puruha-Burakar road, against sanctioned estimated amounts of Rs. 400, Rs. 500 and Rs. 500 respectively.

Working Establishment.—During the year there has been no material change in the Executive Establishment, save that an additional Sub Overseer on a salary of Rs. 35 per month with a fixed horse allowance of Rs. 15 was by Government order appointed under the District Engineer to ensure proper supervision, owing to increased road work. All hands worked satisfactorily.

No 6—Part I.

L. S. MORSHEAD,
Chairman.

Abstract of the Report by the Chairman, District Road Committee of Singhbhum, on the operations of the District Road Fund of the district during the year 1895-96

[Vide letter No 29R C, dated 22nd May 1893, from C. H. Bomme, Esq., C.S., Chairman, to the Commissioner of the Chota Nagpur Division]

1. *Committee's meetings*—Three official and seven non-official members form the District Road Committee. Seven meetings of the Committee were held during the year, in all of which a sufficient number of members were present to form a quorum, their average attendance being 6.0 against 5.7 in the previous year. Almost all the members were regular in their attendance in the transaction of the business of the Committee, except a member from Dhalbhum who failed to attend any of the meetings during the year.

RECEIPTS

2. *Working of the Cess Act*—The demands, collections and balances on account of road cess on lands, quarries and jungles for the year are shown in the following statement—

The outstanding balance for 1894-95 was Rs. 19-12, and the demand for the year 1895-96 was Rs. 4,719-4-6 (including the sum of Rs. 117-0-0, due to the Collector of Midnapore as road cess for 35 villages of taluk Porthury in Dhalbhum, situated in the Midnapore district). The total gross collections of the year amounted to Rs. 4,426-4-10, or 99.58 per cent, (deducting remissions of Rs. 23-6-) against 98.95 in the previous year.

3. The following table compares the opening balance, receipts, charges and closing balance of the year with those of the two previous years—

Particulars	1893-94	1894-95	1895-96	REMARKS
1	2	3	4	5
Opening balance	Rs. 5,113	Rs. 4,051	Rs. 2,730	
Receipt	18,818	17,091	15,319	
Total	24,231	21,172	18,049	
Charges	19,850	18,742	14,974	
Closing balance	4,381	2,430	3,075	

EXPENDITURE

4. *Public Works—Ordnal Works*—The expenditure under this head during the year was Rs. 4,518-6-8 against a budget allotment of Rs. 5,000. The following works were executed—

(a) Heavy portions, about 6.25 miles in length, of the following roads were gravelled at a cost of Rs. 3,294-2-7, or Rs. 527.52 per mile

- (1) Charbassa-Band road
- (2) Charbassa-Subar. kh river road
- (3) Charbassa-Jyngul road
- (4) Charbassa-Katbari road
- (5) Charbassa-Andra road

(b) Easing the spots of the High road at Sanjay Nalas on the Chakradharpur-Koknaga road at a cost of Rs. 100-11-3

(c) The masonry bridge on the High road of Charbassa-Band road, commonly called H. N. Nala bridge, was completed at a total cost of Rs. 3,301-9 against the estimated cost of Rs. 3,000. The expenditure during the year was Rs. 760-6-11.

- (d) The diversion road at Manickpur ghat, on the Chaibassa-Subarnarekha river road, was also completed during the year at a total cost of Rs 4,757-6-6 against the estimated amount of Rs 4,814, a sum of Rs 198-10-10 being spent during the year.
- (e) About 700 new *dela*s (bamboo gabions) of strong make were supplied for the protection of young plants on the four important roads at a cost of Rs 152-7-1.

5 *Repair Works*—The total expenditure under this head during the year was Rs 5,826-13 against a budget grant of Rs 6,111. Both these amounts include payment on account of works executed in the previous year. The actual expenditure incurred on works done during the year was Rs 5,136 5-11 against the budget allotment of Rs 5,615. The details of expenditure incurred on several roads according to their class are given below—

- (1) The two unmetalled but built second class roads, viz, Chaibassa-Bond and Chaibassa-Subarnarekha river, aggregating 10½ miles in length, were maintained by renewing gravel and earthwork, the average cost per mile being Rs 1475.
- (2) Sixty-nine miles of third class unmetalled roads, having partly temporary and partly permanent bridges, were maintained at a cost of Rs 1,302-11, being 1888 per mile. The above cost include sums of Rs 330-15-6 and Rs 343-10-10 expended in making additions and alterations to the two masonry culverts—one on the 6th and the other on the 12th mile of the Chaibassa-Jyntpurh road. This road, since the opening of the Bengal-Nagpur Railway, has considerably increased in importance.
- (3) Two hundred and fifty-six miles of fourth and fifth class roads were kept up in fair order at a cost of Rs 1,808-5-5.
- (4) Fifty-eight miles of village roads were maintained during the year at a cost of Rs 405-10-6, viz, 43 miles in Dhalbhum for Rs 317-14-5, and 15 miles in Kolhan for Rs. 87-12-1, the average cost being 70 per mile.
- (5) There are two inspection bungalows, Chakradharpur and Ghatsilla, furnished after the European style and eight rest-houses along the several roads under the Committee. The income from these bungalows was Rs 234-14 during the year, and the expenditure incurred in their maintenance was Rs 495-9-8. A further sum of Rs 81-13-7 was also spent in repairing the office building of the Road Cess Committee.

6 The following statement compares the revenue of the Committee (excluding advances and deposits), the expenditure on original and repair works and on the executive establishment employed on works, the percentage cost of such establishment on the amount spent on works, as also the percentage of total expenditure on works, including establishment calculated on the revenue—

Year	Revenue	Amount spent on original works.	Amount spent on repair works	Total expenditure on original and repair works.	Expenditure on account of establishment employed on works	Total expenditure on works including establishment employed on them	Percentage of cost of the establishment on works calculated on the amount actually spent on works	Percentage of total expenditure on works including establishment calculated on the revenue	REMARKS
1	2	3	4	5	6	7	8	9	10
1894-95	Rs 14,703	Rs 5,144	Rs 5,400	Rs 10,544	Rs 8,312	Rs 13,856	81 ½	93 0	Besides the expenditure on account of permanent establishment shown in column 6, a sum of Rs 818 was spent on temporary road establishment consisting of two road surkars and six ponds charged to both original and repair works in column 5. Deducting this sum from Rs 10,345 in column 5, and adding it to Rs 2,809 the percentage cost of establishment on works will be 28 0 per cent.
1895-96	61,090	4,518	5,827	10,345	2,809	13,154	27 1	87 1	

7. The annual accounts, as usual, have duly been examined by the standing Sub-Committee of audit and were finally approved of at a meeting of the District Road Committee, held on the 20th instant.

C H BOMPAS,
Chairman, District Road Committee.

Abstract of the Report by the Deputy Commissioner of the Sonthal Parganas on the operations of the District Road Account of the district for the year 1895-96.

[*Vide* letter No 251PW, dated the 11th July 1896, from R. Carstairs, Esq., Deputy Commissioner of the Sonthal Parganas, to the Commissioner of the Bhagalpur Division]

1 This district is not under the operations of either the Bengal Local Self-Government Act of 1885 or the Cess Act, IX (B C) of 1880. The Deputy Commissioner controls all road works throughout the district with the aid of the Subdivisional Officers and the District Engineer.

RECEIPTS

2 There being no cess collections, funds were provided by Government grants-in-aid. The receipts for the year 1895-96, compared with those of the previous year, are shown below —

		1894-95	1895-96
		Rs.	Rs.
Balance on 1st April	...	19,094	23,765

Deposits	..	600	2,817
Provident Fund Receipts	44
Total Receipts	...	1,09,721	1,07,559

3. The villagers of Ghormara have deposited Rs 25 out of an estimated cost of Rs 73 for the construction of a rubble masonry irrigation channel and for the protection of the Ghormara bridge. The amount has been shown under 'private donations'

4 *Grant from Government* — The increase under this head is chiefly due to the grant for road works having been increased during the year to Rs 50,000. The receipts shown under this head are made up thus—

	Rs.
(1) Annual grant for road works	34,000
(2) Additional	16,000
(3) Grant from 'Land Revenue'	15,624
(4) Special grant for works and repairs in connection with Provincial and Imperial works	10,382
(5) Special grant for cost of gauge reading	122
(6) Travelling allowance of a Public Works subordinate (miscellaneous)	82
Total Rs.	76,210

Deduct amount allotted in 1894-95 for the construction of the Town Police at Sahibganj, but refunded in 1895-96 under orders of Government owing to the District Superintendent volunteering to do the work departmentally ...

Balance ... 73,258

EXPENDITURE.

Total disbursements	86,174	97,032
Balance on 31st March	23,765	10,528
GRAND TOTAL	1,09,939	1,07,560

The amount of Rs. 218 shown under 'Refunds' represents the rent of farmed ferries credited to the fund by a misapprehension in 1894-95, which was refunded in 1895-96. The increase of Rs. 165 under 'District Road Account establishment' is due to the entertainment of a clerk on Rs. 20 from the Government Estates' Improvement Fund for the whole year, instead of two clerks for 5 months each on the same pay; to the pay of the daftry-peon being raised from Rs. 60 to Rs. 84 a year, and to the payment of Rs. 100 towards the contribution for pension to the accountant under Rule 3 of the Pension Rules sanctioned by Government in its No. 1000 L S-G, dated 12th March 1895, for the employees of the Sonthal Parganas District Road Account. The increase under 'Public Works Establishment' is due to the entertainment of the three temporary Sub-overseers during the year, and to the increase granted to the pay of the District Engineer, Overseer, and the District Engineer's clerk and accountant. The decrease under 'Staging Bungalow Establishment' is owing to no expenditure having had to be incurred towards the purchase of crockery during 1895-96. The increase under 'Petty Construction and Repairs' is due to the system of quadrennial repairs having been introduced this year to the staging bungalows in the district. The decrease under 'Miscellaneous' is due to the fact that in 1894-95 the large outstanding balances of advances in the hands of the Subdivisional Officers of Rajmahal and Godda were written off with the sanction of the Commissioner and shown under this head. The expenditure shown under 'Contribution to Provident Fund' and 'Savings Banks deposits' during 1895-96 was owing to the rules for the opening of the Provident Fund having been for the first time introduced during 1895-96. In consequence of the rules sanctioned by Government in No. 8556 F. of 25th June 1894 for the guidance of the Subdivisional Officers administering road and other funds having been introduced during the year 1895-96, the 'Advances' made during the year were less than those of the previous year. The increase under 'Deposits' was due to the fact that owing to the death of the District Engineer on 10th March 1896, and there being no responsible officer, bills could not be checked during the year, and certain amounts were therefore kept in deposit till the works were checked by the Supervisor deputed by the Public Works Department to look after the Public Works Department buildings of this district. The total expenditure for 1895-96, excluding the 'Advances' and 'Deposits,' exceeds that for 1894-95 by Rs. 18,708, which is chiefly due to the increased expenditure from 'Land-Revenue' for original works in the Government Estate Damodar-koh, being Rs. 13,464 against Rs. 3,616 in the preceding year, to that from Public Works Fund, being Rs. 2,190 against Rs. 798 in the previous year, and to the increased expenditure under 'Repairs' from the District Road Account, chiefly on road No. 2 Dumka-Rampur Hat Road, being Rs. 10,741 against Rs. 4,243 in 1894-95.

6 *Original works*—The principal Original Works done during the year are detailed below.—

FROM DISTRICT ROAD ACCOUNT.

(1) Construction of a rubble stone masonry bridge of 3 spans of 10 feet each over the Bhurkundipore on the 15th mile of Dumka Madhupur road at a cost of Rs. 1,000.

(2) Construction of a rubble stone masonry bridge of 2 spans of 13 feet 7½ inches each, in place of the existing timber bridge, over the Churimara Nala on the 58th mile of the Bhagalpur-Suri road on which Rs. 399 only were spent during the year out of the estimated cost of Rs. 600.

(3) Construction of the Godda Inspection Bungalow on which Rs. 350 were spent during the year, over and above Rs. 1,184 spent in 1894-95 and a further sum of Rs. 123 spent in providing furniture and crockery for the same.

(4) Construction of an Inspection Bungalow at Pakour on which Rs. 1,315 were spent out of an estimated cost of Rs. 1,591 and some furniture and crockery were also purchased for this bungalow at a cost of Rs. 122-7-6.

(5) Improving the Pakour-Dhulan road on which Rs. 5,000 were spent during 1895-96. The work is in progress and is expected to be finished during the year 1896-97.

FROM ESTATES' IMPROVEMENT FUND

(6) Construction of two rubble stone masonry bridges, one of 2 spans of 22 feet 6 inches each, over the Majhara stream on the 9th mile, and the other of 2 spans of 17 feet each over the Alnara stream on the 11th mile of Dumka-Pakour road, at an outlay of Rs. 3,138 and Rs. 1,679-1-3 respectively.

(7) Construction of 4 masonry culverts, of 3 feet, 4 feet, 5 feet and 10 feet span respectively on the Rajabhat-Kaimatour road at a total cost of Rs. 895.

(8) Construction of 5 corrugated iron culverts of 2 feet diameter each in the Dumka Damin at a total outlay of Rs. 289.

(9) Construction of an iron girder bridge over the Morel stream in the Rajmahal Damin on which Rs. 7,428 were spent in 1895-96. The work is nearing completion.

(10) The construction of 45 rubble masonry pillars in Tehagrhā to mark the boundary between Mr. Grant's estate and the Rajmahal Damin on which Rs. 306 were spent.

(11) Improvement of the Taljhari Jharna by constructing a reservoir and a vat with a pukka drain on which Rs. 98 were spent.

(12) Construction of a masonry weir 2 feet high across the Talberia-Nala with 2 sluices therein of 8 ft span each and a masonry channel about 150 feet long from above the weir to the commencement of the rice-fields, out of an estimated cost of Rs. 1,450, Rs. 1,360 were spent on it of which Rs. 479 were spent in 1894-95. The work was projected for irrigating the rice-fields.

(13) Improving and enlarging the Chandrapara Bund in the Dumka Damin at a cost of Rs. 188.

(14) Construction of a road through the hills from Burhait to Tinpahar in the Rajmahal Sub-division, on which a sum of Rs. 158 was spent against an estimated cost of Rs. 8,000.

(15) Improvement of the Simra-Burhait and Tinpahar-Pratabpur roads at a cost of Rs. 741 and 1,124 respectively.

FROM PROVINCIAL FUND

(16) Construction of three mortuaries—one at Pakour, one at Rajmahal and one at Dumka. Rupees 329 were paid for the one at Dumka. The other two were not paid for.

(17) Additions and alterations to the Intermediate Jail at Dumka at a cost of Rs. 754.

(18) Construction of three combined latrines and urinals for ministerial officers at Dumka, Deoghur and Rajmahal at an outlay of Rs. 270, Rs. 269 and Rs. 268 respectively.

(19) Sinking a well in the compound of the Subdivisional residence bungalow at Pakour on which a sum of Rs. 300 was spent against an estimate of Rs. 605.

FROM PRIVATE DONATIONS.

(20) Construction of a road bridge over Hahajore, on the 23rd mile of Godda-Pirpainti road with a regulating sluice to take water when necessary for irrigation purposes, and a waste weir to let the surplus water pass off. Out of an estimated cost of Rs. 2,500 paid by the zamindar of Mohagama, Rs. 1,020 were spent during the year in addition to Rs. 393 spent in 1894-95.

7 *Repairs*, (a) *from the District Road Account*—There were altogether 39 lines of scheduled roads in the district in 1894-95 to which 2 were added during the year 1895-96, making 41 in all. All of them were repaired during the year with the exception of road No. 13, Kumnabad road, which is maintained by the zamindar of Belpatta.

The following Table compares the outlay on each kind of district and village roads during the years 1894-95 and 1895-96

DESCRIPTION OF ROADS	1894-95			1895-96		
	Length	Outlay	Average cost per mile	Length	Outlay	Average cost per mile
1	2	3	4	5	6	7
District Roads, Class I	183	Rs 15,766	Rs 86	177	Rs 26,652	Rs. 151
Ditto II	225	7,081	31	238	6,273	26
Ditto III	36	1,112	31	103	1,734	16
Ditto IV	306½	4,973	16	206	2,977	14
Total	750½	28,932	.	729	37,636	
Village Roads, Class I	5			5	100	20
Ditto II	15	255	17	15	266	18
Ditto III	2½	150	60			
Ditto IV	14	401	29
Total	17½	405		34	767	
GRAND TOTAL	768	29,337	...	763	38,390	...

Out of 19 Inspection bungalows and 3 huts in the district, only 2 Inspection bungalows are maintained by the zamindars. The rest were kept in repair during the year. The cost of their maintenance is charged against the roads on which the bungalows and the huts stand. The road office bungalow was partially repaired at a cost of Rs 145.

(b) *From Land-Revenue.—Government Estate Improvement Fund*—Out of the budget grant of Rs. 3,248, Rs 1,123 were spent for repairs of roads, Rs 732 for repairs of bungalows, Rs 463 for repairs of bunds, bridges and tanks in the Damini-Koh, Rs 138 for the purchase of furniture for the Damini bungalow and Rs 336 for allowances to mustagirs and others for looking after some of the works in the Pakour and the Dumka Damini. The total outlay under this head was Rs 2,792 against Rs 4,430 in the previous year.

(c) *From Provincial and Imperial Funds*—A sum of Rs 7,268 was spent for the maintenance of the Public Works Department buildings in this district, against Rs 7,540 available for expenditure, leaving a balance of Rs 272.

8. *Sanitation*—Owing to insufficient funds, nothing could be done under this head. The only important proposal is the Rajmahal drainage scheme, which is under enquiry.

9. *Arboriculture*—Rupees 641 were spent in the salaries of mahs and in repairing the fencing of trees. 1,182 trees were planted during the year along the road-sides, and in all 1,485 trees died, leaving 25,543 established roadside trees. The seedlings that were planted in the nurseries started last year are thriving satisfactorily.

10. *Establishment*.—The following statement shows the relative expenditure on works and repairs compared with the expenditure on establishment—

Year	BUDGET GRANT					OUTLAY					ESTABLISHMENT		PERCENTAGE COST OF ESTABLISHMENT	
	Original works	Repairs	Partly construction and repairs	Tools and plant	Total	Original works	Repairs	Partly construction and repairs	Tools and plant	Total	Budget grant	Outlay	Budget grant	Outlay
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
1894-95	95,541	47,077	180,101	620,100	79,938	17,086	30,847	180,593	832,793	59,761	8,411	8,417	10.03	14.04
1895-96	92,021	50,852	180,101	1,000	64,981	27,113	46,403			77,102	10,565	10,318	12.52	13.34

11. *Staging Bungalows, Petty Construction and Repairs.*—There are two staging bungalows in the district, besides the half of a Provincial bungalow No 7 at Dumka, which has been lent to the District Road Account by Government for a staging bungalow at head-quarters. The income of these two bungalows was Rs 213 in 1895-96, against Rs 103 in the preceding year. Partial quadrennial repairs were done to them at a cost of Rs. 393, against a budget grant of Rs. 400.

Abstract of the Report by the Assistant Commissioner, Chittagong Hill Tracts, on the operations of the District Road Account of the district during the year 1895-96.

[Vide letters No. 6R and No 14R, dated 6th April and 5th May 1896, respectively, from J. A. Caw-Browne, Esq., Officiating Assistant Commissioner, Chittagong Hill Tracts, to the Commissioner, Chittagong Division.]

RECEIPTS.

This being a non-cess district, there were no cess collections in it. Funds were therefore provided by a Government grant-in-aid. The receipts and the expenditure, as well as the opening and closing balances of the year, compared with those of the previous year, are shown below.—

YEAR	Opening balance on 1st April 1895	Actual receipts during the year	Total receipts, including balance	Expenditure	Closing balance
1	2	3	4	5	6
	Rs A P	Rs A P	Rs A P	Rs A P	Rs A P
1894-95	12,308 2 8	37,257 8 0	49,565 10 8	36,116 4 8	13,449 6 0
1895-96	13,449 6 0	31,773 2 0	45,222 8 0	34,495 10 3	10,726 13 9

The decrease in the receipts during the year 1895-96 was due to the amount of Government grants having been less than that of the year 1894-95, and to the non-receipt during the year of the annual subsidy of the Chittagong District Board for the maintenance of their portion of the Chittagong-Fort Haka Road.

EXPENDITURE

2 Of the gross expenditure of the year, viz Rs 34,435-10-3, Rs 34,027-0-3 represent, as shown in accounts, the expenditure on Public Works, which is detailed below:—

Works	Repairs	Total Works and Repairs	Establishment	Tools and Plant	Total	Percentage of the cost of establishment on the outlay on Works and Repairs
1	2	3	4	5	6	7
Rs 3,157 1 0	Rs 24,089 10 0	Rs 27,196 11 0	Rs 6,586 1 3	Rs 244 4 0	Rs 34,027 0 3	24 21

The expenditure on Repairs includes an expenditure of Rs. 500 on the maintenance of the portion of the Chittagong-Fort Haka Road lying between Raojan and Rangamati, which falls in the Regulation district for which no subsidy was received from the Chittagong District Board.

3 The following Original Works were executed during the year:—

I.—Combined Post and Telegraph Office at Rangamati with timber flooring, double tall walls and thatched roof was constructed at a cost of Rs 806-0-3 against a sanctioned grant of Rs 814; the work was commenced on the 1st April and completed on the 31st May 1896.

II.—Ten light sawn timber bridges on the section of Chittagong-Fort Haka Road lying between Raojan and Rangamati were constructed at a cost of Rs 1,565-12-9 against a sanctioned estimate of Rs 1,568.

III.—Four light sawn timber bridges on the road from Chandraghona to Bandarban were taken in hand and completed during the year at a cost of Rs 785-4 against a sanctioned estimate of Rs 918.

Hooghly Collectorate, the 16th November 1896.

D. B ALLEN, Collector.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Puri will be put up to sale at the Puri Collectorate on the 28th of April 1897, corresponding with 17th Bysack 1304 Umla —

Conditions of Sale

- 1st —The estate to be sold to the highest bidder above the upset price which will be fixed by Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd —If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th —If the amount of purchase money exceed Rs 100, one fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale

F S HAMILTON, Collector

Advertisement of Sale

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situated in the district of Malda, will be put up to sale at the Malda Collectorate on the 15th January 1897, corresponding with 3rd Magh 1303 B S.

The purchasers will be subject to the following conditions of sale —

Conditions of Sale

- 1st —The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.
- 2nd —The sales to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd —If the amount of purchase-money do not exceed Rs 100, the whole amount to be paid down at once.
- 4th —If the amount of purchase money exceed Rs 100, one fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.
